However, an applicant who uses the services of the Department as provided in this subdivision, and who receives a written statement identifying required State business licenses relating to a specific business activity, shall not be assessed a penalty for failure to obtain any State business license which was not identified, provided that the applicant submits an application for each such license within 60 days after written notification by the Department or the agency responsible for issuing the license.

If a request for a license is refused, the Department may explain the recourse available to the person under the Administrative Procedure Act.

- b. Work with the Department in scheduling conferences for applicants as provided under this subsection.

- f. Report, on an annual basis, to the Department on the number of licenses issued during the previous fiscal year on a form prescribed by the Department.

(f) Financial statements submitted to the Department by a private company or an individual seeking assistance from the Department are not public records as defined in G.S. 132-1. - (6) Secretary. – The Secretary of Commerce or the governing board of a North Carolina nonprofit corporation with which the Department contracts pursuant to G.S. 143B-431.01 for the performance of the Secretary's responsibilities under this section.

(b) Plan. – The Secretary shall review and update the existing Plan on or before April 1 of each year. The Plan shall cover a period of four years and each annual update shall extend the time frame by one year so that a four-year plan is always in effect. The Secretary shall provide copies of the Plan and each annual update to the Governor, the chairs of the Senate Appropriations Committee on Agriculture, Natural, and Economic Resources, the chairs of the House of Representatives Appropriations Committee on Agriculture and Natural and Economic Resources, and the Joint Legislative Economic Development and Global Engagement Oversight Committee. The Plan shall encompass all of the components set out in this section.

(c) Purpose. – The purpose of this section is to require the Secretary to apply strategic planning principles to its economic development efforts. This requirement is expected to result in all of the following:

- (1) The selection of a set of priority development objectives that recognizes the increasingly competitive economic environment and addresses the changing needs of the State in a more comprehensive manner.
- (2) The effective utilization of available and limited resources.
- (3) A commitment to achieve priority objectives and to sustain the process.
- (d) Public and Private Input. –
 - (1) At each stage as it develops and updates the Plan, the Secretary shall solicit input from all parties involved in economic development in North Carolina, including:
 - a. Each of the programs and organizations that, for State budget purposes, identifies economic development as one of its global goals.
 - b. Local economic development departments and regional economic development organizations.
 - c. The Board of Governors of The University of North Carolina.
 - (2) The Secretary shall also hold hearings in each of the Regions to solicit public input on economic development before the initial Plan is completed. The purposes of the public hearings are to do all of the following:

- a. Assess the strengths and weaknesses of recent regional economic performance.
- b. Examine the status and competitive position of the regional resource base.
- c. Identify and seek input on issues that are key to improving the economic well-being of the Region.

The Secretary shall hold additional hearings from time to time to solicit public input regarding economic development activities.

- (3) Each component of the Plan shall be based on this broad input and, to the extent possible, upon a consensus among all affected parties. The Secretary shall coordinate its planning process with any State capital development planning efforts affecting State infrastructure such as roads and water and sewer facilities.

(e) Environmental Scan. – The first step in developing the Plan shall be to develop an environmental scan based on the input from economic development parties and the public and on information about the economic environment in North Carolina. To prepare the scan, the Secretary shall gather the information required in this subsection and ensure that the information is updated periodically. The updated information may be provided in whatever format and through whatever means is most efficient. The information required to prepare the scan includes all of the following:

- (1) Compilation of the latest economic and demographic data on North Carolina by State, Region, and county including population, population projections, employment, and employment projections, income and earnings status and outlook, migration and commuting patterns, unemployment, poverty, and other similar data.
- (2) Compilation of the latest data on the strength of the business environment by State, Region, and county with emphasis on the following dynamics of job creation: start-ups, expansions, locations, contractions, and failures. Special assessments are to be made of rural, small, and minority business components of overall activity.
- (3) Compilation of the latest data on labor compensation, construction costs, utility rates, payroll costs, taxes, and other cost data normally considered by manufacturing firms and new businesses and shall be tabulated by State, Region, and county.
- (4) Compilation of data on assets within the State and by Region and county to include the following:
 - a. Available buildings, bona fide industrial parks, and sites.
 - b. Characteristics of the available labor force (number, demographic attributes, skill levels, etc.).
 - c. Special labor situations, such as military base discharges and large plant closings.
 - d. Available infrastructure capacities by county and Region including water, sewer, electrical, natural gas, telecommunication, highway access, and other pertinent services.
 - e. The fiscal capacity of counties and localities within counties to support the infrastructure development necessary to participate in the development process.

- f. Analyses of assimilative capacity of riverine, estuarine, or ocean outfalls, or other environmental cost considerations.
 - g. Proximity analyses of counties in close alignment with major urban areas in bordering states.
 - h. Special educational and research capabilities.
 - i. Special transportation situations such as major airports, ports, and railyards.
 - j. Available data on the performance, contribution, and impact each economic sector (including, but not limited to, agriculture, finance, manufacturing, public utilities, trade, services, tourism, and government) is having on individual counties, Regions, and the State.
 - k. Available tourist and service assets.
 - l. Analyses of seasonal population and absentee ownership in resort and tourism areas and their impact on the delivery of public services.
 - m. Cost and availability of natural gas and electricity.
- (5) Compilation and analyses of data on economic and industrial changes in competitor states by Region, as applicable. This data shall be entered into a database and kept current. It shall include, specifically, all new plant location information such as origin of the plant, Standard Industrial Classification Code, employment, and investment.
 - (6) Compilation of cost data, policies, and strategies in competitive Southeastern states as well as other United States regions and foreign countries.
 - (7) Compilation of incentives and special programs being offered by other states.

 - (11) Other information relating to economic development such as regulatory or legal matters and social considerations.
- (f) Repealed by Session Laws 2012-142, s. 13.4(a), effective July 1, 2012.
 - (g) Vision and Mission Statements. – The Secretary shall develop a vision statement for economic development that would describe the preferred future for North Carolina and what North Carolina would be like if all economic development efforts were successful. The Secretary shall then develop a mission statement that outlines the basic purpose of each of North Carolina's economic development programs. Because special purpose nonprofit organizations are uniquely situated to conduct the entrepreneurial and high-risk activity of investing in and supporting new business creation in the State, they should be assigned a dominant role in this key component of economic development activity.
 - (h) Goals and Objectives. – The Secretary, using data from the public input and the environmental scan, shall formulate a list of goals and objectives. Goals shall be long-range, four years or more, and shall address both needs of economically distressed Regions and counties as

well as opportunities for Regions and counties not distressed. The goals shall be developed with realism but should also be selected so as to encourage every Region and county within the State to develop to its maximum potential. Objectives shall be one year or less in scope and shall, if achieved, lead to the realization of the goals formulated by the Secretary as provided in this section.

