§ 130A-309. Corrective actions beyond facility boundary.

Standards adopted under G.S. 130A-294(c) shall require that corrective action be taken beyond the facility boundary where necessary to protect human health and the environment unless the owner or operator of the facility concerned demonstrates to the satisfaction of the Department that, despite the owner or operator's best efforts, the owner or operator was unable to obtain the necessary permission to undertake such action. Such standards shall take effect upon adoption and shall apply to:

(1) All facilities operating under permits issued under G.S. 130A-294(c); and
(2) All disposal facilities, surface impoundments, and waste pile units (including any new units, replacements of existing units or lateral expansions of existing units) which receive hazardous waste after July 26, 1982.

Pending adoption of such rules, the Department shall issue corrective action orders for facilities referred to in (1) and (2), on a case-by-case basis, consistent with the purposes of this section. Notwithstanding any other provision of this section, this section shall apply only to units, facilities, and permits that are covered by Section 3004(v) of RCRA (42 U.S.C. § 6924(v)). Notwithstanding the foregoing, corrective action authorized elsewhere in this Chapter shall not be limited by this section. (1985, c. 738, s. 4; 1989, c. 168, s. 28.)
