ELECTRONIC MONITORING/USE OF GLOBAL POSITIONING SYSTEMS FOR SEX OFFENDERS

Session Law 2006-247 (H1896) required the Division of Adult Correction and Juvenile Justice (formerly DOC) to establish a sex offender monitoring program using a continuous satellite-based monitoring system to monitor sex offenders in the community. Offenders subject to monitoring include those under probation, parole, or post-release supervision and certain offenders who have completed their periods of supervision or incarceration but are subject to lifetime tracking pursuant to statute.

GS 143B-707.1(b)(1): Number of Sex Offenders Enrolled

[N.C.G.S.14-208.40](#) establishes three categories of offenders subject to GPS monitoring:

1. Any offender classified as a sexually violent predator, is a recidivist or was convicted of an aggravated offense (Mandatory GPS);
2. Any offender who has committed an offense involving the physical, mental, or sexual abuse of a minor and requires the highest possible level of supervision and monitoring based on a DOC risk assessment (Conditional GPS); and
3. Any offender who is convicted of [G.S. 14-27.2A](#) or [G.S. 14-27.4A](#).

All three categories require that the offender be convicted of a reportable conviction and be required to register as a sex offender. Of the 43 sex offenders enrolled in the electronic monitoring program during fiscal year 2018-2019, all were monitored via active GPS.

14 were assigned to the conditional program (32.6%)

29 were assigned to the mandatory program (67.4%)

The table below represents the number of new offenders enrolled on GPS for FY 2018-2019.

Enrollments by Month

GS 143B-707.1(b)(2): Caseloads of Probation Officers Assigned to GPS Monitored Sex Offenders

Due to the relatively small numbers of offenders under GPS supervision, Community Corrections utilized existing resources to aid in the supervision of GPS sex offender cases. These officers specialize in the supervision of sex offenders, including those who do not have the GPS requirements. Factors such as geography, the number of different offender types, their admission rates to supervision, and the number of officer resources impact decisions concerning local case management practices.

Two officers work in the GPS administrative office and handle the GPS lifetime-tracking offender population. This population consists of certain sex offenders who are no longer active under Community Corrections' authority, but who were legislatively mandated to be tracked for the remainder of their lives. These officers handle cases statewide, and as of June 30, 2019, were responsible for monitoring 462 sex offenders.

Population on 06/30/2019

On June 30, 2019, there were 812 offenders enrolled in the electronic monitoring program. Most offenders (565) were assigned to the mandatory program, 247 were assigned to the conditional program. **All offenders enrolled at the end of the fiscal year were monitored via active GPS.**

GS 143B-707.1(b)(3): Violations

During fiscal year 2018-2019, new enrollees in the electronic monitoring program were cited for 43 violations. Of the 43 offenders enrolled in the program during the fiscal year, 10 (23.3%) were

cited for at least one violation. This percentage is similar as last year. Below is a table of the type and number of violations committed by program enrollees during the fiscal year.

Violations by Offenders Enrolled during FY 18-19

Violation	Number	Percent	Offenders with Violation

GS 143B-707.1(b)(4): Absconders - Exits from GPS during fiscal year 2018-2019

There were 9 total offender exits from GPS during the fiscal year. Two offenders completed the program, four moved out of state, one had court findings for no SBM, and two died. None were absconders.

Exits from SBM during FY 18-19

Exit Type	Offender Exits from GPS	Percent Exits
Completed	2	22.2%
Moved Out of State	4	44.4%
Offender Died	2	22.2%
Court Finding/No SBM	1	11.1%
Totals	9	100%

GS 143B-707.1(b)(5): Offender Enrollment Projections

The Division of Adult Correction and Juvenile Justice's Section of Reentry, Programs and Services provided assistance with the enrollment projections. The tables below show year-end population projections for the GPS program for FY 2019-20 and FY 2020-21:

Projected Population for GPS Supervision

Type of Offender	FY 2019-2020	FY 2020-2021
Mandatory GPS	871	1,001
Conditional GPS	424	489
Totals	1,295	1,490

The projections are based on the laws in effect as of June 30, 2019, and do not take into consideration any future legislation affecting GPS supervision.
