

**NORTH CAROLINA**  
State Board of Education  
Department of Public Instruction

---

# Report to the North Carolina General Assembly

---

Statewide Administration of the Testing  
Program

SL 2019-165 (SB 343), 115C-174.12  
Section 2.1 (d) (e)

---

**Date Due:** December 15, 2021  
DPI Chronological Schedule, 2021–2022

## STATE BOARD OF EDUCATION

STATE BOARD OF EDUCATION VISION: Every public school student in North Carolina will be empowered to accept academic challenges, prepared to pursue their chosen path after graduating high school, and encouraged to become lifelong learners with the capacity to engage in a globally-collaborative society.

STATE BOARD OF EDUCATION MISSION: The mission of the North Carolina State Board of Education is to use its constitutional authority to guard and maintain the right of a sound, basic education for every child in North Carolina Public Schools.

### ERIC DAVIS

Chair: Charlotte – At-Large

### JILL CAMNITZ

Greenville – Northeast Region

### TODD CHASTEEN

Blowing Rock – Northwest Region

### ALAN DUNCAN

Vice Chair: Greensboro – Piedmont-Triad Region

### REGINALD KENAN

Rose Hill – Southeast Region

### DONNA TIPTON-ROGERS

Brasstown – Western Region

### MARK ROBINSON

Lieutenant Governor: High Point – Ex Officio

### AMY WHITE

Garner – North Central Region

### J. WENDELL HALL

Ahoskie – At-Large

### DALE FOLWELL

State Treasurer: Raleigh – Ex Officio

### OLIVIA OXENDINE

Lumberton – Sandhills Region

### JAMES FORD

At-Large

### CATHERINE TRUITT

Superintendent & Secretary to the Board: Cary

### VACANT

Southwest Region

The above State Board of Education information is a record of the board members at the time of this document's approval for publication.

For the current list of State Board Members, Vision and Mission Statements, go to <https://stateboard.ncpublicschools.gov>.

## NC DEPARTMENT OF PUBLIC INSTRUCTION

**Catherine Truitt, State Superintendent / 301 N. Wilmington Street / Raleigh, North Carolina 27601-2825**

In compliance with federal law, the NC Department of Public Instruction administers all state-operated educational programs, employment activities and admissions without discrimination because of race, religion, national or ethnic origin, color, age, military service, disability, or gender, except where exemption is appropriate and allowed by law.

### **Inquiries or complaints regarding discrimination issues should be directed to:**

Thomas Tomberlin, Director of Educator Recruitment and Support, NCDPI  
6301 Mail Service Center, Raleigh, NC 27699-6301 / Phone: (984) 236-2114 / Fax: (984) 236-2099

Visit us on the Web: [www.dpi.nc.gov](http://www.dpi.nc.gov)

## **Introduction**

General Statute §115C-174.12 (d) requires “by October 1 of each year, each local board of education shall notify the State Board of Education (SBE) of any local standardized testing to be administered to students by the local school administrative unit at the direction of the local board of education in its schools and the calendar for administering those tests. The local board of education shall include the following information:

- (1) the source of funds supporting the local testing program;
- (2) the time allotted to administer each test;
- (3) whether the test is a computer-based test or a paper-based test;
- (4) the grade level or subject area associated with the test;
- (5) the date the test results are expected to be available to teachers and parents;
- (6) the type of test, the purpose of the test, and the use of the test results; and
- (7) estimates of average time for administering tests required by the local board of education by grade level.”

Section (d1) states “in each even-numbered year, each local board of education shall review all local standardized testing administered to students by the local school administrative unit at the direction of the local board of education for the prior two school years, in order to determine the number of tests administered to students and the number of hours required for students to complete the tests. If the average over the prior two-year period of either (i) the number of tests administered or (ii) the number of hours required for students to complete the tests exceeds the State average over the prior two-year period, as published pursuant to subsection (e1) of this section, the local board of education shall submit to the Department of Public Instruction and the State Board of Education, by October 1 of the even-numbered year, a plan to eliminate certain local standardized testing in order to ensure that neither the number of tests nor the number of hours required for students to complete the tests exceeds the State average. The State Board of Education shall waive the requirement that a local board develop and submit a plan if the State Board finds that the local board has made significant progress toward reducing local testing to the State average.” As this is not an even-numbered year, this information is not included in this report.

Section (e) of the same legislation requires the SBE to “submit a report to the Joint Legislative Education Oversight Committee containing information regarding the statewide administration of the testing program, including the number and type of tests and the testing schedule, and a summary of any local testing programs reported by local boards of education to the SBE in accordance with subsection (d).”

Section (e1) of the legislation requires “by September 1 of each year, the Superintendent of Public Instruction shall publish on the Web site of the Department of Public Instruction a uniform calendar that includes schedules for state-required testing and reporting results of tests for at least the next two school years, including estimates of the average time for administering state-required standardized tests. The uniform calendar shall be provided to local boards of education in an electronic format that allows each local board of education to populate the calendar with, at a minimum, the information required by subsection (d) of this legislation. The uniform calendar must be searchable by local school administrative unit and denote whether a test on the calendar is required by the state or required by a local board of education.”

This report addresses the above legislative directives with respect to the 2021–22 school year. This report has three sections: the first section provides the information regarding the Annual

Testing Program, the second section provides information gathered from local boards of education regarding local testing programs, and the third section provides a summary of the two-year averages (2019–20 and 2020–21) for the total local tests administered and the total amount of local testing time.

## **Section 1: Annual Testing Program**

The North Carolina Department of Public Instruction’s (NCDPI) Division of Accountability Services (<https://www.dpi.nc.gov/districts-schools/testing-and-school-accountability>) ensures that North Carolina’s Annual Testing Program meets the requirements of all applicable state and federal laws. These laws are designed to promote student academic achievement and to assist stakeholders in understanding and gauging this achievement against standards. To these ends, the NCDPI Division of Accountability Services endeavors to accomplish the following three main objectives:

- (1) Design and develop reliable and valid testing instruments,
- (2) Uniformly implement and provide access to suitable assessment instruments for all students, and
- (3) Provide accurate and statistically appropriate reports.

