All other appeals from denials of a mediator training program's application for certification renewal shall be held in private, unless the applicant requests a public hearing.

(j) ~~The Commission shall conduct in private its initial review of all matters relating to the ethics or conduct of an applicant for certification, qualification, or renewal of certification or qualification or the ethics or conduct of a mediator, other neutral, trainer, or training program manager. If an applicant appeals the Commission's initial determination that sanctions be imposed, the hearing of such appeal by the Commission~~ Appeals from the Commission's initial determination after review and investigation of a complaint that probable cause exists to believe that the conduct of a mediator, neutral, trainer, or other training program personnel violated a provision set out in subdivision (2) of subsection (h) of this section shall be open to the public, except that for good cause shown, the presiding officer may exclude from the hearing room all persons except the parties, counsel, and those engaged in the hearing. No hearing shall be closed to the public over the objection of ~~an applicant,~~ the mediator, ~~other~~ neutral, trainer, or training program ~~manager.~~personnel that is the subject of the complaint.

(k) Appeals of final determinations by the Commission to deny certification or renewal of certification, to revoke certification, or to discipline a mediator, trainer, or other training program ~~manager~~ personnel shall be filed in the General Court of Justice, Wake County Superior Court Division. Notice of appeal shall be filed within 30 days of the date of the Commission's decision.

(*l*) The Commission may issue a cease and desist letter to any individual who falsely represents himself or herself to the public as certified or as eligible to be certified pursuant to this section, or who uses any words, letters, titles, signs, cards, Web site postings, or advertisements that expressly or implicitly convey such misrepresentation to the public. If the individual continues to make such false representations after receipt of the cease and desist letter, the Commission, through its Chair, may petition the Superior Court of Wake County for an injunction restraining the individual's conduct and for any other relief that the court deems appropriate."

The General Assembly of North Carolina enacts:

SECTION 1. The General Assembly finds the following:

(1) The design, engineering, permitting, construction, modification, maintenance, and operation of wireless facilities are instrumental to the provision of emergency services and to increasing access to advanced technology and information for the citizens of North Carolina.

(2) Cities and counties play a key role in facilitating the use of the public rights-of-way.

(3) Wireless services providers and wireless infrastructure providers must have access to the public rights-of-way and the ability to attach to poles and structures in the public rights-of-way to densify their networks and provide next generation services.

(4) Small wireless facilities, including facilities commonly referred to as small cells and distributed antenna systems, often may be deployed most effectively in the public rights-of-way.

(5) Expeditious processes and reasonable and nondiscriminatory rates, fees, and terms related to such deployments are essential to the construction and maintenance of wireless facilities.

(6) Wireless facilities help ensure the State remain competitive in the global economy.

(7) The timely design, engineering, permitting, construction, modification, maintenance, and operation of wireless facilities are matters of statewide concern and interest.

SECTION 2.(a) G.S. 160A-400.51(4a) is recodified as G.S. 160A-400.51(4d).

"**§ 160A-400.54. Collocation of small wireless facilities.**

(a) Except as expressly provided in this Part, a city shall not prohibit, regulate, or charge for the collocation of small wireless facilities.

(b) A city may not establish a moratorium on (i) filing, receiving, or processing applications or (ii) issuing permits or any other approvals for the collocation of small wireless facilities.

(c) Small wireless facilities that meet the height requirements of G.S. 160A-400.55(b)(2) shall only be subject to administrative review and approval under subsection (d) of this section if they are collocated (i) in a city right-of-way within any zoning district or (ii) outside of city rights-of-way on property other than single-family residential property.

(d) A city may require an applicant to obtain a permit to collocate a small wireless facility. A city shall receive applications for, process, and issue such permits subject to the following requirements:

(1) A city may not, directly or indirectly, require an applicant to perform services unrelated to the collocation for which approval is sought. For purposes of this subdivision, "services unrelated to the collocation," includes in-kind contributions to the city such as the reservation of fiber, conduit, or pole space for the city.

(2) The wireless provider completes an application as specified in form and content by the city. A wireless provider shall not be required to provide more information to obtain a permit than communications service providers that are not wireless providers.

(3) A permit application shall be deemed complete unless the city provides notice otherwise in writing to the applicant within 30 days of submission or within some other mutually agreed upon time frame. The notice shall identify the deficiencies in the application which, if cured, would make the application complete. The application shall be deemed complete on resubmission if the additional materials cure the deficiencies identified.

(4) The permit application shall be processed on a nondiscriminatory basis and shall be deemed approved if the city fails to approve or deny the application within 45 days from the time the application is deemed complete or a mutually agreed upon time frame between the city and the applicant.

(5) A city may deny an application only on the basis that it does not meet any of the following: (i) the city's applicable codes; (ii) local code provisions or regulations that concern public safety, objective design standards for decorative utility poles, city utility poles, or reasonable and nondiscriminatory stealth and concealment requirements, including screening or landscaping for ground-mounted equipment; (iii) public safety and reasonable spacing requirements concerning the location of ground-mounted equipment in a right-of-way; or (iv) the historic preservation requirements in subsection 160A-400.55(h). The city must (i) document the basis for a denial, including the specific code provisions on which the denial was based and (ii) send the documentation to the applicant on or before the day the city denies an application. The applicant may cure the deficiencies identified by the city and resubmit the application within 30 days of the denial without paying an additional application fee. The city

shall approve or deny the revised application within 30 days of the date on which the application was resubmitted. Any subsequent review shall be limited to the deficiencies cited in the prior denial.

(6) An application must include an attestation that the small wireless facilities shall be collocated on the utility pole, city utility pole, or wireless support structure and that the small wireless facilities shall be activated for use by a wireless services provider to provide service no later than one year from the permit issuance date, unless the city and the wireless provider agree to extend this period or a delay is caused by a lack of commercial power at the site.

(7) An applicant seeking to collocate small wireless facilities at multiple locations within the jurisdiction of a city shall be allowed at the applicant's discretion to file a consolidated application for no more than 25 separate facilities and receive a permit for the collocation of all the small wireless facilities meeting the requirements of this section. A city may remove small wireless facility collocations from a consolidated application and treat separately small wireless facility collocations (i) for which incomplete information has been provided or (ii) that are denied. The city may issue a separate permit for each collocation that is approved.

(8) The permit may specify that collocation of the small wireless facility shall commence within six months of approval and shall be activated for use no later than one year from the permit issuance date, unless the city and the wireless provider agree to extend this period or a delay is caused by a lack of commercial power at the site.

(e) A city may charge an application fee that shall not exceed the lesser of (i) the actual, direct, and reasonable costs to process and review applications for collocated small wireless facilities; (ii) the amount charged by the city for permitting of any similar activity; or (iii) one hundred dollars ($100.00) per facility for the first five small wireless facilities addressed in an application, plus fifty dollars ($50.00) for each additional small wireless facility addressed in the application. In any dispute concerning the appropriateness of a fee, the city has the burden of proving that the fee meets the requirements of this subsection.

(f) A city may impose a technical consulting fee for each application, not to exceed five hundred dollars ($500.00), to offset the cost of reviewing and processing applications required by this section. The fee must be based on the actual, direct, and reasonable administrative costs incurred for the review, processing, and approval of an application. A city may engage an outside consultant for technical consultation and the review of an application. The fee imposed by a city for the review of the application shall not be used for either of the following:

(1) Travel expenses incurred in the review of a collocation application by an outside consultant or other third party.

(2) Direct payment or reimbursement for an outside consultant or other third party based on a contingent fee basis or results-based arrangement.

In any dispute concerning the appropriateness of a fee, the city has the burden of proving that the fee meets the requirements of this subsection.

(g) A city may require a wireless services provider to remove an abandoned wireless facility within 180 days of abandonment. Should the wireless services provider fail to timely remove the abandoned wireless facility, the city may cause such wireless facility to be removed and may recover the actual cost of such removal, including legal fees, if any, from the wireless services provider. For purposes of this subsection, a wireless facility shall be deemed abandoned at the earlier of the date that the wireless services provider indicates that it is abandoning such facility or the date that is 180 days after the date that such wireless facility ceases to transmit a signal, unless the wireless services provider gives the city reasonable evidence that it is diligently working to place such wireless facility back in service.

(h) A city shall not require an application or permit or charge fees for (i) routine maintenance; (ii) the replacement of small wireless facilities with small wireless facilities that are the same size or smaller; or (iii) installation, placement, maintenance, or replacement of micro wireless facilities that are suspended on cables strung between existing utility poles or city utility poles in compliance with applicable codes by or for a communications service provider authorized to occupy the city rights-of-way and who is remitting taxes under G.S. 105-164.4(a)(4c) or G.S. 105-164.4(a)(6).

(i) Nothing in this section shall prevent a city from requiring a work permit for work that involves excavation, affects traffic patterns, or obstructs vehicular traffic in the city right-of-way.

"**§ 160A-400.55. Use of public right-of-way.**

(a) A city shall not enter into an exclusive arrangement with any person for use of city rights-of-way for the construction, operation, marketing, or maintenance of wireless facilities or wireless support structures or the collocation of small wireless facilities.

(b) Subject to the requirements of G.S. 160A-400.54, a wireless provider may collocate small wireless facilities along, across, upon, or under any city right-of-way. Subject to the requirements of this section, a wireless provider may place, maintain, modify, operate, or replace associated utility poles, city utility poles, conduit, cable, or related appurtenances and facilities along, across, upon, and under any city right-of-way. The placement, maintenance, modification, operation, or replacement of utility poles and city utility poles associated with the collocation of small wireless facilities, along, across, upon, or under any city right-of-way shall be subject only to review or approval under subsection (d) of G.S. 160A-400.54 if the wireless provider meets all the following requirements:

(1) Each new utility pole and each modified or replacement utility pole or city utility pole installed in the right-of-way shall not exceed 50 feet above ground level.

(2) Each new small wireless facility in the right-of-way shall not extend more than 10 feet above the utility pole, city utility pole, or wireless support structure on which it is collocated.

(c) Nothing in this section shall be construed to prohibit a city from allowing utility poles, city utility poles, or wireless facilities that exceed the limits set forth in subdivision (1) of subsection (b) of this section.

(d) Applicants for use of a city right-of-way shall comply with a city's undergrounding requirements prohibiting the installation of above-ground structures in the city rights-of-way without prior zoning approval, if those requirements (i) are nondiscriminatory with respect to type of utility, (ii) do not prohibit the replacement of structures existing at the time of adoption of the requirements, and (iii) have a waiver process.

(d1) Notwithstanding subsection (d) of this section, in no instance in an area zoned single-family residential where the existing utilities are installed underground may a utility pole, city utility pole, or wireless support structure exceed forty (40) feet above ground level, unless the city grants a waiver or variance approving a taller utility pole, city utility pole, or wireless support structure.

(e) Except as provided in this part, a city may assess a right-of-way charge under this section for use or occupation of the right-of-way by a wireless provider, subject to the restrictions set forth under G.S. 160A-296(a)(6). In addition, charges authorized by this section shall meet all of the following requirements:

(1) The right-of-way charge shall not exceed the direct and actual cost of managing the city rights-of-way and shall not be based on the wireless provider's revenue or customer counts.

(2) The right-of-way charge shall not exceed that imposed on other users of the right-of-way, including publicly, cooperatively, or municipally owned utilities.

(3) The right-of-way charge shall be reasonable and nondiscriminatory.

Nothing in this subsection is intended to establish or otherwise affect rates charged for attachments to utility poles, city utility poles, or wireless support structures. At its discretion, a city may provide free access to city rights-of-way on a nondiscriminatory basis in order to facilitate the public benefits of the deployment of wireless services.

(f) Nothing in this section is intended to authorize a person to place, maintain, modify, operate, or replace a privately owned utility pole or wireless support structure or to collocate small wireless facilities on a privately owned utility pole, a privately owned wireless support structure, or other private property without the consent of the property owner.

(g) A city may require a wireless provider to repair all damage to a city right-of-way directly caused by the activities of the wireless provider, while occupying, installing, repairing, or maintaining wireless facilities, wireless support structures, city utility poles, or utility poles and to return the right-of-way to its functional equivalence before the damage. If the wireless provider fails to make the repairs required by the city within a reasonable time after written notice, the city may undertake those repairs and charge the applicable party the reasonable and documented cost of the repairs. The city may maintain an action to recover the costs of the repairs.

(h) This section shall not be construed to limit local government authority to enforce historic preservation zoning regulations consistent with Part 3C of Article 19 of this Chapter, the preservation of local zoning authority under 47 U.S.C. § 332(c)(7), the requirements for facility modifications under 47 U.S.C. § 1455(a), or the National Historic Preservation Act of 1966, 54 U.S.C. § 300101, et seq., as amended, and the regulations, local acts, and city charter provisions adopted to implement those laws.

(i) A wireless provider may apply to a city to place utility poles in the city rights-of-way, or to replace or modify utility poles or city utility poles in the public rights-of way, to support the collocation of small wireless facilities. A city shall accept and process the application in accordance with the provisions of G.S. 160A-400.54(d), applicable codes, and other local codes governing the placement of utility poles or city utility poles in the city rights-of-way, including provisions or regulations that concern public safety, objective design standards for decorative utility poles or city utility poles, or reasonable and nondiscriminatory stealth and concealment requirements, including those relating to screening or landscaping, or public safety and reasonable spacing requirements. The application may be submitted in conjunction with the associated small wireless facility application.

"**§ 160A-400.56. Access to city utility poles to install small wireless facilities.**

(a) A city may not enter into an exclusive arrangement with any person for the right to collocate small wireless facilities on city utility poles. A city shall allow any wireless provider to collocate small wireless facilities on its city utility poles at just, reasonable, and nondiscriminatory rates, terms, and conditions, but in no instance may the rate exceed fifty dollars ($50.00) per city utility pole per year. The North Carolina Utilities Commission shall not consider this subsection as evidence in a proceeding initiated pursuant to G.S. 62-350(c).

(b) A request to collocate under this section may be denied only if there is insufficient capacity or for reasons of safety, reliability, and generally applicable engineering principles, and those limitations cannot be remedied by rearranging, expanding, or otherwise reengineering the facilities at the reasonable and actual cost of the city to be reimbursed by the wireless provider. In granting a request under this section, a city shall require the requesting entity to comply with applicable safety requirements, including the National Electrical Safety Code and the applicable rules and regulations issued by the Occupational Safety and Health Administration.

(c) If a city that operates a public enterprise as permitted by Article 16 of this Chapter has an existing city utility pole attachment rate, fee, or other term with an entity, then, subject to termination provisions, that attachment rate, fee, or other term shall apply to collocations by that entity or its related entities on city utility poles.

(d) Following receipt of the first request from a wireless provider to collocate on a city utility pole, a city shall, within 60 days, establish the rates, terms, and conditions for the use of

or attachment to the city utility poles that it owns or controls. Upon request, a party shall state in writing its objections to any proposed rate, terms, and conditions of the other party.

(e) In any controversy concerning the appropriateness of a rate for a collocation attachment to a city utility pole, the city has the burden of proving that the rates are reasonably related to the actual, direct, and reasonable costs incurred for use of space on the pole for such period.

(f) The city shall provide a good-faith estimate for any make-ready work necessary to enable the city utility pole to support the requested collocation, including pole replacement if necessary, within 60 days after receipt of a complete application. Make-ready work, including any pole replacement, shall be completed within 60 days of written acceptance of the good-faith estimate by the applicant. For purposes of this section, the term "make-ready work" means any modification or replacement of a city utility pole necessary for the city utility pole to support a small wireless facility in compliance with applicable safety requirements, including the National Electrical Safety Code, that is performed in preparation for a collocation installation.

(g) The city shall not require more make-ready work than that required to meet applicable codes or industry standards. Fees for make-ready work shall not include costs related to preexisting or prior damage or noncompliance. Fees for make-ready work, including any pole replacement, shall not exceed actual costs or the amount charged to other communications service providers for similar work and shall not include any consultant fees or expenses.

(h) Nothing in this Part shall be construed to apply to an entity whose poles, ducts, and conduits are subject to regulation under section 224 of the Communications Act of 1934, 47 U.S.C. § 151, et seq., as amended, or under G.S. 62-350.

(i) This section shall not apply to an excluded entity. Nothing in this section shall be construed to affect the authority of an excluded entity to deny, limit, restrict, or determine the rates, fees, terms, and conditions for the use of or attachment to its utility poles, city utility poles, or wireless support structures by a wireless provider. This section shall not be construed to alter or affect the provisions of G.S. 62-350, and the rates, terms, or conditions for the use of poles, ducts, or conduits by communications service providers, as defined in G.S. 62-350, are governed solely by G.S. 62-350. For purposes of this section, "excluded entity" means (i) a city that owns or operates a public enterprise pursuant to Article 16 of this Chapter consisting of an electric power generation, transmission, or distribution system or (ii) an electric membership corporation organized under Chapter 117 of the General Statutes that owns or controls poles, ducts, or conduits, but which is exempt from regulation under section 224 of the Communications Act of 1934, 47 U.S.C. § 151 et seq., as amended.

"**§ 160A-400.57. Applicability.**

(a) A city shall not adopt or enforce any ordinance, rule, regulation, or resolution that regulates the design, engineering, construction, installation, or operation of any small wireless facility located in an interior structure or upon the site of any stadium or athletic facility. This subsection does not apply to a stadium or athletic facility owned or otherwise controlled by the city. This subsection does not prohibit the enforcement of applicable codes.

(b) Nothing contained in this Part shall amend, modify, or otherwise affect any easement between private parties. Any and all rights for the use of a right-of-way are subject to the rights granted pursuant to an easement between private parties.

(c) Except as provided in this Part or otherwise specifically authorized by the General Statutes, a city may not adopt or enforce any regulation on the placement or operation of communications facilities in the rights-of-way of State-maintained highways or city rights-of-way by a provider authorized by State law to operate in the rights-of-way of State-maintained highways or city rights-of-way and may not regulate any communications services.

(d) Except as provided in this Part or specifically authorized by the General Statutes, a city may not impose or collect any tax, fee, or charge to provide a communications service over a communications facility in the right-of-way.

(e) The approval of the installation, placement, maintenance, or operation of a small wireless facility pursuant to this Part does not authorize the provision of any communications services or the installation, placement, maintenance, or operation of any communications facility, including a wireline backhaul facility, other than a small wireless facility, in the right-of-way."

SECTION 3.(a) G.S. 136-18 reads as rewritten:

"**§ 136-18. Powers of Department of Transportation.**

The said Department of Transportation is vested with the following powers:

…

(10) To make proper and reasonable rules, regulations and ordinances for the placing or erection of telephone, telegraph, electric and other lines, above or below ground, wireless facilities, signboards, fences, gas, water, sewerage, oil, or other pipelines, and other similar obstructions that may, in the opinion of the Department of Transportation, contribute to the hazard upon any of the said highways or in any way interfere with the same, and to make reasonable rules and regulations for the proper control thereof. And whenever the order of the said Department of Transportation shall require the removal of, or changes in, the location of telephone, telegraph, electric or other lines, wireless facilities, signboards, fences, gas, water, sewerage, oil, or other pipelines, or other similar obstructions, the owners thereof shall at their own expense, except as provided in G.S. 136-19.5(c), move or change the same to conform to the order of said Department of Transportation. Any violation of such rules and regulations or noncompliance with such orders shall constitute a Class 1 misdemeanor. For purposes of this subdivision, "wireless facilities" shall have the definition set forth in G.S. 160A-400.51.

…."

SECTION 3.(b) Article 2 of Chapter 136 of the General Statutes is amended by adding a new section to read:

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 20 of the General Statutes is amended by adding a new Article to read:

"Article 18.

"Regulation of Fully Autonomous Vehicles.

"**§ 20-400. Definitions.**

The following definitions apply in this Article:

(2) Dynamic driving task. – All of the real-time operational and tactical control functions required to operate a motor vehicle in motion or which has the engine running, such as:

a. Lateral vehicle motion control via steering.
b. Longitudinal motion control via acceleration and deceleration.
c. Monitoring the driving environment via object and event detection, recognition, classification, and response preparation.
d. Object and event response execution.
e. Maneuver planning.
f. Enhancing conspicuity via lighting, signaling, and gesturing.

(3) Fully autonomous vehicle. – A motor vehicle equipped with an automated driving system that will not at any time require an occupant to perform any portion of the dynamic driving task when the automated driving system is engaged. If equipment that allows an occupant to perform any portion of the dynamic driving task is installed, it must be stowed or made unusable in such a manner that an occupant cannot assume control of the vehicle when the automated driving system is engaged.

(4) Minimal risk condition. – An operating mode in which a fully autonomous vehicle with the automated driving system engaged achieves a reasonably safe state, bringing the vehicle to a complete stop, upon experiencing a failure of the automatic driving system that renders the vehicle unable to perform any portion of the dynamic driving task.

(5) Operator. – For the purposes of this Article, is a person as defined in G.S. 20-4.01. An operator does not include an occupant within a fully autonomous vehicle performing solely strategic driving functions.

(6) Operational design domain. – Specific conditions under which an automated driving system is limited to effectively operate, such as geographical limitations, roadway types, speed range, and environmental conditions.

(7) Strategic driving functions. – Control of navigational parameters such as trip scheduling or the selection of destinations and waypoints but does not include any portion of the dynamic driving task.

"**§ 20-401. Regulation of fully autonomous vehicles.**

(a) Driver's License Not Required. – Notwithstanding the provisions of G.S. 20-7 and this Chapter, the operator of a fully autonomous vehicle with the automated driving system engaged is not required to be licensed to operate a motor vehicle.

(b) Vehicle Registration Card in Vehicle. – For a fully autonomous vehicle, the provisions of G.S. 20-49(4) and G.S. 20-57(c) are satisfied if the vehicle registration card is in the vehicle, physically or electronically, and readily available to be inspected by an officer or inspector.

(c) Parent or Legal Guardian Responsible for Certain Violations. – The parent or legal guardian of a minor is responsible for a violation of G.S. 20-135.2B, the prohibition on children in an open bed of a pickup, or G.S. 20-137.1, the child restraint law, if the violation occurs in a fully autonomous vehicle.

(c1) Minimum Age for Unsupervised Minors in Fully Autonomous Vehicles. – It is unlawful for any parent or legal guardian of a person less than 12 years of age to knowingly permit that person to occupy a fully autonomous vehicle in motion or which has the engine running unless the person is under the supervision of a person 18 years of age or older.

(d) Registered Owner Responsible for Moving Violations. – The person in whose name the fully autonomous vehicle is registered is responsible for a violation of this Chapter that is considered a moving violation, if the violation involves a fully autonomous vehicle.

