

§ 90-113.10A. Alcohol vaporizing devices prohibited.

It shall be unlawful for any person to knowingly manufacture, sell, give, deliver, possess, or use an alcohol vaporizing device. As used in this section, "alcohol vaporizing device" or "AVD" means a device, machine, apparatus, or appliance that is designed or marketed for the purpose of mixing ethyl alcohol with pure or diluted oxygen, or another gas, to produce an alcoholic vapor that an individual can inhale or snort. An AVD does not include an inhaler, nebulizer, atomizer, or other device that is designed and intended by the manufacturer to dispense either a substance prescribed by a licensed medical provider authorized by law to prescribe the inhalant or chemical substance possessed, or an over-the-counter medication approved by monograph or new drug application under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. § 301, et seq.), provided the instrument is not used for the purpose of inducing a condition of intoxication through inhalation. Violation of this section is not a lesser included offense of G.S. 90-113.22. (2007-134, s. 2.)
