

**Progress Report of Adoption or Amendment of
On-Site Wastewater Rules**

**Session Law 2015-286
Section 4.15. (c)**

Report to

The Environmental Review Commission

and

**The Joint Legislative Oversight Committee on Health and
Human Services**

by

NC Department of Health and Human Services

On Behalf of the Commission for Public Health

June 29, 2018

BACKGROUND

Session Law (S.L.) 2015-286, Section 4.15. (c) requires reporting of progress by the Commission for Public Health to the Environmental Review Commission and the Joint Legislative Oversight Committee on Health and Human Services beginning January 1, 2016, and every quarter thereafter, until all rules required pursuant to S.L. 2015-286, Sections 4.14 and 4.15 are adopted or amended.

This report is submitted by the Department of Health and Human Services (DHHS) Division of Public Health on behalf of the Commission for Public Health. This report reflects the progress on adoption or amendment of the rules referenced in the legislation's Section 4.14 (**Part 1 of the report**) and the rulemaking specifications described in Section 4.15 (**Part 2 of the report**). The legislation addresses rules governing on-site wastewater systems, including a new "engineered option permit" (EOP) for on-site wastewater systems. General details of the relevant sections and sub-sections are provided below followed by a description of the collective status of related rulemaking efforts and projected next steps.

PART 1: SESSION LAW 2015-286, SECTION 4.14

S.L. 2015-286, Section 4.14. (k) requires the Commission for Public Health to adopt temporary rules pursuant to Sections 4.14. (a) through 4.14. (e), Section 4.14. (g), and Section 4.14. (j) no later than June 1, 2016. The legislation also requires the adoption of permanent rules no later than January 1, 2017. The statutory changes in these Sections and associated rule-making status are summarized below:

Section 4.14. (a) addresses amendments to General Statute 130A-334 in the form of additional terms and definitions related specifically to the Engineered Option Permit (EOP) established in Section 4.14. (c) of the Session Law.

- The permanent Rule for the EOP was adopted April 1, 2017.

Section 4.14. (b) addresses amendments to G.S.130A-335 primarily related to the EOP, including specification of required licensure for private sector professionals who may perform site evaluations in addition to Local Health Department (LHD) personnel. Also requires rules adopted by the Commission implementing the EOP to be at least as stringent as existing Commission rules for on-site wastewater systems.

- The permanent Rule for the EOP was adopted April 1, 2017.
- The ongoing complete revision of 15A NCAC 18A .1900 that is in process will satisfy any further requirements for permanent rule adoption.

Section 4.14. (c) addresses amendment to Article 11 of Chapter 130A of the General Statutes with the addition of a new section, G.S.130A-336.1 *Alternative process for wastewater system approvals* (which establishes the EOP).

- The permanent Rule for the EOP was adopted April 1, 2017.

Section 4.14. (d) addresses amendments to G.S.130A-338 for the EOP as it affects issuance of construction permits by building code enforcement officials.

- Both temporary and permanent rule changes are required by this report and these have been implemented. However, this statutory change stands alone and thus does not necessitate rule revision.

Section 4.14. (e) addresses amendments to G.S.130A-339 for the EOP as it affects allowance of permanent electrical service by building code enforcement officials.

- Both temporary and permanent rule changes are required by this report and these have been implemented. However, this statutory change stands alone and thus does not necessitate rule revision.

Section 4.14. (g) addresses amendments to G.S.130A-336 for the EOP including: Specification of required licensure for private sector professionals who may perform site evaluations in addition to Local Health Department (LHD) personnel; no effect on validity of permits upon change of property ownership; and requirement that Local Health Departments act on applications within a specified period of time or risk losing public health funding.

- This statutory change stands alone and does not necessitate rule revision. On-Site Water Protection Branch staff are making permanent rule changes as part of the ongoing complete revision of 15A NCAC 18A .1900 rules that is in process.

Section 4.14. (j) addresses amendments to G.S. 130A-342 described in the Session Law regarding Operator Certification requirements for residential wastewater treatment systems approved under NSF-International Standard 40 (*NSF International is the nationally recognized certification and testing organization that has developed Standard 40 which is widely accepted as a basis for approving proprietary wastewater treatment systems. The North Carolina General Assembly first recognized the applicability of NSF Standard 40 by its initial adoption of G.S. 130A-342 in 1989*).

- This statutory change stands alone and does not necessitate rule revision. On-Site Water Protection Branch staff are making permanent rule changes as part of the ongoing complete revision of 15A NCAC 18A .1900 rules that is in process. Written guidance has been provided, distributed to the environmental health list serves and posted on the Branch's webpage.

Status of Activities pursuant to Section 4.14

The permanent rule for the Engineered Option Permit (EOP) was adopted April 1, 2017.

PART 2: SESSION LAW 2015-286, SECTION 4.15

Sections slated for Permanent Rules only are:

- **Section 4.15. (a)** – Amendments to G.S.130A-343 regarding approval of on-site wastewater systems.
- **Section 4.15. (b)** – Implementation of Section 4.15. (a).

Status of Activities around Section 4.15

Division of Public Health On-Site Water Protection Branch (OSWPB) staff continue to work on the proposed 15A NCAC 18E rules and the associated fiscal note for the permanent rule revision. The 15A NCAC 18A .1900 rules will be repealed concurrently with adoption of the 15A NCAC 18E rules. No fiscal note is required for the repeal of the 15A NCAC 18A .1900 rules.

- The Commission for Public Health voted to approve the revised fiscal note for the proposed 15A NCAC 18E rules on their April 9, 2018 conference call and gave OSWPB permission to repost the proposed rules with changes.
- The public comment period for the updated proposed 15A NCA 18E rules began May 1, 2018.
- The public hearing was held on May 23, 2018, in Raleigh, NC. Two listening meetings were held: one in Greenville (May 2, 2018) and one in Asheville (May 21, 2018).
- The public comment period ends Monday, July 2, 2018.

The tentative schedule for the approval of the 15A NCAC 18E rules and the repeal of the 15A NCAC 18A .1900 rules has been revised as follows to accommodate the Commission for Public Health quarterly meeting schedule and to comply with the Administrative Procedures Act:

- | | |
|----------------------|--|
| ○ July 2, 2018 | Public comment period ends |
| ○ August 8, 2018 | Commission for Public Health adopts 18E rules |
| ○ August 20, 2018 | OSWPB submits rules to Rules Review Commission |
| ○ September 20, 2018 | Rules Review Commission meeting and approval |
| ○ October 1, 2018 | Effective date of 15A NCAC 18E rules |

Next Steps for Implementation of Section 4.15

- OSWPB staff continues to document a response to each comment.
- OSWPB staff will follow the timeline above to complete the formal rule making process as expeditiously as allowed under the Administrative Procedures Act.
