§ 143B-146.2. School-Based Management and Accountability Program in residential schools.

(a) The Secretary, in consultation with the General Assembly and the State Board, may designate residential schools that must participate in the Program. The primary goal of the Program is to improve student performance. The Program is based upon an accountability, recognition, assistance, and intervention process in order to hold each participating school, its principal, and the instructional personnel accountable for improved student performance in that school.

(b) In order to support the participating schools in the implementation of this Program, the State Board, in consultation with the Secretary, shall adopt guidelines, including guidelines to:

- (1) Assist the Secretary and the participating schools in the development and implementation of the Program.
- (2) Recognize the participating schools that meet or exceed their goals.
- (3) Identify participating schools that are low-performing and assign assistance teams to those schools. The assistance teams should include individuals with expertise in residential schools, individuals with experience in the education of children with disabilities, and others the State Board, in consultation with the Secretary, considers appropriate.
- (4) Enable assistance teams to make appropriate recommendations.

(c) The Program shall provide increased decision making and parental involvement at the school level with the goal of improving student performance.

(d) Consistent with improving student performance, the Secretary shall provide maximum flexibility to participating schools in the use of funds to enable those schools to accomplish their goals. (1998-131, s. 5; 2001-424, s. 21.81(c); 2005-195, s. 2; 2013-247, s. 5; 2015-65, s. 1.4.)

To those ends, the State Board shall design and implement an accountability system that sets annual performance standards for each participating school in order to measure the growth in performance of the students in each individual school. (1998-131, s. 5; 2015-65, s. 1.5.)

§ 143B-146.4: Repealed by Session Laws 2015-65, s. 1.6, effective June 11, 2015.

§ 143B-146.5. Identification of low-performing schools.

(a) The State Board shall design and implement a procedure to identify low-performing schools on an annual basis. Low-performing schools are those participating schools in which there is a failure to meet the minimum growth standards, as defined by the State Board, and a majority of students are performing below grade level.

(b) By July 10 of each year, the Secretary shall do a preliminary analysis of test results to determine which participating schools the State Board may identify as low-performing under this section. The Secretary then shall proceed under G.S. 143B-146.7. In addition, within 30 days of the initial identification of a school as low-performing by the Secretary or the State Board, whichever occurs first, the Secretary shall develop a preliminary plan for addressing the needs of that school. Before the Secretary adopts this plan, the Secretary shall make the plan available to the residential school personnel and the parents and guardians of the students of the school, and shall allow for written comments. Within five days of adopting the plan, the Secretary shall submit the plan to the State Board. The State Board shall review the plan expeditiously and, if appropriate, may offer recommendations to modify the plan. The Secretary shall consider any recommendations made by the State Board.

(c) Each identified low-performing school shall provide written notification to the parents of students attending that school. The written notification shall include a statement that the State Board of Education has found that the school has "failed to meet the minimum growth standards, as defined by the State Board, and a majority of students in the school are performing below grade level." This notification also shall include a description of the steps the school is taking to improve student performance. (1998-131, s. 5.)

§ 143B-146.6. Assistance teams; review by State Board.

(a) The State Board may assign an assistance team to any school identified as low-performing under this Part or to any other school that the State Board determines would benefit from an assistance team. The State Board shall give priority to low-performing schools in which the educational performance of the students is declining. The Department shall, with the approval of the Secretary, provide staff as needed and requested by an assistance team.

(b) When assigned to an identified low-performing school, an assistance team shall:

- (1) Review and investigate all facets of school operations, including instructional and residential, and assist in developing recommendations for improving student performance at that school.
- (2) Evaluate at least semiannually the principal and instructional personnel assigned to the school and make findings and recommendations concerning their performance.
- (3) Collaborate with school staff, the Department, and the Secretary in the design, implementation, and monitoring of a plan that, if fully implemented, can reasonably be expected to alleviate problems and improve student performance at that school.
- (4) Make recommendations as the school develops and implements this plan.
- (5) Review the school's progress.
- (6) Report, as appropriate, to the Secretary, the State Board, and the parents on the school's progress. If an assistance team determines that an accepted school improvement plan developed under G.S. 143B-146.12 is impeding student performance at a school, the team may recommend to the Secretary that he vacate the relevant portions of that plan and direct the school to revise those portions.

(c) If a participating school fails to improve student performance after assistance is provided under this section, the assistance team may recommend that the assistance continue or that the Secretary take further action under G.S. 143B-146.7.

(d) The Secretary, in consultation with the State Board, shall annually review the progress made in identified low-performing schools. (1998-131, s. 5; 2005-195, s. 4; 2011-145, s. 7.13(u); 2011-391, s. 14(b).)