To meet these objectives, the NCDPI supports and administers an array of statewide standardized tests ranging in purpose from placement to summative measurement of academic achievement and ranging in grade from kindergarten to grade twelve. The NCDPI ensures that all tests are accessible to every North Carolina student, including students with disabilities. Per G.S. §115C-174.12(a)(4), “all annual summative assessments of student achievement adopted by the State Board of Education (SBE) and all final exams for courses are administered within the final ten (10) instructional days of the school year for year-long courses and within the final five (5) instructional days of the semester for semester courses.” The Beginning of Grade 3 Reading Test begins on the eleventh day of the school year and continues through the fifteenth day. The W-APT and the WIDA Screener are placement tests administered to newly arrived English Learners within the first thirty days of enrollment in a school. The career-and-college readiness testing, which includes Pre-ACT, ACT, and ACT WorkKeys, occurs during predetermined windows in the fall and spring semesters.

Public health requirements for students to quarantine due to COVID-19 resulted in some adjustments to testing windows for the 2020–21 school year. However, participation data show almost 95 % of all students and most student subgroups took the required statewide assessments.

Funding sources for the Annual Testing Program are the North Carolina Public School Fund (approximately seventy-five percent) and a State Assessment Grant from the federal government (approximately twenty-five percent). A separate allocation from the General Assembly funds the ACT suite.

In response to Section (e1) of this legislation, on September 1, 2021, the Superintendent of Public Instruction published on the NCDPI website a uniform calendar that includes the administration dates and times for all state-required testing and reporting results of tests for the next two school years. On August 2, 2021, a uniform calendar (survey) was provided to local boards of education in an electronic format which allowed each local board of education to populate the calendar with, at minimum, the information required by subsection (d) of the

legislation. The uniform state calendars for the 2021–22 and 2022–23 school years are published on the NCDPI’s website at <https://www.dpi.nc.gov/two-year-schedule-state-required-testing-and-reporting-results>.

The local testing calendars that denote local standardized testing administered to students by the local school administrative unit are searchable by local education agency (LEA) and are published on the NCDPI’s website at <https://www.dpi.nc.gov/districts-schools/testing-and-school-accountability/local-testing>.

In addition, the NCDPI annually publishes the Annual Testing Program Operational Calendar. The operational calendar for 2021–22 is located at <https://www.dpi.nc.gov/districts-schools/testing-and-school-accountability> and is provided in the following tables.

**TABLE 1. North Carolina Operational Testing Calendar for the 2020–21 school year–summer**

Assessment	Grades Tested	Frequency of Administration	Administration Time in Minutes	Testing Window
W–APT	Kindergarten and First Semester Grade 1	Once upon initial enrollment	60–70	Initial assessment required within 30 days of initial enrollment
WIDA™ Screener	Second Semester Grade 1 through Grade 12	Once upon initial enrollment	70	Initial assessment required within 30 days of initial enrollment
End-of-Course Tests	The grade in which the course is taken	Once at the completion of the course	Biology–120 English II–150 NC Math 1–180 NC Math 3–180	Final 5 instructional days of the summer school course
Credit by Demonstrated Mastery (CDM) Phase 1 Assessments	For EOC tests only	One Day	Biology–120 English II–150 NC Math 1–180 NC Math 3–180	July 19–August 13, 2021
Read to Achieve Test	Grade 3	One Day	120	At the conclusion of reading camp

**Summer Administrations of End-of-Grade and End-of-Course Tests for Accountability**

Public school units may administer end-of-grade (EOG) and end-of-course (EOC) tests during summer programs that have been approved by their local board and take place after the academic year is complete. Summer program scores submitted by July 6 are included in accountability for achievement, but not for growth.

**TABLE 2. North Carolina Operational Testing Calendar for the 2020–21 school year–makeup testing**

Assessment	Grades Tested	Frequency of Administration	Administration Time in Minutes	Testing Window
ACT® (Standard Administration)	Current 12 <sup>th</sup> grade students	One Day	175	<u>Paper Testing only</u> <ul style="list-style-type: none"> <li>• Fall Initial Test Date: October 5, 2021</li> <li>• Fall Makeup Test Date: October 19, 2021</li> <li>• Fall Emergency Test Date: November 2, 2021</li> </ul>
ACT® (Accommodations Testing Windows)	Current 12 <sup>th</sup> grade students	One Day	175 (varies by timing code)	<u>Paper Testing, only</u> <ul style="list-style-type: none"> <li>• Fall Initial Test Window: October 5–8 and October 11–15, 2021</li> <li>• Fall Makeup Test Window: October 19–22 and October 25, 2021</li> <li>• Fall Emergency Test Window: November 2–5 and November 8, 2021</li> </ul>
College and Career Readiness Alternate Assessment (CCRAA)	Current 12 <sup>th</sup> grade students	One Day	150	
NCEXTEND1 Alternate Assessment	Current 12 <sup>th</sup> grade students	One Day	Untimed (unique to each individual student)	

*Note:* Students who were unable to test in spring 2021 are scheduled to take the fall 2021 administration of the ACT, the College and Career Readiness Alternate Assessment, or the NCEXTEND1 Alternate Assessment.

- NC School Report Cards: <https://www.dpi.nc.gov/data-reports/school-report-cards>

## Section 2: Local Testing Programs

### Background

“General Statute §115C-174.12 (d) requires each local board of education to “notify the SBE of any local standardized testing to be administered to students by the local school administrative unit at the direction of the local board of education in its schools and the calendar for administering those tests.”

To standardize and make comparable the information submitted by LEAs in response to the legislation, the NCDPI created a standard format and specific requirements for LEAs to use for their submissions. The NCDPI collected the LEA submissions from August 2, 2021, through October 1, 2021. In the instructions and supporting materials the NCDPI provided to LEAs, “local testing” was defined, for the purposes of this report, as follows:

- “Testing that is administered in schools within local school administrative units as initiated by the LEA and administered either LEA- or school-wide (including for all students of one grade in a district or school).”
- Testing that is initiated by classroom teachers was to be considered part of the teachers’ instructional practice and thus, not considered local testing for the purposes of this report.
- Testing that is required by the state (including testing that offers local discretion related to the particular “brand” or form used) was not considered local testing for the purposes of this report.

