

North Carolina Department of Public Safety

Prevent. Protect. Prepare.

Roy Cooper, Governor

Erik A. Hooks, Secretary

MEMORANDUM

TO: Budget Director
House Appropriations Committee
Senate Appropriations Committee

FROM: Erik A. Hooks, Secretary *EAH*
Mike Sprayberry, NCORR Director *MAS*

RE: State Funding Update for NC Hurricane Recovery Quarterly Report

DATE: February 4, 2020

Pursuant to Session Law 2019-250 Section 3.5(c), the Office of Recovery and Resiliency (Office) shall provide separate quarterly reports to the Director of the Budget, the standing Appropriations Committees of the Senate and the House of Representatives, and the Fiscal Research Division on the use of disaster recovery and assistance funds expended from the Hurricane Florence Recovery Fund and from Fund, the State Emergency Response and Disaster Relief Fund for Hurricane Matthew. Matthew, and funds appropriated for disaster relief for Hurricane Dorian.

The separate reports shall summarize oversight activities and the results achieved as well as all the following:

- (1) Expenditures by program and by source of funds.*
- (2) Expenditures required to receive federal grants.*
- (3) Federal funding provided to the State to refund certain federally related spending.*
- (4) Actual and projected State spending data including time lines and milestones.*
- (5) Total State spending data by agency and by program.*
- (6) Total State spending by program and county, where practicable.*
- (7) Location and job responsibilities of all time-limited State positions created under this act or paid for with federal funds received as a result of Hurricane Florence.*

Executive Summary

On October 29, 2018, SL 2018-136 created the North Carolina Office of Recovery and Resiliency (NCORR) and charged the Office with providing quarterly and annual reports on the State's recovery progress. This quarterly report outlines state-funded recovery activities from July through September 2019. The report is organized into three sections, which include:

1. **Executive Summary.** A brief summary of current hurricane recovery activities led by the NC Division of Emergency Management (NCEM) and the NC Office of Recovery and Resiliency (NCORR).
2. **Summary of State Funding for Disaster Relief.** Summary reports of state-funded programs, by state agencies and departments, and the progress made to support the State's recovery from both Hurricanes Matthew and Florence.
3. **Appendix.** A detailed expenditure report (Excel spreadsheet) summarizing the status of funds for each state-appropriated program, by agency.

Access to state funds for long-term recovery is critical to the ability of state and local responding entities to meet not only the immediate recovery needs of hurricane survivors, but also make it possible for individuals and communities to participate in federal programs.

For example, in this reporting period, the **Department of Agriculture's** Soil and Water Conservation District implemented 78 contracts to repair agricultural roads in 11 counties. In addition, the Division of Agriculture and Consumer Services, Emergency Programs protected public health and consumer safety by managing the composting of 4.1 million poultry and inspecting retailers for products that may have been contaminated or spoiled due to flood waters. The **Department of Insurance** awarded \$256,864 in grants for infrastructure repairs to Volunteer Fire Departments located in Carteret County, Duplin County, and Pamlico County. State funds also made it possible for the **Lumber River Council of Government** to begin architectural plan design for low-income housing complexes in Fair Bluff. Furthermore, state funds enabled in making needed repairs to the **North Carolina Community College System** to assist local community college facilities damaged by Hurricane Florence.

With communities across North Carolina marking the first anniversary of Hurricane Florence (September 2018) and the third anniversary of Hurricane Matthew (October 2016), the importance of state funds to support the activities outlined in this report is crucial for the State's recovery and resiliency.

