(g) Action by Governing Body Upon Abandonment of Intent to Repair. – If the governing body has adopted an ordinance or the public officer has issued an order requiring the building or structure to be repaired or vacated and closed and the building or structure has been vacated and closed for a period of two years pursuant to the ordinance or order, the governing body may make findings that the owner has abandoned the intent and purpose to repair, alter, or improve the building or structure and that the continuation of the building or structure in its vacated and closed status would be inimical to the health, safety, and welfare of the municipality in that it would continue to deteriorate, would create a fire or safety hazard, would be a threat to children and vagrants, would attract persons intent on criminal activities, or would cause or contribute to blight and the deterioration of property values in the area. Upon such findings, the governing body may, after the expiration of the two-year period, enact an ordinance and serve such ordinance on the owner, setting forth the following:

(1) If the cost to repair the nonresidential building or structure to bring it into compliance with the minimum standards is less than or equal to fifty percent (50%) of its then current value, the ordinance shall require that the owner either repair or demolish and remove the building or structure within 90 days; or

(2) If the cost to repair the nonresidential building or structure to bring it into compliance with the minimum standards exceeds fifty percent (50%) of its then current value, the ordinance shall require the owner to demolish and remove the building or structure within 90 days.

In the case of vacant manufacturing facilities or vacant industrial warehouse facilities, the building or structure must have been vacated and closed pursuant to an order or ordinance for a period of five years before the governing body may take action under this subsection. The ordinance shall be recorded in the office of the register of deeds in the county wherein the property or properties are located and shall be indexed in the name of the property owner in the grantor index. If the owner fails to comply with the ordinance, the public officer shall effectuate the purpose of the ordinance.

(h) Service of Complaints and Orders. – Complaints or orders issued by a public officer pursuant to an ordinance adopted under this section shall be served upon persons either personally or by registered or certified mail so long as the means used are

reasonably designed to achieve actual notice. When service is made by registered or certified mail, a copy of the complaint or order may also be sent by regular mail. Service shall be deemed sufficient if the registered or certified mail is refused, but the regular mail is not returned by the post office within 10 days after the mailing. If regular mail is used, a notice of the pending proceedings shall be posted in a conspicuous place on the premises affected. If the identities of any owners or the whereabouts of persons are unknown and cannot be ascertained by the public officer in the exercise of reasonable diligence, and the public officer makes an affidavit to that effect, the serving of the complaint or order upon the owners or other persons may be made by publication in a newspaper having general circulation in the city at least once no later than the time that personal service would be required under this section. When service is made by publication, a notice of the pending proceedings shall be posted in a conspicuous place on the premises affected.

(i) Liens. –

(1) The amount of the cost of repairs, alterations, or improvements, or vacating and closing, or removal or demolition by the public officer shall be a lien against the real property upon which the cost was incurred, which lien shall be filed, have the same priority, and be collected as the lien for special assessment provided in Article 10 of Chapter 160A of the General Statutes.

(2) If the real property upon which the cost was incurred is located in an incorporated city, the amount of the costs is also a lien on any other real property of the owner located within the city limits except for the owner's primary residence. The additional lien provided in this subdivision is inferior to all prior liens and shall be collected as a money judgment.

(3) If the nonresidential building or structure is removed or demolished by the public officer, he or she shall offer for sale the recoverable materials of the building or structure and any personal property, fixtures, or appurtenances found in or attached to the building or structure and shall credit the proceeds of the sale, if any, against the cost of the removal or demolition, and any balance remaining shall be deposited in the superior court by the public officer, shall be secured in a manner directed by the court, and shall be disbursed by the court to the persons found to be entitled thereto by final order or decree of the court. Nothing in this section shall be construed to impair or limit in any way the power of the governing body to define and declare nuisances and to cause their removal or abatement by summary proceedings or otherwise.

(j) Ejectment. – If any occupant fails to comply with an order to vacate a nonresidential building or structure, the public officer may file a civil action in the name of the city to remove the occupant. The action to vacate shall be in the nature of summary ejectment and shall be commenced by filing a complaint naming as parties-defendant any person occupying the nonresidential building or structure. The clerk of superior court shall issue a summons requiring the defendant to appear before a magistrate at a certain time, date, and place not to exceed 10 days from the issuance of the summons to answer the complaint. The summons and complaint shall be served as provided in G.S. 42-29. The summons shall be returned according to its tenor, and if on its return it appears to have been duly served and if at the hearing the public officer

produces a certified copy of an ordinance adopted by the governing body pursuant to subsection (f) of this section to vacate the occupied nonresidential building or structure, the magistrate shall enter judgment ordering that the premises be vacated and all persons be removed. The judgment ordering that the nonresidential building or structure be vacated shall be enforced in the same manner as the judgment for summary ejectment entered under G.S. 42-30. An appeal from any judgment entered under this subsection by the magistrate may be taken as provided in G.S. 7A-228, and the execution of the judgment may be stayed as provided in G.S. 7A-227. An action to remove an occupant of a nonresidential building or structure who is a tenant of the owner may not be in the nature of a summary ejectment proceeding pursuant to this subsection unless the occupant was served with notice, at least 30 days before the filing of the summary ejectment proceeding, that the governing body has ordered the public officer to proceed to exercise his duties under subsection (f) of this section to vacate and close or remove and demolish the nonresidential building or structure.

(k) Civil Penalty. – The governing body may impose civil penalties against any person or entity that fails to comply with an order entered pursuant to this section. However, the imposition of civil penalties shall not limit the use of any other lawful remedies available to the governing body for the enforcement of any ordinances adopted pursuant to this section.

(l) Powers Supplemental. – The powers conferred by this section are supplemental to the powers conferred by any other law. An ordinance adopted by the governing body may authorize the public officer to exercise any powers necessary or convenient to carry out and effectuate the purpose and provisions of this section, including the following powers in addition to others herein granted:

(1) To investigate nonresidential buildings and structures in the city to determine whether they have been properly maintained in compliance with the minimum standards so that the safety or health of the occupants or members of the general public are not jeopardized.

(2) To administer oaths, affirmations, examine witnesses, and receive evidence.

(3) To enter upon premises pursuant to subsection (b) of this section for the purpose of making examinations in a manner that will do the least possible inconvenience to the persons in possession.

(4) To appoint and fix the duties of officers, agents, and employees necessary to carry out the purposes of the ordinances adopted by the governing body.

(5) To delegate any of his or her functions and powers under the ordinance to other officers and agents.

(m) Appeals. – The governing body may provide that appeals may be taken from any decision or order of the public officer to the city's housing appeals board or zoning board of adjustment. Any person aggrieved by a decision or order of the public officer shall have the remedies provided in G.S. 160A-446.

(n) Funding. – The governing body is authorized to make appropriations from its revenues necessary to carry out the purposes of this section and may accept and apply grants or donations to assist in carrying out the provisions of the ordinances adopted by the governing body.

(o) No Effect on Just Compensation for Taking by Eminent Domain. – Nothing in this section shall be construed as preventing the owner or owners of any property from receiving just compensation for the taking of property by the power of eminent

domain under the laws of this State, nor as permitting any property to be condemned or destroyed except in accordance with the police power of the State.

(p) Definitions. –

(1) "Parties in interest" means all individuals, associations, and corporations who have interests of record in a nonresidential building or structure and any who are in possession thereof.

(2) "Vacant manufacturing facility" means any building or structure previously used for the lawful production or manufacturing of goods, which has not been used for that purpose for at least one year and has not been converted to another use.

AN ACT TO AUTHORIZE THE UTILITIES COMMISSION TO CONSIDER DIFFERENCES BETWEEN ELECTRIC MEMBERSHIP CORPORATIONS AND CITIES NOT RESOLVED PURSUANT TO G.S. 160A-331.2(B), AS ENACTED BY S.L. 2005-150.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 160A-331.2 reads as rewritten:

"§ **160A-331.2. Agreements of electric suppliers.**

(a) The General Assembly finds and determines that, in order to avoid the unnecessary duplication of electric facilities and to facilitate the settlement of disputes between cities that are primary suppliers and other electric suppliers, it is desirable for the State to authorize electric suppliers to enter into agreements pursuant to which the parties to the agreements allocate to each other the right to provide electric service to premises each would not have the right to serve under this Article but for the agreement, provided that no agreement between a city that is a primary supplier and another electric supplier shall be enforceable by or against an electric supplier that is subject to the territorial assignment jurisdiction of the North Carolina Utilities Commission until the agreement has been approved by the Commission. The Commission shall approve an agreement entered into pursuant to this section unless it finds that such agreement is not in the public interest. Such agreements may allocate the right to serve premises by reference to specific premises, geographical boundaries, or amounts of unspecified load to be served, but no agreement shall affect in any way the rights of other electric suppliers who are not parties to the relevant agreement. The provisions of this section apply to agreements relating to electric service inside and outside the corporate limits of a city.

~~(b) During the period beginning June 1, 2005, and ending May 31, 2007, electric membership corporations and cities that own and maintain their own electric distribution lines shall undertake good faith negotiations concerning the provision of future electric services within areas outside of the corporate limits of such cities as of June 1, 2005, and the development of agreements relating to the provision of electric services, the location of lines, and the areas within which electric services may be provided by such electric suppliers. To the extent such negotiations produce any agreements between the affected electric suppliers, such agreements shall be submitted to the North Carolina Utilities Commission for approval under this section. To the extent such negotiations do not produce an agreement and disputes among the suppliers remain as of May 31, 2007, such disputes shall be resolved pursuant to the provisions of G.S. 7A-38.3C(i).~~

(c) To the extent negotiations undertaken pursuant to subsection (b) of this section, as enacted by S.L. 2005-150, have not resulted in an agreement between a negotiating electric membership corporation and a negotiating city by May 31, 2007, jurisdiction shall immediately lie in the North Carolina Utilities Commission to resolve all issues related to those negotiations. Either party to the negotiations may petition the Commission to exercise the jurisdiction conferred in this subsection upon the filing of a petition and the payment of a filing fee of five hundred dollars ($500.00). In reaching its decision, the Commission shall include consideration of the public convenience and necessity. The Commission shall not consider rate differentials between the involved city and the involved electric membership corporation.

(d) Notwithstanding an order of the Commission issued pursuant to subsection (c) of this section:

(1) Any electric membership corporation or city may furnish electric service to any consumer who desires service from that electric membership corporation or city at any premises being served by another electric membership corporation or city, or at premises which another electric membership corporation or city has the right to serve pursuant to subsection (c) of this section, upon agreement of the affected electric membership corporation or city, subject to approval by the Commission.

(2) The Commission shall have the authority and jurisdiction, after notice to all affected electric membership corporations and cities and after a hearing, if a hearing is requested by any affected electric membership corporation or city, or any other interested party, to order any electric membership corporation or city which may reasonably do so to furnish electric service to any consumer who desires service from that electric membership corporation or city at any premises being served by another electric membership corporation or city pursuant to subsection (c) of this section or subdivision (1) of this subsection, or which another electric membership corporation or city has the right to serve pursuant to subsection (c) of this section or subdivision (1) of this subsection, and to order the other electric membership corporation or city to cease and desist from furnishing electric service to such premises, upon finding that service to the consumer by the electric membership corporation or city which is then furnishing service, or which has the right to furnish service to those premises, is or will be inadequate or undependable, or that the rates, conditions of service, or service regulations, applied to such consumer, are unreasonably discriminatory.

(e) Assignments or reassignments made or approved by the Commission pursuant to subsection (c) or (d) of this section shall be deemed to be service area agreements approved pursuant to subsection (a) of this section."

SECTION 2. G.S. 117-10.2 reads as rewritten:

"§ **117-10.2. Restriction on municipal service.**

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 15A of the General Statutes is amended by adding a new Article to read:

"Article 14A.

"Eyewitness Identification Reform Act.

"**§ 15A-284.50. Short title.**

This Article shall be called the "Eyewitness Identification Reform Act".

"**§ 15A-284.51. Purpose.**

The purpose of this Article is to help solve crime, convict the guilty, and exonerate the innocent in criminal proceedings by improving procedures for eyewitness identification of suspects.

"**§ 15A-284.52. Eyewitness identification reform.**

(a) Definitions. – The following definitions apply in this Article:

(1) Eyewitness. – A person whose identification by sight of another person may be relevant in a criminal proceeding.

(2) Filler. – A person or a photograph of a person who is not suspected of an offense and is included in a lineup.

(3) Independent administrator. – A lineup administrator who is not participating in the investigation of the criminal offense and is unaware of which person in the lineup is the suspect.

(4) Live lineup. – A procedure in which a group of people is displayed to an eyewitness for the purpose of determining if the eyewitness is able to identify the perpetrator of a crime.

(5) Lineup. – A photo lineup or live lineup.

(6) Lineup administrator. – The person who conducts a lineup.

(7) Photo lineup. – A procedure in which an array of photographs is displayed to an eyewitness for the purpose of determining if the eyewitness is able to identify the perpetrator of a crime.

(b) Eyewitness Identification Procedures. – Lineups conducted by State, county, and other local law enforcement officers shall meet all of the following requirements:

(1) A lineup shall be conducted by an independent administrator or by an alternative method as provided by subsection (c) of this section.

(2) Individuals or photos shall be presented to witnesses sequentially, with each individual or photo presented to the witness separately, in a previously determined order, and removed after it is viewed before the next individual or photo is presented.

(3) Before a lineup, the eyewitness shall be instructed that:

a. The perpetrator might or might not be presented in the lineup,

b. The lineup administrator does not know the suspect's identity,

c. The eyewitness should not feel compelled to make an identification,

d. It is as important to exclude innocent persons as it is to identify the perpetrator, and

e. The investigation will continue whether or not an identification is made.

The eyewitness shall acknowledge the receipt of the instructions in writing. If the eyewitness refuses to sign, the lineup administrator shall note the refusal of the eyewitness to sign the acknowledgement and shall also sign the acknowledgement.

(4) In a photo lineup, the photograph of the suspect shall be contemporary and, to the extent practicable, shall resemble the suspect's appearance at the time of the offense.

(5) The lineup shall be composed so that the fillers generally resemble the eyewitness's description of the perpetrator, while ensuring that the suspect does not unduly stand out from the fillers. In addition:

a. All fillers selected shall resemble, as much as practicable, the eyewitness's description of the perpetrator in significant features, including any unique or unusual features.

b. At least five fillers shall be included in a photo lineup, in addition to the suspect.

c. At least five fillers shall be included in a live lineup, in addition to the suspect.

d. If the eyewitness has previously viewed a photo lineup or live lineup in connection with the identification of another person suspected of involvement in the offense, the fillers in the lineup in which the current suspect participates shall be different from the fillers used in any prior lineups.

(6) If there are multiple eyewitnesses, the suspect shall be placed in a different position in the lineup or photo array for each eyewitness.

(7) In a lineup, no writings or information concerning any previous arrest, indictment, or conviction of the suspect shall be visible or made known to the eyewitness.

(8) In a live lineup, any identifying actions, such as speech, gestures, or other movements, shall be performed by all lineup participants.

(9) In a live lineup, all lineup participants must be out of view of the eyewitness prior to the lineup.

(10) Only one suspect shall be included in a lineup.

(11) Nothing shall be said to the eyewitness regarding the suspect's position in the lineup or regarding anything that might influence the eyewitness's identification.

(12) The lineup administrator shall seek and document a clear statement from the eyewitness, at the time of the identification and in the eyewitness's own words, as to the eyewitness's confidence level that the person identified in a given lineup is the perpetrator. The lineup administrator shall separate all witnesses in order to discourage witnesses from conferring with one another before or during the procedure. Each witness shall be given instructions regarding the identification procedures without other witnesses present.

(13) If the eyewitness identifies a person as the perpetrator, the eyewitness shall not be provided any information concerning the person before the

lineup administrator obtains the eyewitness's confidence statement about the selection. There shall not be anyone present during the live lineup or photographic identification procedures who knows the suspect's identity, except the eyewitness and counsel as required by law.

(14) Unless it is not practical, a video record of live identification procedures shall be made. If a video record is not practical, the reasons shall be documented, and an audio record shall be made. If neither a video nor audio record are practical, the reasons shall be documented, and the lineup administrator shall make a written record of the lineup.

(15) Whether video, audio, or in writing, the record shall include all of the following information:

a. All identification and nonidentification results obtained during the identification procedure, signed by the eyewitness, including the eyewitness's confidence statement. If the eyewitness refuses to sign, the lineup administrator shall note the refusal of the eyewitness to sign the results and shall also sign the notation.

b. The names of all persons present at the lineup.

c. The date, time, and location of the lineup.

d. The words used by the eyewitness in any identification, including words that describe the eyewitness's certainty of identification.

e. Whether it was a photo lineup or live lineup and how many photos or individuals were presented in the lineup.

f. The sources of all photographs or persons used.

g. In a photo lineup, the photographs themselves.

h. In a live lineup, a photo or other visual recording of the lineup that includes all persons who participated in the lineup.

(c) Alternative Methods for Identification if Independent Administrator Is Not Used. – In lieu of using an independent administrator, a photo lineup eyewitness identification procedure may be conducted using an alternative method specified and approved by the North Carolina Criminal Justice Education and Training Standards Commission. Any alternative method shall be carefully structured to achieve neutral administration and to prevent the administrator from knowing which photograph is being presented to the eyewitness during the identification procedure. Alternative methods may include any of the following:

(1) Automated computer programs that can automatically administer the photo lineup directly to an eyewitness and prevent the administrator from seeing which photo the witness is viewing until after the procedure is completed.

(2) A procedure in which photographs are placed in folders, randomly numbered, and shuffled and then presented to an eyewitness such that the administrator cannot see or track which photograph is being presented to the witness until after the procedure is completed.

(3) Any other procedures that achieve neutral administration.

(d) Remedies. – All of the following shall be available as consequences of compliance or noncompliance with the requirements of this section:

(1) Failure to comply with any of the requirements of this section shall be considered by the court in adjudicating motions to suppress eyewitness identification.

(2) Failure to comply with any of the requirements of this section shall be admissible in support of claims of eyewitness misidentification, as long as such evidence is otherwise admissible.

(3) When evidence of compliance or noncompliance with the requirements of this section has been presented at trial, the jury shall be instructed that it may consider credible evidence of compliance or noncompliance to determine the reliability of eyewitness identifications.

"**§ 15A-284.53. Training of law enforcement officers.**

Pursuant to its authority under G.S. 17C-6 and G.S. 17E-4, the North Carolina Criminal Justice Education and Training Standards Commission and the North Carolina Sheriffs' Education and Training Standards Commission, in consultation with the Department of Justice, shall create educational materials and conduct training programs on how to conduct lineups in compliance with this Article."

Whenever the creditable service purchased pursuant to this subsection is for a period that occurs during the four consecutive calendar years that would have produced the highest average annual

compensation pursuant to G.S. 135-1(5) had the member not been on leave of absence without pay, then the compensation that the member would have received during the purchased period shall be included in calculating the member's average final compensation. In such cases, the compensation that the member would have received during the purchased period shall be based on the annual rate of compensation of the member immediately prior to the leave of absence."

SECTION 12. G.S. 135-5(l) reads as rewritten:

"(l) Death Benefit Plan. – There is hereby created a Group Life Insurance Plan (hereinafter called the "Plan") which is established as an employee welfare benefit plan that is separate and apart from the Retirement System and under which the members of the Retirement System shall participate and be eligible for group life insurance benefits. Such death benefit shall be payable apart and separate from the payment of the member's accumulated contributions under the System on his death pursuant to the provisions of subsection (f) of this section. For the purpose of the Plan, a member shall be deemed to be in service at the date of his death if his death occurs within 180 days from the last day of his actual service.

The death benefit provided in this subsection (l) shall not be payable, notwithstanding the member's compliance with all the conditions set forth in the preceding paragraph, if his death occurs

(1) After December 31, 1968 and after he has attained age 70; or

(2) After December 31, 1969 and after he has attained age 69; or

(3) After December 31, 1970 and after he has attained age 68; or

Notwithstanding the above provisions, the death benefit shall be payable on account of the death of any member who died or dies on or after January 1, 1974, but before January 1, 1979, after attaining age 65, if he or she had not yet attained age 65, if he or she had not yet attained age 66, was at the time of death completing the work year for

those individuals under specific contract, or during the fiscal year for those individuals not under specific contract, in which he or she attained 65, and otherwise met all conditions for payment of the death benefit.

To that end the Board of Trustees is authorized, empowered and directed to investigate the desirability of utilizing group life insurance by either of the foregoing methods for the purpose of providing the death benefit. If a separate trust fund is established, it shall be operated in accordance with rules and regulations adopted by the Board of Trustees and all investment earnings on the trust fund shall be credited to such fund.

In administration of the death benefit the following shall apply:

(1) For the purpose of determining eligibility only, in this subsection "calendar year" shall mean any period of 12 consecutive months or, if less, the period covered by an annual contract of employment. (3) For a period when a member is on leave of absence, his status with respect to the death benefit will be determined by the provisions of G.S. 135-4(h).

(4) A member on leave of absence from his position as a teacher or State employee for the purpose of serving as a member or officer of the General Assembly shall be deemed to be in service during sessions of the General Assembly and thereby covered by the provisions of the death benefit. The amount of the death benefit for such member shall be the equivalent of the salary to which the member would have been entitled as a teacher or State employee during the 12-month period immediately prior to the month in which death occurred, not to be less than twenty-five thousand dollars ($25,000) nor to exceed fifty thousand dollars ($50,000).

G.S. 135-105 would have ended, shall be eligible for group life insurance benefits as provided in this subsection, notwithstanding that the member is no longer an employee or teacher or that the member's death occurs after the eligibility period after active service. This death benefit shall be a lump-sum payment in the amount of five thousand dollars ($5,000) upon the completion of twenty-four months of contributions required under this subsection. Should death occur before the completion of twenty-four months of contributions required under this subsection, the deceased retired member's surviving spouse or legal representative if not survived by a spouse shall be paid the sum of the retired member's contributions required by this subsection plus interest to be determined by the Board of Trustees.

This death benefit shall be a lump-sum payment in the amount of six thousand dollars ($6,000) upon the completion of 24 months of contributions required under this subsection. Should death occur before the completion of 24 months of contributions required under this subsection, the deceased retired member's surviving spouse or legal representative if not survived by a spouse shall be paid the sum of the retired member's contributions required by this subsection plus interest to be determined by the Board of Trustees.

(1) Electronic recording. – An audio recording that is an authentic, accurate, unaltered record; or a visual recording that is an authentic, accurate, unaltered record.

(2) Place of detention. – A jail, police or sheriff's station, correctional or detention facility, holding facility for prisoners, or other facility where persons are held in custody in connection with criminal charges.

(3) In its entirety. – An uninterrupted record that begins with and includes a law enforcement officer's advice to the person in custody of that person's constitutional rights, ends when the interview has completely finished, and clearly shows both the interrogator and the person in custody throughout. If the record is a visual recording, the camera recording the custodial interrogation must be placed so that the camera films both the interrogator and the suspect. Brief periods of recess, upon request by the person in custody or the law enforcement officer, do not constitute an "interruption" of the record. The record will reflect the starting time of the recess and the resumption of the interrogation.

(d) Electronic Recording of Interrogations Required. – Any law enforcement officer conducting a custodial interrogation in a homicide investigation shall make an electronic recording of the interrogation in its entirety.

(e) Admissibility of Electronic Recordings. – During the prosecution of any homicide, an oral, written, nonverbal, or sign language statement of a defendant made in the course of a custodial interrogation may be presented as evidence against the defendant if an electronic recording was made of the custodial interrogation in its entirety and the statement is otherwise admissible. If the court finds that the defendant was subjected to a custodial interrogation that was not electronically recorded in its entirety, any statements made by the defendant after that non-electronically recorded custodial interrogation, even if made during an interrogation that is otherwise in compliance with this section, may be questioned with regard to the voluntariness and reliability of the statement. The State may establish through clear and convincing evidence that the statement was both voluntary and reliable and that law enforcement officers had good cause for failing to electronically record the interrogation in its entirety. Good cause shall include, but not be limited to, the following:

(1) The accused refused to have the interrogation electronically recorded, and the refusal itself was electronically recorded.

(2) The failure to electronically record an interrogation in its entirety was the result of unforeseeable equipment failure, and obtaining replacement equipment was not feasible.

(f) Remedies for Compliance or Noncompliance. – All of the following remedies shall be granted as relief for compliance or noncompliance with the requirements of this section:

(1) Failure to comply with any of the requirements of this section shall be considered by the court in adjudicating motions to suppress a statement of the defendant made during or after a custodial interrogation.

(2) Failure to comply with any of the requirements of this section shall be admissible in support of claims that the defendant's statement was involuntary or is unreliable, provided the evidence is otherwise admissible.

(3) When evidence of compliance or noncompliance with the requirements of this section has been presented at trial, the jury shall be instructed that it may consider credible evidence of compliance or noncompliance to determine whether the defendant's statement was voluntary and reliable.

(g) Article Does Not Preclude Admission of Certain Statements. – Nothing in this Article precludes the admission of any of the following:

(1) A statement made by the accused in open court during trial, before a grand jury, or at a preliminary hearing.

(2) A spontaneous statement that is not made in response to a question.

(3) A statement made during arrest processing in response to a routine question.

(4) A statement made during a custodial interrogation that is conducted in another state by law enforcement officers of that state.

(5) A statement obtained by a federal law enforcement officer.

(6) A statement given at a time when the interrogators are unaware that the person is suspected of a homicide.

(7) A statement used only for impeachment purposes and not as substantive evidence.

(h) Destruction or Modification of Recording After Appeals Exhausted. – The State shall not destroy or alter any electronic recording of a custodial interrogation of a defendant convicted of any offense related to the interrogation until one year after the completion of all State and federal appeals of the conviction, including the exhaustion of any appeal of any motion for appropriate relief or habeas corpus proceedings. Every electronic recording should be clearly identified and catalogued by law enforcement personnel."

"§ **105-113.4. Definitions.**

The following definitions apply in this Article:

…

(4a) Integrated wholesale dealer. – A wholesale dealer who is an affiliate of a manufacturer of tobacco products, other than cigarettes, is the only person to whom the manufacturer sells its products, and is not a retail dealer. Once granted permission, a manufacturer may choose not to pay the tax until otherwise notified by the Secretary. To be relieved of payment of the tax imposed by this section, a manufacturer must comply with the requirements set by the Secretary.

Permission granted under this subsection to a manufacturer to be relieved of paying the tax imposed by this section applies to an integrated wholesale dealer with whom the manufacturer is an affiliate. A manufacturer must notify the Secretary of any integrated wholesale dealer with whom it is an affiliate when the manufacturer applies to the Secretary for permission to be relieved of paying the tax and when an integrated wholesale dealer becomes an affiliate of the manufacturer after the Secretary has given the manufacturer permission to be relieved of paying the tax.

If a person is both a manufacturer of cigarettes and a wholesale dealer of tobacco products other than cigarettes and the person is granted permission under G.S. 105-113.10 to be relieved of paying the cigarette excise tax, the permission applies to the tax imposed by this section on tobacco products other than cigarettes. A cigarette manufacturer who becomes a wholesale dealer after receiving permission to be relieved of the cigarette excise tax must notify the Secretary of the permission received under G.S. 105-113.10 when applying for a license as a wholesale dealer."

Whereas, the General Assembly established the Riparian Buffer Protection Program (G.S. 143-214.20) to provide alternatives for persons who would otherwise be required to maintain riparian buffers; and

Whereas, the General Assembly directed the Environmental Management Commission to establish a compensatory mitigation fee to be paid into the Riparian Buffer Restoration Fund; and

Whereas, the Environmental Management Commission adopted a revised schedule of compensatory mitigation fees for nutrient loading offsets on 12 January 2006 in accordance with the Administrative Procedure Act; and

Whereas, the General Assembly enacted S.L. 2006-215, as amended by S.L. 2006-218 and S.L. 2006-255, which established a temporary per pound factor and method of calculation for nutrient offset fees in lieu of the fee schedule adopted by the Environmental Management Commission and directed the Environmental Review Commission to study issues related to the nutrient offset payment program; and

Whereas, the Environmental Review Commission entered into a contract with Research Triangle Institute, International (RTI), to provide consultant services for a study of the costs associated with providing nutrient controls that are adequate to offset point source and nonpoint source discharges of nitrogen and other nutrients; and

Whereas, the Environmental Review Commission received the final report from RTI on 11 June 2007; and

Whereas, the final report from RTI recommended a nutrient offset payment factor for nitrogen in the Neuse River Basin of $25.77 per pound of nitrogen; and

Whereas, the final report from RTI recommended a nutrient offset payment factor for nitrogen in the Tar-Pamlico River Basin of $19.70 per pound of nitrogen; and

Whereas, the final report from RTI recommended a nutrient offset payment factor for phosphorous in the Tar-Pamlico River Basin of $26.02 per tenth of a pound of phosphorus; and

(2) For nitrogen in the Tar-Pamlico River Basin, twenty-one dollars and sixty-seven cents ($21.67) per pound of nitrogen, calculated in accordance with the method used as of 1 January 2006 for determining pounds of nitrogen per acre.

(3) For phosphorous in the Tar-Pamlico River Basin, twenty-eight dollars and sixty-two cents ($28.62) per tenth of a pound of phosphorous.

SECTION 2. No later than 1 September 2009, the Department of Environment and Natural Resources shall develop and implement a plan to transition the North Carolina Ecosystem Enhancement Program nutrient offset program from a fee-based program to a program based on the actual costs of providing nutrient credits. The new program shall use the least cost alternative for providing nutrient offset credits consistent with rules adopted by the Environmental Management Commission for implementation of nutrient management strategies in the Neuse River Basin and the Tar-Pamlico River Basin.

SECTION 3. The Department of Environment and Natural Resources shall report on its progress in developing and implementing a new fee structure for the

nutrient offset program to the Environmental Review Commission on 1 September 2008 and 1 March 2009.

SECTION 4. Nutrient offset payments may be used to partially offset the nitrogen loading requirements specified in 15A NCAC 2B .0234 and 2B .0235 for the Neuse River Basin and to partially offset the nitrogen and phosphorous loading requirements specified in 15A NCAC 2B .0258 for the Tar-Pamlico River Basin by payment into the Riparian Buffer Restoration Fund administered by the Department of Environment and Natural Resources. In addition, partial offset credits to meet the requirements of 15A NCAC 2B .0234, 2B .0235, and 2B .0258 may also be obtained through nutrient offset projects provided by organizations and parties not affiliated with the Department. All nutrient offset projects authorized under this section shall be consistent with rules adopted by the Environmental Management Commission for implementation of nutrient management strategies in the Neuse River Basin and the Tar-Pamlico River Basin and shall be located within the same eight digit Cataloging Unit, designated by the United States Geological Survey, in which the associated nutrient loading takes place.

SECTION 5. This act becomes effective 1 September 2007 and applies to all nutrient offset payments, including those set out in 15A NCAC 2B .0240, as adopted by the Environmental Management Commission on 12 January 2006. The fee schedule set out in Section 1 of this act expires 1 September 2009.

The director of the county department of social services, or the director's designee shall grant a waiver of the penalty period due to undue hardship if the individual meets the conditions set forth in subsection (e) of this section. As used in this section, "long term care services" are those services described in 42 U.S.C. § 1396p(c)(1)(C)(i) and (ii).

(b) When a Medicaid applicant who is requesting Medicaid to pay for institutional care requests a waiver of a penalty period due to undue hardship, the determination of whether to waive the penalty period shall be processed as part of the Medicaid application and is subject to the application processing standards set forth in 10A NCAC 21B .0203.

(c) When an ongoing Medicaid recipient applies for institutional care or is receiving Medicaid payment for institutional care receives the notice described in subsection (a) of this section, the recipient has 12 calendar days from the date of the notice to request a waiver of the penalty due to undue hardship. The following are the procedures for processing the waiver request:

(1) Within five work days of receipt of a request for a waiver of the transfer of assets penalty, the county department of social services shall notify the individual in writing of the information and documentation necessary to determine if the requirements for approving the undue hardship waiver are met.

(2) The individual shall have 12 calendar days from the date of the notice specified in subdivision (1) of this subsection to provide the necessary information and documentation to establish the undue hardship.

(3) If at the end of the first 12 calendar day period the necessary information and documentation has not been received by the county department of social services, the county department of social services shall again notify the individual of the necessary information and documentation. The individual shall be given an additional 12 calendar days to provide the information and documentation.

(4) If the individual fails to request the undue hardship waiver within 12 calendar days from the date of the notice described in subsection (a) of this section, the county department of social services shall impose the transfer of assets penalty in accordance with notice requirements in G.S. 108A-79.

(5) If by the end of the 12 calendar days from the notice described in subdivision (3) of this subsection, the necessary information and documentation has not been received by the county department of social services, the county department of social services shall deny the request for waiver of the penalty for undue hardship and notify the individual of the denial in accordance with G.S. 108A-79.

(6) If by the end of the time allowed under subdivisions (2) and (3) of this subsection the county department of social services has received the necessary information and documentation, the county department of social services shall make a determination of whether the imposition of the penalty period would cause an undue hardship to the individual. The county department of social services shall complete the determination and notify the individual, pursuant to subsection (g) of this section, of whether the imposition of the penalty period will be waived due to undue hardship within 12 calendar days of the receipt of the necessary information and documentation.

(7) If as part of the determination described in subdivision (6) of this subsection the county department of social services identifies the need for additional information and documentation, it shall notify the individual in writing of that information and documentation. This notice shall initiate a new period of time for the individual to provide the information and documentation as set forth in subdivisions (2) and (3) of this subsection. Within 12 calendar days of the receipt of the additional information and documentation, the county department of social services shall complete the determination and notify the individual, pursuant to subsection (g) of this section, of whether the imposition of the penalty period will be waived due to undue hardship.

A facility applying for a waiver for an individual residing in the facility shall adhere to the requirements of this section but shall not be required to advance the costs of acquiring an attorney to aid the institutionalized individual.

(e) Except as provided for in subsection (f) of this section, undue hardship exists if the imposition of the penalty period would deprive the individual of medical care, such that the individual's health or life would be endangered; or of food, clothing, shelter, or other necessities of life. The individual must provide the information and

documentation necessary to demonstrate to the director of the county department of social services or the director's designee that:

For purposes of this

sub-subdivision, "homesite" means the principal place of residence of the individual or the community spouse in which the individual or community spouse has an equity interest.

(f) An undue hardship shall not exist when the application of a transfer of assets penalty merely causes the individual an inconvenience or restricts the individual's lifestyle.

(2) An undue hardship does not exist, the county department of social services shall deny the request for the waiver of the penalty and notify the individual of denial of the waiver request in accordance with G.S. 108A-79.

(h) During a penalty period that has been waived because of undue hardship, acquisition by the individual of new or increased income or resources shall be treated as a change in situation and evaluated pursuant to the rules adopted by the Department of Health and Human Services.

(i) While the determination on a request for a waiver of the penalty period due to undue hardship is pending, Medicaid shall not make payments for nursing facility services or intermediate care facility for the mentally retarded services to hold a bed for the individual, as described in 42 U.S.C. § 1396p(c)(2)(D). However, if the individual is institutionalized and receiving Medicaid payment for services, Medicaid will maintain the same level of services until the last day of the month after the latter of the following:

Session Law 2007-446 **House Bill 73**

AN ACT TO IMPROVE THE STATE CAPITAL FACILITIES PROGRAM BY DIRECTING THE STATE BUILDING COMMISSION TO REVIEW THE PROGRAM AND IMPLEMENT MEASURES TO REDUCE DELAYS AND INCREASE ACCOUNTABILITY AMONG THE PARTIES TO THE DESIGN AND CONSTRUCTION PROCESS, BY INCREASING THE BIDDING AND DESIGNER SELECTION THRESHOLDS FOR STATE CONSTRUCTION CONTRACTS, AND BY DIRECTING THE STATE PERSONNEL OFFICE TO CONDUCT A MARKET STUDY OF ARCHITECT AND ENGINEERING POSITION CLASSIFICATIONS.

Whereas, delays in the completion of State capital improvement projects that occur during designer selection, the construction plan review process, construction, and the construction inspection process can result in millions of dollars in increased construction costs due to inflation; and

Whereas, the State Building Commission was created within the Department of Administration to direct and guide the State's capital facilities development and management program; and

Whereas, the State Building Commission has the responsibility for establishing the criteria for and overseeing designer selection for State facilities, adopting rules, coordinating the plan review, approval, and permit process for State capital improvements, and studying and recommending ways to improve the effectiveness and efficiency of the State's capital facilities development and management program; and

Whereas, greater clarity, coordination, and accountability among the agencies responsible for the examination of plans and specifications for the construction and renovation of State facilities and for the construction insp7ections of those facilities, the owning agencies/institutions as defined in the State Construction Manual, designers, and contractors could reduce these delays and facilitate the timely completion of such projects resulting in significant dollar savings to the State; and

Whereas, the influx of project reviews occasioned by the 2000 Higher Education Bond Act created serious workload and resource issues for the State Construction Office and the Department of Insurance; and

Whereas, costly delays in the plan review and inspections process for State construction projects are occurring in part due to the inability of the State to attract qualified architects and engineers to conduct such reviews and inspections, and there are no plans at this time for a State Personnel Office market study of architect and engineering positions; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. The State Building Commission shall examine the State capital improvement process and shall establish or modify, as necessary, the guidelines for the selection of designers and the rules governing the design, plan review, and inspection of State building projects. In carrying out its examination and proposing and modifying its guidelines and rules, the Commission shall consult with all of the State departments involved in the capital improvement process, including (i) the agencies responsible for the examination of plans and specifications for the construction and renovation of State facilities and for the supervision and inspection of all work done and materials used in

the construction or renovation of State facilities (review and inspection agencies), (ii) the owning agencies/institutions as defined in the State Construction Manual (owning agencies), (iii) the Board of Governors of The University of North Carolina, and (iv) the State Board of Community Colleges. In carrying out the provisions of this section, the Commission shall:

(1) Examine the State Construction Manual for opportunities to increase the accountability of all parties to the State capital improvement process.

(2) Determine whether the review and inspection agencies have sufficiently formalized and documented their review standards and processes.

(3) Oversee the proper documentation of review standards and processes where necessary.

(4) Facilitate the establishment of clear expectations for all parties to the process, including the owning agencies, review and inspection agencies, designers, and contractors. The Commission shall work with owning agencies and review and inspection agencies to develop a standard set of time measurements for the design process and the construction process and shall consider the development of other standard measures of performance for all the parties to the design, review, inspection, and construction process.

(5) Review the State's standard design contract for opportunities to strengthen the accountability of design firms to the owning agencies. In particular, the Commission shall consider the inclusion of a designer's e-mail address as a requirement of the standard design contract.

SECTION 2. The State Building Commission shall file an interim report on or before April 30, 2008, and a final report on or before December 31, 2008, with the Joint Legislative Commission on Governmental Operations, the Joint Legislative Oversight Committee on Capital Improvements, the Appropriations Committees of the House of Representatives and Senate, and the Fiscal Research Division of the General Assembly. The report shall cover the activities of the Commission in implementing the provisions of Section 1 of this act and any recommendations to improve the coordination and efficacy of the design, review, inspection, and construction process. The report also shall cover the implementation of the recommendations from the Legislative Study Commission on State Construction Inspections, including:

(1) Efforts to include owning agencies on all correspondence between review and inspection agencies, designers, and contractors.

(2) Implementation of new services by review and inspection agencies, including the use of face-to-face meetings to expedite the review process and construction schedule.

(3) The impact of any statutory changes providing State agencies with greater flexibility in design and construction contracts.

SECTION 3. The State Personnel Office shall work with the Department of Administration, the Department of Insurance, and other State agencies employing architects and engineers to perform a market study of architect and engineer salaries and position classifications. The State Personnel Office shall complete the study as soon as possible, but in no event later than six months from the effective date of this section.

SECTION 4. G.S. 143-135.26(2) reads as rewritten:

"(2) To adopt rules for coordinating the plan review, approval, and permit process for State capital improvement and community college buildings, as defined in subdivision (4) of this section. The rules shall provide for a specific time frame for plan review and approval and permit issuance by each agency, consistent with applicable laws. The time frames shall be established to provide for expeditious review, approval, and permitting of State capital improvement projects and community college buildings. To further expedite the plan review, approval, and permit process, the State Building Commission shall develop a standard memorandum of understanding to be executed by the funded agency and all reviewing agencies for each State capital improvement project. The memorandum of understanding, at minimum, shall include provisions for establishing:

a. The type and frequency of plan reviews.

b. The submittal dates for each plan review.

a1. To organize and schedule, within three weeks of designer selection and before the design contract is let, a meeting of the stakeholders for each State capital improvement project to discuss plan review requirements and to define the terms of the memorandum of understanding developed by the State Building Commission pursuant to G.S. 143-135.26(2). The stakeholders shall include the funded agency, each State agency having plan review responsibilities for the project, and the selected designer. Notwithstanding the foregoing, the meeting need not be scheduled if the funded agency so requests.

b. To assist, as necessary, all agencies in the preparation of requests for appropriations for the construction or renovation of all State buildings.

b1. To certify that a statement of needs pursuant to G.S. 143C-3-3 is feasible. For purposes of this sub-subdivision, "feasible" means that the proposed project is sufficiently defined in overall scope; building program; site development; detailed design, construction, and equipment budgets; and comprehensive

project scheduling so as to reasonably ensure that it may be completed with the amount of funds requested. At the discretion of the General Assembly, advanced planning funds may be appropriated in support of this certification. This sub-subdivision shall not apply to requests for appropriations of less than one hundred thousand dollars ($100,000).

The land manager shall designate a representative with knowledge of off-road bicycle trail building to negotiate the agreement. Upon establishment of the usage agreement, any bicyclist may use the land pursuant to the agreement.

The land manager shall not be required to create, maintain, or make available any special trails, paths, or other accommodations to any user of the land for cycling purposes. However, once a usage agreement has been established, any local cycling group or organization may create and maintain special trails for cycling purposes. Any trails created for the purpose of off-road cycling shall be created and maintained using commonly accepted best practices.

(b) Notwithstanding the provisions of subsection (a) of this section, any land may be restricted or removed from use by bicyclists if it is determined by the State, an agency of the State, or the holder of land purchased or leased with State funds that the use would cause substantial harm to the land or the environment or that the use would violate another State or federal law. Before restricting or removing land from use by bicyclists, the State, the agency of the State, or the holder of the land purchased or leased with State funds must show why the lands should not be open for use by bicyclists. Local cycling groups or organizations shall be notified of the intent to restrict or remove the land from use by bicyclists and provided an opportunity to show why cycling should be allowed on the land. Notice of any land restricted or removed from use by bicyclists pursuant to this subsection shall be filed with the Division of Bicycle and Pedestrian Transportation of the Department of Transportation.

(c) The Division of Bicycle and Pedestrian Transportation of the Department of Transportation shall keep a record of all lands made open and available for use by bicyclists pursuant to this section and shall make the information available to the public upon request.

(d) Any land open and available for use by bicyclists, pursuant to subsection (a) of this section, shall also be available to members of the public for hiking and walking. Persons using the land pursuant to this subsection shall yield the right-of-way to bicyclists when hiking or walking on any trails created and maintained for the purpose of off-road cycling and so designated along that trail.

