(e) Any compound, mixture or preparation containing limited quantities of the following narcotic drugs, which shall include one or more active, nonnarcotic, medicinal ingredients in sufficient proportion to confer upon the compound, mixture, or preparation, valuable medicinal qualities other than those possessed by the narcotic drug alone:

1. Paregoric, U.S.P.; provided, that no person shall purchase or receive by any means whatsoever more than one fluid ounce of paregoric within a consecutive 24-hour period, except on prescription issued by a duly licensed physician.

(f) Paregoric, U.S.P., may be dispensed at retail as permitted by federal law or administrative regulation without a prescription only by a registered pharmacist and no other person, agency or employee may dispense paregoric, U.S.P., even if under the direct supervision of a pharmacist.

(g) Notwithstanding the provisions of G.S. 90-91(f), after the pharmacist has fulfilled his professional responsibilities and legal responsibilities required of him in this Article, the actual cash transaction, credit transaction, or delivery of paregoric, U.S.P., may be completed by a nonpharmacist. A pharmacist may refuse to dispense a paregoric, U.S.P., substance until he is satisfied that the product is being obtained for medicinal purposes only.

(h) Paregoric, U.S.P., may only be sold at retail without a prescription to a person at least 18 years of age. A pharmacist must require every retail purchaser of a paregoric, U.S.P., substance to furnish suitable identification, including proof of age when appropriate, in order to purchase paregoric, U.S.P. The name and address obtained from such identification shall be entered in the record of disposition to consumers.

(i) The Commission may by regulation except any compound, mixture, or preparation containing any stimulant or depressant substance listed in paragraphs (a)1 and (a)2 of this schedule from the application of all or any part of this Article if the compound, mixture, or preparation contains one or more active medicinal ingredients not having a stimulant or depressant effect on the central nervous system; and if the ingredients are included therein in such combinations, quantity, proportion, or concentration that vitiate the potential for abuse of the substances which have a stimulant or depressant effect on the central nervous system.

(j) Any material, compound, mixture, or preparation which contains any quantity of the following substances having a stimulant effect on the central nervous system, including its salts, isomers, and salts of said isomers whenever the existence of such salts, isomers, and salts