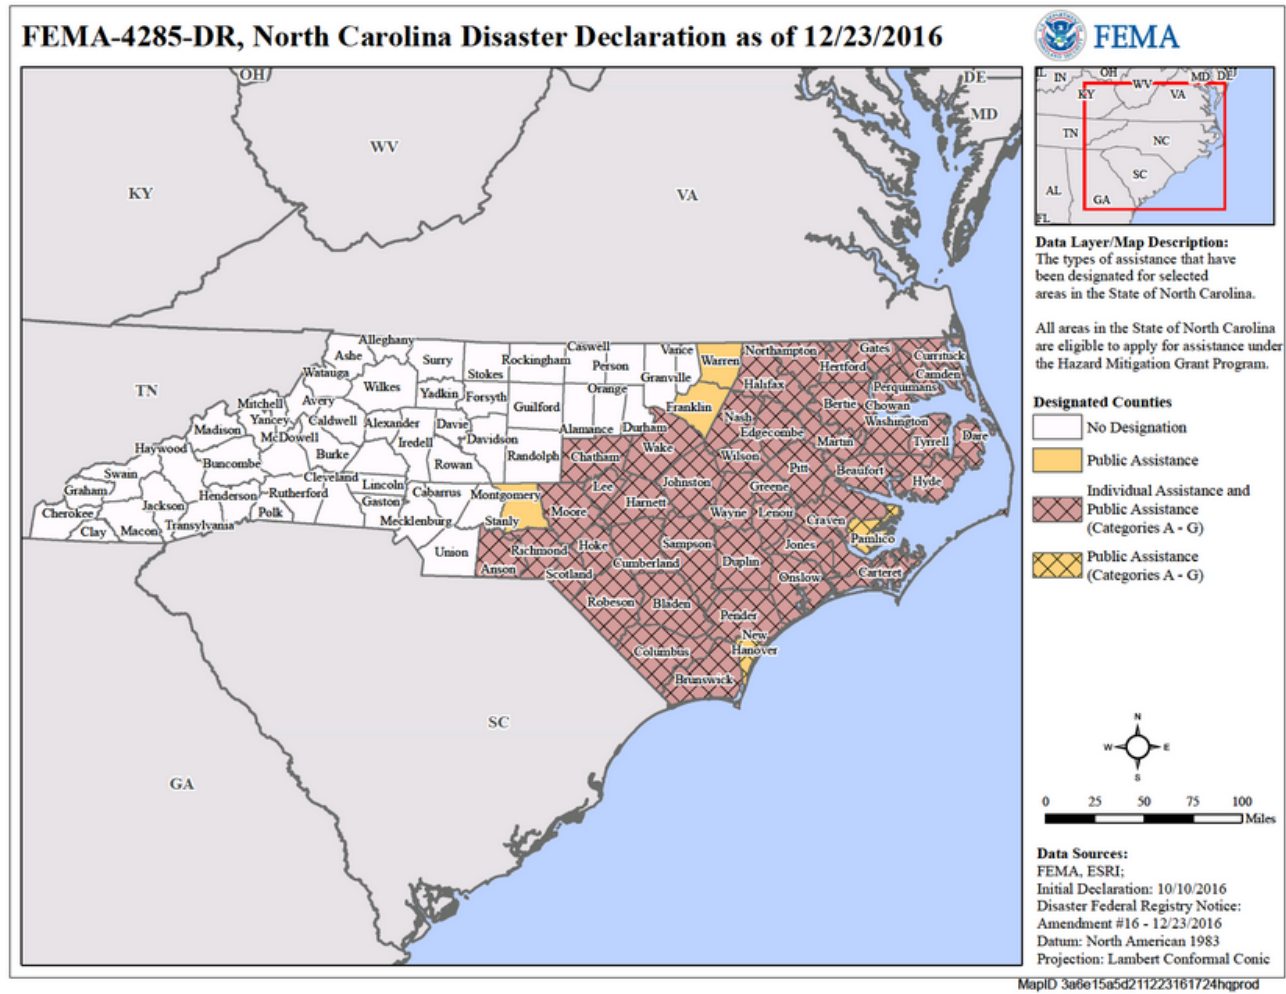

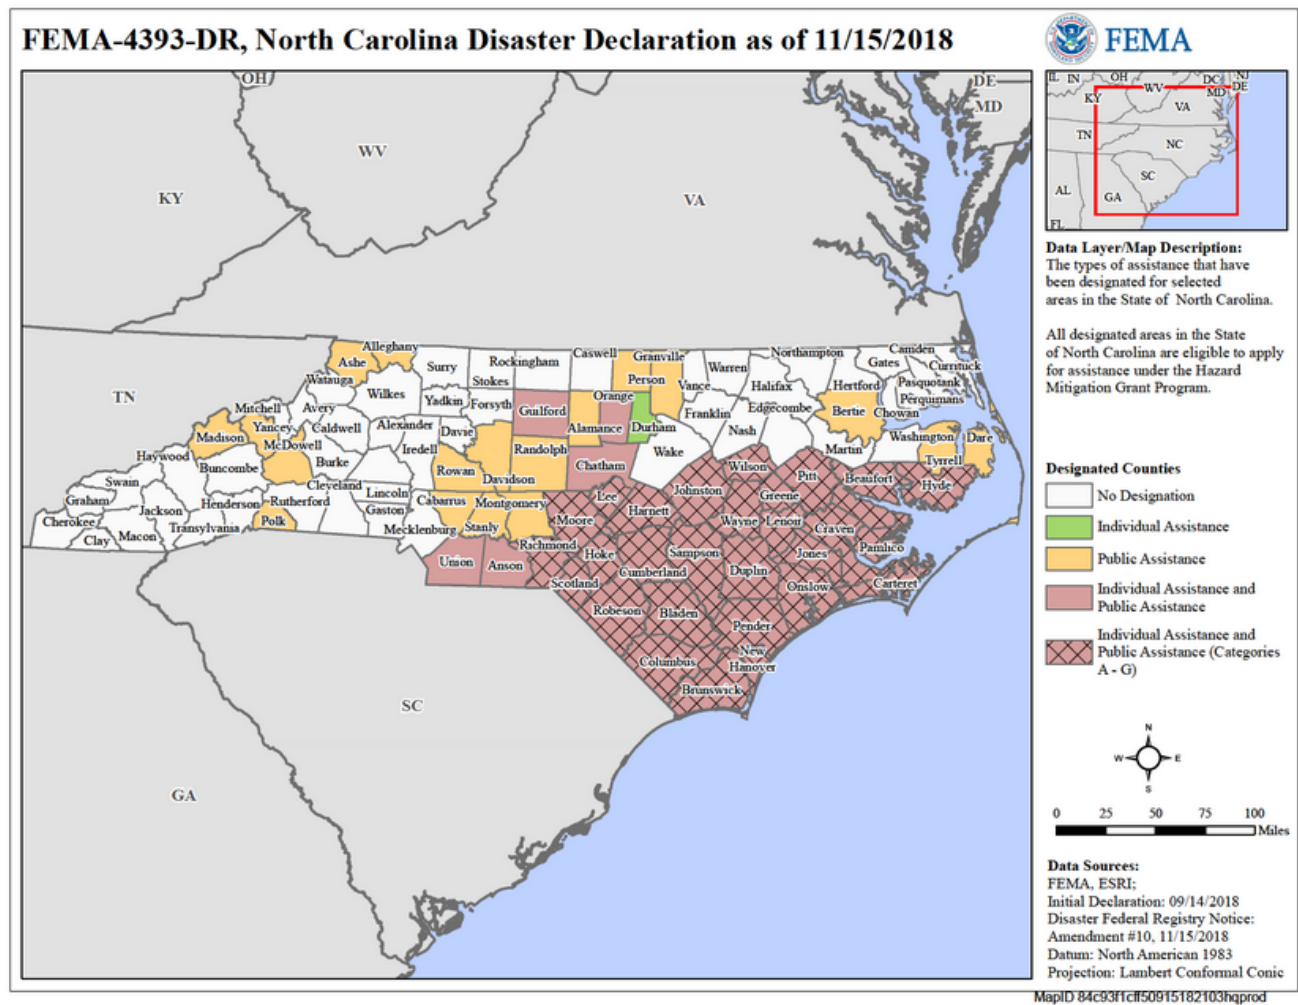

Figure 1. Hurricane Matthew Declared Counties

Figure 2. Hurricane Florence Declared Counties

At the end of this reporting period, in response to **Florence**, 302 households (down from 656) were supported by the State's Direct Housing mission. In total, 139,814 North Carolinians have registered for Individual Assistance, with over \$134,000,000 in funds disbursed for housing and other needs assistance. Public Assistance has worked with local partners to develop 3,387 projects totaling \$1.294 billion. The Hazard Mitigation Grant Program (HMGP) is currently approving local projects and planning to move these forward to FEMA for their approval. As of September 30, for **Matthew**, the HMGP program has reimbursed \$10,012,666 and the Community Development Block Grant – Disaster Relief (CDBG-DR) program has disbursed \$25,578,525 and committed \$129,333,176. These programs, in addition to those led by the state partners contributing to this report are helping to support the unmet needs of North Carolinians and local communities across the state.

State Funding Summary Tables

Tables below represent expenses and obligations of state appropriations from S.L. 2016-124, S.L. 2017-119, S.L. 2018-5, S.L. 2018-134, S.L. 2018-136, and S.L. 2018-138. Amounts reported are as of September 30, 2019.

Table 1. State Appropriations Awarded by Agency for Hurricane Matthew and Florence

Agency	Allocation or Appropriation	Total Spent to Date	Obligations	Remaining Balance	% Remaining Balance
Department of Agricultural and Consumer Services	\$ 368,650,000.00	\$ 219,780,469.73	\$ 22,005,345.07	\$ 126,864,185.20	34%

State Funding Update for Hurricane Recovery

Department of Public Safety

Programs to Support Housing Recovery

Following Hurricane Matthew, the North Carolina Division of Emergency Management (NCEM) administered the **Emergency Sheltering and Short Term Housing Needs** program, S.L. 2016-124, Subsection 4.1(2), to support emergency sheltering and short-term housing needs. These funds supported the State-funded Transitional Sheltering Assistance (TSA) program which housed families in hotels until they could identify a permanent housing solution. These funds also supported the State's Disaster Rental Assistance Program (DRAP). In total, \$9,000,000 was allocated for these programs and \$6,404,965.34 has been spent.

Through an agreement between the Department of Public Safety and the Office of State Budget and Management (OSBM), the following programs were developed and administered by OSBM (see page 63 for additional information):

1. **Housing Needs**, S.L. 2017-119, Subsection 1.1(a), where a total of 13 counties have entered into housing recovery grant contracts with the State. Of these, a total of 85 homeowners have been approved for assistance. Thirty (30) owners have completed their homes repairs or have had their homes reconstructed or have been bought out of flood prone areas. Seven home owner projects are over 80 percent complete and 48 owner projects are in process.

2. **Disaster Housing Recovery Support**, S.L. 2018-136, Subsection 6.1(24), where a total of \$13.7 million in grant awards have been committed or obligated to assist 7 severely impacted counties or communities with critical and pressing needs. These first phase grants are assisting Brunswick, Craven, Duplin, Jones, New Hanover, Onslow, Pender, Robeson and Scotland Counties, and the City of Lumberton, to address the most severe hardship cases involving low to moderate income, elderly and/or disabled homeowners who are living in unsafe, unsanitary housing that pose urgent safety or public health risk due to mold or potential structural failure. These grants can also be used for mitigation reconstruction and acquisition activities. A total of \$2.4 million in non-profit grant awards have been provided to Habitat for Humanity affiliates in eastern North Carolina to support emergency housing repairs, mitigation reconstruction and acquisition activities that will benefit displaced hurricane survivors and their families. The remaining funds are programmed to support housing recovery expenses associated with repairs, acquisitions and reconstruction of storm impacted homes.

This quarter, NCEM assumed responsibility for **Housing Needs**, S.L. 2018-5, Subsection 5.6(b)(5), where a total of \$17.4 million has been obligated to support the State Acquisition and Relocation Fund (SARF). Counties have entered into housing recovery grant contracts with the State, as authorized pursuant to NCGS 166A-19.3(17). These SARF program funds will assist 288 home owners with gap assistance payments to purchase homes that are outside of the flood plain. A grant award of \$1,500,000 has also been executed with the Fayetteville Area Habitat for Humanity to support the building of 15 new owner-occupied single family homes that will benefit hurricane displaced families. The remaining funds are programmed to support housing recovery expenses associated with repairs, acquisitions and reconstruction of storm impacted homes.

Programs to Support Communities and Local Government

Local governments and communities across North Carolina have also directly benefitted from allocations of state funds. One of these programs provides grants to assist **Volunteer Organizations Assisting with Disasters (VOAD)**, S.L. 2018-136, Subsection 6.1(29). A grant was awarded to six organizations in September 2019. Allocations for this program total \$2,000,000. All funds have been obligated. The max that could be awarded to any single VOAD is \$500,000.

Another way state funds are making a significant impact is through the **Distressed Local Governments Local Government Assistance Grant and Loan Programs**. For the grant program, S.L. 2018-136, Subsection 6.1(25), a total of 17 communities have received funds, ranging from \$200,000 to \$1,000,000. Allocations for the grant program total \$8,000,000 of which \$7,600,000 have been expended (\$2,000,000 of which occurred during the reporting period). For the State's Loan Program, S.L. 2018-138, Subsection 1.5(1), 11 communities have participated and received

requested loan amounts, ranging from \$24,909 to \$2,000,000. Allocations for this program total \$22,275,000 of which \$14,300,000 has been obligated (\$24,909 of which occurred during the reporting period). A total of \$1,547,678.71 in loan repayments have been received.

In addition to the above programs, the State allocated funds to support **Stanly County Airport Training Facility Broadband Infrastructure**, SL 2018-5, Subsection 5.6(b)(2)f, a project that was completed following Hurricane Matthew. Fiber and end termination equipment installation is complete and permits have been pulled and are posted to the construction site. Allocations for this program total \$100,000, all of which have been expended.

Programs to Support Preparedness and Response

After Hurricane Matthew, the State appropriated funds to support **Resilient Redevelopment Planning**, S.L. 2016-124, Subsection 4.1(3). Allocations for this program total \$11,500,000, all of which have been expended for creation of resilient redevelopment plans for the 50 federally declared counties impacted by Hurricane Matthew. The primary goals were to: 1) develop strategic plans and actions; and, 2) define any unmet funding needs required to implement those actions after other funds are used. The resulting resilient redevelopment plans serve as the foundation for any supplemental funding received through Congress, the North Carolina General Assembly and other funding sources. These plans also provide the basis for the state's Recovery Action Plan required by the U.S. Department of Housing and Urban Development in order to spend funds allocated through the Community Development Block Grant – Disaster Relief (CDBG-DR) program.

Throughout the State's hurricane recovery, North Carolina's 2-1-1 referral service has connected survivors to available resources and have served as a partner in response and long-term recovery. The state allocated \$250,000 to support **2-1-1 Activities**, S.L. 2018-5, Subsection 5.6(b)(2)b, all of which were expended. At the end of this quarter, NC 2-1-1 had not received state funding since the end of the fiscal year, June 30, 2019.

After Hurricane Matthew, NCEM leadership identified a need to enhance the State's capacity to prepare, mitigate and respond to flood hazards and threats. The State allocated funds to further support **Flood Warning Systems, Inundation Zones and Dam Impact Assessments**, S.L. 2018-5, Subsection 5.6(b)(2)c. Through this project, NCEM was able to install new radar and ultrasonic water level sensors; develop flood inundation mapping libraries and building-level risk assessments; and perform dam breach analyses and building and roadway risk assessments for intermediate and high hazard dams to improve situational awareness for first responders and emergency managers during flood related weather events. All gauge data and flood inundation mapping libraries will be made available to the public through the North Carolina Flood Inundation

Mapping and Alert Network (FIMAN) application (<https://fiman.nc.gov/>). Dam failure inundation boundaries and building and roadway risk assessment data will be available to first responders through the secure State Emergency Response Application (SERA - <https://sera.nc.gov/sera/>). Allocations for this program total \$2,835,224, all of which have been expended. To date, the following activities have been completed:

1. Installed 25 new radar water level gauges.
2. Completed building level flood risk assessment for flood inundation libraries for the FIMAN application for 25 radar water level gauges.
3. Completed building level flood risk assessment for flood inundation libraries for the FIMAN application for 30 existing FIMAN water level gauges.
4. Completed building level flood risk assessment based on extended flood inundation libraries for the FIMAN application for 20 existing FIMAN water level gauges.
5. Completed dam breach analyses for 76 dams and dam and building level risk assessment for 154 dams.

