

**§ 58-45-96. Succession and dissolution.**

In the event that a successor organization is created to perform the Association's general functions, the surplus, assets, and liabilities then held by the Association shall be transferred to such successor organization. The pledge or sale of, the lien upon, and the security interest in any rights, revenues, or other assets of the Association created pursuant to any financing arrangements entered into by the Association shall be and remain valid and enforceable on the successor organization, notwithstanding the commencement of any rehabilitation, insolvency, liquidation, bankruptcy, conservatorship, reorganization, or similar proceeding against the Association. No such proceeding shall relieve the Association of its obligation to continue to collect assessments or other revenues pledged pursuant to any financing arrangements. In the event of dissolution, surplus then held shall not be distributed to member insurers. (2009-472, s. 1.)