As directed by G.S. §115C-174.12(e), “a summary of any local testing programs reported by local boards of education to the State Board of Education in accordance with [the legislation]” is provided in this report.

### Summary of Information Submitted by Local Boards of Education

All 115 LEAs reported the local testing that is initiated by the LEA and administered either LEA- or school-wide. The extent of local testing appears to vary widely across the LEAs, ranging from one to twenty-eight tests. Unless otherwise noted in this report, a total of 910 local

tests were reported statewide.

The NCDPI used the data to describe the following aspects of local testing (as required by the legislation):

- “local testing to be administered to students by the local school administrative unit at the direction of the local board of education in its schools,
- the calendar for administering those tests,
- the source of funds supporting the local testing program,
- the time allotted to administer each test,
- whether the test is a computer-based test or a paper-based test,
- the grade level or subject area associated with the test,
- the date the test results are expected to be available to teachers and parents,
- the type of test, the purpose of the test, and the use of the test results, and
- estimates of average time for administering tests required by the local board of education by grade level.”

### Local Testing: Type of Test, Test Subject, and Grade Level

Across the 115 LEAs, the focus of local testing programs appears to be benchmark or interim and formative assessments. Of the 910 local tests reported, over 375 fall into these two categories. Benchmark and interim are two terms used typically, and often interchangeably, by district and school personnel to describe tests that are administered throughout the school year, but not at the end of the school year. These tests, designed to measure a point in time of a student’s progress toward mastery of content, may or may not be directly aligned with the state end-of-grade (EOG) or end-of-course (EOC) summative assessments. Since some local districts use the term “interim” for this type of test, while others use the term “benchmark,” the local testing data collection offered LEAs either term as an option for describing local testing. As seen in Figure 1, the terms are combined for purposes of understanding the type of local testing being conducted in North Carolina.

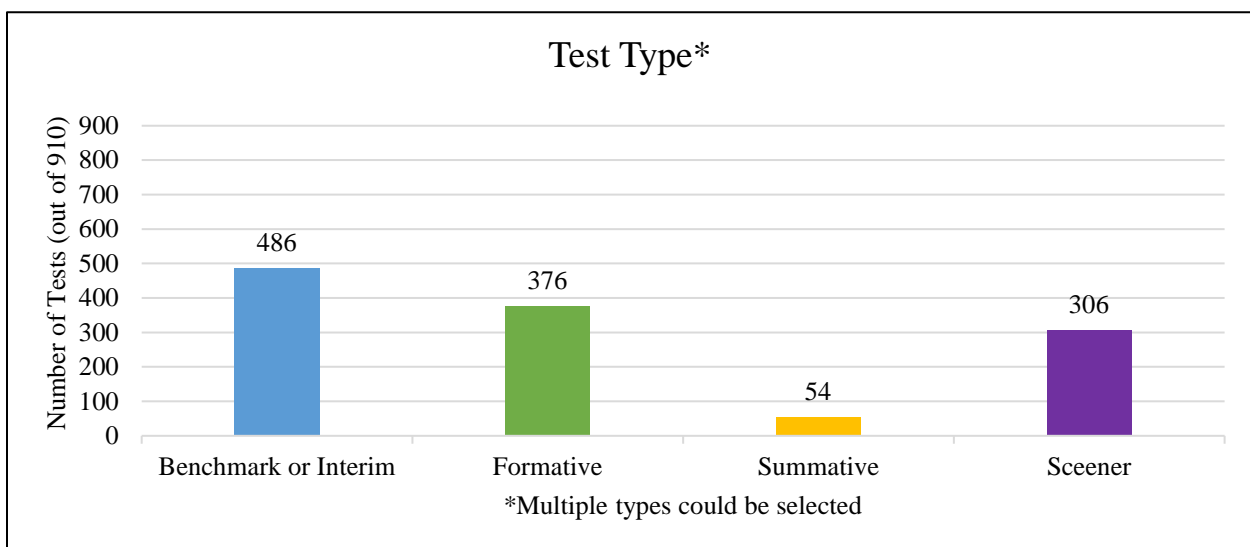

FIGURE 1. Type of tests administered locally.

The focus of local testing appears to be on the core subject areas of reading and mathematics (see Figure 2). These subjects are the focus of the statewide EOG and EOC tests used for state and federal school accountability purposes.

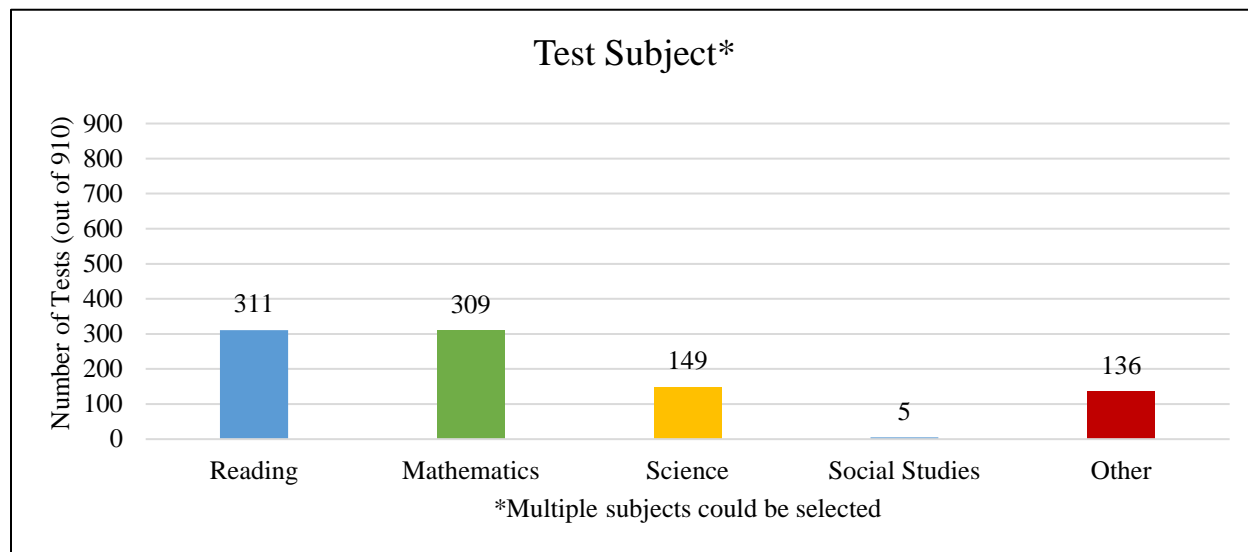

FIGURE 2. Subject areas tested locally.