State funds also supported the **NC Search and Rescue Program**, S.L. 2018-5, Subsection 5.6(b)(2)d, allocating a total of \$2,300,000 of which \$1,951,011.35 has been expended. With these funds, the North Carolina Search and Rescue Program sustained the North Carolina Search and Rescue teams, trained specialized personnel, maintained specialized equipment, and exercised and maintained capabilities necessary to respond to the needs of North Carolinians.

Since April 2019, 26 State Deployable Water Rescue teams have been issued inflatable rescue boats, motors and dry suits. We were able to outfit seven regional search and rescue task forces with wireless communications equipment, eight advanced night vision equipment units, and two all-terrain forklifts with trailers. NCEM completed the Structures Specialist purchase outfitting all 15 disaster engineers with up to date personal protective equipment and the necessary personal equipment to prepare them for local and state response. In addition two caches of engineering tools were created to support responders during a structure collapse. The funding period closed June 30, 2019 and the remaining encumbrances are for the trailer registrations that have been received, however, payment has not cleared NCAS to date.

Programs to Support Recovery Administration

Other state allocations have been made to support administration of recovery programs. These include funds to cover operating costs for the **Office of Recovery and Resiliency**, S.L. 2018-136, Subsection 6.1(27). Allocations for this program total \$2,000,000 of which \$505,603.32 have been expended. These expenses are being reallocated to more appropriate sources such as the CDBG-DR Matthew grant, leaving zero (\$0) expenses toward this appropriation.

State funds have also been used to provide the **State Match and Other Support for Disaster**

Recovery, S.L. 2018-134, Subsection 4.1(2), where through June 30, 2019 the entire \$50,000,000 has been expended. In addition, state funds have been used for **State Match for Federal Assistance Programs**, S.L. 2018-136, Subsection 6.1(3). A total of \$40,000,000 for Florence matching funds was appropriated. Through June 30, 2019, \$4,306,597.29 has been expended.

Department of Agriculture and Consumer Services

1. NCFS Wildfire Response

S.L. 2016-124; Subsection 4.1(10)(a)

Allocates \$23M of the \$25.5M to the North Carolina Forest Service from the Disaster Recovery Act of 2016 for wildfire response. Wildfires in the western part of the State burned tens of thousands of acres and destroyed hundreds of structures. Starting just weeks after Hurricane Matthew on October 23, 2016, and continuing throughout November, 26 major and dozens of smaller fires impacted air quality across the State. More than 62,000 total acres burned in NC including more than 25,000 acres on land protected by the State. More than 2,400 emergency responders responded to the wildfires and related events. Firefighters from 40 states joined NC to assist in firefighting efforts.

Responsible Department and Agency

North Carolina Department of Agriculture & Consumer Services; NC Forest Service

Funding Allocation Update

Appropriated	\$23 million
Expended	\$17,461,177.93
Obligated	\$5,538,822.07
Unobligated Balance	\$0.00

Summary of Activities

- a. 26 Major Fires
- b. More than 62,000 total acres burned
- c. Over 2,400 emergency personnel responded
- d. Value of homes protected exceeded \$383 million

Recent Activities for Current Reporting Period (July - September 2019)

Invoices from State and local government continue to be received and processed. In August and September, \$150,621.41 was paid to NCDPS and Polk County for their fire suppression support. Meetings have been held with the US Forest Service to finalize invoicing of costs

owed. Expected cost owed US Forest Service is \$3,258,818.93 and an additional \$23,731.43 is owed to NC Department of Public Safety.

NCFS applied for and received Fire Management Assistance Grants (FMAG) from FEMA for the Party Rock Fire and Chestnut Knob Fires; these grants will reimburse some of the costs of those fires; to date \$9,077,583.95 in FEMA FMAG funds have been received. The Chestnut Knob FMAG has been closed out and the Party Rock FMAG is expected to be closed out in the next quarter.

2. Timber Restoration

S.L. 2016-124; Subsection 4.1 (10)(a)

Allocates \$1M of the \$25.5M to the North Carolina Forest Service for disaster-related timber restoration.

Responsible Department and Agency

North Carolina Department of Agriculture & Consumer Services; NC Forest Service

Funding Allocation Update

Appropriated	\$1 million
Expended	\$713,246
Obligated	\$286,754
Unobligated Balance	\$0.00

Summary of Activities

- a. 330 timber restoration projects, with 479 practices, on 18,121 acres.

Recent Activities for Current Reporting Period (April – June 2019)

Timber Restoration Fund (TRF) cost-share reimbursement program was created when NC Forest Service was awarded \$1M from the Disaster Recovery Act of 2016. TRF funded 363 statewide projects with 581 practices, on 26,004 acres. TRF funding began January 23, 2017 and was fully funded by February 17, 2017.

As of November 1, 2018, TRF reimbursed 330 projects, with 479 practices, on 18,121 acres, for \$713,246. \$286,754 remains available for additional funding to landowners for reforestation services.

3. Claridge Nursery Operations and Non-Capital Repairs

S.L. 2016-124; Subsection 4.1 (10)(a)

Allocates \$1.5M of the \$25.5M to the North Carolina Forest Service for repairs and operational expenses at Claridge Nursery in Wayne County.

Responsible Department and Agency

North Carolina Department of Agriculture & Consumer Services; NC Forest Service

Funding Allocation Update

Appropriated	\$1.5 million
Expended	\$156,920.68
Obligated	\$0.00
Unobligated Balance	\$1,343,079.32

Summary of Activities

- a. FEMA Grant request submitted
- b. Nursery has been able to use cash reserves to cover majority of operating expenses
- c. Designer hired to develop repair and renovation plan for damaged building
- d. Bids have been requested for repair work

Recent Activities for Current Reporting Period (July - September 2019)

Bids received and accepted, and subsequent contracts signed to repair damaged roofs, windows and doors on five different structures. The structures currently under repair are the Packing Shelter Warehouse, the Fertilizer Storage and Carpenter Shop, Seedling Cooler Building C-D, the Boiler House and the Dry Extractory Building. It is expected that all repairs will be completed within 6 months or less.

The NCFS Claridge Nursery has been able to use cash reserves to cover most operating expenses, however in June, \$3,635.68 was expended to cover an end of fiscal year short fall.

4. AgWRAP Farm Pond and Dam Repair with PEs

S.L. 2016-124; Subsection 4.1 (10)(b)

Allocates \$1.7M of the \$12.2M to the Division of Soil and Water Conservation for supplemental funding of the Agricultural Water Resources Assistance Program (AgWRAP) to support disaster-related farm pond and dam repairs.

Responsible Department and Agency

North Carolina Department of Agriculture & Consumer Services; Division of Soil & Water Conservation

Funding Allocation Update

Appropriated	\$1.7 million
Expended	\$837,303.68
Obligated	\$377,763.81
Unobligated Balance	\$484,932.51

Summary of Activities

- a. The 2016 funds allocated for AgWRAP Farm Pond and Dam Repair are being used primarily to cover the turnkey engineering evaluations, designs, bidding, and construction oversight aspects of pond repair projects. Construction cost share contracts with individual producers are being funded primarily out of the 2017 funds. Construction funds are not obligated until the final design is completed and approved by the landowner. This is the very last step in a complex process that also requires the farmer to send a check for their contribution to the Division.

- b. The table below reports the current status of engineering progress:

Engineering Activity	# Authorized	# Complete	Notes
Engineering Assessment	54	50	4 withdrawn by applicant
Engineering Design	19	8	2 withdrawn by applicant
Bidding & Site Showing	6	6	
Construction Oversight	4	1	1 under construction, 2 authorized to begin construction

- c. Referred projects to the USDA Farm Service Agency (FSA) to determine the amount of Federal funding available for these projects. FSA approved Federal funding in the amount of \$2,192,348 for 22 ponds. Eleven of the 22 have been withdrawn by the applicant.
- d. Completed three pond repair projects, two in Duplin County and one in Franklin County.

Recent Activities for Current Reporting Period (July - September 2019)

Most activity this quarter has been dedicated to engineering design work and completing required forms for pond repair projects to move forward. Please note that the coordination of the Division's State Disaster Program with the federal ECP is a very complex process due to the needed coordination and communication between the Division, the local Soil and Water Conservation Districts, local and state Farm Services Agency offices, applicants and approved third-party technical service providers.

5. Non-field Farm Road Repairs

S.L. 2016-124; Subsection 4.1 (10)(b)

Allocates \$1M of the \$12.2M to the Division of Soil and Water Conservation for non-field farm road repairs.

Responsible Department and Agency

North Carolina Department of Agriculture & Consumer Services; Division of Soil & Water Conservation

Funding Allocation Update

Appropriated	\$1.0 million
Expended	\$62,147
Obligated	\$479,661 *
Unobligated Balance	\$458,192 *

Summary of Activities

- a. Soil and Water Conservation Districts, with assistance from the Division of Soil and Water Conservation and the Natural Resources Conservation Service, are conducting site visits, working on cost share contracts with the cooperators, and providing technical assistance.
- b. Districts developed 105 contracts to repair 102 roads in 14 counties. 100 contracts have been installed and completed.

Recent Activities for Current Reporting Period (July - September 2019)

Soil and Water Conservation Districts, with assistance from the Division of Soil and Water Conservation and the Natural Resources Conservation Service, continue to complete site visits, work on cost share contracts, and provide technical assistance for road repair projects. This quarter, no contracts were installed.

** The obligated and unobligated balance for non-field farm road repairs has been reallocated to stream debris removal as of the July 2019 meeting of the NC Soil and Water Conservation Commission*

6. Stream Debris Removal

S.L. 2016-124; Subsection 4.1 (10)(b)

Allocates \$9.5M of the \$12.2M to the Division of Soil and Water Conservation for stream debris removal.

