

§ 58-36-60. Payment of dividends not prohibited or regulated; plan for payment into rating system.

Nothing in this Article will be construed to prohibit or regulate the payment of dividends, savings, or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members, or subscribers. Individual policyholder loss experience may be considered as a factor in determining dividends for workers' compensation insurance and employers' liability insurance written in connection therewith. A plan for the payment of dividends, savings, or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members, or subscribers will not be deemed a rating plan or system. (1979, c. 824, s. 6; 1983, c. 374, s. 1.)