As seen in Table 10 and Figure 3, more local testing occurs in grades 3, 4, 5, and 8. Overall, students in grades 3 through 8 are tested more than students in elementary grades K–2 and high school grades 9–13.

TABLE 10. Grades Tested\*

Grade Level	Frequency	Percent of 910 Tests Given
Kindergarten (K)	176	19.3
Grade 1	192	21.1
Grade 2	215	23.6
Grade 3	476	52.3
Grade 4	467	51.3
Grade 5	550	60.4
Grade 6	437	48.1
Grade 7	419	46.0
Grade 8	529	58.1
Grade 9	210	23.1
Grade 10	212	23.3
Grade 11	138	15.2
Grade 12	89	9.8
Grade 13	0	0.0

\*Districts could select more than one option for the grades tested. Percentages in this case will sum to over 100, and the N will sum to over 910.

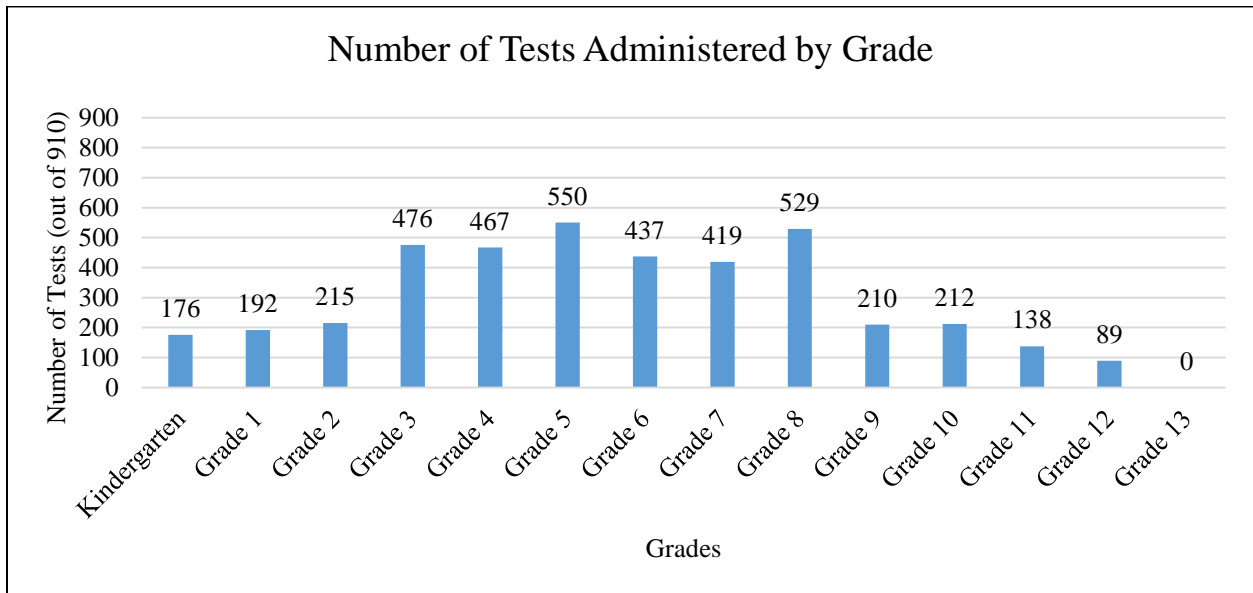

FIGURE 3. Number of tests administered by grade.

### Delivery Mode

Over eighty percent of the 115 LEAs reported that local testing was administered online rather than paper (see Figure 4). Effective with the 2017–18 school year, the Annual Testing Program began providing all state tests in both online and paper format. Many of the state-administered tests are required online administrations (i.e., all EOC tests [Biology, English II, NC Math 1, NC Math 3]; EOG Reading [grades 6–8]; EOG Science tests [grades 5 and 8]; EOG Mathematics tests [grades 4–8]; WIDA Screener; ACCESS for ELLs; ACT WorkKeys; and NCEXTEND1 Reading, Mathematics, and Science [Grades 3–8 and 10]). The NCDPI encourages districts and schools to continue to move toward online tests as much as their local technical infrastructure will allow.

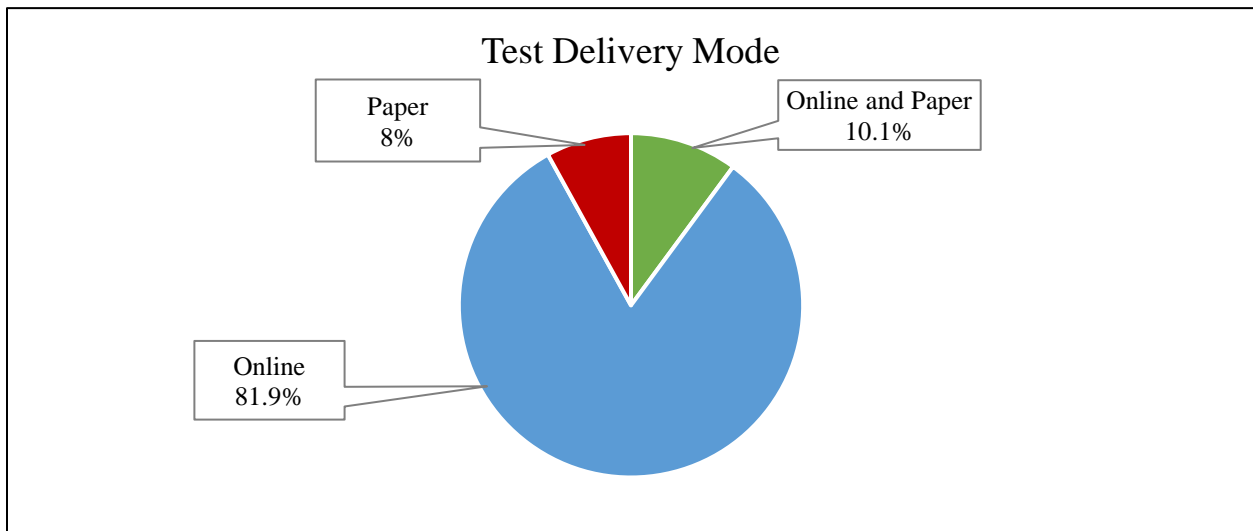

FIGURE 4. Test delivery mode.