Responsible Department and Agency

North Carolina Department of Agriculture & Consumer Services; Division of Soil & Water Conservation

Funding Allocation Update

Appropriated	\$9.5 million
Expended	\$7,956,470.79
Obligated	\$1,543,529.21
Unobligated Balance	\$0

Summary of Activities

- a. The Department has 40 fully executed contracts with local sponsors including cities, counties, soil and water conservation districts, and organizations.
 - a. 25 of these agreements have funds from both 2016 and 2017 appropriations
- b. Local sponsors have cleared 1,351 miles of waterways with funding from both 2016 and 2017.
- c. 8 contracts have been completed.

Recent Activities for Current Reporting Period (July - September 2019)

The Stream Debris Removal practice addresses blocked streams with applications prioritized in the following order: woody vegetation removal, instream sediment removal, streambank stabilization (vegetative cover) with or without sediment removal, and streambank stabilization (vegetative cover) with culvert replacement. The application for this practice requires a local sponsor. Stream Debris Removal 2016 program has made 13 payments affecting 143.04 miles of debris removal for this quarter. Contracts continue to be amended to allocate funds to additional waterways that need to be addressed. Quarterly reports from local sponsors were received for the second quarter of this year. Contracts will continue to be amended and evaluated for possible extensions and modifications.

7. Cherry Research Farm Dike Repair

S.L. 2016-124; Subsection 4.1 (10)(c)

\$250k of the \$37,950,000 to the Research Stations Division for dike repairs at the Cherry Research Farm in Wayne County.

Responsible Department and Agency

Department of Agriculture and Consumer Services; Research Stations Division

Funding Allocation Update

Appropriated	\$250,000
Expended	\$20,817.05
Obligated	\$229,182.95
Unobligated Balance	\$0

Summary of Activities

- a. GeoTechnical investigations of the areas underneath and adjacent to the affected areas are complete.
- b. Design of repairs to the Dike are 90% complete.
- c. Appropriate notifications of intended repairs to the US Army Corp of Engineers and Wayne County Planning Office are being developed.

Recent Activities for Current Reporting Period (July - September 2019)

Activity during the current period includes the designer continuing to work with Corps of Engineers to complete necessary permitting in order to proceed with repairs to the berm. The proposed repairs will be evaluated by the Property and Construction team when fully developed.

8. AgWRAP Farm Pond and Dam Repair with PEs

S.L. 2017-119; Subsection 1.3

Allocates \$6.5M of the \$20M to the Division of Soil and Water Conservation for supplemental funding of the Agricultural Water Resources Assistance Program (AgWRAP) to support disaster-related farm pond and dam repairs.

Responsible Department and Agency

North Carolina Department of Agriculture & Consumer Services; Division of Soil & Water Conservation

Funding Allocation Update

Appropriated	\$6.5 million
Expended	\$39,975
Obligated	\$3
Unobligated Balance	\$6,460,022

Summary of Activities

- a. The 2016 funds allocated for AgWRAP Farm Pond and Dam Repair are being used primarily to cover the turnkey engineering evaluations, designs, bidding, and construction oversight aspects of pond repair projects. Construction cost share contracts with individual producers are being funded primarily out of the 2017 funds. Construction funds are not obligated until the final design is completed and approved by the landowner. This is the very last step in a complex process that also requires the farmer to send a check for their contribution to the Division.
- b. Completed five pond repair projects in Johnston, Lee, Lenoir and Sampson Counties.
- c. Contracted two pond repair projects in Johnston, and Nash Counties.

Recent Activities for Current Reporting Period (July – September 2019)

- a. One repair project was completed in Lee County.
- b. One repair is nearing completion in Johnston County.
- c. One repair is fully contracted and approved to begin construction in Nash County.
- d. Two repair contracts are awaiting final signatures and producer contribution (Duplin and Harnett Counties).

9. Non-field Farm Road Repairs

S.L. 2017-119; Subsection 1.3

Allocates \$1M of the \$20M to the Division of Soil and Water Conservation for non-field farm road repairs.

Responsible Department and Agency

North Carolina Department of Agriculture & Consumer Services; Division of Soil & Water Conservation

Funding Allocation Update

Appropriated	\$1.0 million
Expended	\$373,242
Obligated	\$626,758
Unobligated Balance	\$0

Summary of Activities

- a. Soil and Water Conservation Districts, with assistance from the Division of Soil and Water Conservation and the Natural Resources Conservation Service, are conducting site visits, working on cost share contracts with the cooperators, and providing technical assistance.
- b. Districts developed 143 contracts to repair roads in 15 counties. 111 contracts have been installed and completed.

Recent Activities for Current Reporting Period (July - September 2019)

Soil and Water Conservation Districts, with assistance from the Division of Soil and Water Conservation and the Natural Resources Conservation Service, continue to complete site visits, work on cost share contracts, and provide technical assistance for road repair projects. This quarter, five contracts for seven road repairs were installed in Bertie, Jones, Johnston, and Lee Counties.

10. Stream Debris Removal

S.L. 2017-119; Subsection 1.3

Allocates \$11.5M of the \$20M to the Division of Soil and Water Conservation for stream debris removal.

Responsible Department and Agency

North Carolina Department of Agriculture & Consumer Services; Division of Soil & Water Conservation

Funding Allocation Update

Appropriated	\$11.5 million
Expended	\$4,027,111.58
Obligated	\$7,472,111.58
Unobligated Balance	\$0

Summary of Activities

- a. The Department has 41 fully executed contracts to local sponsors including cities, counties, soil and water conservation districts and organizations
 - a. 25 of these agreements have funds from both 2016 and 2017 appropriations
- b. Local sponsors have cleared 1,351 miles of waterways with funding from both 2016 and 2017.
- c. 2 contracts have been completed.

Recent Activities for Current Reporting Period (July - September 2019)

The Stream Debris Removal practice addresses blocked streams with applications prioritized in the following order: woody vegetation removal, instream sediment removal, streambank stabilization (vegetative cover) with or without sediment removal, and streambank stabilization (vegetative cover) with culvert replacement. The application for this practice requires a local sponsor. Stream Debris Removal 2017 program has made 24 payments affecting 229 miles of debris removal for this quarter. Contracts continue to be amended to allocate funds to additional waterways that need to be addressed. Quarterly reports from local sponsors were received for the second quarter of this year. Contracts will continue to be amended and evaluated for modifications.

11. Drought Pasture Renovation

S.L. 2017-119; Subsection 1.3

Allocates \$1M of the \$20M to the Division of Soil and Water Conservation to be used for drought relief in the 20 counties in western North Carolina that have been declared a federal disaster by the Secretary of the United States Department of Agriculture due to the prolonged drought.

Responsible Department and Agency

North Carolina Department of Agriculture & Consumer Services; Division of Soil & Water Conservation

Funding Allocation Update

Appropriated	\$1 million
Expended	\$681,870
Obligated	\$318,130
Unobligated Balance	\$0

Summary of Activities

- a. Soil and Water Conservation Districts have developed 260 contracts for Drought Pasture Renovation over 4,595 acres in 15 counties.
- b. 194 contracts have been completed, restoring 3,331 acres of pasture.
- c. Additional contracts will be installed in the fall planting season.

Recent Activities for Current Reporting Period (July - September 2019)

This quarter, 14 contracts were installed over 345 acres in five counties.

12. Forest Service Emergency Response Equipment

S.L. 2018-5; Subsection 5.6 (b)(2)(e)

Provides \$700,000 from the State Emergency Response/Disaster Relief Reserve to purchase emergency response equipment, including fire dozers, truck tractors, and trailers.

Responsible Department and Agency

North Carolina Department of Agriculture & Consumer Services; NC Forest Service

Funding Allocation Update

Appropriated	\$700,000
Expended	\$700,000
Obligated	\$0
Unobligated Balance	\$0

Summary of Activities

- a. Purchase of Fire Control Tractor for Bladen County
- b. Purchase of 35-ton trailer to transport fire control trailer in Bladen County
- c. Purchase of Fire Control Tractor for Harnett County

Recent Activities for Current Reporting Period (July - September 2019)

In the last quarter of this year both units have been used to suppress wildfire in their assigned work areas. Harnett County had 135 wildfires burning 338 acres and Bladen had 74 fires burning 190 acres in FY19. These tractors have replaced units that were 21 and 28 years old, both of which were open cab units. The replacement dozers are environmental cab units that help shield the operators from the dust, heat and smoke associated with wildfire suppression.

13. Agricultural Disaster Program

S.L. 2018-5; Subsection 5.6 (b)(2)(e)

\$240M allocated to the Department of Agriculture and Consumer Services, Hurricane Florence Agricultural Disaster Program of 2018, established in Section 5.11 of S.L. 2018-136. The program will provide financial assistance to farmers for disaster recovery affected by Hurricane Florence.

Responsible Department and Agency

North Carolina Department of Agriculture & Consumer Services

Funding Allocation Update

Appropriated	\$240 million
Expended	\$171,352,876.41
Obligated	\$0
Unobligated Balance	\$68,647,123.59

Summary of Activities

- a. 7,485 applications processed from 72 counties across NC
- b. \$171,325,243.66 paid out to affected farmers statewide as of June 30, 2019
- c. Four main types of applications: row crops, specialty crops, livestock and poultry, and aquaculture
- d. November 7, 2018 application submission opened
- e. June 20, 2019 second round of payments finished

Recent Activities for Current Reporting Period (July - September 2019)

By April 1st, 94% of the first-round payments were made to farmers and by April 22nd, 99% of the first-round payments had been completed. May 13th started the second round of payments and June 20th finished the second round of payments.

Of the total amount paid, 93% were FSA 578 crop applications, 6% were specialty crops, 1.0% were livestock and poultry and .06% were aquaculture. Soybeans, corn (for grain), tobacco (flue-cured) and grass had the greatest number of applications. Tobacco, soybeans, sweet potatoes and cotton had the largest total loss amounts. The four counties with the highest number of completed applications were Sampson, Robeson, Duplin and Johnston.

14. Agriculture Recovery for Farmers

S.L. 2018-136; Subsection 6.1 (23)

Allocates \$50M to the Department of Agriculture and Consumer Services to assist farmers with recovery activities such as hay relief, pasture renovation, non-field farm road repair, best management practices renovations, reforestation efforts and to provide federal matches as needed.

