

Page Program Commitment to Safety

The House of Representatives' Page Program will return for the 2022 legislative short session after being cancelled for two years due to the global pandemic. While there are still remaining safety challenges caused by the pandemic, the House of Representatives' leadership is fully committed to host a safe and educational experience for our State's students.

How the Page Program Will Prepare:

- All rooms used by the Page program will be cleaned and sanitized prior to use.
- Hand sanitizer stations will be located in common areas.
- While not required, students may wear a mask if they feel more comfortable.
- A nurse will be on duty to provide advice and compliance.
- The Legislative Building's air filtration system utilizes UV technology to clean and sanitize the air.
- Temperatures are checked each time an individual enters a legislative building.

Expectations of Students/Parents:

- Students are encouraged to wash their hands and use hand sanitizer throughout the day.
- Students are encouraged to practice social distancing, when appropriate.
- Students or parent/guardian should immediately report any student not feeling well to the Page Supervisor or General Assembly Nurse.
- Any parent/guardian of a Page agrees if their child does not follow these guidelines, as well as additional measures outlined during the program, that Page will be immediately dismissed from the program and it is the responsibility of the parent/guardian to arrange transportation home.