§ 143B-146.7. Consequences for personnel at low-performing schools.

(a) Within 30 days of the initial identification of a school as low-performing, whether by the Secretary under G.S. 143B-146.5(b) or by the State Board under G.S. 143B-146.5(a), the Secretary shall take one of the following actions concerning the school's principal: (i) decide whether the principal should be retained in the same position, (ii) decide whether the principal should be retained in the same position and a plan of remediation should be developed, (iii) decide whether the principal should be transferred, or (iv) proceed under the North Carolina Human Resources Act to dismiss or demote the principal. The principal may be retained in the same position without a plan for remediation only if the principal was in that position for no more than two years before the school is identified as low-performing. The principal shall not be transferred to another position unless (i) it is in a principal position in which the principal previously demonstrated at least two years of success, (ii) there is a plan to evaluate and provide remediation to the principal for at least one year following the transfer to assure the principal does not impede student performance at the school to which the principal is being transferred; and (iii) the parents of the students at the school to which the principal is being transferred are notified. The principal shall not be transferred to another low-performing school. The Secretary may, at any time, proceed under the North Carolina Human Resources Act for the dismissal of any principal who is assigned to a low-performing school to which an assistance team has been assigned. The Secretary shall proceed under the North Carolina Human Resources Act for the dismissal of any principal when the Secretary receives from the assistance team assigned to that school two consecutive evaluations that include written findings and recommendations regarding the principal's inadequate

performance. The Secretary shall order the dismissal of the principal if the Secretary determines from available information, including the findings of the assistance team, that the low performance of the school is due to the principal's inadequate performance. The Secretary may order the dismissal of the principal if (i) the Secretary determines that the school has not made satisfactory improvement after the State Board assigned an assistance team to that school; and (ii) the assistance team makes the recommendation to dismiss the principal. The Secretary may order the dismissal of a principal before the assistance team assigned to the principal's school has evaluated that principal if the Secretary determines from other available information that the low performance of the school is due to the principal's inadequate performance. The burden of proof is on the principal to establish that the factors leading to the school's low performance were not due to the principal's inadequate performance. The burden of proof is on the Secretary to establish that the school failed to make satisfactory improvement after an assistance team was assigned to the school. Two consecutive evaluations that include written findings and recommendations regarding that person's inadequate performance from the assistance team are substantial evidence of the inadequate performance of the principal. Within 15 days of the Secretary's decision concerning the principal, but no later than September 30, the Secretary shall submit to the State Board a written notice of the action taken and the basis for that action.

(b) At any time after the State Board identifies a school as low-performing under this Part, the State Board shall proceed under G.S. 115C-325(p1) or G.S. 115C-325.11 for the dismissal of licensed instructional personnel assigned to that school.

(c) At any time after the State Board identifies a school as low-performing under this Part, the Secretary shall proceed under the North Carolina Human Resources Act for the dismissal of instructional personnel who are not certificated when the Secretary receives two consecutive evaluations that include written findings and recommendations regarding that person's inadequate performance from the assistance team. These findings and recommendations shall be substantial evidence of the inadequate performance of the instructional personnel. The Secretary may proceed under the North Carolina Human Resources Act for the dismissal of instructional personnel who are not certificated when: (i) the Secretary determines that the school has failed to make satisfactory improvement after the State Board assigned an assistance team to that school; and (ii) that the assistance team makes the recommendation to dismiss that person for a reason that constitutes just cause for dismissal under the North Carolina Human Resources Act.

(d) The certificated instructional personnel working in a participating school at the time the school is identified by the State Board as low-performing are subject to G.S. 115C-105.38A.

(e) The Secretary may terminate the contract of a school administrator dismissed under this section. Nothing in this section shall prevent the Secretary from refusing to renew the contract of any person employed in a school identified as low-performing under this Part. (1998-131, s. 5; 2005-195, s. 5; 2013-360, s. 9.7(m), (w); 2013-382, s. 9.1(c); 2017-157, s. 2(n).)

§ 143B-146.8. Evaluation of licensed personnel and principals; action plans; State Board notification.

(a) Annual Evaluations; Low-Performing Schools. – The principal shall evaluate at least once each year all licensed personnel assigned to a participating school that has been identified as low-performing but has not received an assistance team. The evaluation shall occur early enough during the school year to provide adequate time for the development and implementation of an action plan if one is recommended under subsection (b) of this section. If the employee is a teacher as defined under G.S. 115C-325(a)(6) with career status or a teacher as defined in

G.S. 115C-325.1(6) on contract, either the principal or an assessment team assigned under G.S. 143B-146.9 shall conduct the evaluation. If the employee is a school administrator as defined under G.S. 115C-287.1(a)(3), the Superintendent shall conduct the evaluation.