Responsible Department and Agency

North Carolina Department of Agriculture & Consumer Services; Division of Soil & Water Conservation

Funding Allocation Update

Appropriated	\$50 million
Expended	\$2,494,999.51
Obligated	\$5,131,852.61
Unobligated Balance	\$42,373,147.88

Summary of Activities

- e. Florence Reforestation Fund reimbursed 45 landowners
- f. 45 forestry practices on 1,481 acres
- g. The Soil and Water Conservation Commission approved eight eligible practices and allocations for soil and water conservation districts to contract with farmers and landowners to install best management practices to help address the damage that Hurricane Florence caused.
- h. Implemented 126 contracts of Disaster Lagoon Management Incentive properly applying 134 million gallons of lagoon liquid in 13 counties.
- i. Implemented 77 contracts of Disaster Winter Forage Crop Incentive replanting 4,957 acres of grass in 18 counties.
- j. Implemented 33 contracts of Disaster Pasture Renovation replanting 888 acres of pastureland in 23 counties. Additional acres will be planted this fall.
- k. Contracted four Agricultural Pond Repair/Retrofit and Emergency Agricultural Pond Repair/Retrofit practices in two counties to repair damaged ponds. Additional ponds are being evaluated for repair including cost estimates and engineered designs.
- l. Implemented 160 contracts of Non-Field Farm Road Repair and Emergency Access Restoration repairing agricultural roads in 17 counties. Additional road repairs are under design and construction.
- m. Developed design tools to expedite practice design and installation

- n. Improved program delivery by implementing process improvements to speed contracting, construction certification and payment.

Recent Activities for Current Reporting Period (July - September 2019)

Florence Reforestation Fund (FRF) cost-share reimbursement program was created when NC Forest Service was awarded \$2.5M from the Agriculture Recovery for Farmers Disaster Recovery Assistance. FRF funded 547 statewide projects with 1,162 practices, on 24,658 acres. \$358,811 in “plant only” projects were funded on 8,594 acres. \$2,117,339 was allocated toward projects requiring site preparation.

In the most recent quarter, FRF reimbursed 45 landowners \$60,499.99, for 45 forestry practices covering a collective 1,481 acres. \$646.80 in administrative charges were reimbursed for the creation of the program database used to record accomplishments.

The Soil and Water Conservation District made great strides installing BMPs utilizing this funding.

1. Implemented 25 contracts of Disaster Lagoon Management Incentive properly applying 19 million gallons of lagoon liquid in 3 counties.
2. Implemented 9 contracts of Disaster Winter Forage Crop Incentive replanting 289 acres of grass in 2 counties.
3. Implemented 13 contracts of Disaster Pasture Renovation replanting 252 acres of pastureland in 7 counties. Additional acres are under contracts and will be planted this fall.
4. Contracted two Agricultural Pond Repair/Retrofit and Emergency Agricultural Pond Repair/Retrofit practices in two counties to repair damaged ponds. Additional ponds are being evaluated for repair including cost estimates and engineered designs.
5. Implemented 78 contracts of Non-Field Farm Road Repair and Emergency Access Restoration repairing agricultural roads in 11 counties. Additional road repairs are under design and construction.

The North Carolina Department of Agriculture and Consumer Services, Division of Soil and Water Conservation worked to improve program delivery and technical assistance this quarter. Division engineering staff developed the following design tools: embankment spillway breach assessment, non-field farm road assessment, and farm road culvert design sheet. Division staff also focused on improving program process by providing teleconferences and documents to guide local staff through the resource assessment, design, contracting and payment process. An example of a process improvement based on implementation experience for pond repairs includes the new Preliminary Engineering Report and cost estimate, Cooperator Acknowledgment Form and Operation and Maintenance Plan. Division staff has conducted

several group trainings reviewing the design tools and new process in workshops, one-on-one training and through teleconference/webinars.

15.State Match for Federal Farmer Assistance Program

S.L. 2018-136; Subsection 6.1 (5)

Allocates \$20M to the Department of Agriculture and Consumer Services to provide the State match for federal farmer assistance programs.

Responsible Department and Agency

North Carolina Department of Agriculture & Consumer Services; Emergency Programs

Funding Allocation Update

Appropriated	\$20 million
Expended	\$12,902,312
Obligated	\$0
Unobligated Balance	\$7,097,688

Summary of Activities

- a. Composted 4.1 million poultry, preventing public health issues associated with improper carcass disposal during a mass mortality event.
- b. Through the efforts of AgEOC livestock teams, prevented stranded, isolated or loose animals from dying by delivering feed and fencing supplies.
- c. Managed and assisted efforts to prevent companion animal deaths at flooded animal shelters.
- d. Protected public health and consumer safety by inspecting retail outlets for contaminated or otherwise spoiled products unfit for human consumption, primarily due to contact with flood waters.
- e. Inspected crop damages caused by hurricane flooding and assisted affected farmers.

Recent Activities for Current Reporting Period (July - September 2019)

No response or recovery activity for this period.

Department of Commerce

1. Grants to Repair, Replace and Build New Infrastructure

S.L. 2016-124 Section 4.1 (8)

Grants to local governments to assist with the repair or replacement of public infrastructure or for new infrastructure to support new residential structures in areas outside the 100-year floodplain. Infrastructure includes water, sewer, sidewalks, storm drainage, public buildings and other similar projects to provide assistance for Hurricane Matthew, the western wildfires, and Tropical Storms Julia and Hermine.

Responsible Department and Agency

Department of Commerce, Rural Economic Development Division.

Funding Allocation

Appropriated	\$10,000,000
Expended	\$4,785,784
Obligated	\$4,889,064
Expended to OSBM	\$325,152
Unobligated Balance	0

Summary of Activities

- a. Awarded 16 grants totaling \$9,674,0848
- b. Paid \$325,152 to OSBM for reporting requirements
- c. Grantees may draw down funds based upon project progress.
- d. \$4,785,784 has been paid to grantees
- e. Five grantees have drawn down all funds and the grants are closed out.

Recent Activities for Current Reporting Period (July – September 2019)

Commerce issued payments totaling \$208,125 toward grantee payment requests during the quarter. Grantees have reported that 60,321 residential and 1,642 non-residential units will benefit from infrastructure repairs/replacements.

Division of Environmental Quality

1. Coastal Beach and Dredging Needs Assessment

S.L. 2018-136, 6.1 (18)

\$2,000,000 from the Hurricane Florence Disaster Recovery Fund used to compensate municipalities for post-storm beach and channel surveys, and to assess disposal areas for dredged material.

Responsible Department and Agency

Department of Environmental Quality, Division of Water Resources

Funding Allocation

Appropriated	\$2,000,000
Expended	\$279,967
Obligated	\$71,838
Unobligated Balance	\$1,648,194

Note: NC DEQ has requested clarifying legislative changes in Senate Bill 433 to enable further expenditure regarding dredging assessments. As of September 30, 2019, this bill is awaiting further legislative action and has not yet completed the legislative process.

Summary of Activities

- Funds in the amount of \$351,806 have been earmarked for surveys completed to assess beach sand loss and shoaling in our inlets.
- Surveys completed allow for a better understanding of the coastal system and provide a prediction of future nourishment and channel dredging needs.
- Remaining funds in the amount of \$1,648,194 will be used to assess disposal areas for dredged material. DWR is examining the potential to partner with USACE through the Planning Assistance to States (PAS) program, in which USACE will provide a 50% match to complete a Dredge Material Management Plan (DMMP).
- A scope of work for the DMMP has been developed and is being reviewed.

Recent Activities for Current Reporting Period (July – September 2019)

Fully executed contracts were completed and reimbursement has been provided to:

Oak Island	\$63,549.00
Kill Devil Hills	\$12,047.54
Holden Beach	\$21,264.00

2. Coastal Storm Damage Mitigation

S.L. 2018-138, 1.3 (8)

\$18,500,000 Coastal Storm Damage Mitigation to provide no more than fifty percent (50%) of the nonfederal share for a federally funded eligible project, and no more than fifty percent (50%) of the total cost of an eligible project that is not federally funded. An "eligible project" is a project that mitigates or remediates coastal storm damage to the ocean beaches and dune systems of the State.

Responsible Department and Agency

Department of Environmental Quality, Division of Water Resources

Funding Allocation Update

Appropriated	\$18,500,000
Expended	\$0.00
Obligated	\$18,500,000
Unobligated Balance	\$0.00

Note: NC DEQ has requested clarifying legislative changes in Senate Bill 433 to enable further expenditure regarding coastal storm mitigation contracts. As of September 30, 2019, this bill is awaiting further legislative action and has not yet completed the legislative process.

Summary of Activities

- a. Division of Water Resources staff reviewed the coastal storm damage mitigation projects based on the following considerations: environmental benefits/mitigation measures, social benefits, economic benefits, expected useful life of project, financial resources, and project efficiency.
- b. Award letters stating that the municipality has been tentatively approved for CSDM projects, pending a successful execution of a grant contract, were provided.

Recent Activities for Current Reporting Period (July – September 2019)

Grant contracts are under development for Oak Island \$3,157,377.00 and Bogue Banks \$15,342,623.00

3. Commercial Fishing Assistance

S.L. 2018-136, 6.1 (19)

The Commercial Fishing Assistance program was designed to help make up for the losses to

the state's nearly billion-dollar commercial fishing industry due to the storm. Compensation was based on income losses from September, October and November harvest reductions due to Hurricane Florence, as documented by state harvest records.