(e) Notwithstanding any other provision of this section, any hiking, walking, or use of bicycles on game lands administered by the Wildlife Resources Commission shall be restricted to roads and trails designated for vehicular use. Hiking, walking, or bicycle use by persons not hunting shall be restricted to days closed to hunting. The Wildlife Resources Commission may restrict the use of bicycles on game lands where

necessary to protect sensitive wildlife habitat or species and shall file notice of any restrictions with the Division of Bicycle and Pedestrian Transportation of the Department of Transportation."

SECTION 2. This act becomes effective January 1, 2008. Any agreements for usage of land by bicyclists entered into prior to the effective date of this act are not affected by this act. Upon passage of this act and prior to its effective date, the State, an agency of this State, or a holder of land purchased or leased with State funds, shall determine if the land should be restricted or removed from availability and use and provide to, in writing, the Division of Bicycle and Pedestrian Transportation any reasons to support the decision.

AN ACT RECOGNIZING JUNETEENTH NATIONAL FREEDOM DAY IN NORTH CAROLINA.

Whereas, June 19, 1865, is considered the date when the last enslaved Americans were notified of their new legal status by General Gordon Granger, who arrived in Galveston, Texas, and issued General Order Number Three almost two and one-half years after President Lincoln had issued the Emancipation Proclamation; and

Whereas, former slaves in Texas began to observe June 19 as the anniversary of their emancipation and coined the term "Juneteenth"; and

Whereas, Juneteenth is the oldest nationally celebrated commemoration of the ending of slavery in the United States and is also known as "Juneteenth National Freedom Day," "Emancipation Day," "Emancipation Celebration," "Freedom Day," "Jun-Jun," "Juneteenth Independence Day"; and

Whereas, Juneteenth commemorates the survival, due to God-given strength and determination, of African-Americans through extreme adversity, hardship, and triumph; and

Whereas, Americans of all colors, creeds, cultures, religions, and countries of origin share in a common love of and respect for freedom, as well as the determination to protect their right to freedom through the democratic institutions by which the tenets of freedom are guaranteed and protected; and

Whereas, the nineteenth of June, along with the fourth of July, completes the cycle of freedom for Americans' Independence Day observance; and

Whereas, Juneteenth is recognized as a state holiday or state holiday observance in many states, including Texas, Oklahoma, Florida, Delaware, Idaho, Alaska, Iowa, California, Wyoming, Missouri, Connecticut, Illinois, Louisiana, New Jersey, New York, Colorado, Arkansas, Oregon, Kentucky, Michigan, New Mexico, Virginia, Washington, and Tennessee; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. When Juneteenth National Freedom Day or a substantially similar holiday becomes a nationally recognized holiday, the General Assembly shall recognize the nineteenth day of June each year as Juneteenth National Freedom Day, to

commemorate the end of slavery in the United States and to demonstrate racial reconciliation and healing from the legacy of slavery.

SECTION 2. This act is effective when it becomes law.

In the General Assembly read three times and ratified this the 2nd day of August, 2007.

Became law upon approval of the Governor at 11:55 a.m. on the 23rd day of August, 2007.

Session Law 2007-451 **House Bill 1785**

AN ACT TO REQUIRE CIGARETTE FIRE SAFETY BY ADOPTING A CIGARETTE FIRE-SAFETY STANDARD AND TO CLARIFY THE STOCKHOLDER REQUIREMENTS FOR A BEHAVIORAL HEALTH PROFESSIONAL CORPORATION.

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 58 of the General Statutes is amended by adding a new Article to read:

"Article 92.

"Fire-Safety Standard and Firefighter Protection Act.

"**§ 58-92-1. Title.**

This Article shall be known and may be cited as the "Fire-Safety Standard and Firefighter Protection Act."

"**§ 58-92-5. Findings.**

The General Assembly finds:

(1) Cigarettes are the leading cause of fire deaths in this State and the nation.

(2) Each year in the United States, 700-900 persons are killed due to cigarette fires, and 3,000 are injured in fires ignited by cigarettes, while in this State, there were 2,916 cigarette-related fires in North Carolina during the period 2001-2006.

(3) A high proportion of the victims of cigarette fires are nonsmokers, including senior citizens and young children.

(4) Cigarette-caused fires result in billions of dollars of property losses and damages in the United States and millions of dollars in this State.

(5) Cigarette fires unnecessarily jeopardize firefighters and result in avoidable emergency response costs for municipalities.

(6) In 2004, New York State implemented a cigarette fire-safety regulation requiring cigarettes sold in that state to meet a fire-safety performance standard; in 2005, Vermont and California enacted cigarette fire-safety laws directly incorporating New York's regulation into statute; and, in 2006, Illinois, New Hampshire, and Massachusetts joined these states in enacting such laws.

(7) In 2005, Canada implemented the New York State fire-safety standard contained in the other state laws, becoming the first nation to have a cigarette fire-safety standard.

(8) New York State's cigarette fire-safety standard is based upon decades of research by the National Institute of Standards and Technology, congressional research groups, and private industry.

(9) This cigarette fire-safety standard minimizes costs to the State and minimally burdens cigarette manufacturers, distributors, and retail sellers, and, therefore, should become law in this State.

(10) It is therefore fitting and proper for this State to adopt the cigarette fire-safety standard that is in effect in New York State to reduce the likelihood that cigarettes will cause fires and result in deaths, injuries, and property damages.

"§ **58-92-10. Definitions.**

For the purposes of this Article:

(1) "Agent" means any person authorized by the Department of Revenue to pay the excise tax on packages of cigarettes.

Such a program ensures that the testing repeatability remains within the required repeatability values stated in G.S. 58-92-15(a6) for all test trials used to certify cigarettes in accordance with this Article.

(6) "Repeatability" means the range of values within which the repeat results of cigarette test trials from a single laboratory will fall ninety-five percent (95%) of the time.

(7) "Retail dealer" means any person, other than a manufacturer or distributor, engaged in selling cigarettes or tobacco products.

"**§ 58-92-15. Test method and performance standard.**

(a) Except as provided in subsection (g) of this section, no cigarettes may be sold or offered for sale in this State or offered for sale or sold to persons located in this State unless the cigarettes have been tested in accordance with the test method and meet the performance standard specified in this section, a written certification has been filed by the manufacturer with the Commissioner in accordance with G.S. 58-92-20, and the cigarettes have been marked in accordance with G.S. 58-92-25.

(a1) Testing of cigarettes shall be conducted in accordance with the American Society of Testing and Materials (ASTM) standard E2187-04, "Standard Test Method for Measuring the Ignition Strength of Cigarettes."

(a2) Testing shall be conducted on 10 layers of filter paper.

(a3) No more than twenty-five percent (25%) of the cigarettes tested in a test trial in accordance with this section shall exhibit full-length burns. Forty replicate tests shall comprise a complete test trial for each cigarette tested.

(a4) The performance standard required by this section shall only be applied to a complete test trial.

(a5) Written certifications shall be based upon testing conducted by a laboratory that has been accredited pursuant to standard ISO/IEC 17025 of the International Organization for Standardization (IOS) or other comparable accreditation standard required by the Commissioner.

(a6) Laboratories conducting testing in accordance with this section shall implement a quality control and quality assurance program that includes a procedure that will determine the repeatability of the testing results. The repeatability value shall be no greater than 0.19.

(a7) This section does not require additional testing if cigarettes are tested consistent with this Article for any other purpose.

(a8) Testing performed or sponsored by the Commissioner to determine a cigarette's compliance with the performance standard required shall be conducted in accordance with this section.

(b) Each cigarette listed in a certification submitted pursuant to G.S. 58-92-20 that uses lowered permeability bands in the cigarette paper to achieve compliance with the performance standard set forth in this section shall have at least two nominally identical bands on the paper surrounding the tobacco column. At least one complete band shall be located at least 15 millimeters from the lighting end of the cigarette. For cigarettes on which the bands are positioned by design, there shall be at least two bands fully located at least 15 millimeters from the lighting end and 10 millimeters from the filter end of the tobacco column, or 10 millimeters from the labeled end of the tobacco column for nonfiltered cigarettes.

(c) A manufacturer of a cigarette that the Commissioner determines cannot be tested in accordance with the test method prescribed in subsection (a1) of this section shall propose a test method and performance standard for the cigarette to the Commissioner. Upon approval of the proposed test method and a determination by the Commissioner that the performance standard proposed by the manufacturer is equivalent to the performance standard prescribed in subsection (a3) of this section, the manufacturer may employ such test method and performance standard to certify such cigarette pursuant to G.S. 58-92-20. If the Commissioner determines that another state has enacted reduced cigarette ignition propensity standards that include a test method and performance standard that are the same as those contained in this Article, and the Commissioner finds that the officials responsible for implementing those requirements have approved the proposed alternative test method and performance standard for a particular cigarette proposed by a manufacturer as meeting the fire-safety standards of that state's law or regulation under a legal provision comparable to this section, then the Commissioner shall authorize that manufacturer to employ the alternative test method and performance standard to certify that cigarette for sale in this State, unless the Commissioner demonstrates a reasonable basis why the alternative test should not be accepted under this Article. All other applicable requirements of this section shall apply to the manufacturer.

(d) Each manufacturer shall maintain copies of the reports of all tests conducted on all cigarettes offered for sale for a period of three years and shall make copies of these reports available to the Commissioner and the Attorney General upon written request. Any manufacturer who fails to make copies of these reports available within 60 days of receiving a written request shall be subject to a civil penalty not to exceed ten thousand dollars ($10,000) for each day after the sixtieth day that the manufacturer does not make such copies available.

(e) The Commissioner may adopt a subsequent ASTM Standard Test Method for Measuring the Ignition Strength of Cigarettes upon a finding that such subsequent method does not result in a change in the percentage of full-length burns exhibited by any tested cigarette when compared to the percentage of full-length burns the same cigarette would exhibit when tested in accordance with ASTM Standard E2187-04 and the performance standard in subsection (a3) of this section.

(f) The Commissioner shall review the effectiveness of this section and report every three years to the General Assembly the Commissioner's findings, and if appropriate, recommendations for legislation to improve the effectiveness of this Article. The report and legislative recommendations shall be submitted no later than June 30 following the conclusion of each three-year period.

(g) The requirements of subsections (a) through (a8) of this section shall not prohibit:

(1) Distributors or retail dealers from selling their existing inventory of cigarettes on or after the effective date of this Article if the distributor or retail dealer can establish that all taxes owed on the cigarettes pursuant to Article 2A of Chapter 105 of the General Statutes have been paid prior to the effective date of this Article and the distributor or retail dealer can establish that the inventory was purchased prior to the effective date in comparable quantity to the inventory purchased during the same period of the prior year.

(2) The sale of cigarettes solely for the purpose of consumer testing.

(h) The Commissioner shall implement this Article in accordance with the implementation and substance of the New York Fire Safety Standards for Cigarettes.

(i) No local government may pass any ordinance changing the performance standard set forth in this section.

"**§ 58-92-20. Certification and product change.**

(a) Each manufacturer shall submit to the Commissioner a written certification attesting both of the following:

(1) Each cigarette listed in the certification has been tested in accordance with G.S. 58-92-15.

(2) Each cigarette listed in the certification meets the performance standard set forth in G.S. 58-92-15.

(b) Each cigarette listed in the certification shall be described with the following information:

(1) Brand or trade name on the package.

(2) Style, such as light or ultralight.

(4) Circumference in millimeters.

(5) Flavor, such as menthol or chocolate, if applicable.

(6) Filter or nonfilter.

(7) Package description, such as soft pack or box.

(8) Marking pursuant to G.S. 58-92-25.

(9) The name, address, and telephone number of the laboratory, if different than the manufacturer that conducted the test.

(10) The date that the testing occurred.

(c) Certifications shall be made available to the Attorney General for purposes consistent with this Article and the Commissioner for the purposes of ensuring compliance with this section.

(d) Each cigarette certified under this section shall be recertified every three years.

(e) For each certification form, a manufacturer shall pay to the Commissioner a fee of two hundred fifty dollars ($250.00). The Commissioner may annually adjust this fee to ensure it defrays the actual costs of the processing, testing, enforcement, and oversight activities required by this Article.

(f) There is established in the State treasury a separate, nonreverting fund to be known as the "Fire Safety Standard and Firefighter Protection Act Enforcement Fund." The fund shall consist of all certification fees submitted by manufacturers and shall, in addition to any other monies made available for such purpose, be available to the Commissioner solely to support processing, testing, enforcement, and oversight activities under this Article.

(g) If a manufacturer has certified a cigarette pursuant to this section, and thereafter makes any change to such cigarette that is likely to alter its compliance with the reduced cigarette ignition propensity standards required by this Article, that cigarette shall not be sold or offered for sale in this State until the manufacturer retests the cigarette in accordance with the testing standards set forth in G.S. 58-92-15 and maintains records of that retesting as required by G.S. 58-92-15. Any altered cigarette which does not meet the performance standard set forth in G.S. 58-92-15 may not be sold in this State.

"**§ 58-92-25. Marking of cigarette packaging.**

(a) Cigarettes that are certified by a manufacturer in accordance with G.S. 58-92-20 shall be marked to indicate compliance with the requirements of G.S. 58-92-15. The marking shall be in eight-point type or larger and consist of one of the following:

(1) Modification of the product UPC Code to include a visible mark printed at or around the area of the UPC Code. The mark may consist of alphanumeric or symbolic characters permanently stamped, engraved, embossed, or printed in conjunction with the UPC.

(2) Any visible combination of alphanumeric or symbolic characters permanently stamped, engraved, or embossed upon the cigarette package or cellophane wrap.

(3) Printed, stamped, engraved, or embossed text that indicates that the cigarettes meet the standards of this Article.

(b) A manufacturer shall use only one marking and shall apply this marking uniformly for all packages, including, but not limited to, packs, cartons, and cases and brands marketed by that manufacturer.

(c) The Commissioner shall be notified as to the marking that is selected.

(d) Prior to the certification of any cigarette, a manufacturer shall present its proposed marking to the Commissioner for approval. Upon receipt of the request, the Commissioner shall approve or disapprove the marking offered, except that the Commissioner shall approve:

(1) Any marking in use and approved for sale in New York pursuant to the New York Fire Safety Standards for Cigarettes, or

(2) The letters "FSC," which signifies Fire Standards Compliant, appearing in eight-point type or larger and permanently printed, stamped, engraved, or embossed on the package at or near the UPC Code.

(d1) Proposed markings shall be deemed approved if the Commissioner fails to act within 10 business days of receiving a request for approval.

(e) No manufacturer shall modify its approved marking unless the modification has been approved by the Commissioner in accordance with this section.

(f) Manufacturers certifying cigarettes in accordance with G.S. 58-92-20 shall provide a copy of the certifications to all distributors and agents to which they sell cigarettes and shall also provide sufficient copies of an illustration of the package marking utilized by the manufacturer pursuant to this section for each retail dealer to which the distributors or agents sell cigarettes. Distributors and agents shall provide a copy of these package markings received from manufacturers to all retail dealers to which they sell cigarettes. Distributors, agents, and retail dealers shall permit the Commissioner, the Secretary of Revenue, the Attorney General, and their employees to inspect markings of cigarette packaging marked in accordance with this section.

"**§ 58-92-30. Penalties.**

(b) A retail dealer who knowingly sells or offers to sell cigarettes in violation of G.S. 58-92-15 shall be subject to a civil penalty not to exceed one hundred dollars

($100.00) for each pack of such cigarettes sold or offered for sale, provided that in no case shall the penalty against any retail dealer exceed twenty-five thousand dollars ($25,000) for sales or offers to sell during any 30-day period.

(f) In addition to any other remedy provided by law, the Commissioner or Attorney General may file an action in the superior court for a violation of this Article, including petitioning for injunctive relief or to recover any costs or damages suffered by the State because of a violation of this Article, including enforcement costs relating to the specific violation and attorneys' fees. Each violation of this Article or of rules or regulations adopted under this Article constitutes a separate civil violation for which the Commissioner or Attorney General may obtain relief.

(g) Whenever any law enforcement personnel or duly authorized representative of the Commissioner shall discover any cigarettes that have not been marked in the manner required by G.S. 58-92-25, such personnel is hereby authorized and empowered to seize and take possession of such cigarettes. Such cigarettes shall be turned over to the Department of Revenue and shall be forfeited to the State. Cigarettes seized pursuant to this section shall be destroyed; provided, however, that prior to the destruction of any cigarette seized pursuant to these provisions, the true holder of the trademark rights in the cigarette brand shall be permitted to inspect the cigarette.

(h) Any penalty imposed under this Article shall be payable to the Commissioner.

(i) A violation of this Article constitutes a civil offense only and is not a crime.

"**§ 58-92-35. Implementation.**

Every person in the possession, control, or occupancy of any premises where cigarettes are placed, sold, or offered for sale is hereby directed and required to give the Attorney General, the Department of Revenue, and the Commissioner, their duly authorized representatives, and other law enforcement personnel the means, facilities, and opportunity for the examinations authorized by this section.

"**§ 58-92-55. Preemption.**

AN ACT TO ESTABLISH A PILOT PROGRAM TO PROVIDE FUNDS FOR LOCAL SCHOOL ADMINISTRATIVE UNITS TO RETROFIT SCHOOL BUSES IN ORDER TO REDUCE DIESEL EMISSIONS FROM CERTAIN DIESEL SCHOOL BUSES REGISTERED IN COUNTIES LOCATED IN AREAS DESIGNATED AS NONATTAINMENT OR MAINTENANCE FOR OZONE OR PARTICULATE MATTER.

The General Assembly of North Carolina enacts:

SECTION 1. Legislative Findings. – The General Assembly makes the following findings:

(1) Diesel emissions, due in large part to their high concentrations of particulate matter, are associated with severe and multiple health risks to the citizens of North Carolina, including increased risk of cancer, decreased lung function, aggravated asthma, heart attacks, and premature death.

(2) The United States Environmental Protection Agency, recognizing the harmful effects of diesel emissions, issued new fuel and engine emission standards that will reduce particulate matter emissions from new engines ninety percent (90%) below previous levels, beginning with vehicle model year 2007.

(3) The same technology that makes ninety percent (90%) reductions in diesel emissions possible for new engines can be retrofitted onto existing engines.

(4) The Safe Accountable, Flexible, Efficient Transportation Equity Act – A Legacy for Users (SAFETEA-LU), Pub. L. No. 109-59, 119 Stat. 1144, 23 U.S.C. § 149, clarified eligibility for diesel matter retrofit projects from federal congestion mitigation and air quality improvement program funds apportioned to the State by the United States pursuant to 23 U.S.C. § 104(b)(2) and establishes those projects as a priority for funding. North Carolina should act now to position itself to maximize eighty percent (80%) federal matching dollars available through this program as provided in 23 U.S.C. § 120.

SECTION 2.(a) Pilot Program to Retrofit Certain School Buses. – The Department of Environment and Natural Resources, in consultation with the Department of Public Instruction, the Department of Transportation, and stakeholders, shall develop a pilot program, to be administered by the Department of Environment and Natural Resources, to award grants to retrofit school buses in order to reduce diesel emissions from school buses in any county that is located in an area that is designated by the United States Environmental Protection Agency as nonattainment or maintenance for ozone or particulate matter. A local school administrative unit may submit an application to the Department of Environment and Natural Resources for a grant to have any eligible school bus retrofitted in order to utilize an appropriate verified diesel emission control device as determined by the Department of Environment and Natural Resources. A school bus is eligible to have a diesel retrofit using grant funds if the school bus: (i) has a model year 1994 through model year 2006 engine; (ii) is registered in a county that is located in an area that is designated by the United States Environmental Protection Agency as nonattainment or maintenance for ozone or

particulate matter; (iii) is capable of operating on diesel fuel and; (iv) is used for the transportation of public school students. The Department of Environment and Natural Resources may adopt guidelines and engineering standards as needed to implement this act. The Department of Environment and Natural Resources shall develop grant application procedures, the criteria and priorities for selecting grant recipients and further selection of which school buses of these grant recipients may use grant funds for diesel retrofits under this pilot program, and procedures for distribution of grant funds and federal-aid funds reimbursed under Section 7 of this act to a local school administrative unit selected as a grant recipient. The criteria that may be considered in grant recipient selection includes the remaining useful life of a school bus and the accumulated mileage and years of service of a school bus. Priority designation for selection of school buses for retrofits using grant funds may be given for a diesel retrofit that results in the greatest particulate matter reduction, considering the costs of operating, maintaining, and repairing the verified diesel emission control device, for the longest remaining useful life of the school bus.

SECTION 2.(b) Definitions. – As used in this act, the following definitions apply:

(1) Diesel retrofit. – Defined in Chapter 149 of Title 23 of the United States Code.

(2) Level 1 Control. – A verified diesel emission control device that achieves a particulate matter emission reduction of twenty-five percent (25%) or more but less than fifty percent (50%) from uncontrolled engine emissions levels.

(3) Level 2 Control. – A verified diesel emission control device that achieves a particulate matter emission reduction of fifty percent (50%) or more but less than eighty-five percent (85%) from uncontrolled engine emissions levels.

(4) Level 3 Control. – A verified diesel emission control device that achieves a particulate matter emission reduction of eighty-five percent (85%) or more from uncontrolled engine emission levels, or that reduces emissions to less than or equal to 0.01 grams of particulate matter per brake horsepower-hour. Level 3 Control includes repowering or replacing the existing diesel engine with an engine that meets the United States Environmental Protection Agency 2007 Heavy Duty Highway Diesel Standards set out in the Final Rule published on 18 January 2001 in the Federal Register, Volume 66, Number 12, Pages 5002 through 5193. Level 3 Control also includes new diesel engines for the 2007 model year or later that meet the emissions standards that achieve particulate matter emissions reductions that are ninety percent (90%) less than particulate matter emissions standards for diesel engines in the 2006 model year.

(5) Verified diesel emission control device. – An emission control device or strategy that has been verified by the United States Environmental Protection Agency or the California Air Resources Board; the replacement or repowering of the vehicle with an engine that is certified to specific particulate matter emissions performance by the United States Environmental Protection Agency or the California Air Resources Board; or a device that reduces crankcase emissions by ninety percent (90%) or more from uncontrolled crankcase emissions

levels, whether or not the device is verified by United States Environmental Protection Agency or the California Air Resources Board as an emission control device or strategy.

SECTION 2.(c) Appropriate Retrofit Technology. – Within one year of the effective date of this section, the Secretary of Environment and Natural Resources, in consultation with the Department of Public Instruction, may make a written finding that a model, model year, or any other category concerning the type or use of a school bus that is eligible for a grant under subsection (a) of this section cannot be retrofitted with Level 3 Control, and that the category may use grant funds to be retrofitted with Level 2 Control, if it is available and appropriate for the category, installed, and operational. Within one year of the effective date of this section, the Secretary of Environment and Natural Resources, in consultation with the Department of Public Instruction, may make a written finding that a model, model year, or any other category concerning the type or use of a school bus that is eligible for a grant under subsection (a) of this section cannot be retrofitted with Level 2 Control, and that the category may use grant funds to be retrofitted with Level 1 Control, if it is available and appropriate for the category, installed, and operational. The Secretary of Environment and Natural Resources may require additional emissions control to be used for those school buses retrofitted with Level 1 Control using grant funds. Within one year of the effective date of this section, the Secretary of Environment and Natural Resources, in consultation with the Department of Public Instruction, may make a written finding regarding: the comparative economic impact, health benefits, and technological feasibility of using Level 1 Control, Level 2 Control, Level 3 Control, or other verified diesel emission control device under this pilot program; which device results in the greatest emissions reductions, considering the cost of operating, maintaining, and repairing the devices over their anticipated useful life; recommendations regarding the appropriate verified diesel emission control device to be used for retrofits under this pilot program consistent with these findings. In addition to any other issues of retrofit technology considered when making any finding under this subsection, the Secretary of Environment and Natural Resources and the Department of Public Instruction may consider the remaining useful life of a school bus and the accumulated mileage and years of service of a school bus.

SECTION 2.(d) Coordination Among Departments. – The Department of Environment and Natural Resources shall coordinate with the Department of Public Instruction, the Department of Transportation, and the Department of Administration to determine if the effective and efficient implementation of this pilot program requires any of these departments to have a role beyond any role specified in this act, and if so, the Department of Public Instruction, the Department of Transportation, and the Department of Administration, as applicable, may adopt guidelines and engineering standards as needed to implement this section. The Department of Transportation may amend its Transportation Improvement Program and otherwise satisfy any other requirement under federal law so that school bus retrofits under this pilot program qualify for reimbursement of federal-aid funds as provided under Section 6 of this act.

SECTION 3.(a) School Bus Diesel Emissions Reduction Account Established. – The School Bus Diesel Emissions Reduction Account is established as a nonreverting account within the Department of Environment and Natural Resources. The Account shall consist of funds appropriated to it by the General Assembly and any contributions or grants from public or private sources.

SECTION 3.(b) Permissible Uses of the School Bus Diesel Emissions Reduction Account. – The Department of Environment and Natural Resources shall distribute funds in the School Bus Diesel Emissions Reduction Account as grants to local school administrative units for retrofitting school buses under this pilot program. The distributed funds shall be in an amount that is equal to twenty percent (20%) of the costs of purchasing a diesel retrofit for each school bus selected for retrofitting, based upon the costs of purchasing a diesel retrofit for a school bus as determined by the Department of Environment and Natural Resources. The funds shall be used by the local school unit to match the federal-aid funds that are to be reimbursed under Section 6 of this act, provided the Metropolitan Planning Organization for the area in which that local school administrative unit seeking grant funds under this pilot program has amended its Transportation Improvement Program and has otherwise satisfied any requirement under federal law so that the diesel retrofit as it applies to this local school administrative unit qualifies for reimbursement of federal-aid funds as provided under Section 6 of this act. Funds in the School Bus Diesel Emissions Reduction Account shall not be used for any costs associated with any school bus retrofit in excess of the sum of the twenty-percent (20%) share the local school administrative unit received in grant funds under this section for each diesel retrofit and the eighty-percent (80%) share in federal-aid funds for each diesel retrofit. Costs associated with any school bus retrofit in excess of this sum, if any, shall be borne by the local school administrative unit that operates the school bus. Any funds in the School Bus Diesel Emissions Reduction Account that have not been used or obligated as of 1 July 2008 in accordance with this section may be used to make grants to local school administrative units for one hundred percent (100%) of the costs for purchasing a diesel retrofit for a school bus as determined by the Department of Environment and Natural Resources. Funds in the School Bus Diesel Emissions Reduction Account shall not be used for any costs associated with any school bus retrofit in excess of one hundred percent (100%) of the costs for purchasing a diesel retrofit for a school bus as determined by the Department of Environment and Natural Resources, and excess costs associated with any school bus retrofit, if any, shall be borne by the local school administrative unit that operates the school bus.

SECTION 3.(c) Prohibited Uses of the School Bus Diesel Emissions Reduction Account. – Funds in the School Bus Diesel Emissions Reduction Account shall not be used for any school bus with tampered, nonconforming, or defective emission control components.

SECTION 4.(a) Transfer of Information. – On or before 1 August 2008, the Department of Public Instruction shall submit to the Department of Environment and Natural Resources the following information:

(1) The total number of school buses that are eligible for grants under Section 2(a) of this act.

(2) The number of school buses that are equipped with an engine certified to the applicable United States Environmental Protection Agency standard for particulate matter as set out in 40 Code of Federal Regulations §§ 86.007-11 (1 July 2006 Edition).

SECTION 4.(b) Annual Report Required. – On or before 1 September 2008, and again on or before 1 September 2009, the Department of Environment and Natural Resources shall submit a report to the Department of Public Instruction, the Department of Transportation, and the Environmental Review Commission on the pilot program

under this act. This report shall include the information submitted under subsection (a) of this section and shall also include:

(1) The total number of school buses that have the retrofit technology installed and operational under this pilot program, including a breakdown by location, vehicle model year, engine year, and the type of verified diesel emission control device used for each school bus.

(2) The anticipated emissions reductions based on the emissions certification of the verified diesel emission control devices used and the annual miles the school buses are expected to drive.

(3) Any recommendations to further reduce diesel emissions from school buses and whether the program to retrofit certain school buses registered in a county that is located in an area that is designated by the United States Environmental Protection Agency as nonattainment or maintenance for ozone or particulate matter is accomplishing its purpose to reduce diesel emissions, improve air quality, and protect students' health.

(4) The feasibility and the cost of expanding the funding for this pilot program for all eligible school buses for local school administrative units in counties that are located in an area that is designated by the United States Environmental Protection Agency as nonattainment or maintenance for ozone or particulate matter.

(5) The feasibility and the cost of expanding this pilot program statewide.

SECTION 5. Credit for Emissions Reductions. – The Department of Environment and Natural Resources shall work together with federal, State, and local air quality and transportation agencies to determine how emissions reductions achieved through implementation of this act may be quantified and credited by the United States Environmental Protection Agency to the appropriate emissions reduction objectives in the State Implementation Plan or Transportation Conformity determinations.

SECTION 6. Reimbursement of Federal-Aid Funds. – The Department of Transportation may reimburse up to two million dollars ($2,000,000) for the 2007-2008 fiscal year from the federal congestion mitigation and air quality improvement program funds apportioned to the State of North Carolina by the United States pursuant to 23 U.S.C. § 104(b)(2), to the Department of Environment and Natural Resources for the costs of purchasing diesel retrofits for school buses under the pilot program under this act. This reimbursement may provide the eighty percent (80%) in federal-aid funds, as provided in 23 U.S.C. § 120, for the costs of purchasing diesel retrofits for school buses to supplement the funds awarded as grants under Section 3(b) of this act. The Department of Transportation and the Department of Environment and Natural Resources may enter into a contract that provides for the terms and method by which the Department of Environment and Natural Resources bills the Department of Transportation for reimbursement of eligible costs of purchasing diesel retrofits for school buses and submits itemized invoices with proper supporting documentation. This contract may provide a reimbursement schedule.

SECTION 7. Effective Dates. – Section 6 of this act becomes effective 1 July 2007, and the remainder of this act is effective when this act becomes law, but Sections 1 through 6 of this act become effective only if the 2007 General Assembly appropriates funds for the 2007-2008 fiscal year to the School Bus Diesel Emissions Reduction Account established in Section 3(a) of this act to be used for grants to local

school administrative units for the purchase of diesel retrofits for school buses consistent with the pilot program under this act.

Session Law 2007-485 **Senate Bill 646**

AN ACT TO PROVIDE PROPERTY TAX RELIEF FOR WORKING WATERFRONT PROPERTY, TO ESTABLISH THE ADVISORY COMMITTEE FOR THE COORDINATION OF WATERFRONT ACCESS, TO MAKE EXPANDED PUBLIC ACCESS TO COASTAL WATERS A PRIORITY IN PLANNING STATE ROAD PROJECTS, TO INCREASE FEES FOR VESSEL TITLING, TO WAIVE PERMIT FEES FOR EMERGENCY COASTAL AREA MANAGEMENT ACT PERMITS, AND TO DIRECT A STUDY OF

CONSTRUCTION AND REPAIR IN REGULATED FLOOD ZONES, AS RECOMMENDED BY THE WATERFRONT ACCESS STUDY COMMITTEE.

The General Assembly of North Carolina enacts:

PART I. PROPERTY TAX RELIEF FOR WORKING WATERFRONT PROPERTY.

SECTION 1. Article 12 of Subchapter II of Chapter 105 of the General Statutes is amended by adding the following new section to read:

"**§ 105-277.14. Taxation of working waterfront property.**

(a) Definitions. – The following definitions apply in this section:

(1) Coastal fishing waters. – Defined in G.S. 113-129.

(2) Commercial fishing operation. – Defined in G.S. 113-168.

(3) Fish processing. – Processing fish, as defined in G.S. 113-129, for sale.

(4) Working waterfront property. – Any of the following property that has, for the most recent three-year period, produced an average gross income of at least one thousand dollars ($1,000):

a. A pier that extends into coastal fishing waters and limits access to those who pay a fee.

b. Real property that is adjacent to coastal fishing waters and is primarily used for a commercial fishing operation or fish processing, including adjacent land that is under improvements used for one of these purposes.

(b) Classification. – Working waterfront property is designated a special class of property under Section 2(2) of Article V of the North Carolina Constitution and must be appraised, assessed, and taxed on the basis of the value of the property in its present use rather than on its true value. Working waterfront property includes land reasonably necessary for the convenient use of the property.

(c) Deferred Taxes. – The difference between the taxes that are due on working waterfront property taxed on the basis of its present use and that would be due if the property were taxed on the basis of its true value is a lien on the property. The difference in taxes must be carried forward in the records of each taxing unit as deferred taxes. The deferred taxes become due when the property no longer qualifies as working waterfront property. The tax for the fiscal year that opens in the calendar year in which deferred taxes become due is computed as if the property had not been classified for that year, and taxes for the preceding three fiscal years that have been deferred are immediately payable, together with interest, as provided in G.S. 105-360 for unpaid taxes. Interest accrues on the deferred taxes due as if they had been payable on the dates on which they originally became due. If only a part of the property no longer qualifies as working waterfront property, the assessor must determine the amount of deferred taxes applicable to that part and that amount becomes payable with interest. Upon the payment of any taxes deferred under this section for the three years immediately preceding a disqualification, all liens arising under this subsection are extinguished.

(d) Application. – To obtain the benefit of this section, the owner of working waterfront property must submit an application for classification and exclusion to the assessor of the county in which the property is located, and the assessor must approve the application. An application must contain the information and be in the form required

by the assessor. An initial application must be filed during the regular listing period of the year for which the benefit of this classification is first claimed or within 30 days of the date shown on a notice of change in valuation made pursuant to G.S. 105-286 or G.S. 105-287. A new application is not required to be submitted unless the property is transferred or becomes ineligible for classification under this section."

PART II. ADVISORY COMMITTEE FOR THE COORDINATION OF WATERFRONT ACCESS.

SECTION 2.1. There is established the Advisory Committee for the Coordination of Waterfront Access within the Department of Environment and Natural Resources. The Advisory Committee shall be composed of the following members:

PART III. DIRECT THE DEPARTMENT OF TRANSPORTATION TO EXPAND PUBLIC ACCESS TO COASTAL WATERS.

SECTION 3.1. G.S. 136-18 is amended by adding a new subdivision to read:

"(40) To expand public access to coastal waters in its road project planning and construction programs. The Department shall work with the Wildlife Resources Commission, other State agencies, and other government entities to address public access to coastal waters along the roadways, bridges, and other transportation infrastructure owned or maintained by the Department. The Department shall adhere to all applicable design standards and guidelines in implementation of this enhanced access. SECTION 4.2. G.S. 75A-5(a) reads as rewritten:

"(a) Application for Certificate of Number and Fees. – The owner of each vessel requiring numbering by this State shall file an application for a certificate of number with the Commission. The Commission shall furnish application forms and shall prescribe the information contained in the application form. The application shall be signed by the owner of the vessel or the owner's agent and shall be accompanied by a ~~fee of ten dollars ($10.00)~~ fee. The fee is fifteen dollars ($15.00) for a one-year period or ~~by a fee of twenty-five dollars ($25.00)~~ forty dollars ($40.00) for a three-year ~~period; provided, however, there shall be no fee charged for~~ period. The fee does not apply to vessels owned and operated by nonprofit rescue squads if they are operated exclusively for rescue purposes, including rescue training. The owner shall have the option of selecting a one-year numbering period or a three-year numbering period. Upon receipt of the application in approved form, the Commission shall enter the application in its

records and issue the owner a certificate of number stating the identification number awarded to the vessel and the name and address of the owner, and a validation decal indicating the expiration date of the certificate of number. The owner shall paint on or attach to each side of the bow of the vessel the identification number in such manner as may be prescribed by rules of the Commission in order that it may be clearly visible. The identification number shall be maintained in legible condition. The validation decal shall be displayed on the starboard bow of the vessel immediately following the number. The certificate of number shall be pocket size and shall be available for inspection on the vessel for which the certificate is issued at all times the vessel is in operation. Any person charged with failing to so carry a certificate of number shall not be convicted if the person produces in court a certificate of number previously issued to the owner that was valid at the time of the alleged violation."

SECTION 4.3. G.S. 75A-5(c) reads as rewritten:

"(c) Change of Ownership. – Should the ownership of a vessel change, a new application form with a fee ~~of ten dollars ($10.00) for a one-year period or by a fee of twenty-five dollars ($25.00) for a three-year period~~ in the amount set in subsection (a) of this section shall be filed with the Commission and a new certificate bearing the same identification number shall be awarded to the new owner in the same manner as an original certificate of number. Possession of the certificate shall in cases involving prosecution for violation of any provision of this Chapter be prima facie evidence that the person whose name appears on the certificate is the owner of the vessel referred to on the certificate."

SECTION 4.4. G.S. 75A-5(h) reads as rewritten:

"(h) Renewal of Certificates. – An owner of a vessel awarded a certificate of number pursuant to this Chapter shall renew the certificate on or before the first day of the month after which the certificate expires; otherwise, the certificate shall lapse and be void until such time as it may thereafter be renewed. SECTION 5. G.S. 113A-118(f) reads as rewritten:

These permits may only be issued in those extraordinary situations in which life or structural property is in imminent danger as a result of storms, sudden failure of man-made structures, or similar occurrence. These permits may carry any conditions necessary to protect the public interest, consistent with the emergency situation and the impact of the proposed development. If an application for an emergency permit includes work beyond that necessary to reduce imminent dangers to life or property, the emergency permit shall be limited to that development reasonably necessary to reduce the imminent danger; all further development shall be considered under ordinary permit procedures. This emergency permit authority of the Secretary shall extend to all development in areas of environmental concern, whether major or minor development, and the mandatory notice provisions of G.S. 113A-119(b) shall not apply to these emergency

permits. To the extent feasible, these emergency permits shall be coordinated with any emergency permits required under G.S. 113-229(e1). The fees associated with any permit issued pursuant to this subsection or rules adopted pursuant to this subsection shall be waived."

PART VI. STUDY CONSTRUCTION AND REPAIR IN REGULATED FLOOD ZONES.

SECTION 6. The Division of Emergency Management of the Department of Crime Control and Public Safety shall study ways to facilitate the construction and repair of water dependent structures such as fish processing and packing facilities and boat repair and building facilities located in regulated flood zones. The Division shall report the results of its study, including any recommendations, to the Joint Legislative Commission on Seafood and Aquaculture by March 1, 2008.

PART VII. EFFECTIVE DATE.

Session Law 2007-486 **House Bill 291**

AN ACT PROVIDING FOR HOW THE STATE TREASURER SHALL ADDRESS CERTAIN STATE INVESTMENTS RELATING TO SUDAN.

The General Assembly of North Carolina enacts:

SECTION 1. Legislative findings.

(1) On July 23, 2004, the United States Congress declared that "the atrocities unfolding in Darfur, Sudan, are genocide."

(2) On September 9, 2004, Secretary of State Colin L. Powell told the U.S. Senate Foreign Relations Committee that "genocide has occurred and may still be occurring in Darfur" and "the Government of Sudan and the Janjaweed bear responsibility."

(3) On September 21, 2004, addressing the United Nations General Assembly, President George W. Bush affirmed the Secretary of State's finding and stated, "At this hour, the world is witnessing terrible suffering and horrible crimes in the Darfur region of Sudan, crimes my government has concluded are genocide."

(4) On December 7, 2004, the U.S. Congress noted that the genocidal policy in Darfur has led to reports of "systematic rape of thousands of women and girls, the abduction of women and children, and the destruction of hundreds of ethnically African villages, including the poisoning of their wells and the plunder of their crops and cattle upon which the people of such villages sustain themselves."

(5) Also on December 7, 2004, Congress found that "the Government of Sudan has restricted access by humanitarian and human rights workers to the Darfur area through intimidation by military and security forces, and through bureaucratic and administrative obstruction, in an attempt to inflict the most devastating harm on those individuals displaced from their villages and homes without any means of sustenance or shelter."

(6) On September 25, 2006, Congress reaffirmed that "the genocide unfolding in the Darfur region of Sudan is characterized by acts of terrorism and atrocities directed against civilians, including mass murder, rape, and sexual violence committed by the Janjaweed and associated militias with the complicity and support of the National Congress Party-led faction of the Government of Sudan."

(7) On September 26, 2006, the U.S. House of Representatives stated that "an estimated 300,000 to 400,000 people have been killed by the Government of Sudan and its Janjaweed allies since the [Darfur] crisis began in 2003, more than 2,000,000 people have been displaced from their homes, and more than 250,000 people from Darfur remain in refugee camps in Chad."

(8) The Darfur crisis represents the first time the United States Government has labeled ongoing atrocities genocide.

(9) The Federal Government has imposed sanctions against the Government of Sudan since 1997. These sanctions are monitored through the U.S. Treasury Department's Office of Foreign Assets Control (OFAC).

(10) According to a former chair of the U.S. Securities and Exchange Commission, "the fact that a foreign company is doing material business with a country, government, or entity on OFAC's sanctions list is, in the SEC staff's view, substantially likely to be significant to a reasonable investor's decision about whether to invest in that company."

(11) Since 1993, the U.S. Secretary of State has determined that Sudan is a country the government of which has repeatedly provided support for acts of international terrorism, thereby restricting United States assistance, defense exports and sales, and financial and other transactions with the Government of Sudan.

(12) A 2006 U.S. House of Representatives report states that "a company's association with sponsors of terrorism and human rights abuses, no matter how large or small, can have a materially adverse result on a public company's operations, financial condition, earnings, and stock prices, all of which can negatively affect the value of an investment."

(13) In response to the financial risk posed by investments in companies doing business with a terrorist-sponsoring state, the Securities and Exchange Commission established its Office of Global Security Risk to provide for enhanced disclosure of material information regarding such companies.

(14) The current Sudan divestment movement encompasses nearly 100 universities, cities, states, and private pension plans.

(15) Companies facing such widespread divestment present further material risk to remaining investors.

(16) It is a fundamental responsibility of the State of North Carolina to decide where, how, and by whom financial resources in its control should be invested, taking into account numerous pertinent factors.

(17) It is the prerogative and desire of the State of North Carolina in respect to investment resources in its control and to the extent reasonable, with due consideration for, among other things, return on investment, on behalf of itself and its investment beneficiaries, not to participate in an ownership or capital-providing capacity with entities that provide significant practical support for genocide, including certain non-United States companies presently doing business in Sudan.

(18) It is the judgment of the General Assembly that this act should remain in effect only insofar as it continues to be consistent with, and does not unduly interfere with, the foreign policy of the United States as determined by the Federal Government.

(19) It is the judgment of this General Assembly that mandatory divestment of public funds from certain companies is a measure that should be employed sparingly and judiciously. A Congressional and Presidential declaration of genocide satisfies this high threshold.

SECTION 3. Identification of companies.

(a) Within 90 days of this act becoming effective, the Public Fund shall make its best efforts to identify all Scrutinized Companies in which the Public Fund has Direct or Indirect Holdings or could possibly have such holdings in the future. Such efforts shall include, as appropriate:

(1) Reviewing and relying, as appropriate in the Public Fund's judgment, on publicly available information regarding Companies with Business Operations in Sudan, including information provided by nonprofit organizations, research firms, international organizations, and government entities;

(2) Contacting asset managers contracted by the Public Fund that invest in Companies with Business Operations in Sudan; or

(3) Contacting other institutional investors that have divested from and/or engaged with Companies that have Business Operations in Sudan.

(c) The Public Fund shall update the Scrutinized Companies List on a quarterly basis based on evolving information from, among other sources, those listed in subsection (a) of this section.

SECTION 4. Required actions.

(a) General. The Public Fund shall adhere to the procedure for Companies on the Scrutinized Companies List as provided in this section:

(b) Engagement.