### Calendar for Administering Local Testing

To administer local tests, LEAs establish testing windows during which each test is to be given either LEA-wide (sometimes staggered to occur at different times at particular schools) or for particular grades. These testing windows typically have a start date—the initial date on which students may be tested in certain schools, or every school, in the LEA. Schools then have the

discretion to determine if they will schedule school or grade-wide testing. Some testing may be scheduled on a given day for students in small groups or for individuals, depending upon a school’s resources and/or the accommodations required by individual students. A testing window may be many days long, so that all students in the target population can be tested, but that does not imply that each individual student undergoes testing more than once in the window or for an extended period of time. For example, during a scheduled LEA testing window of fifteen days for a particular benchmark or interim, each student may undergo less than one full school day of testing.

Statewide, in every month of the school year, at least one local testing window is scheduled to begin. The most common months during which local testing windows begin are October and January. (see Figure 5).

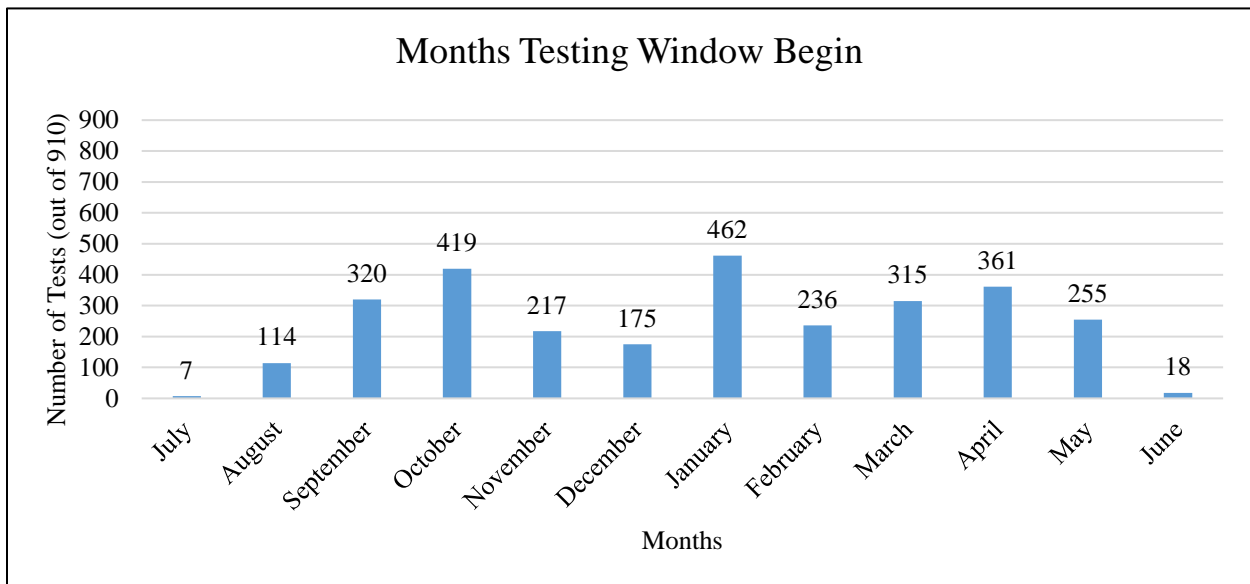

FIGURE 5. The months local testing windows begin.

Figure 6 shows the total number of hours allotted for all tests by grade and month. The purpose of this calendar map is to show the months where students take tests for the longest amounts of time.

