

- NC General Assembly 2001 Redistricting -
Statistical Data Processing Notes

- **Vote Categories Reported County-Wide:** County boards of elections currently are not required to report all votes at the precinct level. Categories reported county-wide include “absentee”, “military”, “curbside”, “transfer”, and “provisional”. Since inclusion of these figures would tend to homogenize the precinct-level results, they were excluded from the database.
- **Non-Statewide Election Contests:** Data on three non-statewide elections were included – US House, NC House, and NC Senate. For the US House, votes are included by party – as Democratic, Republican and Other. The NC House and NC Senate presented some additional challenges, since they contain multi-member districts. The votes included represent votes for the top republican, top democratic, and top third party candidate in each district.