Both goals and objectives should be stated largely in economic terms, that is, they should be related to specific population, employment, demographic targets, or economic sector targets. Both efficiency and equity considerations are to be addressed and balanced with special emphasis placed on the needs of disadvantaged or economically distressed populations and communities. The goals and objectives should not state how the economic targets are to be reached, but rather what the economic conditions will be if they are obtained. So that the progress of North Carolina's economic development efforts can be monitored, the Secretary shall set objectives for each goal that allow measurement of progress toward the goal. Objectives should be quantifiable and time-specific in order to serve as performance indicators.

(i) Formulation of Economic Development Strategy. – The Plan shall have as its action component a strategy set forth in a blueprint for directing resources of time and dollars toward the satisfaction of the goals and objectives stated in subsection (h) of this section. As a practical consequence of the economic environment, a focus on the competitiveness of indigenous industries and entrepreneurial development is required. The Plan shall include a strategy for the coordination of initiatives and activities for workforce preparedness, funded by federal or State sources, including, but not limited to, vocational education, applied technology education, remedial education, and job training, and the achievement of the economic development goals of the Plan. A balance of opportunity between rural and urban regions and between majority and minority populations should be an overriding consideration. Equity of opportunity for counties and communities across the State will involve the explicit consideration of local fiscal capacity and the fiscal ability to support development activities.

The concept of differentiation should be employed. The Plan should recognize the various strengths and weaknesses of the State and its component regions, subregions, and, in some cases, individual counties. The concept of market segmentation should be employed. Different Regions and subregions of the State should be promoted to different markets.

(j) Implementation Plan. – Based upon all of the foregoing steps, the Secretary shall establish an implementation plan assigning to the appropriate parties specific responsibilities for meeting measurable objectives. The implementation plan shall contain all necessary elements so that it may be used as a means to monitor performance, guide appropriations, and evaluate the outcomes of the parties involved in economic development in the State.

(k) Annual Evaluation. – The Secretary shall annually evaluate the State's economic performance based upon the statistics listed in this subsection and upon the Secretary's stated goals and objectives in its Plan. The statistics upon which the evaluation is made should be available to policymakers. The information may be provided in whatever format and through whatever means is most efficient. The statistics are as follows:

- (1) The net job change (expansions minus contractions) by the various economic sectors of the county, Region, and State.
- (2) Realized capital investment in plants and equipment by new and expanding industry in each county, Region, and State.

 - (4) The net change in the number of firms by county, Region, and State with statistics on the dynamics of change: relocations in versus relocations out; births versus deaths; and expansions versus contractions.
 - (5) A measure of the status and performance of all sectors of the county, Region, and State economy including, but not limited to, manufacturing, agriculture, trade, finance, communications, transportation, utilities, services, and travel and tourism.
 - (6) An assessment of the relative status and performance of rural business development as opposed to that in urban areas.
 - (7) An analysis of the status of minority-owned businesses throughout the State.
 - (8) An assessment of the development capability of the various Regions of the State in terms of their environmental, fiscal, and administrative capacity. Those areas that are handicapped by barriers to development should be highlighted.
 - (9) Repealed by Session Laws 2012-142, s. 13.4(a), effective July 1, 2012.
- (I) Accountability. – The Secretary shall make all data, plans, and reports available to the Joint Legislative Economic Development and Global Engagement Oversight Committee, the chairs of the Senate Appropriations Committee on Agriculture, Natural, and Economic Resources, and the chairs of the House of Representatives Appropriations Committee on Agriculture and Natural and Economic Resources at appropriate times and upon request. The Secretary shall prepare and make available on an annual basis public reports on each of the major sections of the Plan and the Annual Report indicating the degree of success in attaining each development objective. (1993, c. 321, s. 313(c); 1997-456, s. 27; 2012-142, s. 13.4(a); 2014-18, s. 1.2(b); 2017-57, s. 14.1(q), (y); 2018-142, s. 13(c); 2020-78, s. 6.1.)

(b) Findings. – The General Assembly finds that in order for a clawback to be effective, there must be monitoring and reporting regarding the business's performance of its responsibilities and a mechanism for obtaining repayment if the clawback requiring the return of previously disbursed funding is triggered. Clawback provisions are essential to protect the State's investment in a private business and ensure that the public benefits from the incentive will be secured.

(1937, c. 160; 1953, c. 808, s. 4; 1973, c. 1262, s. 86; 1977, c. 198, ss. 20, 26; 1989, c. 751, s. 7(31); 1991 (Reg. Sess., 1992), c. 959, s. 56.)

§ 143B-437.02. Site infrastructure development.

(a) Findings. – The General Assembly finds that:

- (1) It is the policy of the State of North Carolina to stimulate economic activity and to create new jobs for the citizens of the State by encouraging and promoting the expansion of existing business and industry within the State and by recruiting and attracting new business and industry to the State.
- (2) Both short-term and long-term economic trends at the State, national, and international levels have made the successful implementation of the State's economic development policy and programs both more critical and more challenging; and the decline in the State's traditional industries, and the resulting adverse impact upon the State and its citizens, have been exacerbated in recent years by adverse national and State economic trends that contribute to the reduction in the State's industrial base and that inhibit the State's ability to sustain or attract new and expanding businesses.
- (3) The economic condition of the State is not static and recent changes in the State's economic condition have created economic distress that requires the enactment of a new program as provided in this section that is designed to stimulate new economic activity and to create new jobs within the State.
- (4) The enactment of this section is necessary to stimulate the economy, facilitate economic recovery, and create new jobs in North Carolina and this section will promote the general welfare and confer, as its primary purpose and effect, benefits on citizens throughout the State through the creation of new jobs, an enlargement of the overall tax base, an expansion and diversification of the State's industrial base, and an increase in revenue to the State and its political subdivisions.
- (5) The purpose of this section is to stimulate economic activity and to create new jobs within the State.

Funds in the fund do not revert but remain available to the Department for these purposes. The Department may use the funds in the fund only for site development in accordance with this section.

These facilities must be maintained in service for a continuous period of at least 10 years.

Each year that a contract for site development under this section is in effect, the business must provide the Department of Commerce a certification that the business continues to provide health insurance for all full-time employees of the project governed by the contract. If the business ceases to provide health insurance to all full-time employees of the project, Department shall provide for reimbursement of an appropriate portion of the site development funds provided to the business.

(f) Safety and Health Programs. – In order for a business to be eligible for consideration for site development under this section, the business must have no citations under the Occupational Safety and Health Act that have become a final order within the past three years for willful serious violations or for failing to abate serious violations with respect to the location for which the grant is made. For the purposes of this subsection, "serious violation" has the same meaning as in G.S. 95-127.