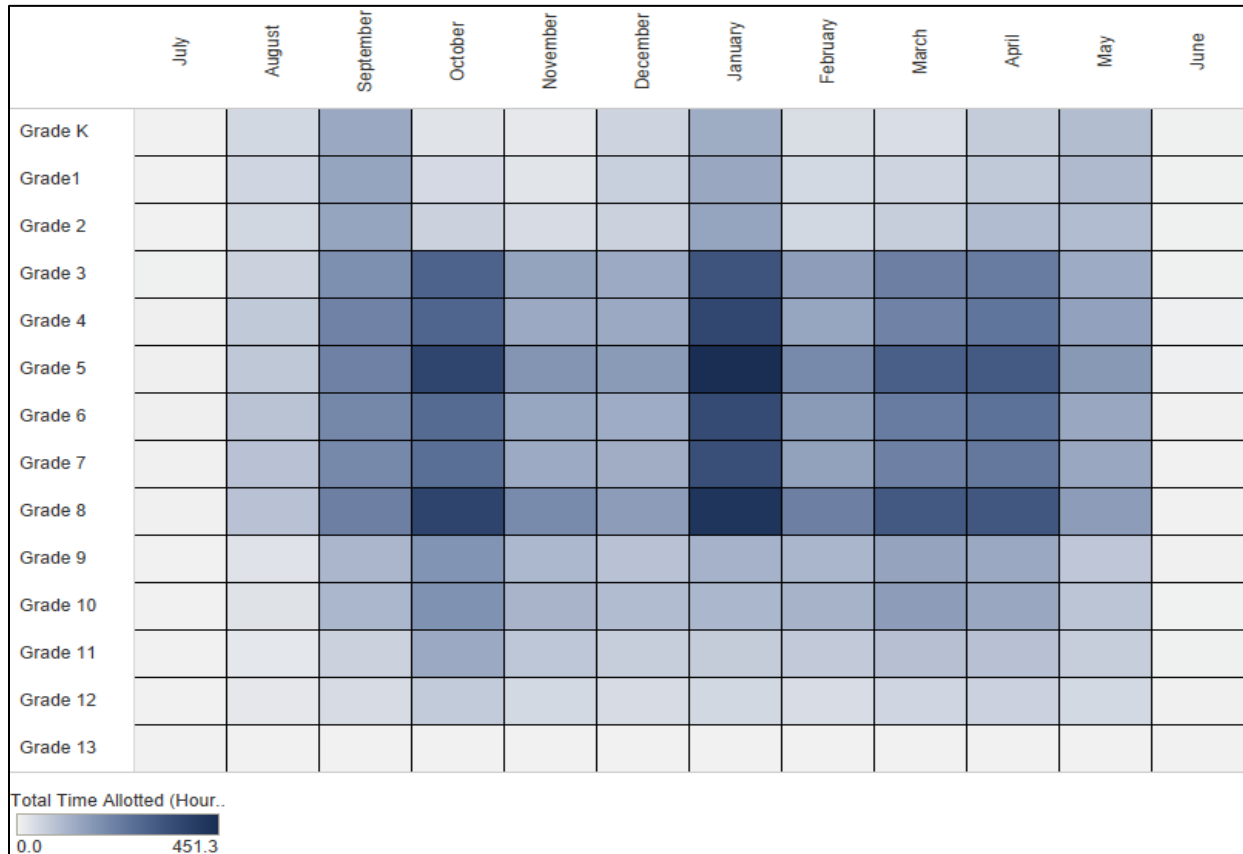

FIGURE 6. Total hours for all tests by grade and month.

As shown in Figure 7, the length of scheduled testing windows appears to vary between one day and more than fifteen days, with a five-day testing window most commonly reported. A summary of testing windows provides insight into how much time LEAs are building into their academic calendars to administer local testing programs.

FIGURE 7. The length of testing windows in days.

### Time Allotted for Standard Administration

The time LEAs allot for standard administrations of local tests varies from 30 minutes or less to up to four hours (see Figure 8). Across the 115 LEAs, nearly fifty percent (50%) of the tests administered require 61 to 90 minutes for the standard administration.

FIGURE 8. LEAs’ estimated time for standard administration of local tests.

The map in Figure 9 shows the time allotted in hours per year for local tests administered by LEAs for grades K–13.

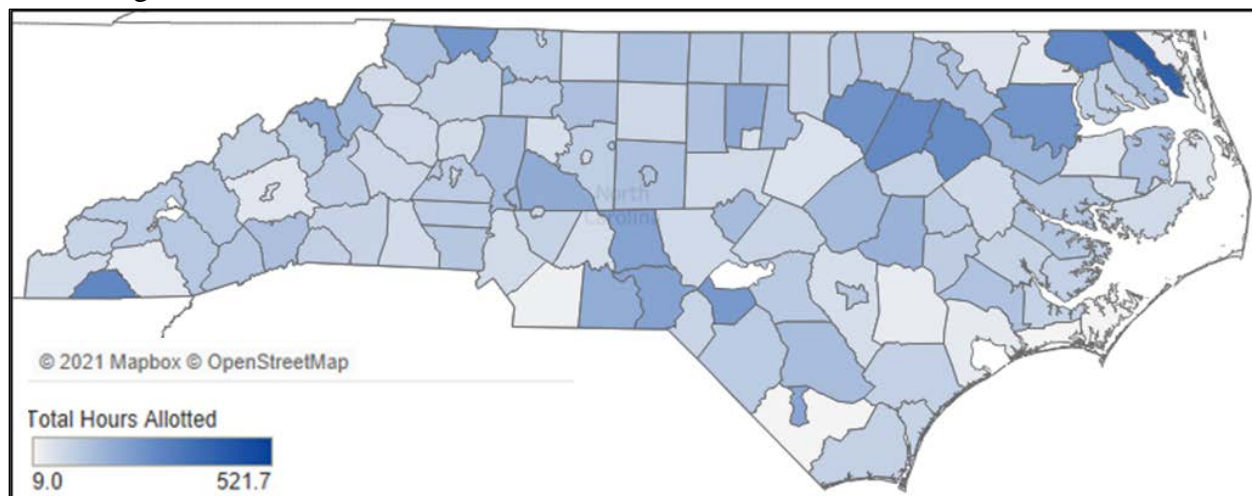

FIGURE 9. Hours allotted for testing in grades K–13 by LEA.

### Test Format and Availability of Results

Regardless of the format of delivery (i.e., online or paper), tests that contain multiple-choice test items only allow LEAs to get test results within the same day of the test administration. Tests that contain performance items, such as constructed response or short answer items, take longer to score. The scoring process for performance items usually begins the morning after the test record is received by the vendor or scorer. The results are returned to the LEA within approximately five to seven business days. A summary of the data in Figures 10 and 11, shows that most of the local tests contain multiple-choice items only (87.9%), and that most of the teachers (89.3%) receive results from these tests on the same day that the test is administered, or within five days of the administration.

