

§ 130A-60. Consideration of reports and adoption of a plan.

(a) A report filed by the engineers pursuant to G.S. 130A-59 shall be given consideration by the sanitary district board and the board shall adopt a plan. Before adopting a plan the board may hold a public hearing for the purpose of considering objections to the plan. Once adopted, the sanitary district board shall submit the plan to the Department. The plan shall not become effective until it is approved by the Department.

(b) The provisions of this section and of G.S. 130A-58 shall apply when the sanitary district board determines that adoption of the plan requires the issuance of bonds. However, these provisions shall not apply to a proposed purchase of firefighting equipment and apparatus. Failure to observe or comply with these provisions shall not, however, affect the validity of the bonds of a sanitary district.