(1) The Public Fund shall immediately determine the Companies on the Scrutinized Companies List in which the Public Fund owns Direct or Indirect Holdings.

(2) For each Company identified in subdivision (1) of this section with only Inactive Business Operations, the Public Fund shall send a

written notice informing the Company of this act and encouraging it to continue to refrain from initiating Active Business Operations in Sudan until it is able to avoid Scrutinized Business Operations. The Public Fund shall continue such correspondence on a semiannual basis.

(3) For each Company newly identified in subdivision (1) of this section with Active Business Operations, the Public Fund shall send a written notice informing the Company of its Scrutinized Company status and that it may become subject to divestment by the Public Fund. The notice shall offer the Company the opportunity to clarify its Sudan-related activities and shall encourage the Company, within 90 days, to either cease its Scrutinized Business Operations or convert such operations to Inactive Business Operations in order to avoid qualifying for divestment by the Public Fund.

(4) If, within 90 days following the Public Fund's first engagement with a Company pursuant to subdivision (3) of this section that Company ceases Scrutinized Business Operations, the Company shall be removed from the Scrutinized Companies List and the provisions of this Section shall cease to apply to it unless it resumes Scrutinized Business Operations. If, within 90 days following the Public Fund's first engagement, the Company converts its Scrutinized Active Business Operations to Inactive Business Operations, the Company shall be subject to all provisions relating thereto.

(c) Divestment.

(1) If, after 90 days following the Public Fund's first engagement with a Company pursuant to subdivision (b)(3) of this section, the Company continues to have Scrutinized Active Business Operations, and only while such Company continues to have Scrutinized Active Business Operations, the Public Fund shall sell, redeem, divest, or withdraw all publicly traded securities of the Company within 15 months after the Company's most recent appearance on the Scrutinized Companies List.

(2) If a Company that ceased Scrutinized Active Business Operations following engagement pursuant to subdivision (b)(3) of this section resumes such operations, subdivision (1) of this subsection shall immediately apply, and the Public Fund shall send a written notice to the Company. The Company shall also be immediately reintroduced onto the Scrutinized Companies List.

(d) Prohibition. At no time shall the Public Fund acquire securities of Companies on the Scrutinized Companies List that have Active Business Operations, except as provided below.

(e) Exemption. No Company which the United States Government affirmatively declares to be excluded from its present or any future federal sanctions regime relating to Sudan shall be subject to divestment or investment prohibition pursuant to subsections (c) and (d) of this section.

(f) Excluded Securities. Notwithstanding anything herein to the contrary, subsections (c) and (d) of this section shall not apply to Indirect Holdings in actively managed investment funds. The Public Fund shall, however, submit letters to the managers of such investment funds containing Companies with Scrutinized Active Business Operations requesting that they consider removing such Companies from the

fund or create a similar actively managed fund with Indirect Holdings devoid of such Companies. If the manager creates a similar fund, the Public Fund shall replace all applicable investments with investments in the similar fund in an expedited time frame consistent with prudent investing standards. For the purposes of this section, "private equity" funds shall be deemed to be actively managed investment funds.

SECTION 5. Reporting.

(a) The Public Fund shall file a publicly available report to the General Assembly that includes the Scrutinized Companies List annually.

(b) Annually thereafter, the Public Fund shall file a publicly available report to the General Assembly and send a copy of that report to the United States Presidential Special Envoy to Sudan (or an appropriate designee or successor) that includes:

AN ACT TO REFORM THE PROCESS FOR ADMINISTRATIVE AND JUDICIAL REVIEW OF DISPUTED TAX MATTERS.

The General Assembly of North Carolina enacts:

SECTION 1. Article 9 of Chapter 105 is amended by adding the following new sections to read:

"**§ 105-241.6. Statute of limitations for refunds.**

(a) General. – The general statute of limitations for obtaining a refund of an overpayment applies unless a different period applies under subsection (b) of this section. The general statute of limitations for obtaining a refund of an overpayment is the later of the following:

(1) Three years after the due date of the return.

(2) Two years after payment of the tax.

(b) Exceptions. – The exceptions to the general statute of limitations for obtaining a refund of an overpayment are as follows:

(1) Federal Determination. – If a taxpayer files a return reflecting a federal determination and the return is filed within the time required by this Subchapter, the period for requesting a refund is one year after the return reflecting the federal determination is filed or three years after the original return was filed or due to be filed, whichever is later.

(2) Waiver. – A taxpayer's waiver of the statute of limitations for making a proposed assessment extends the period in which the taxpayer can obtain a refund to the end of the period extended by the waiver.

(3) Worthless Debts or Securities. – Section 6511(d)(1) of the Code applies to an overpayment of the tax levied in Part 2 or 3 of Article 4 of this Chapter to the extent the overpayment is attributable to either of the following:

a. The deductibility by the taxpayer under section 166 of the Code of a debt that becomes worthless, or under section 165(g) of the Code of a loss from a security that becomes worthless.

b. The effect of the deductibility of a debt or loss described in subpart a. of this subdivision on the application of a carryover to the taxpayer.

(4) Capital Loss and Net Operating Loss Carrybacks. – Section 6511(d)(2) of the Code applies to an overpayment of the tax levied in Part 2 or 3 of Article 4 of this Chapter to the extent the overpayment is attributable to a capital loss carryback under section 1212(c) of the Code or to a net operating loss carryback under section 172 of the Code.

"**§ 105-241.7. Procedure for obtaining a refund.**

(a) Initiated by Department. – The Department must refund an overpayment made by a taxpayer when the Department processes a return and finds all of the following:

(1) The statute of limitations for obtaining a refund has not expired.

(2) The amount shown due on the return is not correct.

(3) The correction of the amount due shows that the taxpayer has overpaid the tax.

(b) Initiated by Taxpayer. – A taxpayer may request a refund of an overpayment made by the taxpayer by taking one of the following actions within the statute of limitations for obtaining a refund:

(1) Filing an amended return reflecting an overpayment due the taxpayer.

(2) Filing a claim for refund. The claim must identify the taxpayer, the type and amount of tax overpaid, the filing period to which the overpayment applies, and the basis for the claim. The taxpayer's statement of the basis of the claim does not limit the taxpayer from changing the basis.

(c) Action on Request. – When a taxpayer files an amended return or a claim for refund, the Department must take one of the actions listed in this subsection within six months after the date the amended return or claim for refund is filed. If the Department does not take one of these actions within this time limit, the inaction is considered a proposed denial of the requested refund.

(1) Send the taxpayer a refund of the amount shown due on the amended return or claim for refund.

(2) Adjust the amount of the requested refund by increasing or decreasing the amount shown due on the amended return or claim for refund and send the taxpayer a refund of the adjusted amount. If the adjusted amount is less than the amount shown due on the amended return or claim for refund, the adjusted refund must include a reason for the adjustment. The adjusted refund is considered a notice of proposed denial for the amount of the requested refund that is not included in the adjusted refund.

(3) Deny the refund and send the taxpayer a notice of proposed denial.

(4) Send the taxpayer a letter requesting additional information concerning the requested refund. If a taxpayer does not respond to a request for information, the Department may deny the refund and send the taxpayer a notice of proposed denial. If a taxpayer provides the requested information, the Department must take one of the actions listed in this subsection within the later of the following:

a. The remainder of the six-month period.

b. 30 days after receiving the information.

c. A time period mutually agreed upon by the Department and the taxpayer.

(d) Notice. – A notice of a proposed denial of a request for refund must contain the following information:

(1) The basis for the proposed denial. The statement of the basis of the denial does not limit the Department from changing the basis.

(2) The circumstances under which the proposed denial will become final.

(e) Restrictions. – The Department may not refund any of the following:

(1) Until a taxpayer files a final return for a tax period, an amount paid before the final return is filed.

(2) An overpayment setoff under Chapter 105A, the Setoff Debt Collection Act, or under another setoff debt collection program authorized by law.

(3) An income tax overpayment the taxpayer has elected to apply to another purpose as provided in this Article.

(4) An individual income tax overpayment of less than one dollar ($1.00) or another tax overpayment of less than three dollars ($3.00), unless the taxpayer files a written claim for the refund.

(f) Effect of Denial or Refund. – A proposed denial of a refund by the Secretary is presumed to be correct. A refund does not absolve a taxpayer of a tax liability that may in fact exist. The Secretary may propose an assessment for any deficiency as provided in this Article.

"**§ 105-241.8. Statute of limitations for assessments.**

(a) General. – The general statute of limitations for proposing an assessment applies unless a different period applies under subsection (b) of this section. The general statute of limitations for proposing an assessment is the later of the following:

(1) Three years after the due date of the return.

(2) Three years after the taxpayer filed the return.

(b) Exceptions. – The exceptions to the general statute of limitations for proposing an assessment are as follows:

(1) Federal determination. – If a taxpayer files a return reflecting a federal determination and the return is filed within the time required by this Subchapter, the period for proposing an assessment of any tax due is one year after the return is filed or three years after the original return was filed or due to be filed, whichever is later. If there is a federal determination and the taxpayer does not file the return within the required time, the period for proposing an assessment of any tax due is three years after the date the Secretary received the final report of the federal determination.

(2) Failure to file or filing false return. – There is no statute of limitations and the Secretary may propose an assessment of tax due from a taxpayer at any time if any of the following applies:

a. The taxpayer did not file a return.

b. The taxpayer filed a fraudulent return.

c. The taxpayer attempted in any manner to fraudulently evade or defeat the tax.

(3) Tax forfeiture. – If a taxpayer forfeits a tax credit or tax benefit pursuant to forfeiture provisions of this Chapter, the period for proposing an assessment of any tax due as a result of the forfeiture is three years after the date of the forfeiture.

(4) Nonrecognition of gain. – If a taxpayer elects under section 1033(a)(2)(A) of the Code not to recognize gain from involuntary conversion of property into money, the period for proposing an assessment of any tax due as a result of the conversion or election is the applicable period provided under section 1033(a)(2)(C) or section 1033(a)(2)(D) of the Code.

"**§ 105-241.9. Procedure for proposing an assessment.**

(a) Authority. – The Secretary may propose an assessment against a taxpayer for tax due from the taxpayer. The Secretary must base a proposed assessment on the best information available. A proposed assessment of the Secretary is presumed to be correct.

(b) Time Limit. – The Secretary must propose an assessment within the statute of limitations for proposed assessments unless the taxpayer waives the limitations period in writing. A taxpayer may waive the limitations period for either a definite or an indefinite time. If the taxpayer waives the limitations period, the Secretary may propose an assessment at any time within the time extended by the waiver.

(c) Notice. – The Secretary must give a taxpayer written notice of a proposed assessment. The notice of a proposed assessment must contain the following information:

(1) The basis for the proposed assessment. The statement of the basis for the proposed assessment does not limit the Department from changing the basis.

(2) The amount of tax, interest, and penalties included in the proposed assessment. The amount for each of these must be stated separately.

(3) The circumstances under which the proposed assessment will become final and collectible.

"**§ 105-241.10. Limit on refunds and assessments after a federal determination.**

The limitations in this section apply when a taxpayer files a timely return reflecting a federal determination that affects the amount of State tax payable and the general statute of limitations for requesting a refund or proposing an assessment of the State tax has expired. A federal determination is a correction or final determination by the federal government of the amount of a federal tax due. A return reflecting a federal determination is timely if it is filed within the time required by G.S. 105-32.8, 105-130.20, 105-159, 105-160.8, 105-163.6A, or 105-197.1, as appropriate. The limitations are:

(1) Refund. – A taxpayer is allowed a refund only if the refund is the result of adjustments related to the federal determination.

(2) Assessment. – A taxpayer is liable for additional tax only if the additional tax is the result of adjustments related to the federal determination. A proposed assessment may not include an amount that is outside the scope of this liability.

"**§ 105-241.11. Requesting review of proposed denial of refund or proposed assessment.**

(a) Procedure. – A taxpayer who objects to a proposed denial of a refund or a proposed assessment of tax may request a Departmental review of the proposed action by filing a request for review. The request must be filed with the Department within 45 days after the following:

(1) The date the notice of the proposed denial of the refund or proposed assessment was mailed to the taxpayer, if the notice was delivered by mail.

(2) The date the notice of the proposed denial of the refund or proposed assessment was delivered to the taxpayer, if the notice was delivered in person.

(3) The date that inaction by the Department on a request for refund was considered a proposed denial of the refund.

(b) Filing. – A request for a Departmental review of a proposed denial of a refund or a proposed assessment is considered filed on the following dates:

(1) For a request that is delivered in person, the date it is delivered.

(2) For a request that is not delivered in person, the date the Department receives it.

"**§ 105-241.12. Result when taxpayer does not request a review.**

(a) Refund. – If a taxpayer does not file a timely request for a Departmental review of a proposed denial of a refund, the proposed denial is final and is not subject to further administrative or judicial review. A taxpayer whose proposed denial becomes final may not file another amended return or claim for refund to obtain the denied refund.

(b) Assessment. – If a taxpayer does not file a timely request for a Departmental review of a proposed assessment, the proposed assessment is final and is not subject to further administrative or judicial review. Upon payment of the tax, the taxpayer may request a refund of the tax.

Before the Department collects a proposed assessment that becomes final when the taxpayer does not file a timely request for a Departmental review, the Department must send the taxpayer a notice of collection. A notice of collection must contain the following information:

(1) A statement that the proposed assessment is final and collectible.

(2) The amount of tax, interest, and penalties payable by the taxpayer.

(3) An explanation of the collection options available to the Department if the taxpayer does not pay the amount shown due on the notice and any remedies available to the taxpayer concerning these collection options.

"**§ 105-241.13. Action on request for review.**

(a) Action on Request. – If a taxpayer files a timely request for a Departmental review of a proposed denial of a refund or a proposed assessment, the Department must conduct a review of the proposed denial or proposed assessment and take one of the following actions:

(1) Grant the refund or remove the assessment.

(2) Schedule a conference with the taxpayer.

(3) Request additional information from the taxpayer concerning the requested refund or proposed assessment.

(b) Conference. – When the Department reviews a proposed denial of a refund or a proposed assessment and does not grant the refund or remove the assessment, the Department must schedule a conference with the taxpayer. The Department must set the time and place for the conference, which may include a conference by telephone, and must send the taxpayer notice of the designated time and place. The Department must send the notice at least 30 days before the date of the conference or, if the Department and the taxpayer agree, within a shorter period.

The conference is an informal proceeding at which the taxpayer and the Department must attempt to resolve the case. Testimony under oath is not taken, and the rules of evidence do not apply. A taxpayer may designate a representative to act on the taxpayer's behalf. The taxpayer may present any objections to the proposed denial of refund or proposed assessment at the conference.

(c) After Conference. – One of the following must occur after the Department conducts a conference on a proposed denial of a refund or a proposed assessment:

(1) The Department and the taxpayer agree on a settlement.

(2) The Department and the taxpayer agree that additional time is needed to resolve the taxpayer's objection to the proposed denial of the refund or proposed assessment.

(3) The Department and the taxpayer are unable to resolve the taxpayer's objection to the proposed denial of the refund or proposed assessment. If a taxpayer fails to attend a scheduled conference on the proposed denial of a refund or a proposed assessment without prior notice to the Department, the Department and the taxpayer are considered to be unable to resolve the taxpayer's objection.

"**§ 105-241.14. Final determination after Departmental review.**

(a) Refund. – If a taxpayer files a timely request for a Departmental review of a proposed denial of a refund and the Department and the taxpayer are unable to resolve the taxpayer's objection to the proposed denial, the Department must send the taxpayer a notice of final determination concerning the refund. The notice of final determination must state the basis for the determination and inform the taxpayer of the procedure for contesting the determination. The statement of the basis for the determination does not limit the Department from changing the basis.

(b) Assessment. – If a taxpayer files a timely request for a Departmental review of a proposed assessment and the Department and the taxpayer are unable to resolve the taxpayer's objection to the proposed assessment, the Department must send the taxpayer a notice of final determination concerning the assessment. A notice of final determination concerning an assessment must contain the following information:

(1) The basis for the determination. This information may be stated on the notice or be set out in a separate document. The statement of the basis for the determination does not limit the Department from changing the basis.

(2) The amount of tax, interest, and penalties payable by the taxpayer.

(3) The procedure the taxpayer must follow to contest the final determination.

(4) A statement that the amount payable stated on the notice is collectible by the Department unless the taxpayer contests the final determination.

(5) An explanation of the collection options available to the Department if the taxpayer does not pay the amount shown due on the notice and any remedies available to the taxpayer concerning these collection options.

(c) Time Limit. – The process set out in G.S. 105-241.13 for reviewing and attempting to resolve a proposed denial of a refund or a proposed assessment must conclude, and a final determination must be issued within nine months after the date the taxpayer files a request for review. The Department and the taxpayer may extend this time limit by mutual agreement. Failure to issue a notice of final determination within the required time does not affect the validity of a proposed assessment.

"**§ 105-241.15. Contested case hearing on final determination.**

A taxpayer who disagrees with a notice of final determination issued by the Department may contest the determination by filing a petition for a contested case hearing at the Office of Administrative Hearings in accordance with Article 3 of Chapter 150B of the General Statutes. A taxpayer may file a petition for a contested case hearing only if the taxpayer has exhausted the prehearing remedy. A taxpayer's prehearing remedy is exhausted when the Department issues a final determination after conducting a review and a conference.

"**§ 105-241.16. Judicial review of decision after contested case hearing.**

A taxpayer aggrieved by the final decision in a contested case commenced at the Office of Administrative Hearings may seek judicial review of the decision in accordance with Article 4 of Chapter 150B of the General Statutes. Notwithstanding G.S. 150B-45, a petition for judicial review must be filed in the Superior Court of Wake County and in accordance with the procedures for a mandatory business case set forth in G.S. 7A-45.4(b) through (f). A taxpayer who files a petition for judicial review must pay the amount of tax, penalties, and interest the final decision states is due. A taxpayer may appeal a decision of the Business Court to the appellate division in accordance with G.S. 150B-52.

"**§ 105-241.17. Civil action challenging statute as unconstitutional.**

A taxpayer who claims that a tax statute is unconstitutional may bring a civil action in the Superior Court of Wake County to determine the taxpayer's liability under that statute if all of the conditions in this section are met. In filing an action under this section, a taxpayer must follow the procedures for a mandatory business case set forth in G.S. 7A-45.4(b) through (f). The conditions for filing a civil action are:

(1) The taxpayer exhausted the prehearing remedy by receiving a final determination after a review and a conference.

(2) The taxpayer commenced a contested case at the Office of Administrative Hearings.

(3) The Office of Administrative Hearings dismissed the contested case petition for lack of jurisdiction because the sole issue is the constitutionality of a statute and not the application of a statute.

(4) The taxpayer has paid the amount of tax, penalties, and interest the final determination states is due.

(5) The civil action is filed within two years of the dismissal.

"**§ 105-241.18. Reserved for future codification purposes.**

"**§ 105-241.19. Declaratory judgments, injunctions, and other actions prohibited.**

The remedies in G.S. 105-241.11 through G.S. 105-241.17 set out the exclusive remedies for disputing the denial of a requested refund, a taxpayer's liability for a tax, or the constitutionality of a tax statute. Any other action is barred. Neither an action for declaratory judgment, an action for an injunction to prevent the collection of a tax, nor any other action is allowed.

"**§ 105-241.20. Delivery of notice to the taxpayer.**

(a) Scope. – This section applies to the following notices:

(1) A proposed denial of a refund.

(2) A proposed assessment.

(3) A notice of collection.

(4) A final determination.

(b) Method. – The Secretary must deliver a notice listed in subsection (a) of this section to a taxpayer either in person or by United States mail sent to the taxpayer's last known address. A notice mailed to a taxpayer is presumed to have been received by the taxpayer unless the taxpayer makes an affidavit to the contrary within 90 days after the notice was mailed. If the taxpayer makes this affidavit, the notice is considered to have been delivered on the date the taxpayer makes the affidavit, and any time limit affected by the notice is extended to the date the taxpayer makes the affidavit.

"**§ 105-241.21. Interest on taxes.**

(a) Rate. – The interest rate set by the Secretary applies to interest that accrues on overpayments and assessments of tax. On or before June 1 and December 1 of each year, the Secretary must establish the interest rate to be in effect during the six-month

period beginning on the next succeeding July 1 and January 1, respectively. In determining the interest rate, the Secretary must give due consideration to current market conditions and to the rate that will be in effect on that date pursuant to the Code. If no new rate is established, the rate in effect during the preceding six-month period continues in effect. The rate established by the Secretary may not be less than five percent (5%) per year and may not exceed sixteen percent (16%) per year.

(b) Accrual on Underpayments. – Interest accrues on an underpayment of tax from the date set by statute for payment of the tax until the tax is paid. Interest accrues only on the principal of the tax and does not accrue on any penalty.

(c) Accrual on Refund. – Interest accrues on an overpayment of tax from the time set in the following subdivisions until the refund is paid.

(1) Franchise, income, and gross premiums. – Interest on an overpayment of a tax levied under Article 3 of this Chapter and payable on an annual basis or of a tax levied under Article 4 or 8B of this Chapter accrues from a date 45 days after the latest of the following dates:

a. The date the final return was filed.

b. The date the final return was due to be filed.

c. The date of the overpayment. The date of an overpayment of a tax levied under Article 4 or Article 8B of this Chapter is determined in accordance with section 6611(d), (f), (g), and (h) of the Code.

(2) All other taxes. – Interest on an overpayment of a tax that is not included in subdivision (1) of this subsection accrues from a date that is 90 days after the date the tax was paid.

(d) When Refund Is Paid. – A refund sent to a taxpayer is considered paid on a date determined by the Secretary that is no sooner than five days after a refund check is mailed. A refund set off against a debt pursuant to Chapter 105A of the General Statutes is considered paid five days after the Department mails the taxpayer a notice of the setoff, unless G.S. 105A-5 or G.S. 105A-8 requires the agency that requested the setoff to return the refund to the taxpayer. In this circumstance, the refund that was set off is not considered paid until five days after the agency that requested the refund mails the taxpayer a check for the refund.

"**§ 105-241.22. Collection of tax.**

The Department may collect a tax in the following circumstances:

(1) When a taxpayer files a return showing tax due with the return and does not pay the amount shown due.

(2) When the Department sends a notice of collection after a taxpayer does not file a timely request for a Departmental review of a proposed assessment of tax.

(3) When a taxpayer and the Department agree on a settlement concerning the amount of tax due.

(4) When the Department sends a notice of final determination concerning an assessment of tax and the taxpayer does not file a timely petition for a contested case hearing on the assessment.

(5) When a final decision is issued on a proposed assessment of tax after a contested case hearing.

(6) When the Office of Administrative Hearings dismisses a petition for a contested case for lack of jurisdiction because the sole issue is the constitutionality of a statute and not the application of a statute.

"§ **105-241.23. Jeopardy assessment and collection.**

(a) Action. – The Secretary may at any time within the statute of limitations immediately assess and collect any tax the Secretary finds is due from a taxpayer if the Secretary determines that collection of the tax is in jeopardy and immediate assessment and collection are necessary in order to protect the interest of the State. In making a jeopardy collection, the Secretary may use any of the collection remedies in G.S. 105-242 and is not required to wait any period of time before using these remedies. Within 30 days after initiating a jeopardy collection, the Secretary must give the taxpayer the notice of proposed assessment required by G.S. 105-241.9.

(b) Review by Department. – Within five days after initiating a jeopardy collection that is not the result of a criminal investigation or of a liability for a tax imposed under Article 2D of this Chapter, the Secretary must provide the taxpayer with a written statement of the information upon which the Secretary relied in initiating the jeopardy collection. Within 30 days after receipt of this written statement or, if no statement is received, within 30 days after the statement was due, the taxpayer may request the Secretary to review the action taken. After receipt of this request, the Secretary must determine whether initiating the jeopardy collection was reasonable under all the circumstances and whether the amount assessed and collected was reasonable under all the circumstances. The Secretary must give the taxpayer written notice of this determination within 30 days after the request.

(c) Judicial Review. – Within 90 days after the earlier of the date a taxpayer received or should have received a determination of the Secretary concerning a jeopardy collection under subsection (b) of this section, the taxpayer may bring a civil action seeking review of the jeopardy collection. The taxpayer may bring the action in the Superior Court of Wake County or in the county in North Carolina in which the taxpayer resides. Within 20 days after the action is filed, the court must determine whether the initiation of the jeopardy collection was reasonable under the circumstances. If the court determines that an action of the Secretary was unreasonable or inappropriate, the court may order the Secretary to take any action the court finds appropriate. If the taxpayer shows reasonable grounds why the 20-day limit on the court should be extended, the court may grant an extension of not more than 40 additional days."

"(a) An annual franchise or privilege tax is imposed on a corporation doing business in this State. A corporation subject to the tax must file a return under affirmation with the Secretary at the place and in the manner prescribed by the Secretary. The return must be signed by the president, vice-president, treasurer, or chief financial officer of the corporation. The return is due on or before the fifteenth day of the fourth month following the end of the corporation's income year. ~~Every corporation, domestic and foreign, incorporated, or, by an act, domesticated under the laws of this State or doing business in this State, except as otherwise provided in this Article, shall, on or before the fifteenth day of the third month following the end of its income year, annually make and deliver to the Secretary in the form prescribed by the Secretary a full, accurate, and complete report and statement signed by either its president, vice-president, treasurer, assistant treasurer, secretary or assistant secretary, containing the facts and information required by the Secretary as shown by the books and records of the corporation at the close of the income year.~~

~~There shall be annexed to the return required by this subsection the affirmation of the officer signing the return.~~"

SECTION 11. G.S. 105-122 is amended by adding a new subsection to read:

"(c1) Apportionment. – A corporation that is doing business in this State and in one or more other states must apportion its capital stock, surplus, and undivided profits to this State. A corporation must use the apportionment method set out in subdivision (1) of this subsection unless the Department has authorized it to use a different method under subdivision (2) of this subsection. The portion of a corporation's capital stock, surplus, and undivided profits determined by applying the appropriate apportionment method is considered the amount of capital stock, surplus, and undivided profits the corporation uses in its business in this State.

(1) Statutory. – A corporation that is subject to income tax under Article 4 of this Chapter must apportion its capital stock, surplus, and undivided profits by using the fraction it applies in apportioning its income under that Article. A corporation that is not subject to income tax under Article 4 of this Chapter must apportion its capital stock, surplus, and

undivided profits by using the fraction it would be required to apply in apportioning its income if it were subject to that Article. The apportionment method set out in this subdivision is considered the statutory method of apportionment and is presumed to be the best method of determining the amount of a corporation's capital stock, surplus, and undivided profits attributable to the corporation's business in this State.

(2) Alternative. – A corporation that believes the statutory apportionment method set out in subdivision (1) of this subsection subjects a greater portion of its capital stock, surplus, and undivided profits to tax under this section than is attributable to its business in this State may make a written request to the Secretary for permission to use an alternative method. The request must set out the reasons for the corporation's belief and propose an alternative method. The corporation has the burden of establishing by clear, cogent, and convincing proof that the statutory apportionment method subjects a greater portion of the corporation's capital stock, surplus, and undivided profits to tax under this section than is attributable to its business in this State and that the proposed alternative method is a better method of determining the amount of the corporation's capital stock, surplus, and undivided profits attributable to the corporation's business in this State.

The Secretary must issue a written decision on a corporation's request for an alternative apportionment method. If the decision grants the request, it must describe the alternative method the corporation is authorized to use and state the tax years to which the alternative method applies. A decision may apply to no more than three tax years. A corporation may renew a request to use an alternative apportionment method by following the procedure in this subdivision. A decision of the Secretary on a request for an alternative apportionment method is final and is not subject to administrative or judicial review. A corporation authorized to use an alternative method may apportion its capital stock, surplus, and undivided profits in accordance with the alternative method or the statutory method."

SECTION 12. G.S. 105-130.4 is amended by adding a new subsection to read:

"(t1) Alternative Apportionment Method. – A corporation that believes the statutory apportionment method that otherwise applies to it under this section subjects a greater portion of its income to tax than is attributable to its business in this State may make a written request to the Secretary for permission to use an alternative method. The request must set out the reasons for the corporation's belief and propose an alternative method.

The statutory apportionment method that otherwise applies to a corporation under this section is presumed to be the best method of determining the portion of the corporation's income that is attributable to its business in this State. A corporation has the burden of establishing by clear, cogent, and convincing proof that the proposed alternative method is a better method of determining the amount of the corporation's income attributable to the corporation's business in this State.

The Secretary must issue a written decision on a corporation's request for an alternative apportionment method. If the decision grants the request, it must describe the

alternative method the corporation is authorized to use and state the tax years to which the alternative method applies. A decision may apply to no more than three tax years. A corporation may renew a request to use an alternative apportionment method by following the procedure in this subsection. A decision of the Secretary on a request for an alternative apportionment method is final and is not subject to administrative or judicial review. A corporation authorized to use an alternative method may apportion its income in accordance with the alternative method or the statutory method."

SECTION 13. G.S. 105-130.6A(e) reads as rewritten:

"(e) Cap for Bank Holding Companies. – After calculating the expense adjustment as provided in subsection (c) of this section, each bank holding company must calculate the amount of additional tax that results from the expense adjustments for the holding company and for every corporation in the holding company's affiliated group for the taxable year. If the expense adjustments result in additional tax exceeding eleven million dollars ($11,000,000) for a taxable year for the affiliated group, the affiliated group may reduce the amount of the expense adjustment so that the resulting additional tax does not exceed this maximum. This maximum applies once to each affiliated group each taxable year, whether or not the group includes more than one bank holding company.

The members of the affiliated group may allocate this reduction among themselves in their discretion. In order to take this reduction, each member of the affiliated group that is required to file a return under this Part and that has dividends for the taxable year must provide a schedule with its return that lists every member of the group that has dividends, the amount of the dividends, and whether the member is a bank holding company. In addition, the schedule must show the expense adjustments for those members whose additional tax as a result of the expense adjustment constitutes the maximum amount. In addition, each member must provide any other documentation required by the Secretary.

If the expense adjustment for an affiliated group is reduced under this subsection, and the return of a member of the group is later changed in a manner that reduces below the maximum the amount of additional tax for the group resulting from the expense adjustment, the Secretary may increase the expense adjustment for any member of the group in order to increase to the maximum the amount of additional tax for the group resulting from the expense adjustment. In this situation, the amount of the increase is considered a forfeited tax benefit with respect to the affiliated group for the purposes of G.S. ~~105-241.1(e).~~ 105-241.8. The date of the forfeiture is the date of the change that triggers the Secretary's authority to increase the expense adjustment. Any member whose expense adjustment the Secretary increases is liable for interest on the amount of the increase at the rate established under ~~105-241.1(i),~~ G.S. 105-241.21 computed from the date the taxes would have been due if the expense adjustment had been calculated correctly on the original return. The amount of the increase and the interest are due 60 days after the date of the forfeiture. A taxpayer that fails to pay the amount of the increase and interest by the due date is subject to the penalties provided in G.S. 105-236."

SECTION 14. G.S. 105-130.17 reads as rewritten:

"§ **105-130.17. Time and place of filing returns.**

(a) Returns must be filed as prescribed by the Secretary at the place prescribed by the Secretary. Returns must be in the form prescribed by the Secretary. The Secretary ~~shall~~ must furnish forms in accordance with G.S. 105-254.

(b) Except as otherwise provided in this section, the return of a corporation shall be filed on or before the fifteenth day of the ~~third~~ fourth month following the close of its income year. An income year ending on any day other than the last day of the month shall be deemed to end on the last day of the calendar month ending nearest to the last day of a taxpayer's actual income year.

(c) In the case of mutual associations formed under G.S. 54-111 through 54-128 to conduct agricultural business on the mutual plan and marketing associations organized under G.S. 54-129 through 54-158, which are required to file under subsection (a)(9) of G.S. 105-130.11, a return made on the basis of a calendar year shall be filed on or before the fifteenth day of the September following the close of the calendar year, and a return made on the basis of a fiscal year shall be filed on or before the fifteenth day of the ninth month following the close of the fiscal year.

(d) A taxpayer may ask the Secretary for an extension of time to file a return under G.S. 105-263.

(d1) Organizations described in G.S. 105-130.11(a)(1), (3), (4), (5), (6), (7) and (8) that are required to file a return under G.S. 105-130.11(b) shall file a return made on the basis of a calendar year on or before the fifteenth day of May following the close of the calendar year and a return made on the basis of a fiscal year on or before the fifteenth day of the fifth month following the close of the fiscal year.

(e) Any corporation that ceases its operations in this State before the end of its income year because of its intention to dissolve or to withdraw from this State, or because of a merger, conversion, or consolidation or for any other reason whatsoever shall file its return for the then current income year within ~~75~~105 days after the date it terminates its business in this State.

(f) Repealed by Session Laws 1998-217, s. 42, effective October 31, 1998.

(g) A corporation that files a federal return pursuant to section 6072(c) of the Code shall file its return on or before the fifteenth day of the ~~sixth~~ seventh month following the close of its income year."

SECTION 15. G.S. 105-130.20 reads as rewritten:

"§ **105-130.20. Federal corrections.**

If a taxpayer's federal taxable income is corrected or otherwise determined by the federal government, the taxpayer must, within six months after being notified of the correction or final determination by the federal government, file an income tax return with the Secretary reflecting the corrected or determined taxable income. The Secretary ~~shall determine from all available evidence the taxpayer's correct tax liability for the income year. As used in this section, the term "all available evidence" means evidence of any kind that becomes available to the Secretary from any source, whether or not the evidence was considered in the federal correction or determination.~~

~~The Secretary shall assess and collect~~ must propose an assessment for any additional tax due from the taxpayer as provided in Article 9 of this Chapter. The Secretary ~~shall~~ must refund any overpayment of tax as provided in Article 9 of this Chapter. A taxpayer that fails to comply with this section is subject to the penalties in G.S. 105-236 and forfeits its rights to any refund due by reason of the determination."

SECTION 16. G.S. 105-159 reads as rewritten:

"§ **105-159. Federal corrections.**

If a taxpayer's federal taxable income is corrected or otherwise determined by the federal government, the taxpayer must, within six months after being notified of the correction or final determination by the federal government, file an income tax return with the Secretary reflecting the corrected or determined taxable income. The Secretary

~~shall determine from all available evidence the taxpayer's correct tax liability for the taxable year. As used in this section, the term "all available evidence' means evidence of any kind that becomes available to the Secretary from any source, whether or not the evidence was considered in the federal correction or determination.~~

~~The Secretary shall assess and collect~~ must propose an assessment for any additional tax due from the taxpayer as provided in Article 9 of this Chapter. The Secretary ~~shall~~ must refund any overpayment of tax as provided in Article 9 of this Chapter. A taxpayer who fails to comply with this section is subject to the penalties in G.S. 105-236 and forfeits the right to any refund due by reason of the determination."

The Secretary ~~shall determine from all available evidence the correct amount the employer should have paid under this Article for the period covered by the federal determination. As used in this section, the term "all available evidence" means evidence of any kind that becomes available to the Secretary from any source, whether or not the evidence was considered in the federal correction or determination.~~

~~The Secretary shall assess and collect~~ must propose an assessment for any additional tax due from the employer as provided in Article 9 of this Chapter. If there has been an overpayment of the tax, the Secretary ~~shall~~ must either refund the overpayment to the employer in accordance with G.S. 105-163.9 or credit the amount of the overpayment to the individual in accordance with G.S. 105-163.10. An employer who fails to comply with this section is subject to the penalties in G.S. 105-236 and forfeits the right to any refund due by reason of the determination. Failure of an employer to comply with this section does not, however, affect an individual's right to a credit under G.S. 105-163.10."

SECTION 18. G.S. 105-163.9 reads as rewritten:

"§ **105-163.9. Refund of overpayment to withholding agent.**

A withholding agent who pays the Secretary more under this Article than the Article requires the agent to pay may obtain a refund of the overpayment by filing ~~an application~~ a request for a refund with the Secretary. No refund is allowed, however, if the withholding agent withheld the amount of the overpayment from the wages or compensation of the agent's employees or contractors. Upon receipt of the written response, the Department must contact the garnishee and schedule a conference to discuss the response or inform the garnishee of the Department's position concerning the response. If the Department does not agree with the garnishee on the garnishee's liability, the Department may proceed to enforce the garnishee's liability for the tax by sending the garnishee a notice of proposed assessment in accordance with G.S. 105-241.9.

A certificate of tax liability must state the taxpayer's name and the type and amount of tax owed. If the taxpayer resides in this State or has property in this State, the Department must file the certificate of tax liability with the clerk of the superior court of a county in which the taxpayer resides or has property. If the taxpayer does not reside in this State or have property in this State, the Department must file the certificate of tax liability in Wake County.

The clerk of court must record a certificate of tax liability in the same manner as a judgment. A recorded certificate of tax liability is considered a judgment and is enforceable in the same manner as other judgments. The legal rate of interest set in G.S. 24-1 applies to the principal amount of tax stated on the certificate of tax liability. The tax stated on a certificate of tax liability is a lien on real and personal property from the date the certificate is recorded.

~~Except as provided in G.S. 105-241.2(e) for jeopardy levies, no sale of real or personal property shall be made under any execution issued on a certificate docketed pursuant to the provisions of this subsection before the administrative action of the Secretary of Revenue or the Tax Review Board is completed when a hearing has been requested of the Secretary or a petition for review has been filed with the Tax Review Board, nor shall such sale be made before the assessment on which the certificate is based becomes final when there is no request for a hearing before the Secretary or petition for review by the Tax Review Board. Neither the title to real estate nor to personal property sold under execution issued upon a certificate docketed under this subsection shall be drawn in question upon the ground that the administrative action contemplated by this paragraph was not completed prior to the sale of such property under execution. Nothing in this paragraph shall prevent the sheriff to whom an execution is issued from levying upon either real or personal property pending an administrative determination of tax liability and, in the case of personal property, the sheriff may hold such property in his custody or may restore the execution defendant to the possession thereof upon the giving of a sufficient forthcoming bond. Upon a final administrative determination of the tax liability being had, if the assessment or any part thereof is sustained, the sheriff shall, upon request of the Secretary of Revenue, proceed to advertise and sell the property under the original execution notwithstanding the original return date of the execution may have expired.~~

~~The owner of tangible property seized under this section may request the Secretary to authorize the sale of the property under execution within 60 or more days after the request is made. The Secretary shall authorize the sale unless the Secretary finds that selling the property would not be in the best interests of the State. When property is sold at the request of the owner, the Department shall receive from the sale of the property the administrative expenses it incurred in having the property sold.~~

~~A certificate or judgment in favor of the State or the Secretary of Revenue for taxes payable to the Department of Revenue, whether docketed before or after the effective~~

~~date of this paragraph, shall be valid and enforceable for a period of 10 years from the date of docketing. When any such certificate or judgment, whether docketed before or after the effective date of this paragraph, remains unsatisfied for 10 years from the date of its docketing, the same shall be unenforceable and the tax represented thereby shall abate. Upon the expiration of said 10-year period, the Secretary of Revenue or his duly authorized deputy shall cancel of record said certificate or judgment. Any such certificate or judgment now on record which has been docketed for more than 10 years shall, upon the request of any interested party, be canceled of record by the Secretary of Revenue or his duly authorized deputy; provided, in the event of the death of the judgment debtor or his absence from the State before the expiration of the 10-year period herein provided, the running of said 10-year period shall be stopped for the period of his absence from the State or during the pendency of the settlement of the estate and for one year thereafter, and the time elapsed during the pendency of any action or actions to set aside the judgment debtor's conveyance or conveyances as fraudulent, or the time during the pendency of any insolvency proceeding, or the time during the existence of any statutory or judicial bar to the enforcement of the judgment shall not be counted in computing the running of said 10-year period. And, provided further, that any execution sale which has been instituted upon any such judgment before the expiration of the 10-year period may be completed after the expiration of the 10-year period, notwithstanding the fact that resales may be required because of the posting of increased bids. Provided further, that, notwithstanding the expiration of the 10-year period provided and notwithstanding the fact that no proceedings to collect the judgment by execution or otherwise has been commenced within the 10-year period, the Secretary of Revenue may accept any payments tendered upon said judgments after the expiration of said 10-year period.~~A certificate of tax liability is enforceable for a period of 10 years from the date it is recorded. If the certificate is not satisfied within this period, the remaining liability of the taxpayer is abated and the Department must cancel the certificate. An execution sale initiated before the end of the 10-year period may be completed after the end of this period, regardless of whether resales are required because of the posting of increased bids. The Secretary may accept tax payments made after a certificate has expired, regardless of whether any collection actions were taken before the certificate expired. A taxpayer may waive the 10-year period for enforcement of the certificate for either a definite or an indefinite time.

The 10-year period in which a certificate of tax liability is enforceable is tolled during the following periods:

(1) While the taxpayer is absent from the State. The period is tolled during the taxpayer's absence plus one year after the taxpayer returns.

SECTION 32. G.S. 105-243 reads as rewritten:

"§ **105-243. Taxes recoverable by action.**

~~Upon the failure of any corporation to pay the taxes, fees, and penalties prescribed by this Subchapter, the Secretary of Revenue may certify same to the sheriff of the~~

~~county in which such company may own property, for collection as provided in this Subchapter; and if collection is not made, such taxes or fees and penalties thereon may be recovered in an action in the name of the State, which may be brought in the Superior Court of Wake County, or in any county in which such corporation is doing business, or any county in which such corporation owns property. The Attorney General, on request of the Secretary of Revenue, shall institute such action in the Superior Court of Wake County, or of any such county as the Secretary of Revenue may direct. In any such action it shall be sufficient to allege that the tax, fee, or penalty sought to be recovered is delinquent, and that the same has been unpaid for the period of 30 days after due date.~~ When requested by the Secretary, the Attorney General must bring an action to recover the amount of tax that is due from a taxpayer and is collectible under G.S. 105-241.22. In the action, the taxpayer may not challenge the liability for the tax. A judgment in the action has the same priority as a tax lien. The judgment is not subject to a claim for a homestead exemption. The action must be brought in one of the following:

(1) The Superior Court of Wake County.
(2) The taxpayer's county of residence.
(3) A county where the taxpayer owns real property.
(4) The county in which the taxpayer has its principal place of business.
(5) A court of competent jurisdiction of another state."

SECTION 33. G.S. 105-243.1 reads as rewritten:

"§ **105-243.1. Collection of tax debts.**

(a) Definitions. – The following definitions apply in this section:

(1) Overdue tax debt. – Any part of a tax debt that remains unpaid 90 days or more after ~~the notice of final assessment was mailed to the taxpayer.~~ it becomes collectible under G.S. 105-241.22. The term does not include a tax ~~debt, however, if~~ debt for which the taxpayer entered into an installment agreement for the tax debt under G.S. 105-237 within 90 days after ~~the notice of final assessment was mailed and~~ the tax debt became collectible, if the taxpayer has not failed to make any payments due under the installment agreement.

(2) Tax debt. – The total amount of tax, penalty, and interest ~~due for which a notice of final assessment has been mailed to a taxpayer after the taxpayer no longer has the right to contest the debt.~~collectible under G.S. 105-241.22.

(b) Outsourcing. – The Secretary may contract for the collection of tax debts owed by nonresidents and foreign entities. At least 30 days before the Department submits a tax debt to a contractor for collection, the Department must notify the taxpayer by mail that the debt may be submitted for collection if payment is not received within 30 days after the notice was mailed.