(g) Environmental Impact. – A business is eligible for consideration for site development under this part only if the business certifies that, at the time of the application, there has not been a final determination unfavorable to the business with respect to an environmental disqualifying event. For the purposes of this section, a "final determination unfavorable to the business" occurs when there is no further opportunity for the business to seek administrative or judicial appeal, review, certiorari, or rehearing of the environmental disqualifying event and the disqualifying event has not been reversed or withdrawn.

(h) Selection. – The Department of Commerce shall administer the selection of projects to receive site development. The selection process shall include the following components:

- (1) Criteria. – The Department of Commerce must develop criteria to be used to identify and evaluate eligible projects for possible site development.
- (2) Initial evaluation. – The Department must evaluate major competitive projects to determine if site development is merited and to determine whether the project is eligible and appropriate for consideration for site development.
- (3) Application. – The Department must require a business to submit an application in order for a project to be considered for site development. The Department must prescribe the form of the application, the application process, and the information to be provided, including all information necessary to evaluate the project in accordance with the applicable criteria.
- (4) Committee. – The Department must submit to the Economic Investment Committee the applications for projects the Department considers eligible and appropriate for consideration for site development. In evaluating each application, the Committee must consider all of the factors set out in Section 2.1(b) of S.L. 2002-172.

- (5) Findings. – In order to recommend a project for site development, the Committee must make all of the following findings:
 - a. The conditions for eligibility have been met.
 - b. Site development for the project is necessary to carry out the public purposes provided in subsection (a) of this section.
 - c. The project is consistent with the economic development goals of the State and of the area where it will be located.
 - d. The affected local governments have participated in recruitment and offered incentives in a manner appropriate to the project.
 - e. The price and nature of any real property to be acquired is appropriate to the project and not unreasonable or excessive.
 - f. Site development under this section is necessary for the completion of the project in this State.
- (6) Recommendations. – If the Committee recommends a project for site development, it must recommend the amount of State funds to be committed, the preferred form and details of the State participation, and the performance criteria and safeguards to be required in order to protect the State's investment.
 - (i) Agreement. – Unless the Secretary of Commerce determines that the project is no longer eligible or appropriate for site development, the Department shall enter into an agreement to provide site development within available funds for a project recommended by the Committee. Each site development agreement is binding and constitutes a continuing contractual obligation of the State and the business. The site development agreement must include all of the performance criteria, remedies, and other safeguards recommended by the Committee or required by the Department to secure the State's investment. Each site development agreement must contain a provision prohibiting a business from receiving a payment or other benefit under the agreement at any time when the business has received a notice of an overdue tax debt and the overdue tax debt has not been satisfied or otherwise resolved. Nothing in this section constitutes or authorizes a guarantee or assumption by the State of any debt of any business or authorizes the taxing power or the full faith and credit of the State to be pledged.

The Department shall cooperate with the Department of Administration and the Attorney General's Office in preparing the documentation for the site development agreement. The Attorney General shall review the terms of all proposed agreements to be entered into under this section. To be effective against the State, an agreement entered into under this section must be signed personally by the Attorney General.
 - (j) Safeguards. – To ensure that public funds are used only to carry out the public purposes provided in this section, the Department shall require that each business that receives State-funded site development must agree to meet performance criteria to protect the State's investment and assure that the projected benefits of the project are secured. The performance criteria to be required shall include creation and maintenance of an appropriate level of employment and investment over the term of the agreement and any other criteria the Department considers appropriate. The agreement must require the business to repay or reimburse an appropriate portion of the State funds expended for the site development, based on the extent of any failure by the business to meet the performance criteria. The agreement must provide a method for securing these payments from the business, such as structuring the site development as a conditional grant, a forgivable loan, or a revocable lease. The agreement must encourage the business to partner with and use The

University of North Carolina and the North Carolina Community College System for needs related to research for advancements pertaining to the business.

(k) **Monitoring and Reports.** – The Department is responsible for monitoring compliance with the performance criteria under each site development agreement and for administering the repayment in case of default. The Department shall pay for the cost of this monitoring from funds appropriated to it for that purpose or for other economic development purposes.

On September 1 of each year the Fund has unexpended funds until all funds have been expended, the Department shall report to the chairs of the Senate Appropriations Committee on Agriculture, Natural, and Economic Resources, the chairs of the House of Representatives Appropriations Committee on Agriculture and Natural and Economic Resources, and the Joint Legislative Economic Development and Global Engagement Oversight Committee regarding the Site Infrastructure Development Program. This report shall include a listing of each agreement negotiated and entered into during the preceding year, including the name of the business, the cost/benefit analysis conducted by the Committee during the application process, a description of the project, and the amount of the site development incentive expected to be paid under the agreement during the current fiscal year. The report shall also include detailed information about any defaults and repayment during the preceding year and the information contained in the report required by G.S. 105-277.15A(g). The Department shall publish this report on its web site and shall make printed copies available upon request.

(l) **Limitations.** – The Department may enter into no more than two agreements under this section. The total aggregate cost of all agreements entered into under this section may not exceed forty-nine million dollars (\$49,000,000).

(b) Development Factor. – Each year, on or before November 30, the Secretary of Commerce shall assign to each county in the State a development factor that is the sum of the following:

- (1) The county's rank in a ranking of counties by average rate of unemployment from lowest to highest, for the most recent 12 months for which data are available.
- (2) The county's rank in a ranking of counties by median household income from highest to lowest, for the most recent 12 months for which data are available.

- (3) The county's rank in a ranking of counties by percentage growth in population from highest to lowest, for the most recent 36 months for which data are available.
- (4) The county's rank in a ranking of counties by adjusted assessed property value per capita as published by the Department of Public Instruction, from highest to lowest, for the most recent taxable year.

(c) **Annual Ranking.** – After computing the development factor as provided in this section, the Secretary of Commerce shall rank all the counties within the State according to their development factor from highest to lowest. The Secretary shall then identify all the areas of the State by development tier and publish this information. A development tier designation is effective only for the calendar year following the designation.

(d) **Data.** – In measuring rates of unemployment and median household income, the Secretary shall use the latest available data published by a State or federal agency generally recognized as having expertise concerning the data. In measuring population and population growth, the Secretary shall use the most recent estimates of population certified by the State Budget Officer. For the purposes of this section, population statistics do not include people incarcerated in federal or State prisons.

(e), (f) Repealed by Session Laws 2018-5, s. 15.2(a), effective June 12, 2018, and applicable to economic development awards made and related determinations occurring on or after January 1, 2019.

(g) **Exception for Two-County Industrial Park.** – An eligible two-county industrial park has the lower development tier designation of the designations of the two counties in which it is located if it meets all of the following conditions:

- (2) At least one-third of the park is located in the county with the lower tier designation.
- (3) It is owned by the two counties or a joint agency of the counties, is under contractual control of designated agencies working on behalf of both counties, or is subject to a development agreement between both counties and third-party owners.
- (4) The county with the lower tier designation contributed at least the lesser of one-half of the cost of developing the park or a proportion of the cost of developing the park equal to the proportion of land in the park located in the county with the lower tier designation.

