§ 130A-412.13. Persons that may receive anatomical gift; purpose of anatomical gift.

(a) An anatomical gift may be made to the following persons named in the document of gift:

1. A hospital; accredited medical school, dental school, college, or university; organ procurement organization; or other appropriate person, including the Commission on Anatomy, for research or education;

2. Subject to subsection (b) of this section, an individual designated by the person making the anatomical gift if the individual is the recipient of the body part;

3. An eye bank or tissue bank.

(b) If an anatomical gift to an individual under subdivision (a)(2) of this section cannot be transplanted into the individual, the body part passes in accordance with subsection (g) of this section in the absence of an express, contrary indication by the person making the anatomical gift.

(c) If an anatomical gift of one or more specific body parts or of all body parts is made in a document of gift that does not name a person described in subsection (a) of this section but identifies the purpose for which an anatomical gift may be used, the following rules apply:

1. If the body part is an eye and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate eye bank.

2. If the body part is tissue and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate tissue bank.

3. If the body part is an organ and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate organ procurement organization as custodian of the organ.

4. If the body part is an organ, an eye, or tissue and the gift is for the purpose of research or education, the gift passes to the appropriate procurement organization.

(d) For the purpose of subsection (c) of this section, if there is more than one purpose of an anatomical gift set forth in the document of gift but the purposes are not set forth in any priority, the gift must be used for transplantation or therapy, if suitable. If the gift cannot be used for transplantation or therapy, the gift may be used for research or education.

(e) If an anatomical gift of one or more specific body parts is made in a document of gift that does not name a person described in subsection (a) of this section and does not identify the purpose of the gift, the gift may be used only for transplantation or therapy, and the gift passes in accordance with subsection (g) of this section.

(f) If a document of gift specifies only a general intent to make an anatomical gift by words such as "donor," "organ donor," or "body donor," or by a symbol or statement of similar import, the gift may be used only for transplantation or therapy, and the gift passes in accordance with subsection (g) of this section.

(g) For purposes of subsections (b), (e), and (f) of this section, the following rules apply:

1. If the body part is an eye, the gift passes to the appropriate eye bank.

2. If the body part is tissue, the gift passes to the appropriate tissue bank.

3. If the body part is an organ, the gift passes to the appropriate organ procurement organization as custodian of the organ.

(h) An anatomical gift of an organ for transplantation or therapy, other than an anatomical gift under subdivision (a)(2) of this section, passes to the organ procurement organization as custodian of the organ.
(i) If an anatomical gift does not pass pursuant to subsections (a) through (h) of this section or the decedent's body or body part is not used for transplantation, therapy, research, or education, then custody of the body or body part passes to the person under obligation to dispose of the body or body part.

(j) A person may not accept an anatomical gift if the person knows that the gift was not effectively made under G.S. 130A-412.7 or G.S. 130A-412.12 or if the person knows that the decedent made a refusal under G.S. 130A-412.9 that was not revoked. For purposes of this subsection, if a person knows that an anatomical gift was made on a document of gift, the person is deemed to know of any amendment or revocation of the gift or any refusal to make an anatomical gift on the same document of gift.

(k) Except as otherwise provided in subdivision (a)(2) of this section, nothing in this act affects the allocation of organs for transplantation or therapy. (2007-538, s. 1.)