(c) Secrecy. – A contract for the collection of tax debts is conditioned on compliance with G.S. 105-259. If a contractor violates G.S. 105-259, the contract is terminated, and the Secretary must notify the contractor of the termination. A contractor whose contract is terminated for violation of G.S. 105-259 is not eligible for an award of another contract under this section for a period of five years from the termination. These sanctions are in addition to the criminal penalties set out in G.S. 105-259.

(d) Fee. – A collection assistance fee is imposed on an overdue tax debt that remains unpaid 30 days or more after the fee notice required by this subsection is mailed to the taxpayer. In order to impose a collection assistance fee on a tax debt, the Department must notify the taxpayer that the fee will be imposed if the tax debt is not

paid in full within 30 days after the date the fee notice was mailed to the taxpayer. The Department may not mail the fee notice earlier than 60 days after ~~the notice of final assessment for the tax debt was mailed to the taxpayer.~~ the tax debt becomes collectible under G.S. 105-241.22. The fee is collectible as part of the debt. The Secretary may waive the fee pursuant to G.S. 105-237 to the same extent as if it were a penalty.

The amount of the collection assistance fee is twenty percent (20%) of the amount of the overdue tax debt. If a taxpayer pays only part of an overdue tax debt, the payment is credited proportionally to fee revenue and tax revenue.

(e) Use. – The fee is a receipt of the Department and must be applied to the costs of collecting overdue tax debts. The proceeds of the fee must be credited to a special account within the Department and may be expended only as provided in this subsection. The proceeds of the fee may not be used for any purpose that is not directly and primarily related to collecting overdue tax debts. The Department may apply the proceeds of the fee for the purposes listed in this subsection. The remaining proceeds of the fee may be spent only pursuant to appropriation by the General Assembly. The fee proceeds do not revert but remain in the special account until spent for the costs of collecting overdue tax debts. The Department and the Office of State Budget and Management must account for all expenditures using accounting procedures that clearly distinguish costs allocable to collecting overdue tax debts from costs allocable to other purposes and must demonstrate that none of the fee proceeds are used for any purpose other than collecting overdue tax debts.

The Department may apply the fee proceeds for the following purposes:

(1) To pay contractors for collecting overdue tax debts under subsection (b) of this section.

(2) To pay the fee the United States Department of the Treasury charges for setoff to recover tax owed to North Carolina.

(3) To pay for taxpayer locater services, not to exceed one hundred fifty thousand dollars ($150,000) a year.

(5) To pay for operating expenses for Project Collection Tax and the Taxpayer Assistance Call Center.

(6) To pay for expenses of the Examination and Collection Division directly and primarily relating to collecting overdue tax debts.

SECTION 34. G.S. 105-253(b) reads as rewritten:

"(b) Each responsible officer is personally and individually liable for all of the following:

(1) All sales and use taxes collected by a corporation or a limited liability company upon its taxable transactions.

The Division had reciprocal agreements as of that date with the following states: California, Delaware, Indiana, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Jersey, Pennsylvania, Texas, and Vermont.~~"

Notwithstanding the above provisions, the Board of Trustees may and is specifically authorized to provide the death benefit according to the terms and conditions otherwise appearing in this Plan in the form of group life insurance, either (i) by purchasing a contract or contracts of group life insurance with any life insurance company or companies licensed and authorized to transact business in this State for the purpose of insuring the lives of members in service, or (ii) by establishing a separate trust fund qualified under Section 501(c)(9) of the Internal Revenue Code of 1954, as amended, for such purpose. To that end the Board of Trustees is authorized, empowered and directed to investigate the desirability of utilizing group life insurance by either of the foregoing methods for the purpose of providing the death benefit. The provisions of the Retirement System pertaining to Administration, G.S. 135-6, and management of funds, G.S. 135-7, are hereby made applicable to the Plan.

(a1) Temporary Absence. – An otherwise qualifying owner does not lose the benefit of this exclusion because of a temporary absence from his or her permanent residence for reasons of health, or because of an extended absence while confined to a

rest home or nursing home, so long as the residence is unoccupied or occupied by the owner's spouse or other dependent.

(a2) Income Eligibility Limit. – Until July 1, ~~2003,~~2008, the income eligibility limit is ~~eighteen thousand dollars ($18,000).~~twenty-five thousand dollars ($25,000). For taxable years beginning on or after July 1, ~~2003,~~2008, the income eligibility limit is the amount for the preceding year, adjusted by the same percentage of this amount as the percentage of any cost-of-living adjustment made to the benefits under Titles II and XVI of the Social Security Act for the preceding calendar year, rounded to the nearest one hundred dollars ($100.00). On or before July 1 of each year, the Department of Revenue must determine the income eligibility amount to be in effect for the taxable year beginning the following July 1 and must notify the assessor of each county of the amount to be in effect for that taxable year.

(b) Definitions. – The following definitions apply in this section:

(1) Code. – The Internal Revenue Code, as defined in G.S. 105-228.90.

(2) Repealed by Session Laws 1993, c. 360, s. 1.

(2a) Repealed by Session Laws 1985 (Reg. Sess., 1986), c. 982, s. 20.

(3) Permanent residence. – A person's legal residence. It includes the dwelling, the dwelling site, not to exceed one acre, and related improvements. The dwelling may be a single family residence, a unit in a multi-family residential complex, or a manufactured home.

(4) Totally and permanently disabled. – A person is totally and permanently disabled if the person has a physical or mental impairment that substantially precludes him or her from obtaining gainful employment and appears reasonably certain to continue without substantial improvement throughout his or her life.

(c) Application. – An application for the exclusion provided by this section should be filed during the regular listing period, but may be filed and must be accepted at any time up to and through June 1 preceding the tax year for which the exclusion is claimed. When property is owned by two or more persons other than husband and wife and one or more of them qualifies for this exclusion, each owner must apply separately for his or her proportionate share of the exclusion.

(d) Multiple Ownership. – A permanent residence owned and occupied by husband and wife as tenants by the entirety is entitled to the full benefit of this exclusion notwithstanding that only one of them meets the age or disability requirements of this section. When a permanent residence is owned and occupied by two or more persons other than husband and wife and one or more of the owners qualifies for this exclusion, each qualifying owner is entitled to the full amount of the exclusion not to exceed his or her proportionate share of the valuation of the property. No part of an exclusion available to one co-owner may be claimed by any other co-owner and in no event may the total exclusion allowed for a permanent residence exceed the exclusion amount provided in this section."

SECTION 1.2. The Revenue Laws Study Committee may study the issue of whether to index the minimum excluded appraised value limit in the property tax homestead exclusion in G.S. 105-277.1 and, if so, which index to use.

SECTION 1.3. Section 1.1 of this act is effective for taxes imposed for taxable years beginning on or after July 1, 2008. The remainder of this section is effective when it becomes law.

"§ **105-277.1. Property tax homestead exclusion.**

…

(e) Election. – An owner who qualifies for both kinds of property tax relief may elect the property tax homestead circuit breaker under G.S. 105-277.1B instead of the property tax homestead exclusion provided in this section. When property is owned by two or more persons, each person must qualify for both kinds of property tax relief and must elect the property tax homestead circuit breaker in order for the property tax homestead circuit breaker to be allowed instead of the property tax homestead exclusion."

SECTION 2.3. Article 12 of Chapter 105 of the General Statutes is amended by adding a new section to read:

"**§ 105-277.1B. Property tax homestead circuit breaker.**

(a) Classification. – A permanent residence owned and occupied by a qualifying owner is designated a special class of property under Article V, Section 2(2) of the North Carolina Constitution and is taxable in accordance with this section.

(b) Definitions. – The definitions provided in G.S. 105-277.1 apply to this section.

(c) Income Eligibility Limit. – The income eligibility limit provided in G.S. 105-277.1(a2) applies to this section.

(d) Qualifying Owner. – For the purpose of qualifying for the property tax homestead circuit breaker under this section, a qualifying owner is an owner who meets all of the following requirements as of January 1 preceding the taxable year for which the benefit is claimed:

(1) The owner has an income for the preceding calendar year of not more than one hundred fifty percent (150%) of the income eligibility limit specified in subsection (c) of this section.

(2) The owner has occupied the property as a permanent residence for at least five years.

(3) The owner is at least 65 years of age or totally and permanently disabled.

(4) The owner is a North Carolina resident.

(e) Multiple Owners. – When a permanent residence is owned and occupied by two or more persons other than husband and wife, no property tax homestead circuit breaker is allowed unless all of the owners qualify and elect to defer taxes under this section.

(f) Tax Limitation. – A qualifying owner may defer the portion of tax imposed on his or her permanent residence if it exceeds a percentage of the qualifying owner's income as provided in this section.

Income	**Percentage**
Less than the income eligibility limit	4.0%
100% to 150% of the income eligibility limit	5.0%

(g) Temporary Absence. – An otherwise qualifying owner does not lose the benefit of this circuit breaker because of a temporary absence from his or her permanent residence for reasons of health, or because of an extended absence while confined to a rest home or nursing home, so long as the residence is unoccupied or occupied by the owner's spouse or other dependent.

(h) Deferred Taxes. – The difference between the taxes due under this section and the taxes that would have been payable in the absence of this section are a lien on the real property of the taxpayer as provided in G.S. 105-355(a). The difference in taxes for the three fiscal years preceding the current tax year shall be carried forward in the records of the taxing unit or units as deferred taxes. Interest accrues on the deferred taxes due as if they had been payable on the dates on which they originally became due. On or before September 1 of each year, the assessor shall notify each residence owner to whom a tax deferral has previously been granted of the accumulated sum of deferred taxes and interest.

(i) Disqualifying Events. – Taxes deferred under this section are payable within nine months after a disqualifying event. The tax for the fiscal year that opens in a calendar year in which deferred taxes become due is computed as if the property was not eligible for property tax relief under this section. Each of the following constitutes a disqualifying event:

(1) The owner transfers the residence. Transfer of the residence under this subdivision is not a disqualifying event if (i) the owner transfers the residence as part of a divorce proceeding to either his or her spouse who qualifies for tax deferral under this section or to a co-owner of the residence, (ii) that individual occupies or continues to occupy the property as his or her permanent residence, and (iii) that individual elects to continue deferring payment of the tax.

(2) The owner dies. Death of the owner under this subdivision is not a disqualifying event if (i) the owner's share passes to either his or her spouse who qualifies for tax deferral under this section or to a co-owner of the residence, (ii) that individual occupies or continues to occupy the property as his or her permanent residence, and (iii) that individual elects to continue deferring payment of the tax.

(3) The owner ceases to use the property as a permanent residence.

(j) Interruption of Qualification. – If the owner of a tax-deferred residence does not qualify under this section for deferral as of January 1 preceding a taxable year for reasons other than a disqualifying event or if the owner of a tax-deferred residence revokes an application for deferral by notifying the assessor in writing, the owner may not defer any additional property taxes under this section without submitting a new application. Deferred taxes from earlier years do not become due because of an interruption of qualification; however, deferred taxes existing at the time of an interruption of qualification shall be carried forward until the occurrence of a disqualifying event. If the owner qualifies for tax deferral under this section following an interruption of qualification, the taxing unit or units shall disregard the years during which there was an interruption of qualification for purposes of determining the three fiscal years preceding the current tax year under subsection (g) of this section.

(k) Prepayment. – All or part of the deferred taxes and accrued interest may be paid to the tax collector at any time. Any partial payment is applied first to accrued interest. A residence owner to whom a tax deferral has previously been granted may revoke the application for deferral at any time by notifying the assessor in writing.

(l) Creditor Limitations. – A mortgagee or trustee that elects to pay any tax deferred by the owner of a residence subject to a mortgage or deed of trust does not acquire a right to foreclose as a result of the election. Except for requirements dictated by federal law or regulation, any provision in a mortgage, deed of trust, or other agreement that prohibits the owner from deferring taxes on property under this section is void.

(m) Construction. – This section does not affect the attachment of a lien for personal property taxes against a tax-deferred residence.

(n) Application. – An application for property tax relief provided by this section should be filed during the regular listing period, but may be filed and must be accepted at any time up to and through June 1 preceding the tax year for which the relief is claimed. Persons may apply for this property tax relief by entering the appropriate information on a form made available by the assessor under G.S. 105-282.1."

SECTION 2.4. G.S. 105-282.1(a)(2) reads as rewritten:

"(2) Single application required. – An owner of one or more of the following properties eligible ~~to be exempted or excluded from taxation~~for a property tax benefit must file an application for ~~exemption or exclusion~~the benefit to receive it. Once the application has been approved, the owner does not need to file an application in

SECTION 8. Article 4 of Chapter 35A of the General Statutes is amended by adding the following new section to read:

"**§ 35A-1208. Authority for health care decisions.**

This Article is to establish an optional and nonexclusive procedure by which a patient or ~~his~~ the patient's representative may exercise these rights. A military advanced medical directive executed in accordance with 10 U.S.C. § 1044 or other applicable law is valid in this State."

(b) Nothing in this Article shall be construed to authorize any affirmative or deliberate act or omission to end life other than to permit the natural process of dying. ADVANCE DIRECTIVE FOR A NATURAL DEATH ("LIVING WILL")

NOTE: YOU SHOULD USE THIS DOCUMENT TO GIVE YOUR HEALTH CARE PROVIDERS INSTRUCTIONS TO WITHHOLD OR WITHDRAW LIFE-PROLONGING MEASURES IN CERTAIN SITUATIONS. THERE IS NO LEGAL REQUIREMENT THAT ANYONE EXECUTE A LIVING WILL.

GENERAL INSTRUCTIONS: *You can use this Advance Directive ("Living Will") form to give instructions for the future if you want your health care providers to withhold or withdraw life-prolonging measures in certain situations. You should talk to your doctor about what these terms mean. The Living Will states what choices you would have made for yourself if you were able to communicate. Talk to your family members, friends, and others you trust about your choices. Also, it is a good idea to talk with professionals such as your doctors, clergypersons, and lawyers before you complete and sign this Living Will.*

You do not have to use this form to give those instructions, but if you create your own Advance Directive you need to be very careful to ensure that it is consistent with North Carolina law.

This Living Will form is intended to be valid in any jurisdiction in which it is presented, but places outside North Carolina may impose requirements that this form does not meet.

If you want to use this form, you must complete it, sign it, and have your signature witnessed by two qualified witnesses and proved by a notary public. Follow the instructions about which choices you can initial very carefully. ***Do not sign this form until*** *two witnesses and a notary public are present to watch you sign it. You then should consider giving a copy to your primary physician and/or a trusted relative, and should consider filing it with the Advanced Health Care Directive Registry maintained by the North Carolina Secretary of State:* http://www.nclifelinks.org/ahcdr/

"(e) ~~The above declaration may be revoked by the declarant, in any manner by which he is able to communicate his intent to revoke, without regard to his mental or~~

SECTION 11.(e) G.S. 90-321 is amended by adding the following new subsections to read:

"(k) Notwithstanding subsection (c) of this section:

(1) An attending physician may decline to honor a declaration that expresses a desire of the declarant that life-prolonging measures not be used if doing so would violate that physician's conscience or the conscience-based policy of the facility at which the declarant is being treated; provided, an attending physician who declines to honor a declaration on these grounds must not interfere, and must cooperate reasonably, with efforts to substitute an attending physician whose conscience would not be violated by honoring the declaration, or transfer the declarant to a facility that does not have policies in force that prohibit honoring the declaration.

(2) An attending physician may decline to honor a declaration if after reasonable inquiry there are reasonable grounds to question the genuineness or validity of a declaration. The subsection imposes no duty on the attending physician to verify a declaration's genuineness or validity.

(l) Notwithstanding subsection (c) of this section, a declaration or similar document executed in a jurisdiction other than North Carolina shall be valid in this State

if it appears to have been executed in accordance with the applicable requirements of that jurisdiction or this State."

~~(4) The life of the person could be or is being sustained by artificial nutrition or hydration;~~

then, ~~extraordinary means or artificial nutrition or hydration~~ life-prolonging measures may be withheld or discontinued in accordance with subsection ~~(b).~~(b) of this section.

(5) A majority of the patient's reasonably available parents and children who are at least 18 years of age;

(6) A majority of the patient's reasonably available siblings who are at least 18 years of age; or

(7) An individual who has an established relationship with the patient, who is acting in good faith on behalf of the patient, and who can reliably convey the patient's wishes.

(c) Repealed by Session Laws 1979, c. 715, s. 2.

(d) The withholding or discontinuance of such ~~extraordinary means or artificial nutrition or hydration~~ life-prolonging measures shall not be considered the cause of death for any civil or criminal purpose nor shall it be considered unprofessional conduct. (2) A reasonable person, from the information provided by the health care provider under the circumstances, would have a general understanding of the procedures or treatments and of the usual and most frequent risks and hazards inherent in the proposed procedures or treatments which are recognized and followed by other health care providers engaged in the same field of practice in the same or similar communities; or

(3) A reasonable person, under all the surrounding circumstances, would have undergone such treatment or procedure had he been advised by the health care provider in accordance with the provisions of subdivisions (1) and (2) of this subsection.

(b) A consent which is evidenced in writing and which meets the foregoing standards, and which is signed by the patient or other authorized person, shall be

presumed to be a valid consent. This presumption, however, may be subject to rebuttal only upon proof that such consent was obtained by fraud, deception or misrepresentation of a material fact. A consent that meets the foregoing standards, that is given by a patient, or other authorized person, who under all the surrounding circumstances has capacity to make and communicate health care decisions, is a valid consent.

(c) ~~A valid consent is one which is given by a person who under all the surrounding circumstances is mentally and physically competent to give consent.~~ The following persons, in the order indicated, are authorized to consent to medical treatment on behalf of a patient who is comatose or otherwise lacks capacity to make or communicate health care decisions:

(1) A guardian of the patient's person, or a general guardian with powers over the patient's person, appointed by a court of competent jurisdiction pursuant to Article 5 of Chapter 35A of the General Statutes; provided that, if the patient has a health care agent appointed pursuant to a valid health care power of attorney, the health care agent shall have the right to exercise the authority to the extent granted in the health care power of attorney and to the extent provided in G.S. 32A-19(b) unless the Clerk has suspended the authority of that health care agent in accordance with G.S. 35A-1208(a);

(2) A health care agent appointed pursuant to a valid health care power of attorney, to the extent of the authority granted;

(3) An attorney-in-fact, with powers to make health care decisions for the patient, appointed by the patient pursuant to Article 1 or Article 2 of Chapter 32A of the General Statutes, to the extent of the authority granted;

(4) The patient's spouse;

(5) A majority of the patient's reasonably available parents and children who are at least 18 years of age;

(6) A majority of the patient's reasonably available siblings who are at least 18 years of age; or

(7) An individual who has an established relationship with the patient, who is acting in good faith on behalf of the patient, and who can reliably convey the patient's wishes.

(c1) If none of the persons listed under subsection (c) of this section is reasonably available, then the patient's attending physician, in the attending physician's discretion, may provide health care treatment without the consent of the patient or other person authorized to consent for the patient if there is confirmation by a physician other than the patient's attending physician of the patient's condition and the necessity for treatment; provided, however, that confirmation of the patient's condition and the necessity for treatment are not required if the delay in obtaining the confirmation would endanger the life or seriously worsen the condition of the patient.

(d) No action may be maintained against any health care provider upon any guarantee, warranty or assurance as to the result of any medical, surgical or diagnostic procedure or treatment unless the guarantee, warranty or assurance, or some note or memorandum thereof, shall be in writing and signed by the provider or by some other person authorized to act for or on behalf of such provider.

(e) In the event of any conflict between the provisions of this section and those of ~~G.S. 35A-1245~~G.S. 35A-1245, 90-21.17, and 90-322, ~~and~~ Articles 1A and 19 of

Chapter 90, and Article 3 of Chapter 122C of the General Statutes, the provisions of those sections and Articles shall control and continue in full force and effect."

"§ **90-21.17. Portable do not resuscitate ~~order.~~order and Medical Order for Scope of Treatment.**

(a) It is the intent of this section to recognize a patient's desire and right to withhold cardiopulmonary resuscitation and other life-prolonging measures to avoid loss of dignity and unnecessary pain and suffering through the use of a portable do not resuscitate ("DNR") ~~order.~~order or a Medical Order for Scope of Treatment (MOST).

This section establishes an optional and nonexclusive procedure by which a patient or the patient's representative may exercise this right.

(b) A physician may issue a portable DNR order or MOST for a patient:

(1) With the consent of the patient;

(2) If the patient is a minor, with the consent of the patient's parent or guardian; or

(3) If the patient is not a minor but is incapable of making an informed decision regarding consent for the order, with the consent of the patient's representative.

The physician shall document the basis for the DNR order or MOST in the patient's medical record. When the order is a MOST, the patient or the patient's representative must sign the form, provided, however, that if it is not practicable for the patient's representative to sign the original MOST form, the patient's representative shall sign a copy of the completed form and return it to the health care professional completing the form. The copy of the form with the signature of the patient's representative, whether in paper or electronic form, shall be placed in the patient's medical record. When the signature of the patient's representative is on a separate copy of the MOST form, the original MOST form must indicate in the appropriate signature field that the signature is "on file".

(c) The Department of Health and Human Services shall develop a portable DNR order ~~form.~~form and a MOST form. The official DNR form shall include fields for the name of the patient; the name, address, and telephone number of the physician; the signature of the physician; and other relevant information. At a minimum, the official MOST form shall include fields for: the name of the patient; an advisory that a patient is not required to have a MOST; the name, telephone number, and signature of the physician, physician assistant, or nurse practitioner authorizing the order; the name and contact information of the health care professional who prepared the form with the patient or the patient's representative; information on who agreed (i.e., the patient or the patient's representative) to the options selected on the MOST form; a range of options for cardiopulmonary resuscitation, medical interventions, antibiotics, medically administered fluids and nutrition; patient or patient representative's name, contact information, and signature; effective date of the form and review dates; a prominent advisory that directions in a MOST form may suspend, while those MOST directions are in effect, any conflicting directions in a patient's previously executed declaration of an advance directive for a natural death ("living will"), health care power of attorney, or other legally authorized instrument; and an advisory that the MOST may be revoked by the patient or the patient's representative. The official MOST form shall also include the following statement written in boldface type directly above the signature line: **'You are not required to sign this form to receive treatment.'** The form may be approved by reference to a standard form that meets the requirements of this subsection. For

purposes of this section, the "patient's representative" means an individual from the list of persons authorized to consent to the withholding of ~~extraordinary care~~ life-prolonging measures pursuant to ~~G.S. 90-322 or an individual who has an established relationship with the patient, who is acting in good faith on behalf of the patient, and who can reliably convey the patient's wishes.~~G.S. 90-322.

(d) No physician, emergency medical professional, hospice provider, or other health care provider shall be subject to criminal prosecution, civil liability, or disciplinary action by any professional licensing or certification agency for withholding cardiopulmonary resuscitation or other life-prolonging measures from a patient in good faith reliance on an original DNR order or MOST form adopted pursuant to subsection (c) of this section, provided that (i) there are no reasonable grounds for doubting the validity of the order or the identity of the patient, and (ii) the provider does not have actual knowledge of the revocation of the portable DNR ~~order.~~order or MOST. No physician, emergency medical professional, hospice provider, or other health care provider shall be subject to criminal prosecution, civil liability, or disciplinary action by any professional licensing or certification agency for failure to follow a DNR order or MOST form adopted pursuant to subsection (c) of this section if the provider had no actual knowledge of the existence of the DNR ~~order.~~order or MOST.

(e) A health care facility may develop policies and procedures that authorize the facility's provider to accept a portable DNR order or MOST as if it were an order of the medical staff of that facility. This section does not prohibit a physician in a health care facility from issuing a written order, other than a portable DNR ~~order,~~order or MOST not to resuscitate a patient in the event of cardiac or respiratory arrest, or to use, withhold, or withdraw additional medical interventions as provided in the MOST, in accordance with acceptable medical practice and the facility's policies.

(f) Nothing in this section shall affect the validity of portable DNR order or MOST forms in existence prior to the effective date of this section."

SECTION 15.(a) G.S. 122C-3(20) reads as rewritten:

Consent may be withdrawn at any time by the person who gave the consent. If treatment is refused, the qualified professional shall determine whether treatment in some other modality is possible. If all appropriate treatment modalities are refused, the voluntarily admitted client may be discharged. In an emergency, a voluntarily admitted client may be administered treatment or medication, other than those specified in subsection (f) of this section, despite the refusal of the ~~client, the~~

~~client's legally responsible person, a health care agent named pursuant to a valid health care power of attorney, or~~ client or the client's legally responsible person, even if the client's refusal is expressed in a valid advance instruction for mental health treatment. The Commission may adopt rules to provide a procedure to be followed when a voluntarily admitted client refuses treatment."

SECTION 16. G.S. 130A-468(c) and (d) read as rewritten:

"(c) When the Secretary of State receives a revocation of a document that is filed with the registry and that document's file number and password, or a request to remove that document from the registry without its revocation, the Secretary shall delete that document from the registry database.

(d) The Secretary of State's entry of a document ~~into~~ into, or removal of a document from, the registry database does not do any of the following:

SECTION 18. The Legislative Research Commission shall study the issue of whether North Carolina law should be amended to allow a person to require life-prolonging measures. The LRC shall involve all stakeholders in the study. The LRC shall report its recommendations to the 2008 Session of the 2007 General Assembly.

SECTION 19. The North Carolina Institute of Medicine (Institute) shall study issues related to the provision of end-of-life medical care in North Carolina. As part of the study, the Division of Health Service Regulation, Department of Health and Human Services, and the North Carolina Board of Medicine shall provide to the Institute nonidentifying information regarding claims and complaints related to end-of-life medical treatment by health care providers that was contrary to the express wishes of either the patient or a person authorized by law to make treatment decisions on behalf of the patient. The Institute may review any other data related to end-of-life medical care and treatment the Institute determines is relevant.

The purpose of this study is to determine whether statutory changes related to advance directives and health care powers of attorney impact the type and quantity of end-of-life medical care provided to patients, whether the patient's or patient representative's express wishes regarding the provision of treatment at the end of life are

being honored, and whether there is any change in the number of persons who request continued treatment at the end of their lives, but do not receive that treatment.

The Institute shall report its findings to the following entities no later than January 30, 2013:

(1) The 2013 General Assembly.

(2) The North Carolina Bar Association.

"§ **20-66. Renewal of vehicle registration.**

(a) Annual Renewal. – The registration of a vehicle must be renewed annually. To renew the registration of a vehicle, the owner of the vehicle must file an application with the Division and pay the required registration fee. The Division may receive and grant an application for renewal of registration at any time before the registration expires.

(b) Method of Renewal. – When the Division renews the registration of a vehicle, it must issue a new registration card for the vehicle and either a new registration plate or a registration renewal sticker. The Division may renew a registration plate for any type of vehicle by means of a renewal sticker.

(b1) Repealed by Session Laws 1993, c. 467, s. 2.

(c) Renewal Stickers. – A registration renewal sticker issued by the Division must be displayed on the registration plate that it renews in the place prescribed by the Commissioner and must indicate the period for which it and the registration plate on which it is displayed are valid. Except where physical differences between a registration renewal sticker and a registration plate render a provision of this Chapter inapplicable, the provisions of this Chapter relating to registration plates apply to registration renewal stickers.

(d), (e) Repealed by Session Laws 1993 (Reg. Sess., 1994), c. 761, § 5.

(f) Repealed by Session Laws 1993, c. 467, s. 2.

It is lawful, however, to operate the vehicle on a highway until midnight on the fifteenth day of the month following the month in which the sticker expired.

The Division may vary the expiration dates of registration renewal stickers issued for a type of vehicle so that an approximately equal number expires at the end of each month, quarter, or other period consisting of one or more months. When the Division

implements registration renewal for a type of vehicle by means of a renewal sticker, it may issue a registration renewal sticker that expires at the end of any monthly interval.

(h) Repealed by Session Laws 2004-167, s. 3, as amended by Session Laws 2004-199, s. 59, effective January 1, 2006.

The registration fee for a motor vehicle whose registration cycle is changed under this subsection shall be reduced by a prorated amount. The prorated amount is one-twelfth of the registration fee in effect when the motor vehicle's registration was last renewed multiplied by the number of full months remaining in the motor vehicle's current registration cycle, rounded to the nearest multiple of twenty-five cents (25¢).

(j) Inspection Prior to Renewal of Registration. – The Division shall not renew the registration of a vehicle unless it has a current safety or emissions inspection.

Session Law 2007-513 **Senate Bill 1351**

AN ACT TO CLARIFY MOTOR VEHICLE FRANCHISE LAWS AS THEY RELATE TO AUTOMOBILE DEALER WARRANTY OBLIGATIONS, CIVIL ACTIONS FOR VIOLATIONS, COERCION, AND INSTALLMENT SALES; AND TO REQUIRE THAT FAIR COMPENSATION BE PAID TO FRANCHISED MOTOR VEHICLE DEALERS TERMINATED AS A RESULT OF INDUSTRY REORGANIZATION.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 20-303 reads as rewritten:

"§ **20-303. Installment sales to be evidenced by written instrument; statement to be delivered to buyer.**

(a) Every retail installment sale shall be evidenced by ~~an instrument~~ one or more instruments in writing, which shall contain all the agreements of the parties and shall be signed by the buyer.

(b) For every retail installment sale, ~~Prior~~ prior to or about the time of the delivery of the motor vehicle, the seller shall deliver to the buyer a written statement describing clearly the motor vehicle sold to the buyer, the cash sale price thereof, the cash paid down by the buyer, the amount credited the buyer for any trade-in and a description of the motor vehicle traded, the amount of the finance charge, the amount of any other charge specifying its purpose, the net balance due from the buyer, the terms of the payment of such net balance and a summary of any insurance protection to be effected. The written statement shall be signed by the buyer."

SECTION 2. G.S. 20-305(4) reads as rewritten:

"(4) Notwithstanding the terms of any franchise agreement, to prevent or refuse to approve the sale or transfer of the ownership of a dealership by the sale of the business, stock transfer, or otherwise, or the transfer, sale or assignment of a dealer franchise, or a change in the executive management or principal operator of the dealership, or relocation of the dealership to another site within the dealership's relevant market area, if the Commissioner has determined, if requested in writing by the dealer within 30 days after receipt of an objection to the proposed transfer, sale, assignment, relocation, or change, and after a hearing on the matter, that the failure to permit or honor the transfer, sale, assignment, relocation, or change is unreasonable under the circumstances. No franchise may be transferred, sold, assigned, relocated, or the executive management or principal operators changed, unless the franchisor has been given at least 30 days' prior written notice as to the proposed transferee's name and address, ~~identity,~~ financial ability, and qualifications of the proposed transferee, a copy of the purchase agreement between the dealership and the proposed transferee, the identity and qualifications of the persons proposed to be involved in executive management or as principal operators, and the location and site plans of any proposed relocation. The franchisor shall send the dealership and the proposed transferee notice of objection, by registered or certified mail, return receipt requested, to the proposed transfer, sale, assignment, relocation, or change within 30 days after receipt of notice from the dealer, as provided in this section. The notice of objection shall state in detail all factual and legal bases for the objection on the part of the franchisor to the proposed transfer, sale, assignment, relocation, or change that is specifically referenced in this subdivision. An objection to a proposed transfer, sale, assignment, relocation, or change in the executive management or principal operator of the dealership may only be premised upon the factual and legal bases specifically referenced in this subdivision. A manufacturer's notice of objection which is based upon factual or legal issues that are not specifically referenced in this subdivision as being issues upon which the Commissioner shall base his determination shall not be effective to preserve the franchisor's right to object to the proposed transfer sale, assignment, relocation, or change, provided the dealership or proposed transferee has submitted written notice, as required above, as to the proposed transferee's name and address, financial ability, and qualifications of the proposed transferee, a copy of the purchase agreement between the dealership

and the proposed transferee, the identity and qualifications of the persons proposed to be involved in the executive management or as principal operators, and the location and site plans of any proposed relocation. Failure by the franchisor to send notice of objection within 30 days shall constitute waiver by the franchisor of any right to object to the proposed transfer, sale, assignment, relocation, or change. If the franchisor requires additional information to complete its review, the franchisor shall notify the dealership within 15 days after receipt of the proposed transferee's name and address, financial ability, and qualifications, a copy of the purchase agreement between the dealership and the proposed transferee, the identity and qualifications of the persons proposed to be involved in executive management or as principal operators, and the location and site plans of any proposed relocation. If the franchisor fails to request additional information from the dealer or proposed transferee within 15 days of receipt of this initial information, the 30-day time period within which the franchisor may provide notice of objection shall be deemed to run from the initial receipt date. Otherwise, the 30-day time period within which the franchisor may provide notice of objection shall run from the date the franchisor has received the supplemental information requested from the dealer or proposed transferee; provided, however, that failure by the franchisor to send notice of objection within 60 days of the franchisor's receipt of the initial information from the dealer shall constitute waiver by the franchisor of any right to object to the proposed transfer, sale, assignment, relocation, or change. With respect to a proposed transfer of ownership, sale, or assignment, the sole issue for determination by the Commissioner and the sole issue upon which the Commissioner shall hear or consider evidence is whether, by reason of lack of good moral character, lack of general business experience, or lack of financial ability, the proposed transferee is unfit to own the dealership. For purposes of this subdivision, the refusal by the manufacturer to accept a proposed transferee who is of good moral character and who otherwise meets the written, reasonable, and uniformly applied business experience and financial requirements, if any, required by the manufacturer of owners of its franchised automobile dealerships is presumed to demonstrate the manufacturer's failure to prove that the proposed transferee is unfit to own the dealership. With respect to a proposed change in the executive management or principal operator of the dealership, the sole issue for determination by the Commissioner and the sole issue on which the Commissioner shall hear or consider evidence shall be whether, by reason of lack of training, lack of prior experience, poor past performance, or poor character, the proposed candidate for a position within the executive management or as principal operator of the dealership is unfit for the position. For purposes of this subdivision, the refusal by the manufacturer to accept a proposed candidate for executive management or as principal operator who is of good moral character and who otherwise meets the written, reasonable, and uniformly applied standards or qualifications, if any, of the

manufacturer relating to the business experience and prior performance of executive management required by the manufacturers of its dealers is presumed to demonstrate the manufacturer's failure to prove the proposed candidate for executive management or as principal operator is unfit to serve the capacity. With respect to a proposed relocation or other proposed change, the issue for determination by the Commissioner is whether the proposed relocation or other change is unreasonable under the circumstances. For purposes of this subdivision, the refusal by the manufacturer to agree to a proposed relocation which meets the written, reasonable, and uniformly applied standards or criteria, if any, of the manufacturer relating to dealer relocations is presumed to demonstrate that the manufacturer's failure to prove the proposed relocation is unreasonable under the circumstances. The manufacturer shall have the burden of proof before the Commissioner under this subdivision. It is unlawful for a manufacturer to, in any way, condition its approval of a proposed transfer, sale, assignment, change in the dealer's executive ~~management or~~ management, principal ~~operator~~operator, or appointment of a designated successor, on the existing or proposed dealer's willingness to construct a new facility, renovate the existing facility, acquire or refrain from acquiring one or more line-makes of vehicles, separate or divest one or more line-makes of vehicle, or establish or maintain exclusive facilities, personnel, or display space. It is unlawful for a manufacturer to, in any way, condition its approval of a proposed relocation on the existing or proposed dealer's willingness to acquire or refrain from acquiring one or more line-makes of vehicles, separate or divest one or more line-makes of vehicle, or establish or maintain exclusive facilities, personnel, or display space. The opinion or determination of a franchisor that the continued existence of one of its franchised dealers situated in this State is not viable, or that the dealer holds or fails to hold licensing rights for the sale of other line-makes of vehicles in a manner consistent with the franchisor's existing or future distribution or marketing plans, shall not constitute a lawful basis for the franchisor to fail or refuse to approve a dealer's proposed relocation: provided, however, that nothing contained in this subdivision shall be deemed to prevent or prohibit a franchisor from failing to approve a dealer's proposed relocation on grounds that the specific site or facility proposed by the dealer is otherwise unreasonable under the circumstances. Approval of a relocation pursuant to this subdivision shall not in itself constitute the franchisor's representation or assurance of the dealer's viability at that location."

SECTION 3. G.S. 20-305(7)c. reads as rewritten:

"c. Except as otherwise provided in sub-subdivision d. of this subdivision, any designated successor of a deceased or incapacitated owner or principal operator of a new motor vehicle dealership appointed by such owner in substantial compliance with this section shall, by operation of law, succeed at the time of such death or incapacity to all of the rights and

obligations of the owner or principal operator in the new motor vehicle dealership and under either the existing ~~franchise.~~franchise or any other successor, renewal, or replacement franchise."

SECTION 4. G.S. 20-305(18) reads as rewritten:

"(18) To prevent or attempt to prevent a dealer from receiving fair and reasonable compensation for the value of the franchised business transferred in accordance with G.S. 20-305(4) above, or to prevent or attempt to prevent, through the exercise of any contractual right of first refusal or otherwise, a dealer located in this State from transferring the franchised business to such persons or other entities as the dealer shall designate in accordance with G.S. 20-305(4). The opinion or determination of a manufacturer that the existence or location of one of its franchised dealers situated in this State is not viable or is not consistent with the manufacturer's distribution or marketing forecast or plans shall not constitute a lawful basis for the manufacturer to fail or refuse to approve a dealer's proposed transfer of ownership submitted in accordance with G.S. 20-305(4), or "good cause" for the termination, cancellation, or nonrenewal of the franchise under G.S. 20-305(6) or ~~for the rejection of~~ grounds for the objection to an owner's designated successor appointed pursuant to G.S. 20-305(7). ~~No manufacturer shall owe any duty to any actual or potential purchaser of a motor vehicle franchise located in this State to disclose to such actual or potential purchaser its own opinion or determination that the franchise being sold or otherwise transferred is not viable or is not consistent with the manufacturer's distribution or marketing forecast or plans.~~"

SECTION 5. G.S. 20-305.1(b) reads as rewritten:

"(b) Notwithstanding the terms of any franchise agreement, it is unlawful for any motor vehicle manufacturer, factory branch, distributor, or distributor branch to fail to perform any of its warranty obligations with respect to a motor vehicle, to fail to fully compensate its motor vehicle dealers licensed in this State for warranty parts other than parts used to repair the living facilities of recreational vehicles, at the prevailing retail rate according to the factors in subsection (a) of this section, or, in service in accordance with the schedule of compensation provided the dealer pursuant to subsection (a) above, or to otherwise recover all or any portion of its costs for compensating its motor vehicle dealers licensed in this State for warranty parts and service either by reduction in the amount due to the dealer, or by separate charge, surcharge, or other imposition, and to fail to indemnify and hold harmless its franchised dealers licensed in this State against any judgment for damages or settlements agreed to by the manufacturer, including, but not limited to, court costs and reasonable attorneys' fees of the motor vehicle dealer, arising out of complaints, claims or lawsuits including, but not limited to, strict liability, negligence, misrepresentation, express or implied warranty, or recision or revocation of acceptance of the sale of a motor vehicle as defined in G.S. 25-2-608, to the extent that the judgment or settlement relates to the alleged defective negligent manufacture, assembly or design of new motor vehicles, parts or accessories or other functions by the manufacturer, factory branch, distributor or distributor branch, beyond the control of the dealer. Any audit for warranty parts or service compensation shall only be for the 12-month period immediately following the date of the payment of the claim by the

manufacturer, factory branch, distributor, or distributor branch. Any audit for sales incentives, service incentives, rebates, or other forms of incentive compensation shall only be for the 12-month period immediately following the date of the ~~termination of the~~ payment of the claim by the manufacturer, factory branch, distributor, or distributor branch pursuant to a sales incentives program, service incentives program, rebate program, or other form of incentive compensation program. Provided, however, these limitations shall not be effective in the case of fraudulent claims."

SECTION 6. G.S. 20-305.1(b1) reads as rewritten:

"(b1) All claims made by motor vehicle dealers pursuant to this section for compensation for delivery, preparation, warranty and recall work including labor, parts, and other expenses, shall be paid by the manufacturer within 30 days after receipt of claim from the dealer. When any claim is disapproved, the dealer shall be notified in writing of the grounds for disapproval. Any claim not specifically disapproved in writing within 30 days after receipt shall be considered approved and payment is due immediately. No claim which has been approved and paid may be charged back to the dealer unless it can be shown that the claim was false or fraudulent, that the repairs were not properly made or were unnecessary to correct the defective condition, or the dealer failed to reasonably substantiate the ~~claim.~~claim either in accordance with the manufacturer's reasonable written procedures or by other reasonable means. A manufacturer or distributor shall not deny a claim or reduce the amount to be reimbursed to the dealer as long as the dealer has provided reasonably sufficient documentation that the dealer:

(1) Made a good faith attempt to perform the work in compliance with the written policies and procedures of the manufacturer; and

(2) Actually performed the work.

Notwithstanding the foregoing, a manufacturer shall not fail to fully compensate a dealer for warranty or recall work or make any chargeback to the dealer's account based on the dealer's failure to comply with the manufacturer's claim documentation procedure or procedures unless both of the following requirements have been met:

(1) The dealer has, within the previous 12 months, failed to comply with the same specific claim documentation procedure or procedures; and

(2) The manufacturer has, within the previous 12 months, provided a written warning to the dealer by certified United States mail, return receipt requested, identifying the specific claim documentation procedure or procedures violated by the dealer.

Nothing contained in this subdivision shall be deemed to prevent or prohibit a manufacturer from adopting or implementing a policy or procedure which provides or allows for the self-audit of dealers, provided, however, that if any such self-audit procedure contains provisions relating to claim documentation, such claim documentation policies or procedures shall be subject to the prohibitions and requirements contained in this subdivision. Notices sent by a manufacturer under a bona fide self-audit procedure shall be deemed sufficient notice to meet the requirements of this subsection provided that the dealer is given reasonable opportunity through self-audit to identify and correct any out-of-line procedures for a period of at least 60 days before the manufacturer conducts its own audit of the dealer warranty operations and procedures. A manufacturer may further not charge a dealer back subsequent to the payment of the claim unless a representative of the manufacturer has met in person at the dealership, or by telephone, with an officer or employee of the dealer designated by the dealer and explained in detail the basis for each of the proposed charge-backs and

thereafter given the dealer's representative a reasonable opportunity at the meeting, or during the telephone call, to explain the dealer's position relating to each of the proposed charge-backs. In the event the dealer was selected for audit or review on the basis that some or all of the dealer's claims were viewed as excessive in comparison to average, mean, or aggregate data accumulated by the manufacturer, or in relation to claims submitted by a group of other franchisees of the manufacturer, the manufacturer shall, at or prior to the meeting or telephone call with the dealer's representative, provide the dealer with a written statement containing the basis or methodology upon which the dealer was selected for audit or review."

SECTION 7. G.S. 20-305.1(b2) reads as rewritten:

"(b2) A manufacturer may not deny a motor vehicle dealer's claim for sales incentives, service incentives, rebates, or other forms of incentive compensation, reduce the amount to be paid to the dealer, or charge a dealer back subsequent to the payment of the claim unless it can be shown that the claim was false or fraudulent or that the dealer failed to reasonably substantiate the claim either in accordance with the manufacturer's reasonable written procedures or by other reasonable means."

