"(f) When an authorized emergency vehicle as described in subsection (a) of this section or any public service vehicle is parked or standing within 12 feet of a roadway and is giving a warning signal by appropriate light, the driver of every other approaching vehicle shall, as soon as it is safe and when not otherwise directed by an individual lawfully directing traffic, do one of the following:

- (1) Move the vehicle into a lane that is not the lane nearest the parked or standing authorized emergency vehicle or public service vehicle and continue traveling in that lane until safely clear of the authorized emergency vehicle. This paragraph applies only if the roadway has at least two lanes for traffic proceeding in the direction of the approaching vehicle and if the approaching vehicle may change lanes safely and without interfering with any vehicular traffic.
- (2) Slow the vehicle, maintaining a safe speed for traffic conditions, and operate the vehicle at a reduced speed and be prepared to stop until completely past the authorized emergency vehicle or public service vehicle. This paragraph applies only if the roadway has only one lane for traffic proceeding in the direction of the approaching vehicle or if the approaching vehicle may not change lanes safely and without interfering with any vehicular traffic.
