

Article 15.

Passenger Tramway Safety.

§ 95-116. Declaration of policy.

In order to safeguard life, health, property, and the welfare of this State, it shall be the policy of the State of North Carolina to protect its citizens and visitors from unnecessary mechanical hazards in the operation of ski tows, lifts, tramways and related devices to insure that reasonable design and construction are used, that accepted safety devices and sufficient personnel are provided for, and that periodic inspections and adjustments are made which are deemed essential to the safe operation of ski tows, ski lifts and passenger tramways. The primary responsibility for design, construction, maintenance, and inspection rests with the operators of such passenger tramway devices. The State, through the Commissioner of Labor, shall register all ski lift devices and passenger tramways and establish reasonable standards of design and operational practices, and cause to be made such inspections as may be necessary in carrying out this policy. (1969, c. 1021.)