SECTION 8. G.S. 20-308.1 reads as rewritten:

"§ **20-308.1. Civil actions for violations.**

(a) Notwithstanding the terms, provisions or conditions of any agreement or franchise or other terms or provisions of any novation, waiver or other written instrument, any ~~person~~ motor vehicle dealer who is or may be injured by a violation of a provision of this Article, or any party to a franchise who is so injured in his business or property by a violation of a provision of this Article relating to that franchise, or an arrangement which, if consummated, would be in violation of this Article may, notwithstanding the initiation or pendency of, or failure to initiate an administrative proceeding before the Commissioner concerning the same parties or subject matter, bring an action for damages and equitable relief, including injunctive relief, in any court of competent jurisdiction with regard to any matter not within the jurisdiction of the Commissioner or that seeks relief wholly outside the authority or jurisdiction of the Commissioner to award.

(b) Where the violation of a provision of this Article can be shown to be willful, malicious, or wanton, or if continued multiple violations of a provision or provisions of this Article occur, the court may award punitive damages, attorneys' fees and costs in addition to any other damages under this Article.

(c) A new motor vehicle dealer, if he has not suffered any loss of money or property, may obtain final equitable relief if it can be shown that the violation of a provision of this Article by a manufacturer or distributor may have the effect of causing a loss of money or property.

(d) Any association that is comprised of a minimum of 400 new motor vehicle dealers, or a minimum of 10 motorcycle dealers, substantially all of whom are new motor vehicle dealers located within North Carolina, and which represents the collective interests of its members, shall have standing to file a petition before the Commissioner or a cause of action in any court of competent jurisdiction for itself, or on behalf of any or all of its members, seeking declaratory and injunctive relief. Prior to bringing an action, the association and manufacturer, factory branch, distributor, or distributor branch shall initiate mediation as set forth in G.S. 20-301.1(b). An action brought pursuant to this subsection may seek a determination whether one or more manufacturers, factory branches, distributors, or distributor branches doing business in this State have violated any of the provisions of this Article, or for the determination of

any rights created or defined by this Article, so long as the association alleges an injury to the collective interest of its members cognizable under this section. A cognizable injury to the collective interest of the members of the association shall be deemed to occur if a manufacturer, factory branch, distributor, or distributor branch doing business in this State has engaged in any conduct or taken any action which actually harms or affects all of the franchised new motor vehicle dealers holding franchises with that manufacturer, factory branch, distributor, or distributor branch in this State. With respect to any administrative or civil action filed by an association pursuant to this subsection, the relief granted shall be limited to declaratory and injunctive relief and in no event shall the Commissioner or court enter an award of monetary damages."

SECTION 9. G.S. 20-305 is amended by adding a new subdivision to read:

"(41) Notwithstanding the terms, provisions, or conditions of any agreement or franchise, to use or consider the performance of any of its franchised new motor vehicle dealers located in this State relating to the sale of the manufacturer's new motor vehicles or ability to satisfy any minimum sales or market share quota or responsibility relating to the sale of the manufacturer's new motor vehicles in determining:

a. The dealer's eligibility to purchase program, certified, or other used motor vehicles from the manufacturer;

b. The volume, type, or model of program, certified, or other used motor vehicles the dealer shall be eligible to purchase from the manufacturer;

c. The price or prices of any program, certified, or other used motor vehicles that the dealer shall be eligible to purchase from the manufacturer; or

d. The availability or amount of any discount, credit, rebate, or sales incentive the dealer shall be eligible to receive from the manufacturer for the purchase of any program, certified, or other used motor vehicles offered for sale by the manufacturer."

SECTION 10. G.S. 20-305.7(b) reads as rewritten:

"(b) No manufacturer, factory branch, distributor, distributor branch, dealer management computer system vendor, or any third party acting on behalf of any manufacturer, factory branch, distributor, distributor branch, or dealer management computer system vendor may access or utilize customer or prospect information maintained in a dealer management computer system utilized by a motor vehicle dealer located in this State for purposes of soliciting any such customer or prospect on behalf of, or directing such customer or prospect to, any other dealer. The limitations in this subsection do not apply to:

(1) A customer that requests a reference to another dealership;

(2) A customer that moves more than 60 miles away from the dealer whose data was accessed;

(3) Customer or prospect information that was provided to the dealer by the manufacturer, factory branch, distributor, or distributor branch; or

(4) Customer or prospect information obtained by the manufacturer, factory branch, distributor, or distributor branch where the dealer agrees to allow the manufacturer, factory branch, distributor, distributor branch, dealer management computer system vendor, or any third party acting on behalf of any manufacturer, factory branch, distributor, distributor branch, or dealer management computer system

vendor the right to access and utilize the customer or prospect information maintained in the dealer's dealer management computer system for purposes of soliciting any customer or prospect of the dealer on behalf of, or directing such customer or prospect to, any other dealer in a separate, stand-alone written instrument dedicated solely to such authorization.

No manufacturer, factory branch, distributor, distributor branch, dealer management computer system vendor, or any third party acting on behalf of any manufacturer, factory branch, distributor, distributor branch, or dealer management computer system vendor, may provide access to customer or dealership information maintained in a dealer management computer system utilized by a motor vehicle dealer located in this State, without first obtaining the dealer's prior express written consent, revocable by the dealer upon five business days written notice, to provide such access. Prior to obtaining said consent and prior to entering into an initial contract or renewal of a contract with a dealer located in this State, the manufacturer, factory branch, distributor, distributor branch, dealer management computer system vendor, or any third party acting on behalf of, or through any manufacturer, factory branch, distributor, distributor branch, or dealer management computer system vendor shall provide to the dealer a written list of all third parties to whom any North Carolina dealer management computer system data has been provided within the 12-month period ending November 1 of the prior year. The list shall further describe the scope of the data provided. In addition to the initial list, a dealer management computer system vendor or any third party acting on behalf of, or through a dealer management computer system vendor shall provide to the dealer an annual list of third parties to whom said data is being provided on November 1 of each year and to whom said data has been provided in the preceding 12 months and describe the scope of the data provided. Such list shall be provided to the dealer by January 1 of each year. Any dealer management computer system vendor's contract that directly relates to the transfer or accessing of dealer or dealer customer information must conspicuously state, "NOTICE TO DEALER: THIS AGREEMENT RELATES TO THE TRANSFER AND ACCESSING OF CONFIDENTIAL INFORMATION AND CONSUMER RELATED DATA". Such consent does not change any such person's obligations to comply with the terms of this section and any additional State or federal laws (and any rules or regulations promulgated thereunder) applicable to them with respect to such access. In addition, no dealer management computer system vendor may refuse to provide a dealer management computer system to a motor vehicle dealer located in this State if the dealer refuses to provide any consent under this subsection, except to the extent that consent is deemed by the parties to be reasonably necessary in order for the vendor to provide the system to the dealer."

SECTION 11. G.S. 20-305.1 is amended by adding a new subsection to read:

"(g) Truck Dealer Cost Reimbursement. – Every manufacturer, manufacturer branch, distributor, or distributor branch of new motor vehicles, or any affiliate or subsidiary thereof, which manufactures or distributes new motor vehicles with a gross vehicle weight rating of 16,000 pounds or more shall compensate its new motor vehicle dealers located in this State for the cost of special tools, equipment, and training for which its dealers are liable when the applicable manufacturer, manufacturer branch, distributor, or distributor branch sells a portion of its vehicle inventory to converters and other nondealer retailers. The purpose of this reimbursement is to compensate truck dealers for special additional costs these dealers are required to pay for servicing these

vehicles when the dealers are excluded from compensation for these expenses at the point of sale. The compensation which shall be paid pursuant to this subsection shall be applicable only with respect to new motor vehicles with a gross vehicle weight rating of 16,000 pounds or more which are registered to end users within this State and that are sold by a manufacturer, manufacturer branch, distributor, or distributor branch to either:

(1) Persons or entities other than new motor vehicle dealers with whom the manufacturer, manufacturer branch, distributor, or distributor branch has entered into franchises; or

(2) Persons or entities that install custom bodies on truck chassis, including, but not limited to, mounted equipment or specialized bodies for concrete distribution, firefighting equipment, waste disposal, recycling, garbage disposal, buses, utility service, street sweepers, wreckers, and rollback bodies for vehicle recovery; provided, however, that no compensation shall be required to be paid pursuant to this subdivision with respect to vehicles sold for purposes of manufacturing or assembling school buses.

The amount of compensation which shall be payable by the applicable manufacturer, manufacturer branch, distributor, or distributor branch shall be six hundred dollars ($600.00) per new motor vehicle registered in this State whose chassis has a gross vehicle weight rating of 16,000 pounds or more. The compensation required pursuant to this subsection shall be paid by the applicable manufacturer, manufacturer branch, distributor, or distributor branch to its franchised new motor vehicle dealer in closest proximity to the registered address of the end user to whom the motor vehicle has been registered within 30 days after such registration. Upon receiving a request in writing from one of its franchised dealers located in this State, a manufacturer, manufacturer branch, distributor, or distributor branch shall promptly make available to such dealer its records relating to the registered addresses of its new motor vehicles registered in this State for the previous 12 months and its payment of compensation to dealers as provided in this subsection."

SECTION 12. G.S. 20-305(6) reads as rewritten:

"(6) Notwithstanding the terms, provisions or conditions of any franchise or notwithstanding the terms or provisions of any waiver, to terminate, cancel or fail to renew any franchise with a licensed new motor vehicle dealer unless the manufacturer has satisfied the notice requirements of subparagraph c. and the Commissioner has determined, if requested in writing by the dealer within (i) the time period specified in ~~G.S. 20-305(6)c1II, III or IV,~~ G.S. 20-305(6)c.1.II., III., or IV., as applicable, or (ii) the effective date of the franchise termination specified or proposed by the manufacturer in the notice of termination, whichever period of time is longer, and after a hearing on the matter, that there is good cause for the termination, cancellation, or nonrenewal of the franchise and that the manufacturer has acted in good faith as defined in this act regarding the termination, cancellation or nonrenewal. When such a petition is made to the Commissioner by a dealer for determination as to the existence of good cause and good faith for the termination, cancellation or nonrenewal of a franchise, the Commissioner shall promptly inform the manufacturer that a timely petition has been filed, and the franchise in question shall continue in effect pending the Commissioner's decision. The Commissioner shall

try to conduct the hearing and render a final determination within 180 days after a petition has been filed. If the termination, cancellation or nonrenewal is pursuant to ~~G.S. 20-305(6)c1III~~ G.S. 20-305(6)c.1.III. then the Commissioner shall give the proceeding priority consideration and shall try to render his final determination no later than 90 days after the petition has been filed. Any parties to a hearing by the Commissioner under this section shall have a right of review of the decision in a court of competent jurisdiction pursuant to Chapter 150B of the General Statutes. Any determination of the Commissioner under this section finding that good cause exists for the nonrenewal, cancellation, or termination of any franchise shall automatically be stayed during any period that the affected dealer shall have the right to judicial review or appeal of the determination before the superior court or any other appellate court and during the pendency of any appeal; provided, however, that within 30 days of entry of the Commissioner's order, the affected dealer provide such security as the reviewing court, in its discretion, may deem appropriate for payment of such costs and damages as may be incurred or sustained by the manufacturer by reason of and during the pendency of the stay. Although the right of the affected dealer to such stay is automatic, the procedure for providing such security and for the award of damages, if any, to the manufacturer upon dissolution of the stay shall be in accordance with G.S. 1A-1, Rule 65(d) and (e). No such security provided by or on behalf of any affected dealer shall be forfeited or damages awarded against a dealer who obtains a stay under this subdivision in the event the ownership of the affected dealership is subsequently transferred, sold, or assigned to a third party in accordance with this subdivision or subdivision (4) of this section and the closing on such transfer, sale, or assignment occurs no later than 180 days after the date of entry of the Commissioner's order. Furthermore, unless and until the termination, cancellation, or nonrenewal of a dealer's franchise shall finally become effective, in light of any stay or any order of the Commissioner determining that good cause exists for the termination, cancellation, or nonrenewal of a dealer's franchise as provided in this paragraph, a dealer who receives a notice of termination, cancellation, or nonrenewal from a manufacturer as provided in this subdivision shall continue to have the same rights to assign, sell, or transfer the franchise to a third party under the franchise and as permitted under G.S. 20-305(4) as if notice of the termination had not been given by the manufacturer. Any franchise under notice or threat of termination, cancellation, or nonrenewal by the manufacturer which is duly transferred in accordance with G.S. 20-305(4) shall not be subject to termination by reason of failure of performance or breaches of the franchise on the part of the transferor.

a. Notwithstanding the terms, provisions or conditions of any franchise or the terms or provisions of any waiver, good cause shall exist for the purposes of a termination, cancellation or nonrenewal when:

1. There is a failure by the new motor vehicle dealer to comply with a provision of the franchise which provision is both reasonable and of material significance to the franchise relationship provided that the dealer has been notified in writing of the failure within 180 days after the manufacturer first acquired knowledge of such failure;
2. If the failure by the new motor vehicle dealer relates to the performance of the new motor vehicle dealer in sales or service, then good cause shall be defined as the failure of the new motor vehicle dealer to comply with reasonable performance criteria established by the manufacturer if the new motor vehicle dealer was apprised by the manufacturer in writing of the failure; and
   I. The notification stated that notice was provided of failure of performance pursuant to this section;
   II. The new motor vehicle dealer was afforded a reasonable opportunity, for a period of not less than 180 days, to comply with the criteria; and
   III. The new motor vehicle dealer failed to demonstrate substantial progress towards compliance with the manufacturer's performance criteria during such period and the new motor vehicle dealer's failure was not primarily due to economic or market factors within the dealer's relevant market area which were beyond the dealer's control.

b. The manufacturer shall have the burden of proof under this section.

c. Notification of Termination, Cancellation and Nonrenewal. –
   1. Notwithstanding the terms, provisions or conditions of any franchise prior to the termination, cancellation or nonrenewal of any franchise, the manufacturer shall furnish notification of termination, cancellation or nonrenewal to the new motor vehicle dealer as follows:
      I. In the manner described in G.S. 20-305(6)c2 below; and
      II. Not less than 90 days prior to the effective date of such termination, cancellation or nonrenewal; or
      III. Not less than 15 days prior to the effective date of such termination, cancellation or nonrenewal with respect to any of the following:
         A. Insolvency of the new motor vehicle dealer, or filing of any petition by or against the new motor vehicle dealer under any bankruptcy or receivership law;
         B. Failure of the new motor vehicle dealer to conduct its customary sales and service operations during its customary business

hours for seven consecutive business days, except for acts of God or circumstances beyond the direct control of the new motor vehicle dealer;

C. Revocation of any license which the new motor vehicle dealer is required to have to operate a dealership;

D. Conviction of a felony involving moral turpitude, under the laws of this State or any other state, or territory, or the District of Columbia.

IV. Not less than 180 days prior to the effective date of such ~~termination or cancellation where the manufacturer or distributor is discontinuing the sale of the product line.~~termination, cancellation, or nonrenewal which occurs as a result of any change in ownership, operation, or control of all or any part of the business of the manufacturer, factory branch, distributor, or distributor branch whether by sale or transfer of assets, corporate stock or other equity interest, assignment, merger, consolidation, combination, joint venture, redemption, operation of law or otherwise; or the termination, suspension, or cessation of a part or all of the business operations of the manufacturers, factory branch, distributor, or distributor branch; or discontinuance of the sale of the product line or a change in distribution system by the manufacturer whether through a change in distributors or the manufacturer's decision to cease conducting business through a distributor altogether.

V. Unless the failure by the new motor vehicle dealer relates to the performance of the new motor vehicle dealer in sales or service, not more than one year after the manufacturer first acquired knowledge of the basic facts comprising the failure.

2. Notification under this section shall be in writing; shall be by certified mail or personally delivered to the new motor vehicle dealer; and shall contain:

I. A statement of intention to terminate, cancel or not to renew the franchise;

II. A detailed statement of all of the material reasons for the termination, cancellation or nonrenewal; and

III. The date on which the termination, cancellation or nonrenewal takes effect.

3. Notification provided in G.S. 20-305(6)c1II of 90 days prior to the effective date of such termination, cancellation or renewal may run concurrent with the 180 days designated in G.S. 20-305(6)a2II provided the notification is clearly designated by a separate written document mailed by certified mail or personally delivered to the new motor vehicle dealer.

d. Payments.

1. Upon the termination, nonrenewal or cancellation of any franchise by the manufacturer or distributor, pursuant to this section, the new motor vehicle dealer shall be allowed fair and reasonable compensation by the manufacturer for the:

I. New motor vehicle inventory that has been acquired from the manufacturer within 18 months, at a price not to exceed the original manufacturer's price to the dealer, and which has not been altered or damaged, and which has not been driven more than 200 miles, and for which no certificate of title has been issued;

II. Unused, undamaged and unsold supplies and parts purchased from the manufacturer, at a price not to exceed the original manufacturer's price to the dealer, provided such supplies and parts are currently offered for sale by the manufacturer or distributor in its current parts catalogs and are in salable condition;

III. Equipment, signs, and furnishings that have not been altered or damaged and that have been required by the manufacturer or distributor to be purchased by the new motor vehicle dealer from the manufacturer or distributor, or their approved sources; and

IV. Special tools that have not been altered or damaged and that have been required by the manufacturer or distributor to be purchased by the new motor vehicle dealer from the manufacturer or distributor, or their approved sources within five years immediately preceding the termination, nonrenewal or cancellation of the franchise.

2. Fair and reasonable compensation for the above shall be paid by the manufacturer within 90 days of the effective date of termination, cancellation or nonrenewal, provided the new motor vehicle dealer has clear title to the inventory and has conveyed title and possession of the same to the manufacturer. The manufacturer shall be obligated to pay or reimburse the dealer for any transportation charges associated with the manufacturer's repurchase obligations under this sub-subparagraph. The

manufacturer may not charge the dealer any handling, restocking, or other similar costs or fees associated with items repurchased by the manufacturer under this sub-subparagraph.

3. In addition to the other payments set forth in this section, if a termination, cancellation, or nonrenewal is premised upon any of the occurrences set forth in G.S. 20-305(6)c.1.IV., then the manufacturer shall be liable to the dealer for an amount at least equivalent to the fair market value of the franchise on (i) the date the franchisor announces the action which results in termination, cancellation, or nonrenewal; or (ii) the date the action which results in termination, cancellation, or nonrenewal first became general knowledge; or (iii) the day 12 months prior to the date on which the notice of termination, cancellation, or nonrenewal is issued, whichever amount is higher. Payment is due within 90 days of the effective date of the termination, cancellation, or nonrenewal. If the termination, cancellation, or nonrenewal is due to a manufacturer's change in distributors, the manufacturer may avoid paying fair market value to the dealer if the new distributor or the manufacturer offers the dealer a franchise agreement with terms acceptable to the dealer.

e. Dealership Facilities Assistance upon Termination, Cancellation or Nonrenewal.

In the event of the termination, cancellation or nonrenewal by the manufacturer or distributor under this section, except termination, cancellation or nonrenewal for insolvency, license revocation, conviction of a crime involving moral turpitude, or fraud by a dealer-owner:

1. Subject to paragraph 3, if the new motor vehicle dealer is leasing the dealership facilities from a lessor other than the manufacturer, the manufacturer shall pay the new motor vehicle dealer a sum equivalent to the rent for the unexpired term of the lease or three year's rent, whichever is less, or such longer term as is provided in the franchise agreement between the dealer and manufacturer; except that, in the case of motorcycle dealerships, the manufacturer shall pay the new motor vehicle dealer the sum equivalent to the rent for the unexpired term of the lease or one year's rent, whichever is less, or such longer term as provided in the franchise agreement between the dealer and manufacturer; or
2. Subject to paragraph 3, if the new motor vehicle dealer owns the dealership facilities, the manufacturer shall pay the new motor vehicle dealer a sum equivalent to the reasonable rental value of the dealership facilities for

three years, or for one year in the case of motorcycle dealerships.

3. In order to be entitled to facilities assistance from the manufacturer, as provided in this paragraph e., the dealer, owner, or lessee, as the case may be, shall have the obligation to mitigate damages by listing the demised premises for lease or sublease with a licensed real estate agent within 30 days after the effective date of the termination of the franchise and thereafter by reasonably cooperating with said real estate agent in the performance of the agent's duties and responsibilities. In the event that the dealer, owner, or lessee is able to lease or sublease the demised premises, the dealer shall be obligated to pay the manufacturer the net revenue received from such mitigation up to the total amount of facilities assistance which the dealer has received from the manufacturer pursuant to sub-subdivisions 1. and 2. To the extent and for such uses and purposes as may be consistent with the terms of the lease, a manufacturer who pays facilities assistance to a dealer under this paragraph e. shall be entitled to occupy and use the dealership facilities during the years for which the manufacturer shall have paid rent under sub-subdivisions 1. and 2.
4. In the event the termination relates to fewer than all of the franchises operated by the dealer at a single location, the amount of facilities assistance which the manufacturer is required to pay the dealer under this sub-subdivision shall be based on the proportion of gross revenue received from the sale and lease of new vehicles by the dealer and from the dealer's parts and service operations during the three years immediately preceding the effective date of the termination (or any shorter period that the dealer may have held these franchises) of the line-makes being terminated, in relation to the gross revenue received from the sale and lease of all line-makes of new vehicles by the dealer and from the total of the dealer's and parts and service operations from this location during the same three-year period.
5. The compensation required for facilities assistance under this paragraph e. shall be paid by the manufacturer within 90 days of the effective date of termination, cancellation, or nonrenewal.

f. The provisions of sub-subdivisions d. and e. above shall not be applicable when the termination, nonrenewal or cancellation of the franchise agreement is the result of the voluntary act of the dealer.

Notwithstanding the terms of any contract or agreement, any dealer's termination or resignation shall not be deemed to be

voluntary if that termination or resignation occurred under the manufacturer's threat of nonrenewal, cancellation, or termination of the franchise.

g. A franchise shall continue in full force and operation notwithstanding a change, in whole or in part, of an established plan or system of distribution of the motor vehicles offered for sale under the franchise. The appointment of a new manufacturer, factory branch, distributor, or distributor branch for motor vehicles offered for sale under the franchise agreement shall be deemed to be a change of an established plan or system of distribution.

Upon the occurrence of the change, the Division shall deny an application of a manufacturer, factory branch, distributor, or distributor branch for a license or license renewal unless the applicant for a license as a manufacturer, factory branch, distributor, or distributor branch offers to each motor vehicle dealer who is a party to a franchise for that line-make a new franchise agreement containing substantially the same provisions which were contained in the previous franchise agreement or files an affidavit with the Division acknowledging its undertaking to assume and fulfill the rights, duties, and obligations of its predecessor under the previous franchise agreement."

SECTION 13. This act shall be applicable to all franchises and other contracts and agreements existing between motor vehicle dealers, on the one part, and manufacturers, factory branches, distributors, and distributor branches, on the other part, at the time of its ratification, and to all future franchises, contracts, and other agreements.

SECTION 14. If any provision of this act or its application is held invalid, the invalidity does not affect other provisions or applications of this act that can be given effect without the invalid provisions or application, and to this end the provisions of this act are severable.

SECTION 15. This act becomes effective August 1, 2007, or when it becomes law, whichever is later. Nothing in this act applies to any administrative proceeding pending before the Commissioner of Motor Vehicles or any case pending in a court on or before the effective date of this act.

(b) Findings. – The General Assembly finds that in order for a clawback to be effective, there must be monitoring and reporting regarding the business's performance of its responsibilities and a mechanism for obtaining repayment if the clawback requiring the return of previously disbursed funding is triggered. Clawback provisions are essential to protect the State's investment in a private business and ensure that the public benefits from the incentive will be secured.

AN ACT TO DIRECT THE ENVIRONMENTAL REVIEW COMMISSION TO STUDY ISSUES RELATED TO THE TRANSFER OF WATER FROM ONE

RIVER BASIN TO ANOTHER RIVER BASIN AND THE ALLOCATION OF SURFACE WATER RESOURCES AND TO AMEND THE LAWS GOVERNING THE TRANSFER OF WATER FROM ONE RIVER BASIN TO ANOTHER RIVER BASIN.

The General Assembly of North Carolina enacts:

SECTION 1.(a) The Environmental Review Commission, with the assistance of the Department of Environment and Natural Resources, shall study the allocation of surface water resources and their availability and maintenance in the State, including issues related to the transfer of water from one river basin to another, the withdrawal of water for consumptive use, and the accuracy and tolerance of equipment used to measure the flow of water transferred from one river basin to another river basin. The Commission shall evaluate the benefits of establishing formal and informal procedures for negotiating transfers of water from one river basin to another. The Commission shall also study and recommend measures to: (i) ensure that the purposes of the Regional Water Supply Planning Act of 1971, as set out in G.S. 162A-21, are fulfilled; (ii) provide for a comprehensive system for regulating surface water withdrawals for consumptive and nonconsumptive uses; (iii) provide for the establishment of a statewide plan for water resources development projects; (iv) provide for adequate resources for the Department so that it may develop and implement a comprehensive approach to water resources management; (v) ensure that all State laws regulating water resources are consistent with and fully integrated into the comprehensive system for regulating surface water withdrawals and the statewide plan for water resources development projects; and (vi) ensure that potential interstate conflicts related to water resources are avoided or minimized. In the conduct of this study, the Environmental Review Commission may employ independent consultants as provided in G.S. 120-32.02 and G.S. 120-70.44. The Environmental Review Commission may submit an interim report to the 2008 Regular Session of the General Assembly and shall submit a final report of its findings and recommendations, including any legislative proposals, to the 2009 General Assembly.

SECTION 1.(b) The Division of Water Resources of the Department of Environment and Natural Resources, in consultation with the Environmental Review Commission, shall prepare a revised map entitled "Major River Basins and Sub-basins in North Carolina". The revised map shall be prepared as a recommended replacement for the map referenced in G.S. 143-215.22G. The revised map shall define the extent to which any river basin that encompasses any river that flows from another state into North Carolina or that flows from North Carolina into another state extends into an adjacent state. The Environmental Review Commission shall recommend a revised map and a conforming legislative proposal to amend the definition of "river basin" set out in G.S. 143-215.22G to the 2008 Regular Session of the General Assembly.

SECTION 2. G.S. 143-215.22I is repealed.

SECTION 3. Part 2A of Article 21 of Chapter 143 of the General Statutes is amended by adding a new section to read:

(a) Certificate Required. – No person, without first obtaining a certificate from the Commission, may:

(1) Initiate a transfer of 2,000,000 gallons of water or more per day from one river basin to another.

(2) Increase the amount of an existing transfer of water from one river basin to another by twenty-five percent (25%) or more above the average daily amount transferred during the year ending 1 July 1993 if the total transfer including the increase is 2,000,000 gallons or more per day.

(3) Increase an existing transfer of water from one river basin to another above the amount approved by the Commission in a certificate issued under G.S. 162A-7 prior to 1 July 1993.

(b) Exception. – Notwithstanding the provisions of subsection (a) of this section, a certificate shall not be required to transfer water from one river basin to another up to the full capacity of a facility to transfer water from one basin to another if the facility was in existence or under construction on 1 July 1993.

(c) Notice of Intent to File a Petition. – An applicant shall prepare a notice of intent to file a petition that includes a nontechnical description of the applicant's request and an identification of the proposed water source. Within 90 days after the applicant files a notice of intent to file a petition, the applicant shall hold at least one public meeting in the source river basin upstream from the proposed point of withdrawal, at least one public meeting in the source river basin downstream from the proposed point of withdrawal, and at least one public meeting in the receiving river basin to provide information to interested parties and the public regarding the nature and extent of the proposed transfer and to receive comment on the scope of the environmental documents. Written notice of the public meetings shall be provided at least 30 days before the public meetings. At the time the applicant gives notice of the public meetings, the applicant shall request comment on the alternatives and issues that should be addressed in the environmental documents required by this section. e. Each county in the State located in whole or in part of the receiving river basin.

(3) By giving notice by first-class mail or electronic mail to each of the following:

h. To any other person who submits to the applicant a written request to receive all notices relating to the petition.

(d) Environmental Documents. – The definitions set out in G.S. 113A-9 apply to this section. The Department shall conduct a study of the environmental impacts of any proposed transfer of water for which a certificate is required under this section. The study shall meet all of the requirements set forth in G.S. 113A-4 and rules adopted pursuant to G.S. 113A-4. An environmental assessment shall be prepared for any petition for a certificate under this section. The determination of whether an environmental impact statement shall also be required shall be made in accordance with the provisions of Article 1 of Chapter 113A of the General Statutes; except that an environmental impact statement shall be prepared for every proposed transfer of water from one major river basin to another for which a certificate is required under this section. The applicant who petitions the Commission for a certificate under this section shall pay the cost of special studies necessary to comply with Article 1 of Chapter 113A of the General Statutes. An environmental impact statement prepared pursuant to this subsection shall include all of the following:

(1) A comprehensive analysis of the impacts that would occur in the source river basin and the receiving river basin if the petition for a certificate is granted.

(2) An evaluation of alternatives to the proposed interbasin transfer, including water supply sources that do not require an interbasin transfer and use of water conservation measures.

(3) A description of measures to mitigate any adverse impacts that may arise from the proposed interbasin transfer.

(e) Public Hearing on the Draft Environmental Document. – The Commission shall hold a public hearing on the draft environmental document for a proposed interbasin transfer after giving at least 30 days' written notice of the hearing in the Environmental Bulletin and as provided in subdivisions (2) and (3) of subsection (c) of this section. The notice shall indicate where a copy of the environmental document can be reviewed and the procedure to be followed by anyone wishing to submit written comments and questions on the environmental document. The Commission shall prepare a record of all comments and written responses to questions posed in writing. The record shall include complete copies of scientific or technical comments related to the potential impact of the interbasin transfer. The Commission shall accept written comment on the draft environmental documents for a minimum of 30 days following the last public hearing.

(f) Determination of Adequacy of Environmental Document. – The Commission shall not act on any petition for an interbasin transfer until the Commission has determined that the environmental document is complete and adequate. A decision on the adequacy of the environmental document is subject to review in a contested case on the decision of the Commission to issue or deny a certificate under this section.

(g) Petition. – An applicant for a certificate shall petition the Commission for the certificate. The petition shall be in writing and shall include all of the following:

(1) A description of the facilities to be used to transfer the water, including the location and capacity of water intakes, pumps, pipelines, and other facilities.

(2) A description of all the proposed consumptive and nonconsumptive uses of the water to be transferred.

(3) A description of the water quality of the source river and receiving river, including information on aquatic habitat for rare, threatened, and endangered species; in-stream flow data for segments of the source and receiving rivers that may be affected by the transfer; and any waters that are impaired pursuant to section 303(d) of the federal Clean Water Act (33 U.S.C. § 1313(d)).

(4) A description of the water conservation measures used by the applicant at the time of the petition and any additional water conservation measures that the applicant will implement if the certificate is granted.

(5) A description of all sources of water within the receiving river basin, including surface water impoundments, groundwater wells, reinjection storage, and purchase of water from another source within the river basin, that is a practicable alternative to the proposed transfer that would meet the applicant's water supply needs. The description of water sources shall include sources available at the time of the petition for a certificate and any planned or potential water sources.

(6) A description of water transfers and withdrawals registered under G.S. 143-215.22H or included in a local water supply plan prepared pursuant to G.S. 143-355(l) from the source river basin, including transfers and withdrawals at the time of the petition for a certificate

and any planned or reasonably foreseeable transfers or withdrawals by a public water system with service area located within the source river basin.

(7) A demonstration that the proposed transfer, if added to all other transfers and withdrawals required to be registered under G.S. 143-215.22H or included in any local water supply plan prepared by a public water system with service area located within the source basin pursuant to G.S. 143-355(l) from the source river basin at the time of the petition for a certificate, would not reduce the amount of water available for use in the source river basin to a degree that would impair existing uses, pursuant to the antidegradation policy set out in 40 Code of Federal Regulation § 131.12 (Antidegradation Policy) (1 July 2006 Edition) and the statewide antidegradation policy adopted pursuant thereto, or existing and planned consumptive and nonconsumptive uses of the water in the source river basin. If the proposed transfer would impact a reservoir within the source river basin, the demonstration must include a finding that the transfer would not result in a water level in the reservoir that is inadequate to support existing uses of the reservoir, including recreational uses.

(8) The applicant's future water supply needs and the present and reasonably foreseeable future water supply needs for public water systems with service area located within the source river basin. The analysis of future water supply needs shall include agricultural, recreational, and industrial uses, and electric power generation. Local water supply plans prepared pursuant to G.S. 143-355(l) for water systems with service area located within the source river basin shall be used to evaluate the projected future water needs in the source river basin that will be met by public water systems.

(9) The applicant's water supply plan prepared pursuant to G.S. 143-355(l). If the applicant's water supply plan is more than two years old at the time of the petition, then the applicant shall include with the petition an updated water supply plan.

(10) Any other information deemed necessary by the Commission for review of the proposed water transfer.

(h) Settlement Discussions. – Upon the request of the applicant, any interested party, or the Department, or upon its own motion, the Commission may appoint a mediation officer. The mediation officer may be a member of the Commission, an employee of the Department, or a neutral third party but shall not be a hearing officer under subsections (e) or (j) of this section. The mediation officer shall make a reasonable effort to initiate settlement discussions between the applicant and all other interested parties. Evidence of statements made and conduct that occurs in a settlement discussion conducted under this subsection, whether attributable to a party, a mediation officer, or other person shall not be subject to discovery and shall be inadmissible in any subsequent proceeding on the petition for a certificate. The Commission may adopt rules to govern the conduct of the mediation process.

(i) Draft Determination. – Within 90 days after the Commission determines that the environmental document prepared in accordance with subsection (d) of this section is adequate or the applicant submits its petition for a certificate, whichever occurs later, the Commission shall issue a draft determination on whether to grant the certificate. The

draft determination shall be based on the criteria set out in this section and shall include the conditions and limitations, findings of fact, and conclusions of law that would be required in a final determination. Notice of the draft determination shall be given as provided in subsection (c) of this section.

(j) Public Hearing on the Draft Determination. – Within 60 days of the issuance of the draft determination as provided in subsection (i) of this section, the Commission shall hold public hearings on the draft determination. At least one hearing shall be held in the affected area of the source river basin, and at least one hearing shall be held in the affected area of the receiving river basin. In determining whether more than one public hearing should be held within either the source or receiving river basins, the Commission shall consider the differing or conflicting interests that may exist within the river basins, including the interests of both upstream and downstream parties potentially affected by the proposed transfer. The public hearings shall be conducted by one or more hearing officers appointed by the Chair of the Commission. The hearing officers may be members of the Commission or employees of the Department. The Commission shall give at least 30 days' written notice of the public hearing as provided in subsection (c) of this section. The Commission shall accept written comment on the draft determination for a minimum of 30 days following the last public hearing. The Commission shall prepare a record of all comments and written responses to questions posed in writing. The record shall include complete copies of scientific or technical comments related to the potential impact of the interbasin transfer.

(k) Final Determination: Factors to be Considered. – In determining whether a certificate may be issued for the transfer, the Commission shall specifically consider each of the following items and state in writing its findings of fact and conclusions of law with regard to each item:

(1) The necessity and reasonableness of the amount of surface water proposed to be transferred and its proposed uses.

(2) The present and reasonably foreseeable future detrimental effects on the source river basin, including present and future effects on public, industrial, economic, recreational, and agricultural water supply needs, wastewater assimilation, water quality, fish and wildlife habitat, electric power generation, navigation, and recreation. Local water supply plans for public water systems with service area located within the source river basin prepared pursuant to G.S. 143-355(l) shall be used to evaluate the projected future water needs in the source river basin that will be met by public water systems. Information on projected future water needs for public water systems with service area located within the source river basin that is more recent than the local water supply plans may be used if the Commission finds the information to be reliable. The determination shall include a specific finding as to measures that are necessary or advisable to mitigate or avoid detrimental impacts on the source river basin.

(3) The cumulative effect on the source major river basin of any water transfer or consumptive water use that, at the time the Commission considers the petition for a certificate is occurring, is authorized under this section, or is projected in any local water supply plan for public water systems with service area located within the source river basin that has been submitted to the Department in accordance with G.S. 143-355(l).

(4) The present and reasonably foreseeable future beneficial and detrimental effects on the receiving river basin, including present and future effects on public, industrial, economic, recreational, and agricultural water supply needs, wastewater assimilation, water quality, fish and wildlife habitat, electric power generation, navigation, and recreation. Local water supply plans prepared pursuant to G.S. 143-355(l) that affect the receiving river basin shall be used to evaluate the projected future water needs in the receiving river basin that will be met by public water systems. Information on projected future water needs that is more recent than the local water supply plans may be used if the Commission finds the information to be reliable. The determination shall include a specific finding as to measures that are necessary or advisable to mitigate or avoid detrimental impacts on the receiving river basin.

(5) The availability of reasonable alternatives to the proposed transfer, including the potential capacity of alternative sources of water, the potential of each alternative to reduce the amount of or avoid the proposed transfer, probable costs, and environmental impacts. In considering alternatives, the Commission is not limited to consideration of alternatives that have been proposed, studied, or considered by the applicant. The determination shall include a specific finding as to why the applicant's need for water cannot be satisfied by alternatives within the receiving basin, including unused capacity under a transfer for which a certificate is in effect or that is otherwise authorized by law at the time the applicant submits the petition. The determination shall consider the extent to which access to potential sources of surface water or groundwater within the receiving river basin is no longer available due to depletion, contamination, or the declaration of a capacity use area under Part 2 of Article 21 of Chapter 143 of the General Statutes. The determination shall consider the feasibility of the applicant's purchase of water from other water suppliers within the receiving basin and of the transfer of water from another sub-basin within the receiving major river basin. Except in circumstances of technical or economic infeasibility or adverse environmental impact, the Commission's determination as to reasonable alternatives shall give preference to alternatives that would involve a transfer from one sub-basin to another within the major receiving river basin over alternatives that would involve a transfer from one major river basin to another major river basin.

(6) If applicable to the proposed project, the applicant's present and proposed use of impoundment storage capacity to store water during high-flow periods for use during low-flow periods and the applicant's right of withdrawal under G.S. 143-215.44 through G.S. 143-215.50.

(7) If the water to be withdrawn or transferred is stored in a multipurpose reservoir constructed by the United States Army Corps of Engineers, the purposes and water storage allocations established for the reservoir at the time the reservoir was authorized by the Congress of the United States.

(8) Whether the service area of the applicant is located in both the source river basin and the receiving river basin.

(9) Any other facts and circumstances that are reasonably necessary to carry out the purposes of this Part.

(l) Final Determination: Information to be Considered. – In determining whether a certificate may be issued for the transfer, the Commission shall consider all of the following sources of information:

(1) The petition.

(2) The environmental document prepared pursuant to subsection (d) of this section.

(3) All oral and written comment and all accompanying materials or evidence submitted pursuant to subsections (e) and (j) of this section.

(4) Information developed by or available to the Department on the water quality of the source river basin and the receiving river basin, including waters that are identified as impaired pursuant to section 303(d) of the federal Clean Water Act (33 U.S.C. § 1313(d)), that are subject to a total maximum daily load (TMDL) limit under subsections (d) and (e) of section 303 of the federal Clean Water Act, or that would have their assimilative capacity impaired if the certificate is issued.

(5) Any other information that the Commission determines to be relevant and useful.

(m) Final Determination: Burden and Standard of Proof; Specific Findings. – The Commission shall grant a certificate for a water transfer if the Commission finds that the applicant has established by a preponderance of the evidence all of the following:

(1) The benefits of the proposed transfer outweigh the detriments of the proposed transfer. In making this determination, the Commission shall be guided by the approved environmental document and the policy set out in subsection (t) of this section.

(2) The detriments have been or will be mitigated to the maximum degree practicable.

(3) The amount of the transfer does not exceed the amount of the projected shortfall under the applicant's water supply plan after first taking into account all other sources of water that are available to the applicant.

(4) There are no reasonable alternatives to the proposed transfer.

(n) Final Determination: Certificate Conditions and Limitations. – The Commission may grant the certificate in whole or in part, or deny the certificate. The Commission may impose any conditions or limitations on a certificate that the Commission finds necessary to achieve the purposes of this Part including a limit on the period for which the certificate is valid. The conditions and limitations shall include any mitigation measures proposed by the applicant to minimize any detrimental effects within the source and receiving river basins. In addition, the certificate shall require all of the following conditions and limitations:

(1) A water conservation plan that specifies the water conservation measures that will be implemented by the applicant in the receiving river basin to ensure the efficient use of the transferred water. Except in circumstances of technical or economic infeasibility or adverse environmental impact, the water conservation plan shall provide for the mandatory implementation of water conservation measures by the

applicant that equal or exceed the most stringent water conservation plan implemented by a community water system, as defined in G.S. 143-355(l), that withdraws water from the source river basin.

(2) A drought management plan that specifies how the transfer shall be managed to protect the source river basin during drought conditions or other emergencies that occur within the source river basin. Except in circumstances of technical or economic infeasibility or adverse environmental impact, this drought management plan shall include mandatory reductions in the permitted amount of the transfer based on the severity and duration of a drought occurring within the source river basin and shall provide for the mandatory implementation of a drought management plan by the applicant that equals or exceeds the most stringent water conservation plan implemented by a community water system, as defined in G.S. 143-355(l), that withdraws water from the source river basin.

(3) The maximum amount of water that may be transferred on a daily basis, and methods or devices required to be installed and operated that measure the amount of water that is transferred.

(4) A provision that the Commission may amend a certificate to reduce the maximum amount of water authorized to be transferred whenever it appears that an alternative source of water is available to the certificate holder from within the receiving river basin, including, but not limited to, the purchase of water from another water supplier within the receiving basin or to the transfer of water from another sub-basin within the receiving major river basin.

(5) A provision that the Commission shall amend the certificate to reduce the maximum amount of water authorized to be transferred if the Commission finds that the applicant's current projected water needs are significantly less than the applicant's projected water needs at the time the certificate was granted.

(6) A requirement that the certificate holder report the quantity of water transferred during each calendar quarter. The report required by this subdivision shall be submitted to the Commission no later than 30 days after the end of the quarter.

(7) Except as provided in this subdivision, a provision that the applicant will not resell the water that would be transferred pursuant to the certificate to another public water supply system. This limitation shall not apply in the case of a proposed resale or transfer among public water supply systems within the receiving river basin as part of an interlocal agreement or other regional water supply arrangement, provided that each participant in the interlocal agreement or regional water supply arrangement is a co-applicant for the certificate and will be subject to all the terms, conditions, and limitations made applicable to any lead or primary applicant.

(o) Administrative and Judicial Review. – Administrative and judicial review of a final decision by the Commission on a petition for a certificate under this section shall be governed by Chapter 150B of the General Statutes.

(p) Certain Preexisting Transfers. – In cases where an applicant requests approval to increase a transfer that existed on 1 July 1993, the Commission may approve or

disapprove only the amount of the increase. If the Commission approves the increase, the certificate shall be issued for the amount of the preexisting transfer plus any increase approved by the Commission. A certificate for a transfer approved by the Commission under G.S. 162A-7 shall remain in effect as approved by the Commission and shall have the same effect as a certificate issued under this Part. A certificate for the increase of a preexisting transfer shall contain all of the conditions and limitations required by subsection (m) of this section.