In any other county in which the industrial park is located, the park has at least 250 developable acres. A transfer of acreage that reduces the number of developable acres below the required developable acres in a county does not affect an industrial park's eligibility under this subsection if the transfer is to an owner who uses or develops the acreage for industrial or commercial purposes authorized for cities and counties under G.S. 158-7.1. For the purposes of this subdivision, "developable acres" includes acreage that is owned directly by the industrial park or its owners or that is the subject of a development agreement between the industrial park or its owners and a third-party owner.

For the purposes of this subsection, the employment level includes full-time employees and equivalent full-time contract employees. The agreement shall further specify that the amount of a grant shall be reduced in proportion to the extent the business fails to maintain employment at this level and that the business shall not be eligible for a grant in any year in which its employment level is less than eighty percent (80%) of that required.

Each grant agreement for a business that is not a major employer under subdivision (1) of subsection (d) of this section shall contain a provision requiring the business to maintain the employment level required under that subdivision at the project that is the subject of the grant. The agreement shall further specify that the business is not eligible for a grant in any year in which the business fails to maintain the employment level.

A grant agreement may obligate the State to make a series of grant payments over a period of up to 10 years. Nothing in this section constitutes or authorizes a guarantee or assumption by the State of any debt of any business or authorizes the taxing power or the full faith and credit of the State to be pledged.

The Department shall cooperate with the Attorney General's office in preparing the documentation for the grant agreement. The Attorney General shall review the terms of all proposed agreements to be entered into under this section. To be effective against the State, an agreement entered into under this section shall be signed personally by the Attorney General.

(k) Safeguards. – To ensure that public funds are used only to carry out the public purposes provided in this section, the Department shall require that each business that receives a grant under

this section shall agree to meet performance criteria to protect the State's investment and ensure that the projected benefits of the project are secured. The performance criteria to be required shall include maintenance of an appropriate level of employment at specified levels of compensation, maintenance of health insurance for all full-time employees, investment of a specified amount over the term of the agreement, and any other criteria the Department considers appropriate. The agreement shall require the business to repay or reimburse an appropriate portion of the grant based on the extent of any failure by the business to meet the performance criteria. The agreement shall require the business to repay all amounts received under the agreement and to forfeit any future grant payments if the business fails to satisfy the investment eligibility requirement of this section. The use of contract employees shall not be used to reduce compensation at the project that is the subject of the agreement.

- (1) Ninety-five percent (95%) of the privilege and sales and use taxes paid by the business on machinery and equipment installed at the project that is the subject of the agreement.
- (2) Ninety-five percent (95%) of the sales and use taxes paid by the business on building materials used to construct, renovate, or repair facilities at the project that is the subject of the agreement.
- (3) Ninety-five percent (95%) of the additional income and franchise taxes that are not offset by tax credits. For the purposes of this subdivision, "additional income and franchise taxes" are the additional taxes that would be due because of the investment in machinery and equipment and real property at the project that is the subject of the agreement during the investment period specified in subsection (d) of this section.
- (4) Ninety-five percent (95%) of the sales and use taxes paid on electricity and the excise tax paid on piped natural gas.
- (5) One hundred percent (100%) of worker training expenses, including wages paid for on-the-job training, associated with the project that is the subject of the agreement.
- (6) One hundred percent (100%) of any State permitting fees associated with the capital expansion at the project that is the subject of the agreement.

(l) Calculation of Grant Amounts. – The Committee shall consider the following factors in determining the amount of a grant that would be appropriate, but is not necessarily limited to these factors:

(m) Monitoring and Reports. – The Department is responsible for monitoring compliance with the performance criteria under each grant agreement and for administering the repayment in case of default. The Department shall pay for the cost of this monitoring from funds appropriated to it for that purpose or for other economic development purposes.

On September 1 of each year until all funds have been expended, the Department shall report to the chairs of the Senate Appropriations Committee on Agriculture, Natural, and Economic Resources, the chairs of the House of Representatives Appropriations Committee on Agriculture and Natural and Economic Resources, and the Joint Legislative Economic Development and Global Engagement Oversight Committee regarding the Job Maintenance and Capital Development Fund. This report shall include a listing of each grant awarded and each agreement entered into under this section during the preceding year, including the name of the business, the cost/benefit analysis conducted by the Committee during the application process, a description of the project, and the amount of the grant expected to be paid under the agreement during the current

fiscal year. The report shall also include detailed information about any defaults and repayment during the preceding year. The Department shall publish this report on its Web site and shall make printed copies available upon request.

(n) **Limitations.** – The Department may enter into no more than eight agreements under this section. The total aggregate cost of all agreements entered into under this section may not exceed one hundred fifty-nine million dollars (\$159,000,000). The total annual cost of an agreement entered into under this section may not exceed six million dollars (\$6,000,000). (2007-552, 1st Ex.  - (5) Project carrying costs. – All costs, including depreciation, taxes, operation and maintenance expenses, and, for a natural gas local distribution company, a return on investment equal to the rate of return approved by the Utilities Commission in the natural gas local distribution company's most recent general rate case under G.S. 62-133.

 - (2) To allow the owner of an eligible project to pay for cost-effective alternatives that would reduce excess infrastructure costs, including:
 - a. Relocating equipment that uses natural gas to a different location on the property nearer existing natural gas lines to reduce or eliminate the project carrying costs.
 - b. Adding supplemental uses of natural gas to increase annual volume throughput and enhance the feasibility of new natural gas service, including fuel for tractors and equipment, greenhouses, plant or animal production, feed grain drying, and natural gas powered irrigation pumps.
- (c) Facilitation of New and Expanded Propane Gas Service to Agricultural Production. – The Secretary may disburse moneys in the Expanded Gas Products Service to Agriculture Fund to allow the owner of an eligible project to pay for cost-effective alternatives that would do any of the following:

facilities or operations, or (iii) to provide a dispensing station for the project owner's use.

(d) Use of Funds. – Disbursements made pursuant to subsection (b) or (c) of this section shall be paid directly to the owner of the eligible project.

(e) Termination. – Disbursements made pursuant to subsection (b) of this section shall terminate when there are no longer excess infrastructure costs.

(f) Forfeiture. – An owner of an eligible project who receives a disbursement pursuant to subsection (b) or (c) of this section forfeits the amount disbursed if the owner fails to maintain business operations for a period of at least five years from the date of initial utilization of the disbursement. An owner that forfeits amounts disbursed under this section is liable for the amount disbursed plus interest at the rate established under G.S. 105-241.21, computed from the date of the disbursement.