(e) Unattended Vehicle. – A vehicle shall not be considered unattended pursuant to G.S. 20-163 or any other provision of Chapter 20 of the General Statutes merely because it is a fully autonomous vehicle with the automated driving system engaged.

(f) Duty to Stop in the Event of a Crash. – If all of the following conditions are met when a fully autonomous vehicle is involved in a crash, then the provisions of subsections (a) through (c2) and subsection (e) of G.S. 20-166 and subsections (a) and (c) of G.S. 20-166.1 shall be considered satisfied, and no violation of those provisions shall be charged:

(1) The vehicle or the operator of the vehicle promptly contacts the appropriate law enforcement agency to report the crash.

(2) The vehicle or operator of the vehicle promptly calls for medical assistance, if appropriate.

(3) For a reportable crash, the vehicle remains at the scene of the crash until vehicle registration and insurance information is provided to the parties affected by the crash and a law enforcement officer authorizes the vehicle to be removed.

(4) For a nonreportable crash, the vehicle remains at the scene or in the immediate vicinity of the crash until vehicle registration and insurance information is provided to the parties affected by the crash.

(g) Operation. – A person may operate a fully autonomous vehicle if the vehicle meets all of the following requirements:

(1) Unless an exception or exemption has been granted under applicable State or federal law, the vehicle:

a. Is capable of being operated in compliance with Articles 3, 3A, 7, 11, and 13 of this Chapter;

b. Complies with applicable federal law and regulations; and

c. Has been certified in accordance with federal regulations in 49 C.F.R. Part 567 as being in compliance with applicable federal motor

vehicle safety standards and bears the required certification label or labels.

(2) The vehicle has the capability to meet the requirements of subsection (f) of this section.

(3) The vehicle can achieve a minimal risk condition.

(4) The vehicle is covered by a motor vehicle liability policy meeting the applicable requirements of G.S. 20-279.21.

(5) The vehicle is registered in accordance with Part 3 of Article 3 of this Chapter, and, if registered in this State, the vehicle shall be identified on the registration and registration card as a fully autonomous vehicle.

(h) Preemption. – No local government shall enact any local law or ordinance related to the regulation or operation of fully autonomous vehicles or vehicles equipped with an automated driving system, other than regulation specifically authorized in Chapter 153A and Chapter 160A of the General Statutes that is not specifically related to those types of motor vehicles.

"**§ 20-402. Applicability to vehicles other than fully autonomous vehicles.**

(a) Definitions. – As used in this section, a "request to intervene" means notification by a vehicle to the human operator that the operator should promptly begin or resume performance of part or all of the dynamic driving task.

(b) Applicability. – Operation of a motor vehicle equipped with an automated driving system capable of performing the entire dynamic driving task with the expectation that a human operator will respond appropriately to a request to intervene is lawful under this Chapter and subject to the provisions of this Chapter.

(d) All the Fund's disbursements shall be conducted in the same manner as disbursements are conducted for other special funds of the State.

(e) If, for any reason, the Fund shall be insufficient to pay ~~any~~ pension benefits owed under this Article or other charges, then all benefits or payments shall be reduced pro rata for as long as the deficiency in amount exists. In no event however shall a monthly pension under this Article exceed an amount, which~~ an amount that, when added to a retired allowance at retirement from the Local Governmental Employees' Retirement System or to the amount he would have been eligible to receive if service had not been forfeited by the withdrawal of accumulated contributions, is ~~greater than~~ equal to seventy-five percent (75%) of a sheriff's equivalent annual salary immediately preceding retirement computed on the latest monthly base rate, to a maximum amount that does not exceed (i) ~~of~~ one thousand five hundred dollars ~~($1,500).~~($1,500) or (ii) the sheriff's equivalent annual salary immediately preceding retirement computed on the latest monthly base rate when the benefit described in this subsection is added to the amount of the benefit the sheriff receives under G.S. 143-166.42 and the amount of the sheriff's retired allowance at retirement from the Local Governmental Employees' Retirement System or the amount the sheriff would have been eligible to receive if service had not been forfeited by the withdrawal of accumulated contributions.

(b) All monthly pensions payable under this Article shall be paid on the last business day of each month.

Whereas, Section 5 of Article XIV of the North Carolina Constitution states that it shall be a proper function of the State of North Carolina to acquire and preserve park, recreational, and scenic areas and, in every other appropriate way, to preserve as a part of the common heritage of this State its open lands and places of beauty; and

Whereas, the General Assembly enacted the State Parks Act in 1987, declaring that the State of North Carolina offers unique archaeological, geological, biological, scenic, and recreational resources, and that such resources are part of the heritage of the people of the State to be preserved and managed by those people for their use and for the use of their visitors and descendants; and

Whereas, the Bob's Creek area in McDowell County is significant for its scenic beauty, high-quality natural communities, rare and unusual natural features, and opportunities for natural resource preservation, outdoor recreation, and regional trail connections; and

AN ACT TO PROVIDE FLEXIBILITY TO THE COLLEGE OF THE ALBEMARLE IN USING STATE FUNDS TO ENTER INTO CERTAIN CONSTRUCTION PROJECTS FOR EDUCATIONAL FACILITIES WITH THE COUNTIES SERVED BY THE COMMUNITY COLLEGE.

Whereas, the College of the Albemarle is in need of new facilities to educate and prepare adult and high school students in northeastern North Carolina for the economic enhancement of the region, to promote the transfer of students to four-year baccalaureate degree programs, and to increase the public safety and vocational skills in high demand throughout the region; and

Whereas, the College of the Albemarle's service delivery area includes seven counties and four campuses, with several counties within this area willing to invest public funds into construction of educational facilities for skills training and college transfer programs for the benefit of students throughout the region; and

Whereas, the College of the Albemarle and the counties in the community college's service delivery area mutually desire to enter into long-term lease agreements for the College of the Albemarle to occupy educational facilities to be constructed by the counties on property currently owned by the counties; and

Whereas, Currituck County wishes to use construction delivery methods chosen by the counties as owners of the educational facilities; and

Whereas, the College of the Albemarle would need exemptions from certain State law requirements to enter into such an agreement with the counties and use State funds, including Connect NC Bond funds; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. Notwithstanding any other provision of law to the contrary, the Board of Trustees of the College of the Albemarle may expend State funds appropriated for capital improvements, including Connect NC Bond funds, for the construction and renovation of educational facilities owned by and located on property owned by a county within the service area of the College of the Albemarle (Camden, Chowan, Currituck, Dare, Gates, Pasquotank, and Perquimans Counties), including the following pending project:

(1) Construction of a public safety facility located in Currituck County, which would enable the relocation of the community college's emergency services programs.

Any facility constructed or renovated under this authority shall be leased for a period of at least 30 years to the Board of Trustees of the College of the Albemarle. If the lessor terminates the lease through no fault of the college, a prorated amount of the building cost supported by State funds, amortized over the lease period, shall be returned to the college.

SECTION 2. If State funds described in Section 1 of this act are derived from the proceeds of Connect NC Bonds, then the proceeds shall be expended on the cost of capital facilities that are to be used by the College of the Albemarle to carry out its community college purposes. The lease shall contain adequate provision to assure that the capital facilities so provided will be used for community college purposes.

SECTION 3. The Board of Trustees of the College of the Albemarle may contract for the renovation or construction of educational facilities as described in Section 1 of this act with any of the counties within the service area of the College of the Albemarle without being subject to the provisions of G.S. 143-341.

SECTION 4. This act is effective when it becomes law and applies only to capital improvement projects with construction contracts executed prior to July 1, 2022.

SECTION 2.(vvvvvvv) G.S. 148-32.1 reads as rewritten:

"**§ 148-32.1. Local confinement, costs, alternate facilities, parole, work release.**

(a) Repealed by Session Laws 2009-451, s. 19.22A, effective July 1, 2009.

(b) In the event that the custodian of the local confinement facility certifies in writing to the clerk of the superior court in the county in which the local confinement facility is located that the local confinement facility is filled to capacity, or that the facility cannot reasonably accommodate any more prisoners due to segregation requirements for particular prisoners, or that the custodian anticipates, in light of local experiences, an influx of temporary prisoners at that time, or if the local confinement facility does not meet the minimum standards published pursuant to G.S. 153A-221, any judge of the district court in the district court district as defined in G.S. 7A-133 where the facility is located, or any superior court judge who has jurisdiction pursuant to G.S. 7A-47.1 or G.S. 7A-48 in a district or set of districts as defined in G.S. 7A-41.1 where the facility is located may order that a prisoner not housed pursuant to the Statewide Misdemeanant Confinement Program established in subsection (b2) of this section be transferred to any other qualified local confinement facility within that district or within another such district where space is available, including a satellite jail unit operated pursuant to G.S. 153A-230.3 if the prisoner is a non-violent misdemeanant, which local facility shall accept the transferred prisoner.

If no other local confinement facility is available and the reason for the requested transfer is that the local confinement facility that would be required to house the prisoner cannot reasonably accommodate any more prisoners due to segregation requirements for particular prisoners or the local facility does not meet the minimum standards published pursuant to G.S. 153A-221, then the judge may order that a prisoner not housed pursuant to the Statewide Misdemeanant Confinement Program established in subsection (b2) of this section be transferred to a facility operated by the Division of Adult Correction and Juvenile Justice of the Department of Public Safety as designated by the Division of Adult ~~Correction.~~Correction and Juvenile Justice. In no event, however, shall a prisoner whose term of imprisonment is less than 30 days be assigned or ordered transferred to a facility operated by the Division of Adult ~~Correction.~~Correction and Juvenile Justice.

(b1) It is the intent of the General Assembly to authorize the Division of Adult Correction and Juvenile Justice to enter into voluntary agreements with counties to provide housing for misdemeanants serving periods of confinement of more than 90 days and for all

sentences imposed for impaired driving under G.S. 20-138.1, regardless of length. It is further the intent of the General Assembly that the Division of Adult ~~Correction,~~ Correction and Juvenile Justice, in conjunction with the North Carolina Sheriffs' Association, Inc., establish a program for housing misdemeanants serving periods of confinement of more than 90 days and for all sentences imposed for impaired driving under G.S. 20-138.1, regardless of length. It is also the intent of the General Assembly that the Division of Adult Correction and Juvenile Justice contract with the North Carolina Sheriffs' Association, Inc., to provide a service that identifies space in local confinement facilities that is available for housing these misdemeanants.

The General Assembly intends that the cost of housing and caring for these misdemeanants, including, but not limited to, care, supervision, transportation, medical, and any other related costs, be covered by State funds and not be imposed as a local cost. Therefore, the General Assembly intends that the funds appropriated for the Statewide Misdemeanant Confinement Program be used to provide funding to cover the costs of managing a system for providing that housing of misdemeanants in local confinement facilities as well as reimbursing the counties for housing and related expenses for those misdemeanants.

(b2) The Statewide Misdemeanant Confinement Program is established. The Program shall provide for the housing of misdemeanants from all counties serving sentences imposed for a period of more than 90 days and for all sentences imposed for impaired driving under G.S. 20-138.1, regardless of length. Those misdemeanants shall be confined in local confinement facilities except as provided in subsections (b3) and (b4) of this section. The Program shall address methods for the placement and transportation of inmates and reimbursement to counties for the housing of those inmates. Any county that voluntarily agrees to house misdemeanants from that county or from other counties pursuant to the Program may enter into a written agreement with the Division of Adult Correction and Juvenile Justice to do so.

(b3) The custodian of a local confinement facility may request a judicial order to transfer a misdemeanant housed pursuant to the Statewide Misdemeanant Confinement Program to a facility operated by the Division of Adult Correction and Juvenile Justice by certifying in writing to the clerk of the superior court in the county in which the local confinement facility is located that:

(1) The misdemeanant poses a security risk because the misdemeanant:
   a. Poses a serious escape risk;
   b. Exhibits violently aggressive behavior that cannot be contained and warrants a higher level of supervision;
   c. Needs to be protected from other inmates, and the county jail facility cannot provide such protection;
   d. Is a female or a person 18 years of age or younger, and the county jail facility does not have adequate housing for such prisoners;
   e. Is in custody at a time when a fire or other catastrophic event has caused the county jail facility to cease or curtail operations; or
   f. Otherwise poses an imminent danger to the staff of the county jail facility or to other prisoners in the facility.

(2) The misdemeanant requires medical or mental health treatment that the county decides can best be provided by the Division of Adult ~~Correction.~~Correction and Juvenile Justice.

(3) The local confinement facility that would be required to house the prisoner (i) cannot reasonably accommodate any more prisoners due to segregation requirements for particular prisoners, or the local facility does not meet the minimum standards published pursuant to G.S. 153A-221, and (ii) no other local confinement facility is available.

Upon receiving such request and certification in writing, any superior or district court judge for the district in which the local confinement facility is located may, after ascertaining that the

request meets the criteria set forth in subdivision (1), (2), or (3) of this subsection, order the misdemeanant transferred to a unit of the State prison system designated by the Secretary of Public Safety or the Secretary's authorized representative. The Division of Adult Correction and Juvenile Justice shall be reimbursed from the Statewide Misdemeanant Confinement Fund for the costs of housing the misdemeanant, including the care, supervision, and transportation of the misdemeanant.

(b4) A misdemeanant housed under the Statewide Misdemeanant Confinement Program established pursuant to subsection (b2) of this section may be transferred to a facility operated by the Division of Adult Correction and Juvenile Justice if the North Carolina Sheriffs' Association, Inc., determines that the local confinement facilities available for housing misdemeanants under the Program are filled to capacity. The Division of Adult Correction and Juvenile Justice shall be reimbursed from the Statewide Misdemeanant Confinement Fund for the costs of housing the misdemeanant, including the care, supervision, and transportation of the misdemeanant.

(c) Repealed by Session Laws 2015-40, s. 6.

(d) When a prisoner serving a sentence of 30 days or more in a local confinement facility is placed on work release pursuant to a recommendation of the sentencing court, the custodian of the facility shall forward the prisoner's work-release earnings to the Division of Adult ~~Correction,~~Correction and Juvenile Justice, which shall disburse the earnings as determined under G.S. 148-33.1(f). When a prisoner serving a sentence of 30 days or more in a local confinement facility is placed on work release pursuant to an order of the sentencing court, the custodian of the facility shall forward the prisoner's work-release earnings to the clerk of the court that sentenced the prisoner or to the Division of Adult ~~Correction,~~Correction and Juvenile Justice, as provided in the prisoner's commitment order. The clerk or the Division, as appropriate, shall disburse the earnings as provided in the prisoner's commitment order. Upon agreement between the Division of Adult Correction and Juvenile Justice and the custodian of the local confinement facility, however, the clerk may disburse to the local confinement facility the amount of the earnings to be paid for the cost of the prisoner's keep, and that amount shall be set off against the reimbursement to be paid by the Department to the local confinement facility pursuant to G.S. 148-32.1(a).

(e) Upon entry of a prisoner serving a sentence of imprisonment for impaired driving under G.S. 20-138.1 into a local confinement facility pursuant to this section, the custodian of the local confinement facility shall forward to the Post-Release Supervision and Parole Commission information pertaining to the prisoner so as to make him eligible for parole consideration pursuant to G.S. 15A-1371. Such information shall include date of incarceration, jail credit, and such other information as may be required by the Post-Release Supervision and Parole Commission. The Post-Release Supervision and Parole Commission shall approve a form upon which the custodian shall furnish this information, which form will be provided to the custodian by the Division of Adult ~~Correction.~~Correction and Juvenile Justice."

Contracts entered into under the authority of this subsection shall be for a period not to exceed two years and shall be renewable from time to time for a period not to exceed two years. Prisoners may be sent to out-of-state correctional facilities only when there are no available facilities in this State within the State prison system to appropriately house those prisoners. The operators of those out-of-state correctional facilities may promulgate any other rules as may be necessary for the operation of those facilities with the written approval of the Secretary of Public Safety. Custodial officials employed by an out-of-state correctional facility are agents of the Secretary of Public Safety and may use those procedures for use of force authorized by the Secretary of Public Safety not inconsistent with the laws of the State of situs of the facility to defend themselves, to enforce the observance of discipline in compliance with correctional facility rules, to secure the person of a prisoner, and to prevent escape. Prisoners confined to out-of-state correctional facilities may be required to perform reasonable work assignments within those facilities. Private firms under subsection (c) of this section shall employ inmate disciplinary and grievance policies of the Division of Adult Correction and Juvenile Justice of the Department of Public Safety.

Whenever the Division of Adult Correction and Juvenile Justice of the Department of Public Safety determines that new prison facilities are required in addition to existing and planned facilities, the Division may contract for any remaining beds authorized by this section before constructing State-operated facilities.

Contracts entered under the authority of this subsection shall be for a period not to exceed 10 years, shall be renewable from time to time for a period not to exceed 10 years. The Secretary of Public Safety shall enter contracts under this subsection only if funds are appropriated for this purpose by the General Assembly. Once the Division has made a determination to contract for additional private prison beds, it shall issue a request for proposals within 30 days of the decision. The request for proposals shall require bids to be submitted within two months, and the Division shall award contracts at the earliest practicable date after the submission of bids. The Secretary of Public Safety, in consultation with the Chairs of the Joint Legislative Oversight Committee on Justice and Public Safety and the Chairs of the House and Senate Appropriations Subcommittees on Justice and Public Safety, shall make recommendations to the State Purchasing Officer on the final award decision. The State Purchasing Officer shall make the final award decision, and the contract shall then be subject to the approval of the Council of State after consultation with the Joint Legislative Commission on Governmental Operations.

Contracts made under the authority of this subsection may provide the State with an option to purchase the confinement facility or may provide for the purchase of the confinement facility by the State. Contracts made under the authority of this subsection shall state that plans and specifications for private confinement facilities shall be furnished to and reviewed by the Office of State Construction. The Office of State Construction shall inspect and review each project during construction to ensure that the project is suitable for habitation and to determine whether the project would be suitable for future acquisition by the State. All contracts for the housing of State prisoners in private confinement facilities shall require a minimum of ten million dollars ($10,000,000) of occurrence-based liability insurance and shall hold the State harmless and provide reimbursement for all liability arising out of actions caused by operations and employees of the private confinement facility.

Prisoners housed in private confinement facilities pursuant to this subsection shall remain subject to the rules adopted for the conduct of persons committed to the State prison system. (c) The sheriff of the county from which the prisoner is removed shall be responsible for conveying the prisoner to the jail or prison unit where he is to be held, and for returning him to the common jail of the county from which he was transferred. The return shall be made at the expiration of the time designated in the court order directing the transfer unless the judge, by appropriate order, shall direct otherwise. The sheriff or keeper of the jail of the county designated in the court order, or the officer in charge of the prison unit designated by the Secretary of Public Safety, shall receive and release custody of the prisoner in accordance with the terms of the court order. If a prisoner is transferred to a unit of the State prison system, the county from which the prisoner is transferred shall pay the Division of Adult Correction and Juvenile Justice of the Department of Public Safety for maintaining the prisoner for the time designated by the court at the per day, per inmate rate at which the Division of Adult Correction and Juvenile Justice of the Department of Public Safety pays a local jail for maintaining a prisoner. The county shall also pay the Division of Adult Correction and Juvenile Justice of the Department of Public Safety for the costs of extraordinary medical care incurred while the prisoner was in the custody of the Division of Adult Correction and Juvenile Justice of the Department of Public Safety, defined as follows:

(1) Medical expenses incurred as a result of providing health care to a prisoner as an inpatient (hospitalized);

(2) Other medical expenses when the total cost exceeds thirty-five dollars ($35.00) per occurrence or illness as a result of providing health care to a prisoner as an outpatient (nonhospitalized); and

(3) Cost of replacement of eyeglasses and dental prosthetic devices if those eyeglasses or devices are broken while the prisoner is incarcerated, provided the prisoner was using the eyeglasses or devices at the time of his commitment and then only if prior written consent of the county is obtained by the Division.

If the prisoner is transferred to a jail in some other county, the county from which the prisoner is transferred shall pay to the county receiving the prisoner in its jail the actual cost of maintaining the prisoner for the time designated by the court. Counties are hereby authorized to enter into contractual agreements with other counties to provide jail facilities to which prisoners may be transferred as deemed necessary under this section.

Whenever prisoners are arrested in such numbers that county jail facilities are insufficient and inadequate for the safekeeping of such prisoners, the resident judge of the superior court or any superior or district court judge holding court in the district may order the prisoners transferred to a unit of the Division of Adult Correction and Juvenile Justice of the Department of Public Safety designated by the Secretary of Public Safety or his authorized representative, where the prisoners may be held for such length of time as the judge may direct, such detention to be in cell separate from that used for imprisonment of persons already convicted of crimes, except when admission to an inpatient prison medical or mental health unit is required to provide services deemed necessary by a prison health care clinician. The sheriff of the county from which the prisoners are removed shall be responsible for conveying the prisoners to the prison unit or units where they are to be held, and for returning them to the common jail of the county from which they were transferred. However, if due to the number of prisoners to be conveyed the sheriff is unable to provide adequate transportation, he may request the assistance of the Division of Adult Correction and Juvenile Justice of the Department of Public Safety, and the Division of Adult Correction and Juvenile Justice of the Department of Public Safety is hereby authorized and directed to cooperate with the sheriff and provide whatever assistance is

available, both in vehicles and manpower, to accomplish the conveying of the prisoners to and from the county to the designated prison unit or units. The officer in charge of the prison unit designated by the Secretary of Public Safety or his authorized representative shall receive and release the custody of the prisoners in accordance with the terms of the court order. The county from which the prisoners are transferred shall pay to the Division of Adult Correction and Juvenile Justice of the Department of Public Safety the actual cost of transporting the prisoners and the cost of maintaining the prisoners at the per day, per inmate rate at which the Division of Adult Correction and Juvenile Justice of the Department of Public Safety pays a local jail for maintaining a prisoner, provided, however, that a county is not required to reimburse the State for transporting or maintaining a prisoner who was a resident of another state or county at the time he was arrested. However, if the county commissioners shall certify to the Governor that the county is unable to pay the bill submitted by the Division of Adult Correction and Juvenile Justice of the Department of Public Safety to the county for the services rendered, either in whole or in part, the Governor may recommend to the Council of State that the State of North Carolina assume and pay, in whole or in part, the obligation of the county to the Division of Adult Correction and Juvenile Justice of the Department of Public Safety, and upon approval of the Council of State the amount so approved shall be paid from Contingency and Emergency Fund to the Division of Adult Correction and Juvenile Justice of the Department of Public Safety.

