SECTION 7.2.(c) The appropriate classification for placement of principals and assistant principals on the salary schedule, except for principals in alternative schools and in cooperative innovative high schools, shall be determined in accordance with the following schedule:

Classification	Number of Teachers Supervised
Assistant Principal	
Principal I	Fewer than 11 Teachers
Principal II	11-21 Teachers
Principal III	22-32 Teachers
Principal IV	33-43 Teachers
Principal V	44-54 Teachers
Principal VI	55-65 Teachers
Principal VII	66-100 Teachers
Principal VIII	More than 100 Teachers

The number of teachers supervised includes teachers and assistant principals paid from State funds only; it does not include teachers or assistant principals paid from non-State funds or the principal or teacher assistants.

The beginning classification for principals in alternative schools and in cooperative innovative high school programs shall be the Principal III level. Principals in alternative schools who supervise 33 or more teachers shall be classified according to the number of teachers supervised.

SECTION 7.2.(d) A principal shall be placed on the step on the salary schedule that reflects total number of years of experience as a certificated employee of the public schools and an additional step for every three years of experience as a principal. A principal or assistant principal shall also continue to receive any additional State-funded percentage increases earned for the 1997-1998, 1998-1999, and 1999-2000 school years for improvement in student performance or maintaining a safe and orderly school.

SECTION 7.2.(e) Principals and assistant principals with certification based on academic preparation at the six-year degree level shall be paid a salary supplement of one hundred twenty-six dollars ($126.00) per month and at the doctoral degree level shall be paid a salary supplement of two hundred fifty-three dollars ($253.00) per month.

SECTION 7.2.(f) Longevity pay for principals and assistant principals shall be as provided for State employees under the State Personnel Act.

SECTION 7.2.(g) If a principal is reassigned to a higher job classification because the principal is transferred to a school within a local school administrative unit with a larger number of State-allotted teachers, the principal shall be placed on the salary schedule as if the principal had served the principal's entire career as a principal at the higher job classification.

If a principal is reassigned to a lower job classification because the principal is transferred to a school within a local school administrative unit with a smaller number of State-allotted teachers, the principal shall be placed on the salary schedule as if the principal had served the principal's entire career as a principal at the lower job classification.

This subsection applies to all transfers on or after the effective date of this section, except transfers in school systems that have been created, or will be created, by merging two or more school systems. Transfers in these merged systems are exempt from the provisions of this subsection for one calendar year following the date of the merger.

SECTION 7.2.(h) Participants in an approved full-time master's in school administration program shall receive up to a 10-month stipend at the beginning salary of an assistant principal during the internship period of the master's program. For the 2006-2007 fiscal year and subsequent fiscal years, the stipend shall not exceed the difference between the beginning salary of an assistant principal plus the cost of tuition, fees, and books and any fellowship funds received by the intern as a full-time student, including awards of the Principal Fellows Program. The Principal Fellows Program or the school of education where the intern participates in a full-time master's in school administration program shall supply the Department of Public Instruction with certification of eligible full-time interns.

SECTION 7.2.(i) During the 2007-2008 fiscal year, the placement on the salary schedule of an administrator with a one-year provisional assistant principal's certificate shall be at the entry-level salary for an assistant principal or the appropriate step on the teacher salary schedule, whichever is higher.

USE OF SUPPLEMENTAL FUNDING IN LOW-WEALTH COUNTIES

SECTION 7.6.(a) Funds for Supplemental Funding. – The General Assembly finds that it is appropriate to provide supplemental funds in low-wealth counties to allow those counties to enhance the instructional program and student achievement. Therefore, funds are appropriated to State Aid to Local School Administrative Units for the 2007-2008 fiscal year and the 2008-2009 fiscal year to be used for supplemental funds for the schools.

SECTION 7.6.(b) Use of Funds for Supplemental Funding. – All funds received pursuant to this section shall be used only: (i) to provide instructional positions, instructional support positions, teacher assistant positions, clerical positions, school computer technicians, instructional supplies and equipment, staff development, and textbooks; (ii) for salary supplements for instructional personnel and instructional support personnel; and (iii) to pay an amount not to exceed ten thousand dollars ($10,000) of the plant operation contract cost charged by the Department of Public Instruction for services.

Local boards of education are encouraged to use at least twenty-five percent (25%) of the funds received pursuant to this section to improve the academic performance of children who are performing at Level I or II on either reading or mathematics end-of-grade tests in grades 3-8 and children who are performing at Level I or II on the writing tests in grades 4 and 7. Local boards of education shall report to the State Board of Education on an annual basis on funds used for this purpose, and the State Board shall report this information to the Joint Legislative Education Oversight Committee. These reports shall specify how these funds were targeted and used to implement specific improvement strategies of each local school administrative unit and its schools, such as teacher recruitment, closing the achievement gap, improving student accountability, addressing the needs of at-risk students, and establishing and maintaining safe schools.

(6) "County-adjusted property tax base" shall be computed as follows:

a. Subtract the present-use value of agricultural land, horticultural land, and forestland in the county, as defined in G.S. 105-277.2, from the total assessed real property valuation of the county,

b. Adjust the resulting amount by multiplying by a weighted average of the three most recent annual sales assessment ratio studies,

c. Add to the resulting amount the:

1. Present-use value of agricultural land, horticultural land, and forestland, as defined in G.S. 105-277.2,

2. Value of property of public service companies, determined in accordance with Article 23 of Chapter 105 of the General Statutes, and

3. Personal property value for the county.

(7) "County-adjusted property tax base per square mile" means the county-adjusted property tax base divided by the number of square miles of land area in the county.

b. Compute the percentage that the anticipated total county revenue availability per student is of the anticipated State average revenue availability per student and weight the resulting percentage by a factor of four-tenths,

c. Compute the percentage that the county-adjusted property tax base per square mile is of the State-adjusted property tax base per square mile and weight the resulting percentage by a factor of one-tenth,

d. Add the three weighted percentages to derive the county wealth as a percentage of the State average wealth.

(9) "Effective county tax rate" means the actual county tax rate multiplied by a weighted average of the three most recent annual sales assessment ratio studies.

(10) "Effective State average tax rate" means the average of effective county tax rates for all counties.

(10a) "Local current expense funds" means the most recent county current expense appropriations to public schools, as reported by local boards of education in the audit report filed with the Secretary of the Local Government Commission pursuant to G.S. 115C-447.

(11) "Per capita income" means the average for the most recent three years for which data are available of the per capita income according to the most recent report of the United States Department of Commerce, Bureau of Economic Analysis, including any reported modifications for prior years as outlined in the most recent report.

(12) "Sales assessment ratio studies" means sales assessment ratio studies performed by the Department of Revenue under G.S. 105-289(h).

(14) "State average adjusted property tax base per square mile" means the sum of the county-adjusted property tax bases for all counties divided by the number of square miles of land area in the State.

(14a) "Supplant" means to decrease local per student current expense appropriations from one fiscal year to the next fiscal year.

(15) "Weighted average of the three most recent annual sales assessment ratio studies" means the weighted average of the three most recent annual sales assessment ratio studies in the most recent years for which county current expense appropriations and adjusted property tax valuations are available. If real property in a county has been revalued one year prior to the most recent sales assessment ratio study, a weighted average of the two most recent sales assessment ratios shall be used. If property has been revalued the year of the most recent sales assessment ratio study, the sales assessment ratio for the year of revaluation shall be used.

SECTION 7.6.(d) Eligibility for Funds. – Except as provided in subsection (h) of this section, the State Board of Education shall allocate these funds to local school administrative units located in whole or in part in counties in which the county wealth as a percentage of the State average wealth is less than one hundred percent (100%).

SECTION 7.6.(e) Allocation of Funds. – Except as provided in subsection (g) of this section, the amount received per average daily membership for a county shall be the difference between the State average current expense appropriations per student and the current expense appropriations per student that the county could provide given the county's wealth and an average effort to fund public schools. (To derive the current expense appropriations per student that the county could be able to provide given the county's wealth and an average effort to fund public schools, multiply the county wealth as a percentage of State average wealth by the State average current expense appropriations per student.)

The funds for the local school administrative units located in whole or in part in the county shall be allocated to each local school administrative unit located in whole

or in part in the county based on the average daily membership of the county's students in the school units.

If the funds appropriated for supplemental funding are not adequate to fund the formula fully, each local school administrative unit shall receive a pro rata share of the funds appropriated for supplemental funding.

SECTION 7.6.(f) Formula for Distribution of Supplemental Funding Pursuant to This Section Only. – The formula in this section is solely a basis for distribution of supplemental funding for low-wealth counties and is not intended to reflect any measure of the adequacy of the educational program or funding for public schools. The formula is also not intended to reflect any commitment by the General Assembly to appropriate any additional supplemental funds for low-wealth counties.

SECTION 7.6.(g) Minimum Effort Required. – Counties that had effective tax rates in the 1996-1997 fiscal year that were above the State average effective tax rate but that had effective rates below the State average in the 1997-1998 fiscal year or thereafter shall receive reduced funding under this section. This reduction in funding shall be determined by subtracting the amount that the county would have received pursuant to Section 17.1(g) of Chapter 507 of the 1995 Session Laws from the amount that the county would have received if qualified for full funding and multiplying the difference by ten percent (10%). This method of calculating reduced funding shall apply one time only.

This method of calculating reduced funding shall not apply in cases in which the effective tax rate fell below the statewide average effective tax rate as a result of a reduction in the actual property tax rate. In these cases, the minimum effort required shall be calculated in accordance with Section 17.1(g) of Chapter 507 of the 1995 Session Laws.

If the county documents that it has increased the per student appropriation to the school current expense fund in the current fiscal year, the State Board of Education shall include this additional per pupil appropriation when calculating minimum effort pursuant to Section 17.1(g) of Chapter 507 of the 1995 Session Laws.

SECTION 7.6.(h) Nonsupplant Requirement. – A county in which a local school administrative unit receives funds under this section shall use the funds to supplement local current expense funds and shall not supplant local current expense funds. For the 2007-2009 fiscal biennium, the State Board of Education shall not allocate funds under this section to a county found to have used these funds to supplant local per student current expense funds. The State Board of Education shall make a finding that a county has used these funds to supplant local current expense funds in the prior year, or the year for which the most recent data are available, if:

(1) The current expense appropriation per student of the county for the current year is less than ninety-five percent (95%) of the average of the local current expense appropriations per student for the three prior fiscal years; and

(2) The county cannot show: (i) that it has remedied the deficiency in funding or (ii) that extraordinary circumstances caused the county to supplant local current expense funds with funds allocated under this section.

The State Board of Education shall adopt rules to implement this section.

SECTION 7.6.(i) Reports. – The State Board of Education shall report to the Joint Legislative Education Oversight Committee prior to May 1, 2008, if it determines that counties have supplanted funds.

SECTION 7.6.(j) Department of Revenue Reports. – The Department of Revenue shall provide to the Department of Public Instruction a preliminary report for the current fiscal year of the assessed value of the property tax base for each county prior to March 1 of each year and a final report prior to May 1 of each year. The reports shall include for each county the annual sales assessment ratio and the taxable values of (i) total real property, (ii) the portion of total real property represented by the present-use value of agricultural land, horticultural land, and forestland as defined in G.S. 105-277.2, (iii) property of public service companies determined in accordance with Article 23 of Chapter 105 of the General Statutes, and (iv) personal property.

SMALL SCHOOL SYSTEM SUPPLEMENTAL FUNDING

SECTION 7.7.(a) Funds for Small School Systems. – Except as provided in subsections (b) and (g) of this section, the State Board of Education shall allocate funds appropriated for small school system supplemental funding (i) to each county school administrative unit with an average daily membership of fewer than 3,175 students and (ii) to each county school administrative unit with an average daily membership from 3,175 to 4,000 students if the county in which the local school administrative unit is located has a county-adjusted property tax base per student that is below the State-adjusted property tax base per student and if the total average daily membership of all local school administrative units located within the county is from 3,175 to 4,000 students. The allocation formula shall:

(1) Round all fractions of positions to the next whole position.

(2) Provide five and one-half additional regular classroom teachers in counties in which the average daily membership per square mile is greater than four and seven additional regular classroom teachers in counties in which the average daily membership per square mile is four or fewer.

(3) Provide additional program enhancement teachers adequate to offer the standard course of study.

(4) Change the duty-free period allocation to one teacher assistant per 400 average daily membership.

(5) Provide a base for the consolidated funds allotment of at least seven hundred eighty-eight thousand seven hundred eighty-nine dollars ($788,789), excluding textbooks for the 2007-2008 fiscal year and a base of at least seven hundred eighty-eight thousand seven hundred eighty-nine dollars ($788,789) for the 2008-2009 fiscal year.

(6) Allot vocational education funds for grade 6 as well as for grades 7-12.

If funds appropriated for each fiscal year for small school system supplemental funding are not adequate to fully fund the program, the State Board of Education shall reduce the amount allocated to each county school administrative unit on a pro rata basis. This formula is solely a basis for distribution of supplemental funding for certain county school administrative units and is not intended to reflect any measure of the adequacy of the educational program or funding for public schools. The formula is also not intended to reflect any commitment by the General Assembly to appropriate any additional supplemental funds for such county school administrative units.

SECTION 7.7.(b) Nonsupplant Requirement. – A county in which a local school administrative unit receives funds under this section shall use the funds to supplement local current expense funds and shall not supplant local current expense

funds. For the 2007-2009 fiscal biennium, the State Board of Education shall not allocate funds under this section to a county found to have used these funds to supplant local per student current expense funds. The State Board of Education shall make a finding that a county has used these funds to supplant local current expense funds in the prior year, or the year for which the most recent data are available, if:

(1) The current expense appropriation per student of the county for the current year is less than ninety-five percent (95%) of the average of the local current expense appropriations per student for the three prior fiscal years; and

(2) The county cannot show: (i) that it has remedied the deficiency in funding or (ii) that extraordinary circumstances caused the county to supplant local current expense funds with funds allocated under this section.

The State Board of Education shall adopt rules to implement this section.

SECTION 7.7.(c) Phase-Out Provisions. – If a local school administrative unit becomes ineligible for funding under this formula because of (i) an increase in the population of the county in which the local school administrative unit is located or (ii) an increase in the county-adjusted property tax base per student of the county in which the local school administrative unit is located, funding for that unit shall be continued for seven years after the unit becomes ineligible.

SECTION 7.7.(d) Definitions. – As used in this section:

(1) "Average daily membership" means within two percent (2%) of the average daily membership as defined in the North Carolina Public Schools Allotment Policy Manual adopted by the State Board of Education.

(2) "County-adjusted property tax base per student" means the total assessed property valuation for each county, adjusted using a weighted average of the three most recent annual sales assessment ratio studies, divided by the total number of students in average daily membership who reside within the county.

(2a) "Local current expense funds" means the most recent county current expense appropriations to public schools, as reported by local boards of education in the audit report filed with the Secretary of the Local Government Commission pursuant to G.S. 115C-447.

(3) "Sales assessment ratio studies" means sales assessment ratio studies performed by the Department of Revenue under G.S. 105-289(h).

(4) "State-adjusted property tax base per student" means the sum of all county-adjusted property tax bases divided by the total number of students in average daily membership who reside within the State.

(4a) "Supplant" means to decrease local per student current expense appropriations from one fiscal year to the next fiscal year.

(5) "Weighted average of the three most recent annual sales assessment ratio studies" means the weighted average of the three most recent annual sales assessment ratio studies in the most recent years for which county current expense appropriations and adjusted property tax valuations are available. If real property in a county has been revalued one year prior to the most recent sales assessment ratio study, a weighted average of the two most recent sales assessment ratios shall be used. If property has been revalued during the year of the most

recent sales assessment ratio study, the sales assessment ratio for the year of revaluation shall be used.

SECTION 7.7.(e) Reports. – The State Board of Education shall report to the Joint Legislative Education Oversight Committee prior to May 1, 2008, if it determines that counties have supplanted funds.

These funds shall be used to reduce the ratio of students to teachers in grades K-5 by one, in grades 6-8 by two, and in grades 9-12 by three.

DISADVANTAGED STUDENT SUPPLEMENTAL FUNDING

SECTION 7.8.(a) Funds are appropriated in this act to address the capacity needs of local school administrative units to meet the needs of disadvantaged students. Each local school administrative unit shall use funds allocated to it for disadvantaged student supplemental funding to implement a plan jointly developed by the unit and the LEA Assistance Program team. The plan shall be based upon the needs of students in the unit not achieving grade-level proficiency. The plan shall detail how these funds shall be used in conjunction with all other supplemental funding allotments such as Low-Wealth, Small County, At-Risk Student Services/Alternative Schools, and Improving Student Accountability to provide instructional and other services that meet the educational needs of these students. Prior to the allotment of disadvantaged student supplemental funds, the plan shall be approved by the State Board of Education.

Funds received for disadvantaged student supplemental funding shall be used, consistent with the policies and procedures adopted by the State Board of Education, only to:

(1) Provide instructional positions or instructional support positions and/or professional development;
(2) Provide intensive in-school and/or after-school remediation;
(3) Purchase diagnostic software and progress-monitoring tools; and
(4) Provide funds for teacher bonuses and supplements. The State Board of Education shall set a maximum percentage of the funds that may be used for this purpose.

The State Board of Education may require districts receiving funding under the Disadvantaged Student Supplemental Fund to purchase the Education Value Added

Assessment System in order to provide in-depth analysis of student performance and help identify strategies for improving student achievement. This data shall be used exclusively for instructional and curriculum decisions made in the best interest of children and for professional development for their teachers and administrators.

SECTION 7.8.(b) Funds are appropriated in this act to evaluate the Disadvantaged Student Supplemental Funding Initiatives and Low-Wealth Initiatives. The State Board of Education shall use these funds to:

(2) Evaluate the efficiency and effectiveness of the technical assistance and support provided to local school administrative units by the Department of Public Instruction.

The State Board of Education shall report the results of the evaluation to the Office of State Budget and Management, the Joint Legislative Education Oversight Committee, and the Fiscal Research Division by January 15 of each year.

SECTION 7.8.(c) Funds appropriated to a local school administrative unit for disadvantaged student supplemental funding shall be allotted based on: (i) the local school administrative unit's eligible DSSF population and (ii) the difference between a teacher-to-student ratio of 1:21 and the following teacher-to-student ratios:

(1) For counties with wealth greater than ninety percent (90%) of the statewide average, a ratio of 1:20.0;

(2) For counties with wealth not less than eighty percent (80%) and not greater than ninety percent (90%) of the statewide average, a ratio of 1:19.5;

(3) For counties with wealth less than eighty percent (80%) of the statewide average, a ratio of 1:19.3; and

(4) For LEAs receiving DSSF funds in 2005-2006, a ratio of 1:16. These LEAs shall receive no less than the DSSF amount allotted in 2006-2007.

For the purpose of this subsection, wealth shall be calculated under the low-wealth supplemental formula.

SECTION 7.8.(d) If a local school administrative unit's wealth increases to a level that adversely affects the unit's DSSF allotment ratio, the DSSF allotment for that unit shall be maintained at the prior year level for one additional fiscal year.

STUDENTS WITH LIMITED ENGLISH PROFICIENCY

SECTION 7.9.(a) The State Board of Education shall develop guidelines for identifying and providing services to students with limited proficiency in the English language.

The State Board shall allocate these funds to local school administrative units and to charter schools under a formula that takes into account the average percentage of students in the units or the charters over the past three years who have limited English proficiency. The State Board shall allocate funds to a unit or a charter school only if (i) average daily membership of the unit or the charter school includes at least 20 students with limited English proficiency or (ii) students with limited English proficiency comprise at least two and one-half percent (2.5%) of the average daily membership of the unit or charter school. For the portion of the funds that is allocated on the basis of

the number of identified students, the maximum number of identified students for whom a unit or charter school receives funds shall not exceed ten and six-tenths percent (10.6%) of its average daily membership.

Local school administrative units shall use funds allocated to them to pay for classroom teachers, teacher assistants, tutors, textbooks, classroom materials/instructional supplies/equipment, transportation costs, and staff development of teachers for students with limited English proficiency.

A county in which a local school administrative unit receives funds under this section shall use the funds to supplement local current expense funds and shall not supplant local current expense funds.

SECTION 7.9.(b) The Department of Public Instruction shall prepare a current head count of the number of students classified with limited English proficiency by December 1 of each year.

Students in the head count shall be assessed at least once every three years to determine their level of English proficiency. A student who scores "superior" on the standard English language proficiency assessment instrument used in this State shall not be included in the head count of students with limited English proficiency.

CHILDREN WITH DISABILITIES

SECTION 7.10. The State Board of Education shall allocate funds for children with disabilities on the basis of three thousand one hundred ninety-nine dollars and fifty-seven cents ($3,199.57) per child for a maximum of 171,617 children for the 2007-2008 school year. Each local school administrative unit shall receive funds for the lesser of (i) all children who are identified as children with disabilities or (ii) twelve and five-tenths percent (12.5%) of the 2007-2008 allocated average daily membership in the local school administrative unit.

The State Board of Education shall allocate these funds

to local school administrative units based on the number of students who score at Level I or Level II on either reading or mathematics end-of-grade tests in grades 3-8. Funds in the allocation category shall be used to improve the academic performance of (i) students who are performing at Level I or II on either reading or mathematics end-of-grade tests in grades 3-8 or (ii) students who are performing at Level I or II on the writing tests in grades 4 and 7. These funds may also be used to improve the academic performance of students who are performing at Level I or II on the high school end-of-course tests. These funds shall not be transferred to other allocation categories or otherwise used for other purposes. Except as otherwise provided by law, local boards of education may transfer other funds available to them into this allocation category.

The principal of a school receiving these funds, in consultation with the faculty and the site-based management team, shall implement plans for expending these funds to improve the performance of students.

Local boards of education are encouraged to use federal funds such as Title I Comprehensive School Reform Development Funds and to examine the use of State funds to ensure that every student is performing at or above grade level in reading and mathematics.

These funds shall be allocated to local school administrative units for the 2007-2008 fiscal year within 30 days of the date this act becomes law.

SECTION 7.12.(b) Funds appropriated for Student Accountability Standards shall not revert at the end of each fiscal year but shall remain available for expenditure until August 31 of the subsequent fiscal year.

SECTION 7.15.(b) If the higher of the first or second month average daily membership in a local school administrative unit is at least two percent (2%) or 100 students lower than the anticipated average daily membership used for allotments for the unit, the State Board of Education shall reduce allotments for the unit. The reduced allotments shall be based on the higher of the first or second month average daily membership plus one-half of the number of students overestimated in the anticipated average daily membership.

The allotments reduced pursuant to this subsection shall include only those allotments that may be increased pursuant to the Allotment Adjustments for ADM Growth provisions of the North Carolina Public Schools Allotment Policy Manual.

SECTION 7.24.(f) If a county is unable to increase "More at Four" slots because of a documented lack of available resources necessary to provide the required local contribution for the additional slots allocated to the county for the 2007-2008 fiscal year, the contract agency for that county may appeal to the Office of School Readiness for an exception to the required local amount for those additional slots. The Office of School Readiness may grant an exception and allot funds to pay up to ninety percent (90%) of the full cost of the additional slots for that county if it finds that (i) there is in fact a documented lack of available resources in the county and (ii) granting the exception will not reduce access statewide to "More at Four" slots.

DROPOUT PREVENTION GRANTS

SECTION 7.32.(a) Findings. – The General Assembly finds that:

(1) North Carolina's schools recorded 22,180 dropout events in grades 9-12 for 2005-2006, a nine and nine-tenths percent (9.9%) increase from the count reported in 2004-2005. It is the highest count of dropouts since 1999-2000.

(2) A disproportionate share of the increase in dropout rates occurred in large local school administrative units.

(3) Black males accounted for a disproportionate amount of the increase in dropout count, and the dropout rate for black males increased to seven and one-hundredths percent (7.01%), an eight and four-tenths percent (8.4%) increase over the 2004-2005 rate.

(4) Students drop out of school for a variety of reasons, including academic issues, family and other personal reasons, discipline issues, drug abuse, the need to work, school size, and school climate.

(5) Students who drop out of school without graduating are more likely to be unemployed, receive public assistance, and have a higher incarceration rate than those who graduate.

(6) In order for our citizens and State to thrive in a global, knowledge-based economy, it is imperative that more of our students graduate from high school with the knowledge and skills needed for postsecondary education or high-skilled employment.

(7) Differing local needs and local resources necessitate the development of locally generated programs and initiatives that target dropouts and high school retention.

SECTION 7.32.(b) Purpose. – Recognizing that having an unacceptable dropout rate is not a new development in North Carolina, or in the rest of the country, and that over the years there have been, and continue to be, many programs and initiatives that have strived to address this issue, the purpose of this section is to focus attention and resources on innovative programs and initiatives that succeed in keeping students in school when other conflicting factors are pushing them to drop out before they are prepared to further their postsecondary education or enter the workforce.

SECTION 7.32.(c) Committee. – There is established the Committee on Dropout Prevention. The Committee shall be located administratively in the Department of Public Instruction but shall exercise its powers and duties independently of the Department of Public Instruction. The Department of Public Instruction shall provide for the administrative costs of the Committee and shall provide staff to the Committee.

The Committee shall determine which local school administrative units, schools, agencies, and nonprofits shall receive dropout prevention grants under subsection (d) of this section, the amount of each grant, and eligible uses of the grant funding. The Committee shall consist of the following 15 members:

(1) The Governor shall appoint five members, of whom one is a superintendent of schools, one is a representative of a nonprofit, and one is a school social worker;
(2) The President Pro Tempore of the Senate shall appoint five members, of whom one is a principal, one is a representative of a school of education, and one is a school counselor; and
(3) The Speaker of the House of Representatives shall appoint five members, of whom one is a teacher, one is a member of the business community, and one is a representative of the juvenile justice system.

The President Pro Tempore of the Senate and the Speaker of the House of Representatives shall each designate a cochair of the Committee. The members of the Committee shall assure they are in compliance with laws and rules governing conflicts of interest.

SECTION 7.32.(d) Dropout Prevention Grants. – The following criteria apply to dropout prevention grants approved by the Committee established under subsection (c) of this section.

(1) Grants shall be issued in varying amounts up to a maximum of one hundred fifty thousand dollars ($150,000).
(2) These grants shall be provided to innovative programs and initiatives that target students at risk of dropping out of school and that demonstrate the potential to (i) be developed into effective, sustainable, and coordinated dropout prevention and reentry programs in middle schools and high schools and (ii) serve as effective models for other programs.
(3) Priority shall be given to new programs and initiatives or to those that have begun within the last five school years.
(4) Grants shall be distributed geographically throughout the State.
(5) Grants may be made to local school administrative units, schools, local agencies, or nonprofit organizations.
(6) Grants shall be to programs and initiatives that hold all students to high academic and personal standards.
(7) Grant applications shall state (i) how grant funds will be used, (ii) what, if any, other resources will be used in conjunction with the grant funds, (iii) how the program or initiative will be coordinated to enhance the effectiveness of existing programs, initiatives, or services in the community, and (iv) a process for evaluating the success of the program or initiative.
(8) Programs and initiatives that receive grants under this subsection shall be based on best practices for preventing students from dropping out of school or for increasing the high school completion rate for those students who already have dropped out of school.
(9) Priority for grants shall be given to proposals that demonstrate input from the local community and coordination with other available programs or resources.
(10) Grantees shall assure their compliance with applicable laws and rules regulating conflicts of interest.
(12) Grants shall be made no later than November 1, 2007.

SECTION 7.32.(e) Report. – The Committee shall report to the Joint Legislative Commission on Dropout Prevention and High School Graduation created in

subsection (f) of this section by December 1, 2007, on the grants awarded under subsection (d) of this section, after which time the Committee shall terminate.

SECTION 7.32.(f) Joint Legislative Commission on Dropout Prevention and High School Graduation. –

(1) There is created the Joint Legislative Commission on Dropout Prevention and High School Graduation (Commission) to be composed of 16 members, eight appointed by the President Pro Tempore of the Senate and eight appointed by the Speaker of the House of Representatives. The President Pro Tempore and the Speaker shall each designate a cochair from their appointees. Vacancies shall be filled in the same manner as the original appointments were made.

(2) The cochairs shall jointly call the first meeting of the Commission. A quorum of the Commission is a majority of its members.

(3) The Commission shall:

a. Evaluate initiatives and programs designed to reduce the dropout rate and increase the number of students who graduate from high school prepared to further their postsecondary education or enter the workforce.

b. Review the research on factors related to students' success in school.

c. Evaluate the grants awarded under subsection (d) of this section and recommend whether any of the programs and initiatives that received one of these grants has potential for success and should be expanded or replicated.

d. Study the emergence of major middle school and high school reform efforts, including Learn and Earn Programs, the New Schools Initiative, and 21st Century Schools, and the impact they may have on the dropout rate.

e. Examine strategies, programs, and support services that should be provided if the compulsory school attendance age is raised to enable students to graduate from high school and time lines for implementing those strategies, programs, and support services.

f. Following a review of the courses required for graduation and the current system of awarding credit for those courses, determine whether changes should be made that better recognize the different learning rates and other needs of students.

g. Determine which interventions and other strategies, such as accelerated learning, tutoring, mentoring, or small class sizes, when employed as a substitute to grade retention or as a subsequent measure to grade retention, are the most effective at enabling these students to remain in school and graduate.

h. Study any other issue that the Commission considers relevant and appropriate.

(4) The Legislative Services Commission, through the Legislative Services Officer, shall assign professional and clerical staff to assist in the work of the Joint Legislative Commission on Dropout Prevention and High School Graduation. The expenses of employment of the

clerical staff shall be borne by the Joint Legislative Commission on Dropout Prevention and High School Graduation.

(5) The Commission may meet at various locations around the State in order to promote greater public participation in its deliberations. The Legislative Services Commission, through the Legislative Services Officer, shall grant to the Joint Legislative Commission on Dropout Prevention and High School Graduation adequate meeting space in the State Legislative Building or the Legislative Office Building.

(6) Members of the Commission shall be paid per diem, subsistence, and travel allowances as follows:

a. Members who are also members of the General Assembly, at the rate established in G.S. 120-3.1;

b. Members who are officials or employees of the State or local government agencies, at the rate established in G.S. 138-6; and

c. All other members, at the rate established in G.S. 138-5.

(7) The Commission, while in the discharge of its official duties, may exercise all powers provided for under G.S. 120-19 and Article 5A of Chapter 120 of the General Statutes. The Commission may contract for professional, clerical, or consultant services as provided by G.S. 120-32.02.

(8) The Commission may submit an interim report, including any recommendations and proposed legislation, to the Joint Legislative Education Oversight Committee and the General Assembly by May 1, 2008, and shall submit a final written report of its findings and recommendations on or before the convening of the 2009 Session of the General Assembly. All reports shall be filed with the President Pro Tempore of the Senate, the Speaker of the House of Representatives, and the Legislative Librarian. Upon filing its final report, the Commission shall terminate.

SECTION 7.34.(a) The State Board of Education may develop a policy for a two-year phaseout of the special supplementary funding currently provided to the two remaining high priority elementary schools and may use funds in the ADM Contingency Reserve to support any additional cost of the two-year phaseout.

SECTION 7.34.(b) The State Board of Education shall not use funds appropriated for State Aid to Local Administrative Units to contract with an outside organization to evaluate the high priority schools initiative begun in the 2001-2002 fiscal year. The nutrition standards will promote gradual changes to increase fruits and vegetables, increase whole grain products, and decrease foods high in total fat, trans fat, saturated fat, and sugar. The nutrition standards adopted by the State Board of Education shall be implemented initially in elementary schools. All elementary schools shall achieve a basic level by the end of the ~~2007-2008~~2008-2009 school year, followed by middle schools and then high schools."

SECTION 7.36A.(d) The General Assembly urges the Director of the State Budget to include in the proposed Continuation Budget the amount required to ensure that all kindergarten students in schools that meet the eligibility percentage authorized by the State Board of Education receive a free breakfast.

The State Board shall not adjust that eligibility percentage below thirty-nine and four one-hundredths of one percent (39.04%) unless the General Assembly funds an expansion of the program.

FUNDS FOR SCHOOL TECHNOLOGY PILOT

SECTION 7.39.(a) Funds are appropriated in this act to the State Board of Education to be used with a grant of three million dollars ($3,000,000) from the Golden LEAF Foundation and other private sector funds to establish a school technology pilot program. The county departments of social services shall be responsible for implementation of the Program with all adult care homes located in the respective county, based on a timetable for statewide implementation.

The Division of Aging and Adult Services shall consult with adult care home providers, county departments of social services, consumer advocates, and other interested stakeholders and parties in the development of the Quality Improvement Consultation Program for Adult Care Homes.

The Program will address the following topics:

(1) Principles and philosophies that are resident-centered and promote independence, dignity, and choice for residents;

(2) Approaches to develop continuous quality improvement with a focus on resident satisfaction and optimal outcomes;

(3) Dissemination of best practice models that have been used successfully elsewhere;

(4) A determination of the availability of standardized instruments, and their use to the extent possible, to assess and measure adult care home performance according to quality of life indicators;

(5) Utilization of quality improvement plans for adult care homes that identify and resolve issues that adversely affect quality of care and services to residents. The plans include agreed upon time frames for completion of improvements and identification of needed resources;

(6) Training required to equip county departments of social services' staff to implement the Program;

The recommendations shall be made to the Secretary of the Department of Health and Human Services, the North Carolina Study Commission on Aging, the Senate Appropriations Committee on Health and Human Services, and the House of Representatives Subcommittee on Health and Human Services.

STATE-COUNTY SPECIAL ASSISTANCE

SECTION 10.13.(a) The eligibility of Special Assistance recipients residing in adult care homes on August 1, 1995, shall not be affected by an income reduction in the Special Assistance eligibility criteria resulting from adoption of the Rate Setting Methodology Report and Related Services, providing these recipients are otherwise eligible. The maximum monthly rate for these residents in adult care home facilities shall be one thousand two hundred thirty-one dollars ($1,231) per month per resident.

