

**§ 47C-2-112. Relocation of boundaries between adjoining units.**

(a) Subject to the provisions of the declaration and other provisions of law, the boundaries between adjoining units may be relocated upon application to the association by the owners of those units. Any such application to the association must be in such form and contain such data as may be reasonably required by the association and be accompanied by a plat prepared by an architect licensed under the provisions of Chapter 83 [83A] of the General Statutes or an engineer registered under the provisions of Chapter 89C of the General Statutes detailing the relocation of the boundaries between the affected units. If the owners of the adjoining units have specified a reallocation between their units of their allocated interests, the application must state the proposed reallocations. Unless the executive board determines within 30 days that the reallocations are unreasonable, the association, at the expense of the owners filing the application, shall prepare and record an amendment to the declaration that identifies the units involved, states the reallocations, is executed by those unit owners and the association, contains words of conveyance, and is indexed in the name of the grantor and the grantee by the register of deeds.

(b) The association, at the expense of the unit owners filing the application, shall prepare and record plats or plans necessary to show the altered boundaries between adjoining units and their dimensions and identifying numbers. (1985 (Reg. Sess., 1986), c. 877, s. 1.)