Notwithstanding this subsection or any other law, the principal shall observe at least three times annually, a teacher shall observe at least once annually, and the principal shall evaluate at least once annually, all teachers who have been employed for less than three consecutive years. All other employees defined as teachers under G.S. 115C-325(a)(6) with career status or teachers as defined in G.S. 115C-325.1(6) on a four-year contract who are assigned to participating schools that are not designated as low-performing shall be evaluated annually unless the State Board adopts rules that allow specified categories of teachers with career status or on four-year contracts to be evaluated more or less frequently. The State Board also may adopt rules requiring the annual evaluation of nonlicensed personnel. This section shall not be construed to limit the duties and authority of an assistance team assigned to a low-performing school.

(b) **Action Plans.** – If a licensed employee in a participating school that has been identified as low-performing receives an unsatisfactory or below standard rating on any function of the evaluation that is related to the employee's instructional duties, the individual or team that conducted the evaluation shall recommend to the principal that: (i) the employee receive an action plan designed to improve the employee's performance; or (ii) the principal recommend that the employee who is a career employee be dismissed or demoted as provided in G.S. 115C-325 or the employee who is a teacher on contract not be recommended for renewal; or (iii) if the employee who is a teacher on contract engages in inappropriate conduct or performs inadequately to such a degree that such conduct or performance causes substantial harm to the educational environment that a proceeding for immediate dismissal or demotion under G.S. 115C-325.4 be instituted. The principal shall determine whether to develop an action plan, to not recommend renewal of the employee's contract, or to recommend a dismissal proceeding. The person who evaluated the employee or the employee's supervisor shall develop the action plan unless an assistance team or assessment team conducted the evaluation. If an assistance team or assessment team conducted the evaluation, that team shall develop the action plan in collaboration with the employee's supervisor. Action plans shall be designed to be completed within 90 instructional days or before the beginning of the next school year. The State Board shall develop guidelines that include strategies to assist in evaluating licensed personnel and developing effective action plans within the time allotted under this section. The State Board may adopt policies for the development and implementation of action plans or professional development plans for personnel who do not require action plans under this section.

(c) **Reevaluation.** – Upon completion of an action plan under subsection (b) of this section, the principal or the assessment team shall evaluate the employee a second time. If on the second evaluation the employee receives one unsatisfactory or more than one below standard rating on any function that is related to the employee's instructional duties, the principal shall recommend that the employee with career status be dismissed or demoted under G.S. 115C-325, or that an employee's contract not be renewed or if the employee engages in inappropriate conduct or performs inadequately to such a degree that such conduct or performance causes substantial harm to the educational environment, that the employee be dismissed or demoted under G.S. 115C-325.4. The results of the second evaluation shall constitute substantial evidence of the employee's inadequate performance.

(d) **State Board Notification.** – If an employee is dismissed for cause or an employee's contract is not renewed as a result of a superintendent's recommendation under subsection (b) or (c)

of this section, the State Board shall be notified of the action, and the State Board annually shall provide to all local boards of education the names of those individuals. If a local board hires one of these individuals, that local board shall proceed under G.S. 115C-333(d).

(e) Civil Immunity. – There shall be no liability for negligence on the part of the Secretary or the State Board, or their employees, arising from any action taken or omission by any of them in carrying out this section. The immunity established by this subsection shall not extend to gross negligence, wanton conduct, or intentional wrongdoing that would otherwise be actionable. The immunity established by this subsection is waived to the extent of indemnification by insurance, indemnification under Articles 31A and 31B of Chapter 143 of the General Statutes, and to the extent sovereign immunity is waived under the Tort Claims Act, as set forth in Article 31 of Chapter 143 of the General Statutes.

(f) Evaluation of Principals. – Each year the Secretary shall evaluate the principals. (1998-131, s. 5; 2005-195, s. 6; 2013-247, s. 6; 2013-360, ss. 9.7(n), (x); 2017-157, ss. 2(k), (n).)

§ 143B-146.9. Assessment teams.

The State Board shall develop guidelines for the Secretary to use to create assessment teams. The Secretary shall assign an assessment team to every low-performing school that has not received an assistance team. The Secretary shall ensure that assessment team members are trained in the proper administration of the employee evaluation used in the participating schools. If service on an assessment team is an additional duty for an employee of a local school administrative unit or an employee of a residential school, the Secretary may pay the employee for that additional work.