SECTION 10.13.(b) Effective January 1, 2007, the maximum monthly rate for residents in adult care home facilities shall be one thousand one hundred forty-eight dollars ($1,148) per month per resident unless adjusted by the Department in accordance with subsection (e) of this section.

SECTION 10.13.(c) Effective October 1, 2007, the maximum monthly rate for residents in adult care home facilities shall be one thousand one hundred seventy-three dollars ($1,173) per month per resident unless adjusted by the Department in accordance with subsection (e) of this section.

SECTION 10.13.(d) The maximum monthly rate for residents in Alzheimer/Dementia special care units shall be one thousand five hundred fifteen dollars ($1,515) per month per resident unless adjusted by the Department in accordance with subsection (e) of this section.

SECTION 10.13.(e) Notwithstanding any other provision of this section, the Department of Health and Human Services shall review activities and costs related to the provision of care in adult care homes and shall determine what costs may be considered to properly maximize allowable reimbursement available through Medicaid personal care services for adult care homes (ACH-PCS) under federal law. As determined, and with any necessary approval from the Centers for Medicare and Medicaid Services (CMS), and the approval of the Office of State Budget and Management, the Department may transfer necessary funds from the State-County Special Assistance program within the Division of Social Services to the Division of Medical Assistance and may use those funds as State match to draw down federal matching funds to pay for such activities and costs under Medicaid's personal care services for adult care homes (ACH-PCS), thus maximizing available federal funds. The established rate for State-County Special Assistance set forth in subsections (b) and (c)

of this section shall be adjusted by the Department to reflect any transfer of funds from the Division of Social Services to the Division of Medical Assistance and related transfer costs and responsibilities from State-County Special Assistance to the Medicaid personal care services for adult care homes (ACH-PCS). Subject to approval by the Centers for Medicare and Medicaid Services (CMS) and prior to implementing this section, the Department may disregard a limited amount of income for individuals whose countable income exceeds the adjusted State-County Special Assistance rate. The amount of the disregard shall not exceed the difference between the Special Assistance rate prior to the adjustment and the Special Assistance rate after the adjustment and shall be used to pay a portion of the cost of the ACH-PCS and reduce the Medicaid payment for the individual's personal care services provided in an adult care home. In no event shall the reimbursement for services through the ACH-PCS exceed the average cost of the services as determined by the Department from review of cost reports as required and submitted by adult care homes. The Department shall report any transfers of funds and modifications of rates to the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Fiscal Research Division.

SECTION 10.13.(f) Effective July 1, 2007, the Department of Health and Human Services shall recommend rates for State-County Special Assistance and for Adult Care Home Personal Care Services. The Department may recommend rates based on appropriate cost methodology and cost reports submitted by adult care homes that receive State-County Special Assistance funds and shall ensure that cost reporting is done for State-County Special Assistance and Adult Care Home Personal Care Services to the same standards as apply to other residential service providers.

SPECIAL ASSISTANCE IN-HOME

SECTION 10.14.(a) Part 3 of Article 2 of Chapter 108A of the General Statutes is amended by adding the following new section to read:

"**§ 108A-47.1. Special Assistance in-home payments.**

The Department of Health and Human Services may use funds from the existing State-County Special Assistance for Adults budget to provide Special Assistance payments to eligible individuals in in-home living arrangements. These payments may be made for up to fifteen percent (15%) of the caseload for all State-County Special Assistance for Adults. The standard monthly payment to individuals enrolled in the Special Assistance in-home program shall be seventy-five percent (75%) of the monthly payment the individual would receive if the individual resided in an adult care home and qualified for Special Assistance, except if a lesser payment amount is appropriate for the individual as determined by the local case manager. The Department shall implement Special Assistance in-home eligibility policies and procedures to assure that in-home program participants are those individuals who need and, but for the in-home program, would seek placement in an adult care home facility. The Department's policies and procedures shall include the use of a functional assessment. The Department shall make this in-home option available to all counties on a voluntary basis. To the maximum extent possible, the Department shall consider geographic balance in the dispersion of payments to individuals across the State."

SECTION 10.14.(b) For State fiscal year 2007-2008, qualified individuals shall not receive payments at rates less than they would have been eligible to receive in State fiscal year 2006-2007.

CHILD CARE SUBSIDY RATES

SECTION 10.15.(a) The maximum gross annual income for initial eligibility, adjusted biennially, for subsidized child care services shall be seventy-five percent (75%) of the State median income, adjusted for family size.

SECTION 10.15.(b) Fees for families who are required to share in the cost of care shall be established based on a percent of gross family income and adjusted for family size. Fees shall be determined as follows:

FAMILY SIZE	PERCENT OF GROSS FAMILY INCOME
1-3	10%
4-5	9%
6 or more	8%.

SECTION 10.15.(c) Payments for the purchase of child care services for low-income children shall be in accordance with the following requirements:

(1) Religious-sponsored child care facilities operating pursuant to G.S. 110-106 and licensed child care centers and homes that meet the minimum licensing standards that are participating in the subsidized child care program shall be paid the one-star county market rate or the rate they charge privately paying parents, whichever is lower.

(2) Licensed child care centers and homes with two or more stars shall receive the market rate for that rated license level for that age group or the rate they charge privately paying parents, whichever is lower.

(3) Nonlicensed homes shall receive fifty percent (50%) of the county market rate or the rate they charge privately paying parents, whichever is lower.

(4) Maximum payment rates shall also be calculated periodically by the Division of Child Development for transportation to and from child care provided by the child care provider, individual transporter, or transportation agency, and for fees charged by providers to parents. These payment rates shall be based upon information collected by market rate surveys.

SECTION 10.15.(d) Provisions of payment rates for child care providers in counties that do not have at least 50 children in each age group for center-based and home-based care are as follows:

(1) Except as applicable in subdivision (2) of this subsection, payment rates shall be set at the statewide or regional market rate for licensed child care centers and homes.

(2) If it can be demonstrated that the application of the statewide or regional market rate to a county with fewer than 50 children in each age group is lower than the county market rate and would inhibit the ability of the county to purchase child care for low-income children, then the county market rate may be applied.

SECTION 10.15.(e) A market rate shall be calculated for child care centers and homes at each rated license level for each county and for each age group or age category of enrollees and shall be representative of fees charged to parents for each age group of enrollees within the county. The Division of Child Development shall also calculate a statewide rate and regional market rates for each rated license level for each age category.

SECTION 10.15.(f) Facilities licensed pursuant to Article 7 of Chapter 110 of the General Statutes and facilities operated pursuant to G.S. 110-106 may participate

in the program that provides for the purchase of care in child care facilities for minor children of needy families. No separate licensing requirements shall be used to select facilities to participate. In addition, child care facilities shall be required to meet any additional applicable requirements of federal law or regulations. Child care arrangements exempt from State regulation pursuant to Article 7 of Chapter 110 of the General Statutes shall meet the requirements established by other State law and by the Social Services Commission.

County departments of social services or other local contracting agencies shall not use a provider's failure to comply with requirements in addition to those specified in this subsection as a condition for reducing the provider's subsidized child care rate.

SECTION 10.15.(g) Payment for subsidized child care services provided with Work First Block Grant funds shall comply with all regulations and policies issued by the Division of Child Development for the subsidized child care program.

SECTION 10.15.(h) Noncitizen families who reside in this State legally shall be eligible for child care subsidies if all other conditions of eligibility are met. The mandatory thirty percent (30%) Smart Start subsidy allocation under G.S. 143B-168.15(g) shall constitute the base amount for each county's child care subsidy allocation. The Department of Health and Human Services shall use the following method when allocating federal and State child care funds, not including the aggregate mandatory thirty percent (30%) Smart Start subsidy allocation:

(1) Funds shall be allocated based upon the projected cost of serving children in a county under age 11 in families with all parents working who earn less than seventy-five percent (75%) of the State median income.
(2) No county's allocation shall be less than ninety percent (90%) of its State fiscal year 2001-2002 initial child care subsidy allocation.

SECTION 10.16.(b) The Department of Health and Human Services may reallocate unused child care subsidy voucher funds in order to meet the child care needs of low-income families. Any reallocation of funds shall be based upon the expenditures of all child care subsidy voucher funding, including Smart Start funds, within a county.

SECTION 10.16.(c) Notwithstanding subsection (a) of this section, the Department of Health and Human Services shall allocate up to twelve million dollars ($12,000,000) in federal block grant funds and State funds appropriated for fiscal years 2007-2008 and 2008-2009 for child care services. These funds shall be allocated to prevent termination of child care services. Funds appropriated for specific purposes,

including market rate adjustments, may also be allocated by the Department separately from the allocation formula described in subsection (a) of this section.

CHILD CARE FUNDS MATCHING REQUIREMENT

SECTION 10.17.(a) No local matching funds may be required by the Department of Health and Human Services as a condition of any locality's receiving its initial allocation of child care funds appropriated by this act unless federal law requires a match. If the Department reallocates additional funds above twenty-five thousand dollars ($25,000) to local purchasing agencies beyond their initial allocation, local purchasing agencies must provide a fifteen percent (15%) local match to receive the reallocated funds. Matching requirements shall not apply when funds are allocated because of a disaster as defined in G.S. 166A-4(1).

SECTION 10.17.(b) If funds are reallocated to local purchasing agencies in accordance with subsection (a) of this section, the Department of Health and Human Services shall evaluate the fifteen percent (15%) local matching requirement to determine its effect on local purchasing agencies and whether the matching requirement should be adjusted. The Department shall report its findings and recommendations to the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Fiscal Research Division no later than April 1, 2008.

CHILD CARE REVOLVING LOAN

SECTION 10.18. Notwithstanding any law to the contrary, funds budgeted for the Child Care Revolving Loan Fund may be transferred to and invested by the financial institution contracted to operate the Fund. The principal and any income to the Fund may be used to make loans, reduce loan interest to borrowers, serve as collateral for borrowers, pay the contractor's cost of operating the Fund, or pay the Department's cost of administering the program.

CHILD CARE MARKET RATE ADJUSTMENTS

SECTION 10.18A. Not later than October 1, 2007, the Department shall implement an adjustment to child care market rates, by region, based upon the 2007 Child Care Market Rate Study. Rate adjustments shall be implemented as follows:

(1) For three- to five-star child care center-based rates, counties in Region 1 shall receive twenty percent (20%) of the recommended rate adjustment as defined in the 2007 Child Care Market Rate Study.

(2) For three- to five-star child care center-based rates, counties in Regions 2-5 shall receive thirty percent (30%) of the recommended rate adjustment as defined in the 2007 Child Care Market Rate Study.

(3) For three- to five-star child care home-based rates, all counties shall receive ten percent (10%) of the recommended rate adjustment as defined in the 2007 Child Care Market Rate Study.

EARLY CHILDHOOD EDUCATION AND DEVELOPMENT INITIATIVES ENHANCEMENTS

SECTION 10.36.(g) Rules, Reports, and Other Matters. –

The Department of Health and Human Services shall adopt rules requiring providers to attend training as a condition of enrollment and may adopt temporary or emergency rules to implement the training requirement.

Prior to the filing of the temporary or emergency rules authorized under this subsection with the Rules Review Commission and the Office of Administrative Hearings, the Department shall consult with the Office of State Budget and Management on the possible fiscal impact of the temporary or emergency rule and its effect on State appropriations and local governments.

Effective January 1, 2009, the skilled nursing facility provider assessment shall be increased by one dollar ($1.00) over the assessment amount in effect on January 1, 2008. The revenue realized from the increased provider assessment for skilled nursing facilities shall be used to reduce State appropriations needed to rebase the rates for the case-mix reimbursement system for skilled nursing facilities. If additional funding is needed to implement the rebasing of the case-mix reimbursement system for skilled nursing facilities, the Department may use funds available in order to implement the rebasing.

SECTION 10.39A.(c) The Department of Health and Human Services, Division of Medical Assistance, shall develop an appropriate schedule for ongoing rebasing of rates for the case-mix reimbursement system for skilled nursing facilities. NC KIDS' CARE

SECTION 10.48.(a) Of the funds appropriated in this act to the Department of Health and Human Services, Division of Medical Assistance, the sum of three hundred sixty-eight thousand dollars ($368,000) for the 2007-2008 fiscal year shall be used by the Department of Health and Human Services to produce a report that identifies the most cost-efficient and cost-effective method for developing and implementing a program of comprehensive health care benefits within available funding for children ages 0 through 18 in families with annual incomes between two hundred percent (200%) and three hundred percent (300%) of the federal poverty level. The report shall consider and address the following:

(1) Congress' reauthorization of the State Children's Health Insurance Program (SCHIP) with respect to:
   a. The amount of federal funds authorized for each of the fiscal years covered in the reauthorization;
   b. The number of fiscal years that federal funding awarded to the states remains available to each state;
   c. The adequacy of the formula by which federal funds are distributed to the states; and
   d. The ability of states to expand SCHIP coverage to children whose family incomes exceed two hundred percent (200%) of the federal poverty level.

   The Department shall determine whether the most effective use of State funds is to develop a program that expands access to health insurance for children whose family income exceeds two hundred percent (200%) of the federal poverty level through NC Health Choice or the State Medical Assistance Program.

(2) Eligibility and benefits are not an entitlement, are for legal residents of North Carolina, and are subject to availability of State and federal funds, and State and federal requirements.

(3) The most cost-effective use of limited State funds to offer health care services to children in families between two hundred percent (200%) and three hundred percent (300%) of the federal poverty level.

(5) The health care benefits covered in the proposed expansion program shall not exceed the benefits currently covered by the NC Health Choice.

(6) The establishment of cost-sharing measures for the families of children with an income above two hundred percent (200%) of the federal poverty level, including:

a. A monthly premium per child that is at an optimal level that simultaneously is affordable, encourages participation by families, controls costs, and provides revenue to reduce the cost of the program to the State. The amount of the premium may increase as income increases above two hundred percent (200%) of the federal poverty level.

b. Increased co-payments and cost-sharing that are affordable and sufficient to control costs, while not discouraging families from seeking and continuing prescribed treatment for children.

c. A deductible that is to be applied to certain health care benefits.

d. A limit on out-of-pocket expenses that is no more than five percent (5%) of family income.

(7) The establishment of a comprehensive annual benefit limit per child that is no more than the current annual benefit limit under NC Health Choice.

(8) The most cost-effective and efficient way of administering and managing enrollment in the program and the collection of premiums. This may include having the current administrator of NC Health Choice be the entity to collect premiums, or designating some other benefit management or administrative entity to do so, including the Department.

SECTION 10.48.(b) Not later than January 1, 2008, the Department shall submit an interim report of its findings and recommendations to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, the Joint Legislative Commission on Governmental Operations, and the Fiscal Research Division. The Department shall submit its final report not later than February 1, 2008. It is the intent of the General Assembly to review the Department's recommendations before the Department implements a program to expand access to health insurance to children above two hundred percent (200%) of the federal poverty level effective July 1, 2008, or upon approval of all required federal waivers, whichever occurs later.

SECTION 10.48.(c) Of the funds appropriated in this act to the Department of Health and Human Services, the sum of seven million dollars ($7,000,000) for the 2008-2009 fiscal year shall be used to implement a program to expand access to health insurance to children above two hundred percent (200%) of the federal poverty level effective July 1, 2008.

SECTION 10.49.(c) Consistent with G.S. 122C-2, the General Assembly strongly encourages LMEs to use a portion of the funds appropriated for substance abuse treatment services to support prevention and education activities.

SECTION 10.49.(d) An LME may use up to one percent (1%) of funds allocated to it for substance abuse treatment services to provide nominal incentives for consumers who achieve specified treatment benchmarks, in accordance with the federal substance abuse and mental health services administration best practice model entitled Contingency Management.

SECTION 10.49.(e1) In providing treatment and services for adult offenders and increasing the number of TASC case managers, local management entities shall consult with TASC to improve offender access to substance abuse treatment and match evidence-based interventions to individual needs at each stage of substance abuse treatment. Special emphasis should be placed on intermediate punishment offenders, community punishment offenders at risk for revocation, and DOC releasees who have completed substance abuse treatment while in custody.

In addition to the funds appropriated in this act to the Department of Health and Human Services, Division of Mental Health, Developmental Disabilities, and Substance Abuse Services to provide substance abuse services for adult offenders and to increase the number of TASC case managers, the Department shall allocate up to three hundred thousand dollars ($300,000) to Treatment Accountability for Safer Communities (TASC). These funds shall be allocated to TASC before funds are

allocated to local management entities for mental health services, substance abuse services, and crisis services.

SECTION 10.49.(e2) In providing Drug Treatment Court services, local management entities shall consult with the local drug treatment court team and shall select a treatment provider that meets all provider qualification requirements and the drug treatment court's needs. A single treatment provider may be chosen for non-Medicaid-eligible participants only. A single provider may be chosen who can work with all of the non-Medicaid-eligible drug treatment court participants in a single group. During the 52-week Drug Treatment Court program, participants shall receive an array of treatment and after-care services that meets the participant's level of need, including step-down services that support continued recovery.

SECTION 10.49.(f) Within available State and county resources, local management entities shall work with county public health departments and county sheriffs to provide medical assessments and medication, if appropriate, for inmates housed in county jails who are suicidal, hallucinating, or delusional. ADDITIONAL HOUSING ASSISTANCE.

The Department shall maximize the number of subsidies that can be paid for with these funds by giving first priority to North Carolina Housing Agency-financed apartments, giving second priority to other publicly subsidized apartments, and third priority to market-rate apartments. Unless prohibited by the Fair Housing Act or other applicable federal law, in awarding funds for financing apartments, the Housing Finance Agency shall give first priority to those housing developments with an LME as the lead agency.

SECTION 10.49.(h1) The Department of Health and Human Services and the North Carolina Housing Finance Agency (NCHFA) shall work together to develop a

The final report shall take into consideration findings in the interim report and shall include strategies for addressing gaps in the housing continuum identified by the DHHS study of the housing needs of persons with mental illness in adult care homes, if the study is completed. The Department and the NCHFA shall also jointly report on the progress of the Housing 400 Initiative to the Oversight Committee not later than March 1, 2008.

SECTION 10.49.(h2) The Department of Health and Human Services, Division of Mental Health, Developmental Disabilities, and Substance Abuse Services, may transfer funds appropriated for operating cost subsidies for independent- and supportive-living apartments for individuals with disabilities to the North Carolina Housing Finance Agency (NCHFA) to be used for these purposes. If funds appropriated in this act for operating assistance for the independent supportive living apartments for people with disabilities exceed the amount necessary to finance those apartments for which funds were appropriated, then the excess funds may be used in each fiscal year to subsidize other apartments for individuals with disabilities that are affordable for individuals with income at the SSI level.

For the purposes of ensuring that State supported assisted housing is available to all disability groups, the NCHFA and the Department of Health and Human Services shall do the following:

(1) The NCHFA shall provide to the Division of Medical Assistance the identifying information of each resident that receives housing assistance in NCHFA properties because of the recipient's disability.

The types of disability for which aggregate data is reported shall be mental illness, developmental disability, physical disability, and the multiple combination of these types. The report shall ensure that individuals with multiple diagnoses are counted only one time for each aggregate report. The Department of Health and Human Services shall ensure that information reported does not include information that would identify or lead to the identity of a Medicaid recipient. The Department of Health and Human Services shall submit the report to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health

and Human Services, the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services, and the Fiscal Research Division not later than May 1, 2008, and again not later than May 1, 2009.

SECTION 10.49.(i) The Department of Health and Human Services shall develop a "Transitional Residential Treatment Program" service definition to provide 24-hour residential treatment and rehabilitation for adults who have a pattern of difficult behaviors related to mental illness, which exceeds the capabilities of traditional community residential settings. Before implementing the definition and rate, the Department shall report to the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services. Not later than March 1, 2008, the Department shall report to the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services on the implementation of this subsection.

SECTION 10.49.(j) The joint ad hoc subcommittee regarding the mentally ill in adult care homes convened by the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services and the North Carolina Commission on Aging may continue to study and identify rules and laws that are necessary to regulate facilities that provide housing for adults with mental illness in the same location with adults without mental illness.

It also includes the initiation of and participation in the development of required modifications to the plans for high risk and high cost consumers in order to achieve better client outcomes or equivalent outcomes in a more cost-effective manner. Monitoring effectiveness includes reviewing client outcomes data supplied by the provider, direct contact with consumers, and review of consumer charts.~~involves individual client care decisions at critical treatment junctures to assure clients' care is coordinated, received when needed, likely to produce good outcomes, and is neither too little nor too much service to achieve the desired results. In allocating these funds, the Department shall consider the impact of the closure of any State institution on each local management entity. The Department of Health and Human Services may use up to two hundred fifty thousand dollars ($250,000) in each fiscal year of the funds allocated under this subsection to extend its contract with the crisis services consultant authorized under Section 10.26(b) of S.L. 2006-66.

SECTION 10.49.(n) S.L. 2006-66, Section 10.26(d), as amended by Section 11 of S.L. 2006-221, reads as rewritten:

"**SECTION 10.26.(d)** With the assistance of the consultant, the ~~area authorities and county programs~~ LMEs within a crisis region shall work together to identify gaps in their ability to provide a continuum of crisis services for all consumers and use the funds allocated to them to develop and implement a plan to address those needs. At a minimum, the plan must address the development over time of the following components: 24-hour crisis telephone lines, walk-in crisis services, mobile crisis

If all ~~area authorities and county programs~~ LMEs in a crisis region determine that a facility-based crisis center is needed and sustainable on a long-term basis, the crisis region shall first attempt to secure those services through a community hospital or other community facility. If all ~~area authorities and county programs~~ LMEs in the crisis region determine the region's crisis needs are being met, the ~~area authorities and county programs~~ LMEs may use the funds to meet local crisis service needs."

SECTION 10.49.(o) LMEs shall report monthly to the Department and to the consultant regarding the use of the funds, whether there has been a reduction in the use of State psychiatric hospitals for acute admissions, and any remaining gaps in local and regional crisis services. The consultant and the Department shall report quarterly to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, the Fiscal Research Division, and the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services regarding each LME's proposed and actual use of the funds appropriated under this section. The reporting requirements under this subsection shall expire July 1, 2008.

SECTION 10.49.(q) G.S. 122C-147.1 is amended by adding the following new subsection to read:

SECTION 10.49.(r) The Department of Health and Human Services shall develop a system for reporting to LMEs aggregate information regarding all visits to community hospital emergency departments due to a mental illness, a developmental disability, or a substance abuse disorder. The report shall be submitted on a quarterly basis beginning with the 2007-2008 fiscal year.

SECTION 10.49.(s1) Of the funds appropriated in this act to the Department of Health and Human Services, Division of Mental Health, Developmental Disabilities, and Substance Abuse Services (Division), the sum of two million five hundred thousand dollars ($2,500,000) for the 2007-2008 fiscal year and the sum of five million dollars ($5,000,000) for the 2008-2009 fiscal year shall be used to develop a pilot program to reduce State psychiatric hospital use and to increase local services for persons with mental illness. Of these funds, the sum of two hundred fifty thousand dollars ($250,000) in each fiscal year shall be retained by the Department. The remainder in each fiscal year shall be allocated to LMEs to be used in accordance with this section. The Division and each selected LME shall implement an 18-month pilot beginning in the 2007-2008 fiscal year, as provided in subsections (s2) and (s3) of this section. It is the intent of the General Assembly to provide funds to expand the pilot program in the 2008-2009 fiscal year. To this end, the Division shall develop a plan for expanded pilots as provided in subsection (s4) of this section.

SECTION 10.49.(s2) The purpose of the 18-month pilot program developed under subsection (s1) of this section and to be implemented during the 2007-2008 fiscal year is to test a mechanism to reduce psychiatric hospital use by holding an LME financially and clinically responsible for the cost of that use and by providing additional resources to build community capacity. The Department shall select up to three LMEs in the same catchment area and at least one LME in a different catchment area that submit a proposal to participate in the pilot to the Division no later than October 15, 2007. The proposal shall include a plan by the LME to reduce hospital use by a specified amount and an explanation of how the LME expects to accomplish this goal. To facilitate pilot implementation, the Division shall do all of the following:

(1) Calculate the cost of each LME's 2006-2007 use of State psychiatric hospital services based roughly on that hospital's total budget and the percentage of patients at the hospital admitted from the LME's catchment area.

(2) Calculate a daily rate for hospital usage based on 2006-2007 statewide usage. The daily rate shall be higher for subsequent admissions by the same patient and higher for patients admitted with a primary diagnosis of substance abuse.

(3) Provide the results from subdivisions (1) and (2) of this subsection to all LMEs not later than September 1, 2007.

(4) Award pilot participation not later than November 1, 2007, based upon the proposals that project the largest decrease in use and that the Division believes has the greatest likelihood of succeeding.

(5) Commence pilot implementation not later than January 1, 2008.

SECTION 10.49.(s3) Parameters of the pilot developed under subsection (s1) of this section are as follows:

(1) The pilot LMEs will have a virtual budget account for January 1, 2008, through June 30, 2008, based on one-half of the LME's cost of State psychiatric hospital use during the 2006-2007 fiscal year minus the LME's proposed reduction in hospital use. The virtual budget account will be for the full amount less an agreed upon reduction in the second year of the pilot.

(2) Every bed day used by patients from that LME's catchment area will be debited against that LME's virtual account.

(3) The cost of bed days will increase by the agreed upon amount for patients who are repeatedly admitted to the hospital.

(4) The cost of bed days will increase by the agreed upon amount for patients who are admitted with a primary diagnosis of substance abuse.

(5) The LME shall have one or more representatives on site at the State psychiatric hospital. The LME representatives shall be involved with patient admissions, development of treatment plans, supervision and delivery of treatment, and development and implementation of discharge plans.

(6) The pilot LMEs shall use their allocated funds to: (i) build community capacity through start-up operations or payment for local services; (ii) pay for the on-site representative at State psychiatric hospitals; and (iii) pay for patient bed days that are in excess of RFP's projected use.

(7) Any funds remaining from the two million two hundred fifty thousand dollar ($2,250,000) allocation shall carry over to be used by the LMEs to pay for services to the mentally ill.

SECTION 10.49.(s4) Based on the experiences of the pilot programs authorized under subsections (s2) and (s3) of this section, the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services (Division) shall work with the existing hospital use study group to develop a proposal for subsequent pilots to reduce hospital use and build community services. The Division may use up to two hundred fifty thousand dollars ($250,000) in each fiscal year to develop the proposal. The Division shall submit an interim report on its progress to the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services (Oversight Committee) by October 15, 2007, and a second interim report by February 1, 2008. The Division shall submit its final report to the Oversight Committee by February 1, 2009. The final report shall include a description of the pilot LMEs' success in working with local hospitals and the resulting reductions in the use of emergency rooms, jails, and State facilities.

SECTION 10.49.(s5) The budgets for the State psychiatric hospitals shall not be reduced during the 2007-2008 fiscal year as a result of the pilot developed under subsection (s1) of this section. However, those budgets shall be adjusted in following years to reflect the previous year's use by the LMEs participating in the pilot program.

SECTION 10.49.(t) Notwithstanding G.S. 122C-112.1(a)(30) and G.S. 122C-181, the Secretary of Health and Human Services may close Dorothea Dix Hospital, and the Secretary of Health and Human Services may close John Umstead Hospital or any unit or section of that hospital, provided that all of the following conditions have been met prior to closure of each hospital or unit thereof:

(1) The Secretary has notified the Joint Legislative Commission on Governmental Operations, the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services, and members of the General Assembly who represent catchment areas affected by the closure.

(2) The Secretary has presented a plan for the closure of each hospital or unit thereof to the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services (Oversight Committee) for its review, advice, and recommendations. The Secretary shall also provide a copy of the plan to each member of the General Assembly in a timely manner to permit each member of the General Assembly to comment at the presentation of the plan to the Oversight Committee. The plan shall address specifically all of the following: (i) the capacity of any replacement facility and the catchment area to meet the needs of those consumers who require long-term secure services as well as acute care; (ii) an inventory of existing capacity in the communities within the catchment area for patients to access crisis services, appropriate housing, and other necessary supports; (iii) how the State and the LMEs in the catchment area will attract and retain qualified private providers that will provide services to State-paid non-Medicaid-eligible consumers; and (iv) the impact of the closure on remaining State facilities. In implementing the plan, the Secretary shall take into consideration the comments and

recommendations of the Oversight Committee and other members of the General Assembly.

(3) The Central Regional Hospital is operational and patient transfers from Dorothea Dix Hospital and John Umstead Hospital have been completed.

(4) Notwithstanding any other provision of law, the Secretary shall not close a State facility if there are not adequate replacement services available prior to the date of closure.

SECTION 10.49.(u) In keeping with the United States Supreme Court decision in Olmstead v. L.C. & E.W. and State policy to provide appropriate services to clients in the least restrictive and most appropriate environment, the Department of Health and Human Services shall continue to implement a plan for the transition of patients from State psychiatric hospitals to the community or to other long-term care facilities, as appropriate. The goal is to develop mechanisms and identify resources needed to enable patients and their families to receive the necessary services and supports based on the following guiding principles:

(1) Individuals shall be provided acute psychiatric care in non-State facilities when appropriate.

(2) Individuals shall be provided acute psychiatric care in State facilities only when non-State facilities are unavailable.

(3) Individuals shall receive evidence-based psychiatric services and care that are cost-efficient.

(4) The State shall minimize cost shifting to other State and local facilities or institutions.

The Department of Health and Human Services shall conduct an analysis of the individual patient service needs and shall develop and implement an individual transition plan, as appropriate, for patients in each hospital. The State shall ensure that each individual transition plan, as appropriate, shall take into consideration the availability of appropriate alternative placements based on the needs of the patient and within resources available for the mental health, developmental disabilities, and substance abuse services system. In developing each plan, the Department shall consult with the patient and the patient's family or other legal representative.

The Department of Health and Human Services shall submit reports on the status of implementation of this section to the Joint Legislative Commission on Governmental Operations, the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services, and the Fiscal Research Division. These reports shall be submitted on December 1, 2007, and May 1, 2008.

USE OF MENTAL HEALTH TRUST FUNDS.

SECTION 10.49.(v) Funds in the Trust Fund for Mental Health, Developmental Disabilities, and Substance Abuse Services and Bridge Funding Needs (Mental Health Trust Fund) that are designated by the Department of Health and Human Services in its 2006-2007 Mental Health Trust Fund Plan for increasing community-based services, shall be disbursed in full by the Department to LMEs for this purpose not later than October 1, 2007. Funds received by LMEs on or before October 1, 2007, for this purpose and not expended or encumbered by LMEs for this purpose by June 30, 2009, shall revert on that date to the Mental Health Trust Fund.

Notwithstanding G.S. 143C-9-2, as amended by subsection (w1) of this section, the Department of Health and Human Services may spend funds in the Mental Health Trust Fund for the 2007-2008 fiscal year for allowable purposes other than community-based programs provided that such purposes were included in the 2006-2007 Mental Health Trust Fund Plan. As used in this subsection "allowable purposes" means the statutory authorization in effect under G.S. 143-15.3D on June 30, 2007.

SECTION 10.49.(w1) G.S. 143C-9-2 reads as rewritten:

"§ **143C-9-2. Trust Fund for Mental Health, Developmental Disabilities, and Substance Abuse Services and Bridge Funding Needs.**

(a) The Trust Fund for Mental Health, Developmental Disabilities, and Substance Abuse Services and Bridge Funding Needs is established as an interest-bearing, nonreverting special trust fund in the Office of State Budget and Management. Moneys in the Trust Fund shall be held in trust and used solely to increase community-based services that meet the mental health, developmental disabilities, and substance abuse services needs of the State. The Trust Fund shall be used to supplement and not to supplant or replace existing State and local funding available to meet the mental health, developmental disabilities, and substance abuse services needs of the State.

The State Treasurer shall hold the Trust Fund separate and apart from all other moneys, funds, and accounts. The State Treasurer shall be the custodian of the Trust Fund and shall invest its assets in accordance with G.S. 147-69.2 and G.S. 147-69.3. Investment earnings credited to the assets of the Trust Fund shall become part of the Trust Fund. Any balance remaining in the Trust Fund at the end of any fiscal year shall be carried forward in the Trust Fund for the next succeeding fiscal year.

Moneys in the Trust Fund shall be expended only in accordance with subsection (b) of this section and in accordance with limitations and directions enacted by the General Assembly.

(b) Moneys in the Trust Fund for Mental Health, Developmental Disabilities, and Substance Abuse Services and Bridge Funding Needs shall be allocated to area programs to be used only to:

(1) Provide start-up funds and operating support for programs and services that provide more appropriate and cost-effective community treatment alternatives for individuals currently residing in the State's mental health, developmental disabilities, and substance abuse services institutions.

~~(2) Facilitate the State's compliance with the United States Supreme Court decision in Olmstead v. L.C. and E.W.~~

(3) Facilitate reform of the mental health, developmental disabilities, and substance abuse services system and expand and enhance treatment and prevention services in these program areas to remove waiting lists and provide appropriate and safe services for clients.

(4) Provide bridge funding to maintain appropriate client services during transitional periods as a result of facility closings, including departmental restructuring of services.

~~(5) Construct, repair, and renovate State mental health, developmental disabilities, and substance abuse services facilities.~~

(c) Notwithstanding G.S. 143C-1-2, any nonrecurring savings in State appropriations realized from the closure of any State psychiatric hospitals that are in

excess of the cost of operating and maintaining a new State psychiatric hospital shall not revert to the General Fund but shall be placed in the Trust Fund and shall be used for the purposes authorized in this section. Notwithstanding G.S. 143C-1-2, recurring savings realized from the closure of any State psychiatric hospitals shall not revert to the General Fund but shall be credited to the Department of Health and Human Services to be used only for the purposes of subsections (b)(1) ~~(b)(2)~~ and (b)(3) of this section.

(d) Beginning July 1, 2007, the Secretary of the Department of Health and Human Services shall report annually to the Fiscal Research Division on the expenditures made during the preceding fiscal year from the Trust Fund. The report shall identify each expenditure by recipient and purpose and shall indicate the authority under subsection (b) of this section for the expenditure."