When, due to an emergency, it is not feasible to obtain from a judge of the superior or district court a prior order of transfer, the sheriff of the county and the Division of Adult Correction and Juvenile Justice of the Department of Public Safety may exercise the authority hereinafter conferred; provided, however, that the sheriff shall, as soon as possible after the emergency, obtain an order from the judge authorizing the prisoners to be held in the designated place of confinement for such period as the judge may direct. All provisions of this subsection shall be applicable to municipalities whenever prisoners are arrested in such numbers that the municipal jail facilities and the county jail facilities are insufficient and inadequate for the safekeeping of the prisoners. The chief of police is hereby authorized to exercise the authority herein conferred upon the sheriff, and the municipality shall be liable for the cost of transporting and maintaining the prisoners to the same extent as a county would be unless action is taken by the Governor and Council of State as herein provided for counties which are unable to pay such costs.

(d) Whenever a prisoner held in a county jail requires medical or mental health treatment that the county decides can best be provided by the Division of Adult Correction and Juvenile Justice of the Department of Public Safety, the resident judge of the superior court or any judge holding superior court in the district or any district court judge may order the prisoner transferred to a unit of the State prison system designated by the Secretary of Public Safety or his authorized representative. The sheriff of the county from which the prisoner is removed shall be responsible for conveying the prisoner to the prison unit where he is to be held, and for returning him to the jail of the county from which he was transferred. The prisoner shall be returned when the attending medical or mental health professional determines that the prisoner may be returned safely. The officer in charge of the prison unit designated by the Secretary of Public Safety shall receive custody of the prisoner in accordance with the terms of the order and shall release custody of the prisoner in accordance with the instructions of the attending medical or mental health professional. The county from which the prisoner is transferred shall pay the Division of Adult Correction and Juvenile Justice of the Department of Public Safety for maintaining the prisoner for the period of treatment at the per day, per inmate rate at which the Division of Adult Correction and Juvenile Justice of the Department of Public Safety pays a local jail for maintaining a prisoner, and for extraordinary medical expenses as set forth in subsection (c) of this section.

(d) The Commission shall include with each set of sentencing structures a statement of its estimate of the effect of the sentencing structures on the Division of Adult Correction and Juvenile Justice and local facilities, both in terms of fiscal impact and on inmate population. If the Commission finds that the proposed sentencing structures will result in inmate populations in the Division of Adult Correction and Juvenile Justice and local confinement facilities that exceed the standard operating capacity, then the Commission shall present an additional set of structures that are consistent with that capacity. For purposes of this subsection, "standard operating capacity" means the total capacity expected to be available in both local confinement facilities and in the Division of Adult Correction and Juvenile Justice once all the proceeds of bonds authorized by Chapter 933 of the 1989 Session Laws and Chapter 935 of the 1989 Session Laws have been expended for the construction of prison facilities."

Session Law 2017-190 **S.B. 410**

AN ACT TO ESTABLISH A PROGRAM FOR THE LEASING OF PUBLIC BOTTOM AND SUPERJACENT WATER COLUMN FOR MARINE AQUACULTURE, TO REQUIRE THE DIVISION OF MARINE FISHERIES OF THE DEPARTMENT OF ENVIRONMENTAL QUALITY TO REQUEST THE ISSUANCE OF FEDERAL RULES TO ALLOW MARINE AQUACULTURE IN FEDERAL WATERS OFF THE COAST OF THE STATE, AND TO ESTABLISH ADDITIONAL TRANSPARENCY REQUIREMENTS FOR MEMBERS OF THE MARINE FISHERIES COMMISSION.

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 113 of the General Statutes is amended by adding a new Article to read:

"Article 16A.
"Marine Aquaculture.

"**§ 113-215. Definitions.**

In addition to the definitions in G.S. 113-128 and G.S. 113-129, the following definitions shall apply in this Article,

(1) Marine aquaculture. – The propagation and rearing of marine aquatic species in controlled or selected environments, including, but not limited to, ocean ranching, marine hatcheries, and other deep water fish farming operations in the coastal fishing waters of the State and, to the extent not inconsistent with federal law, to the limits of the United States exclusive economic zone, as that term is defined in the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. § 1801, et seq.

(2) Marine aquaculture lease. – A lease of the public bottom and superjacent water column granted by the Secretary for marine aquaculture.

(3) Marine aquatic species. – Any species of finfish, mollusk, crustacean, or other aquatic invertebrate, amphibian, reptile, or aquatic plant, and including, but not limited to, "fish" and "fishes," as defined in G.S. 113-129(7), found exclusively or for part of its life cycle in coastal fishing waters.

"**§ 113-216. Legislative findings and declaration of policy.**

The General Assembly finds that development of a marine aquaculture industry in the State provides increased seafood production and long-term economic and employment opportunities. The General Assembly declares that it is the policy of the State to encourage the development of private, commercial marine aquaculture in ways that are compatible with other public uses of marine and estuarine resources such as navigation, fishing, and recreation.

"**§ 113-217. New leases for marine aquaculture.**

(a) To increase the use of suitable areas underlying coastal fishing waters for establishment of marine aquaculture, the Secretary may grant marine aquaculture leases under the terms of this section when the Secretary determines, in accordance with the Secretary's duty to conserve the marine and estuarine resources of the State, that the public interest will benefit from issuance of the lease. Suitable areas for marine aquaculture shall meet the following minimum standards:

(1) The area leased must not contain a natural commercially significant shellfish bed.

(2) The marine aquaculture operation in the leased area will not unreasonably interfere with lawful utilization by the public of other marine and estuarine resources. Other public uses which may be considered include, but are not limited to, navigation, fishing, and recreation.

(3) The operation of a marine aquaculture operation in the leased area will not unreasonably interfere upon the rights of riparian owners.

(4) The area leased must not include an area designated for inclusion in the Department's Shellfish Management Program.

(5) The area leased must not include an area that the State Health Director has recommended be closed to shellfish harvest by reason of pollution.

(6) The marine aquaculture operation would not unreasonably interfere with public access and use of waters of the State, taking into account the potential economic impact of the operation.

(7) Aquaculture use of the leased area must not significantly impair navigation.

(8) The leased area must not be within a navigation channel marked or maintained by a State or federal agency.

(9) The leased area must not be within an area traditionally used and available for significant levels of fishing or hunting activities incompatible with the activities proposed by the leaseholder, such as trawling or seining.

(10) Aquaculture use of the leased area must not significantly interfere with the exercise of riparian rights by adjacent property owners, including access to navigation channels from piers or other means of access.

(b) The Secretary may delete any part of an area proposed for lease or may condition a lease to protect the public interest with respect to the factors enumerated in subsection (a) of this section. The Secretary shall enter into memoranda of agreement with the United States Army Corps of Engineers or any other appropriate State or federal regulatory agencies to provide for appropriate standards and markings for marine aquaculture structures to avoid impairment of navigation.

(c) No person, including a corporate entity or single family unit, may acquire and hold by lease, lease renewal, or purchase more than 1,500 acres under marine aquaculture leases. No individual lease may exceed 100 acres. For purposes of this subsection, the number of acres of leases held by a person includes acres held by a corporation in which the person holds an interest.

(d) Any person desiring to apply for a lease must make written application to the Secretary on forms prepared by the Department containing such information as deemed necessary to determine the desirability of granting or not granting the lease requested. Except in the case of renewal leases, the application must be accompanied by a map or diagram made at the expense of the applicant, showing the area proposed to be leased.

(e) The map or diagram must conform to standards prescribed by the Secretary concerning accuracy of map or diagram and the amount of detail that must be shown. If, on the basis of the application information and map or diagram, the Secretary deems that granting the lease would benefit the marine aquaculture industry of North Carolina, the Secretary must order an investigation of the area proposed to be leased. The investigation is to be made by the Secretary or the Secretary's authorized agent to determine whether the area proposed to be leased is consistent with the standards in subsection (a) of this section. In the event the Secretary finds the application inconsistent with the applicable standards, the Secretary shall deny the application or propose that a conditional lease be issued that is consistent with the applicable standards. In the event the Secretary authorizes amendment of the application, the applicant must furnish a new map or diagram meeting requisite standards showing the area proposed to be leased under the amended application. At the time of making an application for an initial lease, the applicant must pay a filing fee of two hundred dollars ($200.00).

(f) The area proposed to be leased must be as compact as possible, taking into consideration the shape of the body of water, the consistency of the bottom, and the desirability of separating the boundaries of a leasehold by a sufficient distance from any other marine aquaculture operations or shellfish leases.

(g) Within 60 days after receipt of an application that complies with subsection (e) of this section, the Secretary shall notify the applicant of the intended action on the lease application. If the intended action is approval of the application as submitted, or approval with a modification to which the applicant agrees, the Secretary shall conduct a public hearing in the county where the proposed leasehold lies. The Secretary must publish at least two notices of the intention to lease in a newspaper of general circulation in the county in which the proposed leasehold lies. The first publication must precede the public hearing by more than 20 days; the second publication must follow the first by seven to 11 days. The notice of intention to lease must contain a description of the area of the proposed leasehold sufficient to establish its boundaries with reasonable ease and certainty and must also contain the date, hour, and place of the hearing.

(h) After consideration of the public comment received and any additional investigations the Secretary orders to evaluate the comments, the Secretary shall notify the applicant in person or by certified or registered mail of the decision on the lease application. The Secretary shall also notify persons who submitted comments at the public hearing and requested notice of the lease decision. An applicant who is dissatisfied with the Secretary's decision or another person aggrieved by the decision may commence a contested case by filing a petition under G.S. 150B-23 within 20 days after receiving notice of the Secretary's decision. In the event the Secretary's decision is a modification to which the applicant agrees, the lease applicant must furnish an amended map or diagram before the lease can be issued by the Secretary.

(i) After a lease application is approved by the Secretary, the applicant shall submit to the Secretary information sufficient to define the bounds of the area approved for leasing with markers in accordance with the rules of the Commission. The information shall conform to standards prescribed by the Secretary concerning accuracy of survey and the amount of detail to be shown. When information is submitted, the boundaries are marked and all fees and rents due in advance are paid, the Secretary shall execute the lease on forms approved by the Attorney General. The Secretary is authorized, with the approval of the lessee, to amend an existing lease by reducing the area under lease or by combining contiguous leases without increasing the total area leased.

(j) Initial leases begin upon the issuance of the lease by the Secretary and expire at noon on the first day of July following the twentieth anniversary of the granting of the lease. Renewal leases are issued for a period of 20 years from the time of expiration of the previous lease. At the time of making application for renewal of a lease, the applicant must pay a filing fee of one hundred dollars ($100.00). The rental for initial leases and renewed leases is two hundred ten dollars ($210.00) per acre, per year. Rental must be paid annually in advance prior to the first day of April each year. Upon initial granting of a lease, the pro rata amount for the portion of the year left until the first day of July must be paid in advance at the rate of two hundred ten dollars ($210.00) per acre, per year; then, on or before the first day of April next, the lessee must pay the rental for the next full year.

(k) Except as otherwise restricted by this Article, leaseholds granted under this section are to be treated as if they were real property and are subject to all laws relating to taxation, sale, devise, inheritance, gift, seizure and sale under execution or other legal process, and the like. Leases properly acknowledged and probated are eligible for recordation in the same manner as instruments conveying an estate in real property. Within 30 days after transfer of beneficial ownership of all or any portion of or interest in a leasehold to another, the new owner must notify the Secretary of such fact. Such transfer is not valid until notice is furnished to the Secretary.

(*l*) Upon receipt of notice by the Secretary of any of the following occurrences, the Secretary must commence action to terminate the leasehold:

(1) Failure to pay the annual rent in advance.

(2) Failure to file information required by the Secretary upon annual remittance of rental or filing false information on the form required to accompany the annual remittance of rental.

(3) Failure by new owner to report a transfer of beneficial ownership of all, or any portion of, or interest in the leasehold.

(4) Failure to mark the boundaries in the leasehold and to keep them marked as required in the rules of the Marine Fisheries Commission.

(5) Failure to utilize the leasehold on a continuing basis for marine aquaculture purposes, except if marine aquaculture activities under the lease are suspended as a part of a disease or biosecurity plan.

(m) In the event the leaseholder takes steps within 30 days to remedy the situation upon which the notice of intention to terminate was based, and the Secretary is satisfied that continuation of the lease is in the best interests of the shellfish culture of the State, the Secretary may discontinue termination procedures. Where there is no discontinuance of termination procedures, the leaseholder may initiate a contested case by filing a petition under G.S. 150B-23 within 30 days of receipt of notice of intention to terminate. Where the leaseholder does not initiate a contested case, or the final decision upholds termination, the Secretary must send a final letter of termination to the leaseholder. The final letter of termination may not be mailed sooner than 30 days after receipt by the leaseholder of the Secretary's notice of intention to terminate, or of the final agency decision, as appropriate. The lease is terminated effective at midnight on the day the final notice of termination is served on the leaseholder. The final notice of termination may not be issued pending hearing of a contested case initiated by the leaseholder.

Service of any notice required in this subsection may be accomplished by certified mail, return receipt requested; personal service by any law enforcement officer; or upon the failure of these two methods, publication. Service by publication shall be accomplished by publishing such notices in a newspaper of general circulation within the county where the lease is located for at least once a week for three successive weeks and by posting the notices on the Commission's Web site. The format for notice by publication shall be approved by the Attorney General.

(n) Upon final termination of any leasehold, the leased area in question is thrown open to the public for use in accordance with laws and rules governing use of public grounds

generally. Within 30 days of final termination of the leasehold, the former leaseholder shall remove all abandoned markers denominating the area of the leasehold. The State may, after 10 days' notice to the owner of the abandoned markers thereof, remove the abandoned structure and have the area cleaned up. The cost of such removal and cleanup shall be payable by the owner of the abandoned markers and the State may bring suit to recover the costs thereof.

(o) Every year between January 1 and February 15, the Secretary must mail to all leaseholders a notice of the annual rental due and include forms designed by the Secretary for determining the amount of harvest gathered. Such forms may contain other pertinent questions relating to the utilization of the leasehold in the best interests of the aquaculture industry of the State and must be executed and returned by the leaseholder with the payment of the leaseholder's rental. Any leaseholder or the leaseholder's agent executing such forms for the leaseholder who knowingly makes a false statement on such forms is guilty of a Class 1 misdemeanor.

"**§ 113-218. Protection of private marine aquaculture rights.**

It is unlawful for any person, other than the holder of a lease issued under this Article, to take or attempt to take marine species being produced under the license and associated lease from any privately leased, franchised, or deeded marine aquaculture operation without written authorization of the holder and with actual knowledge it is a marine aquaculture leased area. Actual knowledge will be presumed when the marine species are taken or attempted to be taken under the following circumstances:

(1) From within the confines of posted boundaries of the area as identified by signs, whether the whole or any part of the area is posted; or

(2) When the area has been regularly posted and identified and the person knew the area to be the subject of private marine aquaculture rights.

A violation of this subsection shall constitute a Class A1 misdemeanor, which may include a fine of not more than five thousand dollars ($5,000). The written authorization shall include the lease number or deed reference, name and address of authorized person, date of issuance, and date of expiration, and it must be signed by the holder of the marine aquaculture rights. Identification signs shall include the lease number or deed reference and the name of the holder."

SECTION 2. The Division of Marine Fisheries of the Department of Environmental Quality shall do the following:

(1) Request that the Mid-Atlantic and South Atlantic Fishery Management Councils develop a Fishery Management Plan for regulating offshore aquaculture in federal waters offshore from the North Carolina coast.

(2) Petition the National Oceanic and Atmospheric Administration to initiate rule-making proceedings to implement a comprehensive regulatory program for managing the development of an environmentally sound and economically sustainable aquaculture fishery in federal waters offshore from the North Carolina coast.

The Division shall provide an interim report to the Joint Legislative Oversight Committee on Agriculture and Natural and Economic Resources no later than February 1, 2018, regarding their progress in implementing this section and a final report on or before May 1, 2018, that includes the request and petition required by this section.

SECTION 3. G.S. 143B-289.54 is amended by adding a new subsection to read:

"(m) Transparency. – The Commission shall establish official e-mail accounts for all Commission members. These e-mail accounts shall be used for all electronic communications related to the work of the Commission and those communications shall be considered public records under Chapter 132 of the General Statutes. Other than routine communication sent from Division staff to all Commission members, electronic communications among a majority of the Commission shall be an "official meeting" as defined in Article 33C of Chapter 143 of the General Statutes. Failure to comply with this subsection shall be subject to investigation by the State Ethics Commission as unethical conduct and removal under subsection (h) of this section

as misfeasance. Nothing in this subsection is intended to limit or eliminate any privilege existing at common law or under statute."

SECTION 3.1.(a) Definitions. – "Importation of Marine and Estuarine Organisms Rule" means 15A NCAC 03I .0104 (Introduce, Transfer or Hold Imported Marine and Estuarine Organisms) for purposes of this section and its implementation.

SECTION 3.1.(b) Importation of Marine and Estuarine Organisms Rule. – Until the effective date of the revised permanent rule that the Marine Fisheries Commission is required to adopt pursuant to subsection (d) of this section, the Commission and the Division of Marine Fisheries of the Department of Environmental Quality shall implement the Importation of Marine and Estuarine Organisms Rule, as provided in subsection (c) of this section.

SECTION 3.1.(c) Implementation. – Use of American eels imported from Virginia or South Carolina in an aquaculture operation is exempt from the permitting requirements of the Importation of Marine and Estuarine Organisms Rule.

SECTION 3.1.(d) Additional Rule-Making Authority. – The Commission shall adopt a rule to amend the Importation of Marine and Estuarine Organisms Rule consistent with subsection (c) of this section. Notwithstanding G.S. 150B-19(4), the rule adopted by the Commission, pursuant to this section, shall be substantively identical to the provisions of subsection (c) of this section. Rules adopted pursuant to this section are not subject to Part 3 of Article 2A of Chapter 150B of the General Statutes. Rules adopted pursuant to this section shall become effective as provided in G.S. 150B-21.3(b1) as though 10 or more written objections had been received as provided by G.S. 150B-21.3(b2).

SECTION 3.1.(e) Sunset. – This section expires when permanent rules adopted as required by subsection (d) of this section become effective.

STATE PARTICIPATION IN SITING OF ATLANTIC INTRACOASTAL WATERWAY DREDGED MATERIAL DISPOSAL EASEMENTS

SECTION 3.2.(a) The Division of Water Resources of the Department of Environmental Quality and the State Property Office are authorized to negotiate with appropriate agencies of the federal government an agreement for the State to assume responsibility for acquiring dredged material easement sites appropriate for maintenance dredging of the Atlantic Intracoastal Waterway between the border with the state of South Carolina and the border with the Commonwealth of Virginia in exchange for the reduction in size and possible change in location of dredged material disposal easement sites currently held by the federal government. The agreement shall provide for the federal government to relinquish certain dredged material disposal easements that are excess to maintenance project needs in exchange for the acquisition and furnishing to the federal government other easements that are sited and permitted by the Division of Coastal Management and acquired by the State Property Office under its powers of condemnation or otherwise using such funds as may be appropriated by the General Assembly from the Shallow Draft Navigation Channel Dredging and Aquatic Weed Fund established under Part 8B of Article 21 of Chapter 143 of the General Statutes for that purpose.

SECTION 3.2.(b) G.S. 143-215.73F(b) is amended by adding a new subdivision to read:

"(4) To provide funding for siting and acquisition of dredged disposal easement sites associated with the maintenance of the Atlantic Intracoastal Waterway between the border with the state of South Carolina and the border with the Commonwealth of Virginia, under a Memorandum of Agreement between the State and the federal government."

SECTION 4. Section 1 of this act becomes effective October 1, 2017. The remainder of this act is effective when it becomes law.

"(q2) Deaf or Hard of Hearing Designation. – The Division shall develop, in consultation with the Department of Public Safety, the State Highway Patrol, the Division of Services for the Deaf and Hard of Hearing, and pursuant to this subsection, a drivers license designation that may, upon request, be granted to a person who is deaf or hard of hearing. The Division shall comply with the following requirements applicable to the designation:

(1) At the request of a person who is deaf or hard of hearing, the Division shall place a unique symbol on the front of the person's license. AN ACT TO REFORM NORTH CAROLINA'S APPROACH TO INTEGRATION OF RENEWABLE ELECTRICITY GENERATION THROUGH AMENDMENT OF LAWS RELATED TO ENERGY POLICY AND TO ENACT THE DISTRIBUTED RESOURCES ACCESS ACT.

The General Assembly of North Carolina enacts:

PART I. STANDARD CONTRACTS FOR SMALL POWER PRODUCERS

SECTION 1.(a) G.S. 62-3(27a) reads as rewritten:

"(27a) "Small power producer" means a person or corporation owning or operating an electrical power production facility ~~with a power production capacity which, together with any other facilities located at the same site, does not exceed 80 megawatts of electricity and which depends upon renewable resources for its primary source of energy. For the purposes of this section, renewable resources shall mean: hydroelectric power. A small power producer shall not include persons primarily engaged in the generation or sale of electricity from other than small power production facilities.~~that qualifies as a "small power production facility" under 16 U.S.C. § 796, as amended."

SECTION 1.(b) G.S. 62-156 reads as rewritten:

"**§ 62-156. Power sales by small power producers to public utilities.**

(a) In the event that a small power producer and an electric public utility are unable to mutually agree to a contract for the sale of electricity or to a price for the electricity purchased by the electric public utility, the ~~commission~~ Commission shall require the electric public utility to purchase the power, under rates and terms established as provided in ~~subsection (b) of this section.~~subsection (b) or (c) of this section.

(b) ~~No later than March 1, 1981, and at~~At least every two ~~years thereafter,~~years, the ~~commission~~ Commission shall determine the standard contract avoided cost rates to be included within the tariffs of each electric public utility and paid by electric public utilities for power purchased from small power producers, according to the following standards:

(1) ~~Term of Contract. –~~ Standard Contract for Small Power Producers up to 1,000 kilowatts (kW). – The Commission shall approve a standard offer power purchase agreement to be used by the electric public utility in purchasing energy and capacity from small power producers subject to this

subsection. Long-term contracts up to 10 years for the purchase of electricity by the electric public utility from small power producers with a design capacity up to and including 1,000 kilowatts (kW) shall be encouraged in order to enhance the economic feasibility of these small power production ~~facilities.~~facilities; provided, however, that when an electric public utility, pursuant to this subsection, has entered into power purchase agreements with small power producers from facilities (i) in the aggregate capacity of 100 megawatts (MW) or more and (ii) which established a legally enforceable obligation after November 15, 2016, the eligibility threshold for that utility's standard offer shall be reduced to 100 kilowatts (kW).