Assessment teams shall:

- (1) Conduct evaluations of certificated personnel in low-performing schools;
- (2) Provide technical assistance and training to principals who conduct evaluations of certificated personnel;
- (3) Develop action plans for certificated personnel; and
- (4) Assist principals in the development and implementation of action plans. (1998-131, s. 5; 2005-195, s. 7.)

§ 143B-146.10. Development of performance standards and criteria for certificated personnel.

The State Board, in consultation with the Secretary, shall revise and develop uniform performance standards and criteria to be used in evaluating certificated personnel, including school administrators. These standards and criteria shall include improving student achievement, employee skills, and employee knowledge. The standards and criteria for school administrators also shall include building-level gains in student learning and effectiveness in providing for school safety and enforcing student discipline. The Secretary shall develop guidelines for evaluating principals. The guidelines shall include criteria for evaluating a principal's effectiveness in providing safe schools and enforcing student discipline. (1998-131, s. 5; 2005-195, s. 8.)

§ 143B-146.11. School calendar.

Each school shall adopt a school calendar that includes a minimum of 180 days and 1,000 hours of instruction covering at least nine calendar months. In the development of its school calendar, each school shall consult with parents, the residential school personnel, and the local school administrative unit in which that school is located. (1998-131, s. 5.)

§ 143B-146.12: Repealed by Session Laws 2011-145, s. 7.13(v), effective July 1, 2011.

§ 143B-146.13. School technology plan.

(a) No later than December 15, 1998, the Secretary shall develop a school technology plan for the residential schools that meets the requirements of the State school technology plan. In developing a school technology plan, the Secretary is encouraged to coordinate its planning with other agencies of State and local government, including local school administrative units.

The Department of Information Technology shall assist the Secretary in developing the parts of the plan related to its technological aspects, to the extent that resources are available to do so. The Department of Public Instruction shall assist the Secretary in developing the instructional and technological aspects of the plan.

The Secretary shall submit the plan that is developed to the Department of Information Technology for its evaluation of the parts of the plan related to its technological aspects and to the Department of Public Instruction for its evaluation of the instructional aspects of the plan. The State Board of Education, after consideration of the evaluations of the Department of Information Technology and the Department of Public Instruction, shall approve all plans that comply with the requirements of the State school technology plan.

(b) After a plan is approved by the State Board of Education, all funds spent for technology in the residential schools shall be used to implement the school technology plan. (1998-131, s. 5; 2004-129, s. 45; 2015-241, s. 7A.4(x).)

§ 143B-146.14. Dispute resolution; appeals to Secretary.

The Secretary shall establish a procedure for the resolution of disputes between the residential schools and the parents or guardians of students who attend the schools.

An appeal shall lie from the decision of all residential school personnel to the Secretary or the Secretary's designee. In all of these appeals it is the duty of the Secretary to see that a proper notice is given to all parties concerned and that a record of the hearing is properly entered in the records. (1998-131, s. 5.)

§ 143B-146.15. Duty to report certain acts to law enforcement.

When the principal has personal knowledge or actual notice from residential school personnel or other reliable source that an act has occurred on school property involving assault resulting in serious personal injury, sexual assault, sexual offense, rape, kidnapping, indecent liberties with a minor, assault involving the use of a weapon, possession of a firearm in violation of the law, possession of a weapon in violation of the law, or possession of a controlled substance in violation of the law, the principal shall immediately report the act to the appropriate local law enforcement agency. Failure to report under this section is a Class 3 misdemeanor. The North Carolina Partnership may contract at the State level to obtain services or resources when the North Carolina Partnership determines it would be more efficient to do so.

In the event that the North Carolina Partnership determines that a local partnership is not fulfilling its mandate to provide programs and services designed to meet the developmental needs of children in order to prepare them to begin school healthy and ready to succeed and is not being accountable for the programmatic and fiscal integrity of its programs and services, the North Carolina Partnership may suspend all funds to the partnership until the partnership demonstrates that these defects are corrected. The North Carolina Partnership may use additional factors to determine whether to adjust the local partnerships' allocations. These additional factors shall be developed with input from the local partnerships and shall be communicated to the local partnerships when the additional factors are selected. These additional factors may include board involvement, family and community outreach, collaboration among public and private service agencies, and family involvement.

On the basis of performance assessments, local partnerships annually shall be rated "superior", "satisfactory", or "needs improvement".

The North Carolina Partnership may contract with outside firms to conduct the performance assessments of local partnerships.