SECTION 10.49.(w2) Notwithstanding G.S. 143C-9-2(c), additional savings in the 2007-2008 and 2008-2009 fiscal years shall be used to fund the State's contribution for local management entity system administration.

SECTION 10.49.(w3) Notwithstanding G.S. 143C-9-2(b) requiring allocation of funds to area programs, the Department of Health and Human Services may use up to one million five hundred thousand dollars ($1,500,000) in each of the 2007-2008 and 2008-2009 fiscal years from the Trust Fund for Mental Health, Developmental Disabilities, and Substance Abuse Services and Bridge Funding Needs for the purposes authorized under G.S. 143C-9-2(b)(1), (3), and (4).

SECTION 10.49.(x) Notwithstanding G.S. 143C-9-2, as amended by this act, the Secretary of Health and Human Services may use funds for the 2007-2008 fiscal year from the Trust Fund for Mental Health, Developmental Disabilities, and Substance Abuse Services and Bridge Funding Needs (Trust Fund) or, if funds in the Trust Fund are insufficient, from other available sources in the Department of Health and Human Services, to support up to 66 new positions in the Julian F. Keith Alcohol and Drug Abuse Treatment Center, provided that these funds may be used only if the Julian F. Keith Alcohol and Drug Abuse Treatment Center opens before July 1, 2008.

STRENGTHEN THE SERVICES NETWORK.

SECTION 10.49.(y) Not later than September 1, 2007, the Department of Health and Human Services shall designate two additional local management entities to receive all State allocations through single stream funding. The Department shall develop clear standards for how an LME qualifies for single stream funding and shall award single stream funding to any other LME that meets those standards within the 2007-2008 and 2008-2009 fiscal years. These standards shall be developed and implemented not later than October 1, 2007. In addition to the LMEs designated by the Department, the Piedmont, New River, Smoky Mountain, Guilford, Sandhills, Five County, and Mecklenburg LMEs shall continue to receive State allocations through single stream funding. The Department may adopt temporary rules in accordance with Chapter 150B of the General Statutes in order to implement the standards required by this subsection by October 1, 2007.

SECTION 10.49.(z) The Joint Legislative Oversight Committee for Mental Health, Developmental Disabilities, and Substance Abuse Services shall study the effectiveness of the 1915(b) Medicaid waiver and of those LMEs operating under a waiver.

SECTION 10.49.(z1) The Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services (LOC) shall study whether and under what circumstances it would be appropriate for an LME to be a

service provider. The LOC shall report its findings in its report to the 2008 Regular Session of the 2007 General Assembly.

SECTION 10.49.(aa) No later than July 1, 2008, the Department of Health and Human Services shall commence the process for three additional local management entities to apply for Medicaid waivers.

FILLING SERVICE GAPS.

SECTION 10.49.(bb) Funds appropriated in this act for mental health services and supported employment shall be allocated to local management entities such that each local management entity receives a percentage of the total allocation that is equal to that local management entity's percentage of the State's total population that is below the federal poverty level. Funds appropriated to the Department of Health and Human Services for the 2006-2007 fiscal year for mental health services, substance abuse services, and crisis services and allocated based on the poverty level shall continue to be allocated by the Department to local management entities such that each local management entity receives a percentage of the total allocation that is equal to that local management entity's percentage of the State's total population that is below the federal poverty level.

SECTION 10.49.(cc) G.S. 122C-147.1(c) shall apply to the State-funded service of developmental therapies.

SECTION 10.49.(dd) The Department of Health and Human Services shall develop and apply to the Centers for Medicare and Medicaid Services for additional home and community-based waivers for persons with developmental disabilities. In conjunction with the existing CAP MR/DD waiver, the new waivers will create a tiered system of services. Not later than March 1, 2008, the Department shall report to the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services on the status of the waivers required under this section.

SECTION 10.49.(ee) For the purpose of avoiding overutilization of community support services and overexpenditure of funds for these services, the Department of Health and Human Services shall immediately conduct an in-depth evaluation of the use and cost of community support services to identify existing and potential areas of overutilization and overexpenditure. The Department shall also adopt or revise as necessary management policies and practices that will ensure that at a minimum:

(1) There is in place a list of community support services that are appropriate to meet the critical needs of the client and are cost effective;

(2) Community support services are appropriately utilized based on the critical needs of the client, and utilization is monitored routinely to ensure against overutilization;

(3) That expenditures for services are controlled to the maximum extent possible without unnecessarily impairing service quality and efficiency;

(4) Service providers are fully competent to provide each service, to provide the service in the most efficient manner, and that services and providers meet standards of protocol adopted by the Department. To this end, endorsement shall be based on compliance with: a Medicaid service-specific checklist, rules for Mental Health, Developmental Disabilities, and Substance Abuse Services, client rights rules in

community Mental Health, Developmental Disabilities, and Substance Abuse Services, the Medicaid service records manual, and other Medicaid requirements as stipulated in the participation agreement with the Division of Medical Assistance. In accordance with G.S. 122C-115.4, an LME may remove a provider's endorsement;

(5) All community support services are subject to prior approval after the initial assessment and development of a person-centered plan has been completed;

(6) Providers are limited to four hours of community support for adults and eight hours of community support for children to develop the person-centered plan. Those hours shall be provided only by a qualified professional. Providers that determine that additional hours are needed must seek and obtain prior approval. If additional hours are authorized, the LME may participate in the development of the person-centered plan as part of its care coordination and quality management function as defined in G.S. 122C-115.4.

(7) Based on standards of care and practice, a stringent clinical review process for authorization of services is implemented uniformly and in accordance with State guidelines;

(8) Additional record audits of providers are conducted on a routine basis to continually ensure compliance with Medicaid requirements;

(9) Post-payment clinical reviews are conducted at the local level to ensure that consumers receive the appropriate level and intensity of care;

(10) Beginning October 1, 2007, and monthly thereafter, report to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services. The report shall include the following:

a. The number of consumers of community support services by month, segregated by adult and child;

b. The number of units of community support services billed and paid by month, segregated by adult and child;

c. The amount paid for community support by month, segregated by adult and child;

d. Of the numbers provided in sub-subdivision b. of this subdivision, identify those units provided by a qualified professional and those provided by a paraprofessional;

e. The length of stay in community support, segregated by adult and child;

f. The number of clinical post payment reviews conducted by LMEs and a summary of those findings;

g. The total number of community support providers and the number of newly enrolled, re-enrolled, or terminated providers, and if available, reasons for termination;

h. The number of community support providers that have been referred to DMA's Program Integrity Section, the Division's

"Rapid Action response" committee; or the Attorney General's Office;

i. The utilization of other, newly enhanced mental health services, including the number of consumers served by month, the number of hours billed and paid by month, and the amount expended by month;

(11) If possible, modify the Medicaid claims payment processing system so that providers will be required to identify, by claim, whether the service was provided by a qualified professional or a paraprofessional; and

(12) The Department of Health and Human Services and the Department of Public Instruction shall amend their Memorandum of Agreement to ensure that each local education agency develops its own list of approved providers and individual service providers authorized to provide services on campus as provided under the Federal Safe Schools Act.

The Department shall report not later than November 1, 2007, on the list of community support services determined to be appropriate. Not later than March 1, 2008, the Department shall provide a detailed report on the implementation and status of each of the activities required by this subsection to the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services, the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division. The report shall also include clear standards for determining local management entity capability to perform utilization review and utilization management and clear statewide standards for utilization review and utilization management. These standards shall include (i) determination of medical necessity; (ii) an authorization process that includes the use of standardized forms; (iii) concurrent review procedures; (iv) recipient appeals process; (v) minimum staffing requirements; (vi) requirements for data collection and reporting; and (vi) performance criteria for the LMEs and outside vendor.

In order to ensure full compliance with the laws of this State on the implementation of mental health reform, the Department shall, by January 1, 2008, adopt statewide standardized authorization procedures and processes for Medicaid utilization review. Before July 1, 2008, (i) up to six LMEs that meet those standards (not including LMEs approved for 1915(b) waivers) may, under contract with the outside vendor, complete the utilization review process for enhanced benefit and CAP MR/DD services for the LMEs' respective catchment areas; (ii) the Department shall have a process outlined that would enable all other LMEs to meet the standards required for completing the utilization review process under contract with the outside vendor; (iii) the Department shall report on the implementation of utilization review, including the utilization review process, subcontract details, and funding levels, to the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Fiscal Research Division. The Department shall ensure that all Medicaid utilization review contracts with outside vendors, as required under this subsection, that are executed, renewed, or extended after the effective date of this act, are in compliance with and do not impair, interfere with, or otherwise prohibit the

implementation of this subsection. Prior to renewing, extending, or entering into a contract with an outside vendor for utilization review under this subsection, the Department shall consult with the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services.

LME ADMINISTRATIVE FUNDING.

SECTION 10.49.(ff) The General Assembly finds that counties have budgeted almost one hundred twenty-one million dollars ($121,000,000) to LMEs to pay for mental health, developmental disabilities, and substance abuse services. However, the General Assembly lacks information regarding the specific services that are purchased with those county funds. The General Assembly also lacks data regarding the incomes of persons receiving mental health, developmental disabilities, and substance abuse services that are paid for by either State or county funds. This lack of data severely limits the General Assembly's ability to determine the distribution of services that are being paid for with public funds, whether persons who are eligible for Medicaid are being enrolled in that program, and whether expanding the State's Medicaid eligibility criteria would impact a significant number of mental health, developmental disabilities, and substance abuse services consumers. Therefore, LMEs shall report annually to the Division all expenditures from county funds by the LME for services, start-up expenses, and capital and operational expenditures, regardless of the source of the funds and regardless of whether the funds were earned on a payment for service or grant basis. This reporting shall include specific information regarding the expenditure of all funds provided to the LME by the county or counties contained in the LME's catchment area and the amount of expenditures for services provided by the multicounty LME to residents of each county in the multicounty LME's catchment area. To the extent possible, the information shall be submitted through the Integrated Payment and Reimbursement System. LMEs shall also gather income data for all individuals receiving services. Notwithstanding G.S. 143C-6-4, Budget Adjustments Authorized, the Department of Health and Human Services shall fully fund the State's contribution for LME system administration.

SECTION 10.49.(gg) It is the intent of the General Assembly that the deficit in State funding for local management entity system administration will be eliminated in future years through savings from hospital downsizing. The General Assembly anticipates that full funding for this purpose will be available in the 2009-2011 fiscal biennium.

SECTION 10.49.(hh) G.S. 122C-115.4(d) reads as rewritten:

"(d) Except as provided in G.S. 122C-142.1 and G.S. 122C-125, the Secretary may ~~not~~ neither remove from an LME nor designate another entity as eligible to implement any function enumerated under subsection (b) of this section unless all of the following applies:

(1) The LME fails during the previous three months to achieve a satisfactory outcome on any of the critical performance measures developed by the Secretary under G.S. 122C-112.1(33).

(2) The Secretary provides focused technical assistance to the LME in the implementation of the function. The assistance shall continue for at least six months or until the LME achieves a satisfactory outcome on the performance measure, whichever occurs first.

(3) If, after six months of receiving technical assistance from the Secretary, the LME still fails to achieve or maintain a satisfactory

outcome on the critical performance measure, the Secretary shall enter into a contract with another LME or agency to implement the function on behalf of the LME from which the function has been removed."

SECTION 10.49.(ii) The Department of Health and Human Services shall use available funds not to exceed five hundred thousand dollars ($500,000) in each fiscal year to contract with the University of North Carolina at Chapel Hill, Kenan Flagler Business School, to provide administrative training to local management entities. The Department of Health and Human Services shall advise the Kenan Flagler Business School on prioritizing those local management entities that would most benefit from the training. The Department of Health and Human Services shall use funds available for the contract.

SECTION 10.49.(jj) In allocating funds from existing resources to local management entities for administrative costs, the Department shall ensure that each local management entity receives not less in service dollars than that local management entity expensed for services in the 2006-2007 fiscal year.

DEVELOPMENTAL CENTER DOWNSIZING

SECTION 10.50.(a) In accordance with the Department of Health and Human Services' plan for mental health, developmental disabilities, and substance abuse services system reform, the Department shall ensure that the downsizing of the State's Developmental Centers is based upon individual needs and the availability of community-based services with a targeted goal of four percent (4%) each year. The Department shall implement cost-containment and reduction strategies to ensure the corresponding financial and staff downsizing of each facility. The Department shall manage the client population of the Developmental Centers in order to ensure that placements for ICF-MR level of care shall be made to appropriate community-based settings. Admissions to a State-operated ICF-MR facility is permitted only as a last resort and only upon approval of the Department. The corresponding budgets for each of the Developmental Centers shall be reduced, and positions shall be eliminated as the census of each facility decreases in accordance with the Department's budget reduction formula. At no time shall mental retardation center positions be transferred to other units within a facility or assigned nondirect care activities such as outreach.

SECTION 10.50.(b) The Department of Health and Human Services shall apply any savings in State appropriations in each year of the 2007-2009 biennium that result from reductions in beds or services as follows:

(1) The Department shall place nonrecurring savings in the Trust Fund for Mental Health, Developmental Disabilities, and Substance Abuse Services and Bridge Funding Needs and use the savings to facilitate the transition of clients into appropriate community-based services and support in accordance with G.S. 143C-9-2;

(2) The Department of Health and Human Services, Division of Mental Health, Developmental Disabilities, and Substance Abuse Services, shall retain recurring savings realized through implementation of this section to support the recurring costs of additional community-based placements from Division facilities in accordance with Olmstead v. L.C. & E.W. In determining the savings in this section, savings shall include all savings realized from the downsizing of the Developmental Centers, including the savings in direct State appropriations in the budgets of the Developmental Centers; and

(3) The Department of Health and Human Services, Division of Medical Assistance, shall transfer any recurring Medicaid savings resulting from the downsizing of State-operated Developmental Centers from the ICF-MR line in Medicaid to support Medicaid services to assist in continued community service opportunities for people with developmental disabilities.

SECTION 10.50.(c) Consistent with the requirements of this section, the Secretary of Health and Human Services shall update the existing plan to ensure that there are sufficient developmental disability/mental retardation regional centers to correspond with service catchment areas. The plan shall address:

(1) Methods of funding for community services necessitated by downsizing;
(2) How many State-operated beds and non-State-operated beds are needed to serve the population; and
(3) Alternative uses for facilities.

Not later than April 1, 2008, the Department shall provide an updated report on the development of the plan, and not later than April 1, 2009, shall report the final plan, including recommendations for legislative action, to the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Fiscal Research Division.

SECTION 10.50.(d) The Department of Health and Human Services shall provide an updated report on its progress in complying with this section to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division. The Department shall submit the progress report no later than January 15, 2008, and submit a final report no later than May 1, 2009.

DHHS POLICIES AND PROCEDURES IN DELIVERING COMMUNITY MENTAL HEALTH, DEVELOPMENTAL DISABILITIES, AND SUBSTANCE ABUSE SERVICES

SECTION 10.51.(a) The Department of Health and Human Services, Division of Mental Health, Developmental Disabilities, and Substance Abuse Services, shall in cooperation with area mental health authorities and county programs, identify and eliminate administrative and fiscal barriers created by existing State and local policies and procedures in the delivery of community-based mental health, developmental disabilities, and substance abuse services provided through the area programs and county programs, including services provided through the Comprehensive Treatment Services Program for Children and services delivered to multiply diagnosed adults. The Department shall implement changes in policies and procedures in order to facilitate all of the following:

(1) The provision of services to adults and children as defined in the Mental Health System Reform State Plan as priority or targeted populations.
(2) The provision of services to children not deemed eligible for the Comprehensive Treatment Services Program for Children, but who would otherwise be in need of medically necessary treatment services to prevent out-of-home placement.

(3) The provision of services in the community to adults remaining in and being placed in State institutions addressed in Olmstead v. L.C.

SECTION 10.51.(b) The Department shall rework the revised system of allocating State and federal funds to area mental health authorities and county programs to better reflect projected needs, including the impact of system reform efforts rather than historical allocation practices and spending patterns. The reworked allocation shall include the following:

(1) For each LME, the current allocation by source and age/disability category, and the newly proposed allocation by source and age/disability category;

(2) A clear formula for how the new allocations are derived with a detailed methodology for how the formula was created; and

(3) A plan for moving to the new formula.

The Department shall submit the reworked language to the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Fiscal Research Division not later than October 1, 2007, for review. The Department shall implement the system only after review and approval by the 2007 General Assembly, Regular Session 2008.

SECTION 10.51.(c) Area mental health, developmental disabilities, and substance abuse services authorities and county programs shall use all funds appropriated for and necessary to provide mental health, developmental disabilities, and substance abuse services to meet the need for these services. If excess funds are available after expending appropriated funds to fully meet service needs, one-half of these excess funds shall not revert to the General Fund but shall be transferred to the Trust Fund for Mental Health, Developmental Disabilities, and Substance Abuse Services and Bridge Funding Needs, except that one-half of the funds appropriated for the Comprehensive Treatment Services Program for Children that are unexpended and unencumbered shall not revert to the General Fund but shall be carried forward and used only for services for children and adolescents.

The Department, in consultation with the area mental health authorities and county programs, shall report to the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services on the progress in implementing these changes. The report shall be submitted on October 1, 2007, and February 1, 2008.

SERVICES TO MULTIPLY DIAGNOSED ADULTS

SECTION 10.52.(a) In order to ensure that multiply diagnosed adults are appropriately served by the mental health, developmental disabilities, and substance abuse services system, the Department of Health and Human Services, Division of Mental Health, Developmental Disabilities, and Substance Abuse Services, shall do the following with respect to services provided to these adults:

(1) Implement the following guiding principles for the provision of services:

a. Service delivery system must be outcome-oriented and evaluation-based.

b. Services should be delivered as close as possible to the consumer's home.
c. Services selected should be those that are most efficient in terms of cost and effectiveness.
d. Services should not be provided solely for the convenience of the provider or the client.
e. Families and consumers should be involved in decision making throughout treatment planning and delivery.

(2) Provide those treatment services that are medically necessary.
(3) Implement utilization review of services provided.

SECTION 10.52.(b) The Department of Health and Human Services shall implement all of the following cost-reduction strategies:

(1) Preauthorization for all services except emergency services.
(2) Criteria for determining medical necessity.
(3) Clinically appropriate services.

(1) Identify the continuum of services needed for treatment of substance abuse services, including, but not limited to, prevention, outpatient services, residential treatment, and recovery supports. The Task Force shall examine what public and private organizations currently provide services, where services are offered, and gaps in the current service delivery system. The Task Force shall examine services that are available through public and private systems, but shall focus on the availability of substance abuse services through the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services and local management entities. The Task Force shall identify which services should be available locally throughout the State, and which services should be offered regionally or statewide.

The Task Force shall develop a workforce education plan, if needed, to address current or future workforce shortages.

(5) Develop strategies to identify people in need of substance abuse services, including people who are dually diagnosed as having mental health and substance abuse problems. In addition, the Task Force shall examine strategies for providing substance abuse services to people with substance abuse problems identified through the State hospitals, and the judicial and social services systems.

(6) Examine barriers that people with substance abuse problems have in accessing publicly funded substance abuse services and explore possible strategies for improving access.

(7) Examine current outcome measures and identify other appropriate outcome measures to assess the effectiveness of substance abuse services, if necessary.

(8) Examine the economic impact of substance abuse in North Carolina. If data are available, the Task Force shall estimate the impact of substance abuse on the court system, health care system (e.g., through preventable hospitalizations), social services, and worker productivity.

(9) Make recommendations on the implementation of a cost-effective plan for prevention, early screening, diagnosis, and treatment of North Carolinians with substance abuse problems. In so doing, the Task Force shall identify any policy changes needed to implement the plan and develop cost estimates associated with different recommendations. The Task Force shall also examine existing public and private financing options and explore how existing funding could be used more effectively to pay for the recommended services.

SECTION 10.53A.(e) The North Carolina Institute of Medicine's Substance Abuse Services Task Force shall submit its interim report and recommendations to the 2008 General Assembly upon its convening and to the chairs of the Senate Health Committee, the House of Representatives Health Committee, the Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services, and the Governor. GENERAL PROVISIONS

SECTION 10.55.(b) Information to Be Included in Block Grant Plans. – The Department of Health and Human Services shall submit a separate plan for each Block Grant received and administered by the Department, and each plan shall include the following:

(1) A delineation of the proposed allocations by program or activity, including State and federal match requirements.

(2) A delineation of the proposed State and local administrative expenditures.

(3) An identification of all new positions to be established through the Block Grant, including permanent, temporary, and time-limited positions.

(4) A comparison of the proposed allocations by program or activity with two prior years' program and activity budgets and two prior years' actual program or activity expenditures.

(5) A projection of current year expenditures by program or activity.

(6) A projection of federal Block Grant funds available, including unspent federal funds from the current and prior fiscal years.

SECTION 10.55.(c) Changes in Federal Fund Availability. – If the Congress of the United States increases the federal fund availability for any of the Block Grants administered by the Department of Health and Human Services from the amounts appropriated in this section, the Department shall allocate the increase proportionally across the program and activity appropriations identified for that Block Grant in this section. In allocating an increase in federal fund availability, the Department shall not propose funding for new programs or activities not appropriated in this section or increase State administrative expenditures.

If the Congress of the United States decreases the federal fund availability for any of the Block Grants administered by the Department of Health and Human Services from the amounts appropriated in this section, the Department shall reduce State administration by at least the percentage of the reduction in federal funds. After determining the State administration, the remaining reductions shall be allocated proportionately across the program and activity appropriations identified for that Block Grant in this section. In allocating a decrease in federal fund availability, the Department shall not eliminate the funding for a program or activity appropriated in this section unless it is related to the State administration.

Prior to allocating the change in federal fund availability, the proposed allocation must be approved by the Office of State Budget and Management. If the Department adjusts the allocation of any Block Grant due to changes in federal fund availability, then a report shall be made to the Joint Legislative Commission on Governmental Operations, the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Fiscal Research Division.

SECTION 10.55.(d) All changes to the budgeted allocations to the Block Grants administered by the Department of Health and Human Services that are not specifically addressed in this section shall be approved by the Office of State Budget and Management, and a report shall be submitted to the Joint Legislative Commission on Governmental Operations for review prior to implementing the changes. All changes to the budgeted allocations to the Block Grant shall be reported immediately to the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Fiscal Research Division. This subsection does not apply to Block Grant changes caused by legislative salary increases and benefit adjustments.

TEMPORARY ASSISTANCE FOR NEEDY FAMILIES BLOCK GRANT (TANF)

SECTION 10.55.(e) The sum of seven hundred sixty-two thousand six hundred twenty-six dollars ($762,626) appropriated in this section in the TANF Block Grant to the Department of Health and Human Services, Division of Social Services, for the 2007-2008 fiscal year shall be used to support administration of TANF-funded programs.

SECTION 10.55.(f) The sum of two million two hundred thousand dollars ($2,200,000) appropriated under this section in the TANF Block Grant to the Department of Health and Human Services, Division of Social Services, for the 2007-2008 fiscal year shall be used to provide domestic violence services to Work First

Each county department of social services and the local domestic violence shelter program serving the county shall jointly develop a plan for utilizing these funds. The plan shall include the services to be provided and the manner in which the services shall be delivered. The county plan shall be signed by the county social services director or the director's designee and the domestic violence program director or the director's designee and submitted to the Division of Social Services by December 1, 2007. The Division of Social Services shall allocate these funds to county departments of social services according to the following formula: (i) each county shall receive a base allocation of five thousand dollars ($5,000); and (ii) each county shall receive an allocation of the remaining funds based on the county's proportion of the statewide total of the Work First caseload as of July 1, 2007, and the county's proportion of the statewide total of the individuals receiving domestic violence services from programs funded by the Council for Women as of July 1, 2007. The Division of Social Services may reallocate unspent funds to counties that submit a written request for additional funds.

These funds may be used to fund one position within the Division of Social Services to coordinate at-risk after-school programs and shall not be used for other State administration.

Payments received from the Special Children Adoption Fund by participating agencies shall be used exclusively to enhance the adoption services program. No local match shall be required as a condition for receipt of these funds.

SECTION 10.55.(j) The sum of one million eight hundred thousand dollars ($1,800,000) in this section appropriated to the Department of Health and Human Services in the TANF Block Grant for the 2007-2008 fiscal year shall be used to implement N.C. The report shall contain expenditure data, including the amount of funds used for administration and direct training. The report shall also include the number of people who have been employed as a direct result of services provided by Connect, Inc., including the length of employment in the new position. The Department of Health and Human Services shall evaluate the program and ensure that services provided are not duplicative of local employment

The evaluation report shall be submitted to the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Fiscal Research Division no later than May 1, 2008.

The Division of Social Services is authorized to establish two time-limited positions to manage the grant award process and monitor the demonstration projects through fiscal year 2009-2010.

Funding provided under the county demonstration grants shall not be used to supplant local funds, and counties shall be required to maintain the current level of effort and funding for the Work First program.

The Department of Health and Human Services, Division of Social Services, shall report on the status of county demonstration grants implemented pursuant to this subsection to the House of Representatives Appropriations Subcommittee on Health and Human Services, the Senate Appropriations Committee on Health and Human Services, and the Fiscal Research Division no later than February 1, 2008.

(3) If a person is serving sentences for two or more offenses that are concurrent in any respect, then the offense with the greater classification shall be used to determine a single maximum sentence for the concurrent offenses. (4) Two-cent (2¢) sales taxes. – The first one-cent (1¢) sales and use tax authorized in Article 39 of this Chapter and in Chapter 1096 of the 1967 Session Laws, the first one-half cent (1/2¢) local sales and use tax authorized in Article 40 of this Chapter, and the second one-half cent (1/2¢) local sales and use tax authorized in Article 42 of this Chapter.

(b) Distributions. – On or before August 15, ~~2003,~~ 2008, and every August 15 through August 15, 2012, the Secretary must multiply each local government's local sales tax share by the estimated amount of replacement revenue that all local governments ~~would be~~ are expected to receive during the current fiscal ~~year under G.S. 105-520 if every county levied the tax under this Article for the~~ year. If the resulting amount is less than one hundred percent (100%) of the local government's repealed reimbursement amount, the Secretary must pay the local government the difference, but not less than one hundred dollars ($100.00).

On or before ~~May 1, 2003, and every May 1~~ May 1 of each fiscal year through May 1, 2012, the Department of Revenue and the Fiscal Research Division of the General Assembly must each submit to the Secretary and to the General Assembly a final projection of the estimated amount of replacement revenue that all local governments would be expected to receive during the upcoming ~~fiscal year under G.S. 105-520 if every county levied the tax under this Article for the~~ fiscal year. If, after May 1 and before a distribution is made, a law is enacted that would affect the projection, an updated projection must be submitted as soon as practicable. If the Secretary does not use the lower of the two final projections to make the calculation required by this subsection, the Secretary must report the reasons for this decision to the Joint Legislative Commission on Governmental Operations within 60 days after receiving the projections.

(c) Source of Funds. – The Secretary must draw the funds distributed under this section from sales and use tax collections under Article 5 of this Chapter.

(d) Reports. – The Secretary must report to the Revenue Laws Study Committee by January 31, 2004, and each January 31 through January 31, 2013, the amount distributed under this section for the current fiscal year."

SECTION 31.16.3.(d) G.S. 105-472 is amended by adding a new subsection to read:

"(b1) County Reduction for City Hold Harmless. – The Secretary must reduce each county's monthly allocation under subsection (b) of this section by the amount set in G.S. 105-522. This reduction does not affect the amount allocated to municipalities under this section."

SECTION 31.16.3.(e) Section 9 of Chapter 1096 of the 1967 Session Laws, as amended, is amended by adding a new paragraph at the end of that section to read:

"The Secretary of Revenue must reduce the amount distributable to Mecklenburg County under this section by the amount set in G.S. 105-522. This reduction does not affect the amount allocated to municipalities under this section."

SECTION 31.16.3.(f) Article 44 of Chapter 105 of the General Statutes is amended by adding two new sections to read:

"**§ 105-522. City hold harmless for repealed local taxes.**

(a) Definitions. – The following definitions apply in this section:

(1) Eligible municipality. – A municipality that was incorporated on or before October 1, 2008, and receives a distribution of sales and use taxes under G.S. 105-472.

(2) Hold harmless amount. – Fifty percent (50%) of the amount of sales and use tax revenue distributed under Article 40 of this Chapter to the municipality for a month, other than revenue from the sale of food that is subject to local tax but is exempt from State tax under G.S. 105-164.13B.

(b) Requirement. – A county is required to hold the eligible municipalities in the county harmless from the repeal of the local sales and use taxes formerly imposed under this Article. The Secretary must add an eligible municipality's hold harmless amount to the amount distributed to the municipality under this Subchapter. To obtain the revenue for the hold harmless distribution, the Secretary must reduce each county's monthly allocation under G.S. 105-472(b) or under Chapter 1096 of the 1967 Session Laws by the hold harmless amounts for the municipalities in that county.

"**§ 105-523. County hold harmless for repealed local taxes.**

(a) Intent. – It is the intent of the General Assembly that each county benefit by at least five hundred thousand dollars ($500,000) annually from the exchange of a portion of the local sales and use taxes for the State's agreement to assume the responsibility for the non-administrative costs of Medicaid.

(b) Definitions. – The following definitions apply in this section:

(1) Hold harmless threshold. – The amount of a county's Medicaid service costs and Medicare Part D clawback payments assumed by the State under G.S. 108A-54 for the fiscal year, less five hundred thousand dollars ($500,000).

(2) Repealed sales tax amount. – Fifty percent (50%) of the amount of sales and use tax revenue distributed to a county under Article 40 of this Chapter, other than revenue from the sale of food that is subject to local tax but is exempt from State tax under G.S. 105-164.13B.

(b) Requirement. – If a county's repealed sales tax amount for a fiscal year exceeds the county's hold harmless threshold for that fiscal year, the State is required to hold the county harmless for the difference by paying the amount of the difference to the county. The Secretary must withhold from sales and use tax collections under Article 5 of this Chapter the amount needed to make the hold harmless payments required by this section.

(c) Method. – The Secretary must estimate a county's repealed sales tax amount and hold harmless threshold for a fiscal year to determine if the county is eligible for a hold harmless payment. The Secretary must send to an eligible county with the distribution made under G.S. 105-472 for March of that year an amount equal to ninety percent (90%) of its estimated hold harmless payment. At the end of each fiscal year, the Secretary must determine the difference between a county's repealed sales tax amount and its hold harmless threshold for that year. The Secretary must send by

August 15 the remainder of the county's hold harmless payment for the fiscal year that ended on June 30. The Secretary of the Department of Human Resources must give the Secretary of Revenue the data needed to determine a county's hold harmless threshold."

SECTION 31.16.3.(g) For fiscal year 2008-2009, the repealed sales tax amount determined under G.S. 105-522 and G.S. 105-523, as enacted by this section, is calculated based on fifty percent (50%) of the amount distributed to a municipality or county under Article 40 of Chapter 105 of the General Statutes on or after October 2, 2008, less the amount distributed to the municipality or county on a per capita basis under repealed G.S. 105-520(b) in October, November, and December of 2008.

SECTION 31.16.3.(h) G.S. 105-164.4(a), as amended by Section 31.2 of this act, reads as rewritten:

"(a) A privilege tax is imposed on a retailer at the following percentage rates of the retailer's net taxable sales or gross receipts, as appropriate. The general rate of tax is ~~four and one-quarter percent (4.25%).~~four and one-half percent (4.5%)."

SECTION 31.16.3.(i) Section 105-269.14(b) reads as rewritten:

"(b) Distribution. – The Secretary must distribute a portion of the net use tax proceeds collected under this section to counties and cities. The portion to be distributed to all counties and cities is the total net use tax proceeds collected under this section multiplied by a fraction. The numerator of the fraction is the local use tax proceeds collected under this section. The denominator of the fraction is the total use tax proceeds collected under this section. The Secretary must distribute this portion to the counties and cities in proportion to their total distributions under Articles 39, 40, ~~42, 43, and 44~~ 42, and 43 of this Chapter and Chapter 1096 of the 1967 Session Laws for the most recent period for which data are available. The provisions of G.S. 105-472, 105-486, and 105-501 do not apply to tax proceeds distributed under this section."

SECTION 31.16.3.(j) Subsection (c) of this section becomes effective January 1, 2008. The remainder of this section becomes effective October 1, 2008. Subsections (a) and (h) of this section apply to sales occurring on or after that date. The remaining subsections apply to distributions for months beginning on or after that date.

SECTION 31.16.4.(a) G.S. 105-515, 105-516, 105-517, 105-518, 105-519, and 105-520 are repealed.

SECTION 31.16.4.(b) G.S. 105-501 reads as rewritten:

"§ **105-501. Distribution of additional taxes.**

(a) Method. – The Secretary ~~shall,~~ must, on a monthly basis, allocate to each taxing county the net proceeds of the additional one-half percent (1/2%) sales and use taxes ~~levied~~ collected in that county under this ~~Article to the taxing counties on a per capita basis according to the most recent annual population estimates certified to the Secretary by the State Budget Officer. The Secretary shall then adjust the amount allocated to each county as provided in G.S. 105-486(b). The amount allocated to each taxing county shall then be divided among~~ Article. If the Secretary collects taxes under this Article in a month and the taxes cannot be identified as being attributable to a particular taxing county, the Secretary must allocate the net proceeds of these taxes among the taxing counties in proportion to the amount of taxes collected in each county under this Article in that month.