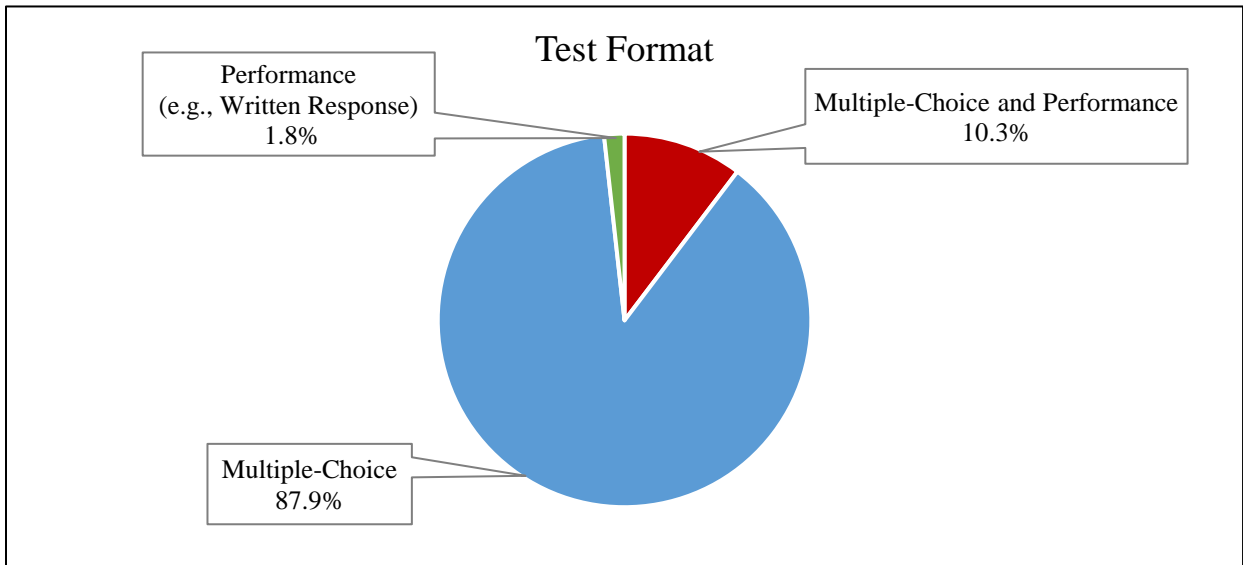

FIGURE 10. Test format.

FIGURE 11. Availability of test results in days for teachers.

16 N.C. Admin. Code 06D .0307 states the following:

“(g) LEAs shall, at the beginning of each school year, provide information to students and parents or guardians advising them of the districtwide and State-mandated tests that students will be required to take during that school year. In addition, LEAs shall advise students and parents or guardians of the dates the tests will be administered and how the results from the tests will be used. Also, information provided to parents shall include whether the State Board of Education or the local board of education requires the test(s).

(h) LEAs shall report scores resulting from the administration State-mandated tests from the Annual Testing Program to students and parents or guardians no later than 30 days after the test is administered and along with available score interpretation information within 30 days from receipt of the scores and interpretive documentation from the NCDPI.”

Figure 12 shows the number of days by test that it takes for parents to receive their student’s score and/or interpretive documentation for local tests. Data collected shows that 33% of parents receive results either on the same day or within five days of the generation of the score. However, the data also indicates that some parents (3.6%) do not receive test results until thirty-one or more days after the generation of the score.

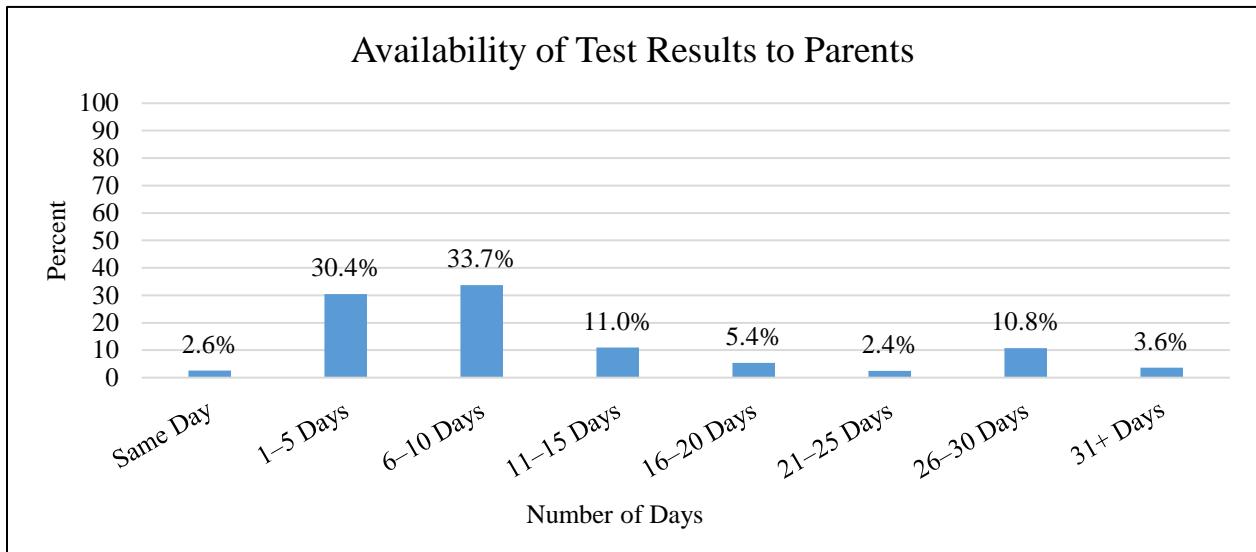

FIGURE 12. Availability of test results in days for parents.

### Purpose of the Test and Use of the Results

A summary of the data in Figure 13 shows that educators from the 115 LEAs use the results from local tests most often to try to determine if students have mastered the concepts and skills covered by instruction (i.e., mastery). The type of tests teachers typically administered to determine mastery and guide future instruction are interim or benchmark and formative tests (see Figure 1). Interim or benchmark tests are like formative tests in the sense that they help teachers see what students know and understand as well as topics students are having difficulty grasping.

Diagnostic testing is a form of pre-assessment that allows teachers to determine students’ individual strengths, weaknesses, knowledge, and skills prior to instruction. Teachers typically administer diagnostics for reading and math skills, using the results to provide remedial instruction or place students within appropriately leveled classes or small groups. Some schools also diagnose concepts as a whole to reveal commonly held misconceptions in specific subjects. Results of these diagnostics inform teachers about the direction of their instruction, meaning how early or advanced in the topic they can begin.