- (8) The North Carolina Partnership shall establish a local partnership advisory committee comprised of 15 members. Eight of the members shall be chosen from past board chairs or duly elected officers currently serving on local partnerships' board of directors at the time of appointment and shall serve three-year terms. (c) The North Carolina Partnership shall require each local partnership to place in each of its contracts a statement that the contract is subject to monitoring by the local partnership and North

Carolina Partnership, that contractors and subcontractors shall be fidelity bonded, unless the contractors or subcontractors receive less than one hundred thousand dollars (\$100,000) or unless the contract is for child care subsidy services, that contractors and subcontractors are subject to audit oversight by the State Auditor, and that contractors and subcontractors shall be subject to the requirements of G.S. 143C-6-22. Organizations subject to G.S. 159-34 shall be exempt from this requirement.

- (5) The results of the previous year's evaluations of the Initiatives or related programs and services.
- (6) A description of significant policy and program changes.
- (7) Any recommendations for legislative action.

(e) The North Carolina Partnership shall develop guidelines for local partnerships to follow in selecting capital projects to fund. The guidelines shall include assessing the community needs in relation to the quantity of child care centers, assessing the cost of purchasing or constructing new facilities as opposed to renovating existing facilities, and prioritizing capital needs such as construction, renovations, and playground equipment and other amenities.

(f) The North Carolina Partnership for Children, Inc., shall establish uniform guidelines and a reporting format for local partnerships to document the qualifying expenses occurring at the contractor level. Local partnerships shall monitor qualifying expenses to ensure they have occurred and meet the requirements prescribed in this subsection. (1993, c. 321, s. 254(a); 1993 (Reg. (a) The Department shall:

- (1) Repealed by Session Laws 1998-212, s. 12.37B(a), effective October 30, 1998.
- (1a) Develop and conduct a statewide needs and resource assessment every third year, beginning in the 1997-98 fiscal year. This needs assessment shall be conducted in cooperation with the North Carolina Partnership and with the local partnerships. This needs assessment shall include a statewide assessment of capital needs. The data and findings of this needs assessment shall form the basis for annual program plans developed by local partnerships and approved by the North Carolina Partnership.
- (2) Recodified as (a)(1a) by Session Laws 1998-212, s. 12.37B(a).
- (2a) Repealed by Session Laws 1998-212, s. 12.37B(l), effective October 30, 1998.

- (3) Provide technical and administrative assistance to local partnerships, particularly during the first year after they are selected under this Part to receive State funds. The Department, at any time, may authorize the North Carolina Partnership or a governmental or public entity to do the contracting for one or more local partnerships. After a local partnership's first year, the Department may allow the partnership to contract for itself.
- (4) Adopt, in cooperation with the North Carolina Partnership, any rules necessary to implement this Part, including rules to ensure that State leave policy is not applied to the North Carolina Partnership and the local partnerships. In order to allow local partnerships to focus on the development of long-range plans in their initial year of funding, the Department may adopt rules that limit the categories of direct services for young children and their families for which funds are made available during the initial year.
- (5) Repealed by Session Laws 1996, Second Extra Session, c. 18, s. 24.29(c).
- (6) Annually update its funding formula, in collaboration with the North Carolina Partnership for Children, Inc., using the most recent data available. These amounts shall serve as the basis for determining "full funding" amounts for each local partnership.

(b) Repealed by Session Laws 1998-212, s. 12.37B(a), effective October 30, 1998. (1993 (Reg. Sess., 1994), c. 766, s. 1; 1996, 2nd Ex. Sess., c. 18, s. 24.29(c); 1997-443, s. 11.55(m); 1998-212, s. 12.37B(a), (b); 2000-67, s. 11.28(b); 2002-126, s. 10.55(e).)

§ 143B-168.14. Local partnerships; conditions.

(a) In order to receive State funds, the following conditions shall be met:

- (1) Each local partnership shall develop a comprehensive, collaborative, long-range plan of services to children and families in the service-delivery area. No existing local, private, nonprofit 501(c)(3) organization, other than one established on or after July 1, 1993, and that meets the guidelines for local partnerships as established under this Part, shall be eligible to apply to serve as the local partnership for the purpose of this Part. The Board of the North Carolina Partnership may authorize exceptions to this eligibility requirement.
- (2) Each local partnership shall agree to adopt procedures for its operations that are comparable to those of Article 33C of Chapter 143 of the General Statutes, the Open Meetings Law, and Chapter 132 of the General Statutes, the Public Records Law, and provide for enforcement by the Department. The procedures may provide for the confidentiality of personnel files comparable to Article 7 of Chapter 126 of the General Statutes.
- (3) Each local partnership shall adopt procedures to ensure that all personnel who provide services to young children and their families under this Part know and understand their responsibility to report suspected child abuse, neglect, or dependency, as defined in G.S. 7B-101.
- (4) Each local partnership shall participate in the uniform, standard fiscal accountability plan developed and adopted by the North Carolina Partnership.