The Secretary must divide and distribute the funds allocated to a taxing county each month under this section between the county and the municipalities located in the county in accordance with the method by which the one percent (1%) sales and use taxes levied in that county pursuant to Article 39 of this Chapter or Chapter 1096 of the 1967 Session Laws are distributed. No municipality may receive any funds under this

section if it was incorporated with an effective date of on or after January 1, 2000, and is disqualified from receiving funds under G.S. 136-41.2. No municipality may receive any funds under this section, incorporated with an effective date on or after January 1, 2000, unless a majority of the mileage of its streets are open to the public. ~~The previous sentence becomes effective with respect to distribution of funds on or after July 1, 1999.~~

(b) Deductions. – In determining the net proceeds of the tax to be distributed, the Secretary ~~shall~~ must deduct from the collections to be allocated an amount equal to one-twelfth of the costs during the preceding fiscal year of:

(1) The Department of Revenue in performing the duties imposed by G.S. 105-275.2 and by Article 15 of this Chapter.

(1a) Seventy percent (70%) of the expenses of the Department of Revenue in performing the duties imposed by Article 2D of this Chapter.

(2) The Property Tax Commission.

(3) The School of Government at the University of North Carolina at Chapel Hill in operating a training program in property tax appraisal and assessment.

(4) The personnel and operations provided by the Department of State Treasurer for the Local Government Commission."

SECTION 31.16.4.(c) G.S. 105-522(a), as enacted by Section 31.16.3(f) of this act, reads as rewritten:

"(a) Definitions. – The following definitions apply in this section:

(1) Eligible municipality. – A municipality that was incorporated on or before October 1, 2008, and receives a distribution of sales and use taxes under G.S. 105-472.

(2) Hold harmless amount. – The sum of the following:

a. Fifty percent (50%) of the amount of sales and use tax revenue distributed under Article 40 of this Chapter to the municipality for a month, other than revenue from the sale of food that is subject to local tax but is exempt from State tax under G.S. 105-164.13B.

b. Twenty-five percent (25%) of the amount of sales and use tax revenue distributed under Article 39 of this Chapter or under Chapter 1096 of the 1967 Session Laws, other than revenue from the sale of food that is subject to local tax but is exempt from State tax under G.S. 105-164.13B.

c. The amount determined under sub-subdivision a. of this subdivision subtracted from the amount determined under sub-subdivision b. of this subdivision. This calculation determines the effect of distributing a one-quarter percent (.25%) tax on the basis of point of origin instead of on a per capita basis. If the difference is negative, the result increases the hold harmless amount."

SECTION 31.16.4.(d) G.S. 105-523(a), as enacted by Section 31.16.3(f) of this act, reads as rewritten:

"(a) Definitions. – The following definitions apply in this section:

(1) Hold harmless threshold. – The amount of a county's Medicaid service costs and Medicare Part D clawback payments assumed by the State under G.S. 108A-54 for the fiscal year, plus five hundred thousand dollars ($500,000).

(2) Repealed sales tax amount. – The sum of the following:

a. Fifty percent (50%) of the amount of sales and use tax revenue distributed to a county under Article 40 of this Chapter, other than revenue from the sale of food that is subject to local tax but is exempt from State tax under G.S. 105-164.13B.

b. Twenty-five percent (25%) of the amount of sales and use tax revenue distributed under Article 39 of this Chapter or under Chapter 1096 of the 1967 Session Laws, other than revenue from the sale of food that is subject to local tax but is exempt from State tax under G.S. 105-164.13B.

c. The amount determined under sub-subdivision a. of this subdivision subtracted from the amount determined under sub-subdivision b. of this subdivision. This calculation determines the effect of distributing a one-quarter percent (.25%) tax on the basis of point of origin instead of on a per capita basis. If the difference is negative, the result increases the hold harmless amount."

SECTION 31.16.4.(e) For fiscal year 2009-2010, the repealed sales tax amount determined under G.S. 105-522(2)(a)(2)b, as enacted by this section, and G.S. 105-523(a)(2)b, as enacted by this section, is calculated based on twenty-five percent (25%) of the amount distributed to a municipality or county under Article 39 of Chapter 105 of the General Statutes or Chapter 1096 of the 1967 Session Laws on or after October 1, 2009, less the amount distributed to the municipality or county on the basis of point of origin under repealed G.S. 105-520(a) in October, November, and December of 2009.

SECTION 31.16.4.(f) The title of Article 44 of Chapter 105 of the General Statutes reads as rewritten:

"Article 44.

"~~Third One-Half Cent (1/2¢) Local Government Sales and Use Tax.~~Local Government Hold Harmless Provisions."

SECTION 31.16.4.(h) This section becomes effective October 1, 2009. Subsections (a) and (g) of this section apply to sales occurring on or after that date. Subsections (b), (c), and (d) of this section apply to distributions for months beginning on or after that date.

A county may, by resolution, repeal or reduce the rate of a tax levied under this Article. Repeal or reduction of the tax must become effective on the first day of a month and may not become effective until the end of the fiscal year in which the repeal or

reduction resolution was adopted. Repeal of a land transfer tax, or reduction of its rate, under this Article does not affect a liability for a tax that attached before the effective date of the repeal or reduction, nor does it affect a right to a refund of a tax that accrued before the effective date of the repeal or reduction."

SECTION 31.17.(b) Subchapter VIII of Chapter 105 of the General Statutes is amended by adding a new Article to read:

"Article 46.

"**§ 105-538. Administration of taxes.**

Except as provided in this Article, the adoption, levy, collection, administration, and repeal of these additional taxes must be in accordance with Article 39 of this Chapter. A tax levied under this Article does not apply to the sales price of food that is exempt from tax pursuant to G.S. 105-164.13B. SECTION 31.18.(b) G.S. 105-130.5(b) is amended by adding a new subdivision to read:

"(23) A dividend received from a captive REIT, as defined in G.S. 105-130.12."

SECTION 31.18.(c) G.S. 105-130.12 reads as rewritten:

"§ **105-130.12. ~~Regulated investment companies and real~~ Real estate investment trusts.**

~~Any organization or trust which, in the opinion of the Secretary of Revenue of North Carolina, qualifies as either a "regulated investment company" under section 851 of the Code or as a "real estate investment trust" under section 856 of the Code and which files with the North Carolina Department of Revenue its election to be treated as a "regulated investment company," or as a "real estate investment trust" shall be taxed under this Part upon only that part of its net income which is not distributed or declared for distribution to shareholders during the income year or by the time required by law for the filing of the return for the income year including the period of any extension of time granted for filing such return.~~

(a) Definitions. – The following definitions apply in this section:

(1) Captive REIT. – A REIT whose shares or certificates of beneficial interest are not regularly traded on an established securities market and are owned or controlled, at any time during the last half of the tax year, by a person that is subject to tax under this Part and is not a REIT or a listed Australian property trust.

Based upon this report, the Revenue Laws Study Committee must determine the revenue-neutral corporate income tax rate and include this information in its report to the 2010 Session of the 2009 General Assembly.

SECTION 31.18.(e) This section does not affect the authority of the Department of Revenue under G.S. 105-130.6, G.S. 105-130.16, or any other statute to require a corporation to file a consolidated return or to determine the net income of a corporation properly attributable to this State. The General Assembly finds that an alternative method of addressing a corporation's attempt to use a real estate investment trust to shift income between entities and avoid State taxes is to require a captive REIT, as defined in G.S. 105-130.12 as amended by this section, to add to its federal taxable income the dividend paid deduction otherwise allowed under the Internal Revenue Code.

SECTION 31.18.(f) This section is effective for taxable years beginning on or after January 1, 2007.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 135-105(a) reads as rewritten:

"(a) Any participant who becomes disabled and is no longer able to perform his usual occupation may, after at least 365 calendar days succeeding his date of initial employment as a teacher or employee and at least one year of contributing membership service, receive a benefit commencing on the first day succeeding the waiting period; provided that the participant's employer and attending physician shall certify that such participant is mentally or physically incapacitated for the further performance of duty, that such incapacity was incurred at the time of active employment and has been continuous thereafter; provided further that the requirement for one year of contributing membership service must have been earned within 36 calendar months immediately preceding the date of disability and further, salary continuation used during the period as provided in G.S. 135-104 shall count toward the aforementioned one year requirement. <u>As to the requirement that a participant applying for short term disability benefits have at least one year of contributing membership service within the 36 calendar months immediately preceding the date of disability, a participant who would have qualified for a benefit under this section but for service in the uniformed services shall not be denied a benefit under this section because of that interruption for military service provided all other requirements of this section are met.</u>

Notwithstanding the requirement that the incapacity was incurred at the time of active employment, any participant who becomes disabled while on an employer approved leave of absence and who is eligible for and in receipt of temporary total benefits under The North Carolina Workers' Compensation Act, Article 1 of Chapter 97 of the General Statutes, will be eligible for all benefits provided under this Article."

SECTION 2. G.S. 135-106 reads as rewritten:

"§ **135-106. Long-term disability benefits.**

(a) **(Effective August 1, 2007)** Upon the application of a beneficiary or participant or of his legal representative or any person deemed by the Board of Trustees to represent the participant or beneficiary, any beneficiary or participant who has had five or more years of membership service may receive long-term disability benefits from the Plan upon approval by the Board of Trustees, commencing on the first day succeeding the conclusion of the short-term disability period provided for in

G.S. 135-105, provided the beneficiary or participant makes application for such benefit within 180 days after the short-term disability period ceases, after salary continuation payments cease, or after monthly payments for Workers' Compensation cease, whichever is later; Provided, that the beneficiary or participant withdraws from active service by terminating employment as a teacher or State employee; Provided, that the Medical Board shall certify that such beneficiary or participant is ~~unable to perform any occupation or employment commensurate to the beneficiary's or participant's education, training, or experience, which is available in the same commuting area for State employees or within the same local school administrative unit for school personnel, without an adverse impact on the beneficiary's or participant's career status, and in which the beneficiary or participant can be expected to earn not less than sixty-five percent (65%) of that beneficiary's or participant's predisability earnings,~~ mentally or physically incapacitated for the further performance of duty, that such incapacity was incurred at the time of active employment and has been continuous thereafter, and that such incapacity is likely to be permanent; Provided further that the Medical Board shall not certify any beneficiary or participant as disabled who is in receipt of any payments on account of the same incapacity which existed when the beneficiary first established membership in the Retirement System. The Board of Trustees may extend this 180-day filing requirement upon receipt of clear and convincing evidence that application was delayed through no fault of the disabled beneficiary or participant and was delayed due to the employers' miscalculation of the end of the 180-day filing period. However, in no instance shall the filing period be extended beyond an additional 180 days.

The Board of Trustees may require each beneficiary who becomes eligible to receive a long-term disability benefit to have an annual medical review or examination for the first five years and thereafter once every three years after the commencement of benefits under this section. However, the Board of Trustees may require more frequent examinations and upon the advice of the Medical Board shall determine which cases require such examination. Should any beneficiary refuse to submit to any examination required by this subsection or by the Medical Board, his long-term disability benefit shall be suspended until he submits to an examination, and should his refusal last for one year, his benefit may be terminated by the Board of Trustees. If the Medical Board finds that a beneficiary is no longer mentally or physically incapacitated for the further performance of duty, the Medical Board shall so certify this finding to the Board of Trustees, and the Board of Trustees may terminate the beneficiary's long-term disability benefits effective on the last day of the month in which the Medical Board certifies that the beneficiary is no longer disabled.

As to the requirement of five years of membership service, any participant or beneficiary who does not have five years of membership service within the 96 calendar months prior to conclusion of the short-term disability period or cessation of salary continuation payments, whichever is later, shall not be eligible for long-term disability benefits.

Notwithstanding the requirement that the incapacity was incurred at the time of active employment, any participant who becomes disabled while on an employer approved leave of absence and who is eligible for and in receipt of temporary total benefits under The North Carolina Workers' Compensation Act, Article 1 of Chapter 97 of the General Statutes, will be eligible for all benefits provided under this Article.

(b) After the commencement of benefits under this section, the benefits payable under the terms of this section during the first 36 months of the long-term disability period shall be equal to sixty-five percent (65%) of 1/12th of the annual base rate of

compensation last payable to the participant or beneficiary prior to the beginning of the short-term disability period as may be adjusted for percentage increases as provided under G.S. 135-108, plus sixty-five percent (65%) of 1/12th of the annual longevity payment to which the participant or beneficiary would be eligible, to a maximum of three thousand nine hundred dollars ($3,900) per month reduced by any primary Social Security disability benefits and by monthly payments for Workers' Compensation to which the participant or beneficiary may be entitled. The monthly benefit shall be further reduced by the amount of any monthly payments from the federal ~~Veterans Administration~~ Department of Veterans Affairs, any other federal agency or any payments made under the provisions of G.S. 127A-108, to which the participant or beneficiary may be entitled on account of the same disability. Provided, in any event, the benefit payable shall be no less than ten dollars ($10.00) a month. However, a disabled participant may elect to receive any salary continuation as provided in G.S. 135-104 in lieu of long-term disability benefits; provided such election shall not extend the first 36 consecutive calendar months of the long-term disability period. An election to receive any salary continuation for any part of any given day shall be in lieu of any long-term benefit payable for that day, provided further, any lump-sum payout for vacation leave shall be treated as if the beneficiary or participant had exhausted the leave and shall be in lieu of any long-term benefit otherwise payable. ~~Notwithstanding the foregoing, upon the completion of four years from the conclusion of the waiting period as provided in G.S. 135-104, the beneficiary's benefit shall be reduced by an amount, as determined by the Board of Trustees, equal to a primary Social Security disability benefit to which the beneficiary might be entitled had the beneficiary been awarded Social Security disability benefits.~~ Provided that, in any event, a beneficiary's benefit shall be reduced during the first 36 months of the long-term disability period by an amount, as determined by the Board of Trustees, equal to a primary Social Security retirement benefit to which the beneficiary might be entitled.

After 36 months of long-term disability, no further benefits are payable under the terms of this section unless the member has been approved and is in receipt of primary Social Security disability benefits. In that case the benefits payable shall be equal to sixty-five percent (65%) of 1/12th of the annual base rate of compensation last payable to the participant or beneficiary prior to the beginning of the short-term disability period as may be adjusted for percentage increases as provided under G.S. 135-108, plus sixty-five percent (65%) of 1/12th of the annual longevity payment to which the participant or beneficiary would be eligible, to a maximum of three thousand nine hundred dollars ($3,900) per month reduced by the primary Social Security disability benefits and by monthly payments for Workers' Compensation to which the participant or beneficiary may be entitled. The monthly benefit shall be further reduced by the amount of any monthly payments from the federal Department of Veterans Affairs, for payments from any other federal agency, or for any payments made under the provisions of G.S. 127A-108, to which the participant or beneficiary may be entitled on account of the same disability. Provided, in any event, the benefit payable shall be no less than ten dollars ($10.00) a month.

Notwithstanding the foregoing, the long-term disability benefit is payable so long as the beneficiary is disabled and is in receipt of a primary Social Security disability benefit until the earliest date at which the beneficiary is eligible for an unreduced service retirement allowance from the Retirement System, at which time the beneficiary would receive a retirement allowance calculated on the basis of the beneficiary's average final compensation at the time of disability as adjusted to reflect compensation

increases subsequent to the time of disability and the creditable service accumulated by the beneficiary, including creditable service while in receipt of benefits under the Plan. In the event the beneficiary has not been approved and is not in receipt of a primary Social Security disability benefit, the long-term disability benefit shall cease after the first 36 months of the long-term disability period. However, a beneficiary shall be entitled to a restoration of the long-term disability benefit in the event the Social Security Administration grants a retroactive approval for primary Social Security disability benefits with a benefit effective date within the first 36 months of the long-term disability period. In such event, the long-term disability benefit shall be restored retroactively to the date of cessation.

(c) Notwithstanding the foregoing, a beneficiary in receipt of long-term disability benefits who has earnings during the long-term disability period shall have his long-term disability benefit reduced when the sum of the net long-term disability benefit and the earnings equals one hundred percent (100%) of monthly compensation adjusted as provided under G.S. 135-108. The net long-term benefit shall mean the long-term benefit amount payable as calculated under (b) above, after the reduction for Social Security benefits and Workers' Compensation benefits to which the beneficiary might be ~~entitled.~~ entitled, and after the reduction for any monthly payments from the federal Department of Veterans Affairs, for payments from any other federal agency, or for any payments made under the provisions of G.S. 127A-108, to which the participant or beneficiary may be entitled on account of the same disability. The net long-term disability benefit shall be reduced dollar-for-dollar for the amount of earnings in excess of the one hundred percent (100%) monthly limit. Any beneficiary exceeding the earnings limitations shall notify the Plan by the fifth of the month succeeding the month in which the earnings were received of the amount of earnings in excess of the limitations herein provided. Failure to report excess earnings may result in a suspension or termination of benefits as determined by the Board of Trustees.

(c1) During the long-term disability period, a beneficiary may return to service for trial rehabilitation for periods of not greater than 36 months of continuous service. Such return will not cause the beneficiary to become a participant and will not require a new waiting period or short-term disability period to commence regardless of whether the beneficiary is unable to continue in service due to the same incapacity or a different incapacity.

A beneficiary who, during a period of trial rehabilitation, is unable to continue in service may be entitled to a restoration of the long-term disability benefit provided that the Medical Board certifies that the beneficiary is disabled in accordance with the laws in effect at the time of the Board's original approval for long-term disability benefits, either due to the same or a different incapacity, notwithstanding the requirement the incapacity has been continuous. In the event that the Medical Board determines that the long-term disability benefit should be restored, the restored benefit should be calculated in accordance with G.S. 135-106(b); should include any post-disability benefit adjustments as provided by G.S. 135-108; ~~and should not be reduced by an amount equal to a primary Social Security disability benefit to which the beneficiary might be entitled had the beneficiary been awarded Social Security benefits until the beneficiary has been eligible to receive long-term disability benefits for 36 months, including any period the beneficiary elected to receive any salary continuation in lieu of the long-term benefit, but not including any period of trial rehabilitation.~~ and shall continue as long as the beneficiary remains disabled until the beneficiary has received a total of 36 long-term disability payments. Continuation of long-term disability benefit payments

beyond 36 total payments shall be dependent upon approval for primary Social Security disability benefits as required by G.S. 135-106(b).

A beneficiary who returns to service for a period of trial rehabilitation and who has continued in service for greater than 36 continuous months shall again become a participant, and any subsequent incapacity shall be treated as a new incapacity causing a new waiting period to begin. Such a beneficiary may be entitled to additional long-term disability benefits on account of the new incapacity provided the beneficiary meets all other requirements notwithstanding the requirement of five years of membership service within the 96 calendar months prior to becoming disabled or the cessation of continuous salary continuation payments.

(d) Notwithstanding the foregoing, a participant or beneficiary who has applied for and been approved by the Medical Board for long-term disability benefits may make an irrevocable election, within 90 days from the date of notification of such approval, and prior to receipt of any long-term disability benefit payments, to forfeit all pending and accrued rights to the long-term disability benefit including any ancillary benefits and retire on an early service retirement allowance or receive a return of accumulated contributions from the Retirement System."

SECTION 3. G.S. 135-107 reads as rewritten:

"§ **135-107. Optional Retirement Program.**

Any participant of the Optional Retirement Program who becomes a beneficiary under the Plan shall be eligible to receive long-term disability benefits so long as the beneficiary is disabled and is in receipt of a primary Social Security disability benefit until the time the beneficiary would first qualify for an unreduced service retirement benefit had the beneficiary elected to be a member of the Teachers' and State Employees' Retirement System, and shall receive no service accruals as otherwise provided members of the Retirement System under the provisions of G.S. 135-4(y). In the event a beneficiary who was a participant in the Optional Retirement Program has not been approved and is not in receipt of a primary Social Security disability benefit, the long-term disability benefit shall cease after the first 36 months of the long-term disability period. However, a beneficiary shall be entitled to a restoration of the long-term disability benefit in the event the Social Security Administration grants a retroactive approval for primary Social Security disability benefits with a benefit effective date within the first 36 months of the long-term disability period. In such event, the long-term disability benefit shall be restored retroactively to the date of cessation."

The area of any fee-supported fire district may be increased by including within the boundaries of the district any adjoining territory lying within a municipality if the territory is not already included in another fire protection district, and both the municipal governing body and the county commissioners of the county in which the district is located agree by resolution to the inclusion. However, it is not necessary to obtain the consent of a municipality if the municipality has not levied a tax, performed any official act, nor held any elections within a period of 10 years preceding the adoption of the resolution including the area within the district.

"**Section 1.(h)** Annexation of District. – When any portion of a fee-supported fire district has been annexed by a municipality furnishing fire protection to its citizens, and the municipality has not agreed to allow territory within it to be in the district, then the portion of the district annexed is no longer part of a fee-supported district. For the

purposes of this section and regardless of the actual effective date of annexation, the date of annexation shall be considered to be a date in the month of June. When any portion of a fee-supported fire district is annexed by a municipality furnishing fire protection to its citizens, there is debt associated with the prior fee-supported district providing the fire protection to that area, an assumption of debt shall be paid to the fee-supported district at a rate of not less than one-half the fees that are collected from the annexed area for a period of not less than three years. This shall in no way limit or restrict a municipality from contracting with a fee-supported district to provide fire protection services nor shall it require a fee-supported district to provide fire protection services without an additional contract.

"**Section 1.(i)** Abolition of District. – Upon finding that there is no longer a need for a given fee-supported fire district, the board of commissioners may repeal the resolution establishing the district and thus abolish the district.

"**Section 1.(j)** Administrative Oversight. – Each nonmunicipal department shall bring any purchase in excess of ten thousand dollars ($10,000) for approval to a fire protection oversight board that is determined by the board of commissioners of the county and is chaired by the Emergency Services Director or his designee. Failure to adhere to the recommendations of the committee could lead to forfeiture of collected fees. All departments that receive funding from a fee-supported district shall participate in countywide strategic planning sessions conducted by the emergency services office no less than once a year.

"**Section 1.(k)** Collection Remedies. – A county may foreclose fire fee liens under any procedure provided by law for the foreclosure of property tax liens, except that: (i) lien sales and lien sale certificates are not required, and (ii) foreclosure may be begun at any time after 30 days after the due date. The county is not entitled to a deficiency judgment in an action to foreclose a fire fee lien. The lien of fire fees is inferior to all prior and subsequent liens for State, local, and federal taxes, and superior to all other liens."

The General Assembly of North Carolina enacts:

SECTION 1. Subchapter VIII of Chapter 163 of the General Statutes is amended to add a new Article to read:

"Article 22M.

"Legal Expense Funds.

"**§ 163-278.300. Definitions.**

As used in this Article, the following terms mean:

(1) Board. – The State Board of Elections.

(2) Contribution. – As defined in G.S. 163-278.6. The term "contribution" does not include either of the following:

a. The provision of legal services to an elected officer by the State or any of its political subdivisions when those services are authorized or required by law or

b. The provision of free or pro bono legal advice or legal services, provided that any costs incurred or expenses advanced for which clients are liable under other provisions of law shall be deemed contributions.

(3) Elected officer. – Any individual serving in or seeking a public office. An individual is seeking a public office when that individual has filed any notice, petition, or other document required by law or local act as a condition of election to public office. An individual continues to be an elected officer for purposes of this Article as long as a legal action commenced while the individual was an elected officer continues. If a legal action is commenced after an individual ceases to serve in or seek public office but the legal action concerns subject matter in the individual's official capacity as an elected officer, for purposes of this Article, that individual is an elected officer as long as that legal action continues.

(4) Expenditure. – As defined in G.S. 163-278.6.

(5) Legal action. – A formal dispute in a judicial, legislative, or administrative forum, including but not limited to, a civil or criminal action filed in a court, a complaint or protest filed with a board of elections, an election contest filed under Article 3 of Chapter 120 of the General Statutes or G.S. 163-182.13A, or a complaint filed with the State Ethics Commission or Legislative Ethics Committee. The term "legal action" also includes investigations made or conducted before the commencement of any formal proceedings. The term "legal action" does not include the election itself or the campaign for election.

(6) Legal expense fund. – Any collection of money for the purpose of funding a legal action, or a potential legal action, taken by or against an elected officer in that elected officer's official capacity.

(7) Official capacity. – Related to or resulting from the campaign for public office or related to or resulting from holding public office. "Official capacity" is not limited to "scope and course of employment" as used in G.S. 143-300.3.

(8) Public office. – As defined in G.S. 163-278.6.

(9) Treasurer. – An individual appointed by an elected officer or other individual or group of individuals collecting money for a legal expense fund.

"**§ 163-278.301. Creation of legal expense funds.**

(a) An elected officer, or another individual or group of individuals on the elected officer's behalf, shall create a legal expense fund if given a contribution, other than from that elected officer's self, spouse, parents, brothers, or sisters, for any of the following purposes:

(1) To fund an existing legal action taken by or against the elected officer in that elected officer's official capacity.

(2) To fund a potential legal action taken by or against an elected officer in that elected officer's official capacity.

(b) This section shall not apply to any contribution to the State or any of its political subdivisions.

(c) The legal expense fund shall comply with all provisions of this Article.

(d) If an elected officer funds legal actions entirely from that elected officer's own contributions or the contributions of the elected officer's spouse, parents, brothers, or sisters, that elected officer is not required to create a legal expense fund. If a legal expense fund accepts contributions as described in subsection (a) of this section, that legal expense fund shall report the elected officer's own contributions and those of those family members along with the other contributions in accordance with G.S. 163-278.310.

(d1) No more than one legal expense fund shall be created by or for an elected officer for the same legal action. Legal actions arising out of the same set of transactions and occurrences are deemed the same legal action for purposes of this subsection. A legal expense fund created for one legal action or potential legal action may be kept open by or on behalf of the elected officer for subsequent legal actions or potential legal actions.

(e) Contractual arrangements, including liability insurance, or commercial relationships or arrangements made in the normal course of business if not made for the purpose of lobbying, are not "contributions" for purposes of this Article. Use of such contractual arrangements to fund legal actions does not by itself require the elected officer to create a legal expense fund. If a legal expense fund has been created pursuant to subsection (a) of this section, such contractual arrangements shall be reported as expenditures.

(f) A violation of this Article shall be punishable as a Class 1 misdemeanor.

"**§§ 163-278.302 through 163-278.305: Reserved for future codification purposes.**

"**§ 163-278.306. Treasurer.**

The State Board of Elections shall adopt rules to implement this subsection.

(e) Any statement required to be filed under this Article shall be signed and certified as true and correct by the treasurer and shall be certified as true and correct to the best of the treasurer's knowledge. The elected officer creating the legal expense fund, or the other individual or group of individuals creating the legal expense fund on the elected officer's behalf, shall certify as true and correct to the best of their knowledge the organizational report and appointment of the treasurer. Disclosure of an account number in violation of this subdivision shall not give rise to a civil cause of action. This limitation of liability does not apply to the disclosure of account numbers in violation of this subdivision as a result of gross negligence, wanton conduct, or intentional wrongdoing that would otherwise be actionable.

(5) The name or names and address or addresses of any assistant treasurers appointed by the treasurer. "Article 10.
"Mortgage Debt Collection and Servicing.

"**§ 45-85. Definitions.**

As used in this Article, the following definitions apply:

(1) Home loan. – A loan secured by real property located in this State used, or intended to be used, by an individual borrower or individual borrowers in this State as a dwelling, regardless of whether the loan is used to purchase the property or refinance the prior purchase of the property or whether the proceeds of the loan are used for personal, family, or business purposes.

(2) Servicer. – A 'servicer' as defined in the Real Estate Settlement Procedures Act, 12 U.S.C. § 2605(i). A licensed attorney, who in the practice of law or performing as a trustee, accepts payments related to a loan closing, default, foreclosure, or settlement of a dispute or legal claim related to a loan, shall not be considered a servicer for the purposes of this Article.

"**§ 45-86. Assessment of fees; processing of payments; publication of statements.**

(a) A servicer must comply as to every home loan, regardless of whether the loan is considered in default or the borrower is in bankruptcy or the borrower has been in bankruptcy, with the following requirements:

(1) Any fee that is incurred by a servicer shall be both:

a. Assessed within 45 days of the date on which the fee was incurred. Provided, however, that attorney or trustee fees and costs incurred as a result of a foreclosure action shall be assessed within 45 days of the date they are charged by either the attorney or trustee to the servicer.

b. Explained clearly and conspicuously in a statement mailed to the borrower at the borrower's last known address at least 30 days after assessing the fee, provided the servicer shall not be required to take any action in violation of the provisions of the federal bankruptcy code.

(2) All amounts received by a servicer on a home loan at the address where the borrower has been instructed to make payments shall be accepted and credited, or treated as credited, within one business day of the date received, provided that the borrower has made the full contractual payment and has provided sufficient information to credit the account. If a servicer uses the scheduled method of accounting, any regularly scheduled payment made prior to the scheduled due date shall be credited no later than the due date. Provided, however, that if any payment is received and not credited, or treated as credited, the borrower shall be notified within 10 business days by mail at the borrower's last known address of the disposition of the payment, the reason the payment was not credited, or treated as credited to the account, and any actions necessary by the borrower to make the loan current.

(3) Failure to charge the fee or provide the information within the allowable time and in the manner required under subdivision (1) of subsection (a) of this section constitutes a waiver of such fee.

(4) All fees charged by a servicer must be otherwise permitted under applicable law and the contracts between the parties. Nothing herein is intended to permit the application of payments or method of charging interest which is less protective of the borrower than the contracts between the parties and other applicable law.

"**§ 45-87. Obligation of servicer to handle escrow funds.**

Any servicer that exercises the authority to collect escrow amounts on a home loan held or to be held for the borrower for insurance, taxes, and other charges with respect to the property shall collect and make all payments from the escrow account, so as to ensure that no late penalties are assessed or other negative consequences result. The provisions of this section shall apply regardless of whether the loan is delinquent or in default unless the servicer has a reasonable basis to believe that recovery of these funds will not be possible or the loan is more than 90 days in default.

"**§ 45-88. Borrower requests for information.**

The servicer shall make reasonable attempts to comply with a borrower's request for information about the home loan account and to respond to any dispute initiated by the borrower about the loan account, as provided in this section. The servicer shall maintain, until the home loan is paid in full, otherwise satisfied, or sold, written or electronic records of each written request for information regarding a dispute or error involving the borrower's account. Specifically, the servicer is required to do all of the following:

(1) Provide a written statement to the borrower within 10 business days of receipt of a written request from the borrower that includes or otherwise enables the servicer to identify the name and account of the borrower and includes a statement that the account is or may be in error or otherwise provides sufficient detail to the servicer regarding information sought by the borrower. The borrower is entitled to one such statement in any six-month period free of charge, and additional statements shall be provided if the borrower pays the servicer a reasonable charge for preparing and furnishing the statement not to exceed twenty-five dollars ($25.00) The statement shall include the following information if requested:

a. Whether the account is current or, if the account is not current, an explanation of the default and the date the account went into default.

b. The current balance due on the loan, including the principal due, the amount of funds (if any) held in a suspense account, the amount of the escrow balance (if any) known to the servicer, and whether there are any escrow deficiencies or shortages known to the servicer.

c. The identity, address, and other relevant information about the current holder, owner, or assignee of the loan.

d. The telephone number and mailing address of a servicer representative with the information and authority to answer questions and resolve disputes.

(2) Provide the following information and/or documents within 25 business days of receipt of a written request from the borrower that includes or otherwise enables the servicer to identify the name and account of the borrower and includes a statement that the account is or

may be in error or otherwise provides sufficient detail to the servicer regarding information sought by the borrower:

a. A copy of the original note, or if unavailable, an affidavit of lost note.

b. A statement that identifies and itemizes all fees and charges assessed under the loan transaction and provides a full payment history identifying in a clear and conspicuous manner all of the debits, credits, application of and disbursement of all payments received from or for the benefit of the borrower, and other activity on the home loan including escrow account activity and suspense account activity, if any. The period of the account history shall cover at a minimum the two-year period prior to the date of the receipt of the request for information. If the servicer has not serviced the home loan for the entire two-year time period the servicer shall provide the information going back to the date on which the servicer began servicing the home loan. For purposes of this subsection, the date of the request for the information shall be presumed to be no later than 30 days from the date of the receipt of the request. If the servicer claims that any delinquent or outstanding sums are owed on the home loan prior to the two-year period or the period during which the servicer has serviced the loan, the servicer shall provide an account history beginning with the month that the servicer claims any outstanding sums are owed on the loan up to the date of the request for the information. The borrower is entitled to one such statement in any six-month period free of charge. Additional statements shall be provided if the borrower pays the servicer a reasonable charge for preparing and furnishing the statement not to exceed fifty dollars ($50.00).

(3) Promptly correct errors relating to the allocation of payments, the statement of account, or the payoff balance identified in any notice from the borrower provided in accordance with subdivision (2) of this section, or discovered through the due diligence of the servicer or other means.

"§ **45-89. Remedies.**

In addition to any equitable remedies and any other remedies at law, any borrower injured by any violation of this Article may bring an action for recovery of actual damages, including reasonable attorneys' fees. The Commissioner of Banks, the Attorney General, or any party to a home loan may enforce the provisions of this section. With the exception of an action by the Commissioner of Banks or the Attorney General, at least 30 days before a borrower or a borrower's representative institutes a civil action for damages against a servicer for a violation of this Article, the borrower or a borrower's representative shall notify the servicer in writing of any claimed errors or disputes regarding the borrower's home loan that forms the basis of the civil action. The notice must be sent to the address as designated on any of the servicer's bills, statements, invoices, or other written communication, and must enable the servicer to identify the name and loan account of the borrower. For purposes of this section, notice shall not include a complaint or summons. Nothing in this section shall limit the rights of a borrower to enjoin a civil action, or make a counterclaim, cross-claim, or plead a

defense in a civil action. A servicer will not be in violation of this Article if the servicer shows by a preponderance of evidence that:

(1) The violation was not intentional or the result of bad faith; and

(2) Within 30 days after discovering or being notified of an error, and prior to the institution of any legal action by the borrower against the servicer under this section, the servicer corrected the error and compensated the borrower for any fees or charges incurred by the borrower as a result of the violation.

"**§ 45-90. Severability.**

The provisions of this Article shall be severable, and if any phrase, clause, sentence, or provision is declared to be invalid or is preempted by federal law or regulation, the validity of the remainder of this section shall not be affected thereby. If any provision of this Article is declared to be inapplicable to any specific category, type, or kind of points and fees, the provisions of this Article shall nonetheless continue to apply with respect to all other points and fees."