(q) Emergency Transfers. – In the case of water supply problems caused by drought, a pollution incident, temporary failure of a water plant, or any other temporary condition in which the public health, safety, or welfare requires a transfer of water, the Secretary of Environment and Natural Resources may grant approval for a temporary transfer. Prior to approving a temporary transfer, the Secretary shall consult with those parties listed in subdivision (3) of subsection (c) of this section that are likely to be affected by the proposed transfer. However, the Secretary shall not be required to satisfy the public notice requirements of this section or make written findings of fact and conclusions of law in approving a temporary transfer under this subsection. If the Secretary approves a temporary transfer under this subsection, the Secretary shall specify conditions to protect other water users. A temporary transfer shall not exceed six months in duration, but the approval may be renewed for a period of six months by the Secretary based on demonstrated need as set forth in this subsection.

(r) Relationship to Federal Law. – The substantive restrictions, conditions, and limitations upon surface water transfers authorized in this section may be imposed pursuant to any federal law that permits the State to certify, restrict, or condition any new or continuing transfers or related activities licensed, relicensed, or otherwise authorized by the federal government. This section shall govern the transfer of water from one river basin to another unless preempted by federal law.

(s) Planning Requirements. – When any transfer for which a certificate was issued under this section equals or exceeds eighty percent (80%) of the maximum amount authorized in the certificate, the applicant shall submit to the Department a detailed plan that specifies how the applicant intends to address future foreseeable water needs. If the applicant is required to have a local water supply plan, then this plan shall be an amendment to the local water supply plan required by G.S.143-355(l). When the transfer equals or exceeds ninety percent (90%) of the maximum amount authorized in the certificate, the applicant shall begin implementation of the plan submitted to the Department.

(t) Statement of Policy. – It is the public policy of the State to maintain, protect, and enhance water quality within North Carolina. It is the public policy of this State that the reasonably foreseeable future water needs of a public water system with its service area located primarily in the receiving river basin are subordinate to the reasonably foreseeable future water needs of a public water system with its service area located primarily in the source river basin. Further, it is the public policy of the State that the cumulative impact of transfers from a source river basin shall not result in a violation of the antidegradation policy set out in 40 Code of Federal Regulations § 131.12 (1 July 2006 Edition) and the statewide antidegradation policy adopted pursuant thereto.

(u) Renewal of Certificate. – A petition to extend or renew a certificate shall be treated as a new petition."

SECTION 4. G.S. 113A-8.1 reads as rewritten:

"§ **113A-8.1. Surface water transfers.**

An environmental assessment shall be prepared for any transfer for which a petition is filed in accordance with ~~G.S. 143-215.22I.~~G.S. 143-215.22L. The determination of whether an environmental impact statement is needed with regard to the proposed transfer shall be made in accordance with the provisions of this Article."

SECTION 5. G.S. 143-215.6A(a)(9) reads as rewritten:

"(9) Is required, but fails, to apply for or to secure a certificate required by ~~G.S. 143-215.22I,~~ G.S. 143-215.22L, or who violates or fails to act in accordance with the terms, conditions, or requirements of the certificate."

SECTION 6. If any section or provision of this act is declared unconstitutional or invalid by the courts, the unconstitutional or invalid section or provision does not affect the validity of this act as a whole or any part of this act other than the part declared to be unconstitutional or invalid.

SECTION 7.(a) Except as provided in subsection (b) of this section, this act becomes effective when it becomes law and applies to any petition for a certificate for a transfer of surface water from one river basin to another river basin first made on or after that date.

SECTION 7.(b) For a petition for a certificate for transfer of surface water from one river basin to another river basin to supplement ground water supplies in the fifteen counties designated as the Central Coastal Plain Capacity Use Area under 15A NCAC 2E .0501, this act becomes effective 1 January 2011. Prior to 1 January 2011, a petition for a certificate for transfer of surface water from one river basin to another river basin to supplement ground water supplies in the fifteen counties designated as the Central Coastal Plain Capacity Use Area shall be considered and acted upon by the Environmental Management Commission pursuant to the procedures and standards set out in G.S. 143-215.22I on 1 July 2007.

The Executive Administrator of the Teachers' and State Employees' Comprehensive Major Medical Plan shall evaluate the actuarial, administrative, financial, operational, and plan member impact of converting the Plan's benefit plan year to a calendar year basis from a fiscal year basis. Not later than April 1, 2008, the Executive Administrator shall report his findings and recommendations to the Committee on Employee Hospital and Medical Benefits and the Fiscal Research Division. The report shall include the following information:

(1) An estimate of actuarial impact to the Plan under six-month and 18-month transition plan years respectively, as a means to implement a fiscal year to calendar year transition. Each respective transition plan year scenario estimate shall clearly state the Executive Administrator's assumptions about projected out-of-pocket requirements and limits for plan members for deductibles and co-insurance under each scenario.

(2) A description of potential benefit option changes that may be possible in the event the General Assembly authorizes the Plan to switch its benefit plan year to a calendar year. Each option should be accompanied with an analysis of the change in benefits to plan members and a refined estimate of actuarial impact to the Plan with clearly stated assumptions and supporting data from which any analysis is offered by the Executive Administrator.

AN ACT TO (1) CODIFY AND MAKE PERMANENT THE SWINE FARM ANIMAL WASTE MANAGEMENT SYSTEM PERFORMANCE STANDARDS THAT THE GENERAL ASSEMBLY ENACTED IN 1998, (2) PROVIDE FOR THE REPLACEMENT OF A LAGOON THAT IS AN IMMINENT HAZARD, (3) ASSIST FARMERS TO VOLUNTARILY CONVERT TO INNOVATIVE ANIMAL WASTE MANAGEMENT SYSTEMS, AND (4) ESTABLISH THE SWINE FARM METHANE CAPTURE PILOT PROGRAM.

The General Assembly of North Carolina enacts:

SECTION 1.(a) Performance Standards. – Part 1A of Article 21 of Chapter 143 of the General Statutes is amended by adding a new section to read:

"**§ 143-215.10I. Performance standards for animal waste management systems that serve swine farms; lagoon and sprayfield systems prohibited.**

(a) As used in this section:

(1) 'Anaerobic lagoon' means a lagoon that treats waste by converting it into carbon dioxide, methane, ammonia, and other gaseous compounds; organic acids; and cell tissue through an anaerobic process.

(2) 'Anaerobic process' means a biological treatment process that occurs in the absence of dissolved oxygen.

(3) 'Lagoon' has the same meaning as in G.S. 106-802.

(4) 'Swine farm' has the same meaning as in G.S. 106-802.

(b) The Commission shall not issue or modify a permit to authorize the construction, operation, or expansion of an animal waste management system that

serves a swine farm that employs an anaerobic lagoon as the primary method of treatment and land application of waste by means of a sprayfield as the primary method of waste disposal. The Commission may issue a permit for the construction, operation, or expansion of an animal waste management system that serves a swine farm under this Article only if the Commission determines that the animal waste management system will meet or exceed all of the following performance standards:

(1) Eliminate the discharge of animal waste to surface water and groundwater through direct discharge, seepage, or runoff.

(2) Substantially eliminate atmospheric emission of ammonia.

(3) Substantially eliminate the emission of odor that is detectable beyond the boundaries of the parcel or tract of land on which the swine farm is located.

(4) Substantially eliminate the release of disease-transmitting vectors and airborne pathogens.

(5) Substantially eliminate nutrient and heavy metal contamination of soil and groundwater."

SECTION 1.(b) Continued Operation. – An animal waste management system that serves a swine farm for which a permit was issued prior to 1 September 2007 and that does not meet the requirements of G.S. 143-215.10I, as enacted by subsection (a) of this section, may continue to operate under, and shall operate in compliance with, that permit, including any renewal of the permit.

SECTION 1.(c) Lagoon Replacement. – Notwithstanding G.S. 143-215.10I, as enacted by subsection (a) of this section, the Environmental Management Commission may modify a permit that was initially issued prior to 1 September 2007 for an animal waste management system that serves a swine farm to authorize the replacement of a lagoon that is a component of the animal waste management system if the Commission finds all of the following:

(1) The permit holder has operated and maintained the animal waste management system in substantial compliance with the permit and all applicable federal and State laws, regulations, and rules.

(2) The lagoon constitutes or will constitute an imminent hazard as defined in G.S. 130A-2.

(3) Repair of the lagoon will not abate the imminent hazard.

(4) Replacement of the lagoon will abate the imminent hazard and allow the permit holder to operate and maintain the replacement lagoon in compliance with all applicable requirements of federal and State laws, regulations, and rules.

(5) Design and construction of the replacement lagoon shall meet all applicable requirements of federal and State laws, regulations, and rules; comply with the most recent Conservation Practice Standard published by the Natural Resources Conservation Service; and employ the best available technology that is economically and technically feasible. In determining best available technology and economic and technical feasibility, the Commission may consult with the Animal and Poultry Waste Management Center of North Carolina State University and with other persons who have specialized training or experience related to animal waste management systems.

(6) The replacement lagoon shall not be located in the 100-year floodplain.

(7) All equipment associated with operation of the replacement lagoon and with land application of waste from the lagoon shall be upgraded to meet all applicable requirements of federal and State laws, regulations, and rules and to comply with the most recent Conservation Practice Standard published by the Natural Resources Conservation Service.

(8) The replacement will not result in an increase in the permitted capacity, stated as steady state live weight, of the animal waste management system.

(9) The lagoon to be replaced shall be closed in accordance with all applicable requirements of federal and State laws, regulations, and rules and with the most recent Conservation Practice Standard published by the Natural Resources Conservation Service.

SECTION 1.(d) Rule Making. – The Environmental Management Commission shall adopt rules to implement G.S. 143-215.10I, as enacted by subsection (a) of this section. Until rules to implement G.S. 143-215.10I become effective, the Commission, in implementing G.S. 143-215.10I, shall refer to the report entitled "Development of Environmentally Superior Technologies – Phase 3 Report: for Technology Determinations per Agreements Between the Attorney General of North Carolina and Smithfield Foods, Premium Standard Farms, and Frontline Farmers" dated 8 March 2006. The Commission shall consult with the Animal and Poultry Waste Management Center of North Carolina State University regarding the application and modification of technical standards required to implement G.S. 143-215.10I.

SECTION 2.(a) Definitions. – The definitions set out in G.S. 143-215.10I(a), as enacted by Section 1 of this act, apply to this section. As used in this section, an "innovative animal waste management system" means an animal waste management system that serves a swine farm that may be permitted under G.S. 143-215.10I(b), as enacted by Section 1 of this act.

SECTION 2.(b) Lagoon Conversion Program. – The Lagoon Conversion Program is hereby established. The Program shall provide grants to assist in the conversion of animal waste management systems that serve swine farms in operation on or before 1 September 2007 that employ anaerobic lagoons as the primary method of treatment to innovative animal waste management systems. Grants under the Program may also be used to:

(1) Assist in the closure of sprayfield and lagoon systems that are replaced by innovative animal waste management systems if the closure is performed in accordance with applicable federal and State laws, regulations, and rules.

(2) Establish centralized waste collection and treatment systems that serve innovative animal waste management systems.

SECTION 2.(c) Program Administration. – The Program shall be administered by the Division of Soil and Water Conservation in the Department of Environment and Natural Resources through the Agriculture Cost Share Program for Nonpoint Source Pollution Control established pursuant to G.S. 143-215.74. The Division shall administer the Program as provided in this section and Part 9 of Article 21 of Chapter 143 of the General Statutes.

SECTION 2.(d) Program Functions. – Under the Lagoon Conversion Program, the Division of Soil and Water Conservation in the Department of Environment and Natural Resources, through the Agriculture Cost Share Program for Nonpoint Source Pollution Control, shall:

(1) Within funds available to the Swine Farm Waste Management System Conversion Account established by Section 3 of this act, provide grants subject to all of the following limitations and requirements:
   a. For grants approved on or before 30 June 2012, State funding shall be limited to:
      1. Ninety percent (90%) of the average cost for each practice with the assisted person providing ten percent (10%) of the cost, which may include in-kind support of the practice.
      2. A maximum of five hundred thousand dollars ($500,000) per year to each applicant.
   b. For grants approved on or after 1 July 2012 and on or before 30 June 2017, State funding shall be limited to:
      1. Eighty percent (80%) of the average cost for each practice with the assisted person providing twenty percent (20%) of the cost, which may include in-kind support of the practice.
      2. A maximum of four hundred fifty thousand dollars ($450,000) per year to each applicant.
   c. For grants approved on or after 1 July 2017, State funding shall be limited to:
      1. Seventy-five percent (75%) of the average cost for each practice with the assisted person providing twenty-five percent (25%) of the cost, which may include in-kind support of the practice.
      2. A maximum of four hundred thousand dollars ($400,000) per year to each applicant.
   d. All other limitations and requirements set out in Part 9 of Article 21 of Chapter 143 of the General Statutes, as modified by this section.

(2) Establish criteria to prioritize the installation of innovative animal waste management systems that serve swine farms. Priority shall be given to systems that are affordable, easily maintained, produce marketable by-products, reduce or eliminate the emission of ammonia and greenhouse gases, and are capable of being connected to a centralized waste collection and treatment.

(3) Establish criteria for the selection of applicants who are eligible for participation in the Program. Priority shall be given to applicants whose participation in the Program will result in the removal of animal waste management systems from floodplains; who have substantially complied with federal and State laws, regulations, and rules for the protection of the environment, natural resources, and public health; and who have a limited ability to pay for or finance an innovative swine waste management system through private or cooperative credit at reasonable rates and terms.

(4) Develop a process for soliciting and reviewing applications and for selecting persons to participate in the Program.

(5) Investigate and pursue other funding sources to supplement State funds, including federal, local, and private funding sources.

(6) Provide technical assistance to participating persons to assist with modifications of waste management systems and facilitate the timely transfer of technology among participating persons.

SECTION 2.(e) Advisory Committee. – The Director of the Division of Soil and Water Conservation may establish an advisory committee to assist the Division with the implementation of this act. If the Director establishes an advisory committee, the Director may direct the advisory committee to evaluate:

(1) Markets for by-products derived from swine waste and make recommendations for development of the markets, including identification of regulatory obstacles.

(2) Methods to encourage growers, integrators, and electric power suppliers to cooperate in the production and use of renewable energy or other marketable by-products derived from swine waste, including an examination of tax incentives, carbon sequestration credits, and trading mechanisms.

SECTION 2.(f) Report. – No later than 1 October of each year, the Division of Soil and Water Conservation in the Department of Environment and Natural Resources shall prepare a comprehensive report on the implementation of Sections 1, 2, and 3 of this act. The report shall be submitted to the Environmental Review Commission as a part of the report required by G.S. 143-215.10M. The first report required by this subsection shall be submitted to the Environmental Review Commission no later than 1 October 2008.

SECTION 3. Account. – There is hereby established the Swine Farm Waste Management System Conversion Account within the Division of Soil and Water Conservation of the Department of Environment and Natural Resources. Funds in the Account shall be used only as provided in subsection (b) of Section 2 of this act. Funds in the Account shall not revert.

SECTION 4.(a) Definitions. – The definitions set out in G.S. 143-215.10B and the following definitions apply to this section:

(1) "Commission" means the Utilities Commission.

(2) "Department" means the Department of Environment and Natural Resources.

(3) "Electric public utility" means an investor-owned public utility as defined in G.S. 62-3(23)a.1.

(4) "Permit holder" means a person who holds a permit issued under Article 21 of Chapter 143 of the General Statutes by the Environmental Management Commission for an animal waste management system that serves a swine farm.

(5) "Public Staff" means the Public Staff of the North Carolina Utilities Commission established pursuant to G.S. 62-15.

(6) "Swine farm" has the same meaning as in G.S. 106-802.

SECTION 4.(b) Program Established. – The Swine Farm Methane Capture Pilot Program is hereby established as a voluntary program to be administered jointly by the Department and the Commission.

SECTION 4.(c) Participant Selection. – An owner or operator of a swine farm who wishes to participate in the Swine Farm Methane Capture Pilot Program shall register with the Department and the Commission. From among those swine farms that

are registered, the Department and the Commission may select a total of up to 50 swine farms for participation in the pilot program over the life of the program. The Department and the Commission shall select swine farms for participation in the pilot program so as to achieve as nearly as possible a representative sample of the types and locations of swine farms in the areas served by electric public utilities in the State, types of methane capture and electric power generating systems, and in the order in which they register. In selecting swine farms for participation in the pilot program, the Department and the Commission may also consider the ability of the methane capture system to reduce the emissions of other pollutants, including ammonia. The Department and the Commission may select a swine farm for participation only if the swine farm meets or will meet all the following criteria:

(1) The permit holder has operated and maintained the animal waste management system in substantial compliance with the permit and all applicable federal and State laws, regulations, and rules.

(2) The lagoon is covered, partially covered, or otherwise modified in a manner that captures a significant portion of the methane emitted by the lagoon.

(3) The captured methane is used to generate electricity.

(4) The swine farm generates electric power that is available for purchase by the electric public utility that serves the swine farm on or before 1 September 2010.

(5) The electricity generated by the swine farm can be supplied to the distribution system of the electric public utility that serves the swine farm through an interconnection that meets the standards established by the Commission.

SECTION 4.(d) Implementation. – Each electric public utility that serves a swine farm that is selected for participation in the pilot program is required to purchase all electricity generated by the use of captured methane as a fuel by pilot program participants for seven years. The total of all electric power purchases under the program shall not exceed 25 megawatts at any point in time. The seven-year period begins on the date the swine farm first sells electricity to the electric public utility and ends seven years after the date on which the period begins. The Commission shall set a suggested purchase price that would allow program participants to recover reasonably and prudently incurred capital and operating costs and that would minimize the impact of the pilot program on ratepayers. The price of power purchased under the program shall be determined by agreement between each program participant and the electric public utility. Each purchase price agreement shall take into account the extent to which any capital or operating costs are paid to the program participant from any other source, including grants. A purchase price agreement may be revised at any time by agreement between the parties. In the event that a program participant and an electric public utility cannot agree on a purchase price, the Commission, with the advice of the Public Staff, shall set the purchase price. In no event, shall the suggested purchase price, an agreed upon purchase price, or a purchase price set by the Commission in the event that a program participant and an electric public utility cannot agree on a purchase price exceed eighteen cents (18¢) per kilowatt hour. The Commission, with the advice of the Public Staff, may review any agreement between a program participant and an electric public utility. All costs incurred by an electric public utility to comply with the provisions of this section may be recovered as costs of fuel pursuant to G.S. 62-133.2.

SECTION 4.(e) Adoption of Rules. – The Commission may adopt rules to implement this section as provided in Chapter 62 of the General Statutes. The Department may adopt rules to implement this section as provided in Chapter 150B of the General Assembly.

SECTION 4.(f) Effect of Section. – It is the intent of the General Assembly that this section applies only to the particular circumstances that are the subject of this section. This section does not establish a precedent with respect to purchase or sale of renewable energy.

SECTION 4.(g) Report. – The Department and the Commission shall jointly report to the Environmental Review Commission and the Joint Legislative Utility Review Committee on or before 1 January of each year on the implementation of this section. The report shall include a program evaluation based on an assessment of the costs and benefits of the program and any specific findings and recommendations, including any legislative proposals, that the Department and the Commission determine to be appropriate. The first report will be due 1 January 2009.

SECTION 5. Certain Agreements Not Affected. – This act shall not be construed to alter the obligations of any party to any of the following agreements:

(1) The agreement among the Attorney General of North Carolina; Smithfield Foods, Inc.; Brown's of North Carolina, Inc.; Carroll's Foods, Inc.; Murphy Farms, Inc.; Carroll's Foods of Virginia, Inc.; and Quarter M Farms, Inc., of 25 July 2000.

(2) Information or materials directly related to an identified public safety, land development, or zoning issue including evidence that no existing or previously approved structure can reasonably be used for the antenna placement instead of the construction of a new tower, that residential, historic, and designated scenic areas cannot be served from outside the area, or that the proposed height of a new tower or initial antenna placement or a proposed height increase of a modified tower,

replacement tower, or collocation is necessary to provide the applicant's designed service.

(3) A city may require applicants for new wireless facilities to evaluate the reasonable feasibility of collocating new antennas and equipment on an existing structure or structures within the applicant's search ring. Collocation on an existing structure is not reasonably feasible if collocation is technically or commercially impractical or the owner of the tower is unwilling to enter into a contract for such use at fair market value. Cities may require information necessary to determine whether collocation on existing structures is reasonably feasible.

(d) A collocation application entitled to streamlined processing under G.S. 160A-400.53 shall be deemed complete unless the city provides notice in writing to the applicant within 45 days of submission or within some other mutually agreed upon timeframe. The notice shall identify the deficiencies in the application which, if cured, would make the application complete. The application shall be deemed complete on resubmission if the additional materials cure the deficiencies identified.

(e) The city shall issue a written decision approving or denying an application within 45 days in the case of collocation applications entitled to streamlined processing under G.S. 160A-400.53 and within a reasonable period of time consistent with the issuance of other land-use permits in the case of other applications, each as measured from the time the application is deemed complete.

(f) A city may fix and charge an application fee, consulting fee, or other fee associated with the submission, review, processing, and approval of an application to site or modify wireless support structures or wireless facilities that is based on the costs of the services provided and does not exceed what is usual and customary for such services. Any charges or fees assessed by a city on account of an outside consultant shall be fixed in advance and incorporated into a permit or application fee and shall be based on the reasonable costs to be incurred by the city in connection with the regulatory review authorized under this section. The foregoing does not prohibit a city from imposing additional reasonable and cost based fees for costs incurred should an applicant amend its application. On request, the amount of the consultant charges incorporated into the permit or application fee shall be separately identified and disclosed to the applicant.

(g) The city may condition approval of an application for a new wireless support structure on the provision of documentation prior to the issuance of a building permit establishing the existence of one or more parties, including the owner of the wireless support structure, who intend to locate wireless facilities on the wireless support structure. A city shall not deny an initial land-use or zoning permit based on such documentation. A city may condition a permit on a requirement to construct facilities within a reasonable period of time, which shall be no less than 24 months.

(h) The city may not require the placement of wireless support structures or wireless facilities on city owned or leased property, but may develop a process to encourage the placement of wireless support structures or facilities on city owned or leased property, including an expedited approval process.

(i) This section shall not be construed to limit the provisions or requirements of any historic district or landmark regulation adopted pursuant to Part 3C of this Article.

"**§ 160A-400.53. Collocation of wireless facilities.**

(a) Applications for collocation entitled to streamlined processing under this section shall be reviewed for conformance with applicable site plan and building permit

requirements but shall not otherwise be subject to zoning requirements, including design or placement requirements, or public hearing review.

(b) Applications for collocation of wireless facilities are entitled to streamlined processing if the addition of the additional wireless facility does not exceed the number of wireless facilities previously approved for the wireless support structure on which the collocation is proposed and meets all the requirements and conditions of the original approval. This provision applies to wireless support structures which are approved on or after December 1, 2007.

(c) The streamlined process set forth in subsection (a) of this section shall apply to all collocations, in addition to collocations qualified for streamlined processing under subsection (b) of this section, that meet the following requirements:

(1) The collocation does not increase the overall height and width of the tower or wireless support structure to which the wireless facilities are to be attached.

(2) The collocation does not increase the ground space area approved in the site plan for equipment enclosures and ancillary facilities.

(3) The wireless facilities in the proposed collocation comply with applicable regulations, restrictions, or conditions, if any, applied to the initial wireless facilities placed on the tower or other wireless support structure.

(4) The additional wireless facilities comply with all federal, State and local safety requirements.

(5) The collocation does not exceed the applicable weight limits for the wireless support structure.

SECTION 2. Article 18 of Chapter 153A of the General Statutes is amended by adding a new Part to read:

"Part 3B. Wireless Telecommunications Facilities.

"**§ 153A-349.50. Purpose and compliance with federal law.**

(a) Purpose. – The purpose of this section is to ensure the safe and efficient integration of facilities necessary for the provision of advanced wireless telecommunications services throughout the community and to ensure the ready availability of reliable wireless service to the public, government agencies, and first responders, with the intention of furthering the public safety and general welfare. The following standards shall apply to a county's actions, as a regulatory body, in the regulation of the placement, construction, or modification of a wireless communications facility.

(b) Compliance with the Federal Communications Act. – The placement, construction, or modification of wireless communications facilities shall be in conformity with the Federal Communications Act, 47 U.S.C. § 332 as amended, and in accordance with the rules promulgated by the Federal Communications Commission.

"**§ 153A-349.51. Definitions.**

The following definitions apply in this Part.

(1) Antenna. – Communications equipment that transmits and receives electromagnetic radio signals used in the provision of all types of wireless communications services.

(2) Application. – A formal request submitted to the county to construct or modify a wireless support structure or a wireless facility.

(3) Building permit. – An official administrative authorization issued by the county prior to beginning construction consistent with the provisions of G.S. 153A-357.

(4) Collocation. – The installation of new wireless facilities on previously-approved structures, including towers, buildings, utility poles, and water tanks.

(5) Equipment enclosure. – An enclosed structure, cabinet, or shelter used to contain radio or other equipment necessary for the transmission or reception of wireless communication signals.

(5a) Fall zone. – The area in which a wireless support structure may be expected to fall in the event of a structural failure, as measured by engineering standards.

(6) Land development regulation. – Any ordinance enacted pursuant to this Part.

(7) Search ring. – The area within which a wireless facility must be located in order to meet service objectives of the wireless service provider using the wireless facility or wireless support structure.

(8) Utility pole. – A structure that is designed for and used to carry lines, cables, or wires for telephone, cable television, or electricity, or to provide lighting.

(9) Wireless facility. – The set of equipment and network components, exclusive of the underlying support structure or tower, including antennas, transmitters, receivers base stations, power supplies, cabling, and associated equipment necessary to provide wireless data and telecommunications services to a discrete geographic area.

(10) Wireless support structure. – A new or existing structure, such as a monopole, lattice tower, or guyed tower that is designed to support or capable of supporting wireless facilities. A utility pole is not a wireless support structure.

"**§ 153A-349.52. Construction of wireless facilities and wireless support structures.**

(a) A county may plan for and regulate the siting or modification of wireless support structures and wireless facilities in accordance with land development regulations and in conformity with this Part. Except as expressly stated, nothing in this Part shall limit a county from regulating applications to construct, modify, or maintain wireless support structures, or construct, modify, maintain, or collocate wireless facilities on a wireless support structure based on consideration of land use, public safety, and zoning considerations, including aesthetics, landscaping, structural design, setbacks, and fall zones, or State and local building code requirements, consistent with the provisions of federal law provided in G.S. 153A-349.50. For purposes of this Part, public safety shall not include requirements relating to radio frequency emissions of wireless facilities.

(b) Any person that proposes to construct or modify a wireless support structure or wireless facility within the planning and land-use jurisdiction of a county must do both of the following:

(1) Submit a completed application with the necessary copies and attachments to the appropriate planning authority.

(2) Comply with any local ordinances concerning land use and any applicable permitting processes.

(c) A county's review of an application for the placement, construction, or modification of a wireless facility or wireless support structure shall only address public safety, land development, or zoning issues. In reviewing an application, the county may not require information on or evaluate an applicant's business decisions about its designed service, customer demand for its service, or quality of its service to or from a particular area or site. In reviewing an application the county may review the following:

(1) Applicable public safety, land use, or zoning issues addressed in its adopted regulations, including aesthetics, landscaping, land-use based location priorities, structural design, setbacks, and fall zones.

(2) Information or materials directly related to an identified public safety, land development or zoning issue including evidence that no existing or previously approved structure can reasonably be used for the antenna placement instead of the construction of a new tower, that residential, historic, and designated scenic areas cannot be served from outside the area, or that the proposed height of a new tower or initial antenna placement or a proposed height increase of a modified tower, replacement tower, or collocation is necessary to provide the applicant's designed service.

(3) A county may require applicants for new wireless facilities to evaluate the reasonable feasibility of collocating new antennas and equipment on an existing structure or structures within the applicant's search ring. Collocation on an existing structure is not reasonably feasible if collocation is technically or commercially impractical or the owner of the tower is unwilling to enter into a contract for such use at fair market value. Counties may require information necessary to determine whether collocation on existing structures is reasonably feasible.

(d) A collocation application entitled to streamlined processing under G.S. 153A-349.53 shall be deemed complete unless the city provides notice in writing to the applicant within 45 days of submission or within some other mutually agreed upon timeframe. The notice shall identify the deficiencies in the application which, if cured, would make the application complete. The application shall be deemed complete on resubmission if the additional materials cure the deficiencies identified.

(e) The county shall issue a written decision approving or denying an application within 45 days in the case of collocation applications entitled to streamlined processing under G.S. 153A-349.53 and within a reasonable period of time consistent with the issuance of other land-use permits in the case of other applications, each as measured from the time the application is deemed complete.

(f) A county may fix and charge an application fee, consulting fee, or other fee associated with the submission, review, processing, and approval of an application to site or modify wireless support structures or wireless facilities that is based on the costs of the services provided and does not exceed what is usual and customary for such services. Any charges or fees assessed by a county on account of an outside consultant shall be fixed in advance and incorporated into a permit or application fee and shall be based on the reasonable costs to be incurred by the county in connection with the regulatory review authorized under this section. The foregoing does not prohibit a county from imposing additional reasonable and cost based fees for costs incurred should an applicant amend its application. On request, the amount of the consultant

charges incorporated into the permit or application fee shall be separately identified and disclosed to the applicant.

(g) The county may condition approval of an application for a new wireless support structure on the provision of documentation prior to the issuance of a building permit establishing the existence of one or more parties, including the owner of the wireless support structure, who intend to locate wireless facilities on the wireless support structure. A county shall not deny an initial land-use or zoning permit based on such documentation. A county may condition a permit on a requirement to construct facilities within a reasonable period of time, which shall be no less than 24 months.

(h) The county may not require the placement of wireless support structures or wireless facilities on county owned or leased property, but may develop a process to encourage the placement of wireless support structures or facilities on county owned or leased property, including an expedited approval process.

(i) This section shall not be construed to limit the provisions or requirements of any historic district or landmark regulation adopted pursuant to Part 3C of this Article.

"**§ 153A-349.53. Collocation of wireless facilities.**

(a) Applications for collocation entitled to streamlined processing under this section shall be reviewed for conformance with applicable site plan and building permit requirements but shall not otherwise be subject to zoning requirements, including design or placement requirements, or public hearing review.

(b) Applications for collocation of wireless facilities are entitled to streamlined processing if the addition of the additional wireless facility does not exceed the number of wireless facilities previously approved for the wireless support structure on which the collocation is proposed and meets all the requirements and conditions of the original approval. This provision applies to wireless support structures which are approved on or after December 1, 2007.

(c) The streamlined process set forth in subsection (a) of this section shall apply to all collocations, in addition to collocations qualified for streamlined processing under subsection (b) of this section, that meet the following requirements:

(1) The collocation does not increase the overall height and width of the tower or wireless support structure to which the wireless facilities are to be attached.

(2) The collocation does not increase the ground space area approved in the site plan for equipment enclosures and ancillary facilities.

(3) The wireless facilities in the proposed collocation comply with applicable regulations, restrictions, or conditions, if any, applied to the initial wireless facilities placed on the tower or other wireless support structure.

(4) The additional wireless facilities comply with all federal, State, and local safety requirements.

(5) The collocation does not exceed the applicable weight limits for the wireless support structure.

SECTION 3. If any provision of this act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to that end the provisions of this act are declared to be severable.

SECTION 4. This act becomes effective December 1, 2007.

AN ACT TO CLARIFY THAT INDUSTRIAL MACHINERY IS NOT SUBJECT TO REGULATION UNDER THE BUILDING CODE.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 143-138(b) reads as rewritten:

"(b) Contents of the Code. – The North Carolina State Building Code, as adopted by the Building Code Council, may include reasonable and suitable classifications of buildings and structures, both as to use and occupancy; general building restrictions as to location, height, and floor areas; rules for the lighting and ventilation of buildings and structures; requirements concerning means of egress from buildings and structures; requirements concerning means of ingress in buildings and structures; rules governing construction and precautions to be taken during construction; rules as to permissible materials, loads, and stresses; rules governing chimneys, heating appliances, elevators, and other facilities connected with the buildings and structures; rules governing plumbing, heating, air conditioning for the purpose of comfort cooling by the lowering of temperature, and electrical systems; and such other reasonable rules pertaining to the construction of buildings and structures and the installation of particular facilities therein as may be found reasonably necessary for the protection of the occupants of the building or structure, its neighbors, and members of the public at large.

In addition, the Code may regulate activities and conditions in buildings, structures, and premises that pose dangers of fire, explosion, or related hazards. Such fire prevention code provisions shall be considered the minimum standards necessary to preserve and protect public health and safety, subject to approval by the Council of more stringent provisions proposed by a municipality or county as provided in G.S. 143-138(e). These provisions may include regulations requiring the installation of either battery-operated or electrical smoke detectors in every dwelling unit used as rental property, regardless of the date of construction of the rental property. For dwelling units used as rental property constructed prior to 1975, smoke detectors shall have an Underwriters' Laboratories, Inc., listing or other equivalent national testing laboratory approval, and shall be installed in accordance with either the standard of the National Fire Protection Association or the minimum protection designated in the manufacturer's instructions, which the property owner shall retain or provide as proof of compliance.

The Code may contain provisions regulating every type of building or structure, wherever it might be situated in the State.

Provided further, that nothing in this Article shall be construed to make any building rules applicable to farm buildings located outside the building-rules jurisdiction of any municipality.

Provided further, that no building permit shall be required under the Code or any local variance thereof approved under subsection (e) for any construction, installation, repair, replacement, or alteration costing five thousand dollars ($5,000) or less in any single family residence or farm building unless the work involves: the addition, repair, or replacement of load bearing structures; the addition (excluding replacement of same size and capacity) or change in the design of plumbing; the addition, replacement or change in the design of heating, air conditioning, or electrical wiring, devices, appliances, or equipment, the use of materials not permitted by the North Carolina Uniform Residential Building Code; or the addition (excluding replacement of like grade of fire resistance) of roofing.

Provided further, that no building permit shall be required under such Code from any State agency for the construction of any building or structure, the total cost of which is less than twenty thousand dollars ($20,000), except public or institutional buildings.

For the information of users thereof, the Code shall include as appendices

(1) Any rules governing boilers adopted by the Board of Boiler and Pressure Vessels Rules,

(2) Any rules relating to the safe operation of elevators adopted by the Commissioner of Labor, and

(3) Any rules relating to sanitation adopted by the Commission for Health Services which the Building Code Council believes pertinent.

In addition, the Code may include references to such other rules of special types, such as those of the Medical Care Commission and the Department of Public Instruction as may be useful to persons using the Code. No rule issued by any agency other than the Building Code Council shall be construed as a part of the Code, nor supersede that Code, it being intended that they be presented with the Code for information only.

Nothing in this Article shall extend to or be construed as being applicable to the regulation of the design, construction, location, installation, or operation of (1) equipment for storing, handling, transporting, and utilizing liquefied petroleum gases for fuel purposes or anhydrous ammonia or other liquid fertilizers, except for liquefied petroleum gas from the outlet of the first stage pressure regulator to and including each liquefied petroleum gas utilization device within a building or structure covered by the Code, or (2) equipment or facilities, other than buildings, of a public utility, as defined in G.S. 62-3, or an electric or telephone membership corporation, including without limitation poles, towers, and other structures supporting electric or communication lines.

Nothing in this Article shall extend to or be construed as being applicable to the regulation of the design, construction, location, installation, or operation of industrial machinery. However, if during the building code inspection process, an electrical inspector has any concerns about the electrical safety of a piece of industrial machinery, the electrical inspector may refer that concern to the Occupational Safety and Health Division in the North Carolina Department of Labor but shall not withhold the certificate of occupancy nor mandate third-party testing of the industrial machinery based solely on this concern. For the purposes of this paragraph, 'industrial machinery' means equipment and machinery used in a system of operations for the explicit purpose of producing a product. The term does not include equipment that is permanently attached to or a component part of a building and related to general building services

such as ventilation, heating and cooling, plumbing, fire suppression or prevention, and general electrical transmission.

In addition, the Code may contain rules concerning minimum efficiency requirements for replacement water heaters, which shall consider reasonable availability from manufacturers to meet installation space requirements.

No State, county, or local building code or regulation shall prohibit the use of special locking mechanisms for seclusion rooms in the public schools approved under G.S. 115C-391.1(e)(1)e., provided that the special locking mechanism shall be constructed so that it will engage only when a key, knob, handle, button, or other similar device is being held in position by a person, and provided further that, if the mechanism is electrically or electronically controlled, it automatically disengages when the building's fire alarm is activated. Upon release of the locking mechanism by a supervising adult, the door must be able to be opened readily."

In making disbursements from the Fund, the Commission shall obligate monies to facilities or sites with higher priority before facilities or sites of lower priority, and facilities or

sites with equal priority in the order in which the facilities or sites were prioritized until the revenue is exhausted. Consistent with the provisions of this Part, the Commission may disburse monies from the Fund to abate imminent hazards by dry-cleaning solvent contamination at abandoned dry-cleaning facility sites that have not been certified. Up to twenty percent (20%) of the amount of revenue credited to the Fund in a year may be used to defray costs incurred by the Department and the Attorney General's Office in connection with administration of the program described in this Part, including oversight of response activities.

(d) Up to one percent (1%) of the amount of the Fund balance may be used by the Department in each fiscal year for investigation of inactive hazardous substance disposal sites that the Department reasonably believes to be contaminated by dry-cleaning solvent. If the contamination is determined to originate from a dry-cleaning facility, a potentially responsible party may petition for certification of the facility or abandoned facility site. Acceptance of a petition shall be conditioned upon the written acceptance by the petitioner of responsibility for the costs of investigation incurred by the Department pursuant to this subsection. Costs of investigation that are recovered pursuant to this subsection shall not exceed, and shall be credited toward, the financial responsibility of the petitioner pursuant to G.S. 143-215.104F(f). No license forfeited or surrendered pursuant to the preceding sentence shall be reinstated by the Board unless it is shown to the Board that the applicant has, throughout the period of forfeiture, engaged full time in another state of the United States or the District of Columbia in the practice to which his North Carolina license applies and has completed for each such year continuing education substantially equivalent in the opinion of the Board to that required of North Carolina licensees; or has completed in North Carolina a total number of hours of accredited continuing education computed by multiplying five times the number of years of forfeiture; or has passed the North Carolina examination for the forfeited license. No additional resident traineeship shall be required. The applicant shall be required to pay all delinquent annual renewal fees and a reinstatement fee. The Board may waive the provisions of this section for an applicant for a forfeiture which occurred during his service in the armed forces of the United States provided he applies within six months following severance therefrom.

c. All licensees now or hereafter licensed in North Carolina shall take continuing education courses in subjects relating to the practice of the profession for which they are licensed, to the end that the benefits of learning and reviewing skills will be utilized and applied to assure proper service to the public.

d. As a prerequisite to the annual renewal of a license, the licensee must complete, during the year immediately preceding renewal, at least five hours of continuing education courses, of which the Board may require licensees to take up to two hours specified by the Board. All continuing education courses must be approved by the Board prior to enrollment. A licensee who completes more than five hours in a year may carry over a maximum of five hours as a credit to the following year's requirement. A licensee who is issued an initial license on or after July 1 does not have to satisfy the continuing education requirement for that year.

e. The Board shall not renew a license unless fulfillment of the continuing education requirement has been certified to it on a form provided by the Board, but the Board may waive this requirement for renewal in cases of certified illness or undue hardship or where the licensee lives outside of North Carolina and does not practice in North Carolina, and the Board shall waive the requirement for all licensees who were licensed on or before December 31, 2003, and have been licensed in North Carolina for a continuous period of 25 years or more, for all licensees who are licensed on or after January 1, 2004, who have been licensed for a continuous period of 25 years or more and have attained the age of 60 years, and for all licensees who are, at the time of renewal, members of the General Assembly.

f. The Board shall cause to be established and offered to the licensees, each calendar year, at least eight hours of continuing education courses. Persons previously licensed by the Board as a funeral director may engage in funeral directing, and persons previously licensed by the Board as an embalmer may engage in embalming. Any person having been previously licensed by the Board as both a funeral director and an embalmer may upon application therefor receive a license as a funeral service licensee.

The Board shall provide to the Department of Justice, along with the request, the fingerprints of the applicant, any additional information required by the Department of Justice, and a form signed by the applicant consenting to the check of the criminal record and to the use of the fingerprints and other identifying information required by the State or national repositories. The applicant's fingerprints shall be forwarded to the State Bureau of Investigation for a search of the State's criminal history record file, and the State Bureau of Investigation shall forward a set of the fingerprints to the Federal Bureau of Investigation for a national criminal history check. The Board shall keep all information pursuant to this subdivision privileged, in accordance with applicable State law and federal guidelines, and the information shall be confidential and shall not be a public record under Chapter 132 of the General Statutes.

The Department of Justice may charge each applicant a fee for conducting the checks of criminal history records authorized by this subdivision.

At the time funeral arrangements are made and prior to the time of rendering the service and providing the merchandise, a funeral director or funeral service licensee shall give or cause to be given to the person or persons making such arrangements a written statement duly signed by a licensee of said funeral establishment showing the price of the service as selected and what services are included therein, the price of each of the supplemental items of services or merchandise requested, and the amounts involved for each of the items for which the funeral establishment will advance moneys as an accommodation to the person making arrangements, insofar as any of the above items can be specified at that time. A proposal may be conditioned upon an increase in the assessments of an association in the manner set out in subsection (g) of this section. In such a case, the issues of purchase or merger and an increase in assessments may be considered at the same meeting of the association.

(b) Upon receipt of a written proposal:

A parent or guardian of any member who is under 18 years of age may vote on behalf of his or her child or ward, but only one vote may be cast on behalf of that member.

(e) The secretary of the association shall certify the result of the vote and the presence of a quorum to the Board within five days following the meeting and shall include with the certification a copy of the notice of the meeting that was sent to the members of the association.

(f) The Board shall immediately review the certification, the notice, and any other records that may be necessary to determine the adequacy of notice, the presence of a quorum, and the validity of the vote. Upon determining that the meeting and vote were regular and held following proper notice and that a majority of a quorum of the members voted in favor of the proposal, the Board shall issue an order approving the purchase or merger and directing that the purchase or merger proceed in accordance with the proposal.

(g) Any burial association whose current assessments are not, or are unlikely to be within the next three years, adequate to reach or maintain a reserve of at least twenty-one dollars ($21.00) per member or are inadequate to meet the requirements of a proposal from an insurance company to acquire the assets of or to merge with the association may increase its assessments by an amount necessary to reach and maintain the reserve or to meet the proposal. (3) No vote may be had on the question of an increase in assessments unless a quorum of the members of the association is present at the meeting. A quorum shall be conclusively presumed if 15 members or ten percent (10%) of the membership of the association, whichever is greater, is present at the meeting.

(4) The proposal to increase the assessments shall be approved by an affirmative vote of a majority of the members present and voting.

(5) The secretary of the association within five days following the meeting shall certify the result of the vote and the presence of a quorum to the Board in the manner and for the purposes set out in subsections (e) and (f) of this section.

Each member's distributive share shall be determined by dividing the amount of the member's benefit by the aggregate benefits of all members of the association and then multiplying the total amount of money available for distribution by the percentage so derived. Assessments owed by the members to the association at the time of distribution shall be taken into account and shall be offset against the members' distributive shares.

(4) Issue a certificate to members in an amount that equals the difference between the distributive share issued in subdivision (3) of this subsection and the full amount of the member's association benefit. Any certificate issued shall supersede and supplant any other certificate already issued by the association. The certificate shall be on

a form prescribed by the Board and shall be prepared and distributed by the association at its expense.