(b) Each local partnership shall be subject to audit and review by the North Carolina Partnership. The North Carolina Partnership shall contract for annual financial and compliance audits of local partnerships that are rated "needs improvement" in performance assessments

authorized in G.S. 143B-168.12(a)(7). Local partnerships that are rated "superior" or "satisfactory" in performance assessments authorized in G.S. 143B-168.12(a)(7) shall undergo biennial financial and compliance audits as contracted for by the North Carolina Partnership. The North Carolina Partnership shall provide the State Auditor with a copy of each audit conducted pursuant to this subsection. (1993 (Reg. Sess., 1994), c. 766, s. 1; 1996, 2nd Ex. Sess., c. 18, s. 24.29(d)(1); 1997-506, s. 59; 1998-202, s. 13(II); 1998-212, s. 12.37B(a); 2003-284, s. 19.1; 2007-323, s. 10.19B(b); 2009-451, s. 20C.1(b).)

§ 143B-168.15. Use of State funds.

(a) State funds allocated to local projects for services to children and families shall be used to meet assessed needs, expand coverage, and improve the quality of these services. The local plan shall address the assessed needs of all children to the extent feasible. It is the intent of the General Assembly that the needs of both young children below poverty who remain in the home, as well as the needs of young children below poverty who require services beyond those offered in child care settings, be addressed. Therefore, as local partnerships address the assessed needs of all children, they should devote an appropriate amount of their State allocations, considering these needs and other available resources, to meet the needs of children below poverty and their families.

(b) Depending on local, regional, or statewide needs, funds may be used to support activities and services that shall be made available and accessible to providers, children, and families on a voluntary basis. Of the funds allocated to local partnerships for direct services, seventy percent (70%) of the funds spent in each year shall be used in child care related activities and early childhood education programs that improve access to child care and early childhood education services, develop new child care and early childhood education services, and improve the quality of child care and early childhood education services in all settings.

(c) Long-term plans for local projects that do not receive their full allocation in the first year, other than those selected in 1993, should consider how to meet the assessed needs of low-income children and families within their neighborhoods or communities. These plans also should reflect a process to meet these needs as additional allocations and other resources are received.

(d) State funds designated for start-up and related activities may be used for capital expenses or to support activities and services for children, families, and providers. State funds designated to support direct services for children, families, and providers shall not be used for major capital expenses unless the North Carolina Partnership approves this use of State funds based upon a finding that a local partnership has demonstrated that (i) this use is a clear priority need for the local plan, (ii) it is necessary to enable the local partnership to provide services and activities to underserved children and families, and (iii) the local partnership will not otherwise be able to meet this priority need by using State or federal funds available to that local partnership. The funds approved for capital projects in any two consecutive fiscal years may not exceed ten percent (10%) of the total funds for direct services allocated to a local partnership in those two consecutive fiscal years.

(e) State funds allocated to local partnerships shall not supplant current expenditures by counties on behalf of young children and their families, and maintenance of current efforts on behalf of these children and families shall be sustained. State funds shall not be applied without the Secretary's approval where State or federal funding sources, such as Head Start, are available or could be made available to that county.

(f) Repealed by Session Laws 2001-424, s. 21.75(g), effective July 1, 2001.

(g) Not less than thirty percent (30%) of the funds spent in each year of each local partnership's direct services allocation shall be used to expand child care subsidies. To the extent practicable, these funds shall be used to enhance the affordability, availability, and quality of child care services as described in this section. The North Carolina Partnership may increase this percentage requirement up to a maximum of fifty percent (50%) when, based upon a significant local waiting list for subsidized child care, the North Carolina Partnership determines a higher percentage is justified. Local partnerships shall spend an amount for child care subsidies that provides at least fifty-two million dollars (\$52,000,000) for the Temporary Assistance to Needy Families (TANF) maintenance of effort requirement and the Child Care Development Fund and Block Grant match requirement. Funds allocated under this section shall supplement and not supplant any federal or State funds allocated to Department of Defense-certified child care facilities licensed under G.S. 110-106.2.