(g) Allocation of Funds. – The Secretary shall transfer from the Utility Account to the Expanded Gas Products Service to Agriculture Fund at least five million dollars (\$5,000,000) per biennium, as defined in G.S. 143C-1-1. If funds appropriated for the Job Development Investment Grant Program, the One North Carolina Fund, or a combination of these programs remain unexpended and unencumbered at the end of the fiscal year, those unexpended and unencumbered funds shall be used to reimburse the Utility Account for transfers made during the fiscal year pursuant to this section, notwithstanding job creation or other statutory requirements otherwise applicable to the programs or funds.

(h) Mechanism not Exclusive. – The utilization of funds in accordance with subsections (b) or (c) of this section is intended to supplement other available mechanisms for the extension of service to new or expanding customers and may be used in conjunction with special contract arrangements, minimum margin agreements, and contributions in aid of construction.

(i) Reporting Requirement. – The Secretary shall publish a report each quarter on the program, including a list of the eligible projects that have applied for funding, a list of the eligible projects that have received funding, the amount of funds allocated to the program, and the amount of funds allocated to eligible projects. In addition, the Department must accept oral and written comments on the proposed guidelines during the 15 business days beginning on the first day that the Department has completed these notifications. For the purpose of this section, a technical amendment is either of the following:

- (1) An amendment that corrects a spelling or grammatical error.
- (2) An amendment that makes a clarification based on public comment and could have been anticipated by the public notice that immediately preceded the public comment. (2013-367, s. 1; 2014-100, s. 15.13(a); 2015-263, s. 30; 2016-113, s. 15.)

§ 143B-437.021. (Expires July 1, 2026 – see note) Natural gas economic development infrastructure.

(a) Purpose and Definitions. – The purpose of this section is to provide eligibility criteria for projects that require natural gas service infrastructure. Costs of natural gas service infrastructure for projects the Department determines are eligible projects under this section may be recovered by natural gas local distribution companies with approval of the North Carolina Utilities Commission under G.S. 62-133.15. The definitions used in G.S. 143B-437.01 apply in this section. In addition, as used in this section, the term "Department" means the Department of Commerce.

- (2) The Department certifies that the business has invested or intends to invest at least two hundred million dollars (\$200,000,000) of private funds in improvements to real property and additions to tangible personal property in the project.
- (3) The business employs or intends to employ at least 1,500 full-time employees or equivalent full-time contract employees at the project at the time the application is made and the business agrees to maintain at least 1,500 full-time employees or equivalent full-time contract employees at the project.

(c) Wage Standard. – A project may be considered an eligible project under this section only if the project is undertaken by a business that satisfies a wage standard at the project. A business satisfies the wage standard if it pays an average weekly wage that is at least equal to one hundred and ten percent (110%) of the average wage for all insured private employers in the county. The Department of Commerce shall annually publish the wage standard for each county. In making the wage calculation, the business shall include any jobs that were filled for at least 1,600 hours during the calendar year, regardless of whether the jobs are full-time positions or equivalent full-time contract positions. Each year that a rate adjustment surcharge mechanism under G.S. 62-133.15 is in effect, the business shall provide the Department a certification that the business continues to satisfy the wage standard.

(d) Health Insurance. – A project may be considered an eligible project under this section only if the project is undertaken by a business that makes available health insurance for all of the full-time employees and equivalent full-time contract employees of the project with respect to which the application is made. For the purposes of this subsection, a business makes available health insurance if it pays at least fifty percent (50%) of the premiums for health care coverage.

Each year that a rate adjustment surcharge mechanism under G.S. 62-133.15 is in effect, the business shall provide the Department a certification that the business continues to make available health insurance for all full-time employees of the project governed by the agreement.

(e) Safety and Health Programs. – A project may be considered an eligible project under this section only if the project is undertaken by a business that has no citations under the Occupational Safety and Health Act that have become a final order within the last three years for willful serious violations or for failing to abate serious violations with respect to the location for which the eligible project is located. For the purposes of this subsection, "serious violation" has the same meaning as in G.S. 95-127.

(f) Environmental Impact. – A project may be considered an eligible project under this section only if the project is undertaken by a business that certifies that, at the time of the application, the business satisfies the environmental impact standard under G.S. 105-129.83.

(g) Limitations. – No more than three eligible projects are authorized under this section. (2016-118, s. 2; 2020-58, s. 7.3.)

Part 2G. Job Development Investment Grant Program.

§ 143B-437.50. Legislative findings and purpose.

The General Assembly finds that:

- (1) It is the policy of the State of North Carolina to stimulate economic activity and to create new jobs for the citizens of the State by encouraging and promoting the expansion of existing business and industry within the State and by recruiting and attracting new business and industry to the State.
- (2) Both short-term and long-term economic trends at the State, national, and international levels have made the successful implementation of the State's economic development policy and programs both more critical and more challenging; and the decline in the State's traditional industries, and the resulting adverse impact upon the State and its citizens, have been exacerbated in recent years by adverse national and State economic trends that contribute to

the reduction in the State's industrial base and that inhibit the State's ability to sustain or attract new and expanding businesses.

- (3) The economic condition of the State is not static and recent changes in the State's economic condition have created economic distress that requires a reevaluation of certain existing State programs and the enactment of a new program as provided in this Part that are designed to stimulate new economic activity and to create new jobs within the State.
- (4) The enactment of this Part is necessary to stimulate the economy, facilitate economic recovery, and create new jobs in North Carolina; and this Part will promote the general welfare and confer, as its primary purpose and effect, benefits on citizens throughout the State through the creation of new jobs, an enlargement of the overall tax base, an expansion and diversification of the State's industrial base, and an increase in revenue to the State and its political subdivisions.
- (5) The purpose of this Part is to stimulate economic activity and to create new jobs within the State.
- (6) It is not the intent of the General Assembly that grants provided through this Part be used as venture capital funds, business incubator funds, or business start-up funds or to otherwise fund the initial capitalization needs of new businesses.
- (7) Nothing in this Part shall be construed to constitute a guarantee or assumption by the State of any debt of any business or to authorize the taxing power or the full faith and credit of the State to be pledged. (2002-172, s. 2.1(a); 2003-416, s. 2.)

