

§ 7B-2502. Evaluation and treatment of undisciplined and delinquent juveniles.

(a) In any case, the court may order that the juvenile be examined by a physician, psychiatrist, psychologist, or other qualified expert as may be needed for the court to determine the needs of the juvenile. In the case of a juvenile adjudicated delinquent for committing an offense that involves the possession, use, sale, or delivery of alcohol or a controlled substance, the court shall require the juvenile to be tested for the use of controlled substances or alcohol within 30 days of the adjudication. In the case of any juvenile adjudicated delinquent, the court may, if it deems it necessary, require the juvenile to be tested for the use of controlled substances or alcohol. The results of these initial tests conducted pursuant to this subsection shall be used for evaluation and treatment purposes only. In placing a juvenile in out-of-home care under this section, the court shall also consider whether it is in the juvenile's best interest to remain in the juvenile's community of residence.

(b) Upon completion of the examination, the court shall conduct a hearing to determine whether the juvenile is in need of medical, surgical, psychiatric, psychological, or other evaluation or treatment and who should pay the cost of the evaluation or treatment. The county manager, or any other person who is designated by the chair of the board of county commissioners, of the county of the juvenile's residence shall be notified of the hearing, and allowed to be heard. If the court finds the juvenile to be in need of medical, surgical, psychiatric, psychological, or other evaluation or treatment, the court shall permit the parent, guardian, custodian, or other responsible persons to arrange for evaluation or treatment. If the parent, guardian, or custodian declines or is unable to make necessary arrangements, the court may order the needed evaluation or treatment, surgery, or care, and the court may order the parent to pay the cost of the care pursuant to Article 27 of this Chapter. If the court finds the parent is unable to pay the cost of evaluation or treatment, the court shall order the county to arrange for evaluation or treatment of the juvenile and to pay for the cost of the evaluation or treatment. The county department of social services shall recommend the facility that will provide the juvenile with evaluation or treatment.

(c) If the court believes, or if there is evidence presented to the effect that the juvenile has a mental illness or a developmental disability, the court shall refer the juvenile to the area mental health, developmental disabilities, and substance abuse services director for appropriate action. A juvenile shall not be committed directly to a State hospital or State developmental center, and orders purporting to commit a juvenile directly to a State hospital or State developmental center, except for an examination to determine capacity to proceed, are void and of no effect. The area mental health, developmental disabilities, and substance abuse director is responsible for arranging an interdisciplinary evaluation of the juvenile and mobilizing resources to meet the juvenile's needs. If institutionalization is determined to be the best service for the juvenile, admission shall be with the voluntary consent of the parent, guardian, or custodian. If the parent, guardian, or custodian refuses to consent to institutionalization after it is recommended by the area mental health, developmental disabilities, and substance abuse director, the signature and consent of the court may be substituted for that purpose. In all cases in which a regional mental hospital refuses admission to a juvenile referred for admission by the court and an area mental health, developmental disabilities, and substance abuse director or discharges a juvenile previously admitted on court referral prior to completion of the juvenile's treatment, the hospital shall submit to the court a written report setting out the reasons for denial of admission or discharge and setting out the juvenile's diagnosis, indications of mental illness, indications of need for treatment, and a statement as to the location of any facility known to have a treatment program for the juvenile in question.
