

§ 143-135.7. Safety officers.

Each contract for a State capital improvement project, as defined in Article 8B of this Chapter, shall require the contractor to designate a responsible person as safety officer to inspect the project site for unsafe health and safety hazards, to report these hazards to the contractor for correction, and to provide other safety and health measures on the project site as required by the terms and conditions of the contract. (1991 (Reg. Sess., 1992), c. 893, s. 3.)