 - b. System contractors, other than in designation, meet all other requirements applicable to full-time employees of the business filling eligible positions.
 - c. The entity providing system contractors certifies to the business that it meets the same requirements imposed by this Part on the business with respect to system contractors provided at the project site, and the business agrees to procure from the entity and provide to either the Department of Revenue or the Department, upon request, any documentation needed to verify the requirements.
 - d. The entity providing the system contractors and the business are not related members and are not, directly or indirectly, affiliated in any way.
- (9b) Transformative project. – A project for which the agreement requires that a business invest at least one billion dollars (\$1,000,000,000) in private funds and create at least 3,000 eligible positions.
- (9c) Transitional project. – A project for which the agreement requires the following:

- a. Phase I. – That a business invest at least one billion dollars (\$1,000,000,000) in private funds and create at least 1,750 eligible positions.
 - b. Phase II. – That a business, upon exercising an option in the agreement during the first 36 months of the agreement term to expand the project, increase the investment of private funds to at least three billion dollars (\$3,000,000,000) and increase job creation to at least 3,875 eligible positions. Exercise of an option under this sub-subdivision is contingent upon the business meeting and maintaining Phase I requirements at and beyond the end of the applicable base period for Phase I set forth in the agreement. Notice of exercising the option must be in writing to the Department.
- (10) Withholdings. – The amount withheld by a business from the wages of employees in eligible positions and, if applicable, expansion positions under Article 4A of Chapter 105 of the General Statutes. § 143B-437.52. Job Development Investment Grant Program.

(a) Program. – There is established the Job Development Investment Grant Program to be administered by the Economic Investment Committee. In order to foster job creation and investment in the economy of this State, the Committee may enter into agreements with businesses to provide grants in accordance with the provisions of this Part. The Committee, in consultation with the Attorney General, shall develop criteria to be used in determining whether the conditions of this section are satisfied and whether the project described in the application is otherwise consistent with the purposes of this Part. Before entering into an agreement, the Committee must find that all the following conditions are met:

- (1) The project proposed by the business will create, during the term of the agreement, a net increase in employment in this State by the business.
- (2) The project will benefit the people of this State by increasing opportunities for employment and by strengthening this State's economy by, for example, providing worker training opportunities, constructing and enhancing critical infrastructure, increasing development in strategically important industries, or increasing the State and local tax base.
- (3) The project is consistent with economic development goals for the State and for the area where it will be located.
- (4) A grant under this Part is necessary for the completion of the project in this State.
- (5) The total benefits of the project to the State outweigh its costs and render the grant appropriate for the project.
- (6) For a project located in a development tier three area, the affected local governments have participated in recruitment and offered incentives in a manner appropriate to the project.

(b) Priority. – In selecting between applicants, a project that is located in an Eco-Industrial Park certified under G.S. 143B-437.08 has priority over a comparable project that is not located in a certified Eco-Industrial Park.

(c) Award Limitations. – The following limitations apply to grants awarded under this Part:

- (1) Maximum liability. – The maximum amount of total annual liability for grants awarded in any single calendar year under this Part, including amounts transferred to the Utility Account pursuant to G.S. 143B-437.61, is thirty-five million dollars (\$35,000,000) for a year in which no grants are awarded for a high-yield project and is forty-five million dollars (\$45,000,000) for a year in which a grant is awarded for a high-yield project. No agreement may be entered into that, when considered together with other existing agreements governing grants awarded during a single calendar year, could cause the State's potential total annual liability for grants awarded in a single calendar year to exceed the applicable amount. The Department shall make every effort to ensure that the average percentage of withholdings of eligible positions for grants awarded under this Part does not exceed the average of the range provided in G.S. 143B-437.56(a). The limitation in this subdivision does not apply to (i) the difference in the award of a transitional project elevating the project from Phase I to Phase II or (ii) transformative projects.
- (2) Semiannual commitment limitations. – Of the amount authorized in subdivision (1) of this subsection, no more than fifty percent (50%), excluding roll-over amounts, may be awarded in any single calendar semiannual period. A roll-over amount is any amount from a previous semiannual period in the same calendar year that was not awarded as a grant. The limitation of this subdivision does not apply to a grant awarded to a high-yield, transitional, or transformative project.
- (3) Geographic limitations. – Of the amount authorized in subdivision (1) of this subsection, no more than twenty million dollars (\$20,000,000) may be used for projects located in counties with total employment of 500,000 or more and five million dollars (\$5,000,000) is reserved for projects located in counties with an annual ranking pursuant to G.S. 143B-437.08 in the highest fifty percent (50%) of the remaining counties. In measuring total employment, the Secretary shall use the latest available data published by the Quarterly Census of Employment and Wages program. The limitations of this subdivision do not apply to a grant awarded to a high-yield, transitional, or transformative project.

(d) Measuring Employment. – For the purposes of subdivision (a)(1) of this section and G.S. 143B-437.51(5), 143B-437.51(7), and 143B-437.57(a)(11), the Committee may designate that the increase or maintenance of employment is measured at the level of a division or another operating unit of a business, rather than at the business level, if both of the following conditions are met:

- (1) The Committee makes an explicit finding that the designation is necessary to secure the project in this State.
- (2) The agreement contains terms to ensure that the business does not create eligible positions by transferring or shifting to the project existing positions from another project of the business or a related member of the business. (2002-172, s. 2.1(a); 2003-416, s. 2; 2003-435, 2nd Ex. Sess., s. 2.2; 2004-124, ss. 32G.1(b), 32G.1(c), 32G.1(e); 2006-168, s. 1.2; 2006-264, s. 69(b);

2009-394, s. 1; 2010-147, s. 5.3; 2012-142, s. 13.6(g); 2013-360, s. 15.19(a); 2015-259, s. 1(b); 2015-264, s. 91(a); 2017-57, s. 15.15A(b); 2018-5, s. 15.1(b); 2021-180, s. 11.19(e).)

§ 143B-437.53. Eligible projects.

(a) Minimum Number of Eligible Positions. – A business may apply to the Committee for a grant for any project that creates the minimum number of eligible positions as follows:

Development Tier Area	Number of Eligible Positions
Tier One	10
Tier Two	20
Tier Three	50

(b) Ineligible Businesses. – A project that consists solely of retail facilities is not eligible for a grant under this Part. If a project consists of both retail facilities and nonretail facilities, only the portion of the project consisting of nonretail facilities is eligible for a grant, and only the withholdings from employees in eligible positions that are employed exclusively in the portion of the project that represents nonretail facilities may be used to determine the amount of the grant. If a warehouse facility is part of a retail facility and supplies only that retail facility, the warehouse facility is not eligible for a grant. For the purposes of this Part, catalog distribution centers are not retail facilities.

A project that consists of a professional or semiprofessional sports team or club, other than a professional motorsports racing team, is not eligible for a grant under this Part.

(c) Health Insurance. – A business is eligible for a grant under this Part only if the business provides health insurance for all of the applicable full-time employees of the project with respect to which the grant is made. For the purposes of this subsection, an applicable full-time employee is one who earns from the business less than one hundred fifty thousand dollars (\$150,000) in taxable compensation on an annualized basis or three and one-half times the annualized average State wage for all insured private employers in the State employing between 250 and 1,000 employees, whichever is greater. For the purposes of this subsection, a business provides health insurance if it pays at least fifty percent (50%) of the premiums for health care coverage that equals or exceeds the minimum requirements for small group health benefit plans under State or federal law.