(2) Avoided Cost of Energy to the Utility. – The rates paid by ~~a~~ an electric public utility to a small power producer for energy shall not exceed, over the term of the purchase power contract, the incremental cost to the electric public utility of the electric energy which, but for the purchase from a small power producer, the utility would generate or purchase from another source. A determination of the avoided energy costs to the utility shall include a consideration of the following factors over the term of the power contracts: the expected costs of the additional or existing generating capacity which could be displaced, the expected cost of fuel and other operating expenses of electric energy production which a utility would otherwise incur in generating or purchasing power from another source, and the expected security of the supply of fuel for the utilities' alternative power sources.

(3) Availability and Reliability of Power. – The rates to be paid by electric public utilities for ~~power~~ capacity purchased from a small power producer shall be established with consideration of the reliability and availability of the power. A future capacity need shall only be avoided in a year where the utility's most recent biennial integrated resource plan filed with the Commission pursuant to G.S. 62-110.1(c) has identified a projected capacity need to serve system load and the identified need can be met by the type of small power producer resource based upon its availability and reliability of power, other than swine or poultry waste for which a need is established consistent with G.S. 62-133.8(e) and (f).

(c) Rates to be paid by electric public utilities to small power producers not eligible for the utility's standard contract pursuant to subsection (b) of this section shall be established through good-faith negotiations between the utility and small power producer, subject to the Commission's oversight as required by law. In establishing rates for purchases from such small power producers, the utility shall design rates consistent with the most recent Commission-approved avoided cost methodology for a fixed five-year term. Rates for such purchases shall take into account factors related to the individual characteristics of the small power producer, as well as the factors identified in subdivisions (2) and (3) of subsection (b) of this section. Notwithstanding this subsection, small power producers that produce electric energy primarily by the use of any of the following renewable energy resources may negotiate for a fixed-term contract that exceeds five years: (i) swine or poultry waste; (ii) hydropower, if the hydroelectric power facility total capacity is equal to or less than five megawatts (MW); or (iii) landfill gas, manure digester gas, agricultural waste digester gas, sewage digester gas, or sewer sludge digester gas.

(d) Notwithstanding any other provision of this section, an electric public utility shall not be required to enter into a contract with or purchase power from a small power producer if the electric public utility's obligation to purchase from such small power producers has been terminated pursuant to 18 C.F.R. § 292.309."

SECTION 1.(c) A small power production facility which would otherwise be eligible for the standard offer rate schedules and power purchase agreement terms and conditions approved by the Commission in Docket No. E-100, Sub 140, but which fails to

commence delivering power to the utility on or before September 10, 2018, shall, notwithstanding such failure, remain eligible for such rate schedules and terms and conditions, unless the nameplate capacity of the generation facility when taken together with the nameplate capacity of other generation facilities connected to the same substation transformer exceeds the nameplate capacity of the substation transformer. The term of a power purchase agreement eligible for such rate schedules and terms and conditions pursuant to this section shall commence on September 10, 2018, and shall end on the date that is 15 years after the commencement date. An electric public utility shall have the option in its discretion of electing not to interconnect to its distribution system a solar photovoltaic facility with a nameplate capacity of 10 megawatts (MW) or greater that had not executed an interconnection agreement prior to July 1, 2017, and instead requiring such facility to interconnect to the utility's transmission system.

SECTION 1.(d) This section is effective when it becomes law. Subsection (b) of this section applies to any standard contract rates and terms approved by the Commission or nonstandard negotiated agreements entered into between a small power producer and the electric public utility on or after that date. Subsection (c) of this section applies to small power production facilities that established a legally enforceable obligation in accordance with the Commission's then applicable requirements on or before November 15, 2016.

PART II. COMPETITIVE PROCUREMENT OF RENEWABLE ENERGY

SECTION 2.(a) Article 6 of Chapter 62 of the General Statutes is amended by adding a new section to read:

"**§ 62-110.8. Competitive procurement of renewable energy.**

(a) Each electric public utility shall file for Commission approval a program for the competitive procurement of energy and capacity from renewable energy facilities with the purpose of adding renewable energy to the State's generation portfolio in a manner that allows the State's electric public utilities to continue to reliably and cost-effectively serve customers' future energy needs. Renewable energy facilities eligible to participate in the competitive procurement shall include those facilities that use renewable energy resources identified in G.S. 62-133.8(a)(8) but shall be limited to facilities with a nameplate capacity rating of 80 megawatts (MW) or less that are placed in service after the date of the electric public utility's initial competitive procurement. Subject to the limitations set forth in subsections (b) and (c) of this section, the electric public utilities shall issue requests for proposals to procure and shall procure, energy and capacity from renewable energy facilities in the aggregate amount of 2,660 megawatts (MW), and the total amount shall be reasonably allocated over a term of 45 months beginning when the Commission approves the program. The Commission shall require the additional competitive procurement of renewable energy capacity by the electric public utilities in an amount that includes all of the following: (i) any unawarded portion of the initial competitive procurement required by this subsection; (ii) any deficit in renewable energy capacity identified pursuant to subdivision (1) of subsection (b) of this section; and (iii) any capacity reallocated pursuant to G.S. 62-159.2. In addition, at the termination of the initial competitive procurement period of 45 months, the offering of a new renewable energy resources competitive procurement and the amount to be procured shall be determined by the Commission, based on a showing of need evidenced by the electric public utility's most recent biennial integrated resource plan or annual update approved by the Commission pursuant to G.S. 62-110.1(c).

(b) Electric public utilities may jointly or individually implement the aggregate competitive procurement requirements set forth in subsection (a) of this section and may satisfy such requirements for the procurement of renewable energy capacity to be supplied by renewable energy facilities through any of the following: (i) renewable energy facilities to be acquired from third parties and subsequently owned and operated by the soliciting public utility or utilities; (ii) renewable energy facilities to be constructed, owned, and operated by the soliciting public utility or utilities subject to the limitations of subdivision (4) of this

subsection; or (iii) the purchase of renewable energy, capacity, and environmental and renewable attributes from renewable energy facilities owned and operated by third parties that commit to allow the procuring public utility rights to dispatch, operate, and control the solicited renewable energy facilities in the same manner as the utility's own generating resources. Procured renewable energy capacity, as provided for in this section, shall be subject to the following limitations:

(1) If prior to the end of the initial 45-month competitive procurement period the public utilities subject to this section have executed power purchase agreements and interconnection agreements for renewable energy capacity within their balancing authority areas that are not subject to economic dispatch or curtailment and were not procured pursuant to G.S. 62-159.2 having an aggregate capacity in excess of 3,500 megawatts (MW), the Commission shall reduce the competitive procurement aggregate amount by the amount of such exceedance. If the aggregate capacity of such renewable energy facilities is less than 3,500 megawatts (MW) at the end of the initial 45-month competitive procurement period, the Commission shall require the electric public utilities to conduct an additional competitive procurement in the amount of such deficit.

(2) To ensure the cost-effectiveness of procured new renewable energy resources, each public utility's procurement obligation shall be capped by the public utility's current forecast of its avoided cost calculated over the term of the power purchase agreement. The public utility's current forecast of its avoided cost shall be consistent with the Commission-approved avoided cost methodology.

(3) Each public utility shall submit to the Commission for approval and make publicly available at 30 days prior to each competitive procurement solicitation a pro forma contract to be utilized for the purpose of informing market participants of terms and conditions of the competitive procurement. Each pro forma contract shall define limits and compensation for resource dispatch and curtailments. The pro forma contract shall be for a term of 20 years; provided, however, the Commission may approve a contract term of a different duration if the Commission determines that it is in the public interest to do so.

(4) No more than thirty percent (30%) of an electric public utility's competitive procurement requirement may be satisfied through the utility's own development of renewable energy facilities offered by the electric public utility or any subsidiary of the electric public utility that is located within the electric public utility's service territory. This limitation shall not apply to any renewable energy facilities acquired by an electric public utility that are selected through the competitive procurement and are located within the electric public utility's service territory.

(c) Subject to the aggregate competitive procurement requirements established by this section, the electric public utilities shall have the authority to determine the location and allocated amount of the competitive procurement within their respective balancing authority areas, whether located inside or outside the geographic boundaries of the State, taking into consideration (i) the State's desire to foster diversification of siting of renewable energy resources throughout the State; (ii) the efficiency and reliability impacts of siting of additional renewable energy facilities in each public utility's service territory; and (iii) the potential for increased delivered cost to a public utility's customers as a result of siting additional renewable energy facilities in a public utility's service territory, including additional costs of ancillary services that may be imposed due to the operational or locational characteristics of a specific renewable energy resource technology, such as nondispatchability, unreliability of availability, and creation or exacerbation of system congestion that may increase redispatch costs.

(d) The competitive procurement of renewable energy capacity established pursuant to this section shall be independently administered by a third-party entity to be approved by the Commission. The third-party entity shall develop and publish the methodology used to evaluate responses received pursuant to a competitive procurement solicitation and to ensure that all responses are treated equitably. All reasonable and prudent administrative and related expenses incurred to implement this subsection shall be recovered from market participants through administrative fees levied upon those that participate in the competitive bidding process, as approved by the Commission.

(e) An electric public utility may participate in any competitive procurement process, but shall only participate within its own assigned service territory. If the public utility uses nonpublicly available information concerning its own distribution or transmission system in preparing a proposal to a competitive procurement, the public utility shall make such information available to third parties that have notified the public utility of their intention to submit a proposal to the same request for proposals.

(f) For purposes of this section, the term "balancing authority" means the entity that integrates resource plans ahead of time, maintains load-interchange-generation balance within a balancing authority area, and supports interconnection frequency in real time, and the term "balancing authority area" means the collection of generation, transmission, and loads within the metered boundaries of the balancing authority, and the balancing authority maintains load-resource balance within this area.

(g) An electric public utility shall be authorized to recover the costs of all purchases of energy, capacity, and environmental and renewable attributes from third-party renewable energy facilities and to recover the authorized revenue of any utility-owned assets that are procured pursuant to this section through an annual rider approved by the Commission and reviewed annually. Provided it is in the public interest, the authorized revenue for any renewable energy facilities owned by an electric public utility may be calculated on a market basis in lieu of cost-of-service based recovery, using data from the applicable competitive procurement to determine the market price in accordance with the methodology established by the Commission pursuant to subsection (h) of this section. The annual increase in the aggregate amount of these costs that are recoverable by an electric public utility pursuant to this subsection shall not exceed one percent (1%) of the electric public utility's total North Carolina retail jurisdictional gross revenues for the preceding calendar year.

(h) The Commission shall adopt rules to implement the requirements of this section, as follows:

(1) Oversight of the competitive procurement program.

(2) To provide for a waiver of regulatory conditions or code of conduct requirements that would unreasonably restrict a public utility or its affiliates from participating in the competitive procurement process, unless the Commission finds that such a waiver would not hold the public utility's customers harmless.

(3) Establishment of a procedure for expedited review and approval of certificates of public convenience and necessity, or the transfer thereof, for renewable energy facilities owned by the public utility and procured pursuant to this section. The Commission shall issue an order not later than 30 days after a petition for a certificate is filed by the public utility.

(4) Establishment of a methodology to allow an electric public utility to recover its costs pursuant to subsection (g) of this section.

(5) Establishment of a procedure for the Commission to modify or delay implementation of the provisions of this section in whole or in part if the Commission determines that it is in the public interest to do so.

(i) The requirements of this section shall not apply to an electric public utility serving fewer than 150,000 North Carolina retail jurisdictional customers as of January 1, 2017."

SECTION 2.(b) G.S. 62-153(b) reads as rewritten:

"(b) No public utility shall pay any fees, commissions or compensation of any description whatsoever to any affiliated or subsidiary holding, managing, operating, constructing, engineering, financing or purchasing company or agency for services rendered or to be rendered without first filing copies of all proposed agreements and contracts with the Commission and obtaining its approval. Provided, however, that this subsection shall not apply to (i) motor carriers of ~~passengers.~~passengers or (ii) power purchase agreements entered into pursuant to the competitive renewable energy procurement process established pursuant to G.S. 62-110.8."

SECTION 2.(c) This section is effective when it becomes law. The program required to be filed with the Utilities Commission pursuant to G.S. 62-110.8(a), as enacted by subsection (a) of this section, shall be filed by the electric public utility no later than 120 days after the effective date of this section, and the Commission shall issue an order to approve, modify, or deny the program no later than 90 days after the submission of the program by the electric public utility.

PART III. RENEWABLE ENERGY PROCUREMENT FOR MAJOR MILITARY INSTALLATIONS, PUBLIC UNIVERSITIES, AND OTHER LARGE CUSTOMERS

S**ECTION 3.(a)** Article 7 of Chapter 62 of the General Statutes is amended by adding a new section to read:

"**§ 62-159.2. Direct renewable energy procurement for major military installations, public universities, and large customers.**

(a) Each electric public utility providing retail electric service to more than 150,000 North Carolina retail jurisdictional customers as of January 1, 2017, shall file with the Commission an application requesting approval of a new program applicable to major military installations, as that term is defined in G.S. 143-215.115(1), The University of North Carolina, as established in Article 1 of Chapter 116 of the General Statutes, and other new and existing nonresidential customers with either a contract demand (i) equal to or greater than one megawatt (MW) or (ii) at multiple service locations that, in aggregate, is equal to or greater than five megawatts (MW).

(b) Each public utility's program application required by this section shall provide standard contract terms and conditions for participating customers and for renewable energy suppliers from which the electric public utility procures energy and capacity on behalf of the participating customer. The application shall allow eligible customers to select the new renewable energy facility from which the electric public utility shall procure energy and capacity. The standard terms and conditions available to renewable energy suppliers shall provide a range of terms, between two years and 20 years, from which the participating customer may elect. Eligible customers shall be allowed to negotiate with renewable energy suppliers regarding price terms.

(c) Each contracted amount of capacity shall be limited to no more than one hundred twenty-five percent (125%) of the maximum annual peak demand of the eligible customer premises. Each public utility shall establish reasonable credit requirements for financial assurance for eligible customers that are consistent with the Uniform Commercial Code of North Carolina. Major military installations and The University of North Carolina are exempt from the financial assurance requirements of this section.

(d) The program shall be offered by the electric public utilities subject to this section for a period of five years or until December 31, 2022, whichever is later, and shall not exceed a combined 600 megawatts (MW) of total capacity. For the public utilities subject to this section, where a major military installation is located within its Commission-assigned service territory, at least 100 megawatts (MW) of new renewable energy facility capacity offered under the program shall be reserved for participation by major military installations. At least 250 megawatts (MW) of new renewable energy facility capacity offered under the programs shall also be reserved for participation by The University of North Carolina. Major military installations and The University of North Carolina must fully subscribe to all their allocations

prior to December 31, 2020, or a period of no more than three years after approval of the program, whichever is later. If any portion of total capacity set aside to major military installations or The University of North Carolina is not used, it shall be reallocated for use by any eligible program participant. If any portion of the 600 megawatts (MW) of renewable energy capacity provided for in this section is not awarded prior to the expiration of the program, it shall be reallocated to and included in a competitive procurement in accordance with G.S. 62-110.8(a).

(e) In addition to the participating customer's normal retail bill, the total cost of any renewable energy and capacity procured by or provided by the electric public utility for the benefit of the program customer shall be paid by that customer. The electric public utility shall pay the owner of the renewable energy facility which provided the electricity. The program customer shall receive a bill credit for the energy as determined by the Commission; provided, however, that the bill credit shall not exceed utility's avoided cost. The Commission shall ensure that all other customers are held neutral, neither advantaged nor disadvantaged, from the impact of the renewable electricity procured on behalf of the program customer."

SECTION 3.(b) This section is effective when it becomes law. The application required to be filed with the Utilities Commission pursuant to G.S. 62-159.2, as enacted by subsection (a) of this section, shall be filed by the electric public utility no later than 180 days after the effective date of this section.

PART IV. COST-RECOVERY FOR CERTAIN SMALL POWER PRODUCER PURCHASES

SECTION 4.(a) G.S. 62-133.2 reads as rewritten:

"**§ 62-133.2. Fuel and fuel-related charge adjustments for electric utilities.**

(a) The Commission shall permit an electric public utility that generates electric power by fossil fuel or nuclear fuel to charge an increment or decrement as a rider to its rates for changes in the cost of fuel and fuel-related costs used in providing its North Carolina customers with electricity from the cost of fuel and fuel-related costs established in the electric public utility's previous general rate case on the basis of cost per kilowatt hour.

(a1) As used in this section, "cost of fuel and fuel-related costs" means all of the following:

(1) The cost of fuel burned.
(2) The cost of fuel transportation.
(3) The cost of ammonia, lime, limestone, urea, dibasic acid, sorbents, and catalysts consumed in reducing or treating emissions.
(4) The total delivered noncapacity related costs, including all related transmission charges, of all purchases of electric power by the electric public utility, that are subject to economic dispatch or economic curtailment.
(5) The capacity costs associated with all purchases of electric power from qualifying cogeneration facilities and qualifying small power production facilities, as defined in 16 U.S.C. § 796, that are subject to economic dispatch by the electric public utility.
(6) Except for those costs recovered pursuant to G.S. 62-133.8(h), the total delivered costs of all purchases of power from renewable energy facilities and new renewable energy facilities pursuant to G.S. 62-133.8 or to comply with any federal mandate that is similar to the requirements of subsections (b), (c), (d), (e), and (f) of G.S. 62-133.8.
(7) The fuel cost component of other purchased power.
(8) Cost of fuel and fuel-related costs shall be adjusted for any net gains or losses resulting from any sales by the electric public utility of fuel and other fuel-related costs components.
(9) Cost of fuel and fuel-related costs shall be adjusted for any net gains or losses resulting from any sales by the electric public utility of by-products

produced in the generation process to the extent the costs of the inputs leading to that by-product are costs of fuel or fuel-related costs.

(10) The total delivered costs, including capacity and noncapacity costs, associated with all purchases of electric power from qualifying cogeneration facilities and qualifying small power production facilities, as defined in 16 U.S.C. § 796, that are not subject to economic dispatch or economic curtailment by the electric public utility and not otherwise recovered under subdivision (6) of this subsection.

(11) All nonadministrative costs related to the renewable energy procurement pursuant to G.S. 62-159.2 not recovered from the program participants.

(a2) For those costs identified in subdivisions (4), (5), ~~and (6)~~(6), (10), and (11) of subsection (a1) of this section, the annual increase in the aggregate amount of these costs that are recoverable by an electric public utility pursuant to this section shall not exceed ~~two percent (2%)~~ two and one-half percent (2.5%) of the electric public utility's total North Carolina retail jurisdictional gross revenues for the preceding calendar year. The costs described in subdivisions (4), (5), ~~and (6)~~(6), (10), and (11) of subsection (a1) of this section shall be recoverable from each class of customers as a separate component of the rider as follows:

(1) For the noncapacity costs described in ~~subdivision (4)~~subdivisions (4), (10), and (11) of subsection (a1) of this section, the specific component for each class of customers shall be determined by allocating these costs among customer classes based on the ~~electric public utility's North Carolina energy usage for the prior year,~~method used in the electric public utility's most recently filed fuel proceeding commenced on or before January 1, 2017, as determined by the Commission, until the Commission determines how these costs shall be allocated in a general rate case for the electric public utility commenced on or after January 1, ~~2008.~~2017.

(2) For the capacity costs described in subdivisions ~~(5) and (6)~~ (5), (6), (10), and (11) of subsection (a1) of this section, the specific component for each class of customers shall be determined by allocating these costs among customer classes based on the ~~electric public utility's North Carolina peak demand for the prior year,~~method used in the electric public utility's most recently filed fuel proceeding commenced on or before January 1, 2017, as determined by the Commission, until the Commission determines how these costs shall be allocated in a general rate case for the electric public utility commenced on or after January 1, ~~2008.~~2017.

…."

SECTION 4.(b) This section is effective when it becomes law.

PART V. AMEND COST CAPS FOR REPS COMPLIANCE

SECTION 5.1.(a) G.S. 62-133.8(h)(4) reads as rewritten:

"(4) An electric power supplier shall be allowed to recover the incremental costs incurred to comply with the requirements of subsections (b), (c), (d), (e), and (f) of this section and fund research as provided in subdivision (1) of this subsection through an annual rider not to exceed the following per-account annual charges:

Customer Class	**2008-2011**	**2012-2014**	**2015 and thereafter**
Residential per account	$10.00	$12.00	~~$34.00~~$27.00
Commercial per account	$50.00	$150.00	$150.00
Industrial per account	$500.00	$1,000.00	$1,000.00"

SECTION 5.1.(b) This section becomes effective July 1, 2017, and applies to cost-recovery proceedings initiated on or after that date.

COST-RECOVERY HOLD HARMLESS

SECTION 5.2. All reasonable and prudent incremental costs incurred by an electric power supplier prior to July 1, 2017, to comply with any requirement repealed or amended by this act may be recovered as provided in G.S. 62-133.8(h), as amended by this act. For the purposes of cost-recovery under this act, reasonable and prudent incremental costs shall include all of the following:

(1) Costs under purchase contracts for renewable energy entered into prior to July 1, 2017, for the purpose of complying with the renewable energy portfolio standards requirements amended by this act.

(2) The costs of renewable energy facilities built or acquired by a public utility for which a certificate of public convenience and necessity has been issued by the Commission prior to July 1, 2017.

PART VI. DISTRIBUTED RESOURCES ACCESS ACT

SECTION 6.(a) Chapter 62 of the General Statutes is amended by adding a new Article to read:

"Article 6B.

"Distributed Resources Access Act.

"**§ 62-126.1. Title.**

This Article may be cited as the "Distributed Resources Access Act."

"**§ 62-126.2. Declaration of policy.**

The General Assembly of North Carolina finds that as a matter of public policy it is in the interest of the State to encourage the leasing of solar energy facilities for retail customers and subscription to shared community solar energy facilities. The General Assembly further finds and declares that in encouraging the leasing of and subscription to solar energy facilities pursuant to this act, cross-subsidization should be avoided by holding harmless electric public utilities' customers that do not participate in such arrangements.

"**§ 62-126.3. Definitions.**

For purposes of this Article, the following definitions apply:

(1) Affiliate. – Any entity directly or indirectly controlling or controlled by or under direct or indirect common control with an electric power supplier.

(2) Commission. – The North Carolina Utilities Commission.

(3) Community solar energy facility. – A solar energy facility whose output is shared through subscriptions.

(4) Customer generator lessee. – A lessee of a solar energy facility.

(5) Electric generator lessor. – The owner of solar energy facility that leases the facility to a customer generator lessee, including any agents who act on behalf of the electric generator lessor. For purposes of this Article, an electric generator lessor shall not be considered a public utility under G.S. 62-3(23).

(6) Electric power supplier. – A public utility, an electric membership corporation, or a municipality that sells electric power to retail electric customers in the State.

(7) Electric public utility. – A public utility as defined by G.S. 62-3(23) that sells electric power to retail electric customers in the State.