…

SECTION 3. G.S. 24-1.1E is amended by adding a new subsection to read:

"(g) A mortgage broker who brokers a high-cost home loan that violates any provisions of subsection (b) or (c) of this section shall be jointly and severally liable with the lender."

SECTION 4. Article 1 of Chapter 24 of the General Statutes is amended by adding a new section to read:

"**§ 24-1.1F. Rate spread home loans.**

"(a) Definitions.–The following definitions apply for purposes of this section:

(1) Annual percentage rate. – The annual percentage rate for the loan calculated according to the provisions of the federal Truth-in-Lending Act (15 U.S.C. § 1601, et seq.) and the regulations promulgated thereunder by the Federal Reserve Board, as that Act and regulations are amended from time to time.

(2) Closed-end loan. – A loan other than an open-end credit plan as defined in this section.

(3) Home loan. – A loan that has all of the following characteristics:

a. The loan is not an equity line of credit as defined in G.S. 24-9(a)(2), a construction loan as defined in G.S. 24-10(c), or a reverse mortgage transaction.

b. The borrower is a natural person.

c. The debt is incurred by the borrower primarily for personal, family, or household purposes.

d. The principal amount of the loan does not exceed the conforming loan size limit for a single-family dwelling as established from time to time for Fannie Mae.

e. The loan is secured by (i) a security interest in a manufactured home, as defined in G.S. 143-147(7), in the State which is or will be occupied by the borrower as the borrower's principal dwelling, (ii) a mortgage or deed of trust on real property in the State upon which there is located an existing structure designed principally for occupancy of from one to four families that is or will be occupied by the borrower as the borrower's principal dwelling, or (iii) a mortgage or deed of trust on real property in the State upon which there is to be constructed using the loan proceeds a structure or structures designed principally for occupancy of from one to four families which, when completed, will be occupied by the borrower as the borrower's principal dwelling.

f. A purpose of the loan is to (i) purchase the dwelling, (ii) construct, repair, rehabilitate, remodel, or improve the dwelling or the real property on which it is located, (iii) satisfy and replace an existing obligation secured by the same real property, or (iv) consolidate existing consumer debts into a new home loan.

(4) Mortgage broker. – A mortgage broker as defined in G.S. 53-243.01(14).

(5) Obligor. – Each borrower, co-borrower, cosigner, or guarantor obligated to repay a rate spread home loan.

(6) Open-end credit plan. – Credit extended by a lender under a plan in which (i) the lender reasonably contemplates repeated transactions, (ii) the lender may charge interest or otherwise impose a finance charge from time to time on an outstanding unpaid balance, and (iii) the amount of credit that may be extended to the obligor during the term of the plan, up to any credit limit set by the lender, is generally made available to the extent that any outstanding balance is repaid.

(7) Rate spread home loan. – A home loan in which all the following apply:

a. The difference between the annual percentage rate for the loan and the yield on U.S. Treasury securities having comparable periods of maturity is either equal to or greater than (i) 3 percentage points (3%), if the loan is secured by a first lien mortgage or deed of trust, or (ii) 5 percentage points (5%), if the loan is secured by a subordinate lien mortgage or deed of trust. Without regard to whether the loan is subject to or reportable under the provisions of the Home Mortgage Disclosure Act (12 U.S.C. § 2801, et seq.) (HMDA), the difference between the annual percentage rate and the yield on Treasury securities having comparable periods of maturity shall be determined using the same procedures and calculation methods applicable to loans that are subject to the reporting requirements of HMDA, as those procedures and calculation methods are amended from time to time, provided that the yield on Treasury securities shall be determined as of the fifteenth day of the month prior to the application for the loan.

b. The difference between the annual percentage rate for the loan and the conventional mortgage rate is either equal to or greater than (i) 1.75 percentage points (1.75%), if the loan is secured by a first lien mortgage or deed of trust, or (ii) 3.75 percentage points (3.75%), if the loan is secured by a subordinate lien mortgage or deed of trust. For purposes of this calculation, the "conventional mortgage rate" means the most recent daily contract interest rate on commitments for fixed-rate first mortgages published by the Board of Governors of the Federal Reserve System in its Statistical Release H.15, or any publication that may supersede it, during the week preceding the week in which the interest rate for the loan is set.

(b) No prepayment fees or penalties shall be charged or collected on a rate spread home loan.

(c) No lender shall make a rate spread home loan unless the lender reasonably and in good faith believes at the time the loan is consummated that one or more of the obligors, when considered individually or collectively, has the ability to repay the loan according to its terms and to pay applicable real estate taxes and hazard insurance premiums. If a lender making a rate spread home loan knows that one or more mortgage loans secured by the same real property will be made contemporaneously to the same borrower with the rate spread home loan being made by that lender, the lender making the rate spread home loan must document the borrower's ability to repay the combined payments of all loans on the same real property.

(1) A lender's analysis of an obligor's ability to repay a rate spread home loan according to the loan terms and to pay related real estate taxes and insurance premiums shall be based on a consideration of the obligor's credit history, current and expected income, current obligations, employment status, and other financial resources other than the obligor's equity in the real property that secures repayment of the rate spread home loan.

(2) In determining an obligor's ability to repay a rate spread home loan, the lender shall take reasonable steps to verify the accuracy and completeness of information provided by or on behalf of the obligor using tax returns, payroll receipts, bank records, reasonable alternative methods, or reasonable third-party verification.

(3) In determining an obligor's ability to repay a rate spread home loan according to its terms when the loan has an adjustable rate feature, the lender shall take into consideration any balance increase that may accrue from any negative amortization provision. The lender shall calculate the monthly payment amount for principal and interest by assuming (i) the loan proceeds are fully disbursed on the date of the loan closing, (ii) the loan is to be repaid in substantially equal monthly amortizing payments of principal and interest over the entire term of the loan, with no balloon payment, and (iii) the interest rate over the entire term of the loan is a fixed rate equal to the fully indexed interest rate at the time of the loan closing, without considering any initial discounted rate. The "fully indexed interest rate at the time of the loan closing" is the interest rate that would have applied at the time of the closing had the initial interest rate been determined by the application of the same interest rate formula, (for example, an interest rate index plus or minus a margin) that applies under the terms of the loan documents to subsequent interest rate adjustments, disregarding any limitations on the amount by which the interest rate may change at any one time.

(4) A lender's analysis of an obligor's ability to repay a rate spread loan may utilize reasonable commercially recognized underwriting standards and methodologies, including automated underwriting systems, provided the standards and methodologies comply with the provisions of this section.

(d) The making of a rate spread home loan which violates subsection (b) or (c) of this section is hereby declared usurious in violation of the provisions of this Chapter. In addition, any prepayment penalty in violation of this section shall be unenforceable. However, an obligor shall not be entitled to recover twice for the same wrong. The Attorney General, the Commissioner of Banks, or any party to a rate spread home loan may enforce the provisions of this section. This section establishes specific consumer protections in rate spread home loans in addition to other consumer protections that may be otherwise available by law. A mortgage broker who brokers a rate spread home loan that violates the provisions of this section shall be jointly and severally liable with the lender.

(e) The provisions of this section shall apply to any person who in bad faith attempts to avoid the application of this section by (i) dividing any loan transaction into separate parts for the purpose and with the intent of evading the provisions of this section, or (ii) any other such subterfuge.

(f) A lender in a rate spread home loan who, when acting in good faith, fails to comply with this section, will not be deemed to have violated this section if the lender establishes that either:

(1) Within 90 days of the loan closing and prior to the institution of any action against the lender under this section, the borrower was notified of the compliance failure, the lender tendered appropriate restitution,

the lender offered, at the borrower's option, either to (i) make the rate spread home loan comply with subsection (b) or (c), or (ii) change the terms of the loan in a manner beneficial to the borrower so that the loan will no longer be considered a rate spread home loan subject to the provisions of this section, and within a reasonable period of time following the borrower's election of remedies, the lender took appropriate action based on the borrower's choice; or

(2) The compliance failure was not intentional and resulted from a bona fide error notwithstanding the maintenance of procedures reasonably adopted to avoid such errors, and within 120 days after the discovery of the compliance failure and prior to the institution of any action against the lender under this section or the lender's receipt of written notice of the compliance failure, the borrower was notified of the compliance failure, the lender tendered appropriate restitution, the lender offered, at the borrower's option, either to (i) make the rate spread home loan comply with subsection (b) or (c) of this section, or (ii) change the terms of the loan in a manner beneficial to the borrower so that the loan will no longer be considered a rate spread home loan subject to the provisions of this section, and within a reasonable period of time following the borrower's election of remedies, the lender took appropriate action based on the borrower's choice. Examples of a bona fide error include clerical, calculation, computer malfunction and programming, and printing errors. An error of legal judgment with respect to a person's obligations under this section is not a bona fide error.

(g) The provisions of this section shall be severable, and if any phrase, clause, sentence, or provision is declared to be invalid or is preempted by federal law or regulation, the validity of the remainder of this section shall not be affected thereby."

SECTION 5. G.S. 24-10.2 is amended by adding a new subsection to read:

"(h) A mortgage broker who brokers a consumer home loan that violates the provisions of this section shall be jointly and severally liable with the lender."

SECTION 6. G.S. 53-243.04 reads as rewritten:

Session Law 2007-365 **Senate Bill 1245**

AN ACT AMENDING THE LAWS RELATED TO RETAINAGE PAYMENTS ON PUBLIC CONSTRUCTION CONTRACTS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 143-134.1 reads as rewritten:

"§ **143-134.1. Interest on final payments due to prime contractors; payments to subcontractors.**

(a) On all public construction contracts which are let by a board or governing body of the State government or any political subdivision thereof, except contracts let by the Department of Transportation pursuant to G.S. 136-28.1, the balance due prime contractors shall be paid in full within 45 days after respective prime contracts of the project have been accepted by the owner, certified by the architect, engineer or designer to be completed in accordance with terms of the plans and specifications, or occupied by the owner and used for the purpose for which the project was constructed, whichever occurs first. ~~Provided, however, that whenever~~ However, when the architect or consulting engineer in charge of the project determines that delay in completion of the project in accordance with terms of the plans and specifications is the fault of the contractor, the project may be occupied and used for the purposes for which it was constructed without payment of any interest on amounts withheld past the 45 day limit. No payment shall be delayed because of the failure of another prime contractor on ~~such~~ the project to complete his contract. Should final payment to any prime contractor beyond the date ~~such~~ the contracts have been certified to be completed by the designer or architect, accepted by the owner, or occupied by the owner and used for the purposes for which the project was constructed, be delayed by more than 45 days, ~~said~~ the prime contractor shall be paid interest, beginning on the 46th day, at the rate of one percent (1%) per month or fraction thereof unless a lower rate is agreed upon on ~~such~~ the unpaid balance as may be due. In addition to the above final payment provisions, periodic

payments due a prime contractor during construction shall be paid in accordance with the provisions of this section and the payment provisions of the contract documents that do not conflict with this section, or ~~said~~ the prime contractor shall be paid interest on any ~~such~~ unpaid amount at the rate stipulated above for delayed final payments. ~~Such~~ The interest shall begin on the date the payment is due and continue until the date on which payment is made. ~~Such~~ The due date may be established by the terms of the contract. Funds for payment of ~~such~~ the interest on state-owned projects shall be obtained from the current budget of the owning department, institution, or agency. Where a conditional acceptance of a contract exists, and where the owner is retaining a reasonable sum pending correction of ~~such~~ the conditions, interest on ~~such~~ the reasonable sum shall not apply.

(b) Within seven days of receipt by the prime contractor of each periodic or final payment, the prime contractor shall pay the subcontractor based on work completed or service provided under the subcontract. ~~Should~~ If any periodic or final payment to the subcontractor ~~be~~ is delayed by more than seven days after receipt of periodic or final payment by the prime contractor, the prime contractor shall pay the subcontractor interest, beginning on the eighth day, at the rate of one percent (1%) per month or fraction thereof on ~~such~~ the unpaid balance as may be due.

(b1) No retainage on periodic or final payments made by the owner or prime contractor shall be allowed on public construction contracts in which the total project costs are less than one hundred thousand dollars ($100,000). Retainage on periodic or final payments on public construction contracts in which the total project costs are equal to or greater than one hundred thousand dollars ($100,000) is allowed as follows:

(1) The owner shall not retain more than five percent (5%) of any periodic payment due a prime contractor.

(2) When the project is fifty percent (50%) complete, the owner, with written consent of the surety, shall not retain any further retainage from periodic payments due the contractor if the contractor continues to perform satisfactorily and any nonconforming work identified in writing prior to that time by the architect, engineer, or owner has been corrected by the contractor and accepted by the architect, engineer, or owner. If the owner determines the contractor's performance is unsatisfactory, the owner may reinstate retainage for each subsequent periodic payment application as authorized in this subsection up to the maximum amount of five percent (5%). The project shall be deemed fifty percent (50%) complete when the contractor's gross project invoices, excluding the value of materials stored off-site, equal or exceed fifty percent (50%) of the value of the contract, except the value of materials stored on-site shall not exceed twenty percent (20%) of the contractor's gross project invoices for the purpose of determining whether the project is fifty percent (50%) complete.

(3) A subcontract on a contract governed by this section may include a provision for the retainage on periodic payments made by the prime contractor to the subcontractor. However, the percentage of the payment retained: (i) shall be paid to the subcontractor under the same terms and conditions as provided in subdivision (2) of this subsection and (ii) subject to subsection (b3) of this section, shall not exceed the percentage of retainage on payments made by the owner to the prime contractor. Subject to subsection (b3) of this section, any percentage of

retainage on payments made by the prime contractor to the subcontractor that exceeds the percentage of retainage on payments made by the owner to the prime contractor shall be subject to interest to be paid by the prime contractor to the subcontractor at the rate of one percent (1%) per month or fraction thereof.

(4) Within 60 days after the submission of a pay request and one of the following occurs, as specified in the contract documents, the owner with written consent of the surety shall release to the contractor all retainage on payments held by the owner: (i) the owner receives a certificate of substantial completion from the architect, engineer, or designer in charge of the project; or (ii) the owner receives beneficial occupancy or use of the project. However, the owner may retain sufficient funds to secure completion of the project or corrections on any work. If the owner retains funds, the amount retained shall not exceed two and one-half times the estimated value of the work to be completed or corrected. Any reduction in the amount of the retainage on payments shall be with the consent of the contractor's surety.

(5) The existence of any third-party claims against the contractor or any additive change orders to the construction contract shall not be a basis for delaying the release of any retainage on payments.

(b2) Full payment, less authorized deductions, shall also be made for those trades that have reached one hundred percent (100%) completion of their contract by or before the project is fifty percent (50%) complete if the contractor has performed satisfactorily. However, payment to the early finishing trades is contingent upon the owner's receipt of an approval or certification from the architect of record or applicable engineer that the work performed by the subcontractor is acceptable and in accordance with the contract documents. At that time, the owner shall reduce the retainage for such trades to five-tenths percent (0.5%) of the contract. Payments under this subsection shall be made no later than 60 days following receipt of the subcontractor's request or immediately upon receipt of the surety's consent, whichever occurs later. Early finishing trades under this subsection shall include structural steel, piling, caisson, and demolition. The early finishing trades for which line-item release of retained funds is required shall not be construed to prevent an owner or an owner's representative from identifying any other trades not listed in this subsection that are also allowed line-item release of retained funds. Should the owner or owner's representative identify any other trades to be afforded line-item release of retainage, the trade shall be listed in the original bid documents. Each bid document shall list the inspections required by the owner before accepting the work, and any financial information required by the owner to release payment to the trades, except the failure of the bid documents to contain this information shall not obligate the owner to release the retainage if it has not received the required certification from the architect of record or applicable engineer.

(b3) Notwithstanding subdivisions (2) and (3) of subsection (b1) of this section, and subsection (b2) of this section, following fifty percent (50%) completion of the project, the owner shall be authorized to withhold additional retainage from a subsequent periodic payment, not to exceed five percent (5%) as set forth in subdivision (1) of subsection (b1) of this section, in order to allow the owner to retain two and one-half percent (2.5%) total retainage through the completion of the project. In the event that the owner elects to withhold additional retainage on any periodic payment subsequent to release of retainage pursuant to subsection (b2) of this section, the general

contractor may also withhold from the subcontractors remaining on the project sufficient retainage to offset the additional retainage held by the owner, notwithstanding the actual percentage of retainage withheld by the owner of the project as a whole.

(b4) Neither the owner's nor contractor's release of retainage on payments as part of a payment in full on a line-item of work under subsection (b2) of this section shall affect any applicable warranties on work done by the contractor or subcontractor, and the warranties shall not begin to run any earlier than either the owner's receipt of a certificate of substantial completion from the architect, engineer, or designer in charge of the project or the owner receives beneficial occupancy.

(b5) The State or any political subdivision of the State may allow contractors to bid on bonded projects with and without retainage on payments.

(b6) Nothing in subsections (b1), (b2), (b3), and (b4) of this section shall operate to prevent any agency or any political subdivision of the State from complying with the requirements of a federal contract or grant when the requirements of the federal contract or grant conflict with subsections (b1), (b2), (b3), or (b4) of this section. Each bid document must specify when federal preemption of this section shall apply.

~~(c) The percentage of retainage on payments made by the prime contractor to the subcontractor shall not exceed the percentage of retainage on payments made by the owner to the prime contractor. Any percentage of retainage on payments made by the prime contractor to the subcontractor that exceeds the percentage of retainage on payments made by the owner to the prime contractor shall be subject to interest to be paid by the prime contractor to the subcontractor at the rate of one percent (1%) per month or fraction thereof.~~

(d) Nothing in this section shall prevent the prime contractor at the time of application and certification to the owner from withholding application and certification to the owner for payment to the subcontractor for unsatisfactory job progress; defective construction not remedied; disputed work; third party claims filed or reasonable evidence that claim will be filed; failure of subcontractor to make timely payments for labor, equipment, and materials; damage to prime contractor or another subcontractor; reasonable evidence that subcontract cannot be completed for the unpaid balance of the subcontract sum; or a reasonable amount for retainage not to exceed the initial percentage retained by the owner.

(e) Nothing in this section shall prevent the owner from withholding payment to the contractor in addition to the amounts authorized by this section for unsatisfactory job progress, defective construction not remedied, disputed work, or third-party claims filed against the owner or reasonable evidence that a third-party claim will be filed."

Session Law 2007-383 **House Bill 1755**

AN ACT TO MODERNIZE AND IMPROVE THE ADMINISTRATION OF THE STATE'S 911 SYSTEM THROUGH A STATEWIDE 911 BOARD, BY ENSURING THAT ALL VOICE SERVICES CONTRIBUTE TO THE 911 SYSTEM AND BY PROVIDING PARITY IN THE QUALITY OF SERVICE AND THE LEVEL OF 911 CHARGES ACROSS VOICE COMMUNICATIONS SERVICE PROVIDERS.

Whereas, maintaining an efficient Enhanced 911 system across the State benefits all citizens and not just certain localities; and

Whereas, the Wireless 911 Board has successfully administered the statewide wireless Enhanced 911 system for many years; and

Whereas, local governments have administered a similar wireline Enhanced 911 system for their local jurisdictions; and

Whereas, the average monthly 911 service charges paid to local governments by local exchange company customers exceeds the average monthly 911 service charges paid to the Wireless 911 Board by wireless company customers, thereby creating an unfair competitive advantage for wireless companies; and

Whereas, some VoIP-enabled providers do not currently support the Enhanced 911 system by collecting 911 service charges; and

Whereas, the consolidation of the State's Enhanced 911 system under a single board with a uniform 911 service charge will improve the integration of the State's 911 system, enhance efficiency and accountability, and create a level competitive playing field among voice communications technologies; Now, therefore,

The General Assembly of North Carolina enacts:

(a) Duties. – The 911 Board has the following powers and duties:

(1) To develop the 911 State Plan. In developing and updating the plan, the 911 Board must monitor trends in voice communications service technology and in enhanced 911 service technology, investigate and incorporate GIS mapping and other resources into the plan, and formulate strategies for the efficient and effective delivery of enhanced 911 service.

(2) To administer the 911 Fund and the monthly 911 service charge authorized by G.S. 62A-43.

(3) To distribute revenue in the 911 Fund to CMRS providers and PSAPs in accordance with this Article and advise CMRS providers and PSAPs of the requirements for receiving a distribution from the 911 Fund.

(4) To establish policies and procedures to fund advisory services and training for PSAPs and to provide funds in accordance with these policies and procedures.

(5) To investigate the revenues and expenditures associated with the operation of a PSAP to ensure compliance with restrictions on the use of amounts distributed from the 911 Fund.

(6) To make and enter into contracts and agreements necessary or incidental to the performance of its powers and duties under this Article and to use revenue available to the 911 Board under G.S. 62A-44 for administrative expenses to pay its obligations under the contracts and agreements.

(7) To accept gifts, grants, or other money for the 911 Fund.

(8) To undertake its duties in a manner that is competitively and technologically neutral as to all voice communications service providers.

(9) To adopt rules to implement this Article. This authority does not include the regulation of any enhanced 911 service, such as the establishment of technical standards.

(10) To take other necessary and proper action to implement the provisions of this Article.

(b) Prohibition. – In no event shall the 911 Board or any other State agency lease, construct, operate, or own a communications network for the purpose of providing 911 service.

"**§ 62A-43. Service charge for 911 service.**

(a) Charge Imposed. – A monthly 911 service charge is imposed on each active voice communications service connection that is capable of accessing the 911 system. The service charge is seventy cents (70¢) or a lower amount set by the 911 Board under

subsection (d) of this section. The service charge is payable by the subscriber to the voice communications service provider. The provider may list the service charge separately from other charges on the bill. Partial payments made by a subscriber are applied first to the amount the subscriber owes the provider for the voice communications service.

(b) Prepaid Wireless. – A voice communications service provider of prepaid wireless telephone service must collect and remit to the 911 Board the monthly service charge imposed upon prepaid wireless telephone subscribers in the State under one of the following methods:

(1) Collecting the service charge from each active prepaid wireless telephone service subscriber whose account balance is equal to or greater than the amount of the service charge.

(2) Dividing the provider's total earned prepaid wireless telephone service revenue received for the month from each active prepaid wireless telephone service subscriber by fifty dollars ($50.00) and multiplying the quotient by the amount of the service charge.

(c) Remittance to 911 Board. – A voice communications service provider must remit the service charges collected by it under this section to the 911 Board. The provider must remit the collected service charges by the end of the calendar month following the month the provider received the charges from its subscribers. A provider may deduct and retain from the service charges it receives from its subscribers and remits to the 911 Board an administrative allowance equal to the greater of one percent (1%) of the amount of service charges remitted or fifty dollars ($50.00) a month.

(d) Adjustment of Charge. – The 911 Board must monitor the revenues generated by the service charge. If the 911 Board determines that the rate produces revenue in excess of the amount needed, the 911 Board must reduce the rate. The reduced rate must ensure full cost recovery for voice communications service providers and for primary PSAPs over a reasonable period of time. A change in the amount of the rate becomes effective only on July 1 of an even-numbered year. The 911 Board must notify providers of a change in the rate at least 90 days before the change becomes effective.

(e) Collection. – A voice communications service provider has no obligation to take any legal action to enforce the collection of the service charge billed to a subscriber. The 911 Board may initiate a collection action, and reasonable costs and attorneys' fees associated with that collection action may be assessed against the subscriber. At the request of the 911 Board, but no more than annually, a voice communications service provider must report to the 911 Board the amount of the provider's uncollected service charges. The 911 Board may request, to the extent permitted by federal privacy laws, the name, address, and telephone number of a subscriber who refuses to pay the 911 service charge.

(f) Restriction. – A local government may not impose a service charge or other fee on a subscriber to support the 911 system.

"**§ 62A-44. 911 Fund.**

(a) Fund. – The 911 Fund is created as an interest-bearing special revenue fund within the State treasury. The 911 Board administers the Fund. The 911 Board must credit to the 911 Fund all revenues remitted to it from the service charge imposed by G.S. 62A-43 on voice communications service connections in the State. Revenue in the Fund may only be used as provided in this Article.

(b) Allocation of Revenues. – The 911 Board may deduct and retain for its administrative expenses up to one percent (1%) of the total service charges remitted to it

under G.S. 62A-43 for deposit in the 911 Fund. The remaining revenues remitted to the 911 Board for deposit in the 911 Fund are allocated as follows:

(1) Fifty-three percent (53%) of the funds remitted by CMRS providers to the 911 Fund are allocated for reimbursements to CMRS providers pursuant to G.S. 62A-45.

(2) Forty-seven percent (47%) of the funds remitted by CMRS providers and all funds remitted by all other voice communications service providers are allocated for monthly distributions to primary PSAPs pursuant to G.S. 62A-46 and grants to PSAPs pursuant to G.S. 62A-47.

(c) Report. – In February of each odd-numbered year, the 911 Board must report to the Joint Legislative Commission on Governmental Operations, the Revenue Laws Study Committee, and the Joint Legislative Utility Review Committee. The report must contain complete information regarding receipts and expenditures of all funds received by the 911 Board during the period covered by the report, the status of the 911 system in North Carolina at the time of the report, and the results of any investigations by the Board of PSAPs that have been completed during the period covered by the report.

(d) Nature of Revenue. – The General Assembly finds that distributions of revenue from the 911 Fund are not State expenditures for the purpose of Section 5(3) of Article III of the North Carolina Constitution. Therefore, the Governor may not reduce or withhold revenue in the 911 Fund.

"**§ 62A-45. Fund distribution to CMRS providers.**

(a) Distribution. – CMRS providers are eligible for reimbursement from the 911 Fund for the actual costs incurred by the CMRS providers in complying with the requirements of enhanced 911 service. Costs of complying include costs incurred for designing, upgrading, purchasing, leasing, programming, installing, testing, or maintaining all necessary data, hardware, and software required to provide service as well as the recurring and nonrecurring costs of providing the service. To obtain reimbursement, a CMRS provider must comply with all of the following:

(1) Invoices must be sworn.

(2) All costs and expenses must be commercially reasonable.

(3) All invoices for reimbursement must be related to compliance with the requirements of enhanced 911 service.

(4) Prior approval must be obtained from the 911 Board for all invoices for payment of costs that exceed the lesser of:

a. One hundred percent (100%) of the eligible costs allowed under this section.

b. One hundred twenty-five percent (125%) of the service charges remitted to the 911 Board by the CMRS provider.

(b) Payment Carryforward. – If the total amount of invoices submitted to the 911 Board and approved for payment in a month exceeds the amount available from the 911 Fund for reimbursements to CMRS providers, the amount payable to each CMRS provider is reduced proportionately so that the amount paid does not exceed the amount available for payment. The balance of the payment is deferred to the following month. A deferred payment accrues interest at a rate equal to the rate earned by the 911 Fund until it is paid.

(c) Grant Reallocation. – If the amount of reimbursements to CMRS providers approved by the 911 Board for a fiscal year is less than the amount of funds allocated for reimbursements to CMRS providers for that fiscal year, the 911 Board may

reallocate part or all of the excess amount to the PSAP Grant Account established under G.S. 62A-47. The 911 Board may reallocate funds under this subsection only once each calendar year and may do so only within the three-month period that follows the end of the fiscal year. If the 911 Board reallocates more than three million dollars ($3,000,000) to the PSAP Grant Account in a calendar year, it must consider reducing the amount of the service charge in G.S. 62A-44 to reflect more accurately the underlying costs of providing 911 system services.

The 911 Board must make the following findings before it reallocates funds to the PSAP Grant Account:

(1) There is a critical need for additional funding for PSAPs in rural or high-cost areas to ensure that enhanced 911 service is deployed throughout the State.

(2) The reallocation will not impair cost recovery by CMRS providers.

(3) The reallocation will not result in the insolvency of the 911 Fund.

"**§ 62A-46. Fund distribution to PSAPs.**

(a) Monthly Distribution. – The 911 Board must make monthly distributions to primary PSAPs from the amount allocated to the 911 Fund for PSAPs. The amount to be distributed to each primary PSAP is the sum of the following:

(1) The PSAP's base amount. – The PSAP's base amount is the amount the PSAP received in the fiscal year ending June 30, 2007, and deposited in the Emergency Telephone System Fund of its local governing entity, as reported to the State Treasurer's Office, Local Government Division.

(2) The PSAP's per capita amount. – The PSAP's per capita amount is the PSAP's per capita share of the amount designated by the Board under subsection (b) of this section for the per capita distribution. The 911 Board must use the most recent population estimates certified by the State Budget Officer in making the per capita distribution under this subdivision. A PSAP is not eligible for a distribution under this subdivision unless it provides enhanced 911 service.

(b) Percentage Designations. – The 911 Board must determine how revenue that is allocated to the 911 Fund for distribution to primary PSAPs and is not needed to make the base amount distribution required by subdivision (a)(1) of this section is to be used. The 911 Board must designate a percentage of the remaining funds to be distributed to primary PSAPs on a per capita basis and a percentage to be allocated to the PSAP Grant Account established in G.S. 62A-47. If the 911 Board does not designate an amount to be allocated to the PSAP Grant Account, the 911 Board must distribute all of the remaining funds on a per capita basis. The 911 Board may not change the percentage designation more than once each calendar year.

(c) Use of Funds. – A PSAP that receives a distribution from the 911 Fund may not use the amount received to pay for the lease or purchase of real estate, cosmetic remodeling of emergency dispatch centers, hiring or compensating telecommunicators, or the purchase of mobile communications vehicles, ambulances, fire engines, or other emergency vehicles. Distributions received by a PSAP may be used only to pay for the following:

(1) The lease, purchase, or maintenance of emergency telephone equipment, including necessary computer hardware, software, and database provisioning, addressing, and nonrecurring costs of establishing a 911 system.

(2) Expenditures for in-State training of 911 personnel regarding the maintenance and operation of the 911 system. Allowable training expenses include the cost of transportation, lodging, instructors, certifications, improvement programs, quality assurance training, and training associated with call taking, and emergency medical, fire, or law enforcement procedures. Training outside the State is not an eligible expenditure unless the training is unavailable in the State or the PSAP documents that the training costs are less if received out-of-state. Training specific to the receipt of 911 calls is allowed only for intake and related call taking quality assurance and improvement. Instructor certification costs and course required prerequisites, including physicals, psychological exams, and drug testing, are not allowable expenditures.

(3) Charges associated with the service supplier's 911 service and other service supplier recurring charges. The PSAP providing 911 service is responsible to the voice communications service provider for all 911 installation, service, equipment, operation, and maintenance charges owed to the voice communications service provider. A PSAP may contract with a voice communications service provider on terms agreed to by the PSAP and the provider.

(d) Local Fund. – The fiscal officer of a PSAP to whom a distribution is made under this section must deposit the funds in a special revenue fund, as defined in G.S. 159-26(b)(2), designated as the Emergency Telephone System Fund. The fiscal officer may invest money in the Fund in the same manner that other money of the local government may be invested. Income earned from the invested money in the Emergency Telephone System Fund must be credited to the Fund. Revenue deposited into the Fund must be used only as permitted in this section.

(e) Compliance. – A PSAP, or the governing entity of a PSAP, must comply with all of the following in order to receive a distribution under this section:

(1) A county or municipality that has one or more PSAPs must submit in writing to the 911 Board information that identifies the PSAPs in the manner required by the FCC Order.

(2) A participating PSAP must annually submit to the 911 Board a copy of its governing agency's proposed or approved budget detailing the revenues and expenditures associated with the operation of the PSAP. The PSAP budget must identify revenues and expenditures for eligible expense reimbursements as provided in this Article and rules adopted by the 911 Board.

(3) A PSAP must be included in its governing entity's annual audit required under the Local Government Budget and Fiscal Control Act. The Local Government Commission must provide a copy of each audit of a local government entity with a participating PSAP to the 911 Board.

(4) A PSAP must comply with all requests by the 911 Board for financial information related to the operation of the PSAP.

"**§ 62A-47. PSAP Grant Account.**

(a) Account Established. – A PSAP Grant Account is established within the 911 Fund for the purpose of making grants to PSAPs in rural and other high-cost areas. The

Account consists of revenue allocated by the 911 Board under G.S. 62A-45(c) and G.S. 62A-46.

(b) Application. – A PSAP may apply to the 911 Board for a grant from the PSAP Grant Account. An application must be submitted in the manner prescribed by the 911 Board. The 911 Board may approve a grant application and enter into a grant agreement with a PSAP if it determines all of the following:

(1) The costs estimated in the application are reasonable and have been or will be incurred for the purpose of promoting a cost-effective and efficient 911 system.

(2) The expenses to be incurred by the applicant are consistent with the 911 State Plan.

(3) There are sufficient funds available in the fiscal year in which the grant funds will be distributed.

(4) The costs are authorized PSAP costs under G.S. 62A-46(c).

(c) Agreement. – A grant agreement between the 911 Board and a PSAP must include the purpose of the grant, the time frame for implementing the project or program funded by the grant, the amount of the grant, and a provision for repaying grant funds if the PSAP fails to comply with any of the terms of the grant. The amount of the grant may vary among grantees. If the grant is intended to promote the deployment of enhanced 911 service in a rural area of the State, the grant agreement must specify how the funds will assist with this goal. The 911 Board must publish one or more notices each fiscal year advertising the availability of grants from the PSAP Grant Account and detailing the application process, including the deadline for submitting applications, any required documents specifying costs, either incurred or anticipated, and evidence demonstrating the need for the grant. Any grant funds awarded to PSAPs under this section are in addition to any funds reimbursed under G.S. 62A-46.