Each year that a business receives a grant under this Part, the business must provide with the submission required under G.S. 143B-437.58 a certification that the business continues to provide health insurance, as required by this subsection, for all applicable full-time employees of the project with respect to which the grant is made. If the business ceases to provide the required health insurance, the Committee shall amend or terminate the agreement as provided in G.S. 143B-437.59.

(d) Repealed by Session Laws 2003-435, 2nd Ex. Sess., s. 2.3, effective December 16, 2003.

(e) Safety and Health Programs. – In order for a business to be eligible for a grant under this Part, the business must have no citations under the Occupational Safety and Health Act that have become a final order within the past three years for willful serious violations or for failing to abate serious violations with respect to the location for which the grant is made. For the purposes of this subsection, “serious violation” has the same meaning as in G.S. 95-127. (2002-172, s. 2.1(a); 2003-416, s. 2; 2003-435, Ex. Sess., s. 2.3; 2005-241, s. 5; 2006-168, s. 1.3; 2006-252, s. 2.7; 2015-259, s. 1(c); 2015-264, s. 91(a); 2016-94, s. 15.7(a); 2021-180, s. 11.19(e).)

- (7) The President Pro Tempore of the Senate or a designee of the President Pro Tempore.

The members of the Committee appointed by the General Assembly serve two-year terms that begin upon appointment. The other members, who are ex officio members or designees of those members, shall serve until they are no longer in office or are replaced with another designee.

(b) Decision Required. – The Committee may act only upon a decision of a majority of its members.

(c) Conflict of Interest. – It is unlawful for a current or former member of the Committee to, while serving on the Committee or within two years after the end of service on the Committee, provide services for compensation, as an employee, consultant, or otherwise, to any business or a related member of the business that is awarded a grant under this Part or under G.S. 143B-437.02 while the member is serving on the Committee. Violation of this subsection is a Class 1 misdemeanor. In addition to the penalties imposed under G.S. 15A-1340.23, the court shall also make a finding as to what compensation was received by the defendant for services in violation of this section and shall order the defendant to forfeit that compensation.

If a person is convicted under this section, the person shall not provide services for compensation, as an employee, consultant, or otherwise, to any business or a related member of the business that was awarded a grant under this Part or under G.S. 143B-437.02 while the member was serving on the Committee until two years after the person's conviction under this section.

(d) Public Notice. – At least 20 days before the effective date of any criteria or nontechnical amendments to criteria, the Committee must publish the proposed criteria on the Department of Commerce's web site and provide notice to persons who have requested notice of proposed criteria. In addition, the Committee must accept oral and written comments on the proposed criteria during the 15 business days beginning on the first day that the Committee has completed these notifications. For the purpose of this subsection, a technical amendment is either of the following:

- (1) An amendment that corrects a spelling or grammatical error.
- (2) An amendment that makes a clarification based on public comment and could have been anticipated by the public notice that immediately preceded the public comment.

(e) Sunshine. – Meetings of the Committee are subject to the open meetings requirements of Article 33C of Chapter 143 of the General Statutes. All documents of the Committee, including applications for grants, are public records governed by Chapter 132 of the General Statutes and any applicable provisions of the General Statutes protecting confidential information. (2002-172, s. 2.1(a); 2003-416, ss. 2, 25; 2003-435, 2nd Ex. Sess., ss. 1.4, 2.4; 2023-136, s. 1.1(a).)

§ 143B-437.55. Applications; fees; reports; study.

(a) Application. – A business shall apply, under oath, to the Committee for a grant on a form prescribed by the Committee that includes at least all of the following:

- (1) The name of the business, the proposed location of the project, and the type of activity in which the business will engage at the project site or sites.
- (2) The names and addresses of the principals or management of the business, the nature of the business, and the form of business organization under which it is operated.
- (3) The financial statements of the business prepared by a certified public accountant and any other financial information the Committee considers necessary.
- (4) The number of eligible positions proposed to be created for the project and the salaries for these positions.

- (9) Any other information necessary for the Committee to evaluate the application.

A business may apply, in one consolidated application in a form and manner determined by the Committee, for a grant that may include performance by related members of the business who may qualify under this Part.

The Committee will consider an application by a business for a grant that includes performance of its related members only if the related members for whom the application is submitted assign to the business any claim of right the related members may have under this Part to apply for grants individually during the term of the agreement and agree to cooperate with the business in providing to the Committee all the information required for the initial application and the agreement, and any other information the Committee may require for the purposes of this Part. The applicant business is responsible for providing to the Committee all the information required under this Part.

If a business applies for a grant that includes performance by its related members, the related members included in the application may be permitted to meet the qualifications for a grant collectively by participating in a project that meets the requirements of this Part. The amount of a grant may be calculated under the terms of this Part as if the related members were all collectively one business entity. Any conditions for a grant, other than the number of eligible positions created, apply to each related member who is listed in the application as participating in the project. The grant awarded shall be paid to the approved grantee business only. A grant received under this Part by a business may be apportioned to the related members in a manner determined by the business. In order for an agreement to be executed, each related member included in the application must sign the agreement and agree to abide by its terms.

(b) Application Fee. – When filing an application under this section, the business must pay the Committee a fee of (i) ten thousand dollars (\$10,000) if the project is a high-yield, transitional, or transformative project, regardless of location in the State, or is located in a development tier

three area, (ii) five thousand dollars (\$5,000) if the project is located in a development tier two area, or (iii) one thousand dollars (\$1,000) if the project is located in a development tier one area. The Secretary of Commerce, the Secretary of Revenue, and the Director of the Office of State Budget and Management shall determine the allocation of the fee imposed by this section among their agencies. The proceeds of the fee are receipts of the agency to which they are credited. Within 30 days of receipt of an application under this section but prior to any award being made, the Department of Commerce shall notify each governing body of an area where a submitted application proposes locating a project of the information listed in this subsection, provided that the governing body agrees, in writing, to any confidentiality requirements imposed by the Department under G.S. 132-6(d). The information required by this subsection includes all of the following:

§ 143B-437.56. Calculation of maximum grants; factors considered.

- (a) Maximum Percentage. – Subject to the provisions of subsection (d) of this section, the amount of the grant awarded in each case shall be a percentage of the withholdings of positions governed by the agreement for a period of years. The percentage used to determine the amount of the grant shall be based on criteria developed by the Committee, in consultation with the Attorney General, after considering, at a minimum, (i) the number of positions governed by the agreement to be created, (ii) the expected duration of those positions, (iii) the type of contribution the business can make to the long-term growth of the State's economy, (iv) the amount of other financial assistance the project will receive from the State or local governments, (v) the total dollar investment the business is making in the project, (vi) whether the project utilizes existing infrastructure and resources in the community, (vii) whether the project is located in a development zone, (viii) the number of positions governed by the agreement that would be filled by residents of a development zone, and (ix) the extent to which the project will mitigate unemployment in the State and locality. The percentage shall be no more than the following:

A business that fails to maintain the minimum job creation requirement or meet all terms of the agreement required to qualify as a high-yield project will be disqualified from receiving the enhanced percentage of withholdings under this subdivision and will have the applicable percentage set forth in subdivision (1) of this subsection applied in the year in which the failure occurs and all remaining years of the grant term.