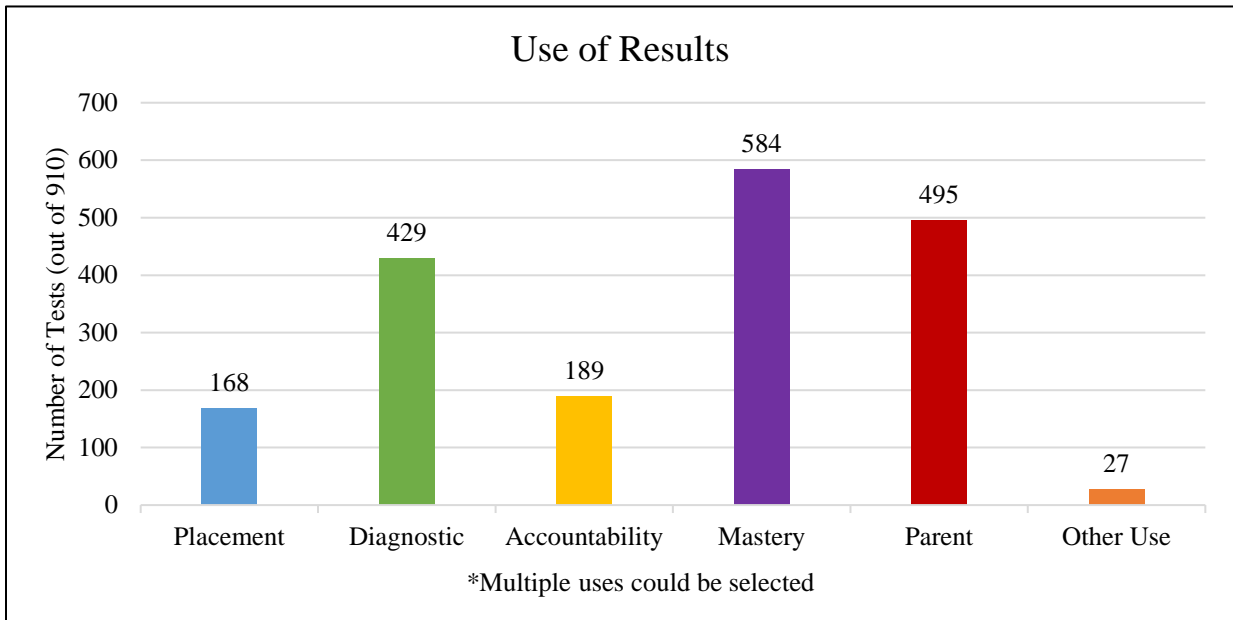

FIGURE 13. Use of test results.

### Test Developers for Local Tests

Local tests are either purchased from a vendor, created by the LEA, or acquired from the state (e.g., NC Check-Ins). As shown in Figure 14, most LEAs purchase local tests from vendors.

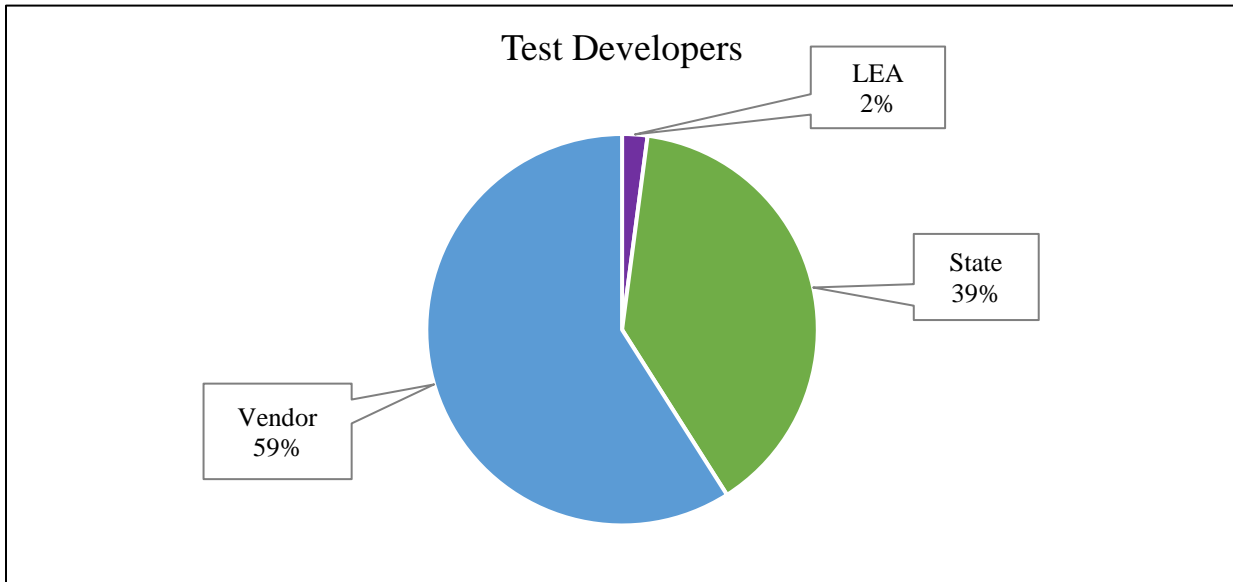

FIGURE 14. Test developers of local tests.

### Source of Funds Supporting Local Testing Programs

State funds are the primary source of funding for local testing, followed by district funds. Figure 15 illustrates the breakdown of funds supporting local testing programs.

FIGURE 15. Source of funds supporting local testing.

### Section 3: Local Testing Report Two-year Summary Findings

The LEAs meet the requirements of this statute by submitting an annual survey to the NCDPI. The survey data submitted is used to calculate the two-year averages. The LEA must include the name of the test administered, how often the test is provided throughout the year, what grade levels are required to take the test, what subjects the tests cover, and how much time is allotted to administer each test. This data is used to determine the LEA and state averages for the number of tests administered and the amount of time testing.

#### State Average of Local Tests Administered

For the 2019–20 and 2020–21 school years, the local testing report survey results indicated an average of 91.9 tests administered across the state. Out of the 115 LEAs surveyed, forty-six were identified as being over the state average, which is 40% of the LEAs. Across the state, the averages varied with the lowest average being 16 and the highest average being 771 tests administered at the local level.

#### State Average of Time Administering Local Tests

For the 2019–20 and 2020–21 school years, the local testing report survey results indicated an average of 166.8 hours spent testing across the state. Out of the 115 LEAs surveyed, thirty-six were identified as being over the state average, which is 30% of the LEAs. Across the state, the averages varied with the lowest average being 21.7 hours and the highest average being 1,281.2 hours spent testing at the local level.