"**§ 62A-48. Recovery of unauthorized use of funds.**

The 911 Board must give written notice of violation to any voice communications service provider or PSAP found by the 911 Board to be using monies from the 911 Fund for purposes not authorized by this Article. Upon receipt of notice, the voice communications service provider or PSAP must cease making any unauthorized expenditures. The voice communications service provider or PSAP may petition the 911 Board for a hearing on the question of whether the expenditures were unauthorized, and the 911 Board must grant the request within a reasonable period of time. If, after the hearing, the 911 Board concludes the expenditures were in fact unauthorized, the 911 Board may require the voice communications service provider or PSAP to refund the monies improperly spent within 90 days. Money received under this section must be credited to the 911 Fund. If a voice communications service provider or PSAP does not cease making unauthorized expenditures or refuses to refund improperly spent money, the 911 Board must suspend funding to the provider or PSAP until corrective action is taken.

"**§ 62A-49. Conditions for providing enhanced 911 service.**

In accordance with the FCC Order, no CMRS provider is required to provide enhanced 911 service until all of the following conditions are met:

(1) The provider receives a request for the service from the administrator of a PSAP that is capable of receiving and utilizing the data elements associated with the service.

(2) Funds for reimbursement of the CMRS provider's costs are available pursuant to G.S. 62A-45.

(3) The local exchange carrier is able to support the requirements of enhanced 911 service.

"**§ 62A-50. Audit.**

The State Auditor may perform audits of the 911 Board pursuant to Article 5A of Chapter 147 of the General Statutes to ensure that funds in the 911 Fund are being managed in accordance with the provisions of this Article. The State Auditor must perform an audit of the 911 Board at least every two years. The 911 Board must reimburse the State Auditor for the cost of an audit of the 911 Board.

"**§ 62A-51. Subscriber records.**

Each CMRS provider must provide its 10,000 number groups to a PSAP upon request. This information remains the property of the disclosing CMRS provider and must be used only in providing emergency response services to 911 calls. CMRS voice communications service provider connection information obtained by PSAP personnel for public safety purposes is not public information under Chapter 132 of the General Statutes. No person may disclose or use, for any purpose other than the 911 system, information contained in the database of the telephone network portion of a 911 system.

"**§ 62A-52. Proprietary information.**

All proprietary information submitted to the 911 Board or the State Auditor is confidential. Proprietary information submitted pursuant to this Article is not subject to disclosure under Chapter 132 of the General Statutes, and it may not be released to any person other than to the submitting CMRS voice communications service provider, the 911 Board, and the State Auditor without the express permission of the submitting CMRS voice communications service provider. Proprietary information is considered a trade secret under the Trade Secrets Protection Act, Article 24 of Chapter 66 of the General Statutes. General information collected by the 911 Board or the State Auditor may be released or published only in aggregate amounts that do not identify or allow identification of numbers of subscribers or revenues attributable to an individual CMRS voice communications service provider.

"**§ 62A-53. Limitation of liability.**

Except in cases of wanton or willful misconduct, a voice communications service provider and its employees, directors, officers, and agents are not liable for any damages in a civil action resulting from death or injury to any person or from damage to property incurred by any person in connection with developing, adopting, implementing, maintaining, or operating the 911 system or in complying with emergency-related information requests from State or local government officials. This section does not apply to actions arising out of the operation or ownership of a motor vehicle.

SECTION 1.(b) Article 19 of Chapter 14 of the General Statutes is amended by adding a new section to read:

"**§ 14-111.4. Misuse of 911 system.**

It is unlawful for an individual who is not seeking public safety assistance, is not providing 911 service, or is not responding to a 911 call to access or attempt to access the 911 system for a purpose other than an emergency communication. A person who knowingly violates this section commits a Class 3 misdemeanor. If a person knowingly accesses or attempts to access the 911 system for the purpose of avoiding a charge for voice communications service, as defined in G.S. 62A-40, and the value of the charge exceeds one hundred dollars ($100.00), the person commits a Class 1 misdemeanor."

SECTION 2.(a) Article 1 of Chapter 62A of the General Statutes is repealed.

SECTION 2.(b) Any funds remaining in the Emergency Telephone System Fund or required to be remitted by a service supplier to the local fiscal officer for deposit to the fund, collected pursuant to Article 1 of Chapter 62A of the General Statutes prior to the effective date of this act, are transferred to the General Fund of the local governing entity to be used for any lawful purpose. Any local governing entity is not relieved of any prior obligation incurred for uses authorized by G.S. 62A-8.

SECTION 3.(a) Article 2 of Chapter 62A of the General Statutes is repealed.

SECTION 3.(b) The records, personnel, property, and unexpended balances of appropriations, allocations, and other funds, including the functions of budgeting and purchasing, of the Wireless 911 Board created under Article 2 of Chapter 62A of the General Statutes and repealed by subsection (a) of this section, are transferred to the 911 Board created under Article 3 of Chapter 62A of the General Statutes, as enacted by Section 1 of this act. All rules, decisions, and actions adopted, made, or taken by the Wireless 911 Board created under Article 2 of Chapter 62A of the General Statutes that have not been repealed or rescinded continue in effect until repealed or rescinded by the 911 Board created under Article 3 of Chapter 62A of the General Statutes, as enacted by Section 1 of this act.

SECTION 3.(c) The members of the Wireless 911 Board created under Article 2 of Chapter 62A of the General Statutes, other than a member appointed by the General Assembly upon the recommendation of the Speaker of the House of Representatives to represent CMRS providers, serve as 11 of the initial members of the 911 Board created under Article 3 of Chapter 62A of the General Statutes, as enacted by Section 1 of this act, without reappointment by the Governor or the General Assembly. The State Chief Information Officer must designate which of the initial members who transfer to the 911 Board from the Wireless 911 Board serve four-year terms and which serve six-year terms so that the terms of half the members of the 911 Board, other than the State Chief Information Officer, will expire every two years.

The following membership positions for the 911 Board have no counterparts on the Wireless 911 Board and must be appointed in accordance with Article 3 of Chapter 62A of the General Statutes:

(1) Of the appointments by the Governor, an individual representing a VoIP provider and an individual representing the North Carolina chapter of the National Emergency Number Association (NENA).

SECTION 4. G.S. 62-157 reads as rewritten:

"§ **62-157. Telecommunications relay service.**

(a) Finding. – The General Assembly finds and declares that it is in the public interest to provide access to public telecommunications services for hearing impaired or speech impaired persons, including those who also have vision impairment, and that a statewide telecommunications relay service for telephone service should be established.

(a1) Definitions. – For purposes of this section:

(1) "CMRS" is as defined in G.S. ~~62A-21.~~62A-40.

(2) "CMRS connection" is as defined in G.S. ~~62A-21.~~62A-40.

(3) "CMRS provider" is as defined in G.S. ~~62A-21.~~62A-40.

(4) "Exchange access facility" means the access from a particular telephone subscriber's premises to the telephone system of a local exchange telephone company, and includes local exchange company-provided access lines, private branch exchange trunks, and centrex network access registers, all as defined by tariffs of telephone companies as approved by the Commission.

(5) "Local service provider" means a local exchange company, competing local provider, or telephone membership corporation.

(b) Authority to Require Surcharge. – The Commission shall require local service providers to impose a monthly surcharge on all residential and business local exchange access facilities to fund a statewide telecommunications relay service by which hearing impaired or speech impaired persons, including those who also have vision impairment, may communicate with others by telephone. This surcharge, however, may not be imposed on participants in the Subscriber Line Charge Waiver Program or the Link-up Carolina Program established by the Commission. This surcharge, and long distance revenues collected under subsection (f) of this section, are not includable in gross receipts subject to the franchise tax levied under G.S. 105-120 or the sales tax levied under G.S. 105-164.4.

(c) Specification of Surcharge. – The Department of Health and Human Services shall initiate a telecommunications relay service by filing a petition with the Commission requesting the service and detailing initial projected required funding. The Commission shall, after giving notice and an opportunity to be heard to other interested parties, set the initial monthly surcharge based upon the amount of funding necessary to implement and operate the service, including a reasonable margin for a reserve. The surcharge shall be identified on customer bills as a special surcharge for provision of a telecommunications relay service for hearing impaired and speech impaired persons. The Commission may, upon petition of any interested party, and after giving notice and an opportunity to be heard to other interested parties, revise the surcharge from time to time if the funding requirements change. In no event shall the surcharge exceed twenty-five cents (25¢) per month for each exchange access facility.

(d) Funds to Be Deposited in Special Account. – The local service providers shall collect the surcharge from their customers and deposit the moneys collected with the State Treasurer, who shall maintain the funds in an interest-bearing, nonreverting account. After consulting with the State Treasurer, the Commission shall direct how and when the local service providers shall deposit these moneys. Revenues from this fund shall be available only to the Department of Health and Human Services to administer the statewide telecommunications relay service program, including its establishment, operation, and promotion. The Commission may allow the Department of Health and Human Services to use up to four cents (4¢) per access line per month of the surcharge for the purpose of providing telecommunications devices for hearing impaired or speech impaired persons, including those who also have vision impairment, through a distribution program. The Commission shall prepare such guidelines for the distribution program as it deems appropriate and in the public interest. Both the Commission and the Public Staff may audit all aspects of the telecommunications relay service program, including the distribution programs, as they do with any public utility subject to the

provisions of this Chapter. Equipment paid for with surcharge revenues, as allowed by the Commission, may be distributed only by the Department of Health and Human Services.

(e) Administration of Service. – The Department of Health and Human Services shall administer the statewide telecommunications relay service program, including its establishment, operation, and promotion. The Department may contract out the provision of this service for four-year periods to one or more service providers, using the provisions of G.S. 143-129.

(f) Charge to Users. – The users of the telecommunications relay service shall be charged their approved long distance and local rates for telephone services (including the surcharge required by this section), but no additional charges may be imposed for the use of the relay service. The local service providers shall collect revenues from the users of the relay service for long distance services provided through the relay service. These revenues shall be deposited in the special fund established in subsection (d) of this section in a manner determined by the Commission after consulting with the State Treasurer. Local service providers shall be compensated for collection, inquiry, and other administrative services provided by said companies, subject to the approval of the Commission.

(g) Reporting Requirement. – The Commission shall, after consulting with the Department of Health and Human Services, develop a format and filing schedule for a comprehensive financial and operational report on the telecommunications relay service program. The Department of Health and Human Services shall thereafter prepare and file these reports as required by the Commission with the Commission and the Public Staff. The Department shall also be required to report to the Revenue Laws Study Committee.

(h) Power to Regulate. – The Commission shall have the same power to regulate the operation of the telecommunications relay service program as it has to regulate any public utility subject to the provisions of this Chapter.

(i) Wireless Surcharge. – A CMRS provider, as part of its monthly billing process, must collect the same surcharge imposed on each exchange access facility under this section for each CMRS connection. A CMRS provider may deduct a one percent (1%) administrative fee from the total amount of surcharge collected. A CMRS provider shall remit the surcharge collected, less the administrative fee, to the ~~Wireless~~ 911 Board in the same manner and with the same frequency as the local service providers remit the surcharge to the State Treasurer. The ~~Wireless~~ 911 Board shall remit the funds collected from the surcharge to the special account created under subsection (d) of this section."

SECTION 5. G.S. 105-130.5(b)(17) reads as rewritten:

"(17) To the extent included in federal taxable income, 911 charges imposed under G.S. 62A-43 and remitted to the 911 Fund under that section.~~the following:~~

911 Fund under ~~G.S. 62A-7 or the Wireless Fund under G.S. 62A-24.~~that section."

SECTION 7.(a) The Joint Legislative Utility Review Committee is directed to determine the best method for collecting the service charge imposed by G.S. 62A-43 from prepaid telephone wireless subscribers. The Committee is further directed to submit a final report of its findings and recommendations to the 2007 General Assembly, Regular Session 2008.

SECTION 7.(b) Notwithstanding G.S. 62A-23, the charge imposed by that section does not apply to prepaid wireless telephone service effective August 1, 2007.

SECTION 7.(c) Notwithstanding G.S. 62A-43, the charge imposed by that section does not apply to prepaid wireless telephone service for the 2008 calendar year.

SECTION 8. Sections 1 through 6 of this act become effective January 1, 2008. Section 1(b) of this act applies to offenses committed on or after January 1, 2008. The remaining sections of this act are effective when they become law.

SECTION 1. Article 5 of Chapter 7A of the General Statutes is amended by adding a new section to read:

"**§ 7A-38.3D. Mediation in matters within the jurisdiction of the district criminal courts.**

(a) Purpose. – The General Assembly finds that it is in the public interest to promote high standards for persons who mediate matters in district criminal court. To that end, a program of certification for these mediators shall be established in judicial districts designated by the Dispute Resolution Commission and the Director of the Administrative Office of the Courts and in which the chief district court judge, the district attorney, and the community mediation center agree to participate. This section does not supersede G.S. 7A-38.5.

(b) Enabling Authority. – In each district, the court may encourage mediation for any criminal district court action pending in the district, and the district attorney may delay prosecution of those actions so that the mediation may take place.

(c) Program Administration. – A community mediation center established under G.S. 7A-38.5 and located in a district designated under subsection (a) of this section shall assist the court in administering a program providing mediation services in district criminal court cases. A community mediation center may assist in the screening and scheduling of cases for mediation and provide certified volunteer or staff mediators to conduct district criminal court mediations.

(d) Rules of Procedure. – The Supreme Court shall adopt rules to implement this section. Each mediation shall be conducted pursuant to this section and the Supreme Court Rules as adopted.

(e) Mediator Authority. – In the mediator's discretion, any person whose presence and participation may assist in resolving the dispute or addressing any issues underlying the mediation may be permitted to attend and participate. The mediator shall have discretion to exclude any individual who seeks to attend the mediation but whose participation the mediator deems would be counterproductive. Lawyers for the participants may attend and participate in the mediation.

(f) Mediator Qualification. – The Supreme Court shall establish requirements for the certification or qualification of mediators serving under this section. The Court shall also establish requirements for the qualification of training programs and trainers, including community mediation center staff, that train these mediators. The Court shall also adopt rules regulating the conduct of these mediators and trainers.

(g) Oversight and Evaluation. – The Supreme Court may require community mediation centers and their volunteer or staff mediators to collect and report caseload statistics, referral sources, fees collected, and any other information deemed essential for program oversight and evaluation purposes.

(h) Immunity. – A mediator under this section has judicial immunity in the same manner and to the same extent as a judge of the General Court of Justice, except that a mediator may be disciplined in accordance with procedures adopted by the Supreme Court. A community mediation center and its staff involved in supplying volunteer or staff mediators or other personnel to schedule cases or perform other duties under this section are immune from suit in any civil action, except in any case of willful or wanton misconduct.

(i) Confidentiality. – Any memorandum, work note, or product of the mediator and any case file maintained by a community mediation center acting under this section and any mediator certification application are confidential.

(j) Inadmissibility of Negotiations. – Evidence of any statement made and conduct occurring during a mediation under this section shall not be subject to discovery and shall be inadmissible in any proceeding in the action from which the mediation arises. Any participant in a mediation conducted under this section, including the mediator, may report to law enforcement personnel any statement made or conduct occurring during the mediation process that threatens or threatened the safety of any person or property. A mediator has discretion to warn a person whose safety or property has been threatened. No evidence otherwise discoverable is inadmissible for the reason it is presented or discussed in a mediated settlement conference or other settlement proceeding under this section.

(k) Testimony. – No mediator or neutral observer present at the mediation shall be compelled to testify or produce evidence concerning statements made and conduct occurring in or related to a mediation conducted under this section in any proceeding in the same action for any purpose, except in:

(l) Written Agreements. – Any agreement reached in mediation shall be reduced to writing and signed by the parties. A non-attorney mediator may assist parties in reducing the agreement to writing.

AN ACT TO REPEAL THE STATUTORY RULE AGAINST PERPETUITIES AS IT APPLIES TO TRUSTS CREATED OR ADMINISTERED IN THIS STATE AND CODIFY THE LAW REGARDING THE POWER OF ALIENATION FOR TRUSTS CREATED IN NORTH CAROLINA.

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 41 of the General Statutes is amended by adding a new section to read:

"**§ 41-23. Perpetuities and suspension of power of alienation for trusts.**

(a) A trust is void if it suspends the power of alienation of trust property, as that term is defined in G.S. 36C-1-103, for longer than the permissible period. The permissible period is no later than 21 years after the death of an individual then alive or lives then in being plus a period of 21 years.

(b) If the settlor of a revocable trust, as those terms are defined in G.S. 36C-1-103, has an unlimited power to revoke or amend the trust, the permissible period under subsection (a) of this section is computed from the termination of that power.

(c) If a trust is created by exercise of a power of appointment, the permissible period under subsection (a) of this section is computed from the time the power is exercised if the power is a general power even if the power is only exercisable as a testamentary power. In the case of other powers, the permissible period is computed from the time the power is created, but facts at the time the power is exercised shall be considered in determining whether the power of alienation is suspended beyond a life or lives in being at the time of the creation of the power plus 21 years.

(d) The power of alienation is suspended only when there are no persons in being who, alone or in combination with others, can convey an absolute fee in possession of land, or full ownership of personal property.

(e) Notwithstanding subsection (a) of this section, there is no suspension of the power of alienability by a trust or by equitable interests under a trust if the trustee has the power to sell, either expressed or implied, or if there exists an unlimited power to terminate the trust in one or more persons in being.

(f) This section does not apply to a transfer in trust (i) for charitable purposes, as defined in G.S. 36C-4-405; (ii) to a literary or charitable organization; (iii) to a veterans' memorial organization; (iv) to a cemetery corporation, society, or association; or (v) as part of a pension, retirement, insurance, savings, stock bonus, profit sharing, death, disability, or similar plan established by an employer for the benefit of some or all of its employees for the purpose of accumulating and distributing to such employees the earnings or the principal, or both earnings and principal, of the trust.

(g) This section does not apply to a future interest other than a future interest in trust and, other than as set forth in this section, this section does not modify the common law of the State regarding the power of alienation in this State.

(h) The provisions of G.S. 41-15 and the common law rule against perpetuities do not apply to trusts created or administered in this State."

SECTION 2. G.S. 41-15 reads as rewritten:

"§ **41-15. Statutory rule against perpetuities.**

(a) ~~A~~ Except as otherwise provided in G.S. 41-23, a nonvested property interest is invalid unless:

(1) When the interest is created, it is certain to vest or terminate no later than 21 years after the death of an individual then alive; or

(2) The interest either vests or terminates within 90 years after its creation.

(b) A general power of appointment not presently exercisable because of a condition precedent is invalid unless:

(1) When the power is created, the condition precedent is certain to be satisfied or become impossible to satisfy no later than 21 years after the death of an individual then alive; or

(2) The condition precedent either is satisfied or becomes impossible to satisfy within 90 years after its creation.

(c) A nongeneral power of appointment or a general testamentary power of appointment is invalid unless:

(1) When the power is created, it is certain to be irrevocably exercised or otherwise to terminate no later than 21 years after the death of an individual then alive; or

(2) The power is irrevocably exercised or otherwise terminates within 90 years after its creation.

(d) In determining whether a nonvested property interest or a power of appointment is valid under subdivision (a)(1), (b)(1), or (c)(1) of this section, the

possibility that a child will be born to an individual after the individual's death is disregarded.

(e) If, in measuring a period from the creation of a ~~trust or other~~ property arrangement, language in a governing instrument:

(1) Seeks to disallow the vesting or termination of any interest ~~or trust~~ beyond,

(2) Seeks to postpone the vesting or termination of any interest ~~or trust~~ until, or

(3) Seeks to operate in effect in any similar fashion upon,

the later of (i) the expiration of a period of time not exceeding 21 years after the death of the survivor of specified lives in being at the creation of the ~~trust or other~~ property arrangement or (ii) the expiration of a period of time that exceeds or might exceed 21 years after the death of the survivor of lives in being at the creation of the ~~trust or other~~ property arrangement, that language is inoperative to the extent it produces a period of time that exceeds 21 years after the death of the survivor of the specified lives."

SECTION 3. This act is effective when it becomes law and applies to all trusts created before, on, or after that date.

In the General Assembly read three times and ratified this the 1st day of August, 2007.

Became law upon approval of the Governor at 7:31 p.m. on the 19th day of August, 2007.

Any statement required to be filed under this Article shall be signed and certified as true and correct by the individual, media, candidate, treasurer or others required to file it, and shall be certified as true and correct to the best of the knowledge of the individual, media, candidate, treasurer or others filing the statement; provided further that the candidate shall certify as true and correct to the best of his knowledge the organizational report and appointment of treasurer filed for the candidate or the candidate's principal campaign committee. ~~Any~~ A certification under this Article shall be treated as under oath, and any person making a certification under this Article knowing the information to be untrue ~~may be prosecuted for perjury under G.S. 14-209.~~ is guilty of a Class I felony."

SECTION 1.(b) G.S. 163-278.27 is amended by adding a new subsection to read:

"(a1) A violation of G.S. 278.32 by making a certification knowing the information to be untrue is a Class I felony."

SECTION 1.(c) This act becomes effective December 1, 2007, and applies to offenses committed on or after that date.

SECTION 2.(a) G.S. 163-278.34(a) reads as rewritten:

"(a) Civil Penalties for Late Filing. – Except as provided in G.S. 163-278.9 and G.S. 163-278.9A, all reports, statements or other documents required by this Article to be filed with the Board shall be filed either by manual delivery to or by mail addressed to the Board. If the form is filed by mail, no civil late penalty shall be assessed for any day after the date of postmark. No civil late penalty shall be assessed for any day when the Board office at which the report is due is closed. The State Board shall immediately notify, or cause to be notified, late filers, from which reports are apparently due, by mail, of the penalties under this section. The State Board of Elections may waive a late penalty if it determines there is good cause for the waiver.

If the Board determines by clear and convincing evidence that the late filing constitutes a willful attempt to conceal contributions or expenditures, the Board may assess a civil penalty in an amount to be determined by that Board, plus the costs of investigation, assessment, and collection. The civil penalty shall not exceed three times the amount of the contributions and expenditures willfully attempted to be concealed."

SECTION 2.(b) This section is effective when this act becomes law and applies to all offenses committed on or after that date.

SECTION 3. G.S. 163-278.6(14) reads as rewritten:

c. Is created by a corporation, business entity, insurance company, labor union, or professional association pursuant to G.S. 163-278.19(b); or

d. Has as a major purpose to support or oppose the nomination or election of one or more clearly identified candidates.

Supporting or opposing the election of clearly identified candidates includes supporting or opposing the candidates of a clearly identified political party.

~~An entity is rebuttably presumed to have as a major purpose to support or oppose the nomination or election of one or more clearly identified candidates if it contributes or expends or both contributes and expends during an election cycle more than three thousand dollars ($3,000). The presumption may be rebutted by showing that the contributions and expenditures giving rise to the presumption were not a major part of activities of the organization during the election cycle. Contributions to referendum committees and expenditures to support or oppose ballot issues shall not be facts considered to give rise to the presumption or otherwise be used in determining whether an entity is a political committee.~~

If the entity qualifies as a "political committee" under sub-subdivision a., b., c., or d. of this subdivision, it continues to be a political committee if it receives contributions or makes expenditures or maintains assets or liabilities. A political committee ceases to exist

when it winds up its operations, disposes of its assets, and files its final report.

Special definitions of "political action committee" and "candidate campaign committee" that apply only in Part 1A of this Article are set forth in G.S. 163-278.38Z."

SECTION 4.(a) G.S. 163-278.69(a) reads as rewritten:

The Board shall distribute the Guide to as many voting-age individuals in the State as practical, through a mailing to all residences or other means it deems effective. The State Board of Elections shall maintain a list of the addresses from which mailed Voter Guides are returned as undeliverable. That list shall be available for public inspection. The distribution shall occur no more than ~~14~~28 days nor fewer than seven days before the one-stop voting period provided in G.S. 163-227.2 for the primary and no more than ~~14~~28 days nor fewer than seven days before the one-stop voting period provided in G.S. 163-227.2 for the general election."

SECTION 6.(a) G.S. 163-132.1B reads as rewritten:

"§ **163-132.1B. Participation in 2010 Census Redistricting Data Program of the United States Bureau of the Census.**

(a) Purpose. – The State of North Carolina shall participate in the 2010 Census Redistricting Data Program, conducted pursuant to P.L. 94-171, of the United States Bureau of the Census, so that the State will receive 2010 Census data by voting precinct and be able to revise districts at all levels without splitting precincts and in compliance with the United States and North Carolina Constitutions and the Voting Rights Act of 1965, as amended.

(a1) Reporting of Voting Tabulation Districts. – The Executive Director of the State Board of Elections shall report to the Bureau of the Census as this State's voting tabulation districts the voting precincts as of January 1, 2008. Before making that report, the Executive Director shall consult with the Legislative Services Office concerning the accuracy of the voting precincts to be reported. The Legislative Services Office shall

submit to the Executive Director its opinion as to whether the description of the precincts to be reported to the Bureau of the Census is accurate. The Executive Director shall submit the report to the Bureau of the Census in time to comply with the deadlines of that Bureau for the 2010 Census Redistricting Data Program.

(a2) Reporting From Unchanged Voting Tabulation Districts. – After January 1, 2008, every county board of elections shall report all election returns by voting tabulation districts as required by G.S. 163-132.5G. For purposes of this section and G.S. 163-132.5G, "voting tabulation districts" shall be the precincts as of January 1, 2008. No county board of elections may alter the voting tabulation districts reported to the Census Bureau by the Executive Director of the State Board of Elections. The county board of elections may change the boundaries of the county's precincts so that those precincts differ from the county's voting tabulation districts, but only to the extent permitted by G.S. 163-132.3.

(b) Additional Rules. – In addition to directives promulgated by the Executive Director of the State Board of Elections under G.S. 163-132.4, the Legislative Services Commission may promulgate rules to implement this section."

SECTION 6.(b) G.S. 163-132.3 reads as rewritten:

"§ **163-132.3. Alterations to approved precinct boundaries.**

(a) No county board of elections may change any precinct boundary ~~except in one of the following ways:~~

~~(1) By dividing an existing precinct into one or more new precincts, without involving other existing precincts. The lines on which the precincts are divided shall follow census blocks established under the latest U.S. Census.~~

~~(2) By combining one or more existing precincts into a new precinct. If one or more precincts are combined into a single precinct, the new precinct shall not be divided until at least four years after the effective date of the combination.~~

~~(3) By moving a precinct boundary that does not follow a census block boundary established under the latest U.S. Census so that that precinct boundary does follow such a census block boundary.~~

unless the Executive Director of the State Board of Elections determines that the county board has a current capability of complying with G.S. 163-132.1B(a2) by reporting all election returns by voting tabulation district as required by G.S. 163-132.5G. If the Executive Director so determines, the county board may make any changes to precinct boundaries, provided that ~~All~~ all proposed new precincts shall consist solely of contiguous territory. The State Board of Elections may set uniform standards for precinct boundaries, which the county boards of elections shall follow. The county board of elections shall report every change in precinct boundary to the Executive Director in a format required by the Executive Director.

~~This section does not prohibit a county from continuing to use precincts that were allowed under the Combined Reporting Unit provisions of G.S. 163-132.1(c)(6).~~

The county boards of elections shall report precinct boundary changes ~~by filing with the Legislative Services Office on current official census maps or on other maps or electronic databases approved by the Executive Director the new boundaries of these precincts.~~ to the Executive Director in the manner the Executive Director directs. ~~The Executive Director may require a county board of elections to file a written description of the boundaries of any precinct or part thereof.~~ No newly created or altered precinct

boundary is effective until approved by the Executive Director of the State Board as being in compliance with this section.

(b) The Executive Director of the State Board of Elections ~~and the Legislative Services Office~~ shall examine the maps of the proposed new or altered precincts and any required written descriptions. ~~After its examination of the maps and their written descriptions, the Legislative Services Office shall submit to the Executive Director of the State Board of Elections its opinion as to whether all of the proposed precinct boundaries are in compliance with subsection (a) of this section, with notations as to where those boundaries do not comply with these standards.~~ If the Executive Director of the State Board determines that all precinct boundaries are in compliance with this section, the Executive Director of the State Board shall approve the maps and written descriptions as filed and these precincts shall be the official precincts.

(c) If the Executive Director of the State Board determines that the proposed precinct boundaries are not in compliance with subsection (a) of this section, the Executive Director shall not approve those precinct boundaries. The Executive Director shall notify the county board of elections of his disapproval specifying the reasons. The county board of elections may then resubmit new precinct maps and written descriptions to cure the reasons for their disapproval.

(d) Repealed by Session Laws 2004-127, s. 1(a), effective August 15, 2004, and applicable to precincts established or changed on or after that date.

~~(e) During the period beginning October 1, 2002, and ending August 15, 2004, no county board of elections may change any precinct boundary. However, a county that has a precinct line that does not follow a 2000 Census Block Boundary may change that precinct line to conform to the way that precinct is shown on the General Assembly's redistricting database, provided the total population of the area moved from one precinct to another is not greater than ten percent (10%) of the total population of either precinct. A county board of elections proposing a change to a precinct during this period shall submit that change to the Legislative Services Office, which shall examine the proposed change and give its opinion of its compliance with this subsection to the Executive Director of the State Board of Elections. If the proposed change is in compliance with this subsection, the Executive Director shall approve it.~~"

SECTION 6.(c) G.S. 163-132.5G reads as rewritten:

"§ **163-132.5G. Voting data maintained by ~~precinct.~~voting tabulation district.**

~~To the extent that it can do so without compromising the secrecy of an individual's ballot, each~~ Each county board of elections shall maintain voting data by ~~precinct~~ voting tabulation district as provided in G.S. 163-132.1B so that ~~precinct~~ voting tabulation district returns for each item on the ballot shall include the votes cast by all residents of the ~~precinct~~ voting tabulation district who ~~voted by provisional ballot and by absentee ballot, both mail and one-stop.~~ voted, regardless of where they voted. The county board shall not be required to report ~~provisional and absentee voting data by precinct~~ returns by voting tabulation district for voters who voted other than at their precinct voting place on election day until 60 days after the election. In reporting returns, the county board shall not compromise the secrecy of an individual's ballot. The 60-day deadline for reporting returns by voting tabulation district does not relieve the county board of the duty to report all returns as soon as practicable after the election according to other categories specified by the State Board of Elections. The State Board of Elections shall adopt rules for the enforcement of this ~~section with the goal that all voting data shall be reported by precinct by the 2006 election.~~section."

SECTION 6.(d) G.S. 163-165.7(a)(3) reads as rewritten:

SECTION 6.(g) This section becomes effective only if any funds necessary to implement it are appropriated.

SECTION 7. Article 14A of Chapter 163 of the General Statutes is amended by adding a new section to read:

"§ **163-165.5B. Ballots may be combined.**

Notwithstanding any other statute or local act, a county board of elections, with the approval of the State Board of Elections, may combine ballot items on the same official ballot."

These petitions must be filed with the State Board of Elections on or before 12:00 noon on the last Friday in June preceding the general election and must be signed by qualified voters of the district equal in number to four percent (4%) of the total number of registered voters in the district as reflected by the voter registration records of the State Board of Elections as of January 1 of the year in which the general election is to be held. Each petition shall be presented to the chairman of the board of elections of the county in which the signatures were obtained. A petition presented to a county board of elections shall contain only names of voters registered in that county who are eligible to vote for that office. SECTION 9.(a) G.S. 163-165.1(e) reads as rewritten:

(1) A current and valid photo identification.

(2) A copy of one of the following documents that shows the name and address of the voter: a current utility bill, bank statement, government check, paycheck, or other government document.

(b) Voting Mail-In Absentee. – An individual who has registered to vote by mail on or after January 1, 2003, and has not previously voted in an election that includes a ballot item for federal office in North Carolina, in order to cast a mail-in absentee vote, shall submit with the mailed-in absentee ballot one of the following:

(1) A copy of a current and valid photo identification.

(2) A copy of one of the following documents that shows the name and address of the voter: a current utility bill, bank statement, government check, paycheck, or other government document.

(b1) The county board of elections shall note the type of identification proof submitted by the voter under the provisions of subsection (a) or (b) of this section and may dispose of the tendered copy of identification proof as soon as the type of proof is noted in the voter registration records.

(b2) Voting When Identification Numbers Do Not Match. – Regardless of whether an individual has registered by mail or by another method, if the individual has provided with the registration form a drivers license number or last four digits of a Social Security number but the computer validation of the number as required by G.S. 163-82.12 did not result in a match, and the number has not been otherwise validated by the board of elections, in the first election in which the individual votes that individual shall submit with the ballot the form of identification described in subsection (a) or subsection (b) of this section, depending upon whether the ballot is voted in person or absentee. If that identification is provided and the board of elections does not determine that the individual is otherwise ineligible to vote a ballot, the failure of identification numbers to match shall not prevent that individual from registering to vote and having that individual's vote counted. If the individual registers and votes under G.S. 163-82.6A, the identification documents required in that section, rather than those described in subsection (a) or (b) of this section, apply.

(c) The Right to Vote Provisionally. – If an individual is required under subsection ~~(a) or (b)~~ (a), (b), or (b2) of this section to present identification in order to vote, but that individual does not present the required identification, that individual may vote a provisional official ballot. (d) Exemptions. – This section does not apply to any of the following:

If any individual's number does not match, the individual shall provide identification as required in subsection (b2) of this section in the first election in which the individual votes.

(3) An individual who is entitled to vote by absentee ballot under the Uniformed and Overseas Citizens Absentee Voting Act.

(7) Enabling the statewide system to interact electronically with the Division of Motor Vehicles system to validate identification information.

(8) Enabling the Division of Motor Vehicles to provide real-time interface for the validation of the drivers license number and last four digits of the social security number.

(8b) Notifying voter-registration applicants whose drivers license or last four digits of social security number does not result in a validation, attempting to resolve the discrepancy, initiating investigations under G.S. 163-33(3) or challenges under Article 8 of this Chapter where warranted, and notifying any voters of the requirement under G.S. 163-166.2(b2) to present identification when voting.

(9) Enabling the statewide system to assign a unique identifier to each legally registered voter in the State.

(10) Enabling the State Board of Elections to assist the Division of Motor Vehicles in providing to the jury commission of each county, as required by G.S. 20-43.4, a list of all registered voters in the county and all persons in the county with drivers license records.