(8) Maximum annual peak demand. – The maximum single hour of electric demand actually occurring or estimated to occur at a premises.

(9) Net metering. – To use electrical metering equipment to measure the difference between the electrical energy supplied to a retail electric customer by an electric power supplier and the electrical energy supplied by the retail electric customer to the electric power supplier over the applicable billing period.

(10) Offering utility. – Any electric public utility as defined in G.S. 62-3(23) serving at least 150,000 North Carolina retail jurisdictional customers as of January 1, 2017. The term shall not include any other electric public utility, electric membership corporation, or municipal electric supplier authorized to provide retail electric service within the State. An offering utility's participation in this Article as an electric generator lessor shall not otherwise alter its status as a public utility with respect to any other provision of this Chapter. An offering utility's participation in this Article shall be regulated pursuant to the provisions of this Article.

(11) Person. – The same meaning as provided by G.S. 62-3(21).

(12) Premises. – The building, structure, farm, or facility to which electricity is being or is to be furnished. Two or more buildings, structures, farms, or facilities that are located on one tract or contiguous tracts of land and that are utilized by one electric customer for commercial, industrial, institutional, or governmental purposes shall constitute one "premises," unless the electric service to the building, structures, farms, or facilities are separately metered and charged.

(13) Property. – The tract of land on which the premises is located, together with all the adjacent contiguous tracts of land utilized by the same retail electric customer.

(14) Solar energy facility. – A electric generating facility leased to a customer generator lessee that meets the following requirements:

a. Generates electricity from a solar photovoltaic system and related equipment that uses solar energy to generate electricity.

b. Is limited to a capacity of (i) not more than the lesser of 1,000 kilowatts (kW) or one hundred percent (100%) of contract demand if a nonresidential customer or (ii) not more than 20 kilowatts (kW) or one hundred percent (100%) of estimated electrical demand if a residential customer.

c. Is located on a premises owned, operated, leased, or otherwise controlled by the customer generator lessee that is also the premises served by the solar energy facility.

d. Is interconnected and operates in parallel phase and synchronization with an offering utility authorized by the Commission to provide retail electric service to the premises and has been approved for interconnection and parallel operation by that public utility.

e. Is intended only to offset no more than one hundred percent (100%) of the customer generator lessee's own retail electrical energy consumption at the premises.

f. Meets all applicable safety, performance, interconnection, and reliability standards established by the Commission, the public utility, the National Electrical Code, the National Electrical Safety Code, the Institute of Electrical and Electronics Engineers, Underwriters Laboratories, the Federal Energy Regulatory Commission, and any local governing authorities.

(15) Subscription. – A contract between a subscriber and the owner of a community solar energy facility that allows a subscriber to receive a bill credit for the electricity generated by a community solar energy facility in proportion to the electricity generated.

"**§ 62-126.4. Commission to establish net metering rates.**

(a) Each electric public utility shall file for Commission approval revised net metering rates for electric customers that (i) own a renewable energy facility for that person's own primary use or (ii) are customer generator lessees.

(b) The rates shall be nondiscriminatory and established only after an investigation of the costs and benefits of customer-sited generation. The Commission shall establish net metering rates under all tariff designs that ensure that the net metering retail customer pays its full fixed cost of service. Such rates may include fixed monthly energy and demand charges.

(c) Until the rates have been approved by the Commission as required by this section, the rate shall be the applicable net metering rate in place at the time the facility interconnects. Retail customers that own and install an on-site renewable energy facility and interconnect to the grid prior to the date the Commission approves new metering rates may elect to continue net metering under the net metering rate in effect at the time of interconnection until January 1, 2027.

"**§ 62-126.5. Scope of leasing program in offering utilities' service areas.**

(a) An offering utility and its affiliates may be deemed to be electric generator lessors and may offer leases to solar energy facilities only within the offering utility's own assigned service area or, in the case of an affiliate, the service area assigned to an affiliated offering utility. The costs an offering public utility incurs in marketing, installing, owning, or maintaining leases through its own leasing programs as a lessor shall not be recovered from other nonparticipating utility customers through rates, and the Commission shall not have any jurisdiction over the financial terms of such leases. An offering utility, and the customer generator lessees that lease facilities from it, may participate on an equal basis with other lessors and lessees and in any approved incentive program offered by the utility to its customers.

(b) An electric generator lessor that owns a solar energy facility within the assigned service area of an offering utility and that is located on a premises owned or leased by a customer generator lessee shall be permitted to lease such facility exclusively to a customer generator lessee under a lease, provided that the electric generator lessor complies with the terms, conditions, and restrictions set forth within this section and holds a valid certificate issued by the Commission pursuant to G.S. 62-126.7. An electric generator lessor shall not be considered a "public utility" under G.S. 62-3(23) if the solar energy facility is only made available to a customer generator lessee under a lease that conforms to the requirements of G.S. 62-126.6 for the customer generator lessee's use on its premises where the solar energy facility is located to serve the electric energy requirements of that particular premises, including to enable the customer generator lessee to obtain a credit for the electricity generated under an applicable net metering tariff or to engage in the sale of excess energy from the solar energy facility to an offering utility.

(c) Any lease of a solar energy facility not entered into pursuant to this section is prohibited and any electric generator lessor that enters into a lease outside of an offering utility's program implemented pursuant to this section or otherwise enters into a contract or agreement where payments are based upon the electric output of a solar energy facility shall be considered a "public utility" under G.S. 62-3(23) and be in violation of the franchised service rights of the offering utility or any other electric power supplier authorized to provide retail electric service in the State. This section does not authorize the sale of electricity from solar energy facilities directly to any customer of an offering utility or other electric power supplier by the owner of a solar energy facility. The electrical output from any solar energy facility leased pursuant to this program shall be the sole and exclusive property of the customer generator lessee.

(d) The total installed capacity of all solar energy facilities on an offering utility's system that are leased pursuant to this section shall not exceed one percent (1%) of the previous five-year average of the North Carolina retail contribution to the offering utility's coincident retail peak demand. The offering utility may refuse to interconnect customers that would result in this limitation being exceeded. Each offering utility shall establish a program for new installations of leased equipment to permit the reservation of capacity by customer generator lessees, whether participating in a public utility or nonutility lessor's leasing program, on its system, including provisions to prevent or discourage abuse of such programs. Such programs

must provide that only prospective individual customer generator lessees may apply for, receive, and hold reservations to participate in the offering utility's leasing program. Each reservation shall be for a single customer premises only and may not be sold, exchanged, traded, or assigned except as part of the sale of the underlying premises.

(e) To comply with the terms of this section, each customer generator lessor's solar energy facility shall serve only one premises and shall not serve multiple customer generator lessees or multiple premises. The customer generator lessee must enroll in the applicable rate schedule made available by the interconnecting offering utility, subject to the participation limitations set forth in subsection (a) of this section.

"**§ 62-126.6. Electric customer generator leasing requirements; disclosures; records.**

(a) A lease agreement offered by an electric generator lessor must meet the following requirements:

(1) Be signed and dated by the retail electric customer. Any agreement that contains blank spaces when signed by the retail electric customer is voidable at the option of the retail electric customer until the solar energy facility is installed.

(2) Be in at least 12-point type.

(3) Include a provision granting the retail electric customer the right to rescind the agreement for a period of not less than three business days after the agreement is signed by the retail electric customer.

(4) Provide a description of the solar energy facility, including the make and model of the solar energy facility's major components, and a guarantee concerning energy production output that the solar energy facility will provide over the expected life of the agreement.

(5) Separately set forth the following items, as applicable:

a. The total cost to the retail electric customer under the lease agreement for the solar energy facility over the life of the agreement.

b. Any interest, installation fees, document preparation fees, service fees, or other costs to be paid by the retail electric customer.

c. The total number of payments, including the interest, the payment frequency, the estimated amount of the payment expressed in dollars, and the payment due date over the leased term.

(6) Identify any State or federal tax incentives that are included in the calculation of lease payments.

(7) Disclose whether the warranty or maintenance obligations related to the solar energy facility may be sold or transferred to a third party.

(8) Include a disclosure, the receipt of which shall be separately acknowledged by the retail electric customer, if a transfer of the lease agreement is subject to any restrictions pursuant to the agreement on the retail electric customer's ability to modify or transfer ownership of a solar energy facility, including whether any modification or transfer is subject to review or approval by a third party. If the modification or transfer of the solar energy facility is subject to review or approval by a third party, the agreement must identify the name, address, and telephone number of, and provide for updating any change in, the entity responsible for approving the modification or transfer.

(9) Include a disclosure, the receipt of which shall be separately acknowledged by the retail electric customer, if a modification or transfer of ownership of the real property to which the solar energy facility is or will be affixed is subject to any restrictions pursuant to the agreement on the retail electric customer's ability to modify or transfer ownership of the real property to which the solar energy facility is installed or affixed, including whether any modification or transfer is subject to review or approval by a third party. If the modification or transfer of the real property to which the solar energy

facility is affixed or installed is subject to review or approval by a third party, the agreement must identify the name, address, and telephone number of, and provide for updating any change in, the entity responsible for approving the modification or transfer.

(10) Provide a full and accurate summary of the total costs under the agreement for maintaining and operating the solar energy facility over the life of the solar energy facility, including financing, maintenance, and construction costs related to the solar energy facility.

(11) If the agreement contains an estimate of the retail electric customer's future utility charges based on projected utility rates after the installation of a solar energy facility, provide an estimate of the retail electric customer's estimated utility charges during the same period as impacted by potential utility rate changes ranging from at least a five percent (5%) annual decrease to at least a five percent (5%) annual increase from current utility costs. The comparative estimates must be calculated based on the same utility rates.

(12) Include a disclosure, the receipt of which shall be separately acknowledged by the retail electric customer that states: "Utility rates and utility rate structures are subject to change. These changes cannot be accurately predicted and projected savings from your solar energy facility are therefore subject to change. Tax incentives are subject to change or termination by executive, legislative, or regulatory action."

(b) Before the maintenance or warranty obligations of a solar energy facility under an existing lease agreement are transferred, the person who is currently obligated to maintain or warrant the solar energy facility must disclose the name, address, and telephone number of the person who will be assuming the maintenance or warranty of the solar energy facility.

(c) If the electric generator lessor's marketing materials contain an estimate of the retail electric customer's future utility charges based on projected utility rates after the installation of a solar energy facility, the marketing materials must contain an estimate of the retail electric customer's estimated utility charges during the same period as impacted by potential utility rate changes ranging from at least a five percent (5%) annual decrease to at least a five percent (5%) annual increase from current utility costs.

"**§ 62-126.7. Commission authority over electric generator lessors.**

(a) No person shall engage in the leasing of a solar energy facility without having applied for and obtained a certificate authorizing those operations from the Commission. The application for a certificate of authority to engage in business as an electric generator lessor shall be made in a form prescribed by the Commission and accompanied by the fee required pursuant to G.S. 62-300(a)(16).

(b) In acting upon the application for a certificate of authority to engage in business as an electric generator lessor, the Commission shall take into account the State's interest in encouraging the leasing of solar electric generation facilities and avoidance of cross-subsidization as declared by the policy objectives of this Article as provided in G.S. 62-126.2, as well as the policy of the State, as provided in G.S. 62-2(a). The Commission shall issue a certificate of authority to engage in business as an electric generator lessor if the Commission finds that the applicant is fit, willing, and able to conduct that business in accordance with the provisions of this Article. The certificate shall be effective from the date issued unless otherwise specified therein and shall remain in effect until terminated under the terms thereof, or until suspended or revoked as herein provided.

(c) As a condition for issuance and continuation of a certificate of authority for an electric generator lessor, the applicant shall certify to the Commission all of the following:

(1) The applicant will register with the Commission each solar energy facility that the applicant leases to a customer generator lessee.

(2) That each lease of a solar energy facility that the applicant offers or accepts will comply with the provisions of this Article.

(3) The applicant will consent to the auditing of its books and records by the Public Staff insofar as those records relate to transactions with an offering utility or a customer generator lessee that is located in the State.

(4) That the applicant will conduct its business in substantial compliance with all federal and State laws, regulations, and rules for the protection of the environment and conservation of natural resources, the provision of electric service, and the protection of consumers.

(d) Upon the request of an electric public utility, an electric membership corporation, the Public Staff, a customer generator lessee, or person having an interest in the electric generator lessor's conduct of its business, the Commission may review the certificate to determine whether the electric generator lessor is conducting business in compliance with this Article. After notice to the electric generator lessor, the Commission may suspend the certificate and enter upon a hearing to determine whether the certificate should be revoked. After the hearing, and for good cause shown, the Commission may, in its discretion, reinstate a suspended certificate, continue a suspension of a certificate, or revoke a certificate.

(e) It shall be a violation of law punishable by a civil penalty of not more than ten thousand dollars ($10,000) per occurrence for any person to either directly or indirectly do any of the following:

(1) Solicit business as a lessor of solar energy facilities without a valid certificate issued under this section or otherwise in violation of the terms of this Article.

(2) Engage in any unfair or deceptive practice in the leasing of solar energy facilities or otherwise violate the requirements of G.S. 62-126.6.

(3) Operate in violation of the terms of the certificate issued by this Article.

"**§ 62-126.8. Community solar energy facilities.**

(a) Each offering utility shall file a plan with the Commission to offer a community solar energy facility program for participation by its retail customers. The community solar energy facility program shall be designed so that each community solar energy facility offsets the energy use of not less than five subscribers and no single subscriber has more than a forty percent (40%) interest. The offering utility shall make its community solar energy facility program available on a first-come, first-served basis until the total nameplate generating capacity of those facilities equals 20 megawatts (MW).

(b) A community solar energy facility shall have a nameplate capacity of no more than five megawatts (MW). Each subscription shall be sized to represent at least 200 watts (W) of the community solar energy facility's generating capacity and to supply no more than one hundred percent (100%) of the maximum annual peak demand of electricity of each subscriber at the subscriber's premises.

(c) A community solar energy facility must be located in the service territory of the offering utility filing the plan. Subscribers shall be located in the State of North Carolina and the same county or a county contiguous to where the facility is located. The electric public utility may file a request for Commission approval for an exemption from the location requirement of this subsection and the Commission may approve the request for a facility located up to 75 miles from the county of the subscribers, if the Commission deems the exemption to be in the public interest.

(d) The offering utility shall credit the subscribers to its community solar energy facility for all subscribed shares of energy generated by the facility at the avoided cost rate.

(e) The Commission may approve, disapprove, or modify a community solar energy facility program. The program shall meet all of the following requirements:

(1) Establish uniform standards and processes for the community solar energy facilities that allow the electric public utility to recover reasonable interconnection costs, administrative costs, fixed costs, and variable costs associated with each community solar energy facility, including purchase

expenses if a power purchase agreement is elected as the method of energy procurement by the offering utility.

(2) Be consistent with the public interest.

(3) Identify the information that must be provided to potential subscribers to ensure fair disclosure of future costs and benefits of subscriptions.

(4) Include a program implementation schedule.

(5) Identify all proposed rules and charges.

(6) Describe how the program will be promoted.

(7) Hold harmless customers of the electric public utility who do not subscribe to a community solar energy facility.

(8) Allow subscribers to have the option to own the renewable energy certificates produced by the community solar energy facility.

"**§ 62-126.9. Scope of leasing program by municipalities.**

(a) A municipality that sells electric power to retail customers in the State may elect, by action of its governing council or commission, to be deemed to be an electric generator lessor and may offer leases to solar energy facilities located within the municipality's service territory. The costs a municipality incurs in marketing, installing, owning, or maintaining leases through its own leasing programs as a lessor shall not be recovered from other nonparticipating municipality retail customers through rates.

(b) Provided the municipality has elected to offer a leasing program, an electric generator lessor that owns a solar energy facility within a municipality's service territory and that is located on a premises owned or leased by a customer generator lessee shall be permitted to lease such facility exclusively to a customer generator lessee pursuant to a lease under terms and conditions approved by the municipality and holds a valid certificate issued by the Commission pursuant to G.S. 62-126.7. Notwithstanding this subsection, a municipality acting as an electric generator lessor shall not be required to comply with G.S. 62-126.7.

(c) An electric generator lessor, including a municipality acting as an electric generator lessor, shall not be considered a "public utility" under G.S. 62-3(23) if the solar energy facilities are only made available to a customer generator lessee under a lease that conforms to the requirements of G.S. 62-126.6 for the customer generator lessee's use of the customer generator lessee's premises where the solar energy facility is located to serve the electric energy requirements of that particular premises, including to enable the customer generator lessee to obtain a credit under an applicable net metering tariff or to engage in the sale of excess energy from the solar energy facility to the municipality; provided, however, that the provisions of G.S. 62-126.4 shall not apply to a municipality or other electric generator lessor that offers leases to solar energy facilities located within the municipality's service territory pursuant to this section. Any net metering tariffs adopted by such municipality shall be adopted by its governing council or commission in accordance with the rate-setting procedures set forth in Article 16 of Chapter 160A of the General Statutes.

(d) Any lease of a solar energy facility in a municipal electric service area not entered into pursuant to this section is prohibited. This section does not authorize the sale of electricity from solar energy facilities directly to any customer of a municipality by the owner of a solar energy facility. The electrical output from any eligible renewable electric generation facility leased pursuant to this section shall be the sole and exclusive property of the customer generator lessee.

(e) Each eligible solar energy facility shall serve only one premises and shall not serve multiple customer generator lessees or multiple premises. The customer generator lessee must enroll in the applicable rate schedule made available by the municipality, subject to the participation limitations set forth in subsection (a) of this section.

"**§ 62-126.10. Rules.**

The Commission shall adopt rules to implement the provisions of this Article."

SECTION 6.(b) G.S. 62-3(23) reads as rewritten:

"**§ 62-3. Definitions.**

1. Producing, generating, transmitting, delivering or furnishing electricity, piped gas, steam or any other like agency for the production of light, heat or power to or for the public for compensation; provided, however, that the term "public utility" shall not include persons who construct or operate an electric generating facility, the primary purpose of which facility is ~~for such~~ either for (i) a person's own use and not for the primary purpose of producing electricity, heat, or steam for sale to or for the public for ~~compensation;~~compensation or (ii) a person who constructs or operates an eligible solar energy facility on the site of a customer's property and leases such facility to that customer, as provided by and subject to the limitations of Article 6B of this Chapter;

…."

SECTION 6.(c) G.S. 62-110.1(g) reads as rewritten:

"(g) The certification requirements of this section shall not apply to (i) a nonutility-owned generating facility fueled by renewable energy resources under two megawatts in ~~capacity or~~capacity; (ii) to persons who construct an electric generating facility primarily for that person's own use and not for the primary purpose of producing electricity, heat, or steam for sale to or for the public for compensation; ~~provided, however, that such persons shall, nevertheless, be required to report to the Utilities Commission the proposed construction of such a facility before beginning construction thereof.~~or (iii) a solar energy facility or a community solar energy facility, as provided by and subject to the limitations of Article 6B of this Chapter. However, such persons shall be required to report the proposed construction of the facility and the completion of the facility to the Commission and the interconnecting public utility. Such reports shall be for informational purposes only and shall not require action by the Commission or the Public Staff."

SECTION 6.(d) This section is effective when it becomes law. The plan required to be filed with the Utilities Commission pursuant to G.S. 62-126.8(a), as enacted by subsection (a) of this section, shall be filed by the electric public utility no later than 180 days after the effective date of this section.

PART VII. EXPEDITED REVIEW OF INTERCONNECTION OF SWINE AND POULTRY WASTE

SECTION 7. G.S. 62-133.8(i)(4) reads as rewritten:

"(4) Establish standards for interconnection of renewable energy facilities and other nonutility-owned generation with a generation capacity of 10 megawatts or less to an electric public utility's distribution system; provided, however, that the Commission shall adopt, if appropriate, federal interconnection standards. The standards adopted pursuant to this subdivision shall include an expedited review process for swine and poultry waste to energy projects of two megawatts (MW) or less and other measures necessary and appropriate to achieve the objectives of subsections (e) and (f) of this section."

PART VIII. SOLAR REBATE PROGRAM

SECTION 8.(a) G.S. 62-155 is amended by adding a new subsection to read:

"(f) Each electric public utility serving more than 150,000 North Carolina retail jurisdictional customers as of January 1, 2017, shall file with the Commission an application requesting approval of a program offering reasonable incentives to residential and nonresidential customers for the installation of small customer owned or leased solar energy facilities participating in a public utility's net metering tariff, where the incentive shall be limited to 10 kilowatts alternating current (kW AC) for residential solar installations and 100 kilowatts alternating current (kW AC) for nonresidential solar installations. Each public utility required to offer the incentive program pursuant to this subsection shall be authorized to recover all reasonable and prudent costs of incentives provided to customers and program administrative costs by amortizing the total program incentives distributed during a calendar year and administrative costs over a 20-year period, including a return component adjusted for income taxes at the utility's overall weighted average cost of capital established in its most recent general rate case, which shall be included in the costs recoverable by the public utility pursuant to G.S. 62-133.8(h). Nothing in this section shall prevent the reasonable and prudent costs of a utility's programs to incentivize customer investment in or leasing of solar energy facilities, including an approved incentive, from being reflected in a utility's rates to be recovered through the annual rider established pursuant to G.S. 62-133.8(h). The program incentive established by each public utility subject to this section shall meet all of the following requirements:

(1) Shall be limited to 10,000 kilowatts (kW) of installed capacity annually starting in January 1, 2018, and continuing until December 31, 2022, and shall provide incentives to participating customers based upon the installed alternating current nameplate capacity of the generators.

(2) Nonresidential installations will also be limited to 5,000 kilowatts (kW) in aggregate for each of the years of the program.

(3) Two thousand five hundred kilowatts (kW) of the capacity for nonresidential installations shall be set aside for use by nonprofit organizations; 50 kilowatts (kW) of the set aside shall be allocated to the NC Greenpower Solar Schools Pilot or a similar program. Any set-aside rebates that are not used by December 31, 2022, shall be reallocated for use by any customer who otherwise qualifies. For purposes of this section, "nonprofit organization" means an organization or association recognized by the Department of Revenue as tax exempt pursuant to G.S. 105-130.11(a), or any bona fide branch, chapter, or affiliate of that organization.

(4) If in any year a portion of the incentives goes unsubscribed, the utility may roll excess incentives over into a subsequent year's allocation."

SECTION 8.(b) G.S. 62-133.8(h)(1) is amended by adding a new sub-subdivision to read:

"d. Provide incentives to customers, including program costs, incurred pursuant to G.S. 62-155(f)."

SECTION 8.(c) This section is effective when it becomes law. The application required to be filed with the Utilities Commission pursuant to G.S. 62-155(f), as enacted by subsection (a) of this section, shall be filed by the electric public utility no later than 180 days after the effective date of this section.