Responsible Department and Agency

Department of Environmental Quality, Division of Marine Fisheries

Funding Allocation

Appropriated	\$1,600,000
Expended	\$1,600,000
Obligated	\$0.00
Unobligated Balance	\$0.00

Summary of Activities

- a. 1,782 award letters were mailed to eligible Commercial Fisherman for September landings
- b. 728 checks disbursed for September losses totaling \$3,563,531.30
- c. 1,829 letters were mailed to eligible Commercial Fisherman for October and November landings
- d. 1,041 checks disbursed for October and November losses totaling \$7,460,940.68
- e. Additionally, a final round of checks was sent 6/12/19 to 1,176 fishermen who participated in the program totaling \$450,000.
- f. This program resulted in a total of 2,946 individual checks to 1,176 fishermen totaling \$11,474,471.98. Additionally, \$61,991.28 was expended for administrative costs. This program was able to cover 85.4% of September losses, 91.76% of October losses, and 82.29% of November losses.

Recent Activities for Current Reporting Period (July – September 2019)

Not Applicable.

4. Commercial Fishing Assistance

S.L. 2018-138, 1.3 (5)

The Commercial Fishing Assistance program was designed to help make up for the losses to the state's nearly billion-dollar commercial fishing industry due to the storm. Compensation was based on income losses from September, October and November harvest reductions due to Hurricane Florence, as documented by state harvest records.

Responsible Department and Agency

Department of Environmental Quality, Division of Marine Fisheries

Funding Allocation

Appropriated	\$10,000,000
Expended	\$9,940,611
Obligated	\$59,389
Unobligated Balance	\$0.00

Summary of Activities

- a. 1,782 award letters were mailed to eligible Commercial Fisherman for September landings
- b. 728 checks disbursed for September losses totaling \$3,563,531.30
- c. 1,829 letters were mailed to eligible Commercial Fisherman for October and November landings
- d. 1,041 checks disbursed for October and November losses totaling \$7,460,940.68
- e. Additionally, a final round of checks was sent 6/12/19 to 1,176 fishermen who participated in the program totaling \$450,000.
- f. This program resulted in a total of 2,946 individual checks to 1,176 fishermen totaling \$11,474,471.98. Additionally, \$61,991.28 was expended for administrative costs. This program was able to cover 85.4% of September losses, 91.76% of October losses, and 82.29% of November losses.

Recent Activities for Current Reporting Period (July – September 2019)

Not Applicable.

5. Emergency Watershed Protection Program Match

S.L. 2018-138, 1.3 (6)

The Division of Coastal Management (DCM) has requested federal assistance under the Emergency Watershed Protection program to restore damages caused by Hurricane Florence. The focus of the request is on the removal of abandoned vessels, destroyed docks, decks, bulkheads and other shoreline structures that resulted in widespread marine debris in coastal waterways and on public trust properties.

Responsible Department and Agency

Department of Environmental Quality, Division of Coastal Management

Funding Allocation

Appropriated	\$250,000
Expended	\$0.00
Obligated	\$0.00
Unobligated Balance	\$250,000

Summary of Activities

- a. DCM assisted Natural Resources Conservation Service (NCRS) staff with the identification of state lands and hot spots where marine debris, including vessels, accumulated.
- b. Establishing a prioritization for removal efforts.
- c. NCRS has awarded \$718,464 to DCM in support of this program. The initial \$400,000 state match for this effort has been identified as funds received by the NC Division of Marine Fisheries to support marine debris removal in partnership with the NC Coastal Federation.

Recent Activities for Current Reporting Period (July 2019 – September 2019)

There will be no expenditures or updates until the federal award is received.

6. Grants for Environmental Infrastructure

S.L. 2016-124, 4.1 (9)

Funds allocated to the Department of Environmental Quality for disaster-related infrastructure and cleanup needs, including but not limited to, repair of wastewater and drinking systems, dam safety, emergency permitting, and solid waste cleanup. The Department has allocated a portion of funds to assist local governments in mitigation of the failure of burial sites and to take other steps necessary to protect public health. The Department continues to capture data to address risk, along with assisting local governments in developing resilient utilities and infrastructure.

Responsible Department and Agency

Department of Environmental Quality, Division of Water Infrastructure, Water Resources, Division of Waste Management, and the Division of Energy, Mineral and Land Resources

Funding Allocation

Appropriated	\$10,000,000
Expended	\$4,937,935
Obligated	\$5,062,065

Unobligated Balance \$0.00

Summary of Activities

- a. Performed two emergency dam breaches on Woodlake (Moore County) and Gables (Cumberland County) Lake dams
- b. Digitized all dam files in the impacted counties for creation of electronic files
- c. Pump station improvements for Neuse Regional Water and Sewer Authority and the Town of Enfield
- d. Elizabeth City Sewer Replacement project executed and completed
- e. Division of Water Infrastructure has partnered with the Town of Fair Bluff to move the drinking water well out of the flood plain and make pump station flood resiliency improvements to increase Fair Bluff viability
- f. Division of Waste Management has completed 94% of the approved sites for Underground Storage Tank cleanup
- g. Completion of the mitigation project at the Salvo Day Use Area Cemetery in Dare County

Recent Activities for Current Reporting Period (July – September 2019)

41 dam H&H studies' surveying and modeling are complete along with all surveying, modeling and 30 of 41 final reports. 125 dams were assigned to external engineering contractors, and resubmittals are estimated for completion by all contractors by December 2019. The US Army Corps of Engineers has completed 15 dam studies. The remaining dam studies and the conduction of QA/QC review is currently being completed by DEQ Dam Safety Staff and estimated for completion by January 2020.

7. Landslide Mapping

S.L. 2018-5, 5.6 (b)(2)(a)

The landslide hazard mapping project will develop landslide hazard maps for landslide prone areas of western counties. The maps and supporting landslide geodatabase will be GIS-based and made available to the public on a web map viewer. The maps will show:

- a. Where landslides of all types are happening, or have happened in the past. This map layer will show where the landslides started, the areas affected, and deposits from past landslide events. Landslides usually occur where they have happened in the past.
- b. Where landslides-like debris flows are likely to start. Debris flows are the most damaging type of landslide in Western North Carolina and have resulted in the most fatalities and destroyed homes.
- c. Where landslides-like debris flows will go if they start. Debris flows start on a steep slope but can travel great distances down to the valleys.

Responsible Department and Agency

Department of Environmental Quality, Division of Energy, Mineral, Land and Resources

Funding Allocation

Appropriated	\$3,600,000
Expended	\$56,618
Obligated	\$300,000
Unobligated Balance	\$3,243,382

Summary of Activities

- a. In-house work by two new positions in the NC Geological Survey and executed contracts for geologic mapping of landslides and geospatial technology support.
- b. Ongoing cooperative research on landslides and landslide monitoring with other agencies, like the U.S. Geological Survey and the U.S.D.A.-Forest Service, will continue to augment the program.
- c. Cooperative, grant-funded landslide mapping and research with universities is underway with Western Carolina University, North Carolina State University, the UNC-Chapel Hill Institute for the Environment (wildfires and landslides), and Kent State University. This mapping and research is in the landslide prone areas of Polk, Rutherford, and the North Cove area of McDowell-Burke-Avery Counties.
- d. Cooperative efforts on relationships between rainfall and landslides continues with the National Weather Service, UNC-Asheville, and Duke University.
- e. Reviewed Draft thesis proposal: Lithological and Structural Controls on Slope Movements in the North Cove area, North Carolina that includes GIS-based landslide and landslide deposit map inventory. Analyzed Bedrock Structural Geology and Colluvial Hollow Hydrogeology related to landslide occurrence and risk in the Hickory Nut Gorge region. Conducted field work, updated landslides maps, and new landslides identified on Chimney Rock.
- f. Conducted field investigation, sampling and testing at Wayah Bald (Camp Branch Fire) and QL2 LiDAR acquisition is underway through NCPDS for Rutherford, McDowell, Henderson, Macon, Buncombe, and Haywood counties. UNC-Asheville NEMAC (National Environmental and Modeling and Analysis Center) contract executed for geospatial data support, including development of a web-based landslide map viewer. NCGS is reviewing a prototype web map viewer of the landslide geodatabase and landslide story maps.

Recent Activities for Current Reporting Period (July – September 2019)

Request for Qualifications (RFQ) bid for landslide mapping closed on August 15th, interviews have been completed, and contract negotiations are in progress.

8. Program Name: Marine Debris Cleanup

S.L. 2018-136, 6.1 (20)

The North Carolina General Assembly appropriated \$400,000 to remove marine debris from North Carolina coastal waters and public trust properties. The funds are to be used by the North Carolina Coastal Federation to contract with third parties to collect, transport and properly dispose of the debris.

Responsible Department and Agency

Department of Environmental Quality, Division of Marine Fisheries

Funding Allocation

Appropriated	\$400,000
Expended	\$400,000
Obligated	\$0.00
Unobligated Balance	\$0.00

Summary of Activities

- a. Documenting the types and locations of marine debris that needs to be collected; Securing additional federal and state funds to increase collection efforts; Logistical discussions regarding how to use third party contractors for the identification, collection, transport, disposal and tracking of marine debris; and Identification of third-party contractors and their capabilities in order to determine how best to secure their services for the project.
- b. Marine Debris Site Inventory: Federation staff worked with community partners including local, state and federal government representatives, Hammocks Beach State Park, local boat captains and state agencies to conduct a preliminary site assessment of the locations of concentrations of marine debris in public trust areas of the coast impacted by Hurricane Florence.

Federation staff and volunteers surveyed estuarine islands by boat and through marsh walks to locate and photograph marine debris that needs to be collected. Boat surveys in Bogue Sound, Bogue Inlet, White Oak River, Bear Creek, and Hammocks Beach State Park were conducted in December and January. One of these surveys included three potential contractors that identified substantial amounts of marine debris including

treated lumber, abandoned and derelict vessels, remnants of docks, piers and pilings and multiple other storm debris.

With additional financial assistance from the Natural Resources Conservation Service, a more formal Damage Assessment Survey is still being completed that covers a geographic area from Hyde County to Wilmington. This survey will help to focus the use of additional federal and state funds as well as the current cleanup.