These guidelines shall not be considered to be rules subject to Article 2A of Chapter 150B of the General Statutes. However, the State Board shall publish in the North Carolina Register the guidelines and any changes to them after adoption, with that publication noted as information helpful to the public under G.S. 150B-21.17(a)(6). Copies of those guidelines shall be made available to the public upon request or otherwise by the State Board."

SECTION 22. G.S. 163-45 reads as rewritten:

"§ **163-45. Observers; appointment.**

The chair of each political party in the county shall have the right to designate two observers to attend each voting place at each primary and election and such observers may, at the option of the designating party chair, be relieved during the day of the primary or election after serving no less than four hours and provided the list required by this section to be filed by each chair contains the names of all persons authorized to represent such chair's political party. Not more than two observers from the same political party shall be permitted in the voting enclosure at any time. This right shall not

extend to the chair of a political party during a primary unless that party is participating in the primary. In any election in which an unaffiliated candidate is named on the ballot, the candidate or the candidate's campaign manager shall have the right to appoint two observers for each voting place consistent with the provisions specified herein. Persons appointed as observers must be registered voters of the county for which appointed and must have good moral character. No person who is a candidate on the ballot in a primary or election may serve as an observer or runner in that primary or election. Observers shall take no oath of office.

Individuals authorized to appoint observers must submit in writing to the chief judge of each precinct a signed list of the observers appointed for that precinct. Individuals authorized to appoint observers must, prior to 10:00 A.M. on the fifth day prior to any primary or general election, submit in writing to the chair of the county board of elections two signed copies of a list of observers appointed by them, designating the precinct for which each observer is appointed. Before the opening of the voting place on the day of a primary or general election, the chair shall deliver one copy of the list to the chief judge for each affected precinct. The chair shall retain the other copy. The chair, or the chief judge and judges for each affected precinct, may for good cause reject any appointee and require that another be appointed. The names of any persons appointed in place of those persons rejected shall be furnished in writing to the chief judge of each affected precinct no later than the time for opening the voting place on the day of any primary or general election, either by the chair of the county board of elections or the person making the substitute appointment.

If party chairs appoint observers at one-stop sites under G.S. 163-227.2, those party chairs shall provide a list of the observers appointed before 10:00 A.M. on the fifth day before the observer is to observe.

An observer shall do no electioneering at the voting place, and shall in no manner impede the voting process or interfere or communicate with or observe any voter in casting a ballot, but, subject to these restrictions, the chief judge and judges of elections shall permit the observer to make such observation and take such notes as the observer may desire.

Whether or not the observer attends to the polls for the requisite time provided by this section, each observer shall be entitled to obtain at times specified by the State Board of Elections, but not less than three times during election day with the spacing not less than one hour apart, a list of the persons who have voted in the precinct so far in that election day. Counties that use an "authorization to vote document" instead of poll books may comply with the requirement in the previous sentence by permitting each observer to inspect election records so that the observer may create a list of persons who have voted in the precinct so far that election day; each observer shall be entitled to make the inspection at times specified by the State Board of Elections, but not less than three times during election day with the spacing not less than one hour apart.

Instead of having an observer receive the voting list, the county party chair may send a runner to do ~~so.~~ so, even if an observer has not been appointed for that precinct. The runner may be the precinct party chair or any person named by the county party chair. Each county party chair using runners in an election shall provide to the county board of elections before 10:00 A.M. on the fifth day before election day a list of the runners to be used. That party chair must notify the chair of the county board of elections or the board chair's designee of the names of all runners to be used in each precinct before the runner goes to the precinct. The runner may receive a voter list from the precinct on the same schedule as an observer. Whether obtained by observer or runner, each party is

entitled to only one voter list at each of the scheduled times. No runner may enter the voting enclosure except when necessary to announce that runner's presence and to receive the list. The runner must leave immediately after being provided with the list."

SECTION 23. G.S. 163-166.3 reads as rewritten:

"§ **163-166.3. Limited access to the voting enclosure.**

(a) Persons Who May Enter Voting Enclosure. – During the time allowed for voting in the voting place, only the following persons may enter the voting enclosure:

(1) An election official.

(2) An observer appointed pursuant to G.S. 163-45.

(2a) A runner appointed pursuant to G.S. 163-45, but only to the extent necessary to announce that runner's presence and to receive the voter list as provided in G.S. 163-45.

(3) A person seeking to vote in that voting place on that day but only while in the process of voting or seeking to vote.

(4) A voter in that precinct while entering or explaining a challenge pursuant to G.S. 163-87 or G.S. 163-88.

(5) A person authorized under G.S. 163-166.8 to assist a voter but, except as provided in subdivision (6) of this section, only while assisting that voter.

(6) Minor children of the voter under the age of 18, or minor children under the age of 18 in the care of the voter, but only while accompanying the voter and while under the control of the voter.

(7) Persons conducting or participating in a simulated election within the voting place or voting enclosure, if that simulated election is approved by the county board of elections.

(8) Any other person determined by election officials to have an urgent need to enter the voting enclosure but only to the extent necessary to address that need.

(b) Photographing Voters Prohibited. – No person shall photograph, videotape, or otherwise record the image of any voter within the voting enclosure, except with the permission of both the voter and the chief judge of the precinct. If the voter is a candidate, only the permission of the voter is required. This subsection shall also apply to one-stop sites under G.S. 163-227.2. This subsection does not apply to cameras used as a regular part of the security of the facility that is a voting place or one-stop site.

(c) Photographing Voted Ballot Prohibited. – No person shall photograph, videotape, or otherwise record the image of a voted official ballot for any purpose not otherwise permitted under law."

SECTION 24.(a) G.S. 163-165.3 reads as rewritten:

"§ **163-165.3. Responsibilities for preparing official ballots.**

(a) State Board ~~to Certify Official Ballots and Instructions to Voters.~~ Responsibilities. – The State Board of Elections shall certify the official ballots and voter instructions to be used in every election that is subject to this Article. In conducting its certification, the State Board shall adhere to the following:

(1) No later than January 31 of every calendar year, the State Board shall establish a schedule for the certification of all official ballots and instructions during that year. The schedule shall include a time for county boards of elections to submit their official ballots and instructions to the State Board for certification and times for the State Board to complete the certification.

(2) The State Board of Elections shall compose model ballot instructions, which county boards of elections may amend subject to approval by the State Board as part of the certification process. The State Board of Elections may permit a county board of elections to place instructions elsewhere than on the official ballot itself, where placing them on the official ballot would be impractical.

(3) With regard only to multicounty ballot items on the official ballot, the State Board shall certify the accuracy of the content on the official ballot.

(4) With regard to the entire official ballot, the State Board shall certify that the content and arrangement of the official ballot are in substantial compliance with the provisions of this Article and standards adopted by the State Board.

(5) The State Board shall proofread the official ballot of every county, if practical, prior to final production.

(6) The State Board is not required to certify or review every official ballot style in the county but may require county boards to submit and may review a composite official ballot showing races that will appear in every district in the county.

The State Board shall be responsible for all ballot coding and shall contract with a qualified vendor or supervise trained election staff to produce the data necessary for equipment programming.

(b) County Board ~~to Prepare and Produce Official Ballots and Instructions.~~ Responsibilities. – Each county board of elections shall prepare and produce official ballots for all elections in that county. The county board of elections shall submit the format of each official ballot and set of instructions to the State Board of Elections for review and certification in accordance with the schedule established by the State Board. The county board of elections shall follow the directions of the State Board in placing candidates, referenda, and other material on official ballots and in placing instructions.

(c) Late Changes in Ballots. – The State Board shall promulgate rules for late changes in ballots. The rules shall provide for the reprinting, where practical, of official ballots as a result of replacement candidates to fill vacancies in accordance with G.S. 163-114 or other late changes. If an official ballot is not reprinted, a vote for a candidate who has been replaced in accordance with G.S. 163-114 will count for the replacement candidate.

(d) Special Ballots. – The State Board of Elections, with the approval of a county board of elections, may produce special official ballots, such as those for disabled voters, where production by the State Board would be more practical than production by the county board."

SECTION 24.(b) This section becomes effective only if any funds necessary to implement it are appropriated.

SECTION 25. G.S. 163-165.9 reads as rewritten:

"§ **163-165.9. Voting systems: powers and duties of county board of elections.**

(1) The county board of elections shall comply with all specifications of its voting system vendor for ballot printers. The county board of elections is authorized to contract with noncertified ballot printing vendors, so long as the noncertified ballot printing vendor meets all specifications and all quality assurance requirements as set by the State Board of Elections.

(2) The county board of elections shall maintain software license and maintenance agreements necessary to maintain the warranty of its voting system."

SECTION 26.(a) Article 7A of Chapter 163 of the General Statutes is amended by adding a new section to read:

"**§ 163-82.20A. Voter registration upon restoration of citizenship.**

The State Board of Elections, the Department of Correction, and the Administrative Office of the Courts shall jointly develop and implement educational programs and procedures for persons to apply to register to vote at the time they are restored to citizenship and all filings required have been completed under Chapter 13 of the General Statutes. Those procedures shall be designed to do both of the following:

(1) Inform the person that the restoration of rights removes the person's disqualification from voting, but that in order to vote the person must register to vote.

(2) Provide an opportunity to that person to register to vote.

At a minimum, the program shall include a written notice to the person whose citizenship has been restored, informing that person that the person may now register to vote, with a voter registration form enclosed with the notice."

SECTION 26.(b) This section becomes effective October 1, 2007.

SECTION 27.(a) Chapter 128 of the General Statutes is amended by adding a new section to read:

"**§ 128-7.2. Qualifications for appointment to fill vacancy in elective office.**

This section is intended to implement the provisions of Section 8 of Article VI of the Constitution."

SECTION 27.(b) G.S. 163-11 is amended by adding a new subsection to read:

This section is intended to implement the provisions of Section 8 of Article VI of the Constitution."

SECTION 27.(c) This section is effective when it becomes law and applies only to appointments made on or after that date.

SECTION 28. G.S. 163-59 reads as rewritten:

At the request of the Board of Governors of The University of North Carolina and upon determining that it is in the best interest of the State to do so, the Director of the Budget may authorize an increase or decrease in the cost of, or a change in the method of, funding the projects authorized by this act. In determining whether to authorize a change in cost or funding, the Director of the Budget may consult with the Joint Legislative Commission on Governmental Operations.

SECTION 4. Pursuant to G.S. 116D-26, the Board of Governors may issue, subject to the approval of the Director of the Budget, at one time or from time to time, special obligation bonds of the Board of Governors for the purpose of paying all or any part of the cost of acquiring, constructing, or providing for the projects authorized by Section 2 and Section 7 of this act. The maximum principal amount of bonds to be

issued shall not exceed the specified project costs in Section 2 and Section 7 of this act plus five percent (5%) of such amount to pay issuance expenses, fund reserve funds, pay capitalized interest and pay other related additional costs, plus any increase in the specific project costs authorized by the Director of the Budget pursuant to Section 3 of this act.

(2) A summary of expenditures to date by funding source and of planned expenditures by funding source.

(3) A summary of issued debt and planned issuances.

PART II. REVISE UNIVERSITY GENERAL OBLIGATION INDEBTEDNESS

SECTION 8. Pursuant to Section 2(b) of S.L. 2000-3, the General Assembly finds that it is in the best interest of the State to respond to current educational and research program requirements at Elizabeth City State University by (i) changing the scope of "Mitchell-Lewis Residence Hall – Replacement" to a comprehensive renovation project and by (ii) reducing the scope of the "Land Acquisition" project and transferring unused funds to "Lane Hall Classroom Building – Comprehensive Renovation" and "Electrical Distribution System Upgrade" and "Campus Infrastructure Improvements." Section 2(a) of S.L. 2000-3 is therefore amended in the portion under Elizabeth City State University by:

(1) Renaming "Mitchell-Lewis Residence Hall – Replacement" to read "Mitchell-Lewis Residence Hall – Comprehensive Renovation," and

(2) Reducing the allocation to "Land Acquisition" by six hundred fifty thousand dollars ($650,000), and

AN ACT TO MODIFY THE PROJECT DEVELOPMENT FINANCING ACT.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 159-103(a) reads as rewritten:

"(a) Each unit of local government may issue project development financing debt instruments pursuant to this Article and use the proceeds for one or more of the purposes for which ~~the~~any unit may issue general obligation bonds pursuant to the following subdivisions of G.S. 159-48: (b)(1), (3), (7), (11), (12), (16), (17), (19), (21), (23), (24), or (25), ~~(c)~~(4a) or (6), (c)(1), (4), (4a), or (6), or (d)(3), (4), (5), (6) or ~~(7).~~(7), or (b)(13) excluding stadiums, arenas, golf courses, swimming pools, wading pools, or marinas. In addition, the proceeds may be used for any service or facility authorized by G.S. 160A-536 ~~and~~ to be provided in a municipal service ~~district.~~district, but no such district need be created.

For the purpose of this Article, the term "capital costs" as defined in G.S. 159-48(h) also includes (i) interest on the debt instruments being issued or on notes issued in anticipation of the instruments during construction and for a period not exceeding seven

years after the estimated date of completion of construction and (ii) the establishment of debt service reserves and any other reserves reasonably required by the financing documents. The proceeds of the debt instruments may be used either in a development financing district established pursuant to G.S. 160A-515.1 or G.S. 158-7.3 or, if the use directly benefits private development forecast by the development financing plan for the district, outside the development financing district. The proceeds may be used only for projects that enable, facilitate, or benefit private development within the development financing district, the revenue increment of which is pledged as security for the debt instruments. This subsection does not prohibit the use of proceeds to defray the cost of providing water and sewer utilities to a private development in a project development financing district."

SECTION 2. G.S. 159-107(b) reads as rewritten:

"(b) Adjustments to the Base Valuation. – During the lifetime of the development financing district, the base valuation shall be adjusted as follows:

(1) If the unit amends its development financing plan, pursuant to G.S. 160A-515.1 or G.S. 158-7.3, to remove property from the development financing district, on the succeeding January 1, that property shall be removed from the district and the base valuation reduced accordingly.

(2) If the unit amends its development financing plan, pursuant to G.S. 160A-515.1 or G.S. 158-7.3, to expand the district, the new property shall be added to the district immediately. The base valuation of the district shall be increased by the assessed value of the taxable property situated in the added territory on the January 1 immediately preceding the effective date of the district.

~~(3) If, at the time of revaluation pursuant to G.S. 105-286 of property in the county in which the district is located, it appears that, based on the schedule of values, standards, and rules approved by the board of county commissioners pursuant to G.S. 105-317, the property values of the district as they existed on the January 1 immediately preceding the effective date of the district would be increased because of the revaluation, then the base valuation shall be increased accordingly.~~

Each time the base valuation is adjusted, the tax assessor shall immediately certify the new base valuation to: (i) the issuing unit; (ii) the county if the issuing unit is not the county; and (iii) any special district, as defined in G.S. 159-7, within which the development financing district is located."

Industrial per account	$500.00	$1,000.00	$1,000.00

(5) The Commission shall adopt rules to establish a procedure for the annual assessment of the per-account charges set out in this subsection to an electric public utility's customers to allow for timely recovery of all reasonable and prudent costs of compliance with the requirements of subsections (b), (c), (d), (e), and (f) of this section and to fund research as provided in subdivision (1) of this subsection. The Commission shall ensure that the costs to be recovered from individual customers on a per-account basis pursuant to subdivisions (2) and (3) of this subsection are in the same proportion as the per-account annual charges for each customer class set out in subdivision (4) of this subsection.

(i) Adoption of Rules. – The Commission shall adopt rules to implement the provisions of this section. In developing rules, the Commission shall:

(1) Provide for the monitoring of compliance with and enforcement of the requirements of this section.

The procedure adopted pursuant to this subdivision shall include a requirement that the electric power supplier demonstrate that it made a reasonable effort to meet the requirements set out in this section.

(3) Ensure that energy credited toward compliance with the provisions of this section not be credited toward any other purpose, including another renewable energy portfolio standard or voluntary renewable energy purchase program in this State or any other state.

(4) Establish standards for interconnection of renewable energy facilities and other nonutility-owned generation with a generation capacity of 10 megawatts or less to an electric public utility's distribution system; provided, however, that the Commission shall adopt, if appropriate, federal interconnection standards.

(5) Ensure that the owner and operator of each renewable energy facility that delivers electric power to an electric power supplier is in substantial compliance with all federal and state laws, regulations, and rules for the protection of the environment and conservation of natural resources.

(6) Consider whether it is in the public interest to adopt rules for electric public utilities for net metering of renewable energy facilities with a generation capacity of one megawatt or less.

(7) Develop procedures to track and account for renewable energy certificates, including ownership of renewable energy certificates that

are derived from a customer owned renewable energy facility as a result of any action by a customer of an electric power supplier that is independent of a program sponsored by the electric power supplier.

(j) Report. – No later than 1 October of each year, the Commission shall submit a report on the activities taken by the Commission to implement, and by electric power suppliers to comply with, the requirements of this section to the Governor, the Environmental Review Commission, and the Joint Legislative Utility Review Committee. The report shall include any public comments received regarding direct, secondary, and cumulative environmental impacts of the implementation of the requirements of this section. In developing the report, the Commission shall consult with the Department of Environment and Natural Resources."

SECTION 2.(b) The Commission shall submit the first report required by G.S. 62-133.7(j), as enacted by subsection (a) of this section, no later than 1 October 2008.

SECTION 2.(c) G.S. 143B-282(a) reads as rewritten:

"(a) There is hereby created the Environmental Management Commission of the Department of Environment and Natural Resources with the power and duty to promulgate rules to be followed in the protection, preservation, and enhancement of the water and air resources of the State.

…

(6) The Commission may establish a procedure for evaluating renewable energy technologies that are, or are proposed to be, employed as part of a renewable energy facility, as defined in G.S. 62-133.7; establish standards to ensure that renewable energy technologies do not harm the environment, natural resources, cultural resources, or public health, safety, or welfare of the State; and, to the extent that there is not an environmental regulatory program, establish an environmental regulatory program to implement these protective standards."

SECTION 3. If the federal government imposes requirements similar to those set out in G.S. 62-133.7 on electric power suppliers in the State, the Utilities Commission shall determine the applicability of federal and State requirements so as to apply the more stringent requirements except to the extent that State requirements may be specifically preempted by federal law. The Commission shall adopt rules to establish a procedure as an alternative to the procedure set out in G.S. 62-133 to annually adjust the rates of electric public utilities to allow timely recovery of all reasonable costs of compliance with the federal and State requirements pursuant to G.S. 62-133.7(h), as enacted by Section 2 of this act. In adopting rules to establish the procedure, the Commission shall incorporate the provisions of this act in accordance with this section and the public interest.

SECTION 4.(a) Article 7 of Chapter 62 of the General Statutes is amended by adding a new section to read:

"**§ 62-133.8. Cost recovery for demand-side management and energy efficiency measures.**

(a) The definitions set out in G.S. 62-133.7 apply to this section. As used in this section, 'new,' used in connection with demand-side management or energy efficiency measure, means a demand-side management or energy efficiency measure that is adopted and implemented on or after 1 January 2007, including subsequent changes and modifications.

(b) Each electric power supplier shall implement demand-side management and energy efficiency measures and use supply-side resources to establish the least cost mix of demand reduction and generation measures that meet the electricity needs of its customers. An electric membership corporation or municipality that qualifies as an electric power supplier may satisfy the requirements of this section through its purchases from a wholesale supplier of electric power that uses supply-side resources and demand-side management to meet all or a portion of the supply needs of its members and their retail customers, and that, by aggregating and promoting demand-side management and energy efficiency measures for its members, meets the requirements of this section.

(c) Each electric power supplier to which G.S. 62-110.1 applies shall include an assessment of demand-side management and energy efficiency in its resource plans submitted to the Commission and shall submit cost-effective demand-side management and energy efficiency options that require incentives to the Commission for approval.

(d) The Commission shall, upon petition of an electric public utility, approve an annual rider to the electric public utility's rates to recover all reasonable and prudent costs incurred for adoption and implementation of new demand-side management and new energy efficiency measures. Recoverable costs include, but are not limited to, all capital costs, including cost of capital and depreciation expenses, administrative costs, implementation costs, incentive payments to program participants, and operating costs. In determining the amount of any rider, the Commission:

(1) Shall allow electric public utilities to capitalize all or a portion of those costs to the extent that those costs are intended to produce future benefits.

(2) May approve other incentives to electric public utilities for adopting and implementing new demand-side management and energy efficiency measures. Allowable incentives may include:

a. Appropriate rewards based on the sharing of savings achieved by the demand-side management and energy efficiency measures.

b. Appropriate rewards based on capitalization of a percentage of avoided costs achieved by demand-side management and energy efficiency measures.

c. Any other incentives that the Commission determines to be appropriate.

(e) The Commission shall determine the appropriate assignment of costs of new demand-side management and energy efficiency measures for electric public utilities and shall assign the costs of the programs only to the class or classes of customers that directly benefit from the programs.

(f) None of the costs of new demand-side management or energy efficiency measures of an electric power supplier shall be assigned to any industrial customer that notifies the industrial customer's electric power supplier that, at the industrial customer's own expense, the industrial customer has implemented at any time in the past or, in accordance with stated, quantified goals for demand-side management and energy efficiency, will implement alternative demand-side management and energy efficiency measures and that the industrial customer elects not to participate in demand-side management or energy efficiency measures under this section. The electric power supplier that provides electric service to the industrial customer, an industrial customer that receives electric service from the electric power supplier, the Public Staff, or the

Commission on its own motion, may initiate a complaint proceeding before the Commission to challenge the validity of the notification of nonparticipation. The procedures set forth in G.S. 62-73, 62-74, and 62-75 shall govern any such complaint. The provisions of this subsection shall also apply to commercial customers with significant annual usage at a threshold level to be established by the Commission.

(g) An electric public utility shall not charge an industrial or commercial customer for the costs of installing demand-side management equipment on the customer's premises if the customer provides, at the customer's expense, equivalent demand-side management equipment.

(h) The Commission shall adopt rules to implement this section.

(i) The Commission shall submit to the Governor and to the Joint Legislative Utility Review Committee a summary of the proceedings conducted pursuant to this section during the preceding two fiscal years on or before 1 September of odd-numbered years."

SECTION 4.(b) The Utilities Commission shall submit the first report required by G.S. 62-133.8(i), as enacted by subsection (a) of this section, no later than 1 September 2009.

SECTION 4.(c) The Utilities Commission shall prepare an analysis of whether rate structures, policies, and measures, including decoupling, in place in other states and countries that promote a mix of generation involving renewable energy sources and demand reduction should be implemented in this State. The Commission shall submit this analysis to the Governor, Environmental Review Commission, and the Joint Legislative Utility Review Committee no later than 1 September 2008.

SECTION 5. G.S. 62-133.2 reads as rewritten:

"§ **62-133.2. Fuel and fuel-related charge adjustments for electric utilities.**

(a) The Commission ~~may allow~~shall permit an electric ~~utilities~~ public utility that generates electric power by fossil fuel or nuclear fuel to charge ~~a uniform~~an increment or decrement as a rider to ~~their~~ its rates for changes in the cost of fuel ~~and the fuel component of purchased power~~and fuel-related costs used in providing ~~their~~ its North Carolina customers with electricity from the cost of fuel ~~and the fuel component of purchased power established in their previous general rate case.~~and fuel-related costs established in the electric public utility's previous general rate case on the basis of cost per kilowatt hour.

(a1) As used in this section, 'cost of fuel and fuel-related costs' means all of the following:

(1) The cost of fuel burned.

(2) The cost of fuel transportation.

(3) The cost of ammonia, lime, limestone, urea, dibasic acid, sorbents, and catalysts consumed in reducing or treating emissions.

(4) The total delivered noncapacity related costs, including all related transmission charges, of all purchases of electric power by the electric public utility, that are subject to economic dispatch or economic curtailment.

(5) The capacity costs associated with all purchases of electric power from qualifying cogeneration facilities and qualifying small power production facilities, as defined in 16 U.S.C. § 796, that are subject to economic dispatch by the electric public utility.

(6) Except for those costs recovered pursuant to G.S. 62-133.7(h), the total delivered costs of all purchases of power from renewable energy

facilities and new renewable energy facilities pursuant to G.S. 62-133.7 or to comply with any federal mandate that is similar to the requirements of subsections (b), (c), (d), (e), and (f) of G.S. 62-133.7.

(7) The fuel cost component of other purchased power.

(8) Cost of fuel and fuel-related costs shall be adjusted for any net gains or losses resulting from any sales by the electric public utility of fuel and other fuel-related costs components.

(9) Cost of fuel and fuel-related costs shall be adjusted for any net gains or losses resulting from any sales by the electric public utility of by-products produced in the generation process to the extent the costs of the inputs leading to that by-product are costs of fuel or fuel-related costs.

(a2) For those costs identified in subdivisions (4), (5), and (6) of subsection (a1) of this section, the annual increase in the aggregate amount of these costs that are recoverable by an electric public utility pursuant to this section shall not exceed two percent (2%) of the electric public utility's total North Carolina retail jurisdictional gross revenues for the preceding calendar year. The costs described in subdivisions (4), (5), and (6) of subsection (a1) of this section shall be recoverable from each class of customers as a separate component of the rider as follows:

(1) For the costs described in subdivision (4) of subsection (a1) of this section, the specific component for each class of customers shall be determined by allocating these costs among customer classes based on the electric public utility's North Carolina energy usage for the prior year, as determined by the Commission, until the Commission determines how these costs shall be allocated in a general rate case for the electric public utility commenced on or after 1 January 2008.

(2) For the costs described in subdivisions (5) and (6) of subsection (a1) of this section, the specific component for each class of customers shall be determined by allocating these costs among customer classes based on the electric public utility's North Carolina peak demand for the prior year, as determined by the Commission, until the Commission determines how these costs shall be allocated in a general rate case for the electric public utility commenced on or after 1 January 2008.

(a3) Notwithstanding subsections (a1) and (a2) of this section, for an electric public utility that has fewer than 150,000 North Carolina retail jurisdictional customers as of 31 December 2006, the costs identified in subdivisions (1), (2), (6), and (7) of subsection (a1) of this section and the fuel cost component, as may be modified by the Commission, of electric power purchases identified in subdivision (4) of subsection (a1) of this section shall be recovered through the increment or decrement rider approved by the Commission pursuant to this section. For the costs identified in subdivision (6) of subsection (a1) of this section that are incurred on or after 1 January 2008, the annual increase in the amount of these costs shall not exceed one percent (1%) of the electric public utility's total North Carolina retail jurisdictional gross revenues for the preceding calendar year. These costs described in subdivision (6) of subsection (a1) of this section shall be recoverable from each class of customers as a separate component of the rider. For the costs described in subdivision (6) of subsection (a1) of this section, the specific component for each class of customers shall be determined by allocating these costs among customer classes based on the electric public utility's North Carolina peak

demand for the prior year, as determined by the Commission, until the Commission determines how these costs shall be allocated in a general rate case for the electric public utility commenced on or after 1 January 2008.

(b) ~~For each electric utility engaged in the generation and production of electric power by fossil or nuclear fuels, the~~The Commission shall ~~hold~~ conduct a hearing within 12 months of ~~the~~ each electric public utility's last general rate case order ~~and~~ to determine whether an increment or decrement rider is required to reflect actual changes in the cost of fuel ~~and the fuel cost component of purchased power~~and fuel-related costs over or under the cost of fuel and fuel-related costs on a kilowatt-hour basis in base rates established in the electric public utility's last preceding general rate case. Additional hearings shall be held on an annual basis but only one hearing for each ~~such~~ electric public utility may be held within 12 months of the last general rate case.

(c) Each electric public utility shall submit to the Commission for the hearing verified annualized information and data in such form and detail as the Commission may require, for an historic 12-month test period, relating to:

(1) ~~Purchased cost~~Cost of fuel and fuel-related costs used in each generating facility owned in whole or in part by the utility.
(2) Fuel procurement practices and fuel inventories for each facility.
(3) Burned cost of fuel used in each generating facility.
(4) Plant capacity factor for each generating facility.
(5) Plant availability factor for each generating plant.
(6) Generation mix by types of fuel used.
(7) Sources and fuel cost component of purchased power used.
(8) Recipients of and revenues received for power sales and times of power sales.
(9) Test period ~~kilowatt hour~~kilowatt-hour sales for the utility's total system and on the total system separated for North Carolina jurisdictional sales.
(10) Procurement practices and inventories for: fuel burned and for ammonia, lime, limestone, urea, dibasic acid, sorbents, and catalysts consumed in reducing or treating emissions.
(11) The cost incurred at each generating facility of fuel burned and of ammonia, lime, limestone, urea, dibasic acid, sorbents, and catalysts consumed in reducing or treating emissions.
(12) Any net gains or losses resulting from any sales by the electric public utility of fuel or other fuel-related costs components.
(13) Any net gains or losses resulting from any sales by the electric public utility of by-products produced in the generation process to the extent the costs of the inputs leading to that by-product are costs of fuel or fuel-related costs.

(d) The Commission shall provide for notice of a public hearing with reasonable and adequate time for investigation and for all intervenors to prepare for hearing. At the hearing the Commission shall receive evidence from the utility, the ~~public staff,~~Public Staff, and any intervenor desiring to submit evidence, and from the public generally. In reaching its decision, the Commission shall consider all evidence required under subsection (c) of this section as well as any and all other competent evidence that may assist the Commission in reaching its decision including changes in the ~~price of fuel consumed and changes in the price of the fuel in the fuel component of purchased power occurring within a reasonable time (as determined by the Commission) after the~~

~~test period is closed.~~cost of fuel consumed and fuel-related costs that occur within a reasonable time, as determined by the Commission, after the test period is closed. The Commission shall incorporate in its ~~fuel~~ cost of fuel and fuel-related costs determination under this subsection the experienced over-recovery or under-recovery of reasonable costs of fuel and fuel-related costs ~~expenses~~ prudently incurred during the test period, based upon the prudent standards set pursuant to subsection (d1) of this section, in fixing an increment or decrement rider. Upon request of the electric public utility, the Commission shall also incorporate in this determination the experienced over-recovery or under-recovery of costs of fuel and fuel-related costs through the date that is 30 calendar days prior to the date of the hearing, provided that the reasonableness and prudence of these costs shall be subject to review in the utility's next annual hearing pursuant to this section. The Commission shall use deferral accounting, and consecutive test periods, in complying with this subsection, and the over-recovery or under-recovery portion of the increment or decrement shall be reflected in rates for 12 months, notwithstanding any changes in the base fuel cost in a general rate case. The burden of proof as to the correctness and reasonableness of the charge and as to whether the cost of fuel ~~charges~~ and fuel-related costs were reasonably and prudently incurred shall be on the utility. The Commission shall allow only that portion, if any, of a requested cost of fuel and fuel-related costs adjustment that is based on adjusted and reasonable cost of fuel ~~expenses~~ and fuel-related costs prudently incurred under efficient management and economic operations. In evaluating whether cost of fuel ~~expenses~~ and fuel-related costs were reasonable and prudently incurred, the Commission shall apply the rule adopted pursuant to subsection ~~(d1).~~(d1) of this section. To the extent that the Commission determines that an increment or decrement to the rates of the utility due to changes in the cost of fuel and ~~the fuel cost component of purchased power~~fuel-related costs over or under base fuel costs established in the preceding general rate case is just and reasonable, the Commission shall order that the increment or decrement become effective for all sales of electricity and remain in effect until changed in a subsequent general rate case or annual proceeding under this section.

(d1) Within one year after ratification of this act, for the purposes of setting ~~fuel rates,~~cost of fuel and fuel-related costs rates, the Commission shall adopt a rule that establishes prudent standards and procedures with which it can appropriately measure management efficiency in minimizing ~~fuel~~ cost of fuel and fuel-related costs.

(e) If the Commission has not issued an order pursuant to this section within ~~120~~ 180 days of a utility's submission of annual data under subsection (c) of this section, the utility may place the requested cost of fuel and fuel-related costs adjustment into effect. If the change in rate is finally determined to be excessive, the utility shall make refund of any excess plus interest to its customers in a manner ordered by the Commission.

(f) Nothing in this section shall relieve the Commission from its duty to consider the reasonableness of ~~fuel expenses~~the cost of fuel and fuel-related costs in a general rate case and to set rates reflecting reasonable ~~fuel expenses~~cost of fuel and fuel-related costs pursuant to G.S. 62-133. Nothing in this section shall invalidate or preempt any condition adopted by the Commission and accepted by the utility in any proceeding that would limit the recovery of costs by any electric public utility under this section.

(g) ~~On July 1, 1993 and every two years thereafter,~~On 1 July of every odd-numbered year, the Utilities Commission shall provide a report to the Joint Legislative Utility Review Committee summarizing the ~~procedures~~ proceedings conducted pursuant to ~~G.S. 62-133.2~~this section during the preceding two years."

SECTION 6. G.S. 62-110.1 reads as rewritten:

"§ **62-110.1. Certificate for construction of generating facility; analysis of long-range needs for expansion of ~~facilities.~~facilities; ongoing review of construction costs; inclusion of approved construction costs in rates.**

(a) Notwithstanding the proviso in G.S. 62-110, no public utility or other person shall begin the construction of any steam, water, or other facility for the generation of electricity to be directly or indirectly used for the furnishing of public utility service, even though the facility be for furnishing the service already being rendered, without first obtaining from the Commission a certificate that public convenience and necessity requires, or will require, such construction.

(b) For the purpose of subsections (a), (c), and (d) of this section, "public utility" shall include any electric membership corporation operating within this State, and the term "public utility service" shall include the service rendered by any such electric membership corporation.