PART IX. DEMAND-SIDE MANAGEMENT FOR STATE-OWNED FACILITIES PILOT PROJECT

SECTION 9. Article 17 of Chapter 62 of the General Statutes is amended by adding a new section to read:

"**§ 62-351. Demand-side management policy; pilot project.**

(a) Declaration of Policy. – It is the policy of the State for government-owned facilities that have backup or emergency generators that meet the criteria of utility demand-side management programs or rates to enroll in such programs or rates to the extent those programs

or rates are available without diminishing the purpose or use of the facility having the backup or emergency generator.

(b) Department of Public Safety Pilot Program. – By no later than January 1, 2018, the Department of Public Safety shall designate a backup or emergency generator to enroll in the demand-side management program or rate available that would allow electricity load to be shifted to its generator in response to utility-administered programs.

(c) Report. – The Department of Public Safety shall report to the Joint Legislative Commission on Energy Policy by January 31 of each year on the status of the designated backup or emergency generator and whether it is enrolled in the utility demand-side response program or rate.

(d) Sunset. – The pilot program and report required by subsections (b) and (c) of this section shall expire on January 1, 2020."

PART X. UPDATE UTILITIES COMMISSION CHARGES AND FEES

SECTION 10.(a) G.S. 62-133.8 is amended by adding a new subsection to read:

"(*l*) The owner, including an electric power supplier, of each renewable energy facility or new renewable energy facility, whether or not required to obtain a certificate of public convenience and necessity pursuant to G.S. 62-110.1, that intends for renewable energy certificates it earns to be eligible for use by an electric power supplier to comply with G.S. 62-133.8 shall register the facility with the Commission. Such an owner shall file a registration statement in the form prescribed by the Commission and remit to the Commission the fee required pursuant to G.S. 62-300(a)(16)."

SECTION 10.(b) G.S. 62-300(a) is amended by adding two new subdivisions to read:

(17) Fifty dollars ($50.00) for each report of proposed construction filed by the owner of an electric generating facility that is exempt from the certification requirements of G.S. 62-110.1(a)."

PART XI. UTILITIES COMMISSION/PUBLIC STAFF POSITIONS

SECTION 11. If House Bill 589 of the 2017 Regular Session becomes law, then the North Carolina Utilities Commission and the Public Staff of the Utilities Commission are each authorized to create two positions funded from receipts of the Commission in order to meet requirements imposed by that act.

PART XII. ENERGY STORAGE STUDY

SECTION 12. The North Carolina Policy Collaboratory (Collaboratory) at the University of North Carolina at Chapel Hill shall conduct a study on energy storage technology. The study shall address how energy storage technologies may or may not provide value to North Carolina consumers based on factors that may include capital investment, value to the electric grid, net utility savings, net job creation, impact on consumer rates and service quality, or any other factors related to deploying one or more of these technologies. The study shall also address the feasibility of energy storage in North Carolina, including services energy storage can provide that are not being performed currently, the economic potential or impact of energy storage deployment in North Carolina, and the identification of existing policies and recommended policy changes that may be considered to address a statewide coordinated energy storage policy. The Collaboratory shall provide the results of this study no later than December 1, 2018, to the Energy Policy Council and the Joint Legislative Commission on Energy Policy.

PART XIII. MORATORIUM ON ISSUANCE OF PERMITS FOR WIND ENERGY FACILITIES

SECTION 13.(a) Definitions. – The definitions set forth in Article 21C of Chapter 143 of the General Statutes apply throughout this act.

SECTION 13.(b) Moratorium Established. – There is hereby established a moratorium on the issuance of permits for wind energy facilities and wind energy facility expansions in this State. The purpose of this moratorium is to allow the General Assembly ample time to study the extent and scope of military operations in the State as directed in subsection (d) of this section and to consider the impact of future wind energy facilities and energy infrastructure on military operations, training, and readiness. Neither the Department of Environmental Quality nor the Coastal Resources Commission shall issue a permit for a wind energy facility or wind energy facility expansion for the period beginning January 1, 2017, and ending on December 31, 2018.

SECTION 13.(c) Exception. – The moratorium established by subsection (b) of this section shall not prohibit the consideration of an application or the issuance of a permit for a wind energy facility or wind energy facility expansion for either of the following:

(1) Those facilities or facility expansions that received a written "Determination of No Hazard to Air Navigation" issued by the Federal Aviation Administration on or before May 17, 2013.

(2) If the applicant can show that a completed application, prepared in accordance with the requirements set out in G.S. 143-215.119(a), was submitted to the Department or the Commission on or before January 1, 2017.

SECTION 13.(d) Study. – The General Assembly shall study the extent and scope of military operations in the State in order to create a suite of maps and other relevant data and documentation that shall be employed to communicate the temporal and spatial use of land-, air-, and water-based military operations. Upon completion, the suite of maps and other relevant data and documentation may be utilized to identify areas of the State, both onshore and offshore, where energy infrastructure and development poses a threat to, encroaches upon, or otherwise reduces operations, training capabilities, or readiness. The Legislative Services Officer shall issue a request for proposals for (i) the collection of geospatial and other relevant data for land-, air-, and water-based military operations in the State and (ii) the creation of a suite of maps and other relevant data and documentation that can be used to communicate the temporal and spatial use of land-, air-, and water-based military operations in the State. In the conduct of the study, the selected contractor shall consult with the base commander, or the base commander's designee, of each major military installation in the State, United States Department of Defense officials, retired military personnel with relevant and applicable knowledge of training and operations in this State, the Military Affairs Commission, and any other person, agency, or organization that may be able to define the footprint of military operations in this State and identify, communicate, and relate the data necessary to prepare a comprehensive suite of maps and other relevant data and documentation that illustrate temporal and spatial use of land-, air-, and water-based military operations in the State.

SECTION 13.(e) Time Line. – The study directed by subsection (d) of this section shall adhere to the following time line:

(1) The request for proposals (RFP) shall be issued on or before September 1, 2017.

(2) A contract to award the RFP shall be executed on or before November 1, 2017.

(3) The study, including the preparation of the suite of maps and other relevant data and documentation that illustrate temporal and spatial use of land-, air-, and water-based military operations in the State, findings, and recommendations, if any, shall be completed and submitted to the Legislative Services Officer on or before May 31, 2018, in order to inform

the development of policies pertaining to the protection and preservation of major military installations during the 2018 Regular Session.

SECTION 13.(f) Notwithstanding any provision of law in S.L. 2017-57 or in the Committee Report accompanying that act to the contrary, the sum of one hundred fifty thousand dollars ($150,000) reserved from the appropriation for pending legislation to support the requirements of House Bill 589, 2017 Regular Session, shall instead be used to support the study required by subsection (d) of this section.

PART XIV. SEVERABILITY CLAUSE AND EFFECTIVE DATE

SECTION 14.(a) If any section or provision of this act is declared unconstitutional or invalid by the courts, it does not affect the validity of this act as a whole or any part other than the part declared to be unconstitutional or invalid.

SECTION 14.(b) Except as otherwise provided, this act is effective when it becomes law.

In the General Assembly read three times and ratified this the 30th day of June, 2017.

Session Law 2017-193 **H.B. 161**

AN ACT TO REQUIRE STATE DIVESTMENT FROM, AND PROHIBIT STATE AGENCIES FROM CONTRACTING WITH, COMPANIES THAT BOYCOTT ISRAEL AND TO AMEND THE EXISTING SUDAN AND IRAN DIVESTMENT STATUTES.

Whereas, boycotts and related tactics have become a tool of economic warfare that threaten the sovereignty and security of key allies and trade partners of the United States; and

Whereas, the State of Israel is the most prominent target of such boycott activity, which began with, but has not been limited to, the Arab League Boycott adopted in 1945, even before Israel's declaration of independence as the reestablished national state of the Jewish people; and

Whereas, companies that refuse to deal with United States trade partners such as Israel, or entities that do business with or in such countries, make discriminatory decisions on the basis of national origin that impair those companies' commercial soundness; and

Whereas, it is the public policy of the United States, as enshrined in several federal acts, to oppose boycotts against Israel, and Congress has concluded as a matter of national trade policy that cooperation with Israel materially benefits United States companies and improves American competitiveness; and

Whereas, Israel in particular is known for its dynamic and innovative approach in many business sectors, and, therefore, a company's decision to discriminate against Israel, Israeli entities, or entities that do business with or in Israel is an unsound business practice making such a company an unduly risky contracting partner or vehicle for investment; Now, therefore,

The General Assembly of North Carolina enacts:

PART I. DIVESTMENT FROM COMPANIES BOYCOTTING ISRAEL

SECTION 1.1. Chapter 147 of the General Statutes is amended by adding a new Article to read:

"Article 6G.

"Divestment From Companies Boycotting Israel.

"**§ 147-86.80. Definitions.**

The following definitions apply in this Article:

(1) Boycott Israel or boycott of Israel. – Engaging in refusals to deal, terminating business activities, or taking actions that are intended to penalize, inflict economic harm, or otherwise limit commercial relations specifically with Israel, or persons or entities doing business in Israel or in Israeli-controlled territories. This term does not apply to decisions made for

ordinary business purposes or for actions with an economic impact of less than twenty million dollars ($20,000,000) in a 12-month period.

(2) Company. – Any sole proprietorship, organization, association, corporation, partnership, joint venture, limited partnership, limited liability partnership, limited liability company, or other entity or business association, including all wholly owned subsidiaries, majority-owned subsidiaries, parent companies, or affiliates of those entities or business associations.

(3) Investment. – This term has the same meaning as G.S. 147-86.57(3).

(4) Restricted company. – A company that appears on the list of companies that are engaged in a boycott of Israel developed by the State Treasurer under G.S. 147-86.81(a)(1).

(5) State agency. – Any board, commission, department, executive department, officer, institution, and any political subdivision of the State.

"**§ 147-86.81. Prohibitions on State investment.**

(a) No more than 30 days after October 1, 2017, the State Treasurer shall adopt a policy prohibiting the North Carolina Retirement Systems or the Department of State Treasurer from investing in any company engaged in a boycott of Israel. At a minimum, the policy shall provide for the following:

(1) List of restricted companies. – Within 120 days of adoption of the policy, the State Treasurer shall develop and make publicly available a list of companies it determines to be engaged in a boycott of Israel. In the development of this list, the State Treasurer shall use any other state lists of restricted companies pursuant to similar laws and any federal information or guidance on companies that boycott Israel and any other credible information provided by nonprofit organizations, research firms, and governmental entities, and generally publicly available information. The State Treasurer shall make every effort to avoid erroneously including a company on the list. Before finalizing an initial or updated list, the State Treasurer must do all of the following before a company is included on the list:

a. Provide 90 days' written notice of the State Treasurer's intent to include the company on the list. The notice shall inform the company that inclusion on the list would make the company ineligible for State investment, may result in the company becoming subject to divestment by the North Carolina Retirement Systems, and may affect the company's ability to conduct business with the State and its subdivisions. The notice shall specify that the company may be removed from the list if the company ceases its engagement in a boycott of Israel.

b. The State Treasurer shall provide a company with an opportunity to comment in writing that the company is not engaged in a boycott of Israel or has ceased its boycott of Israel. If the company demonstrates to the State Treasurer that the company has not been engaged in a boycott of Israel, the company shall not be placed on the list. If a company had been engaged in a boycott of Israel but has ceased the boycott, it must submit a written certification to the State Treasurer that the company will not reengage in a boycott of Israel for the duration of any business with the State. The State Treasurer shall keep all written certifications from restricted and previously restricted companies.

(2) Identification of investments. – Upon completion of the initial list of restricted companies created pursuant to subdivision (1) of this subsection,

the State Treasurer shall identify any restricted companies in which the North Carolina Retirement Systems has investments.

(3) Review of restricted companies list. – The State Treasurer shall review the list of restricted companies created pursuant to subdivision (1) of this subsection on an annual basis. This updated list shall be made publicly available and any updates shall be distributed to the North Carolina Retirement Systems.

(4) Investments prohibited. – Neither the North Carolina Retirement Systems nor the State Treasurer may invest funds with a company that is identified on a list created pursuant to subdivision (1) of this section as a company engaging in restricted investment activities.

(5) Existing investments. – Any existing investment with a company that is identified on a list created pursuant to subdivision (1) of this section as a company engaging in restricted activities must be divested within 180 days of the adoption of the list.

(b) Nothing in the policy or in this Article shall require the North Carolina Retirement Systems or the State Treasurer to take action unless it is determined by the State Treasurer, in good faith, that the action is consistent with the fiduciary responsibilities of the Retirement Systems and the State Treasurer.

"**§ 147-86.82. Restrictions on contracts with the State or subdivisions of the State.**

(a) A company that is identified as a restricted company is ineligible to contract with the State or any political subdivision of the State.

(b) Any contract entered into with a company that is identified as a restricted company at the time of contract is void ab initio.

(c) Upon receiving information that a company that was not identified as a restricted company at the time of contract has later been identified as a restricted company, the State agency shall review the information and offer the company an opportunity to respond. If the company fails to demonstrate that the company should not have been identified as a restricted company within 90 days after notification by the State agency, then the State agency shall take action as may be appropriate and provided for by law, rule, or contract.

(d) Contracts in existence on October 1, 2017, with restricted companies shall be allowed to expire in accordance with the terms of the contract.

"**§ 147-86.83. Exceptions.**

G.S. 147-86.82 shall not apply to contracts valued at one thousand dollars ($1,000) or less.

"**§ 147-86.84. Reporting.**

The State Treasurer shall report to the Joint Legislative Commission on Governmental Operations annually by October 1 on information regarding investments sold, redeemed, divested, or withdrawn in compliance with this Article."

SECTION 1.2.(a) Pursuant to G.S. 147-69.3(g), the State Treasurer is authorized to retain the services of consultants, professional individuals, analysts, data collection firms, or other persons possessing specialized skills or knowledge necessary for the proper implementation and administration of the requirements of this act.

SECTION 1.2.(b) This section is effective when this act becomes law.

Session Law 2017-196 **H.B. 527**

AN ACT TO RESTORE AND PRESERVE FREE SPEECH ON THE CAMPUSES OF THE CONSTITUENT INSTITUTIONS OF THE UNIVERSITY OF NORTH CAROLINA.

Whereas, the Constitution of North Carolina recognizes in Article I, Section 14, that "Freedom of speech and of the press are two of the great bulwarks of liberty and therefore shall never be restrained, but every person shall be held responsible for their abuse"; and

Whereas, the constituent institutions of The University of North Carolina have historically embraced a commitment to freedom of expression in policy; and

Whereas, it is appropriate for The University of North Carolina System to restate and confirm their commitment to free expression; and

Whereas, in 1974, the Committee on Free Expression at Yale issued a statement known as the Woodward Report that stands as a classic defense of free expression on campuses; in 2015, the Committee on Freedom of Expression at the University of Chicago issued a similar and widely respected report; and, in 1967, the Kalven Committee Report of the University of Chicago articulated the principle of institutional neutrality regarding political and social issues and the essential role of such neutrality in protecting freedom of thought and expression at universities. The principles affirmed by these three highly regarded reports are inspiring articulations of the critical importance of free expression in higher education; and

Whereas, the General Assembly views freedom of expression as being of critical importance and requires that each constituent institution ensure free, robust, and uninhibited debate and deliberation by students of constituent institutions; and

Whereas, the General Assembly has determined that it is a matter of statewide concern that all constituent institutions of The University of North Carolina officially recognize freedom of speech as a fundamental right; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. Chapter 116 of the General Statutes is amended by adding a new Article to read:

"Article 36.

"Campus Free Speech.

"**§ 116-300. Policies required.**

The Board of Governors of The University of North Carolina shall develop and adopt a policy on free expression that states, at least, the following:

(1) The primary function of each constituent institution is the discovery, improvement, transmission, and dissemination of knowledge by means of research, teaching, discussion, and debate. To fulfill this function, the constituent institution must strive to ensure the fullest degree of intellectual freedom and free expression.

(2) It is not the proper role of any constituent institution to shield individuals from speech protected by the First Amendment, including, without limitation, ideas and opinions they find unwelcome, disagreeable, or even deeply offensive.

(3) The constituent institution may not take action, as an institution, on the public policy controversies of the day in such a way as to require students, faculty, or administrators to publicly express a given view of social policy.

(4) Students and faculty have the freedom to discuss any problem that presents itself, as the First Amendment permits and within the limits of narrowly tailored viewpoint- and content-neutral restrictions on time, place, and manner of expression that are consistent with this Article and that are necessary to achieve a significant institutional interest, provided that these restrictions are clear, published, and provide ample alternative means of expression. Students and faculty shall be permitted to assemble and engage in spontaneous expressive activity as long as such activity is lawful and does not materially and substantially disrupt the functioning of the constituent institution, subject to the requirements of this section.

(5) Access to campus for purposes of free speech and expression shall be consistent with First Amendment jurisprudence regarding traditional public forums, designated public forums, and nonpublic forums, subject to reasonable time, place, and manner restrictions.

(6) Consistent with First Amendment jurisprudence, including any reasonable time, place, and manner restrictions adopted by a constituent institution, campuses of the constituent institutions are open to any speaker whom students, student groups, or members of the faculty have invited.

The information return shall contain all information required by the Secretary. SECTION 1.9.(g) The General Assembly finds that the amendments made by this section clarify the intent of the existing law and do not represent a change in the law. Accordingly, subsections (a) and (c) of this section apply to taxable years beginning before January 1, 2014, subsections (b) and (d) of this section apply to taxable years beginning on or after January 1, 2014, and subsection (f) of this section applies to all taxable years.

SECTION 1.11.(a) G.S. 105-228.5(d)(3) reads as rewritten:

"(3) Additional Rate on Property Coverage Contracts. – An additional tax at the rate of seventy-four hundredths percent (0.74%) applies to gross premiums on insurance contracts for property coverage. The tax is imposed on ten percent (10%) of the gross premiums from insurance contracts for automobile physical damage coverage and on one hundred percent (100%) of the gross premiums from all other contracts for property coverage. Twenty percent (20%) of the net proceeds of this additional tax must be credited to the Volunteer Fire Department Fund established in Article 87 of Chapter 58 of the General Statutes. Twenty percent (20%) of the net proceeds must be credited to the Department of Insurance for disbursement pursuant to G.S. 58-84-25. Up to twenty percent (20%), as determined in accordance with G.S. 58-87-10(f), must be credited to the Workers' Compensation Fund. The remaining net proceeds must be credited to the General Fund. The additional tax imposed on property coverage contracts under this subdivision is a special purpose assessment based on gross premiums and not a gross premiums tax."

SECTION 1.11.(b) A taxpayer that elected to take a business energy and tax credit against the gross premiums tax for a taxable year beginning before January 1, 2017, may take an installment or carryforward of the credit against the additional tax imposed under G.S. 105-228.5(d)(3) for taxable years beginning before January 1, 2017. A taxpayer may not take an installment or carryforward of the credit against the additional tax imposed under G.S. 105-228.5(d)(3) for taxable years beginning on or after January 1, 2017. A taxpayer may apply to the Department of Revenue for a refund of any excess tax paid to the extent the refund is the result of the benefit enacted by this subsection. A request for a refund must be made on or before January 1, 2018. A request for a refund received after this date is barred.

SECTION 1.11.(c) The gross premiums tax is a tax imposed on the gross premiums of insurers, Article 65 corporations, health maintenance organizations, and self-insurers. Entities subject to the gross premiums tax are not subject to franchise or income taxes. In S.L. 2009-548, the General Assembly broadened the taxes against which the business and energy tax credits could be taken from income and franchise taxes to income, franchise, and gross premiums taxes.

The gross premiums tax rate is set in G.S. 105-228.5(d)(1) and (2). Separate and apart from the gross premiums taxes, G.S. 105-228.5(d)(3) imposes an additional tax that is calculated using a person's gross premiums but is not considered part of the gross premiums tax imposition. The Department of Revenue has historically administered the gross premium tax and the additional tax imposed under G.S. 105-228.5 as two separate and distinct taxes. Satisfied with this administration, the General Assembly did not address the separate treatment of the two taxes in S.L. 2009-548.

The intent of this section is two-fold, as follows:

(1) To clarify the accuracy of the Department's interpretation of the current and continuing state of the law by expressly codifying the long-standing interpretation that the additional tax imposed by G.S. 105-228.5(d)(3) is a separate and distinct tax that is based upon gross premiums but is not a gross premiums tax.

(2) To avoid costly potential litigation with taxpayers that have failed to properly take an installment or carryforward of a business and energy tax credit against only the gross premiums tax by permitting the taxpayers to take installments and carryforwards of that tax credit for taxable years beginning before January 1, 2017, against the additional tax that is imposed under G.S. 105-228.5(d)(3).

SECTION 1.12. G.S. 105-160.2 reads as rewritten:

"**§ 105-160.2. Imposition of tax.**

The tax imposed by this Part applies to the taxable income of estates and trusts as determined under the provisions of the Code except as otherwise provided in this Part. The taxable income of an estate or trust is the same as taxable income for such an estate or trust under the provisions of the Code, adjusted as provided in G.S. 105-153.5 and G.S. 105-153.6, except that the adjustments provided in G.S. 105-153.5 and G.S. 105-153.6 are apportioned between the estate or trust and the beneficiaries based on the distributions made during the taxable year. The tax is computed on the amount of the taxable income of the estate or trust that is for the benefit of a resident of this State, or for the benefit of a nonresident to the extent that the income (i) is derived from North Carolina sources and is attributable to the ownership of any interest in real or tangible personal property in this State or (ii) is derived from a business, trade, profession, or occupation carried on in this State. For purposes of the preceding sentence, taxable income and gross income is computed subject to the adjustments provided in G.S. 105-153.5 and G.S. 105-153.6. The tax on the amount computed above is at the ~~rates~~ rate levied in G.S. 105-153.7. The fiduciary responsible for administering the estate or trust shall pay the tax computed under the provisions of this Part."

(h) Delinquency. – If the Secretary of State does not receive an annual report within ~~120~~ 60 days of the date the ~~return~~ report is due, the Secretary of State may presume that the annual report is delinquent. This presumption may be rebutted ~~by receipt of the annual report from the Secretary of Revenue or~~ by evidence of delivery presented by the filing corporation."

SECTION 1.14. The Department of Revenue shall study the feasibility and cost of allowing the pass-through of a federal extension of time for filing a federal income tax return to serve as an application for a State extension of time for filing a corporate franchise and other income tax returns. The Department is directed to work with the Internal Revenue Service and consult with or identify other states that use the federal extension to serve as the application for a state extension. A retailer entitled to a credit for tax originally paid under this provision may reduce taxable receipts by the taxable amount of the credit for the period in which the credit occurs.