(h) State funds allocated to local partnerships that are unexpended at the end of a fiscal year shall remain available to the North Carolina Partnership for Children, Inc., to reallocate to local partnerships. (1993 (Reg. Sess., 1994), c. 766, s. 1; 1995, c. 509, s. 97; 1996, 2nd Ex. Sess., c. 18, s. 24.29(e); 1997-443, s. 11.55(n); 1997-506, s. 60; 1998-212, s. 12.37B(a), (b); 1999-237, s. 11.48(o); 2000-67, ss. 11.28(c), 11.28(d); 2001-424, s. 21.75(g); 2008-123, s. 2; 2014-100, s. 12B.2(b); 2015-241, s. 12B.9(b).)

§ 143B-168.16. Home-centered services; consent.

No home-centered services including home visits or in-home parenting training shall be allowed under this Part unless the written, informed consent of the participating parents authorizing the home-centered services is first obtained by the local partnership, educational institution, local school administrative unit, private school, not-for-profit organization, governmental agency, or other entity that is conducting the parenting program. The participating parents may revoke at any time their consent for the home-centered services.

The consent form shall contain a clear description of the program including (i) the activities and information to be provided by the program during the home visits, (ii) the number of expected home visits, (iii) any responsibilities of the parents, (iv) the fact, if applicable, that a record will be made and maintained on the home visits, (v) the fact that the parents may revoke at any time the consent, and (vi) any other information as may be necessary to convey to the parents a clear understanding of the program.

Parents at all times shall have access to any record maintained on home-centered services provided to their family and may place in that record a written response to any information with which they disagree that is in the record. (1993 (Reg. Sess., 1994), c. 766, s. 1.)

Part 10C. Child Care Subsidy.

§ 143B-168.25. Child care funds matching requirements.

No local matching funds may be required by the Department of Health and Human Services as a condition of any locality's receiving its initial allocation of child care funds unless federal law requires a match. If the Department reallocates additional funds above twenty-five thousand dollars (\$25,000) to local purchasing agencies beyond their initial allocation, local purchasing agencies must provide a twenty percent (20%) local match to receive the reallocated funds. Matching requirements shall not apply when funds are allocated because of an emergency as defined in G.S. 166A-19.3(6). (2017-57, s. 11B.6.)

§ 143B-168.26. Child care revolving loan.

Notwithstanding any law to the contrary, funds budgeted for the Child Care Revolving Loan Fund may be transferred to and invested by the financial institution contracted to operate the Fund. The principal and any income to the Fund may be used to make loans, reduce loan interest to borrowers, serve as collateral for borrowers, pay the contractor's cost of operating the Fund, or pay the Department's cost of administering the program. (2017-57, s. 11B.6.)

§ 143B-168.27. Administrative allowance for county departments of social services; use of subsidy funds for fraud detection.

(a) The Department of Health and Human Services, Division of Child Development and Early Education (Division), shall fund the allowance that county departments of social services may use for administrative costs at four percent (4%) of the county's total child care subsidy funds allocated in the Child Care and Development Fund Block Grant plan or eighty thousand dollars (\$80,000), whichever is greater.

(b) Each county department of social services may use up to two percent (2%) of child care subsidy funds allocated to the county for fraud detection and investigation initiatives.

(c) The Division may adjust the allocations in the Child Care and Development Fund Block Grant according to (i) the final allocations for local departments of social services under subsection (a) of this section and (ii) the funds allocated for fraud detection and investigation initiatives under subsection (b) of this section. The Division shall submit a report on the final adjustments to the allocations of the four percent (4%) administrative costs to the Joint Legislative Oversight Committee on Health and Human Services and the Fiscal Research Division no later than September 30 of each year. (2017-57, s. 11B.6.)

- (5) Older adults should have access to a broad range of services, supports, and opportunities, and they should have transportation options available to allow access to these services and to meet their daily needs and interests.

Part 14B. Long-Term Services and Supports.

§ 143B-181.5. Long-term services and supports – findings.

The North Carolina General Assembly finds that the aging of the population and advanced medical technology have resulted in a growing number of persons who require long-term services and supports. The primary resources for long-term assistance continues to be family and friends. However, these traditional caregivers are increasingly employed outside the home. There is growing demand for improvement and expansion of home and community-based long-term services and supports to complement the care provided by these informal caregivers.

The North Carolina General Assembly further finds that the public interest would best be served by a broad array of long-term services and supports that enable persons who need such services to remain in the home or in the community whenever practicable and that promote individual autonomy and dignity as these individuals exercise choice and control over their lives.

The North Carolina General Assembly finds that as other long-term service and support options become more readily available, the need for institutional care will stabilize or decline relative to the growing population of older adults and people living with disabilities. The General Assembly recognizes, however, that institutional care will continue to be a critical part of the State's long-term service and support options and that such care should promote individual dignity, autonomy, and a home like environment. (1981, c. 675, s. 1; 1995 (Reg. Sess., 1996), c. 583, s. 2; 2010-66, s. 2.)