- c. **Leveraging State Funds for Additional Federal Funding:** The federation is working with the N.C. Division of Coastal Management to secure up to \$1 million in additional federal funding from the Emergency Watershed Program run by the Natural Resources Conservation Service (NRCS) to expand the marine debris removal efforts described in this document. This additional federal funding will be matched with a portion of the funding from this project as well as an additional \$250,000 appropriated by the N.C. General Assembly to the Division. If approved by NRCS, this additional funding will allow the federation and Division to include much of the entire coast of N.C. in their clean-up efforts and to remove many abandoned vessels. The request for this additional federal funding has received preliminary approval from NRCS.
- d. **Clean-up:** The federation has executed contracts with third party contractors to collect marine debris. The clean-up process consists of three phases. Phase I is the collection of smaller debris that consists of plastic bottles, Styrofoam pieces, aluminum cans, food containers and an assortment of consumer and household debris. Phase II clean-up efforts focus on the heavier wooden debris such as dock, pilings, decking and pressure treated wood that requires heavy equipment for removal. Phase III will focus on abandoned and derelict vessels.
- e. In the Coastal Federation's central region, contractors removed smaller and lighter debris items that mechanical equipment can't remove using hand labor, bagging and removing to landfills in rented dumpsters. This work crew started February 11th and finished April 12th and mainly focused on publicly owned dredge spoil islands. The crew collected 12.6 tons (25,100 pounds) of marine debris. The crew also removed debris from the 1.3-mile shoreline of Huggins Island, which is part of Hammocks Beach State Park.
- f. A local marine contractor used barges, dumpsters, excavator and other equipment to pick up and remove the larger and much heavier marine debris, focusing on navigational hazards in waterways, chemically-treated wood debris on publicly-owned islands and shorelines, and several abandoned boats. This phase of the clean-up began April 15th and finished June 13th. The crew removed 112.7 tons (225,360 pounds) of wooden dock debris, pilings, railings, benches, and 3 abandoned vessels. The crew consisted of an excavator operator, barge operator, and 4-9 person ground crew

depending on site. The crew covered 21 miles along the Atlantic Intracoastal Waterway from marker 34-55 including Huggin's Island, which is part of Hammocks Beach State Park.

Recent Activities for Current Reporting Period (July – September 2019)

Phase I

In the Coastal Federation's South East region, a 4-person crew started April 30. The crew began in the lower New River and are currently working in Stump Sound. The crew has covered 22 miles of shoreline including islands, embayments and creeks. They completed a preliminary clean-up of the shoreline (3 miles) of the Permuda Island Coastal Reserve. The majority of the clean-up occurred in Onslow County, with some occurring in Pender County, collecting 75 tons of debris. The following entities contributed a significant amount of in-kind support for the project:

- Swan Point Marina in Sneads Ferry donated the use of their property to host dumpsters and helped to load some of the larger debris with their tractor.
- Onslow County Solid Waste Services donated the hauling and use of two dumpsters for over 10 weeks, which saved the project several thousand dollars.
- The Town of Holly Ridge donated staff time and equipment to help load some of the larger debris into the dumpsters at Morris Landing.
- The NCWRC provided a Special Use Permit to stage dumpsters at the Hwy 210 boat access in North Topsail

Phase II

The federation has also been working with volunteers to educate about the project and involve them in the clean-up process. Since early February, the federation has organized six volunteer groups to remove 3,855 pounds of debris. Volunteers worked for approximately 2 hours at each site.

In addition to the work detailed in the previous quarter's report, this quarter on September 17, 10 volunteers helped to clean-up Rachel Carson Reserve. The team picked up 170lbs of handheld debris, and stock piled wooden debris for the Reserve to pick up at a later date. The total amount of marine debris removed as of October 15 by both the work crew and volunteers is 200.3 tons.

Observations from Field Crews

A component of the hurricane marine debris recovery project is to gather information and observations from the field to support the development of recommendations for reduction of debris from future storms. Below are some of the initial observations from the members of the field crews:

- Encountered a very significant amount of debris, hidden in marsh, most from Florence, but there also several debris layers from past storms
- High number of lost, heavily damaged and abandoned crab pots in the marsh
- Marine construction treated wood “cut-offs” (old/new) from waterfront (pier, docks, bulkheads, etc...) pervasive and significant issue
- Floating dock and house siding Styrofoam pervasive and difficult to recover

Future Planned Activities

Upon final approval of the NRCS federal funding, the Federation and Division of Coastal Management will begin Phase III contracting process to remove vessels and other marine debris that has been found in the public trust areas and waters between Hyde County and Brunswick County. Project and clean-up activities for the NOAA Marine Debris recovery project are in mobilization mode, and will be in operational mode in November.

Publicity for Project

This project has been featured by media sources, including local, regional and state media outlets which include the following stories:

Department of Health and Human Services

1. Behavioral Health Services

S.L. 2018-136 Subsection 5.4 (b)

The intended purpose of the Behavioral Health Services Program was to support individuals and families experiencing distress as a result of Hurricane Florence by meeting the increased demand for behavioral health services in the counties most impacted by the storm. To that end, funds were used to increase single-stream funding allocated to LME/MCOs with a catchment area that includes at least one federally declared disaster area. DMH/DD/SAS determined the basis for allocating these funds among qualifying LME/MCOs.

Responsible Department and Agency

Department of Health and Human Services, Division of Mental Health Developmental Disabilities, and Substance Abuse Services

Funding Allocation Update

Appropriated	\$5,000,000
Expended	\$5,000,000
Obligated	
Unobligated Balance	\$0.00

Summary of Activities

- a. Over 212,172 individuals have been served through four providers (LME/MCOs: Alliance, Eastpointe, Sandhills, Trillium) and a trained cadre' of nearly 200 crisis counselors.
- b. Primary services provided: 1) Brief Education and Support 2) Individual Crisis Counseling; and 3) Public Education and Group Counseling
- c. More than 32,500 individuals were referred for more intensive community services, including health, behavioral health and disability services.

Recent Activities for Current Reporting Period (April – June 2019)

DHHS has expended the full \$5M in state appropriations. We continue to see there is clear demand for these services. The Division is able to continue using the remaining federal Crisis Counseling Program (CCP) grant. This grant funds door-to-door outreach and on the spot

counseling and referrals. This grant lasts for roughly one year from the date of the storm and totals approximately \$15M.

2. Disaster Supplemental Nutrition Program (D-SNAP)

S.L. 2018-136 Subsection 5.4

The intended purpose of the Disaster Supplemental Nutrition Program (D-SNAP) is to provide funding to assist counties in matching federal funds for the administrative expenses incurred by local departments of social services in operating D-SNAP, a program to provide food assistance to low-income households with food loss or damages caused by Hurricane Florence. The funding will fulfill this purpose by offsetting county staffing costs and other expenditures related to D-SNAP operations in declared counties and offsetting expenses incurred by other counties that assisted affected counties, thereby ensuring D-SNAP operations were successful.

Responsible Department and Agency

Department of Health and Human Services, Division of Social Services

Funding Allocation Update

Appropriated	\$3,500,000
Expended	\$2,325,628
Obligated	\$0
Unobligated Balance	\$1,174,372

Summary of Activities

- a. 34 declared disaster counties and 8 helper counties were provided match funding which alleviated an additional financial burden to the declared counties during hurricane recovery.
- b. Certification periods for existing SNAP recipients in the 34 impacted counties were extended six months to ensure there was no disruption in ongoing SNAP benefits.
- c. After providing shelter operations during the storm, county departments of social services staff immediately transitioned to implementing the DSNAP for eight days during which they helped over one million people have access to food during the DSNAP period.

Recent Activities for Current Reporting Period (April – June 2019)

All DSNAP and regular SNAP recipients were also able to purchase hot prepared foods from authorized EBT retailers through October 31, 2018.

Certification periods for existing SNAP recipients in the 34 impacted counties were extended six months to ensure there was no disruption in ongoing SNAP benefits. This also allowed county departments of social services offices to focus on recovery and ongoing assistance for families affected by the storm. The DSNAP program has ended. No further update.

3. Mosquito Abatement

S.L. 2018-134, Subsection 5.4

The purpose of the Mosquito Abatement Program is to prevent large populations of floodwater mosquitoes from emerging following Hurricane Florence and to avoid adverse impact to the public health by hindering the State's response and recovery efforts, and increasing the number of vector-borne illnesses. Therefore, funding was provided to Hurricane Florence disaster-declared counties to support mosquito control services to abate primarily adult mosquito populations.

In addition, funding supported education regarding mosquito bite avoidance, and the purchase and distribution of materials for personal prevention measures to the community.

Responsible Department and Agency

Department of Health and Human Services, Division of Public Health

Funding Allocation Update

Appropriated	\$2,000,000
Expended	\$1,593,720 (through 6/20/2019)
Obligated	\$406,280
Unobligated Balance	\$-

Summary of Activities

- a. \$1M of the \$2M in state appropriations awarded for mosquito abatement funding was allocated in the immediate aftermath of the storm and was to be matched with \$3M FEMA receipts (75% FFP) to 29 counties. A total of \$4M was allocated as part of this funding. \$2,980,440 of this funding has been expended. Assuming 75% reimbursement from FEMA, \$745,110 of these funds would ultimately be expended from the \$1M state appropriation.
- b. The other \$1M was appropriated well after the storm and was deemed not eligible for FEMA reimbursement. These funds were allocated to 20 counties as state only funds for mosquito abatement activities, however, several counties have since declined the funds. All of these funds have been allocated, \$848,610 has been expended to date.

Recent Activities for Current Reporting Period (July – September 2019)

This program has ended.

4. Unaffiliated Community Hospital Support

S.L. 2018-136 and Subsection 6.1 (14)

To assist unaffiliated community hospitals, especially those serving rural areas, in covering the increase in nursing and other staffing expenses related to Hurricane Florence. Funds for this purpose were allocated to the North Carolina Hospital Foundation (NCHF), a nonprofit corporation. NCHF, in turn, was tasked to award grants, on a basis determined by NCHF, to unaffiliated community hospitals located in counties designated under a major disaster declaration by the President of the United States under the Stafford Act (P.L. 93-288) because of Hurricane Florence, with priority consideration given to unaffiliated community hospitals serving rural areas.