SECTION 2.8.(b) The Revenue Laws Study Committee is directed to study the feasibility of providing a seller of taxable repair, maintenance, and installation services to real property the option of paying sales tax on the property used to fulfill the repair, maintenance, and installation service at the time the property is purchased and offsetting the sales tax liability on the taxable repair, maintenance, and installation service with the sales and use tax paid on the products. Subsection (a) of this section provides sellers this option until July 1, 2018. The Revenue Laws Study Committee must recommend to the 2018 Regular Session of the 2017 General Assembly whether this option should be allowed on a permanent basis.

SECTION 2.8.(c) Article 9 of Chapter 105 of the General Statutes is amended by adding a new section to read:

This subdivision does not prohibit the Secretary from assessing use tax on

purchases used to fulfill a transaction erroneously treated as a real property contract.

(3) A person treated a transaction as a real property contract in error and did not collect sales tax on the transaction as a retail sale. This subdivision does not prohibit the Secretary from assessing use tax on purchases used to fulfill a transaction erroneously treated as a real property contract.

(6) A person failed to collect sales tax on the retail sale of a service contract for a pool, a fish tank, or similar aquatic feature on or after January 1, 2017, and prior to January 1, 2018, provided the person paid tax on any purchases used to fulfill the service contract.

(8) A person failed to collect sales tax on the portion of a mixed contract for repair, maintenance, and installation services that exceeds ten percent (10%) for a transaction prior to January 1, 2017. This subdivision does not prohibit the Secretary from assessing use tax on purchases used to fulfill a mixed contract.

(9) A person treats a transaction as a real property contract for remodeling instead of the retail sale of repair, maintenance, and installation services sold at retail prior to January 1, 2018. This subdivision does not prohibit the Secretary from assessing use tax on purchases used to fulfill the transaction.

(b) Limitations. – This section does not prohibit the following assessments:

(1) The assessment of tax collected by a person and not remitted to the Department.

(2) The assessment of tax due on an amount included in the definition of sales price where a retailer failed to charge or remit the tax, except as allowed under subsection (a) of this section.

SECTION 1. G.S. 130A-310.72 reads as rewritten:

"**§ 130A-310.72. Financial assurance requirement.**

The person conducting remediation of a contaminated ~~industrial~~ site pursuant to the provisions of this Part shall establish financial assurance that will ensure that sufficient funds are available to implement and maintain the actions or controls specified in the remedial action plan for the site. The person conducting remediation of a site may establish financial assurance through one of the following mechanisms, or any combination of the following mechanisms, in a form specified or approved by the Department: insurance products issued from entities having no corporate or ownership association with the person conducting the remediation; funded trusts; surety bonds; certificates of deposit; letters of credit; corporate financial tests; local government financial tests; corporate guarantees; local government guarantees; capital reserve funds; or any other financial mechanism authorized for the demonstration of financial assurance under (i) 40 Code of Federal Regulations Part 264, Subpart H (July 1, 2010 Edition) and (ii) Section .1600 of Subchapter B of Chapter 13 of Title 15A of the North Carolina Administrative Code. Proof of financial assurance shall be provided in the remedial action plan and annually thereafter on the anniversary date of the approval of the plan. The Department may waive the requirement for a person conducting remediation of a contaminated site pursuant to the provisions of this Part to establish or maintain financial assurance if the Department finds that the only actions or controls to be implemented or maintained as part of the remedial action plan for the site include either or both of the following:

(1) Annual reporting of land-use controls.

(2) The maintenance of durable or low-maintenance covers for contaminated soil."

REPEAL OBSOLETE HAZARDOUS WASTE PROVISIONS

SECTION 2.(a) G.S. 130A-294(k) is repealed.

SECTION 2.(b) G.S. 130A-309.17 is repealed.

LAND-USE RESTRICTIONS FOR PROPERTY CONTAMINATED BY A NON-UST PETROLEUM DISCHARGE OR RELEASE

SECTION 3.(a) G.S. 143B-279.9(b) reads as rewritten:

"(b) The definitions set out in G.S. 143-215.94A apply to this subsection. A remedial action plan for the cleanup of environmental damage resulting from a discharge or release of petroleum from an underground storage tank pursuant to Part 2A of Article 21A of Chapter 143 of the General ~~Statutes~~ Statutes, other petroleum sources, or from an aboveground storage tank pursuant to Part 7 of Article 21A of Chapter 143 of the General Statutes must include an agreement by the owner, operator, or other party responsible for the discharge or release of petroleum to record a notice of any applicable land-use restrictions that meet the requirements of this subsection as provided in G.S. 143B-279.11. All of the provisions of this section shall apply except as specifically modified by this subsection and G.S. 143B-279.11. Any restriction on the current or future use of real property pursuant to this subsection shall be enforceable only with respect to: (i) real property on which the source of contamination is located and (ii) any real property on which contamination is located at the time the remedial action plan is approved and that was owned or controlled by any owner or operator of the underground storage tank or other responsible party at the time the discharge or release of petroleum is discovered or reported or at any time thereafter. No restriction on the current or future use of real property shall apply to any portion of any parcel or tract of land on which contamination is not located. This subsection shall not be construed to require any person to record any notice of restriction on the current or future use of real property other than the real property described in this subsection. For purposes of this subsection and G.S. 143B-279.11, the Secretary may restrict current or future use of real property only as set out in any one or more of the following subdivisions:

(1) Where soil contamination will remain in excess of unrestricted use standards, the property may be used for a primary or secondary residence, school, daycare center, nursing home, playground, park, recreation area, or other similar use only with the approval of the Department.

(2) Where soil contamination will remain in excess of unrestricted use standards and the property is used for a primary or secondary residence that was constructed before the release of petroleum that resulted in the contamination is discovered or reported, the Secretary may approve alternative restrictions that are sufficient to reduce the risk of exposure to contaminated soils to an acceptable level while allowing the real property to continue to be used for a residence.

(3) Where groundwater contamination will remain in excess of unrestricted use standards, installation or operation of any well usable as a source of water shall be prohibited.

(4) Any restriction on the current or future use of the real property that is agreed upon by both the owner of the real property and the Department.

Except with respect to land contaminated from a discharge or release of petroleum from an underground storage tank, the imposition of restrictions on the current or future use of real property on sites contaminated by the discharge or release of petroleum from an aboveground storage tank, or another petroleum source, from which contamination has migrated to off-site properties, as that term is defined under G.S. 130A-310.65(3a), shall only be allowed as provided in G.S. 143-215.104AA or G.S. 130A-310.73A, as applicable."

SECTION 3.(b) G.S. 143B-279.11 reads as rewritten:

"**§ 143B-279.11. Recordation of residual petroleum from ~~an~~ underground or aboveground storage ~~tank.~~tanks or other sources.**

(a) The definitions set out in G.S. 143-215.94A and G.S. 143B-279.9 apply to this section. This section applies only to a cleanup pursuant to a remedial action plan that addresses

environmental damage resulting from a discharge or release of petroleum from an underground storage tank pursuant to Part 2A of Article 21A of Chapter 143 of the General ~~Statutes.~~Statutes or from an aboveground storage tank or other petroleum source pursuant to Part 7 of Article 21A of Chapter 143 of the General Statutes.

(b) The owner, operator, or other person responsible for a discharge or release of petroleum from an underground storage ~~tank~~ tank, aboveground storage tank, or other petroleum source shall prepare and submit to the Department a proposed Notice that meets the requirements of this section. The proposed Notice shall be submitted to the Department (i) before the property is conveyed, or (ii) when the owner, operator, or other person responsible for the discharge or release requests that the Department issue a determination that no further action is required under the remedial action plan, whichever first occurs. The Notice shall be entitled "NOTICE OF RESIDUAL PETROLEUM". The Notice shall include a description that would be sufficient as a description in an instrument of conveyance of the (i) real property on which the source of contamination is located and (ii) any real property on which contamination is located at the time the remedial action plan is approved and that was owned or controlled by any owner or operator of the underground storage ~~tank~~ tank, aboveground storage tank, or other petroleum source, or other responsible party at the time the discharge or release of petroleum is discovered or reported or at any time thereafter. The Notice shall identify the location of any residual petroleum known to exist on the real property at the time the Notice is prepared. The Notice shall also identify the location of any residual petroleum known, at the time the Notice is prepared, to exist on other real property that is a result of the discharge or release. The Notice shall set out any restrictions on the current or future use of the real property that are imposed by the Secretary pursuant to G.S. 143B-279.9(b) to protect public health, the environment, or users of the property.

(c) If the contamination is located on more than one parcel or tract of land, the Department may require that the owner, operator, or other person responsible for the discharge or release prepare a composite map or plat that shows all parcels or tracts. If the contamination is located on one parcel or tract of land, the owner, operator, or other person responsible for the discharge or release may prepare a map or plat that shows the parcel but is not required to do so. A map or plat shall be prepared and certified by a professional land surveyor, shall meet the requirements of G.S. 47-30, and shall be submitted to the Department for approval. When the Department has approved a map or plat, it shall be recorded in the office of the register of deeds and shall be incorporated into the Notice by reference.

(d) The Department shall review the proposed Notice to determine whether the Notice meets the requirements of this section and rules adopted to implement this section and shall provide the owner, operator, or other person responsible for the discharge or release of petroleum from an underground storage ~~tank~~ tank, aboveground storage tank, or other petroleum source with a notarized copy of the approved Notice. After the Department approves the Notice, the owner, operator, or other person responsible for the discharge or release of petroleum from an underground storage ~~tank~~ tank, aboveground storage tank, or other petroleum source shall file a notarized copy of the approved Notice in the register of deeds office in the county or counties in which the real property is located (i) before the property is conveyed or (ii) within 30 days after the owner, operator, or other person responsible for the discharge or release receives notice from the Department that no further action is required under the remedial action plan, whichever first occurs. If the owner, operator, or other person responsible for the discharge or release fails to file the Notice as required by this section, any determination by the Department that no further action is required is void. The owner, operator, or other person responsible for the discharge or release, may record the Notice required by this section without the agreement of the owner of the real property. The owner, operator, or other person responsible for the discharge or release shall submit a certified copy of the Notice as filed in the register of deeds office to the Department.

(e) Repealed by Session Laws 2012-18, s. 1.23, effective July 1, 2012.

(f) In the event that the owner, operator, or other person responsible for the discharge or release fails to submit and file the Notice required by this section within the time specified, the Secretary may prepare and file the Notice. The costs thereof may be recovered by the Secretary from any responsible party. In the event that an owner of the real property who is not a responsible party submits and files the Notice required by this section, the owner may recover the reasonable costs thereof from any responsible party.

(g) A Notice filed pursuant to this section shall, at the request of the owner of the real property, be cancelled by the Secretary after the residual petroleum has been eliminated or remediated to unrestricted use standards. If requested in writing by the owner of the land, the Secretary shall send to the register of deeds of each county where the Notice is recorded a statement that the residual petroleum has been eliminated, or that the residual petroleum has been remediated to unrestricted use standards, and request that the Notice be cancelled of record. The Secretary's statement shall contain the names of the owners of the land as shown in the Notice and reference the plat book and page where the Notice is recorded.

(h) Except with respect to land contaminated from a discharge or release of petroleum from an underground storage tank, the provisions of this section shall only apply to sites contaminated by the discharge or release of petroleum from an aboveground storage tank, or another petroleum source, from which contamination has migrated to off-site properties, as that term is defined under G.S. 130A-310.65(3a), in compliance with the requirements of G.S. 143-215.104AA or G.S. 130A-310.73A, as applicable."

SECTION 4.(a) G.S. 143-355(m) is repealed.

SECTION 4.(b) G.S. 143-355(p) reads as rewritten:

"(p) Report. – The Department of Environmental Quality shall report to the Environmental Review Commission on the implementation of this section, including ~~the development of the State water supply plan and~~ the development of basinwide hydrologic models, no later than November 1 of each year. The Department shall submit the report required by this subsection with the report on basinwide water ~~quality~~ management plans required by G.S. 143-215.8B(d) as a single report."

If a private solid waste landfill shall be substantially affected by such ordinance then the unit of local government adopting the ordinance shall be required to give the operator of the affected

landfill at least two years written notice prior to the effective date of the proposed ordinance.

"Article 15.

"Borrowing for expansion of existing landfills and construction of new landfills in certain circumstances.

"**§ 159-211. Borrowing authority for landfills.**

(a) Whenever a unit of local government applies to the Commission for approval to enter debt by any method authorized by this Chapter for the purpose of expansion of an existing landfill within their jurisdiction, or construction of a new landfill within their jurisdiction, and to support the repayment of the new debt by requiring by ordinance, franchise, or otherwise that all waste collected within the county must be delivered to the county facility exclusively, in addition to any other criteria the Commission is required to consider in approving such debt, the unit of local government shall demonstrate all of the following to the satisfaction of the Commission:

(1) The proposed expansion of the existing landfill, or construction of the new landfill, for which debt is to be incurred is necessary to ensure reliable, convenient, and affordable solid waste disposal service is provided consistently to all citizens under its jurisdiction for the protection of public health, safety, and welfare.

(2) The proposed expansion of the existing landfill, or construction of the new landfill, will result in lower overall costs per ton of waste disposed for the jurisdiction's citizens and businesses within the jurisdiction than would be available through privately funded and operated disposal facilities. The analysis shall take into account all direct, indirect, asset retirement, closure, post-closure, and capital costs divided by tons disposed per year to establish a "tip fee" required to support the operation and repayment of the debt. State or federal subsidies shall be disregarded for purposes of this analysis.

(3) The requirements of subdivisions (1) and (2) of this subsection have been confirmed by way of a bid or request for proposals process in which private businesses have been invited to compete for the right to provide the services subject only to compliance with State and federal law. Private company proposals will be on a "tip fee" basis for comparison to the unit of local government landfill tip fee calculated pursuant to subdivision (2) of this subsection.

(b) In determining whether debt for expansion of an existing landfill, or construction of a new landfill, shall be approved, the Commission shall consider the information submitted pursuant to subsection (a) of this section and shall approve an application only if it finds the information presented supports the need for, and cost-effectiveness of, the proposed project. If the Commission tentatively decides to deny the application because it is of the opinion that these criteria cannot be supported from the information presented to it, it shall so notify the unit

filing the application. Prior to final approval of the application, the Commission shall hold a public hearing on the application at which time any interested persons shall be heard, including any private business that has offered an alternative. The Commission may appoint a hearing officer to conduct the hearing and to present a summary of the testimony and associated recommendations for the Commission's consideration.

(c) The requirements of this section shall only apply to a unit of local government, which, at the time it submits an application to the Commission for approval to enter debt for expansion or construction of a landfill, has adopted an ordinance pursuant to G.S. 130A-291(c). Provided, however, where such debt is approved and the requirements of this section have not been satisfied, a unit of local government that later seeks to adopt an ordinance pursuant to G.S. 130A-291(c), must meet the requirements of this section prior to adopting and enforcing such an ordinance."

SECTION 17.(e) Nothing in this section shall be construed to impact the terms of a contract, franchise agreement, or other agreement between a unit of local government and another entity concerning the management of solid waste, or the financing of such services or related facilities or equipment, in effect on the date this section becomes law.

SECTION 17.(f) This section is effective when this act becomes law.

SECTION 20.(a) The General Assembly finds that the discharge of the poly-fluoroalkyl chemical known as "GenX" (CAS registry number 62037-80-3 or 13252-13-6) into the Cape Fear River demonstrates the need for supplemental funding for impacted local public utilities for the monitoring and treatment of GenX and to support the identification and characterization by scientists, engineers, and other professionals of GenX in the Cape Fear River.

Therefore, notwithstanding Section 6.1 of S.L. 2017-57, G.S. 143C-4-4, and G.S. 143C-6-4, of the funds appropriated to the Contingency and Emergency Fund, the sum of four hundred thirty-five thousand dollars ($435,000) shall be allocated and used as follows:

The Cape Fear Public Utility Authority shall provide an interim report to the Environmental Review Commission no later than December 1, 2017, regarding the progress in implementing this section, and a final report on or before April 1, 2018, to include any findings and recommendations for legislative action.

(2) Two hundred fifty thousand dollars ($250,000) to the University of North Carolina at Wilmington to identify and quantify GenX and measure the concentration of the chemicals in the sediments of the Cape Fear River, the extent to which the chemical biodegrades over time or bioaccumulates within local ecosystems, and what risk the contaminant poses to human health. The University of North Carolina at Wilmington shall not charge indirect facilities and administrative costs against the funding provided by this subdivision. The University of North Carolina at Wilmington shall provide an interim report to the Environmental Review Commission no later than December 1, 2017, regarding the progress in implementing this section, and a final report on or before April 1, 2018, to include any findings and recommendations for legislative action.

SECTION 20.(b) Funds allocated by this section for the 2017-2018 fiscal year shall not revert but shall remain available for nonrecurring expenses until the end of the 2018-2019 fiscal year. The entities funded by this section may establish time-limited positions for the biennium with the funds allocated by this section.

SECTION 20.1. Section 13.7 of S.L. 2017-57, 2017 Regular Session, reads as rewritten:

"**SECTION 13.7.** The North Carolina Policy Collaboratory at the University of North Carolina at Chapel Hill shall develop a ~~proposal~~ proposal (i) to identify and acquire digital data relevant to environmental monitoring and natural resource management, including, but not limited to, the digitization of analog ~~records.~~records and (ii) for the creation of an online database to provide National Pollutant Discharge Elimination System (NPDES) and other water quality permits, permit applications, and relevant supporting documents to the public in a searchable and user friendly format, as well as creation of a system for electronic filing of applications for such permits and relevant supporting documents. In developing the proposal, the Collaboratory shall consult with the Department of Environmental Quality and the Department of Information Technology. The Collaboratory shall assess the feasibility of transferring these data to a central, searchable, and publicly accessible digital database hosted by The University of North Carolina System. The Collaboratory shall provide an interim report to the Environmental Review Commission, the Joint Legislative Oversight Committee on Agriculture and Natural and Economic Resources, the chairs of the House of Representatives Appropriations Committee on Agriculture and Natural and Economic Resources, the chairs of the Senate Appropriations Committee on Agriculture, Natural, and Economic Resources, and the Fiscal Research Division no later than December 1, 2017, regarding the progress in implementing this section, and shall provide its proposal no later than ~~March 1, 2018, to the Joint Legislative Oversight Committee on Agriculture and Natural and Economic Resources, the chairs of the House of Representatives Appropriations Committee on Agriculture and Natural and Economic Resources, the chairs of the Senate Appropriations Committee on Agriculture, Natural, and Economic Resources, and the Fiscal Research Division.~~April 1, 2018, to these entities."

SECTION 20.2. If by September 8, 2017, the Department of Environmental Quality has yet to issue a Notice of Violation to any company or person for the discharge of the chemical known as "GenX" (CAS registry number 62037-80-3 or 13252-13-6) to the Cape Fear River, and for the resulting contamination of the Cape Fear River, and public water supplies withdrawing water therefrom, the Department of Environmental Quality shall provide a detailed report, in writing, to the Environmental Review Commission on that date setting forth the reasons why a Notice of Violation has not been issued to a company or person that has discharged GenX to the Cape Fear River.

(3) If the office is a county office or a single county legislative district, file written petitions with the chair or director of the county board of elections supporting the voter's candidacy for a specified county office. These petitions must be filed with the county board of elections on or before 12:00 noon on the ~~second Wednesday prior to~~day of the primary election and must be signed by qualified voters of the county equal in number to four percent (4%) of the total number of registered voters in the county as reflected by the voter registration records of the State Board of Elections as of January 1 of the year in which the general election is to be held, except if the office is for a district consisting of less than the entire county and only the voters in that district vote for that office, the petitions must be signed by qualified voters of the district equal in number to four percent (4%) of the total number of voters in the district according to the voter registration records of the State Board of Elections as of January 1 of the year in which the general election is to be held. (4) If the office is a partisan municipal office, file written petitions with the chair or director of the county board of elections in the county wherein the municipality is located supporting the voter's candidacy for a specified municipal office. These petitions must be filed with the county board of elections on or before the time and date specified in G.S. 163-296 and must be signed by the number of qualified voters specified in G.S. 163-296. (5) If the office is a superior court judge or a district court judge, regardless of whether the district lies entirely in one county or in more than one county, file written petitions with the State Board of Elections supporting that voter's candidacy for a specified office. These petitions must be filed with the State

Board of Elections on or before 12:00 noon on the ~~second Wednesday prior to~~day of the primary election and must be signed by qualified voters of the district equal in number to two percent (2%) of the total number of registered voters in the district as reflected by the voter registration records of the State Board of Elections as of January 1 of the year in which the general election is to be held. The petitions shall be divided into sections based on the county in which the signatures were obtained. The petitions shall be verified as specified in subdivision (1) of this subsection.

SECTION 2.(b) G.S. 163-296 reads as rewritten:

"**§ 163-296. Nomination by petition.**

In cities conducting partisan elections, any qualified voter who seeks to have his name printed on the regular municipal election ballot as an unaffiliated candidate may do so in the manner provided in G.S. 163-122, except that the petitions and affidavits shall be filed not later than 12:00 noon on the Friday preceding the seventh Saturday before the election, and the petitions shall be signed by a number of qualified voters of the municipality equal to at least ~~four percent (4%)~~one and a half percent (1.5%) of the whole number of voters qualified to vote in the municipal election according to the voter registration records of the State Board of Elections as of January 1 of the year in which the general municipal election is held. A person whose name appeared on the ballot in a primary election is not eligible to have his name placed on the regular municipal election ballot as an unaffiliated candidate for the same office in that year. The Board of Elections shall examine and verify the signatures on the petition, and shall certify only the names of signers who are found to be qualified registered voters in the municipality. Provided that in the case where a qualified voter seeks to have his name printed on the regular municipal election ballot as an unaffiliated candidate for election from an election district within the municipality, the petition shall be signed by ~~four percent (4%)~~one and a half percent (1.5%) of the voters qualified to vote for that office."

SECTION 3. G.S. 163-111(a) reads as rewritten:

"(a) Nomination Determined by Substantial Plurality; Definition of Substantial Plurality. – Except as otherwise provided in this section, nominations in primary elections shall be determined by a substantial plurality of the votes cast. A substantial plurality within the meaning of this section shall be determined as follows:

(1) If a nominee for a single office is to be selected, and there is more than one person seeking nomination, the substantial plurality shall be ascertained by multiplying the total vote cast for all aspirants by ~~forty percent (40%).~~thirty percent (30%). Any excess of the sum so ascertained shall be a substantial plurality, and the aspirant who obtains a substantial plurality shall be declared the nominee. If two candidates receive a substantial plurality, the candidate receiving the highest vote shall be declared the nominee.