(c) The Commission shall develop, publicize, and keep current an analysis of the long-range needs for expansion of facilities for the generation of electricity in North Carolina, including its estimate of the probable future growth of the use of electricity, the probable needed generating reserves, the extent, size, mix and general location of generating plants and arrangements for pooling power to the extent not regulated by the Federal ~~Power~~ Energy Regulatory Commission and other arrangements with other utilities and energy suppliers to achieve maximum efficiencies for the benefit of the people of North Carolina, and shall consider such analysis in acting upon any petition by any utility for construction. In developing such analysis, the Commission shall confer and consult with the public utilities in North Carolina, the utilities commissions or comparable agencies of neighboring states, the Federal ~~Power~~ Energy Regulatory Commission, the Southern Growth Policies Board, and other agencies having relevant information and may participate as it deems useful in any joint boards investigating generating plant sites or the probable need for future generating facilities. In addition to such reports as public utilities may be required by statute or rule of the Commission to file with the Commission, any such utility in North Carolina may submit to the Commission its proposals as to the future needs for electricity to serve the people of the State or the area served by such utility, and insofar as practicable, each such utility and the Attorney General may attend or be represented at any formal conference conducted by the Commission in developing a plan for the future requirements of electricity for North Carolina or this region. In the course of making the analysis and developing the plan, the Commission shall conduct one or more public hearings. Each year, the Commission shall submit to the Governor and to the appropriate committees of the General Assembly a report of its analysis and plan, the progress to date in carrying out such plan, and the program of the Commission for the ensuing year in connection with such plan.

(d) In acting upon any petition for the construction of any facility for the generation of electricity, the Commission shall take into account the applicant's arrangements with other electric utilities for interchange of power, pooling of plant, purchase of power and other methods for providing reliable, ~~efficient~~ efficient, and economical electric service.

(e) As a condition for receiving ~~such certificate~~ a certificate, the applicant shall file an estimate of construction costs in such detail as the Commission may require. The Commission shall hold a public hearing on each ~~such~~ application and no certificate shall be granted unless the Commission has approved the estimated construction costs and made a finding that ~~such~~ construction will be consistent with the Commission's plan for

expansion of electric generating capacity. A certificate for the construction of a coal or nuclear facility shall be granted only if the applicant demonstrates and the Commission finds that energy efficiency measures; demand-side management; renewable energy resource generation; combined heat and power generation; or any combination thereof, would not establish or maintain a more cost-effective and reliable generation system and that the construction and operation of the facility is in the public interest. In making its determination, the Commission shall consider resource and fuel diversity and reasonably anticipated future operating costs. Once the Commission grants a certificate, no public utility shall cancel construction of a generating unit or facility without approval from the Commission based upon a finding that the construction is no longer in the public interest.

(e1) Upon the request of the public utility or upon its own motion, the Commission may review the certificate to determine whether changes in the probable future growth of the use of electricity indicate that the public convenience and necessity require modification or revocation of the certificate. If the Commission finds that completion of the generating facility is no longer in the public interest, the Commission may modify or revoke the certificate.

(f) ~~The Commission shall maintain an ongoing review of such construction as it proceeds and the applicant shall submit each year during construction a progress report and any revisions in the cost estimates for the construction.~~ The public utility shall submit a progress report and any revision in the cost estimate for the construction approved under subsection (e) of this section during each year of construction. Upon the request of the public utility or upon its own motion, the Commission may conduct an ongoing review of construction of the facility as the construction proceeds. If the Commission approves any revised construction cost estimate and finds that incurrence of the cost of that portion of the construction of the facility under review was reasonable and prudent, the certificate shall remain in effect. If the Commission disapproves any part of the revised cost estimate or finds that the incurrence of the cost of that portion of the construction of the facility then under review was unreasonable or imprudent, the Commission may modify or revoke the certificate.

(f1) The public utility shall recover through rates in a general rate case conducted pursuant to G.S. 62-133 the actual costs it has incurred in constructing a generating facility in reliance on a certificate issued under this section as provided in this subsection, unless new evidence is discovered (i) that could not have been discovered by due diligence at an earlier time and (ii) that reasonably tends to show that a previous determination by the Commission that a material item of cost was just and reasonable and prudently incurred was erroneous. If the Commission determines that evidence has been submitted that meets the requirements of this subsection, the public utility shall have the burden of proof to demonstrate that the material item of cost was in fact just and reasonable and prudently incurred.

(1) When a facility has been completed, and the construction of the facility has been subject to ongoing review under subsection (f) of this section, the reasonable and prudent costs of construction approved by the Commission during the ongoing review shall be included in the public utility's rate base without further review by the Commission.

(2) If a facility has not been completed, and the construction of the facility has been subject to ongoing review under subsection (f) of this section, the reasonable and prudent costs of construction approved by the

Commission during the ongoing review shall be included in the public utility's rate base without further review by the Commission.

(3) If a facility is under construction or has been completed and the construction of the facility has not been subject to ongoing review under subsection (f) of this section, the costs of construction shall be included in the public utility's rate base if the Commission finds that the incurrence of these costs is reasonable and prudent.

(f2) If the construction of a facility is cancelled, including cancellation as a result of modification or revocation of the certificate under subsection (e1) of this section, and the construction of the facility has been subject to ongoing review under subsection (f), absent newly discovered evidence (i) that could not have been discovered by due diligence at an earlier time and (ii) that reasonably tends to show that a previous determination by the Commission that a material item of cost was just and reasonable and prudently incurred was erroneous, the public utility shall recover through rates in a general rate case conducted pursuant to G.S. 62-133 the costs of construction approved by the Commission during the ongoing review that were actually incurred prior to cancellation, amortized over a reasonable time as determined by the Commission. In the general rate case, the Commission shall make any adjustment that may be required because costs of construction previously added to the utility's rate base pursuant to subsection (f1) of this section are removed from the rate base and recovered in accordance with this subsection. Any costs of construction actually incurred, but not previously approved by the Commission, shall be recovered only if they are found by the Commission to be reasonable and prudent. If the Commission determines that evidence has been submitted that meets the requirements of this subsection, the public utility shall have the burden of proof to demonstrate that the material item of cost was just and reasonable and prudently incurred.

(f3) If the construction of a facility is cancelled, including cancellation as a result of the modification or revocation of the certificate under subsection (e1) of this section, and the construction of the facility has not been subject to ongoing review under subsection (f) of this section, the public utility shall recover through rates in a general rate case conducted pursuant to G.S. 62-133 the costs of construction that were actually incurred prior to the cancellation and are found by the Commission to be reasonable and prudent, amortized over a reasonable time as determined by the Commission. In the general rate case, the Commission shall make any adjustment that may be required because costs of construction previously added to the utility's rate base pursuant to subsection (f1) of this section are removed from the rate base and recovered in accordance with this subsection.

(g) The certification requirements of this section shall not apply to a nonutility-owned generating facility fueled by renewable energy resources under two megawatts in capacity or to persons who construct an electric generating facility primarily for that person's own use and not for the primary purpose of producing electricity, heat, or steam for sale to or for the public for compensation; provided, however, that such persons shall, nevertheless, be required to report to the Utilities Commission the proposed construction of such a facility before beginning construction thereof."

SECTION 7. Article 6 of Chapter 62 of the General Statutes is amended by adding two new sections to read:

"**§ 62-110.6. Rate recovery for construction costs of out-of-state electric generating facilities.**

(a) The Commission shall, upon petition of a public utility, determine the need for and, if need is established, approve an estimate of the construction costs and construction schedule for an electric generating facility in another state that is intended to serve retail customers in this State.

(b) The petition may be filed at any time after an application for a certificate or license for the construction of the facility has been filed in the state in which the facility will be sited. The petition shall contain a showing of need for the facility, an estimate of the construction costs, and the proposed construction schedule for the facility.

(c) The Commission shall conduct a public hearing to consider and determine the need for the facility and the reasonableness of the construction cost estimate and proposed construction schedule. If the Commission finds that the construction will be needed to assure the provision of adequate public utility service within North Carolina, the Commission shall approve a construction cost estimate and a construction schedule for the facility. In making its determinations under this section, the Commission may consider whether the state in which the facility will be sited has issued a certificate or license for construction of the facility and approved a construction cost estimate and construction schedule for the facility. The Commission shall issue its order not later than 180 days after the public utility files its petition.

(d) G.S. 62-110.1(f) shall apply to the construction cost estimate determined by the Commission to be appropriate, and the actual costs the public utility incurs in constructing the facility shall be recoverable through rates in a general rate case pursuant to G.S. 62-133 as provided in G.S. 62-110.1(f1).

(e) If the construction of a facility is cancelled, the public utility shall recover through rates in a general rate case conducted pursuant to G.S. 62-133 the costs of construction that were actually incurred prior to the cancellation and are found by the Commission to be reasonable and prudent, as provided in subsections (f2) and (f3) of G.S. 62-110.1.

"**§ 62-110.7. Project development cost review for a nuclear facility.**

(a) For purposes of this section, "project development costs" mean all capital costs associated with a potential nuclear electric generating facility incurred before (i) issuance of a certificate under G.S. 62-110.1 for a facility located in North Carolina or (ii) issuance of a certificate by the host state for an out-of-state facility to serve North Carolina retail customers, including, without limitation, the costs of evaluation, design, engineering, environmental analysis and permitting, early site permitting, combined operating license permitting, initial site preparation costs, and allowance for funds used during construction associated with such costs.

(b) At any time prior to the filing of an application for a certificate to construct a potential nuclear electric generating facility, either under G.S. 62-110.1 or in another state for a facility to serve North Carolina retail customers, a public utility may request that the Commission review the public utility's decision to incur project development costs. The public utility shall include with its request such information and documentation as is necessary to support approval of the decision to incur proposed project development costs. The Commission shall hold a hearing regarding the request. The Commission shall issue an order within 180 days after the public utility files its request. The Commission shall approve the public utility's decision to incur project development costs if the public utility demonstrates by a preponderance of evidence that the decision to incur project development costs is reasonable and prudent; provided, however, the Commission shall not rule on the reasonableness or prudence of specific project development activities or recoverability of specific items of cost.

(c) All reasonable and prudent project development costs, as determined by the Commission, incurred for the potential nuclear electric generating facility shall be included in the public utility's rate base and shall be fully recoverable through rates in a general rate case proceeding pursuant to G.S. 62-133.

(d) If the public utility is allowed to cancel the project, the Commission shall permit the public utility to recover all reasonable and prudently incurred project development costs in a general rate case proceeding pursuant to G.S. 62-133 amortized over a period equal to the period during which the costs were incurred, or five years, whichever is greater."

SECTION 8. G.S. 62-133(b) reads as rewritten:

"(b) In fixing such rates, the Commission shall:

(1) Ascertain the reasonable original cost of the public utility's property used and useful, or to be used and useful within a reasonable time after the test period, in providing the service rendered to the public within the State, less that portion of the cost ~~which~~ that has been consumed by previous use recovered by depreciation ~~expense plus the reasonable original cost of investment in plant under construction (construction work in progress). In ascertaining the cost of the public utility's property, construction work in progress as of the effective date of this subsection shall be excluded until such plant comes into service but reasonable and prudent expenditures for construction work in progress after the effective date of this subsection may be included, to the extent the Commission considers such inclusion in the public interest and necessary to the financial stability of the utility in question, subject to the provisions of subparagraph (b)(4a) of this section.~~expense. In addition, construction work in progress may be included in the cost of the public utility's property under any of the following circumstances:

a. To the extent the Commission considers inclusion in the public interest and necessary to the financial stability of the utility in question, reasonable and prudent expenditures for construction work in progress may be included, subject to the provisions of subdivision (4a) of this subsection.

b. For baseload electric generating facilities, reasonable and prudent expenditures shall be included pursuant to subdivisions (2) or (3) of G.S. 62-110.1(f1), whichever applies, subject to the provisions of subdivision (4a) of this subsection.

(1a) Apply the rate of return established under subdivision (4) of this subsection to rights-of-way acquired through agreements with the Department of Transportation pursuant to G.S. 136-19.5(a) if acquisition is consistent with a definite plan to provide service within five years of the date of the agreement and if such right-of-way acquisition will result in benefits to the ratepayers. If a right-of-way is not used within a reasonable time after the expiration of the five-year period, it may be removed from the rate base by the Commission when rates for the public utility are next established under this section.

(2) Estimate such public utility's revenue under the present and proposed rates.

(3) Ascertain such public utility's reasonable operating expenses, including actual investment currently consumed through reasonable actual depreciation.

"**§ 105-129.16G. Credit for donating funds to a nonprofit organization to enable the nonprofit to acquire renewable energy property.**

(a) Credit. – A taxpayer who donates money to a tax-exempt nonprofit organization for the purpose of providing funds for the organization to construct, purchase, or lease renewable energy property is allowed a credit under this section if the nonprofit organization uses the donation for its intended purpose. A tax-exempt nonprofit organization is an organization that is exempt from tax under section 501(c)(3) of the Code.

The amount of the credit allowed in this section is the taxpayer's share of the credit the nonprofit organization could claim under G.S. 105-129.16A if the nonprofit organization were subject to tax. The taxpayer's share of the credit is calculated by dividing the taxpayer's donation by the cost of the renewable energy property constructed, purchased, or leased by the nonprofit organization and placed in service during the taxable year and then multiplying this percentage by the amount of the credit the nonprofit organization could claim if it were subject to tax. A taxpayer must take the credit allowed by this section in the year in which the property is placed in service. The installment requirements in G.S. 105-129.16A for nonresidential property do not apply to the credit allowed in this section.

(b) Records. – A nonprofit organization must keep a record of all donations it receives for the purpose of providing funds for the organization to construct, purchase, or lease renewable energy property and of the amount of the donations used for this purpose. If a nonprofit organization places renewable energy property in service that is purchased in whole or in part from donations made for this purpose, the nonprofit

organization must give each taxpayer who made a donation a statement setting out the amount of the credit for which the taxpayer qualifies under this section. The statement must describe the renewable energy property placed in service and state the cost of the property, the amount of the credit the nonprofit organization could claim under G.S. 105-129.16A if it were subject to tax, and the taxpayer's share of the credit allowed in this section. If the donations made for the renewable energy property exceed the cost of the property, the nonprofit organization must prorate each taxpayer's share of the credit. The sum of the credits allowed under this section to taxpayers who make donations to a nonprofit organization may not exceed the amount of the credit the nonprofit organization could claim under G.S. 105-129.16A if it were subject to tax.

(c) No Double Benefit. – A taxpayer who claims a credit under this section based on a donation to a nonprofit organization is not allowed to deduct this donation as a charitable contribution."

Session Law 2007-401 **Senate Bill 1464**

AN ACT TO AMEND THE WILDLIFE RESOURCES MANAGEMENT LAWS BY AUTHORIZING THE WILDLIFE RESOURCES COMMISSION TO RESPOND TO DISEASE THREATS; BY ALLOWING THE TAKING OF BEAVER WITH BOW AND ARROW; BY AMENDING CERTAIN LAWS GOVERNING THE TAKING OF DEER; BY PROVIDING FOR THE SAFETY OF BOW HUNTERS DURING FIREARMS SEASON; BY PROHIBITING THE FEEDING OF ALLIGATORS; BY ALLOWING THE USE OF ELECTRONIC CALLING DEVICES FOR SNOW GEESE; AND STUDYING THE TRACKING OF WOUNDED WILDLIFE AFTER LEGAL HUNTING HOURS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 113-306 reads as rewritten:

"§ **113-306. Administrative authority of Wildlife Resources Commission; disposition of license funds; delegation of powers; injunctive ~~relief.~~ relief; emergency powers.**

(a) In the overall best interests of the conservation of wildlife resources, the Wildlife Resources Commission may lease or purchase lands, equipment, and other property; accept gifts and grants on behalf of the State; establish wildlife refuges, management areas, and boating and fishing access areas, either alone or in cooperation with others; provide matching funds for entering into projects with some other governmental agency or with some scientific, educational, or charitable foundation or institution; condemn lands in accordance with the provisions of Chapter 40A of the General Statutes and other governing provisions of law; and sell, lease, or give away property acquired by it. Provided, that any private person selected to receive gifts or benefits by the Wildlife Resources Commission be selected:

(1) With regard to the overall public interest that may result; and

(2) From a defined class upon such a rational basis open to all within the class as to prevent constitutional infirmity with respect to requirements of equal protection of the laws or prohibitions against granting exclusive privileges or emoluments.

(b) Except as otherwise specifically provided by law, all money credited to, held by, or to be received by the Wildlife Resources Commission from the sale of licenses authorized by this Subchapter must be consolidated and placed in the Wildlife Resources Fund.

(c) The Wildlife Resources Commission may, within the terms of policies set by rule, delegate to the Executive Director all administrative powers granted to it.

(d) The Wildlife Resources Commission is hereby authorized and directed to develop a plan and policy of wildlife management for all lands owned by the State of North Carolina which are suitable for this purpose. The Division of State Property and Construction of the Department of Administration shall determine which lands are suitable for the purpose of wildlife management. Nothing in the wildlife management plan shall prohibit, restrict, or require the change in use of State property which is presently being used or will in the future be used to carry out the goals and objectives of the State agency utilizing such land. Each plan of wildlife management developed by the Wildlife Resources Commission shall consider the question of public hunting; and whenever and wherever possible and consistent with the primary land use of the controlling agency, public hunting shall be allowed under cooperative agreement with the Wildlife Resources Commission. Any dispute over the question of public hunting shall be resolved by the Division of State Property and Construction.

(e) Subject to any policy directives adopted by the members of the Wildlife Resources Commission, the Executive Director in his discretion may institute an action in the name of the Wildlife Resources Commission in the appropriate court for injunctive relief to prevent irreparable injury to wildlife resources or to prevent or regulate any activity within the jurisdiction of the Wildlife Resources Commission which constitutes a public nuisance or presents a threat to public health or safety.

(f) The Wildlife Resources Commission may adopt rules governing the exercise of emergency powers by the Executive Director when the Commission determines that such powers are necessary to respond to a wildlife disease that threatens irreparable injury to wildlife or the public. The rules shall provide that the Executive Director must consult with the Commission, the State Veterinarian, and the Governor prior to implementing the emergency powers. The rules shall also specify the method by which the public will be notified of the exercise of emergency powers. The exercise of emergency powers shall not extend for more than 90 days after the Commission's determination that a disease outbreak has occurred, unless a temporary rule is adopted by the Commission in accordance with G.S. 150B-21.1 to replace the emergency powers. If a temporary rule is adopted prior to the expiration of the 90 days, the Executive Director may continue to exercise emergency powers until either a permanent rule to replace the temporary rule becomes effective or the temporary rule expires as provided by G.S. 150B-21.1(d). The Commission's determination that a disease outbreak has occurred shall constitute a basis for adoption of a temporary rule. The emergency powers that may be authorized by rules adopted pursuant to this subsection include:

(1) Prohibiting activities that aid in the transmission or movement of the disease.

(2) Implementing activities to reduce infection opportunities.

(3) Implementing requirements to assist in the detection and isolation of the disease."

SECTION 2. G.S. 113-291.9(a) reads as rewritten:

"(a) Notwithstanding any other law, there is an open season for taking beaver with firearms or bow and arrow during any open season for the taking of wild animals, provided that permission has been obtained from the owner or lessee of the land on which the beaver is being taken."

SECTION 3. G.S. 113-291.2 reads as rewritten:

"§ **113-291.2. Seasons and bag limits on wild animals and birds; including animals and birds taken in bag; possession and transportation of wildlife after taking.**

(a) In accordance with the supply of wildlife and other factors it determines to be of public importance, the Wildlife Resources Commission may fix seasons and bag limits upon the wild animals and wild birds authorized to be taken that it deems necessary or desirable in the interests of the conservation of wildlife resources. The authority to fix seasons includes the closing of seasons completely when necessary and fixing the hours of hunting. The authority to fix bag limits includes the setting of season and possession limits. Different seasons and bag limits may be set in differing areas; early or extended seasons and different or unlimited bag limits may be authorized on controlled shooting preserves, game lands, and public hunting grounds; and special or extended seasons may be fixed for those engaging in falconry, using primitive weapons, or taking wildlife under other special conditions.

Unless modified by rules of the Wildlife Resources Commission, the seasons, shooting hours, bag limits, and possession limits fixed by the United States Department of Interior or any successor agency for migratory game birds in North Carolina must be followed, and a violation of the applicable federal rules is hereby made unlawful. When the applicable federal rules require that the State limit participation in seasons and/or bag limits for migratory game birds, the Wildlife Resources Commission may schedule managed hunts for migratory game birds. Participants in such hunts shall be selected at random by computer, and each applicant 16 years of age or older shall have the required general hunting license and the waterfowl hunting license prior to the drawing for the managed hunt. Each applicant under 16 years of age shall either have the required general hunting license and the waterfowl hunting license or shall apply as a member of a party that includes a properly licensed adult. All applications for managed waterfowl hunts shall be screened prior to the drawing for compliance with these requirements. A nonrefundable fee of ten dollars ($10.00) shall be required of each applicant to defray the cost of processing the applications.

~~Where there is a muzzle-loading firearm season for deer, with a bag limit of five or more, one antlerless deer may be taken. Dogs may not be used for hunting deer during such season.~~

(a1) When the Executive Director of the Wildlife Resources Commission receives a petition from the State Health Director declaring a rabies emergency for a particular county or district pursuant to G.S. 130A-201, the Executive Director of the Wildlife Resources Commission shall develop a plan to reduce the threat of rabies exposure to humans and domestic animals by foxes, raccoons, skunks, or bobcats in the county or district. The plan shall be based upon the best veterinary and wildlife management information and techniques available. The plan may involve a suspension or liberalization of any regulatory restriction on the taking of foxes, raccoons, skunks, or

bobcats, except that the use of poisons, other than those used with dart guns, shall not be permitted under any circumstance. If the plan involves a suspension or liberalization of any regulatory restriction on the taking of foxes, raccoons, skunks, or bobcats, the Executive Director of the Wildlife Resources Commission shall prepare and adopt temporary rules setting out the suspension or liberalization pursuant to G.S. 150B-21.1(a)(1). The Executive Director shall publicize the plan and the temporary rules in the major news outlets that serve the county or district to inform the public of the actions being taken and the reasons for them. Upon notification by the State Health Director that the rabies emergency no longer exists, the Executive Director of the Wildlife Resources Commission shall cancel the plan and repeal any rules adopted to implement the plan. The Executive Director of the Wildlife Resources Commission shall publicize the cancellation of the plan and the repeal of any rules in the major news outlets that serve the county or district.

(b) Any individual hunter or trapper who in taking a wild animal or bird has wounded or otherwise disabled it must make a reasonable effort to capture and kill the animal or bird. All animals and birds taken that can be retrieved must be retrieved and counted with respect to any applicable bag limits governing the individual taking the animal or bird.

(c) An individual who has lawfully taken game within applicable bag, possession, and season limits may, except as limited by rules adopted pursuant to subsection (c1) of this section, after the game is dead, possess and personally transport it for his own use by virtue of his hunting license, and without any additional permit, subject to tagging and reporting requirements that may apply to the fox and big game, as follows:

(1) In an area in which the season is open for the species, the game may be possessed and transported without restriction.

(2) The individual may possess and transport the game lawfully taken on a trip:
   a. To his residence;
   b. To a preservation or processing facility that keeps adequate records as prescribed in G.S. 113-291.3(b)(3) or a licensed taxidermist;
   c. From a place authorized in subparagraph b to his residence.

(3) The individual may possess the game indefinitely at his residence, and may there accumulate lawfully-acquired game up to the greater of:
   a. The applicable possession limit for each species; or
   b. One half of the applicable season limit for each species.

The above subdivisions apply to an individual hunter under 16 years of age covered by the license issued to his parent or guardian, if he is using that license, or by the license of an adult accompanying him. An individual who has lawfully taken game as a landholder without a license may possess and transport the dead game, taken within applicable bag, possession, and season limits, to his residence. He may indefinitely retain possession of such game, within aggregate possession limits for the species in question, in his residence.

(c1) In the event that the Executive Director finds that game carcasses or parts of game carcasses are known or suspected to carry an infectious or contagious disease that poses an imminent threat to the health or habitat of wildlife species, the Wildlife Resources Commission shall adopt rules to regulate the importation, transportation, or

possession of those carcasses or parts of carcasses that, according to wildlife disease experts, may transmit such a disease.

(d) Except in the situations specifically provided for above, the Wildlife Resources Commission may by rule impose reporting, permit, and tagging requirements that may be necessary upon persons:

(1) Possessing dead wildlife taken in open season after the close of that season.

(2) Transporting dead wildlife from an area having an open season to an area with a closed season.

(3) Transporting dead wildlife lawfully taken in another state into this State.

(4) Possessing dead wildlife after such transportation.

The Wildlife Resources Commission in its discretion may substitute written declarations to be filed with agents of the Commission for permit and tagging requirements.

(e) Upon application of any landholder or agent of a landholder accompanied by a fee of fifty dollars ($50.00), the Executive Director ~~may require a survey of the deer population on the land of such landholder. If as a result of the survey it is determined that there is an overpopulation of deer in relation to the carrying capacity of the land, that the herd is substantially dependent on such land for its food and cover, and that the imbalance in the deer population is not readily correctable by an either-sex deer season of reasonable length, the Executive Director~~ may issue to such landholder or agent a special license and a number of special antlerless or antlered deer tags that in the judgment of the Executive Director is sufficient to ~~correct or alleviate the population imbalance.~~ accommodate the landholder or the landholder's agent's deer population management objectives or correct any deer population imbalance that may occur on the property. Subject to applicable hunting license requirements, the special deer tags may be used by any person or persons selected by the landholder or his agent as authority to take antlerless deer, including male deer with "buttons" or spikes not readily visible, or antlered deer on the tract of land concerned during any established deer hunting season. ~~Each antlerless deer killed~~ The Executive Director or designee may stipulate on the license that special deer tags for antlered deer, if applicable, may only be valid for deer that meet certain minimum harvest criteria. The Executive Director or designee may also define on the license valid hunt dates that fall outside of the general deer hunting season. Harvested antlerless or antlered deer for which special tags are issued shall be affixed immediately with a special ~~antlerless~~ deer tag and shall be reported immediately in the wildlife cooperator tagging book supplied with the special ~~antlerless~~ deer tags. This tagging book and any unused tags shall be returned to the Commission within 15 days of the close of the season. The Wildlife Resources Commission may offer an alternate reporting system when the Commission determines that such an alternate system is appropriate. Antlerless or antlered deer taken under this program and tagged with the special ~~antlerless~~ tags provided shall not count as part of the daily bag, possession, and season limits of the person taking the deer."

SECTION 4. G.S. 113-291.8(a) reads as rewritten:

"(a) Any person hunting game animals other than foxes, bobcats, raccoons, and opossum, or hunting upland game birds other than wild turkeys, with the use of firearms, must wear a cap or hat on his head made of hunter orange material or an outer garment of hunter orange visible from all sides. Any person hunting deer during a deer firearms season shall wear hunter orange. Hunter orange material is a material that is a daylight fluorescent orange color."

SECTION 5. Article 22 of Chapter 113 of the General Statutes is amended by adding a new section to read:

"**§ 113-291.11. Feeding of alligators prohibited.**

It is unlawful to intentionally feed alligators outside of captivity."

SECTION 6. G.S. 113-291.1(f) reads as rewritten:

"(f) To keep North Carolina provisions respecting migratory birds in substantial conformity with applicable federal law and rules, the Wildlife Resources Commission may by rule expand or modify provisions of this Article if necessary to achieve such ~~conformity.~~conformity, including allowing the use of electronic calls. In particular, the Commission may prohibit the use of rifles, unplugged shotguns, live decoys, and sinkboxes in the taking of migratory game birds; vary shooting hours; adopt specific distances, not less than 300 yards, hunters must maintain from areas that have been baited, and fix the number of days afterwards during which it is still unlawful to take migratory game birds in the area; and adopt similar provisions with regard to the use of live decoys. In the absence of rules of the Wildlife Resources Commission to the contrary, the rules of the United States Department of the Interior prohibiting the use of rifles, unplugged shotguns, toxic shot and sinkboxes in taking migratory game birds in North Carolina shall apply, and any violation of such federal rules is unlawful."

SECTION 7. The Wildlife Resources Commission shall study issues related to retrieval of wildlife wounded by hunters. The study shall include consideration of the types of weapons allowed for use, the use of lights, and the use of tracking dogs for retrieval of wounded wildlife without reducing current restrictions preventing illegal hunting. The Commission shall review current State wildlife statutes and the statutes of other jurisdictions and shall seek input from interested parties in conducting the study.

The Commission shall submit a report of its findings and any recommendations for legislation to the 2008 Regular Session of the 2007 General Assembly and to the Chairs of the House Wildlife Resources Committee and the Senate Agriculture and Natural Resources Committee no later than May 1, 2008.

SECTION 8. Section 7 is effective when it becomes law. The remainder of this act becomes effective October 1, 2007, and applies to acts committed on or after that date.

Session Law 2007-414 **Senate Bill 556**

AN ACT AUTHORIZING MUNICIPALITIES TO ADOPT ORDINANCES ESTABLISHING A NONRESIDENTIAL BUILDING OR STRUCTURE CODE.

The General Assembly of North Carolina enacts:

SECTION 1. Part 5 of Article 19 of Chapter 160A of the General Statutes is amended by adding the following new section to read:

"**§ 160A-439. Ordinance authorized as to repair, closing, and demolition of nonresidential buildings or structures; order of public officer.**

(a) Authority. – The governing body of the city may adopt and enforce ordinances relating to nonresidential buildings or structures that fail to meet minimum standards of maintenance, sanitation, and safety established by the governing body. The minimum standards shall address only conditions that are dangerous and injurious to public health, safety, and welfare and identify circumstances under which a public necessity exists for the repair, closing, or demolition of such buildings or structures. The ordinance shall provide for designation or appointment of a public officer to exercise the powers prescribed by the ordinance, in accordance with the procedures specified in this section. Such ordinance shall only be applicable within the corporate limits of the city.

(b) Investigation. – Whenever it appears to the public officer that any nonresidential building or structure has not been properly maintained so that the safety or health of its occupants or members of the general public are jeopardized for failure of the property to meet the minimum standards established by the governing body, the public officer shall undertake a preliminary investigation. If entry upon the premises for purposes of investigation is necessary, such entry shall be made pursuant to a duly issued administrative search warrant in accordance with G.S. 15-27.2 or with permission of the owner, the owner's agent, a tenant, or other person legally in possession of the premises.

(c) Complaint and Hearing. – If the preliminary investigation discloses evidence of a violation of the minimum standards, the public officer shall issue and cause to be served upon the owner of and parties in interest in the nonresidential building or structure a complaint. The complaint shall state the charges and contain a notice that a hearing will be held before the public officer (or his or her designated agent) at a place within the county scheduled not less than 10 days nor more than 30 days after the serving of the complaint; that the owner and parties in interest shall be given the right to answer the complaint and to appear in person, or otherwise, and give testimony at the place and time fixed in the complaint; and that the rules of evidence prevailing in courts of law or equity shall not be controlling in hearings before the public officer.

(d) Order. – If, after notice and hearing, the public officer determines that the nonresidential building or structure has not been properly maintained so that the safety or health of its occupants or members of the general public is jeopardized for failure of the property to meet the minimum standards established by the governing body, the

public officer shall state in writing findings of fact in support of that determination and shall issue and cause to be served upon the owner thereof an order. The order may require the owner to take remedial action, within a reasonable time specified, subject to the procedures and limitations herein.

(e) Limitations on Orders. –

(1) An order may require the owner to repair, alter, or improve the nonresidential building or structure in order to bring it into compliance with the minimum standards established by the governing body or to vacate and close the nonresidential building or structure for any use.

(2) An order may require the owner to remove or demolish the nonresidential building or structure if the cost of repair, alteration, or improvement of the building or structure would exceed fifty percent (50%) of its then current value. Notwithstanding any other provision of law, if the nonresidential building or structure is designated as a local historic landmark, listed in the National Register of Historic Places, or located in a locally designated historic district or in a historic district listed in the National Register of Historic Places and the governing body determines, after a public hearing as provided by ordinance, that the nonresidential building or structure is of individual significance or contributes to maintaining the character of the district, and the nonresidential building or structure has not been condemned as unsafe, the order may require that the nonresidential building or structure be vacated and closed until it is brought into compliance with the minimum standards established by the governing body.

(3) An order may not require repairs, alterations, or improvements to be made to vacant manufacturing facilities or vacant industrial warehouse facilities to preserve the original use. The order may require such building or structure to be vacated and closed, but repairs may be required only when necessary to maintain structural integrity or to abate a health or safety hazard that cannot be remedied by ordering the building or structure closed for any use.

(f) Action by Governing Body Upon Failure to Comply With Order. –

(1) If the owner fails to comply with an order to repair, alter, or improve or to vacate and close the nonresidential building or structure, the governing body may adopt an ordinance ordering the public officer to proceed to effectuate the purpose of this section with respect to the particular property or properties that the public officer found to be jeopardizing the health or safety of its occupants or members of the general public. The property or properties shall be described in the ordinance. The ordinance shall be recorded in the office of the register of deeds and shall be indexed in the name of the property owner or owners in the grantor index. Following adoption of an ordinance, the public officer may cause the building or structure to be repaired, altered, or improved or to be vacated and closed. The public officer may cause to be posted on the main entrance of any nonresidential building or structure so closed a placard with the following words: "This building is unfit for any use; the use or occupation of this building for any purpose is prohibited and unlawful." Any person who

occupies or knowingly allows the occupancy of a building or structure so posted shall be guilty of a Class 3 misdemeanor.

(2) If the owner fails to comply with an order to remove or demolish the nonresidential building or structure, the governing body may adopt an ordinance ordering the public officer to proceed to effectuate the purpose of this section with respect to the particular property or properties that the public officer found to be jeopardizing the health or safety of its occupants or members of the general public. No ordinance shall be adopted to require demolition of a nonresidential building or structure until the owner has first been given a reasonable opportunity to bring it into conformity with the minimum standards established by the governing body. The property or properties shall be described in the ordinance. The ordinance shall be recorded in the office of the register of deeds and shall be indexed in the name of the property owner or owners in the grantor index. Following adoption of an ordinance, the public officer may cause the building or structure to be removed or demolished.
