The report was prepared in accordance with requirements of Session Law 2017-57 Section 8.9 (c).

“**SECTION 8.9.(c)** Study the effect of the program on teacher performance and retention. The State Board shall report the results of its findings, the amount of bonuses awarded to teachers who teach students earning approved industry certifications or credentials, and the type of industry certifications and credentials earned by their students to the President Pro Tempore of the Senate, the Speaker of the House of Representatives, the Joint Legislative Education Oversight Committee, and the Fiscal Research Division by March 15 of each year.

The Department of Public Instruction collaborated with the Department of Commerce’s Labor and Economic Analysis Division (LEAD) to identify the academic rigor and employment value of the industry recognized credentials earned by secondary students in Career and Technical Education (CTE) programs during the 2015-16 school year. Based on the data gathered, in December 2016, the State Board of Education approved a bonus program based on three tiers of credentials. Those credentials with both high academic rigor and employment value were designated as Tier 3 and eligible for a bonus of \$50 each. Tier 2 credentials have either high academic rigor or high employment value and will receive a \$25 bonus. Tier 1 credentials, while still valuable to students, did not have either high academic rigor or high employment value and therefore, are not eligible for teacher bonus pay.

Employment value was calculated based on the entry wages, employment growth rate and the projected number of job openings for the primary occupation of each credential earned. The process was similar to the methodology used by LEAD in the Star Job Ratings reporting.

DPI and LEAD used several data sources to match occupations with credentials. However, the aligned is not a perfect science. Many credentials earned can be aligned with more than one occupation or group of occupations.

Table 1 details the assignment of each credential type to a Tier based on the methodology used by DPI and LEAD.

Using data entered into the NC CTE Test Admin site by Public School Unit (PSU) staff and data obtained from third party test administrators, DPI allotted to PSUs funds due for each teacher based on the credentials earned.

Table 2 shows the bonus allotted to each PSU for the payment of credential bonuses. Note the PSUs were required to verify continued employment of the teacher in the PSU in courses that lead to credentials.