(2) If nominees for two or more offices (constituting a group) are to be selected, and there are more persons seeking nomination than there are offices, the substantial plurality shall be ascertained by dividing the total vote cast for all aspirants by the number of positions to be filled, and by multiplying the result by ~~forty percent (40%).~~thirty percent (30%). Any excess of the sum so ascertained shall be a substantial plurality, and the aspirants who obtain a substantial plurality shall be declared the nominees. If more candidates obtain a substantial plurality than there are positions to be filled, those having the highest vote (equal to the number of positions to be filled) shall be declared the nominees."

SECTION 4.(a) No 2018 Primary for Judicial Offices. – Notwithstanding G.S. 163-106, no party primaries shall be held for candidates seeking the following offices in the general election held on November 6, 2018:

Justices of the Supreme Court.

Judges of the Court of Appeals.

Judges of the superior courts.

Judges of the district courts.

Candidates seeking the office of Justice of the Supreme Court, judge of the Court of Appeals, judge of the superior court, or judge of the district court shall file their notice of candidacy with the State Board of Elections and Ethics Enforcement no earlier than 12:00 noon on June 18, 2018, and no later than 12:00 noon on June 29, 2018.

SECTION 4.(b) Form of Notice. – Each person offering to be a candidate for election shall do so by filing a notice of candidacy with the State Board of Elections and Ethics Enforcement in the following form, inserting the words in parentheses when appropriate:

Date _____

I hereby file notice that I am a candidate for election to the office of _____ in the regular election to be held _____, _____.

Signed _____

(Name of Candidate)

Witness: _____

The notice of candidacy shall be either signed in the presence of the chair or secretary of the State Board of Elections and Ethics Enforcement or signed and acknowledged before an officer authorized to take acknowledgments who shall certify the notice under seal. An acknowledged and certified notice may be mailed to the State Board of Elections and Ethics Enforcement. In signing a notice of candidacy, the candidate shall use only the candidate's legal name and, in the candidate's discretion, any nickname by which commonly known. A candidate may also, in lieu of that candidate's first name and legal middle initial or middle name, if any, sign that candidate's nickname, provided the candidate appends to the notice of candidacy an affidavit that the candidate has been commonly known by that nickname for at least five years prior to the date of making the affidavit. The candidate shall also include with the affidavit the way the candidate's name (as permitted by law) should be listed on the ballot if another candidate with the same last name files a notice of candidacy for that office.

A notice of candidacy signed by an agent or any person other than the candidate shall be invalid.

A candidate, at the time of filing the notice of candidacy under this section, shall indicate on the notice of candidacy the political party recognized under Article 18 of Chapter 163A of the General Statutes with which that candidate is affiliated or any unaffiliated status. The certificate required by subsection (d) of this section shall verify the party designation or unaffiliated status, and the verified party designation or unaffiliated status shall be included on the ballot.

SECTION 4.(c) Withdrawal of Notice of Candidacy. – Any person who has filed a notice of candidacy for an office under this section shall have the right to withdraw it at any time prior to the close of business on the third business day prior to the date on which the right to file for that office expires under the terms of subsection (b) of this section.

SECTION 4.(d) Certificate That Candidate Is Registered Voter. – Candidates shall file along with their notice a certificate signed by the chair of the board of elections or the director of elections of the county in which they are registered to vote, stating that the person is registered to vote in that county, and if the candidacy is for superior court judge or district court judge, and the county contains more than one superior court district or district court district, stating the judicial district of which the person is a resident. In issuing such certificate, the chairman or director shall check the registration records of the county to verify such information. During the period commencing 36 hours immediately preceding the filing deadline, the State Board of Elections and Ethics Enforcement shall accept, on a conditional

basis, the notice of candidacy of a candidate who has failed to secure the verification ordered herein subject to receipt of verification no later than three days following the filing deadline. The State Board of Elections and Ethics Enforcement shall prescribe the form for such certificate and distribute it to each county board of elections no later than the last Monday in December of 2017.

SECTION 4.(e) Candidacy for More Than One Office Prohibited. – No person may file a notice of candidacy for more than one office or group of offices described in subsection (a) of this section, or for an office or group of offices described in subsection (a) of this section and an office described in G.S. 163-106(c), for any one election. If a person has filed a notice of candidacy with a board of elections under this section or under G.S. 163-106(c) for one office or group of offices, then a notice of candidacy may not later be filed for any other office or group of offices under this section when the election is on the same date unless the notice of candidacy for the first office is withdrawn under subsection (c) of this section.

SECTION 4.(f) Notice of Candidacy for Certain Offices to Indicate Vacancy. – In any election in which there are two or more vacancies for the office of justice of the Supreme Court, judge of the Court of Appeals, superior court judge, or district court judge to be filled by nominations, each candidate shall, at the time of filing notice of candidacy, file with the State Board of Elections and Ethics Enforcement a written statement designating the vacancy to which the candidate seeks election. Votes cast for a candidate shall be effective only for election to the vacancy for which the candidate has given notice of candidacy as provided in this subsection.

A person seeking election for a specialized district judgeship established under G.S. 7A-147 shall, at the time of filing notice of candidacy, file with the State Board of Elections and Ethics Enforcement a written statement designating the specialized judgeship to which the person seeks nomination.

SECTION 4.(g) Residency Requirements. – No person may file a notice of candidacy for superior court judge or district court judge unless that person is at the time of filing the notice of candidacy a resident of the judicial district as it will exist at the time the person would take office if elected. This subsection implements Section 9(1) of Article IV of the North Carolina Constitution, which requires regular superior court judges to reside in the district for which elected, and Section 10 of Article IV of the North Carolina Constitution, which requires every district court judge to reside in the district for which elected.

SECTION 4.(h) Filing Fees. – Candidates shall pay filing fees as required by G.S. 163-107 and G.S. 163-107.1.

SECTION 4.(i) Failure of Candidates to File; Death or Other Disqualification of a Candidate; No Withdrawal From Candidacy. –

(1) Insufficient number of candidates. – If when the filing period expires, candidates have not filed for an office to be filled under this section, the State Board of Elections and Ethics Enforcement shall extend the filing period for five days for any such offices.

(2) Vacancies; reopening filing. – If only one or two candidates have filed for a single office, or the number of candidates filed for a group of offices does not exceed twice the number of positions to be filled, and thereafter a remaining candidate dies or otherwise becomes disqualified before the election and before the ballots are printed, the State Board of Elections and Ethics Enforcement shall, upon notification of the death or other disqualification, immediately reopen the filing period for an additional five days during which time additional candidates shall be permitted to file for election. If the ballots have been printed at the time the State Board of Elections and Ethics Enforcement receives notice of the candidate's death or other disqualification, the Board shall determine whether there will be sufficient time to reprint them before the election if the filing period is reopened for three days. If the Board determines that there will be sufficient

time to reprint the ballots, it shall reopen the filing period for three days to allow other candidates to file for election.

(3) Later vacancies; ballots not reprinted. – If the ballots have been printed at the time the State Board of Elections and Ethics Enforcement receives notice of a candidate's death or other disqualification, and if the Board determines that there is not enough time to reprint the ballots before the election if the filing period is reopened for three days, then regardless of the number of candidates remaining for the office or group of offices, the ballots shall not be reprinted and the name of the vacated candidate shall remain on the ballots. If a vacated candidate should poll the highest number of votes in the election for a single office or enough votes to be elected to one of a group of offices, the State Board of Elections and Ethics Enforcement shall declare the office vacant and it shall be filled in the manner provided by law.

(4) No withdrawal permitted of living, qualified candidate after close of filing. – After the close of the candidate filing period, a candidate who has filed a notice of candidacy for an office under this section, who has not withdrawn notice before the close of filing as permitted by subsection (c) of this section, who remains alive, and has not become disqualified for the office may not withdraw his or her candidacy. That candidate's name shall remain on the ballot, any votes cast for the candidacy shall be counted in primary or election, and if the candidate wins, the candidate may fail to qualify by refusing to take the oath of office.

(5) Death, disqualification, or failure to qualify after election. – If a person elected to the office of justice of the Supreme Court, judge of the Court of Appeals, or superior or district court judge dies or becomes disqualified on or after election day and before that person has qualified by taking the oath of office, or fails to qualify by refusing to take the oath of office, the office shall be deemed vacant and shall be filled as provided by law.

SECTION 4.(j) Ballot Order. – For the 2018 general election, the State Board of Elections and Ethics Enforcement shall place elections for the offices elected as provided in this section with other partisan offices, as provided in G.S. 163-165.6(b)(3). Order of candidates for those offices shall be determined as provided in G.S. 163-165.6(c).

SECTION 4.(k) Determination of Election Winners. – A general election for all candidates seeking office as provided in this section shall be held on November 6, 2018. In the general election, the candidate for a single office receiving the highest number of votes shall be elected. Those candidates for a group of offices receiving the highest number of votes, equal in number to the number of positions to be filled, shall be elected. If two candidates receiving the highest number of votes each received the same number of votes, the State Board of Elections and Ethics Enforcement shall determine the winner by lot.

SECTION 5. This act becomes effective January 1, 2018, and applies to all primaries and elections held on or after that date.

In the General Assembly read three times and ratified this the 5th day of October, 2017.

GOVERNOR ROY COOPER OBJECTIONS AND VETO MESSAGE:

House Bill 100, *"AN ACT TO RESTORE PARTISAN JUDICIAL ELECTIONS FOR NORTH CAROLINA SUPERIOR AND DISTRICT COURTS AND TO CHANGE THE TIME FOR SUBMISSION OF PETITIONS FOR UNAFFILIATED CANDIDATES."*

North Carolina wants its judges to be fair and impartial, and partisan politics has no place on the judges' bench. We need less politics in the courtroom, not more.

Judges make tough decisions on child abuse, divorce, property disputes, drunk driving, domestic violence and other issues that should be free from politics. This bill reverses that progress.

We should let people elect judges based on their experience and ability to do the job, not which party they pick.

I am also concerned that judges who have chosen to register as unaffiliated voters so as to avoid partisan politics now have a difficult path to getting on the ballot.

Therefore, I veto the bill.

Fewer judges will increase the court's workload and delay the people's access to timely appeals and decisions. The bill is an attempt by a political party to stack the Court of Appeals. Additionally, I believe this legislation is unconstitutional.

Therefore, I veto the bill.

Similar legislation to this was held unconstitutional by a three judge panel in a unanimous decision, and I believe this repackaged bill is also unconstitutional. Therefore, I veto the bill.

GOVERNOR ROY COOPER'S OBJECTIONS AND VETO MESSAGE:

House Bill 467, "AN ACT TO CLARIFY THE REMEDIES AVAILABLE IN PRIVATE NUISANCE ACTIONS AGAINST AGRICULTURAL AND FORESTRY OPERATIONS"

The agriculture and forestry industries are vital to our economy and we should encourage them to thrive.

But nuisance laws can be used to protect property rights and make changes for good. We used nuisance laws to force the Tennessee Valley Authority to stop air pollution from flowing into North Carolina and we won damages to improve air quality.

Special protection for one industry opens the door to weakening our nuisance laws in other areas which can allow real harm to homeowners, the environment and everyday North Carolinians.

Therefore, I veto the bill.

GOVERNOR ROY COOPER OBJECTIONS AND VETO MESSAGE:

Senate Bill 257, "AN ACT TO MAKE BASE BUDGET APPROPRIATIONS FOR CURRENT OPERATIONS OF STATE DEPARTMENTS, INSTITUTIONS, AND AGENCIES, AND FOR OTHER PURPOSES."

This budget neglects our schools and our economy at a time when North Carolina should be making public education stronger, not giving special breaks to those at the top.

It prioritizes tax breaks for the wealthy and corporations and shortchanges our workforce and schools at a pivotal time of growth.

The budget also lacks structural integrity by failing to account for population growth, inflation and looming federal reductions, by using one-time revenue for recurring expenses, and by adopting a tax plan that will cause the state to fail to fund promised teacher salary increases in future years, along with funding for early childhood education, community colleges and universities.

Additionally, the Act contains provisions that infringe upon the Governor's ability to faithfully execute the laws, including the administration of this Act, as required by the Constitution, and violating the separation of powers.

These shortcomings can be fixed, and I encourage the General Assembly to do so by capping tax cuts so they benefit the middle class, investing more in public education, and fixing the unconstitutional flaws in this bill. But in its current form the Act shortchanges North Carolina.

Therefore, I veto the bill.

In this bill, the legislature exempts particular technologies that could potentially better ensure the health and safety of people and the environment. Scientists, not the legislature, should decide whether a patented technology can safely dispose of contaminated liquids from landfills. With use of the word "shall," the legislature mandates a technology winner, limiting future advancements that may provide better protection.

I am not opposed to legitimate nonprofits holding an occasional "game night" to help with donations to worthy causes. However, I believe this legislation as written could cause unintended problems. North Carolina law enforcement has fought for years against the for-profit video poker industry, and legitimizing charitable gambling in this way could give video poker a new way to infiltrate our communities. Allowing the industry to masquerade as a charity could cause unintended permits to be issued, and without tough criminal penalties enforcement would be difficult.

GOVERNOR ROY COOPER'S OBJECTIONS AND VETO MESSAGE:

House Bill 205 AN ACT TO AMEND PROVISIONS OF THE WORKERS' COMPENSATION ACT RELATING TO PRISONERS AND TO THE REBUTTABLE PRESUMPTION REGARDING NEWSPRINT EMPLOYEES; TO MODERNIZE PUBLICATION OF LEGAL ADVERTISEMENTS AND NOTICES; TO ALLOW GUILFORD COUNTY AND ANY MUNICIPALITY IN GUILFORD COUNTY TO USE ELECTRONIC MEANS TO PROVIDE PUBLIC NOTICE IN LIEU OF PUBLICATION; AND TO ALLOW GUILFORD COUNTY TO OPT TO POST LEGAL ADVERTISEMENTS AND NOTICES ON THE COUNTY WEB SITE FOR A FEE WITH MONIES COLLECTED TO BE USED FOR LOCAL SUPPLEMENTS FOR TEACHER SALARY AND OTHER COUNTY NEEDS.

Included in this legislation is an important change to the Prison Industry Enhancement Program that I do support. I urge the legislature to address that separately and I will sign it.

However, time and again, this legislature has used the levers of big government to attack important institutions in our state who may disagree with them from time to time. Unfortunately, this legislation is another example of that misguided philosophy meant to specifically threaten and harm the media. Legislation that enacts retribution on the media threatens a free and open press, which is fundamental to our democracy.

Therefore, I veto the bill.

House Bill 140, AN ACT TO APPLY DISCLOSURE AND NOTIFICATION REQUIREMENTS RELATED TO INSURER FEE SCHEDULES, CLAIMS SUBMISSION, AND REIMBURSEMENT POLICIES TO STAND ALONE DENTAL INSURANCE.

Making small loans more expensive by expanding credit insurance can drive borrowers further into debt, especially those who can least afford it. If this bill becomes law, consumers will have higher-cost loans because they will be borrowing the money to pay the credit insurance premiums. Borrowers who need short-term loans should not have to pay more for unnecessary insurance.

Therefore, I veto the bill.

House Bill 770 AN ACT TO MAKE CLARIFYING CHANGES TO ENSURE ESSA COMPLIANCE; CLARIFY PROPERTY TAX COMMISSION SALARIES; CLARIFY ADMINISTRATIVE COSTS FOR THE HEALTHY FOOD SMALL RETAILER PROGRAM; CLARIFY SINGLE-STREAM FUNDING FOR LME/MCOS; CHANGE THE MEMBERSHIP OF THE NORTH CAROLINA MEDICAL BOARD; PROHIBIT ATTORNEYS SERVING AS TRUSTEES FROM REPRESENTING NOTEHOLDERS OR BORROWERS WHILE INITIATING A FORECLOSURE PROCEEDING; MAKE CHANGES TO REPORTING REQUIREMENTS TO THE GENERAL ASSEMBLY; AND MAKE CHANGES TO THE NORTH CAROLINA STATE LOTTERY COMMISSION.

This special pay benefit for one employee getting two state salaries is unnecessary and unfair to other state employees. In addition, the legislature taking two appointments to the state's Medical Board is an intrusion on executive authority and not needed.

Therefore, I veto the bill.

Senate Bill 16 AN ACT TO PROVIDE FURTHER REGULATORY RELIEF TO THE CITIZENS OF NORTH CAROLINA.

We should make it easier, not harder, for state and local governments to protect water quality, whether through stormwater safeguards or by giving public health departments the ability to revisit wastewater permits if needed. Rolling back ways to protect water quality is dangerous.

Therefore, I veto the bill.

House Bill 56, AN ACT TO AMEND VARIOUS ENVIRONMENTAL LAWS.

Clean water is critical for our health and our economy and this legislation fails to appropriate any needed funds to the departments in state government charged with setting standards and enforcing laws to prevent illegal chemical discharges into rivers used for drinking water. In addition, it weakens protections from river pollution and landfills and repeals a local plastic bag ban supported by local governments and businesses that was passed to protect the environment.

Therefore, I veto the bill.

Senate Bill 656 AN ACT TO CHANGE THE DEFINITION OF A "POLITICAL PARTY" BY REDUCING THE NUMBER OF SIGNATURES REQUIRED FOR THE FORMATION OF A NEW POLITICAL PARTY AND FOR UNAFFILIATED CANDIDATES TO OBTAIN BALLOT ACCESS ELIGIBILITY; TO AUTHORIZE ESTABLISHMENT OF POLITICAL PARTIES RECOGNIZED IN A SUBSTANTIAL NUMBER OF STATES IN THE PRIOR PRESIDENTIAL ELECTION; TO CHANGE TIMING OF FILING OF PETITIONS; TO REDUCE THE THRESHOLD FOR A SUBSTANTIAL PLURALITY TO THIRTY PERCENT; AND TO ELIMINATE JUDICIAL PRIMARIES FOR THE 2018 GENERAL ELECTION.

This legislation abolishes a scheduled election and takes away the right of the people to vote for the judges of their choice. It is the first step toward a constitutional amendment that will rig the system so that the legislature picks everybody's judges in every district instead of letting the people vote for the judges they want. If the legislature doesn't like the fact that judges are ruling many of their laws unconstitutional, they should change their ways instead of their judges.

Therefore, I veto the bill.

Resolution 2017-10 **S.J.R. 205**

A JOINT RESOLUTION OF SUPPORT FOR REVISIONS TO POLICIES OF THE U.S. ARMY CORPS OF ENGINEERS TO ALLOW SHELLFISH CULTIVATION AND AQUACULTURE ACTIVITIES IN NORTH CAROLINA WATERS CONTAINING SUBMERGED AQUATIC VEGETATION.

Whereas, under current policies of the Wilmington District of the U.S. Army Corps of Engineers, shellfish cultivation and aquaculture activities are banned in areas of North Carolina sounds and estuaries containing submerged aquatic vegetation (SAV), a policy that is stricter than policies used in other coastal states, including the Commonwealth of Virginia; and

Whereas, Section 11 of the 2015 Farm Act (S.L. 2015-263) allows the Marine Fisheries Commission to issue shellfish cultivation leases in areas containing SAV to the extent allowed by federal law; and

Whereas, the 2016 Stock Status Report of the Division of Marine Fisheries continues to classify the eastern oyster as a species of concern, with juvenile abundance indices for 2015 well below the average for the prior 10 years; and

Whereas, the encouragement of oyster cultivation and aquaculture has the potential to increase water quality due to the ability of adult oysters to filter between 13 and 50 gallons of water a day; and

Whereas, oyster beds provide food and habitat for more than 300 other species, including crabs, shrimp, and multiple juvenile and adult fish species; and

Whereas, portions of coastal waters with SAV in many cases were historically viable oyster producing sites; and

Whereas, the amendment of the Regional Conditions for Nationwide Permits to allow shellfish bottom leases in areas containing SAV under certain circumstances would encourage the expansion of shellfish cultivation and aquaculture in these areas and provide a source of economic development in coastal portions of the State; Now, therefore,

Be it resolved by the Senate, the House of Representatives concurring:

SECTION 1. The General Assembly supports the revision of section 3.8 of the proposed 2017 Regional Conditions for Nationwide Permits under section 404 of the Clean Water Act for the Wilmington District of the U.S. Army Corps of Engineers to replace the current ban on adverse impacts to submerged aquatic vegetation with a requirement that adverse impacts are allowed if an essential fish habitat consultation under the federal Magnuson-Stevens Fisheries Conservation and Management Act has been completed.

SECTION 2. The Secretary of State shall transmit copies of this resolution to the Wilmington District, the South Atlantic Division, and the Chief of Engineers and Commanding General of the U.S. Army Corps of Engineers.

SECTION 3. This resolution is effective upon ratification.

In the General Assembly read three times and ratified this the 27th day of June, 2017.

Resolution 2017-11 **S.J.R. 687**

A JOINT RESOLUTION PROVIDING FOR THE CONFIRMATION OF THE APPOINTMENT OF DANIEL G. CLODFELTER TO THE UTILITIES COMMISSION.

Whereas, under the provisions of G.S. 62-10, appointments made by the Governor to membership on the North Carolina Utilities Commission are subject to confirmation by the General Assembly by joint resolution; and

Whereas, a vacancy will occur on June 30, 2017, when the term of Don M. Bailey expires; and

Whereas, the Governor has submitted to the presiding officers of the Senate and the House of Representatives the appointment of Daniel G. Clodfelter to serve a term commencing July 1, 2017, and expiring June 30, 2023, on the North Carolina Utilities Commission; Now, therefore,

Be it resolved by the Senate, the House of Representatives concurring:

SECTION 1. The appointment of Daniel G. Clodfelter of Mecklenburg County to the North Carolina Utilities Commission for a new term beginning July 1, 2017, and expiring June 30, 2023, is confirmed.

SECTION 2. This resolution is effective upon ratification.

In the General Assembly read three times and ratified this the 30th day of June, 2017.

A JOINT RESOLUTION ADJOURNING THE 2017 REGULAR SESSION OF THE GENERAL ASSEMBLY TO A DATE CERTAIN AND LIMITING THE MATTERS THAT MAY BE CONSIDERED UPON RECONVENING.

Be it resolved by the Senate, the House of Representatives concurring:

SECTION 1.1. When the House of Representatives and the Senate jointly adjourn on the date this resolution is ratified, they stand adjourned to reconvene on Thursday, August 3, 2017, at 12:00 noon.

SECTION 1.2. During the regular session that reconvenes on Thursday, August 3, 2017, only the following matters may be considered:

(1) Bills returned by the Governor with his objections under Section 22 of Article II of the North Carolina Constitution, but solely for the purpose of considering overriding of the veto upon reconsideration of the bill.