- (3) Transitional project. – Notwithstanding the percentage in subdivision (1) of this subsection, a transitional project shall be treated as a high-yield project pursuant to subdivision (2) of this subsection until the business meets the requirements for Phase II, at which time the amount of the grant awarded shall be no more than one hundred percent (100%) of the withholdings of eligible and expansion positions for each year the business maintains the minimum job creation requirement for Phase II and meets all terms of the agreement. A business that fails to maintain the minimum job creation requirement or meet all terms of the agreement required for Phase II but remains in compliance with the requirements for Phase I will be disqualified from receiving the enhanced percentage of withholdings under this subdivision and will have the applicable percentage set forth in subdivision (2) of this subsection applied in the year in which the failure occurs and all remaining years of the grant term; provided that, if the business fails to meet the requirements for Phase I, the business is disqualified from receiving an enhanced percentage of withholdings, and the percentage set forth in subdivision (1) of this subsection shall be applied in the year in which the failure occurs and all remaining years of the grant term.
- (4) Transformative project. – If the project is a transformative project and the business has met the investment and job creation requirements and all terms of the agreement, the amount of the grant awarded shall be no more than one hundred percent (100%) of the withholdings of eligible and expansion positions for each year the business maintains the minimum job creation requirement and meets all terms of the agreement. A business that fails to maintain the minimum job creation requirement or meet all terms of the agreement required to qualify as a transformative project will be disqualified from receiving the enhanced percentage of withholdings under this subsection and will have the applicable percentage set forth in subdivision (1) of this subsection applied in the year in which the failure occurs and all remaining years of the grant term.

- (1) For high-yield projects in which the business receives the enhanced percentage pursuant to subsection (a) of this section, 20 years starting with the first year a grant payment is made. If a business is disqualified from the enhanced percentage in one of the first 12 years, the term of the grant shall not exceed 12 years starting with the first year a grant payment is made. If a business is disqualified from receiving the enhanced percentage after the first 12 years, the term of the grant ends in the year the disqualification occurs.

If a business is disqualified from the enhanced percentage allowed for Phase II but meets the requirements for Phase I, the term of the grant shall not exceed 20 years starting with the first year a grant payment is made. If a business is disqualified from the enhanced percentage allowed for Phase I, the term of the grant shall not exceed 12 years starting with the first year a grant payment is made. Part 2H. One North Carolina Fund.

§ 143B-437.70. Legislative findings and purpose.

The General Assembly finds that:

- (1) It is the policy of the State of North Carolina to stimulate economic activity and to create new jobs for the citizens of the State by encouraging and promoting the retention and expansion of existing business and industry within the State and by recruiting and attracting new business and industry to the State.
- (2) Both short-term and long-term economic trends at the State, national, and international levels have made the successful implementation of the State's economic development policy and programs both more critical and more challenging; and the decline in the State's traditional industries, and the resulting adverse impact upon the State and its citizens, have been exacerbated in recent years by adverse national and State economic trends that contribute to the reduction in the State's industrial base and that inhibit the State's ability to sustain or attract new and expanding businesses.
- (3) The purpose of this Part is to stimulate economic activity and to create new jobs within the State.
- (4) The enactment of this Part will maintain consistency and accountability in a key economic development program and will ensure that the program benefits the State and its citizens.

The Secretary shall appoint an Assistant Secretary to administer this Division, who shall be subject to the direction and supervision of the Secretary. The Assistant Secretary, subject to the approval of the Secretary, shall select a professional staff of qualified and competent employees to assist in the administration of the duties and responsibilities prescribed in this Part. (2013-360, s. 15.10(a).)

§ 143B-472.127. Programs administered.

(a) The Rural Economic Development Division shall be responsible for administering the program whereby economic development grants or loans are awarded by the Rural Infrastructure Authority as provided in G.S. 143B-472.128 to local government units. The Rural Infrastructure Authority shall, in awarding economic development grants or loans under the provisions of this subsection, give priority to local government units of the counties that have one of the 80 highest rankings under G.S. 143B-437.08. The funds available for grants or loans under this program may be used as follows:

- (1) To construct critical water and wastewater facilities or to provide other infrastructure needs, including, but not limited to, natural gas, broadband, and rail to sites where these facilities will generate private job-creating investment. The grants under this subdivision shall not be subject to the provisions of G.S. 143-355.4.
- (2) To provide matching grants or loans to local government units located in either (i) a development tier one or tier two area or (ii) a rural census tract in a development tier three area that will productively reuse or demolish buildings and properties or construct or expand rural health care facilities, with priority given to towns or communities with populations of less than 5,000. The development tier designation of a county shall be determined as provided in G.S. 143B-437.08. For purposes of this Part, the term "resident company" means a company that has paid unemployment taxes or income taxes in this State and whose principal place of business is located in this State. An application for a project that serves an economically distressed area shall have priority over a project that does not. A grant to assist with water infrastructure needs is not subject to the provisions of G.S. 143-355.4.
- (5) Under no circumstances shall a grant for a project be awarded in excess of twelve thousand five hundred dollars (\$12,500) per projected job created or saved.

(b) In addition to the duties under subsection (a) of this section, the Rural Economic Development Division shall also be responsible for (i) administering the program whereby local government units are awarded funds by the Rural Infrastructure Authority from the Utility Account under G.S. 143B-437.01 and (ii) administering the program whereby local government units are awarded funds by the Rural Infrastructure Authority for economic development projects from community development block grant funds.

No member of the Authority shall serve for more than two consecutive terms, but a person who has been a member for two consecutive terms may be reappointed after being off the Authority for a period of at least three years. An initial term that is two years or less shall not be counted in determining the limitation on consecutive terms.

(g) Quorum. – A majority of the members of the Authority constitutes a quorum for the transaction of business. A vacancy in the membership of the Authority does not impair the right of the quorum to exercise all rights and to perform all duties of the Authority.

(h) Vacancies. – A vacancy on the Authority shall be filled in the same manner in which the original appointment was made, and the term of the member filling the vacancy shall be for the balance of the unexpired term. Any emergency grants or loans awarded by the Assistant Secretary pursuant to this subdivision shall meet the requirements of G.S. 143B-472.127(a) or (b), and shall comply with policies and procedures adopted by the Authority. The Assistant Secretary shall, as soon as practicable, inform the Authority of any emergency grants or loans made under this subdivision, including the name of the local government unit to which the grant or loan was made, the amount of the grant or loan, and the project for which the grant or loan was requested.
