<sup>1</sup> The denominator for calculating the required percentage is all students in membership at grade 3 for the first day of spring testing.

<sup>2</sup> The denominator is the number of students who did not demonstrate reading proficiency minus students exempt from mandatory retention in 3rd grade for good cause.

An \* indicates that the student population number is too small to report the value. The percentage and number of students are not shown if the percentage is greater than 95 percent (>95) or less than 5 percent (<5).

b) each local board of education shall report annually in writing to the State Board of Education by September 1 of each year a description of all reading interventions provided to students who have been retained under G.S. 115C-83.7

A list of reading interventions reported by Public School Units (PSU) follows. The list represents reading interventions implemented that are in addition to those contained in PSU Literacy Intervention Plans.

Note: Some LEAs and Charters did not report the use of additional reading interventions not listed in the PSU Literacy Intervention Plan.