§ 143B-181.6. Purpose and intent.

The development and implementation of policies for long-term services and supports should reflect the intent of the North Carolina General Assembly as follows:

- (1) Long-term services and supports administered by the Department of Health and Human Services and other State and local agencies shall include a balanced array of health, social, and supportive services that are well coordinated to promote individual choice, dignity, and the highest practicable level of independence.
- (2) Home and community-based services shall be developed, expanded, or maintained in order to meet the needs of consumers in the least confusing and least restrictive manner. Services should be based on the desires of older adults, persons with disabilities, their families, and others that support them.
- (3) All services shall be responsive and appropriate to individual need and shall be delivered through a uniform and seamless system that is flexible and responsive regardless of funding source. Information and services shall be available through the effective use of Community Resource Connections for Aging and Disabilities as they are developed throughout the State.
- (4) Services shall be available to all persons who need them, but shall be targeted primarily to those citizens who are the most frail and those with the greatest need.
- (5) State and local agencies shall maximize the use of limited resources by establishing a fee system for persons who have the ability to pay.
- (6) Care provided in facilities shall be offered in such a manner and in such an environment as to promote for each resident, maintenance of health, enhancement of the quality of life, and timely discharge to a less restrictive care setting when appropriate.
- (7) State health planning for institutional bed supply shall take into account increased availability of home and community-based services options.
- (8) In an effort to maximize the use of limited resources, State and local agencies shall invest in supports for families and other informal caregivers of persons requiring assistance.
- (9) Emphasis shall be placed on offering evidence-based activities to promote healthy aging, prevent injuries, and manage chronic diseases and conditions.
- (10) Individuals and families shall be encouraged and supported in planning for and financing their own future needs for long-term services and supports. (1981, c. 675, ss. 1, 2; 1995 (Reg. Sess., 1996), c. 583, s. 2; 1997-443, s. 11A.118(a); 2010-66, s. 2.)

§§ 143B-181.7 through 143B-181.9: Repealed by Session Laws 1995 (Regular Session, 1996), c. 583, s. 2.

§ 143B-181.9A: Repealed by Session Laws 1995, c. 179, s. 1.

- (a) A respite care program is established to provide needed relief to caregivers of impaired adults who cannot be left alone because of mental or physical problems.

(b) Those eligible for respite care under the program established by this section are limited to those unpaid primary caregivers who are caring for people 60 years of age or older and their spouses, or those unpaid primary caregivers 60 years of age or older who are caring for persons 18 years of age or older, who require constant supervision and who cannot be left alone either because of memory impairment, physical immobility, or other problems that renders them unsafe alone.

- (c) Respite care services provided by the programs established by this section may include:
- (1) Counseling and training in the caregiving role, including coping mechanisms and behavior modification techniques;
 - (2) Counseling and accessing available local, regional, and State services;

Program funds may provide no more than the current adult care. An out of home placement is defined as placement in a hospital, skilled or intermediate nursing facility, adult care home, adult day health center, or adult day care center. Duration of the service period may extend beyond a year.

(d) The respite care program established by this section shall be administered by the Division of Aging consistent with the policies and procedures of the Older Americans Act. The programs shall be coordinated with other appropriate Divisions in the Department of Health and Human Services, and with agencies and organizations concerned with the delivery of services to frail older adults and their unpaid caregivers. The Division shall choose respite care provider agencies in accordance with procedures outlined under the Older Americans Act and shall include the following criteria: documented capacity to provide care, adequacy of quality assurance, training, supervision, abuse prevention, complaint mechanisms, and cost. All funds allocated by the Division pursuant to this section shall be allocated on the same basis as funding under the Older Americans Act.

(e) Funding for the Division of Aging to administer this program shall not exceed the percentage allowed for administration as provided in the Older Americans Act but shall not be less than that budgeted for administration in fiscal year 1988-89.

(f) Unless prohibited by federal law, caregivers receiving respite care services through the program established by this section shall pay for some of the services on a sliding scale depending on their ability to pay. The Division of Aging, in consultation with the Councils of Governments in each region, shall specify rates of payment for the services. (1985 (Reg. Sess., 1986), c. 1014, s. 7.1; 1989, c. 500, s. 96(a); c. 770, s. 63; 1991, c. 332, s. 1; 1995, c. 535, s. 34; 1997-443, s. 11A.118(a); 1998-97, s. 1; 2000-50, s. 1.)