(5) File a final report with the Board on or before December 31 in the year in which the order of liquidation was issued. This report shall show all receipts and disbursements, including the amount distributed to each member, since the last annual report of the association was filed with the Board.

(j) A certificate issued under subsection (i) of this section may be used as a credit toward the cost of funeral services, facilities, and merchandise at any funeral establishment that agrees on forms prescribed by the Board to accept such certificates. A funeral establishment that agrees to accept certificates shall do so until the agreement with the Board expires. The Board shall maintain and distribute to the public a list of funeral establishments that will accept certificates.

SECTION 23. G.S. 90-210.129 reads as rewritten:

"§ **90-210.129. Cremation procedures.**

(a) In deaths certified by the attending physician, the body shall not be cremated before the crematory licensee receives a death certificate signed by the attending physician, which shall contain at a minimum the following information:

(1) Decedent's name;
(2) Date of death;
(3) Date of birth;
(4) Sex;
(5) Place of death;

(6) Facility name (if not institution, give street and number);
(7) County of death;
(8) City of death; and
(9) Time of death (if known).

(b) When required by G.S. 130A-388 and the rules adopted pursuant to that section or by successor statute and the rules pursuant to it, a cremation authorization form signed by a medical examiner shall be received by the crematory prior to cremation.

(c) In deaths coming under full investigation by the Office of the Chief Medical Examiner, a burial-transit permit/cremation authorization form must be received by the crematory before cremation.

(d) No body shall knowingly be cremated with a pacemaker or defibrillator or other potentially hazardous implant or condition in place. The authorizing agent for the cremation of the human remains shall be responsible for taking all necessary steps to ensure that any pacemaker or defibrillator or other potentially hazardous implant or condition is removed or corrected prior to cremation. If an authorizing agent informs the funeral director and the crematory licensee on the cremation authorization form of the presence of a pacemaker or defibrillator or other potentially hazardous implant or condition in the human remains, then the funeral director shall be responsible for ensuring that all necessary steps have been taken to remove the pacemaker or defibrillator or other potentially hazardous implant or to correct the hazardous condition before delivering the human remains to the crematory.

(e) Human remains shall not be cremated within 24 hours after the time of death, unless such death was a result of an infectious, contagious, or communicable and dangerous disease as listed by the Commission of Health Services, pursuant to G.S. 130A-134, and unless such time requirement is waived in writing by the medical examiner, county health director, or attending physician where the death occurred.

(f) No unauthorized person shall be permitted in view of the cremation chamber or in the holding and processing facility while any human remains are being removed from the cremation container, processed, or pulverized. (g) Human remains shall be cremated only while enclosed in a cremation container. Upon completion of the cremation, and insofar as is possible, all of the recoverable residue of the cremation process shall be removed from the cremation chamber. Insofar as is possible, all residue of the cremation process shall then be separated from any foreign residue or anything else other than bone fragments and then be processed by pulverization so as to reduce the cremated remains to unidentifiable particles. Any foreign residue and anything other than the particles of the cremated remains shall be removed from the cremated remains as far as possible and shall be disposed of by the crematory licensee. This section does not apply where law otherwise provides for commingling of human remains. (h) The simultaneous cremation of the human remains of more than one person within the same cremation chamber is forbidden.

(i) Every crematory shall have a holding and processing facility, within the crematory, designated for the retention of human remains prior to cremation. (n) If the cremated remains are to be shipped, the ~~temporary~~ initial container or urn shall be packed securely in a suitable shipping container that complies with the requirements of the shipper. Cremated remains shall be shipped only by a method which has an internal tracing system available and which provides a receipt signed by the person accepting delivery, unless otherwise authorized in writing by the authorizing agent. Cremated remains shall be shipped to the proper address as stated on the cremation authorization form signed by the authorizing agent.

(o) Unless the provisions of G.S. 130A-114 apply, before cremation the crematory licensee shall receive a written statement, on a form prescribed by the Board and signed by the attending physician, acknowledging the circumstances, date, and time of the delivery of the fetal remains from the mother. If after reasonable efforts no physician can be identified with knowledge and information sufficient to complete the written statement required by this subsection, the crematory licensee shall obtain documentation of the circumstances, date, and time of delivery of the fetal remains prepared by a hospital, medical facility, law enforcement agency, or other entity. Notwithstanding any other provision of law, health care providers may release to a licensee, in accordance with the federal Standards for Privacy of Individually Identifiable Health Information under the Health Insurance Portability and Accountability Act of 1996 (HIPAA), medical records that document the circumstances, date, and time of delivery of fetal remains. If the crematory licensee cannot identify documents sufficient to meet the requirements of this subsection, the licensee shall report to the local medical examiner pursuant to G.S. 130A-383(a).

(p) If the provisions of Article 4 of Chapter 130A of the General Statutes apply, the crematory licensee shall receive a fetal report of death as prescribed in G.S. 130A-114.

If, after a period of 30 days from the date of cremation, the authorizing agent or the agent's representative has not specified the final disposition or claimed the cremated remains, the crematory licensee or the person in possession of the cremated remains may release the cremated remains to another family member upon written notification to the authorizing agent delivered by certified mail or dispose of the cremated remains only in a manner permitted in this section. The authorizing agent shall be responsible for reimbursing the crematory licensee for all reasonable expenses incurred in disposing of the cremated remains pursuant to this section. A record of such disposition shall be made and kept by the person making the disposition. Upon disposing of cremated remains in accordance with this section, the crematory licensee or person in possession of the cremated remains shall be discharged from any legal obligation or liability concerning such cremated remains."

"**§ 58-50-195. Eligibility for Pool coverage.**

(a) Any individual who is and continues to be a resident of this State is eligible for Pool coverage if the individual provides evidence of any of the following:

(1) A notice of rejection or refusal to issue substantially similar health insurance coverage for health reasons by an insurer. A rejection or refusal by an insurer offering only stop-loss, excess loss, or reinsurance coverage with respect to the applicant is not sufficient evidence of eligibility.

(2) An offer to issue health insurance coverage only with a conditional rider that limits coverage for the individual's high-risk medical condition.

(3) A refusal by an insurer to issue health insurance coverage except at a rate exceeding the Pool rate.

(4) A diagnosis of the individual with one of the medical or health conditions listed by the Board in accordance with this section. An individual diagnosed with one or more of these conditions is eligible for Pool coverage without applying for other health insurance coverage.

(5) Qualification as a federally defined eligible individual, whether or not currently covered by an insurer under that qualification.

(6) An individual who is legally domiciled in this State and is eligible for the credit for health insurance costs under the Trade Adjustment Assistance Reform Act of 2002, section 35 of the Internal Revenue Code of 1986. Each dependent of an individual who is eligible for Pool coverage under this subdivision shall also be eligible for Pool coverage.

(7) The individual has current individual health insurance coverage at a rate exceeding the Pool rate.

(b) The Board, upon recommendation of the Executive Director, shall adopt a list of medical or health conditions for which a person shall be eligible for Pool coverage under subdivision (a)(4) of this section. The Board may amend the list as the Board considers appropriate.

(c) An individual is not eligible for coverage under the Pool if:

(1) The individual has or obtains medical care benefits substantially similar to or more comprehensive than the benefit plan offered by the Pool, or would be eligible to have coverage if the person elected to obtain it, except that:

a. An individual may maintain other coverage for the period of time the individual is satisfying any preexisting condition waiting period under a Pool policy; and

b. An individual may maintain Pool coverage for the period of time the individual is satisfying a preexisting condition waiting period under another health insurance policy intended to replace the Pool policy.

(2) The individual is determined to be eligible for enrollment in the State Medical Assistance Plan or in Medicare, unless the Pool offers Medicare supplemental insurance coverage.

(3) The individual has previously terminated Pool coverage unless 12 months have lapsed since the termination, except that this subdivision shall not apply with respect to an applicant who is a federally defined eligible individual or to an applicant eligible for or receiving benefits under the Trade Adjustment Assistance Program.

(4) The individual is an inmate or resident of a public institution, except that this subdivision shall not apply with respect to an applicant who is a federally defined eligible individual.

(5) The individual's premiums are paid for or reimbursed under any government-sponsored program or by any government agency or

health care provider, except as an otherwise qualifying full-time employee, or dependent thereof, of a government agency or health care provider. This subdivision shall not apply for individuals receiving benefits under the Trade Adjustment Assistance Program or to individuals receiving premium subsidies made available by the State based on individual income levels.

(6) The individual has in effect on the date Pool coverage takes effect health insurance coverage from an insurer or insurance arrangement.

(d) Coverage under the Pool shall cease:

(1) On the date an individual is no longer a resident of this State.

(2) On the date an individual requests coverage to end.

(3) Upon the death of the covered individual.

(4) On the date State law requires cancellation of the Pool policy.

(5) At the option of the Pool, 30 days after the Pool makes any inquiry concerning the individual's eligibility or residence to which the individual does not reply.

(6) Because the individual has failed to make the payments required under this Part.

(e) Except as provided in subsection (d) of this section, an individual who ceases to meet the eligibility requirements of this section may be terminated at the end of the Pool policy period for which the necessary premiums have been paid.

"**§ 58-50-200. Unfair referral to Pool.**

It is an unfair trade practice under Article 63 of this Chapter and under Chapter 75 of the General Statutes for an employer, an insurer, an insurance producer, as defined in G.S. 58-33-10(7), or a third-party administrator to refer an individual employee to the Pool or arrange for an individual employee to apply to the Pool for the purpose of separating that employee from a group medical care benefit plan provided in connection with the employee's employment. This section shall not prohibit an insurer or insurance producer from informing an individual of other coverage options, including coverage provided by the Pool.

"**§ 58-50-205. Minimum Pool benefits.**

(a) The Pool shall offer at least two types of benefit plans for individuals eligible under G.S. 58-50-195, including preferred provider organizations with different levels of deductibles and cost-sharing, and at least one choice of a health savings account. The covered services and benefit levels may vary between the types of benefit plans, but at least two types of benefit plans must, at a minimum, cover the benefits and services outlined in the National Association of Insurance Commissioners' (NAIC) Model Health Pool for Uninsurable Individuals Act and be consistent with comprehensive coverage generally available to persons who are eligible for individual health insurance other than Medicare. All benefit plans offered by the Pool shall include disease or case management services.

(b) The Board, upon the recommendation of the Executive Director, shall adopt rules regarding the lifetime limits and per individual combined coinsurance and deductibles for the health insurance products offered by the Pool. The initial rules shall include not less than one million dollars ($1,000,000) lifetime limit and a combined annual limit of up to five thousand dollars ($5,000) per individual on coinsurance and deductibles. The Board, upon recommendation of the Executive Director, shall adopt rules adjusting these limitations at least once every five years to reflect changes in the medical component of the Consumer Price Index. When adopting or adjusting lifetime

limits the Board may establish categories of diseases that may be more seriously impacted by the lifetime limits than other diseases covered under the Pool.

"**§ 58-50-210. Preexisting conditions.**

(a) Except as otherwise provided by law, Pool coverage shall exclude charges or expenses incurred during the first 12 months following the effective date of coverage as to any condition for which medical advice, care, or treatment was recommended or received as to such conditions during the 12-month period immediately preceding the effective date of coverage, except that no preexisting condition exclusion shall be applied to a federally defined eligible individual.

(b) Subject to subsection (a) of this section, the preexisting condition exclusions shall be waived to the extent that similar exclusions, if any, have been satisfied under any prior health insurance coverage that was involuntarily terminated, provided that:

(1) Application for Pool coverage is made not later than 63 days following the involuntary termination, and in such case coverage in the Pool shall be effective from the date on which the prior coverage was terminated; and

(2) The applicant is not eligible for continuation or conversion rights that would provide coverage substantially similar to Pool coverage.

"**§ 58-50-215. Nonduplication of benefits.**

(a) The Pool shall be payor of last resort of benefits whenever any other benefit or source of third-party payment is available. Benefits otherwise payable under coverage shall be reduced by all amounts paid or payable through any other medical care benefits and by all hospital and medical expenses paid or payable under any workers' compensation coverage notwithstanding any provision of law to the contrary, automobile medical payment, or liability insurance, whether provided on the basis of fault or no-fault, and by any hospital or medical benefits paid or payable under or provided pursuant to any State or federal law or program.

(b) The Pool shall have a cause of action against an eligible person for the recovery of the amount of benefits paid that are not for covered expenses. Benefits due from the Pool may be reduced or refused as a setoff against any amount recoverable under this subsection.

"**§ 58-50-220: Reserved for future codification purposes.**

"**§ 58-50-225. North Carolina Health Insurance Risk Pool Special Fund.**

(a) The North Carolina Health Insurance Risk Pool Special Fund is established as an interest-bearing, non-reverting account in the General Fund. The Special Fund consists of the following revenue:

(1) Premiums, fees, charges, rebates, refunds, and any other receipts occurring or arising in connection with the Pool.

(2) The revenue transferred to the Fund under G.S. 105-228.5B.

(3) Gifts, grants, and other appropriations.

(b) Disbursements from the Special Fund shall include the amounts required to pay the claims, benefits, and administrative costs as may be determined by the Executive Director and the Board. Disbursement from the Special Fund may be made by warrant drawn on the State Treasurer by the Executive Director, or the Executive Director and the Board may by contract authorize the Administrator to draw the warrant.

"**§ 58-50-230. Complaint procedures.**

An applicant or participant in coverage from the Pool is entitled to have complaints against the Pool reviewed by a grievance committee appointed by the Executive

Director. Members of the Board shall not serve on the grievance committee. The grievance process shall comply with G.S. 58-50-62. The grievance committee shall report to the Board after completion of the review of each complaint. The Executive Director shall retain all written complaints regarding the Pool at least until the third anniversary of the date the Pool received the complaint. Independent review of an appeal decision upholding a noncertification or a second-level grievance review decision upholding a noncertification shall be subject to review pursuant to Part 4 of this Article.

"**§ 58-50-235. Audit.**

An audit of the Pool shall be conducted annually under the oversight of the State Auditor. The cost of the audit shall be reimbursed to the State Auditor from the Special Fund.

"**§ 58-50-240. Taxation.**

The Pool established under this Part is exempt from any and all State taxes.

"**§ 58-50-245. Rules.**

The Board and the Commissioner may adopt rules pursuant to Chapter 150B of the General Statutes, including temporary rules, to implement this Part.

"**§ 58-50-250. Collective action.**

The establishment of rates, forms, or procedures and any other joint or collective action required by this Part may not be the basis of any legal action or criminal or civil liability or penalty against the Pool or any insurer.

"**§ 58-50-255. Pool financing; Board reporting.**

(a) The Board shall monitor methods of financing the Pool to ensure a stable funding source and allow for its continued operation. This monitoring shall include supplementary sources of funding, such as funds obtained from public and private not-for-profit foundations, or other appropriate and available State or non-State funds. The Board shall also review on a regular basis:

(1) The number of individuals in this State who are uninsured as of a date certain because of high-risk conditions.

(2) The number of uninsured individuals who would qualify for coverage under the Pool based on G.S. 58-50-195 and its Plan of Operation.

(3) The cost of coverage under each of the health insurance plans developed by the Board, including administrative costs.

(4) The status of a request by the State to the Centers for Medicare and Medicaid Services for approval of the North Carolina Health Insurance Risk Pool to be considered an acceptable "alternative mechanism" under the federal Health Insurance Portability and Accountability Act in accordance with 45 C.F.R. § 148.128(e).

(5) Methods for providing a premium subsidy on a sliding scale basis for individuals with incomes up to three hundred percent (300%) of the federal poverty guidelines.

b. Either a copy of the application or a written disclosure. The copy of the application or the written disclosure shall clearly and concisely set out the type of life insurance, the death benefit applied for, and its expected first year cost. A basic illustration that meets the requirements of rules adopted by the Commissioner concerning life insurance illustrations are sufficient to meet this requirement for a written disclosure.

(f) The following acts or practices by an insurer or insurance producer with respect to the sale of certain life insurance products are declared to be false, misleading, deceptive, or unfair:

(1) Excluding individually issued annuities, recommending the purchase of any life insurance product which includes a side fund to a service member in pay grades E-4 and below unless the insurer has reasonable grounds for believing that the life insurance death benefit, standing alone, is suitable.

a. Unless interest credited accrues from the date of deposit to the date of withdrawal and permits withdrawals without limit or penalty;

b. Unless the applicant has been provided with a schedule of effective rates of return based upon cash flows of the combined product. For this disclosure, the effective rate of return will consider all premiums and cash contributions made by the policyholder and all cash accumulations and cash surrender values available to the policyholder in addition to life insurance coverage. This schedule will be provided for at least each policy year from one to 10 and for every fifth policy year thereafter ending at age 100, policy maturity, or final expiration; and

c. Which by default diverts or transfers funds accumulated in the side fund to pay, reduce, or offset any premiums due.

(4) Excluding individually issued annuities, offering for sale or selling any life insurance contract which after considering all policy benefits, including, but not limited to, endowment, return of premium, or persistency, does not comply with standard nonforfeiture law for life insurance.

(5) Selling any life insurance product to an individual known to be a service member that excludes coverage if the insured's death is related to war, declared or undeclared, or any act related to military service except for an accidental death coverage, e.g., double indemnity, which may be excluded.

"**§ 130A-412.6. Who may make an anatomical gift before donor's death.**

Subject to G.S. 130A-412.10, an anatomical gift of a donor's body or body part may be made during the life of the donor for the purpose of transplantation, therapy, research, or education in the manner provided in G.S. 130A-412.7 by:

"**§ 130A-412.10. Preclusive effect of an anatomical gift, amendment, or revocation.**

(a) Except as otherwise provided in subsection (g) of this section and subject to subsection (f) of this section, in the absence of an express, contrary indication by the donor, a person other than the donor is barred from making, amending, or revoking an anatomical gift of a donor's body or body part if either of the following apply:

(d) A revocation of an anatomical gift of a donor's body or body part under G.S. 130A-412.8 by a person other than the donor does not bar another person from making an anatomical gift of the body or body part under G.S. 130A-412.7 or G.S. 130A-412.12.

(e) In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift under G.S. 130A-412.6, an anatomical gift of a body part is neither a refusal to give another body part nor a limitation on the making of an anatomical gift of another body part at a later time by the donor or another person.

(f) In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift under G.S. 130A-412.6, an anatomical gift of a body part for one or more of the purposes set forth in G.S. 130A-412.6 is not a limitation on the making of an anatomical gift of the body part for any of the other purposes by the donor or any other person under G.S. 130A-412.7 or G.S. 130A-412.12.

(g) If a donor who is an unemancipated minor dies, a parent of the donor who is reasonably available may revoke or amend an anatomical gift of the donor's body or body part.

(b) If there is more than one member of a class listed in subdivision (a)(1), (3), (4), (5), (6), (7), or (9) of this section entitled to make an anatomical gift, an anatomical gift may be made by a member of the class unless that member or a person to which the gift may pass under G.S. 130A-412.13 knows of an objection by another member of the class. If an objection is known, the gift may be made only by a majority of the members of the class who are reasonably available.

(c) A person may not make an anatomical gift if, at the time of the decedent's death, a person in a prior class under subsection (a) of this section is reasonably available to make or to object to the making of an anatomical gift.

"**§ 130A-412.12. Manner of making, amending, or revoking anatomical gift of decedent's body or body part.**

(a) A person authorized to make an anatomical gift under G.S. 130A-412.11 may make an anatomical gift by a document of gift signed by the person making the gift or by that person's oral communication that is electronically recorded or is contemporaneously reduced to a record and signed by the individual receiving the oral communication.

(b) Subject to subsection (c) of this section, an anatomical gift by a person authorized under G.S. 130A-412.11 may be amended or revoked orally or in a record by any member of a prior class who is reasonably available. If more than one member of the prior class is reasonably available, the gift made by a person authorized under G.S. 130A-412.11 may be:

(1) Amended only if a majority of the reasonably available members agrees to the amending of the gift; or
(2) Revoked only if a majority of the reasonably available members agrees to the revoking of the gift or if they are equally divided as to whether to revoke the gift.

(c) A revocation under subsection (b) of this section is effective only if, before an incision has been made to remove a body part from the donor's body or before invasive procedures have begun to prepare the recipient, the procurement organization, transplant hospital, or physician or technician knows of the revocation.

"**§ 130A-412.13. Persons that may receive anatomical gift; purpose of anatomical gift.**

(a) An anatomical gift may be made to the following persons named in the document of gift:

(1) A hospital; accredited medical school, dental school, college, or university; organ procurement organization; or other appropriate person, including the Commission on Anatomy, for research or education;

(2) Subject to subsection (b) of this section, an individual designated by the person making the anatomical gift if the individual is the recipient of the body part;

(3) An eye bank or tissue bank.

(b) If an anatomical gift to an individual under subdivision (a)(2) of this section cannot be transplanted into the individual, the body part passes in accordance with subsection (g) of this section in the absence of an express, contrary indication by the person making the anatomical gift.

(c) If an anatomical gift of one or more specific body parts or of all body parts is made in a document of gift that does not name a person described in subsection (a) of this section but identifies the purpose for which an anatomical gift may be used, the following rules apply:

(1) If the body part is an eye and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate eye bank.

(2) If the body part is tissue and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate tissue bank.

(3) If the body part is an organ and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate organ procurement organization as custodian of the organ.

(d) For the purpose of subsection (c) of this section, if there is more than one purpose of an anatomical gift set forth in the document of gift but the purposes are not set forth in any priority, the gift must be used for transplantation or therapy, if suitable. If the gift cannot be used for transplantation or therapy, the gift may be used for research or education.

(e) If an anatomical gift of one or more specific body parts is made in a document of gift that does not name a person described in subsection (a) of this section and does not identify the purpose of the gift, the gift may be used only for transplantation or therapy, and the gift passes in accordance with subsection (g) of this section.

(f) If a document of gift specifies only a general intent to make an anatomical gift by words such as "donor," "organ donor," or "body donor," or by a symbol or statement of similar import, the gift may be used only for transplantation or therapy, and the gift passes in accordance with subsection (g) of this section.

(g) For purposes of subsections (b), (e), and (f) of this section, the following rules apply:

(j) A person may not accept an anatomical gift if the person knows that the gift was not effectively made under G.S. 130A-412.7 or G.S. 130A-412.12 or if the person knows that the decedent made a refusal under G.S. 130A-412.9 that was not revoked. For purposes of this subsection, if a person knows that an anatomical gift was made on a document of gift, the person is deemed to know of any amendment or revocation of the gift or any refusal to make an anatomical gift on the same document of gift.

(k) Except as otherwise provided in subdivision (a)(2) of this section, nothing in this act affects the allocation of organs for transplantation or therapy.

(a) The following persons shall make a reasonable search of an individual who the person reasonably believes is dead or near death for a document of gift or other information identifying the individual as a donor or as an individual who made a refusal:

(1) A law enforcement officer, firefighter, paramedic, or other emergency rescuer finding the individual; and

(2) If no other source of the information is immediately available, a hospital, as soon as practical after the individual's arrival at the hospital.

(b) If a document of gift or a refusal to make an anatomical gift is located by the search required by subdivision (a)(1) of this section and the individual or deceased individual to whom it relates is taken to a hospital, the person responsible for conducting the search shall send the document of gift or refusal to the hospital.

(c) A person is not subject to criminal or civil liability for failing to discharge the duties imposed by this section but may be subject to administrative sanctions.

"**§ 130A-412.16. Rights and duties of procurement organization and others.**

(a) When a hospital refers an individual at or near death to a procurement organization, the organization shall make a reasonable search of the records of the North Carolina Department of Transportation, Division of Motor Vehicles, and any donor registry that it knows exists for the geographical area in which the individual resides to ascertain whether the individual has made an anatomical gift.

(b) A procurement organization must be allowed reasonable access to information in the records of the North Carolina Department of Transportation, Division of Motor Vehicles, to ascertain whether an individual at or near death is a donor.

(c) When a hospital refers an individual at or near death to a procurement organization, the organization may conduct any reasonable examination necessary to ensure the medical suitability of a body part that is or could be the subject of an anatomical gift for transplantation, therapy, research, or education from a donor or a prospective donor. During the examination period, measures necessary to ensure the medical suitability of the body part may not be withdrawn unless the hospital or procurement organization knows that the individual expressed a contrary intent.

(d) Unless prohibited by law other than this Part, at any time after a donor's death, the person to which a body part passes under G.S. 130A-412.13 may conduct any reasonable examination necessary to ensure the medical suitability of the body or body part for its intended purpose.

(e) Unless otherwise prohibited by law, an examination under subsection (c) or (d) of this section may include an examination of all medical and dental records of the donor or prospective donor.

(f) Upon the death of a minor who was a donor or had signed a refusal, unless a procurement organization knows the minor is emancipated, the procurement organization shall conduct a reasonable search for the parents of the minor and provide the parents with an opportunity to revoke or amend the anatomical gift or revoke the refusal.

(g) Upon referral by a hospital under subsection (a) of this section, a procurement organization shall make a reasonable search for any person listed in G.S. 130A-412.11 having priority to make an anatomical gift on behalf of a prospective donor. If a procurement organization receives information that an anatomical gift to any other person was made, amended, or revoked, it shall promptly advise the other person of all relevant information.

(h) Subject to G.S. 130A-412.13(i) and G.S. 130A-412.25, the rights of the person to which a body part passes under G.S. 130A-412.13 are superior to the rights of all others with respect to the body part. The person may accept or reject an anatomical gift in whole or in part. Subject to the terms of the document of gift and this Part, a person that accepts an anatomical gift of an entire body may allow embalming, burial, or cremation, and use of remains in a funeral service. If the gift is of a body part, the person to which the body part passes under G.S. 130A-412.13, upon the death of the donor and before embalming, burial, or cremation, shall cause the body part to be removed without unnecessary mutilation.

(i) Neither the physician who attends the decedent at death nor the physician who determines the time of the decedent's death may participate in the procedures for removing or transplanting a part from the decedent.

(j) A physician or technician may remove a donated body part from the body of a donor that the physician or technician is qualified to remove.

"**§ 130A-412.17. Coordination of procurement and use.**

Each hospital in this State shall enter into agreements or affiliations with procurement organizations for coordination of procurement and use of anatomical gifts.

"**§ 130A-412.18. Sale or purchase of body parts prohibited.**

(a) Except as otherwise provided in subsection (b) of this section, a person, that for valuable consideration, knowingly purchases or sells a body part for transplantation or therapy if removal of a body part from an individual is intended to occur after the individual's death commits a Class H felony and upon conviction may be fined up to fifty thousand dollars ($50,000) for each offense.

(b) A person may charge a reasonable amount for the removal, processing, preservation, quality control, storage, transportation, implantation, or disposal of a body part.

"**§ 130A-412.19. Other prohibited acts.**

A person that, in order to obtain a financial gain, intentionally falsifies, forges, conceals, defaces, or obliterates a document of gift, an amendment or revocation of a document of gift, or a refusal commits a Class H felony and upon conviction may be fined up to fifty thousand dollars ($50,000) for each offense.

"**§ 130A-412.20. Immunity.**

(a) A person that acts with due care in accordance with this Part or with the applicable anatomical gift law of another state, or attempts in good faith to do so, is not liable for the act in a civil action, criminal prosecution, or administrative proceeding.

(b) Neither the person making an anatomical gift nor the donor's estate is liable for any injury or damage that results from the making or use of the gift.

(c) In determining whether an anatomical gift has been made, amended, or revoked under this Part, a person may rely upon representations of an individual listed in subdivisions (2) through (8) of G.S. 130A-412.11(a) relating to the individual's relationship to the donor or prospective donor unless the person knows that the representation is untrue.

"**§ 130A-412.21. Law governing validity; choice of law as to execution of document of gift; presumption of validity.**

(a) A document of gift is valid if executed in accordance with:

(1) This Part;

(2) The laws of the state or country where it was executed; or

(3) The laws of the state or country where the person making the anatomical gift was domiciled, has a place of residence, or was a national at the time the document of gift was executed.

(b) If a document of gift is valid under this section, the law of this State governs the interpretation of the document of gift.

(c) A person may presume that a document of gift or amendment of an anatomical gift is valid unless that person knows that it was not validly executed or was revoked.

"**§ 130A-412.22. Donor registry.**

The online Organ Donor Registry Internet site established pursuant to G.S. 20-43.2 shall be the State donor registry for anatomical gifts made pursuant to this Part. Requirements for maintenance and use of the State donor registry shall be as provided under G.S. 20-43.2.

"**§ 130A-412.23. Cooperation between a medical examiner and the procurement organization.**

(a) The medical examiner shall cooperate with procurement organizations to maximize the opportunity to recover anatomical gifts for the purpose of transplantation, therapy, research, or education.

(b) If a medical examiner receives notice from a procurement organization that an anatomical gift might be available or was made with respect to a decedent whose body is under the jurisdiction of the medical examiner and a postmortem examination is going to be performed, unless the medical examiner denies recovery in accordance with G.S. 130A-412.24, the medical examiner or designee shall conduct a postmortem examination of the body or the body part in a manner and within a period compatible with its preservation for the purposes of the gift.

(c) A body part may not be removed from the body of a decedent under the jurisdiction of a medical examiner for transplantation, therapy, research, or education unless the body part is the subject of an anatomical gift. The body of a decedent under the jurisdiction of the medical examiner may not be delivered to a person for research or education unless the body is the subject of an anatomical gift. This subsection does not preclude a medical examiner from performing the medicolegal investigation upon the body or body parts of a decedent under the jurisdiction of the medical examiner.

(d) As used in this section and G.S. 130A-412.24, "medical examiner" includes the Chief Medical Examiner, a county medical examiner, or a designee of either.

"**§ 130A-412.24. Facilitation of anatomical gift from decedent whose body is under the jurisdiction of a medical examiner.**

(a) Upon request of a procurement organization, a medical examiner shall release to the procurement organization the name, contact information, and available medical and social history of a decedent whose body is or will come under the jurisdiction of the medical examiner. If the decedent's body or body part is medically suitable for transplantation, therapy, research, or education, the medical examiner shall release postmortem examination results to the procurement organization. The procurement organization may make a subsequent disclosure of the postmortem examination results or other information received from the medical examiner only if relevant to transplantation or therapy.

(b) The medical examiner may conduct a medicolegal examination, including physical examination of a donor or prospective donor and review of all medical records, laboratory test results, X-rays, other diagnostic results, and other information that any person possesses about a donor or prospective donor whose body is under the jurisdiction of the medical examiner or whose body would be under the medical examiner's jurisdiction upon death and that the medical examiner determines may be relevant to the investigation.

(c) A person that has any information requested by a medical examiner pursuant to subsection (b) of this section shall provide that information as expeditiously as possible to allow the medical examiner to conduct the medicolegal investigation within a period compatible with the preservation of body parts for the purpose of transplantation, therapy, research, or education.

(d) If an anatomical gift has been or might be made of a body part of a decedent whose body is under the jurisdiction of the medical examiner and a postmortem examination is not required, or the medical examiner determines that a postmortem examination is required but that the recovery of the body part that is the subject of an anatomical gift will not interfere with the examination, the medical examiner and procurement organization shall cooperate in the timely removal of the body part from the decedent for the purpose of transplantation, therapy, research, or education.

(e) If an anatomical gift of a body part from the decedent under the jurisdiction of the medical examiner has been or might be made, but the medical examiner initially believes that the recovery of the body part could interfere with the postmortem investigation into the decedent's cause or manner of death, the collection of evidence, or the description, documentation, or interpretation of injuries on the body, the medical examiner shall consult with the procurement organization or physician or technician designated by the procurement organization about the proposed recovery. After consultation, the medical examiner may deny or allow the recovery.

(f) If the medical examiner or designee allows recovery of a body part under subsection (d) or (e) of this section, the procurement organization shall provide the

medical examiner or designee with a record describing the condition of the body part signed by the physician or technician who removes the body part and any other information and observations that would assist in the postmortem examination."

"Article 22J.

"The Voter-Owned Elections Act.

"**§ 163-278.95. Purpose and establishment of Voter-Owned Elections Act.**

The purpose of this Article is to ensure the vitality and fairness of democratic elections in North Carolina to the end that any eligible citizen of this State can realistically choose to seek and run for public office. It is also the purpose of this Article to protect the constitutional rights of voters and candidates from the detrimental effects of increasingly large amounts of money being raised and spent in North Carolina to influence the outcome of elections. It is essential to the public interest that the potential for corruption or the appearance of corruption is minimized and that the equal and meaningful participation of all citizens in the democratic process is ensured. Accordingly, this Article establishes the North Carolina Voter-Owned Elections Fund as an alternative source of campaign financing for candidates who obtain a sufficient number of qualifying contributions from registered voters and who voluntarily accept strict fund-raising and spending limits. This Article is available to candidates for the Council of State offices of Auditor, Superintendent of Public Instruction, and Commissioner of Insurance in elections to be held in 2008 and thereafter.

No payment, gift, or anything of value shall be given in exchange for a qualifying contribution.

(c) Certification of Candidates. – Upon receipt of a submittal of the record of qualifying contributions by a participating candidate, the Board shall determine whether or not the candidate has:

(1) Filed a completed declaration of intent to participate in this Article.

(2) Submitted a report itemizing the appropriate number of qualifying contributions received from registered voters, which the Board shall verify through a random sample or other means it adopts. The report shall include the county of residence of each registered voter listed.

A candidate who exceeds either of these limits shall be ineligible to file a declaration of intent or receive funds from the Fund. The Board shall deposit all such payments into the Fund.

(2) From the filing of a declaration of intent through the end of the qualifying period, a candidate may accept only qualifying contributions, contributions under ten dollars ($10.00) from North Carolina voters, in-kind party contributions as permitted in subdivision (4) of this subsection, and personal and family contributions permitted under subdivision (4a) of this subsection. The total contributions the candidate may accept during this period shall not exceed the maximum qualifying contributions for that candidate. In addition to these contributions, the candidate may only expend during this period the remaining money raised pursuant to subdivision (1) of this subsection and possible matching funds received pursuant to G.S. 163-278.99B. If the candidate has any remaining money that was raised as contributions before August 1 of the year before the election, the candidate may not expend that money after filing the declaration of intent, except for purposes permitted under subdivision (2), (3), (6), (7), or (8) of G.S. 163-278.16B(a).

(3) After the qualifying period and through the date of the general election, the candidate shall cease campaign-related fund-raising activities and shall expend only the funds the candidate receives from the Fund pursuant to G.S. 163-278.99(b) plus any funds remaining from the qualifying period and possible matching funds.

(4) In addition to the amounts above, a candidate may accept in-kind contributions from political party executive committees, up to an aggregate value of thirty thousand dollars ($30,000) for the election cycle.

(4a) During the qualifying period, the candidate may contribute up to one thousand dollars ($1,000) of that candidate's own money to the campaign. Debt incurred by the candidate for a campaign expenditure shall count toward that limit. The candidate may accept in contributions one thousand dollars ($1,000) from each member of that candidate's family consisting of spouse, parent, child, brother, and sister.

(5) A candidate and the candidate's committee shall limit the use of all revenues permitted by this subsection to expenditures for

campaign-related purposes only. The Board shall publish guidelines outlining permissible campaign-related expenditures.

(6) Except as provided in subdivision (1) of this subsection, any contribution received by a participating or certified candidate that falls outside that permitted by this subsection shall be returned to the donor as soon as practicable. Contributions intentionally made, solicited, or accepted in violation of this Article are subject to civil penalties as specified in G.S. 163-278.99D. The funds involved shall be forfeited to the Civil Penalty and Forfeiture Fund.

(7) A candidate shall return to the Fund any amount distributed for an election that is unspent and uncommitted at the date of the election or at the time the individual ceases to be a certified candidate, whichever occurs first. For accounting purposes, all qualifying, personal, and family contributions shall be considered spent before revenue from the Fund is spent or committed.

(f) Revocation. – A candidate may revoke, in writing to the Board, a decision to participate in the Fund at any time. After a revocation, that candidate may accept and expend outside the limits of this Article without violating this Article. Within 10 days after revocation, a candidate shall return to the Board all money received from the Fund.

"**§ 163-278.99. Distribution from the Fund.**

(a) Timing of Fund Distribution. – The Board shall distribute to a certified candidate revenue from the Fund in an amount determined under subdivision (b)(4) of this section as follows:

(1) One-third of the amount within five business days after the certified candidate's name is approved to appear on the ballot in a contested general election, but no earlier than five business days after the primary.

(2) The remainder of the amount on August 1 before the general election.

(b) Amount of Fund Distribution. – By August 1, 2011, and no less frequently than every four years thereafter, the Board shall determine the amount of funds, rounded to the nearest one hundred dollars ($100.00), to be distributed to certified candidates as follows:

(1) Uncontested primaries. – No funds shall be distributed.

(2) Contested primaries. – No funds shall be distributed except as provided in G.S. 163-278.99B.

(3) Uncontested general elections. – No funds shall be distributed.

(4) Contested general elections. – The amount of funds to be distributed to a candidate is the average amount of campaign-related expenditures made by all candidates who won the immediately preceding three general elections for that office, but not less than three hundred thousand dollars ($300,000). For purposes of this subsection, "campaign-related expenditures" does not include loan repayments and contributions to a candidate, political committee, or political party.

(c) Method of Fund Distribution. – The Board, in consultation with the State Treasurer and the State Controller, shall develop a rapid, reliable method of conveying funds to certified candidates. In all cases, the Board shall distribute funds to certified candidates in a manner that is expeditious, ensures accountability, and safeguards the integrity of the Fund. If the money in the Fund is insufficient to fully fund all certified candidates, then the available money shall be distributed proportionally, according to

each candidate's eligible funding, and the candidate may raise additional money in the same manner as a nonparticipating candidate for the same office up to the unfunded amount of the candidate's eligible funding.

"**§ 163-278.99A. Reporting requirements.**

(a) Reporting by Noncertified Candidates and Other Entities. – Any nonparticipating candidate with a certified opponent shall report total income, expenses, and obligations to the Board by facsimile machine or electronically within 24 hours after the total amount of campaign-related expenditures or obligations made, or funds raised or borrowed, exceeds eighty percent (80%) of the trigger for matching funds as defined in G.S. 163-278.96(17). Any entity making independent expenditures in support of or in opposition to a certified candidate, or in support of a candidate opposing a certified candidate, or paying for electioneering communications referring to one of those candidates, shall report the total funds received, spent, or obligated for those expenditures or payments to the Board by facsimile machine or electronically within 24 hours after the total amount of expenditures or obligations made, or funds raised or borrowed, for the purpose of making the independent expenditures or electioneering communications exceeds five thousand dollars ($5,000). After this 24-hour filing, the nonparticipating candidate or other reporting entity shall comply with an expedited reporting schedule by filing additional reports after receiving an additional amount in excess of one thousand dollars ($1,000) or after making or obligating to make an additional expenditure or payment in excess of one thousand dollars ($1,000). The schedule and forms for reports required by this subsection shall be made according to procedures developed by the Board.

(b) Reporting by Participating and Certified Candidates. – Notwithstanding other provisions of law, participating and certified candidates shall report any money received and all campaign expenditures, obligations, and related activities to the Board according to procedures developed by the Board. Upon the filing of a final report for any losing primary election, special election, or general election, each candidate who has revenues from the Fund remaining unspent shall return those revenues to the Board. In developing these procedures, the Board shall utilize existing campaign reporting procedures wherever practicable.

(c) Timely Access to Reports. – The Board shall ensure prompt public access to the reports received in accordance with this Article. The Board may utilize electronic means of reporting and storing information.

"**§ 163-278.99B. Matching funds.**

(a) When Matching Funds Become Available. – When any report or group of reports shows that 'funds in opposition to a certified candidate or in support of an opponent to that candidate' as described in this section exceed the trigger for matching funds as defined in G.S. 163-278.96(17), the Board shall issue immediately to that certified candidate an additional amount equal to the reported excess within the limits set forth in this section. 'Funds in opposition to a certified candidate or in support of an opponent to that candidate' shall be equal to the sum of subdivisions (1) and (2) as follows:

(1) The greater of the following:

a. Campaign expenditures or obligations made, or funds raised or borrowed, whichever is greater, reported by any one nonparticipating opponent of a certified candidate. Where a certified candidate has more than one nonparticipating

opponent, the measure shall be taken from the nonparticipating candidate showing the highest relevant dollar amount.

b. The funds distributed in accordance with G.S. 163-278.99(b) to a certified opponent of the certified candidate.

(2) The aggregate total of all expenditures and payments reported in accordance with G.S. 163-278.99A(a) of entities making independent expenditures or electioneering communications in opposition to the certified candidate or in support of any opponent of that certified candidate.

(b) Limit on Matching Funds in Contested Primary. – Total matching funds to a certified candidate in a contested primary shall be limited to an amount equal to the maximum qualifying contributions for a candidate with a contested primary.

(c) Limit on Matching Funds in Contested General Election. – Total matching funds to a certified candidate in a contested general election shall be limited to an amount equal to two times the amount described in G.S. 163-278.99(b)(2).

(d) Determinations by Board. – In the case of electioneering communications, the Board shall determine which candidate, if any, is entitled to receive matching funds as a result of the communication. The Board shall issue matching funds based on the communication only if it ascertains that the communication is susceptible of no reasonable interpretation other than as an appeal to vote for or against a specific candidate. In making its determination, the Board shall not consider evidence external to the communication itself of the intent of the sponsor or the effect of the communication. The Board shall notify each candidate it determines is entitled to receive matching funds based on those communications, the sponsor of those communications, and any candidate who is an opponent of the candidate it determines is entitled to the matching funds. The Board shall give the sponsor of the communication and any opposing candidate an adequate opportunity to rebut the determination of the Board. In considering the rebuttal, all candidates in the race and the sponsor shall be given adequate and equal opportunity to be heard. The Board shall adopt procedures for implementing this subsection, balancing in those procedures adequacy of opportunity to rebut and adequacy and equality of opportunity to be heard on the rebuttal with the need to expedite the decision on awarding matching funds. The Board shall distribute the matching funds, if any, at the conclusion of its process.

"**§ 163-278.99C. Unaffiliated and new-party candidates.**

Unaffiliated candidates certified pursuant to G.S. 163-122 and new-party candidates certified pursuant to G.S. 163-98 shall be eligible for revenues from the Fund in the same amounts and at the same time as specified in G.S. 163-278.99. For unaffiliated candidates and new-party candidates not certified to appear on the ballot by noon on the deadline set in G.S. 163-106(c) for candidate filing in the election year, the deadline for seeking certification to receive revenue from the Fund is noon on the first business day of July of the election year.

"**§ 163-278.99D. Enforcement by the Board; civil penalty.**

In addition to any other penalties that may be applicable, any individual, political committee, or other entity that violates any provision of this Article is subject to a civil penalty of up to ten thousand dollars ($10,000) per violation or three times the amount of any financial transactions involved in the violation, whichever is greater. In addition to any fine, for good cause shown, a candidate found in violation of this Article may be required to return to the Fund all amounts distributed to the candidate from the Fund. If the Board makes a determination that a violation of this Article has occurred, the Board

shall calculate and assess the amount of the civil penalty and shall notify the entity that is assessed the civil penalty of the amount that has been assessed. The Board shall then proceed in the manner prescribed in G.S. 163-278.34. In determining whether or not a candidate is in violation of this Article, the Board may consider as a mitigating factor any circumstances out of the candidate's control.

