NORTH CAROLINA GENERAL ASSEMBLY 1969 SESSION

CHAPTER 1141 HOUSE BILL 421

1	AN ACT APPROPRIATING FUNDS TO THE NORTH CAROLINA STATE UNIVERSITY
2	AGRICULTURAL EXPERIMENT STATION FOR SUPPORT OF RESEARCH IN THE
3	BIOLOGICAL AND AGRICULTURAL ENGINEERING DEPARTMENT FOR
4	PROTECTION OF TOBACCO PRODUCTS.
5	
6	WHEREAS, tobacco as a farm crop and as a manufactured product is very
7	important to the economy of North Carolina; and
8	WHEREAS, research and study into the possible means of improving tobacco
9	products have been conducted at North Carolina State University at Raleigh; and
10	WHEREAS, this research has of late been concentrated in the area of reduction of
11	nicotine and tar content of tobacco products and in the area of lowering of burning
12	temperatures of tobacco products; and
13	WHEREAS, the success of this general research project depends in large part upon
14	the prompt availability of funds clearly earmarked for this study;
15	NOW, THEREFORE,
16	
17	The General Assembly of North Carolina do enact:
18	
4.0	
19	Section 1. There is hereby appropriated from the General Fund of the State of
19 20	North Carolina to the North Carolina State University Agricultural Experiment Station, in
	· · · · · · · · · · · · · · · · · · ·
20	North Carolina to the North Carolina State University Agricultural Experiment Station, in
20 21	North Carolina to the North Carolina State University Agricultural Experiment Station, in addition to all other appropriations, the sum of one hundred fifty thousand dollars (\$150,000.00) per year for each year of the 1969-1971 biennium exclusively for the purpose of conducting, in the Biological and Agricultural Engineering Department, research and
20 21 22 23 24	North Carolina to the North Carolina State University Agricultural Experiment Station, in addition to all other appropriations, the sum of one hundred fifty thousand dollars (\$150,000.00) per year for each year of the 1969-1971 biennium exclusively for the purpose of conducting, in the Biological and Agricultural Engineering Department, research and experimentation with tobacco and tobacco products for the purpose of producing tobacco
20 21 22 23	North Carolina to the North Carolina State University Agricultural Experiment Station, in addition to all other appropriations, the sum of one hundred fifty thousand dollars (\$150,000.00) per year for each year of the 1969-1971 biennium exclusively for the purpose of conducting, in the Biological and Agricultural Engineering Department, research and
20 21 22 23 24	North Carolina to the North Carolina State University Agricultural Experiment Station, in addition to all other appropriations, the sum of one hundred fifty thousand dollars (\$150,000.00) per year for each year of the 1969-1971 biennium exclusively for the purpose of conducting, in the Biological and Agricultural Engineering Department, research and experimentation with tobacco and tobacco products for the purpose of producing tobacco
20 21 22 23 24 25 26 27	North Carolina to the North Carolina State University Agricultural Experiment Station, in addition to all other appropriations, the sum of one hundred fifty thousand dollars (\$150,000.00) per year for each year of the 1969-1971 biennium exclusively for the purpose of conducting, in the Biological and Agricultural Engineering Department, research and experimentation with tobacco and tobacco products for the purpose of producing tobacco products with a reduced nicotine and tar content and a lowered burning temperature or other
20 21 22 23 24 25 26 27 28	North Carolina to the North Carolina State University Agricultural Experiment Station, in addition to all other appropriations, the sum of one hundred fifty thousand dollars (\$150,000.00) per year for each year of the 1969-1971 biennium exclusively for the purpose of conducting, in the Biological and Agricultural Engineering Department, research and experimentation with tobacco and tobacco products for the purpose of producing tobacco products with a reduced nicotine and tar content and a lowered burning temperature or other characteristics likely to make the products more readily commercially marketable. Sec. 2. No funds herein appropriated shall be used for any purpose other than those set out herein. All funds herein appropriated not used for this purpose on or before July 1, 1971,
20 21 22 23 24 25 26 27	North Carolina to the North Carolina State University Agricultural Experiment Station, in addition to all other appropriations, the sum of one hundred fifty thousand dollars (\$150,000.00) per year for each year of the 1969-1971 biennium exclusively for the purpose of conducting, in the Biological and Agricultural Engineering Department, research and experimentation with tobacco and tobacco products for the purpose of producing tobacco products with a reduced nicotine and tar content and a lowered burning temperature or other characteristics likely to make the products more readily commercially marketable. Sec. 2. No funds herein appropriated shall be used for any purpose other than those
20 21 22 23 24 25 26 27 28 29 30	North Carolina to the North Carolina State University Agricultural Experiment Station, in addition to all other appropriations, the sum of one hundred fifty thousand dollars (\$150,000.00) per year for each year of the 1969-1971 biennium exclusively for the purpose of conducting, in the Biological and Agricultural Engineering Department, research and experimentation with tobacco and tobacco products for the purpose of producing tobacco products with a reduced nicotine and tar content and a lowered burning temperature or other characteristics likely to make the products more readily commercially marketable. Sec. 2. No funds herein appropriated shall be used for any purpose other than those set out herein. All funds herein appropriated not used for this purpose on or before July 1, 1971, shall be returned to the General Fund of the State. Sec. 3. All laws and clauses of laws in conflict with this Act are hereby repealed.
20 21 22 23 24 25 26 27 28 29	North Carolina to the North Carolina State University Agricultural Experiment Station, in addition to all other appropriations, the sum of one hundred fifty thousand dollars (\$150,000.00) per year for each year of the 1969-1971 biennium exclusively for the purpose of conducting, in the Biological and Agricultural Engineering Department, research and experimentation with tobacco and tobacco products for the purpose of producing tobacco products with a reduced nicotine and tar content and a lowered burning temperature or other characteristics likely to make the products more readily commercially marketable. Sec. 2. No funds herein appropriated shall be used for any purpose other than those set out herein. All funds herein appropriated not used for this purpose on or before July 1, 1971, shall be returned to the General Fund of the State.

1969.
