**An Act to Direct the State Board of Education to Develop a Growth Model
for Establishing Short-Term Annual Goals for Improving the Four-Year Cohort
Graduation Rate and to Establish a Long-Term Goal of Increasing
the Statewide Four-Year Cohort Graduation Rate**

Introduction

Senate Bill 1246, Session Law 2010-111 directed the State Board of Education to develop a growth model for establishing short-term annual goals for improving the four-year cohort graduation rate and to establish a long-term goal of increasing the statewide four-year cohort graduation rate to one hundred percent. The State Board of Education is also required to report annually on progress toward graduation benchmarks and include strategies and recommendations for achieving those benchmarks. The State Board of Education established the expectation that one hundred percent of the students in North Carolina should graduate from high school when the Board adopted its vision that *every public school student in North Carolina will be empowered to accept academic challenges, prepared to pursue their chosen path after graduating high school, and encouraged to become lifelong learners with the capacity to engage in a globally-collaborative society.*

In the North Carolina Every Student Succeeds Act (ESSA) plan, the North Carolina Department of Public Instruction (NCDPI) describes the approach to improving student outcomes and the cohort graduation rate. The theory of action describes how North Carolina will work toward meeting student achievement goals by following a plan of continuous innovation and improvement. This plan includes following best practices through a path of emerging initiatives to promising practices resulting in proven programs shown to improve student outcomes.

As required, the State Board of Education sets yearly goals for increasing the Four-Year Cohort Graduation Rate. The State Board of Education goals were adjusted in 2017–18 to align with the NC ESSA long-term goal for the Four-Year Cohort Graduation Rate. Given the impact of COVID, the U.S. Department of Education approved North Carolina’s addendum to ESSA in April 2022. The addendum included shifting the state’s long-term goals by two years: from the 2026–27 school year to the 2028–29 school year. The long-term goals were created to be ambitious but attainable as required by the ESSA. To reach this goal, each year the state is expected to reach a measure of interim progress that if met will result in the long-term goal being met initially in 10 years and now in 12 years based on the addendum. The goal for 2021–22 was set at 88.6%; the statewide rate was 86.4%, which did not meet this year’s state-level target. See below for the results from the 2021–22 school year by local education agency (LEA). The timeline for long-term goals and measurement of interim progress has been revised as specified in the 2021–22 addendum to the North Carolina ESSA state plan.