"**§ 163-278.99E. Voter education.**

(a) Voter Guide. – The Board shall publish a Voter Guide that explains the functions of office as defined in G.S. 163-278.96(12) and the laws concerning the election of the Council of State, the purpose and function of the Fund, and the laws concerning voter registration. The Board shall distribute the Guide to as many voting-age individuals in the State as practical, through a mailing to all residences or other means it deems effective. The State Board of Elections shall maintain a list of the addresses from which mailed Voter Guides are returned as undeliverable. That list shall be available for public inspection. The distribution shall occur no more than 14 days nor fewer than seven days before the one-stop voting period provided in G.S. 163-227.2 for the primary and no more than 14 days nor fewer than seven days before the one-stop voting period provided in G.S. 163-227.2 for the general election.

(b) Candidate Information. – The Voter Guide shall include information concerning all candidates for office as defined in G.S. 163-278.96(12), as provided by those candidates according to a format provided to the candidates by the Board. The Board shall request information for the Guide from each candidate according to the following format:

(1) Place of residence.
(2) Education.
(3) Occupation.
(4) Employer.
(5) Previous elective offices held.
(6) Endorsements, limited to 50 words. Concerning endorsements, the Board shall send to the candidates instructions as follows: "In order to have an endorsement published, you must provide written confirmation to the Board from the endorsing person or organization that you received that person's or organization's endorsement."
(7) Candidate statement, limited to 150 words. Concerning that statement, the Board shall send to the candidates instructions as follows: "Your statement may include information such as your qualifications, your endorsements, why you would make a good elected official, what distinguishes you from your opponent(s), and any other information relevant to your candidacy. The State Board of Elections will reject any portion of any statement which it determines contains obscene, profane, or defamatory language. The candidate shall have three days to resubmit the candidate statement if the Board rejects a portion of the statement."

(c) Disclaimer. – The Voter Guide shall contain the following statement: "Statements by candidates do not express or reflect the opinions of the State Board of Elections."

(d) Relationship to the Judicial Voter Guide. – The Board may publish the Voter Guide in conjunction with the Judicial Voter Guide described in G.S. 163-278.69."

SECTION 2. G.S. 163-278.13(e) reads as rewritten:

"(e) Except as provided in subsections ~~(e2) and (e3)~~ (e2), (e3), and (e4) of this section, this section shall not apply to any national, State, district or county executive committee of any political party. For the purposes of this section only, the term "political party" means only those political parties officially recognized under G.S. 163-96."

SECTION 3. G.S. 163-278.13 is amended by adding a new subsection to read:

"(e4) In order to make meaningful the provisions of the North Carolina Voter-Owned Elections Act, as set forth in Article 22J of this Chapter, no candidate for an office subject to that Article shall accept, and no contributor shall make to that candidate, a contribution during the period beginning 21 days before the day of the general election and ending the day after the general election if that contribution causes the candidate to exceed the 'trigger for matching funds' defined in G.S. 163-278.96(17). As used in this subsection, the term 'candidate' also includes 'candidate campaign committee' as defined in G.S. 163-278.38Z(3). Nothing in this subsection shall prohibit a candidate from making a contribution or loan secured entirely by that candidate's assets to that candidate's own campaign or to a political committee, the principal purpose of which is to support that candidate's campaign. This subsection applies with respect to a candidate only if both of the following statements are true regarding that candidate:

(1) That candidate is opposed in the general election by a certified candidate as defined in Article 22J of this Chapter.

(2) That certified candidate has not received the maximum matching funds available under G.S. 163-278.99B(c).

The recipient of a contribution that apparently violates this subsection has three days to return the contribution or file a detailed statement with the State Board of Elections explaining why the contribution does not violate this subsection."

SECTION 4. The provisions of this act are severable. If any provision of this act is held invalid by a court of competent jurisdiction, the invalidity does not affect other provisions of the act that can be given effect without the invalid provision.

SECTION 5. There is appropriated from the General Fund to the State Board of Elections the sum of one million dollars ($1,000,000) for the 2007-2008 fiscal year and the sum of three million five hundred eighty thousand dollars ($3,580,000) for the 2008-2009 fiscal year for the implementation of this act.

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 90 of the General Statutes is amended by adding a new Article to read:

"Article 1H.

"Voluntary Arbitration of Negligent Health Care Claims.

"**§ 90-21.60. Voluntary arbitration; prior agreements to arbitration void.**

(a) Application of Article. – This Article applies to all claims for damages for personal injury or wrongful death based on alleged negligence in the provision of health care by a health care provider as defined in G.S. 90-21.11 where all parties have agreed to submit the dispute to arbitration under this Article in accordance with the requirements of G.S. 90-21.61.

(b) When Agreement Is Void. – Except as provided in G.S. 90-21.61(a), any contract provision or other agreement entered into prior to the commencement of an action that purports to require a party to elect arbitration under this Article is void and unenforceable. This Article does not impair the enforceability of any arbitration provision that does not specifically require arbitration under this Article.

"**§ 90-21.61. Requirements for submitting to arbitration.**

(a) Before Action Is Filed. – Before an action is filed, a person who claims damages for personal injury or wrongful death based on alleged negligence in the provision of health care by a health care provider as defined in G.S. 90-21.11 and the allegedly negligent health care provider may jointly submit their dispute to arbitration under this Article by, acting through their attorneys, filing a stipulation to arbitrate with the clerk of superior court in the county where the negligence allegedly occurred. The filing of such a stipulation provides jurisdiction to the superior court to enforce the provisions of this Article and tolls the statute of limitations.

(b) Once Action Is Filed. – The parties to an action for damages for personal injury or wrongful death based on alleged negligence in the provision of health care by a health care provider as defined in G.S. 90-21.11 may elect at any time during the pendency of the action to file a stipulation with the court in which all parties to the action agree to submit the dispute to arbitration under this Article.

(c) Declaration Not to Arbitrate. – In the event that the parties do not unanimously agree to submit a dispute to arbitration under subsection (b) of this section, the parties shall file a declaration with the court prior to the discovery scheduling conference required by G.S. 1A-1, Rule 26(f1).

The declaration shall state that the attorney representing the party has presented the party with a copy of the provisions of this Article, that the attorneys representing the parties have discussed the provisions of this Article with the parties and with each other, and that the parties do not unanimously agree to submit the dispute to arbitration under this Article. The declaration is without prejudice to the parties' subsequent agreement to submit the dispute to arbitration.

"**§ 90-21.62. Selection of arbitrator.**

(a) Selection by Agreement. – An arbitrator shall be selected by agreement of all the parties no later than 45 days after the date of the filing of the stipulation where the parties agreed to submit the dispute to arbitration under this Article. The parties may agree to select more than one arbitrator to conduct the arbitration. The parties may agree in writing to the selection of a particular arbitrator or particular arbitrators as a precondition for a stipulation to arbitrate.

(b) Selection From List. – If all the parties are unable to agree to an arbitrator by the time specified in subsection (a) of this section, the arbitrator shall be selected from emergency superior court judges who agree to be on a list maintained by the Administrative Office of the Courts. Each party shall alternately strike one name on the list, and the last remaining name on the list shall be the arbitrator. The emergency superior court judge serving as an arbitrator would be compensated at the same rate as an emergency judge serving in superior court.

"**§ 90-21.63. Witnesses; discovery; depositions; subpoenas.**

(a) General Conduct of Arbitration; Experts. – The arbitrator may conduct the arbitration in such manner as the arbitrator considers appropriate so as to aid in the fair and expeditious disposition of the proceeding subject to the requirements of this section and G.S. 90-21.64. Except as provided in subsection (b) of this section, each side shall be entitled to two experts on the issue of liability, two experts on the issue of damages, and one rebuttal expert.

(b) Experts in Case of Multiple Parties. – Where there are multiple parties on one side, the arbitrator shall determine the number of experts that are allowed based on the minimum number of experts necessary to ensure a fair and economic resolution of the action.

(c) Discovery. – Notwithstanding G.S. 90-21.64(a)(1), unless the arbitrator determines that exceptional circumstances require additional discovery, each party shall be entitled to all of the following discovery from any other party:

(1) Twenty-five interrogatories, including subparts.

(2) Ten requests for admission.

(2) Depositions of other witnesses. – Unless the arbitrator determines that exceptional circumstances require additional depositions, the total number of depositions of persons under this subdivision shall be limited to five depositions per side, each of which shall last no longer than two hours and for which each side shall be entitled to examine for one hour.

(e) Subpoenas. – An arbitrator may issue a subpoena for the attendance of a witness and for the production of records and other evidence at any hearing and may administer oaths. A subpoena shall be served in the manner for service of subpoenas in a civil action and, upon the motion to the court by a party to the arbitration proceeding

or by the arbitrator, enforced in the manner for enforcement of subpoenas in a civil action.

"**§ 90-21.64. Time limitations for arbitration.**

(a) Time Frames. – The time frames provided in this section shall run from the date of the filing of the stipulation where the parties agreed to submit the dispute to arbitration under the Article. Any arbitration under this Article shall be conducted according to the time frames as follows:

(5) Within 240 days, all discovery shall be completed.

(6) Within 270 days, the arbitration hearing shall commence.

(b) Scheduling Order. – The arbitrator shall issue a case scheduling order in every proceeding specifying the dates by which the requirements of subdivisions (2) through (6) of subsection (a) of this section shall be completed. The scheduling order also shall specify a deadline for the service of dispositive motions and briefs.

(c) Public Policy as to When Hearings Begin. – It is the express public policy of the General Assembly that arbitration hearings under this Article be commenced no later than 10 months after the parties file the stipulation where the parties agreed to submit the dispute to arbitration under this Article. The arbitrator may grant a continuance of the commencement of the arbitration hearing only where a party shows that exceptional circumstances create an undue and unavoidable hardship on the party or where all parties consent to the continuance.

"**§ 90-21.65. Written decision by arbitration.**

(a) Issuing the Decision. – The arbitrator shall issue a decision in writing and signed by the arbitrator within 14 days after the completion of the arbitration hearing and shall promptly deliver a copy of the decision to each party or the party's attorneys.

(b) Limit on Damages. – The arbitrator shall not make an award of damages that exceeds a total of one million dollars ($1,000,000) for any dispute submitted to arbitration under this Article, regardless of the number of claimants or defendants that are parties to the dispute.

(c) Finding if Damages Awarded. – If the arbitrator makes an award of damages to the claimant, the arbitrator shall make a finding as to whether the injury or death was caused by the negligence of the defendant.

(d) Paying the Arbitrator. – The fees and expenses of the arbitrator shall be paid equally by the parties.

(e) Attorneys' Fees and Costs. – Each party shall bear its own attorneys' fees and costs.

"**§ 90-21.66. Judgment by court.**

After a party to the arbitration proceeding receives notice of a decision, the party may file a motion with the court for a judgment in accordance with the decision at which time the court shall issue such a judgment unless the decision is modified, corrected, or vacated as provided in G.S. 90-21.68.

"**§ 90-21.67. Retention of jurisdiction by court.**

The court shall retain jurisdiction over the action during the pendency of the arbitration proceeding. The court may, at the request of the arbitrator, enter orders necessary to enforce the provisions of this Article.

"**§ 90-21.68. Appeal of arbitrator's decision.**

There is no right to a trial de novo on an appeal of the arbitrator's decision under this Article. An appeal of the arbitrator's decision is limited to the bases for appeal provided under G.S. 1-569.23 or G.S. 1-569.24.

Session Law 2007-542 **House Bill 1702**

AN ACT TO CONSERVE ENERGY AND TO REQUIRE A STUDY OF THE DEGREE OF INSULATION FOR HOT WATERLINES THAT SHOULD BE REQUIRED.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 143-138(b) reads as rewritten:

"(b) Contents of the Code. – The North Carolina State Building Code, as adopted by the Building Code Council, may include reasonable and suitable classifications of buildings and structures, both as to use and occupancy; general building restrictions as to location, height, and floor areas; rules for the lighting and ventilation of buildings and structures; requirements concerning means of egress from buildings and structures; requirements concerning means of ingress in buildings and structures; rules governing construction and precautions to be taken during construction; rules as to permissible materials, loads, and stresses; rules governing chimneys, heating appliances, elevators, and other facilities connected with the buildings and structures; rules governing plumbing, heating, air conditioning for the purpose of comfort cooling by the lowering

of temperature, and electrical systems; and such other reasonable rules pertaining to the construction of buildings and structures and the installation of particular facilities therein as may be found reasonably necessary for the protection of the occupants of the building or structure, its neighbors, and members of the public at large.

In addition, the Code may regulate activities and conditions in buildings, structures, and premises that pose dangers of fire, explosion, or related hazards. Such fire prevention code provisions shall be considered the minimum standards necessary to preserve and protect public health and safety, subject to approval by the Council of more stringent provisions proposed by a municipality or county as provided in G.S. 143-138(e). These provisions may include regulations requiring the installation of either battery-operated or electrical smoke detectors in every dwelling unit used as rental property, regardless of the date of construction of the rental property. For dwelling units used as rental property constructed prior to 1975, smoke detectors shall have an Underwriters' Laboratories, Inc., listing or other equivalent national testing laboratory approval, and shall be installed in accordance with either the standard of the National Fire Protection Association or the minimum protection designated in the manufacturer's instructions, which the property owner shall retain or provide as proof of compliance.

The Code may contain provisions regulating every type of building or structure, wherever it might be situated in the State.

Provided further, that nothing in this Article shall be construed to make any building rules applicable to farm buildings located outside the building-rules jurisdiction of any municipality.

Provided further, that no building permit shall be required under the Code or any local variance thereof approved under subsection (e) for any construction, installation, repair, replacement, or alteration costing five thousand dollars ($5,000) or less in any single family residence or farm building unless the work involves: the addition, repair, or replacement of load bearing structures; the addition (excluding replacement of same size and capacity) or change in the design of plumbing; the addition, replacement or change in the design of heating, air conditioning, or electrical wiring, devices, appliances, or equipment, the use of materials not permitted by the North Carolina Uniform Residential Building Code; or the addition (excluding replacement of like grade of fire resistance) of roofing.

Provided further, that no building permit shall be required under such Code from any State agency for the construction of any building or structure, the total cost of which is less than twenty thousand dollars ($20,000), except public or institutional buildings.

For the information of users thereof, the Code shall include as appendices the following:

(1) Any rules governing boilers adopted by the Board of Boiler and Pressure Vessels Rules,

(2) Any rules relating to the safe operation of elevators adopted by the Commissioner of Labor, and

(3) Any rules relating to sanitation adopted by the Commission for Health Services which the Building Code Council believes pertinent.

In addition, the Code may include references to such other rules of special types, such as those of the Medical Care Commission and the Department of Public Instruction as may be useful to persons using the Code. No rule issued by any agency other than the Building Code Council shall be construed as a part of the Code, nor supersede that Code, it being intended that they be presented with the Code for information only.

Nothing in this Article shall extend to or be construed as being applicable to the regulation of the design, construction, location, installation, or operation of (1) equipment for storing, handling, transporting, and utilizing liquefied petroleum gases for fuel purposes or anhydrous ammonia or other liquid fertilizers, except for liquefied petroleum gas from the outlet of the first stage pressure regulator to and including each liquefied petroleum gas utilization device within a building or structure covered by the Code, or (2) equipment or facilities, other than buildings, of a public utility, as defined in G.S. 62-3, or an electric or telephone membership corporation, including without limitation poles, towers, and other structures supporting electric or communication lines.

In addition, the Code may contain rules concerning minimum efficiency requirements for replacement water heaters, which shall consider reasonable availability from manufacturers to meet installation space ~~requirements.~~ requirements and may contain rules concerning energy efficiency that require all hot water plumbing pipes that are larger than one-fourth of an inch to be insulated.

No State, county, or local building code or regulation shall prohibit the use of special locking mechanisms for seclusion rooms in the public schools approved under G.S. 115C-391.1(e)(1)e., provided that the special locking mechanism shall be constructed so that it will engage only when a key, knob, handle, button, or other similar device is being held in position by a person, and provided further that, if the mechanism is electrically or electronically controlled, it automatically disengages when the building's fire alarm is activated. Upon release of the locking mechanism by a supervising adult, the door must be able to be opened readily."

SECTION 2. The North Carolina Building Code Council shall study the extent to which hot waterlines should be insulated to achieve greater energy efficiency and shall amend the North Carolina State Building Code as necessary to achieve those ends. The Council shall report its findings and actions to the Environmental Review Commission and the 2008 Regular Session of the General Assembly on or before 1 April 2008.

and goals for sustainable, energy efficient public buildings based upon recognized, consensus standards with scientifically proven basis and demonstrated performance. The General Assembly also intends that State agencies, The University of North Carolina, and the North Carolina Community College System shall perform after-construction measurement and verification of costs and savings to confirm that the performance goals of this section are met and ensure that economic and environmental goals are achieved. Also, it is the intent of the General Assembly to establish a priority to use North Carolina-based resources, building materials, products, industries, manufacturers, and businesses to provide economic development to North Carolina and to meet the objectives of this section.

SECTION 1.(b) Definitions. – As used in this section, the following definitions apply:

(1) "ASHRAE" means the American Society of Heating, Refrigerating and Air-Conditioning Engineers, Inc.

(2) "Department" means the Department of Administration.

(3) "Institutions of higher education" means the constituent institutions of The University of North Carolina, the regional institutions as defined in G.S. 115D-2, and the community colleges as defined in G.S. 115D-2.

(4) "Major facility" means a construction project larger than 20,000 gross square feet of occupied or conditioned space, as defined in the North Carolina State Building Code, or a building renovation project when the cost is greater than fifty percent (50%) of the insurance value and the project is larger than 20,000 gross square feet of occupied or conditioned space, as defined in the North Carolina State Building Code, whose construction is funded in whole or in part by the State of North Carolina. "Major facility" does not include the following: transmitter buildings or pumping stations.

(5) "Public agency" means every State office, officer, board, department, and commission and institutions of higher education.

(6) "Sustainable, energy efficient public buildings" means public buildings that, by complying with this section, are the most economical energy and water efficiency for that building type.

SECTION 1.(c) Standard for Major Facilities; Reports by Agencies and the Department. – The Sustainable Energy Efficient Buildings Program is established in the Department. Under this program:

(1) All major facility projects of public agencies shall be designed, constructed, and certified to at least a thirty percent (30%) greater energy efficiency than the standard under ASHRAE 90.1-2004. For major renovations a twenty percent (20%) greater energy efficiency standard than ASHRAE 90.1-2004 shall be used. In addition, for new construction, the water systems shall be designed and constructed to use a minimum of twenty percent (20%) less potable water than the indoor water use baseline calculated for the building after meeting the fixture performance requirements required by the 2006 North Carolina Plumbing Code. Outdoor potable water or harvested groundwater consumption shall be reduced by a minimum of fifty percent (50%) over that consumed by conventional means through water use efficient landscape materials and irrigation strategies, including water reuse and

recycling. This section applies to major facility projects that have not entered the schematic design phase prior to the effective date of this section.

(2) For the purposes of this section, any exceptions or special standards for specific types of buildings or building facilities found in ASHRAE 90.1-2004 are included in the ASHRAE 90.1-2004 standard under subdivision (1) of this subsection.

(3) Commissioning for Major Facilities. – Building and/or system commissioning practices, tailored to the size and complexity of the building and its system components, shall be employed in order to verify performance of building components and systems and help ensure that design requirements are met upon completion of construction.

(4) Measurement and Verification for Major Facilities.

a. Building level owner's meters for electricity, natural gas, fuel oil, and water in accordance with United States Department of Energy (DOE) guidelines issued under Section 103 of the Energy Policy Act of 2005 shall be installed. The public agency and the designers shall compare metered data from the first 12 months of building operation with the energy design target(s) and report that performance to the State Construction Office.

b. If the average building energy or water consumption over the one-year period following the date of beneficial occupancy is eighty-five percent (85%) or less than the performance goals established by these standards, the designer, owner agency, contractor, Contract Manager at Risk, and commissioning agent shall investigate, determine the cause of the shortfall, and recommend corrections or modifications to meet performance goals.

(5) The Department shall consolidate the reports required in this subsection and any report from the State Building Commission under G.S. 143-135.39 into one report and report to the Chairs of the General Government Appropriations Subcommittees of both the Senate and the House of Representatives, the Environmental Review Commission, and the Joint Legislative Commission on Governmental Operations by November 1 of each year beginning in 2008. In its report, the Department shall also report on the implementation of this section including reasons why the standards required in subdivision (1) of this subsection were not used for the reason that it would not be practicable in accordance with G.S. 143-135.39. The Department shall make recommendations regarding the ongoing implementation of this section, including a discussion of incentives and disincentives related to implementing this section.

SECTION 1.(d) Guidelines for Administering the Sustainable Energy Efficient Buildings Program. –

(1) The Department, in consultation with affected public agencies, shall develop and issue policies and technical guidelines to implement this section for public agencies. The purpose of these policies and guidelines is to define procedures and methods for complying with the

criteria and performance goals for major facility projects defined by G.S. 143-135.37.

(2) As provided in the request for proposals for construction services, the public agency may hold a preproposal conference for prospective bidders to discuss compliance with, and achievement of, standards identified in this section for prospective respondents.

(3) The Department shall create a sustainable, energy efficient buildings advisory committee comprised of representatives from the design and construction industry involved in public works contracting, personnel from the affected public agencies responsible for overseeing public works projects, and others at the Department's discretion to provide advice on implementing this section. Among other duties, the advisory committee shall make recommendations regarding an education and training process for stakeholders and an ongoing evaluation or feedback process to help the Department implement this section. The advisory committee may also make recommendations to the Department regarding water efficiency requirements and energy efficiency requirements.

(4) The Department shall review the advisory committee's recommendations under subdivision (3) of this subsection regarding education and training. The Department shall develop one level of education and training requirements for the chief financial officer of each public agency that is appropriate for the chief financial officer's level of involvement in projects under this section. The Department shall develop, for each public agency that is responsible for the payment of the agency's utilities, another higher level of education and training requirements for the facility manager of the agency that is appropriate for the facility manager's level of involvement in projects under this section. This level of education and training shall also be a requirement for the capital project coordinator of an agency involved in a project under this section. The Department shall develop a highest level of education and training requirements for the architects and mechanical design engineers that are involved in the design of projects under this section that is appropriate for their level of involvement in these projects.

(5) The Department may adopt rules to implement this section. The Department may adopt architectural or engineering standards as needed to implement this section.

SECTION 1.(e) Use of Other Standard when ASHRAE Standard Not Practicable. – When the Department, public agency, and the design team determine the ASHRAE 90.1-2004 standard to be not practicable for a major facility project, then it must be determined by the State Building Commission if the standard is not practicable for that major facility project. If the State Building Commission determines the standard is not practicable for that major facility project, the State Building Commission shall determine which standard is practicable for the design and construction for that major facility project. If the ASHRAE 90.1-2004 standard is not followed for that project, the public agency shall report this information and the reasons to the Department in its report under G.S. 143-135.37, and the State Building Commission shall report this information and the reasons to the Department.

SECTION 1.(f) Monitor Development of Construction and Energy Efficiency Standards. – The Department shall monitor the development of construction or other energy efficiency standards to determine whether there is a standard that the Department determines would better fulfill the intent of the Sustainable Energy Efficient Buildings Program to achieve energy efficiency and increased energy savings in major facility projects in buildings of the State, The University of North Carolina, and the North Carolina Community College System than the ASHRAE 90.1-2004 standard and, if so, whether this section should be amended to provide for the use of this standard rather than the ASHRAE 90.1-2004 standard. Specifically, the Department shall monitor the development of improved energy efficiency standards developed by the American Society of Heating, Refrigerating and Air-Conditioning Engineers, the ASHRAE standards, and monitor whether the State Building Code Council adopts improved ASHRAE standards or any other energy efficiency standards for inclusion in the State Building Code that result in greater energy efficiency and increased energy savings in major facility projects in State, university system, and community college buildings. No later than January 1, 2009, and again January 1, 2010, the Department shall report to the Chairs of the General Government Appropriations Subcommittees of both the Senate and the House of Representatives, the Environmental Review Commission, and the Joint Legislative Commission on Governmental Operations on the results of its monitoring under this subsection, including any recommendations for administrative or legislative proposals.

SECTION 1.(g) Performance Review. – The Department shall conduct a performance review of the Sustainable Energy Efficient Buildings Program. The performance review shall include at least all of the following:

(1) Identification of the costs of implementing energy and water efficient building standards in the design and construction of major facility projects subject to this act.

(2) Identification of operating savings attributable to the implementation of energy and water efficient building standards, including, but not limited to, savings in energy, water, utility, and maintenance costs.

(3) Identification of any impacts on employee productivity from using energy and water efficient building standards.

(4) Evaluation of the effectiveness of the energy and water efficient building standards established by this act.

(5) Any recommendations for any changes in those standards that may be supported by the Department's findings.

SECTION 1.(h) Report on Performance Review. – No later than December 1, 2010, the Department shall make a preliminary report of its findings under its performance review under subsection (g) of this section and its recommendations and, on or before December 1, 2011, a final report to the Chairs of the General Government Appropriations Subcommittees of both the Senate and the House of Representatives, the Environmental Review Commission, and the Joint Legislative Commission on Governmental Operations.

SECTION 1.(i) Purchase of Buildings Constructed or Renovated to Certain Energy and Water Efficiency Standards. –

(1) A State agency shall not acquire by purchase any building unless the building was designed and constructed to at least the same standard for energy and water efficiency that the design and construction of a comparable building was required to meet under applicable State law

or local ordinance at the time the building under consideration for purchase was constructed.

(2) A State agency shall not acquire by purchase any building that had a major renovation unless the renovation was performed to at least the same standard for energy and water efficiency that the design and construction of a major renovation of a comparable building was required to meet under applicable State law or local ordinance at the time the building under consideration for purchase was renovated.

(3) This subsection does not apply to the purchase of a building having historic, architectural, or cultural significance under G.S. 143-23.1. This subsection does not apply to buildings that are acquired by devise or bequest.

SECTION 2.1.(a) The Department of Administration shall administer and oversee the implementation of a program whereby all of the following energy conservation measures, as defined in G.S. 143-64.17, shall be fully implemented no later than December 31, 2009, in each building owned by the State, The University of North Carolina, or the North Carolina Community College System:

The development or revision of the architectural and engineering standards shall be completed by February 1, 2008.

SECTION 2.1.(c) Prior to implementing this section and no later than February 1, 2008, the Department of Administration shall report to the Joint Legislative Commission on Governmental Operations and the Environmental Review Commission on its plan to implement this section.

SECTION 2.1.(d) In order to protect the integrity of historic buildings, this section does not apply to the extent it would require the implementation of measures to conserve energy, water, or other utility use that conflict with respect to any property eligible for, nominated to, or entered on the National Register of Historic Places, pursuant to the National Historic Preservation Act of 1966, P.L. 89-665; any historic building located within an historic district as provided in Chapter 160A or 153A of the General Statutes; any historic building listed, owned, or under the jurisdiction of an historic properties commission as provided in Chapter 160A or 153A; or any historic property owned by the State or assisted by the State.

If the Department of Labor of North Carolina determines that housing provided to migrants under this Article is uninhabitable, but is not reasonably expected to cause death or serious physical harm, the migrants shall be allowed to remain in the housing for a reasonable period, not to exceed 14 days, while the operator locates alternative housing or makes necessary repairs to make the housing habitable. No additional civil penalties arising from the condition of the housing shall be levied against the operator during the 14-day period after the housing has been determined to be uninhabitable in which the migrants are allowed to remain in the housing. The alternative housing shall be provided at the same rate or less than the rate paid by the migrants for the uninhabitable housing. If the Director determines, after recommendation by an inspector, that housing provided to migrants could reasonably be expected to cause death or serious physical harm immediately or before the imminence of such danger can be eliminated, the migrants shall not be allowed to stay in the housing, and alternative housing shall be provided by the operator at the same rate or less than the rate paid by the migrants for the uninhabitable housing."

AN ACT TO PROMOTE INNOVATIVE STORMWATER MANAGEMENT AND WATER QUALITY PROTECTION EFFORTS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 113A-251 reads as rewritten:

"§ **113A-251. Purpose.**

The General Assembly recognizes that a critical need exists in this State to clean up pollution in the State's surface waters and to protect and conserve those waters that are not yet polluted. The task of cleaning up polluted waters and protecting the State's water resources is multifaceted and requires different ~~approaches~~ approaches, including innovative pilot projects, that take into account the problems, the type of pollution, the geographical area, and the recognition that the hydrological and ecological values of each resource sought to be upgraded, conserved, and protected are unique.

It is the intent of the General Assembly that moneys from the Fund created under this Article shall be used to help finance projects that specifically address water pollution problems and focus on upgrading surface waters, eliminating pollution, and protecting and conserving unpolluted surface waters, including urban drinking water supplies. It is the further intent of the General Assembly that moneys from the Fund also be used to build a network of riparian buffers and greenways for environmental, educational, and recreational benefits. While the purpose of this Article is to focus on the cleanup and prevention of pollution of the State's surface waters and the establishment of a network of riparian buffers and greenways, the General Assembly believes that the results of these efforts will also be beneficial to wildlife and marine fisheries habitats."

SECTION 2. G.S. 113A-253(c) is amended by adding a new subdivision to read:

"(8a) To finance innovative efforts, including pilot projects, to improve stormwater management, to reduce pollutants entering the State's waterways, to improve water quality, and to research alternative solutions to the State's water quality problems."

SECTION 3. This act is effective when it becomes law.

In the General Assembly read three times and ratified this the 23rd day of July, 2007.

Became law upon approval of the Governor at 10:26 p.m. on the 31st day of August, 2007.

Whereas, North Carolina has experienced severe problems from widespread flooding during the past five years; and

Whereas, large areas of the State have also experienced severe drought conditions during the past five years; and

Whereas, groundwater is the source of drinking water for approximately half the population of the State; and

Whereas, groundwater pollution is increasing due to contamination from a variety of sources; and

Whereas, depletion of certain large groundwater aquifers in the State has been documented in recent years; and

Whereas, protection and enhancement of water quality in the State's rivers and coastal estuaries is the declared public policy of the State; and

Whereas, North Carolina is home to many rare and endangered species of plants and animals; and

Whereas, the State has established many parks, natural areas, and wildlife refuges to protect habitats for migrating birds and other species; and

Whereas, many fragile ecosystems exist in the State which are in need of further study and protection; and

Whereas, the State recognizes that ecosystems transcend state borders, and that changes affecting the State's water, air, natural habitats, and scenic resources also have impacts outside the State; and

Whereas, it is the policy of the State to ensure the continued public enjoyment of the natural attractions of the State; and

Whereas, improperly sited, designed, or operated landfills have the potential to cause serious environmental damage, including groundwater contamination; and

Whereas, it is essential that the State study the siting, design, and operational requirements for landfills for the disposal of solid waste in areas susceptible to flooding from natural disasters, areas with high water tables, and other environmentally sensitive areas in order to protect public health and the environment; and

Whereas, it is critical to the protection of public health and the environment to adequately staff the State solid waste program to review permit applications, ensure compliance with State solid waste management laws and rules, and provide technical assistance on solid waste management issues; and

Whereas, it is the policy of the State to promote methods of solid waste management that are alternatives to disposal in landfills; and

Whereas, S.L. 2006-244 directed the Environmental Review Commission, with the assistance of the Division of Waste Management of the Department of Environment, to study issues related to solid waste; and

Whereas, the Environmental Review Commission met at least six times after the 2006 legislative session to discuss items related to solid waste; and

Whereas, bills have been introduced in the House of Representatives and the Senate during the 2007 Regular Session to address issues related to landfills and management of solid waste that have been the subject of intense discussion by members of the General Assembly and a stakeholder working group;

Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1.(a) G.S. 130A-294, as amended by S.L. 2007-107, reads as rewritten:

"§ **130A-294. Solid waste management program.**

(a) The Department is authorized and directed to engage in research, conduct investigations and surveys, make inspections and establish a statewide solid waste

management program. In establishing a program, the Department shall have authority to:

(1) Develop a comprehensive program for implementation of safe and sanitary practices for management of solid waste;

(2) Advise, consult, cooperate and contract with other State agencies, units of local government, the federal government, industries and individuals in the formulation and carrying out of a solid waste management program;

(3) Develop and adopt rules to establish standards for qualification as a "recycling, reduction or resource recovering facility" or as "recycling, reduction or resource recovering equipment" for the purpose of special tax classifications or treatment, and to certify as qualifying those applicants which meet the established standards. The standards shall be developed to qualify only those facilities and equipment exclusively used in the actual waste recycling, reduction or resource recovering process and shall exclude any incidental or supportive facilities and equipment;

(4) a. Develop a permit system governing the establishment and operation of solid waste management facilities. A landfill with a disposal area of 1/2 acre or less for the on-site disposal of land clearing and inert debris is exempt from the permit requirement of this section and shall be governed by G.S. 130A-301.1. The Department shall not approve an application for a new permit, the renewal of a permit, or a substantial amendment to a permit for a sanitary landfill, excluding demolition landfills as defined in the rules of the Commission, except as provided in subdivisions (3) and (4) of subsection (b1) of this section. No permit shall be granted for a solid waste management facility having discharges that are point sources until the Department has referred the complete plans and specifications to the Environmental Management Commission and has received advice in writing that the plans and specifications are approved in accordance with the provisions of G.S. 143-215.1. If the applicant is a unit of local government, and has not submitted a solid waste management plan that has been approved by the Department pursuant to G.S. 130A-309.09A(b), the Department may deny a permit for a sanitary landfill or a facility that disposes of solid waste by incineration, unless the Commission has not adopted rules pursuant to G.S. 130A-309.29 for local solid waste management plans. In any case where the Department denies a permit for a solid waste management facility, it shall state in writing the reason for denial and shall also state its estimate of the changes in the applicant's proposed activities or plans that will be required for the applicant to obtain a permit.

~~b. The issuance of permits for sanitary landfills operated by local governments is exempt from the environmental impact statements required by Article 1 of Chapter 113A of the General Statutes, entitled the North Carolina Environmental Policy Act of 1971. All sanitary landfill permits issued to local governments prior to July 1, 1984, are hereby validated notwithstanding any failure to provide environmental impact~~

~~statements pursuant to the North Carolina Environmental Policy Act of 1971;~~

c. The Department shall deny an application for a permit for a solid waste management facility if the Department finds that:

1. Construction or operation of the proposed facility would be inconsistent with or violate rules adopted by the Commission.
2. Construction or operation of the proposed facility would result in a violation of water quality standards adopted by the Environmental Management Commission pursuant to G.S. 143-214.1 for waters, as defined in G.S. 143-213.
3. Construction or operation of the facility would result in significant damage to ecological systems, natural resources, cultural sites, recreation areas, or historic sites of more than local significance. These areas include, but are not limited to, national or State parks or forests; wilderness areas; historic sites; recreation areas; segments of the natural and scenic rivers system; wildlife refuges, preserves, and management areas; areas that provide habitat for threatened or endangered species; primary nursery areas and critical fisheries habitat designated by the Marine Fisheries Commission; and Outstanding Resource Waters designated by the Environmental Management Commission.
4. Construction or operation of the proposed facility would substantially limit or threaten access to or use of public trust waters or public lands.
5. The proposed facility would be located in a natural hazard area, including a floodplain, a landslide hazard area, or an area subject to storm surge or excessive seismic activity, such that the facility will present a risk to public health or safety.
6. There is a practical alternative that would accomplish the purposes of the proposed facility with less adverse impact on public resources, considering engineering requirements and economic costs.
7. The cumulative impacts of the proposed facility and other facilities in the area of the proposed facility would violate the criteria set forth in sub-sub-subdivisions 2. through 5. of this sub-subdivision.
8. Construction or operation of the proposed facility would be inconsistent with the State solid waste management policy and goals as set out in G.S. 130A-309.04 and with the State solid waste management plan developed as provided in G.S. 130A-309.07.
9. The cumulative impact of the proposed facility, when considered in relation to other similar impacts of facilities located or proposed in the community, would

have a disproportionate adverse impact on a minority or low-income community protected by Title VI of the federal Civil Rights Act of 1964.

~~(4a) No permit shall be granted for any public or private sanitary landfill to receive solid non-radioactive waste generated outside the boundaries of North Carolina to be deposited, unless such waste has previously been inspected by the solid waste regulatory agency of that nation, state or territory, characterized in detail as to its contents and certified by that agency to be non-injurious to health and safety. The Commission shall adopt rules to implement this subsection.~~

(5) Repealed by Session Laws 1983, c. 795, s. 3.

(5a) Designate a geographic area within which the collection, transportation, storage and disposal of all solid waste generated within said area shall be accomplished in accordance with a solid waste management plan. Such designation may be made only after the Department has received a request from the unit or units of local government having jurisdiction within said geographic area that such designation be made and after receipt by the Department of a solid waste management plan which shall include:

a. The existing and projected population for such area;
b. The quantities of solid waste generated and estimated to be generated in such area;
c. The availability of sanitary landfill sites and the environmental impact of continued landfill of solid waste on surface and subsurface waters;
d. The method of solid waste disposal to be utilized and the energy or material which shall be recovered from the waste; and
e. Such other data that the Department may reasonably require.

(5b) Authorize units of local government to require by ordinance, that all solid waste generated within the designated geographic area that is placed in the waste stream for disposal be collected, transported, stored and disposed of at a permitted solid waste management facility or facilities serving such area. The provisions of such ordinance shall not be construed to prohibit the source separation of materials from solid waste prior to collection of such solid waste for disposal, or prohibit collectors of solid waste from recycling materials or limit access to such materials as an incident to collection of such solid waste; provided such prohibitions do not authorize the construction and operation of a resource recovery facility unless specifically permitted pursuant to an approved solid waste management plan. If a private solid waste landfill shall be substantially affected by such ordinance then the unit of local government adopting the ordinance shall be required to give the operator of the affected landfill at least two years written notice prior to the effective date of the proposed ordinance.

(5c) Except for the authority to designate a geographic area to be serviced by a solid waste management facility, delegate authority and responsibility to units of local government to perform all or a portion of a solid waste management program within the jurisdictional area of the unit of local government; provided that no authority over or control

of the operations or properties of one local government shall be delegated to any other local government.

(5d) Require that an annual report of the implementation of the solid waste management plan within the designated geographic area be filed with the Department.

(6) ~~The Department is authorized to charge~~ Charge and collect fees from operators of hazardous waste disposal facilities. The fees shall be used to establish a fund sufficient for each individual facility to defray the anticipated costs to the State for monitoring and care of the facility after the termination of the period during which the facility operator is required by applicable State and federal statutes, regulations or rules to remain responsible for post-closure monitoring and care. In establishing the fees, consideration shall be given to the size of the facility, the nature of the hazardous waste and the projected life of the facility.

(7) Establish and collect annual fees from generators and transporters of hazardous waste, and from storage, treatment, and disposal facilities regulated under this Article as provided in G.S. 130A-294.1.

(a1) A permit for a solid waste management facility may be transferred only with the approval of the Department.

(b) The Commission shall adopt and the Department shall enforce rules to implement a comprehensive statewide solid waste management program. The rules shall be consistent with applicable State and federal law; and shall be designed to protect the public health, safety, and welfare; preserve the environment; and provide for the greatest possible conservation of cultural and natural resources. Rules for the establishment, location, operation, maintenance, use, discontinuance, recordation, post-closure care of solid waste management facilities also shall be based upon recognized public health practices and procedures, including applicable epidemiological research and studies; hydrogeological research and studies; sanitary engineering research and studies; and current technological development in equipment and methods. The rules shall not apply to the management of solid waste that is generated by an individual or individual family or household unit on the individual's property and is disposed of on the individual's property.

~~(b0) The Commission shall adopt rules for financial responsibility to ensure the availability of sufficient funds for closure and post-closure maintenance and monitoring at solid waste management facilities, and for any corrective action the Department may require during the active life of a facility or during the closure and post-closure periods. The rules may permit demonstration of financial responsibility through the use of a letter of credit, insurance, surety, trust agreement, financial test, or guarantee by corporate parents or third parties who can pass the financial test. The rules shall require that an owner or operator of a privately owned solid waste management facility demonstrate financial responsibility by a method or combinations of methods that will ensure that sufficient funds for closure, post-closure maintenance and monitoring, and any corrective action that the Department may require will be available during the active life of the facility, at closure, and for a period of not less than 30 years after closure even if the owner or operator becomes insolvent or ceases to reside, be incorporated, do business, or maintain assets in the State.~~

(b1) (1) For purposes of this subsection and subdivision (4) of subsection (a) of this section, a "substantial amendment" means either:

a. An increase of ten percent (10%) or more in:
   1. The population of the geographic area to be served by the sanitary landfill;
   2. The quantity of solid waste to be disposed of in the sanitary landfill; or
   3. The geographic area to be served by the sanitary landfill.

b. A change in the categories of solid waste to be disposed of in the sanitary landfill or any other change to the application for a permit or to the permit for a sanitary landfill that the Commission or the Department determines to be substantial.

(2) A person who intends to apply for a new permit, the renewal of a permit, or a substantial amendment to a permit for a sanitary landfill shall obtain, prior to applying for a permit, a franchise for the operation of the sanitary landfill from each local government having jurisdiction over any part of the land on which the sanitary landfill and its appurtenances are located or to be located. A local government may adopt a franchise ordinance under G.S. 153A-136 or G.S. 160A-319. A franchise granted for a sanitary landfill shall include all of the following:

a. A statement of the population to be served, including a description of the geographic area.

b. A description of the volume and characteristics of the waste stream.

c. A projection of the useful life of the sanitary landfill.

d. An explanation of how the franchise will be consistent with the jurisdiction's solid waste management plan required under G.S. 130A-309.09A, including provisions for waste reduction, reuse, and recycling.

e. The procedures to be followed for governmental oversight and regulation of the fees and rates to be charged by facilities subject to the franchise for waste generated in the jurisdiction of the franchising entity.

f. A facility plan for the sanitary landfill that shall include the ~~exact~~ boundaries of the proposed facility, proposed development of the facility site in five-year operational phases, the boundaries of all waste disposal units, final elevations and capacity of all waste disposal units, the amount of waste to be received per day in tons, the total waste disposal capacity of the sanitary landfill in tons, a description of environmental controls, and a description of any other waste management activities to be conducted at the facility. In addition, the facility plan shall show the proposed location of soil borrow areas, leachate facilities, and all other facilities and infrastructure, including ingress and egress to the facility.

(2a) A local government may elect to award a preliminary franchise. If a local government elects to award a preliminary franchise, the preliminary franchise shall contain, at a minimum, all of the information described in sub-subdivisions a. through e. of subdivision (2) of this subsection plus a general description of the proposed

sanitary landfill, including the approximate number of acres required for the proposed sanitary landfill and its appurtenances and a description of any other solid waste management activities that are to be conducted at the site.

(3) Prior to the award of a franchise for the construction or operation of a sanitary landfill, the board of commissioners of the county or counties in which the sanitary landfill is proposed to be located or is located or, if the sanitary landfill is proposed to be located or is located in a city, the governing board of the city shall conduct a public hearing. The board of commissioners of the county or counties in which the sanitary landfill is proposed to be located or is located or, if the sanitary landfill is proposed to be located or is located in a city, the governing board of the city shall provide at least 30 days' notice to the public of the public hearing. The notice shall include a summary of all the information required to be included in the franchise, and shall specify the procedure to be followed at the public hearing. The applicant for the franchise shall provide a copy of the application for the franchise that includes all of the information required to be included in the franchise, to the public library closest to the proposed sanitary landfill site to be made available for inspection and copying by the public.