Responsible Department and Agency

Department of Health and Human Services, Office of Rural Health

Funding Allocation Update

Appropriated	\$500,000
Expended	\$500,000
Obligated	-
Unobligated Balance	\$0.00

Summary of Activities

- a. Improve financial and operational performance of the four unaffiliated hospitals that each received \$125,000:
 - Dosher Memorial Hospital – Brunswick County
 - Southeastern Regional – Robeson County
 - Carolina East Medical Center – Craven County
 - Carteret Health Care – Carteret County
- b. Improve quality of care for patients through adequate staffing

Recent Activities for Current Reporting Period (July – September 2019)

Unaffiliated hospitals have recouped expenses incurred during Hurricane Florence and continue to provide services to residents in their respective service areas. This program has concluded.

5. Emergency Prescription Assistance Program (EPAP)

S.L. 2018-136, and 6.1 (17)

This federally authorized program is to provide emergency medical care to individuals affected by public health emergencies and catastrophic events that overwhelm the response capacity of state and local emergency medical systems. EPAP is activated as a cost sharing program. The state requesting EPAP activation submits to FEMA a Mission Assignment request for EPAP activation and agree to pay 25% of the total cost for EPAP activation.

Responsible Department and Agency

Department of Health and Human Services (DHHS). At the time North Carolina secured match funding, FEMA stated that it was more than 30 days post event and the program design is to assist with *immediate* prescription assistance and medical equipment needs due to loss or displacement primarily during the *first 30 days*. North Carolina was not able to demonstrate a need to FEMA for them to turn on the EPAP. FEMA views the EPAP as a program for *immediately* after the disaster in the impacted areas before they are set up and providing assistance. After about two weeks, when FEMA is up and helping in all the areas, they use their other public assistance programs as opposed to the EPAP.

Funding Allocation Update

Appropriated	\$1,000,000
Expended	0
Obligated	0
Unobligated Balance	\$1,000,000

Summary of Activities

Program was not activated.

Recent Activities for Current Reporting Period (July – September 2019)

Program was not activated.

Department of Insurance

1. Infrastructure Repairs

S.L. 2016-124 4.1 (11)

The purpose of this program was to provide grants to Volunteer Fire Departments to repair damage caused by Hurricane Matthew, the wildfires in the western part of the state, and Tropical Storms Julia and Hermine that were not covered by federal assistance, or by the proceeds of insurance policies.

Volunteer Fire Departments Infrastructure Repairs S.L. 2018-136 6.1 (4) – The purpose of this program was to provide grants to Volunteer Fire Departments for repairs of damages caused by Hurricane Florence that were not covered by federal assistance or by the proceeds of insurance policies.

Responsible Department and Agency

Department of Insurance – Office of the State Fire Marshal

Funding Allocation Update

Appropriated	\$1,000,000
Expended	\$326,387
Obligated	\$0.00
Unobligated Balance	\$673,613

Summary of Activities

Nine grants have been awarded and paid totaling \$326,387 for infrastructure repairs in Craven, Carteret, Duplin, Pamlico, Transylvania, Wilson, Wayne and Beaufort counties.

Recent Activities for Current Reporting Period (July – September 2019)

There were four grants awarded and paid totaling \$256,864 during the current reporting period. The grants were awarded and paid for infrastructure repairs to Volunteer Fire Departments located in Carteret County, Duplin County, and Pamlico County.

Department of Public Instruction

1. Capital Recovery Funds

S.L. 2018-136, subsection 6.1.(6), SL 2018-138 subsections 1.3(1) and 1.3(2)

Session law provided an appropriation to support immediate disaster recovery efforts for the repair and renovation of facilities and the repair and/or replacement damaged furnishings and equipment as a result of the damage caused by Hurricane Florence in Local Administrative Agencies (LEAs). Documentation was required to substantiate the issuance of funds. **All LEAs were required to take reasonable steps to obtain alternative funds to cover damages; where insurance funds or alternative funds were recovered, LEAs are required to return the recovered funds to the appropriate funding source.**

2. School Nutrition Employee Compensation

S.L. 2018-134, subsection 4.1 (1)

Session law provided financial accommodations for extraordinary circumstances due to Hurricane Florence. Federal cash reimbursement for nutritious meals served to students as part of the instructional day accounts for the majority of revenues required to operate the school nutrition programs in local education agencies (LEAs) in NC.

When unanticipated school closures prevent meal service to students, there is no basis for LEAs to claim cash reimbursement payments. LEAs rely on the reimbursement of Federal School Nutrition funds to support the local operation of their School Nutrition Programs. Without Federal cash reimbursements for meals served, there are no State or local funds to support the salaries/benefits of School Nutrition personnel. These funds were used to compensate School Nutrition employees who would have otherwise not been compensated.

Responsible Department and Agency

North Carolina Department of Public Instruction, Offices of the Superintendent, Chief of Staff, Chief Financial Officer, Chief School Business Officer and Divisions of School Nutrition and District Operations

Funding Allocation Update

Total	S.L. 2018-134	S.L. 2018-136	S.L. 2018-138
-------	---------------	---------------	---------------

Appropriated	\$ 6,500,000	\$ 60,000,000	\$ 25,000,000
Expended	\$ 5,114,330	\$ 59,992,012	\$ 24,246,582
Obligated	\$ 0	\$ 0	\$ 0
Unobligated Balance	\$ 1,385,670	\$ 7,988	\$ 753,418.00

Summary of Activities

- a. Funds were distributed to Local Education Agencies (LEAs) expeditiously as directed by the Superintendent in order to return students to school safely and quickly;
- b. Funds were issued to LEAs based upon written documentation to include estimates (bids, proposals or quotes), actual invoices and other artifacts to substantiate the catastrophic nature of the requests for funding;
- c. The Department has maintained documentation to support the distribution of all funds to LEAs;
- d. To date, the NC Public School Insurance Fund (NC PSIF) has paid \$35.5 million in property insurance claims. In addition to this amount, the NC PSIF has a current reserve of \$18.4 million for open claims that have not yet been paid. The NC PSIF anticipates a total insurance payout in excess of \$50 million to be paid for all property claims due to Hurricane Florence. A spreadsheet reflecting all closed and open claims is attached. *NOTE: The payment of claims from NC PSIF is in addition to the allocated funding LEAs received from the legislative funds.*
- e. S.L. SL 2018-136, subsection 6.1.(6) and SL 2018-138 subsections 1.3(1) require all LEAs to reimburse any alternative funds received from insurance or other resources, back to the applicable funding source. Funds for school nutrition equipment and inventory replacement were allocated to LEAs, but the total amounts were not drawn down as other funds were used to support the costs.
- f. The NC PSIF and the department have issued written communications to LEAs that received State disaster assistance advising them to reconcile and report their insurance, federal, local and other assistance used to support disaster recovery, and upon reconciliation, to return any remaining State funds. The due date for reporting is December 3, 2019.
- g. All assigned obligations have been met by the Department.

Recent Activities for Current Reporting Period (July – September 2019)

Some LEAs were insured outside of the NC PSIF, and the insurance recovery funds received are unknown at this time. Last quarter's report indicated NC PSIF paid a total of \$22.3 million in property insurance claims. Second quarter reporting reflected an additional \$13.2 million; totaling \$35.5 million in paid property claims. Last quarter's report also indicated open claim reserves of \$31 million. Due to the additional \$13.2 million paid, this reserve is reduced to \$18.4 million in estimated open claim payments. Second quarter reporting to the NC PSIF reflects an estimate in excess of \$50 million in total insurance payments to be paid to the

members of the NC PSIF for repair and replacement of school facilities, including the contents of school facilities. *NOTE: The payment of claims from the NC PSIF is in addition to the allocated funding LEAs received from the legislative funds.*

Golden Leaf Foundation

1. Grants to Repair, Replace and Build New Infrastructure

S.L. 2016-124, subsection 4.1 (7); S.L. 2017-119, subsection 1.2; S.L. 2018-5, subsection 5.6 (b)(3)

Funds appropriated to Golden LEAF to award grants to units of local government and 501(c)(3) nonprofit organizations for repair or replacement of infrastructure and equipment damaged as a result of Hurricane Matthew as well as for construction of new infrastructure to support new housing. Funds may also be used for the construction of new infrastructure for hazard mitigation. The intent of this program is to assist eligible entities with unmet needs following FEMA Public Assistance and insurance.

Responsible Department and Agency

Golden LEAF Foundation

Funding Allocation Update

	Total	S.L. 2016-124	S.L. 2017-119	S.L. 2018-5
Appropriated		\$20,000,000.00	\$30,000,000.00	\$10,000,000.00
Expended		\$11,439,399.31	\$13,601,529.53	\$848,155.64
Obligated		\$8,560,600.69	\$16,398,470.47	\$8,064,901.59
Unobligated Balance		\$0.00	\$0.00	\$1,086,942.77

Summary of Activities

- The Golden LEAF Board awarded 95 grants in this program. 28 projects are complete.
- The primary outcome for these projects is the number of households and businesses that will benefit from the project.
- Approximately half of the projects in this program include insurance proceeds, FEMA Public Assistance, CDBG-DR or other state, local, private, or federal funds.

Recent Activities for Current Reporting Period (July – September 2019)

Golden LEAF continues to work with 58 active projects in this program. Grantees have reports due at six-month intervals and request disbursement of funds as needed. Due to Hurricane Florence, lack of available contractors, and other design/engineering issues, several projects are delayed. Most projects are anticipated to be complete by mid-2020.

Funds de-obligated from a project completed under budget are returned to the program. Unobligated funds are used for projects experiencing increased construction costs or other unforeseen issues resulting in an increased cost to complete the project.

2. **Local Government Infrastructure Fund**

S.L. 2018-136, subsection 6.1(21); modified by S.L. 2018-138, subsection 2.10

Funds appropriated to Golden LEAF to award grants to units of local government and 501(c)(3) nonprofit organizations for repair or replacement of infrastructure and equipment damaged as a result of Hurricane Florence. Funds may also be awarded to established religious organizations for repair or replacement of places of worship. The intent of this program is to assist eligible entities with unmet needs following FEMA Public Assistance, insurance, and Small Business Administration (SBA) loan proceeds.

Expended	\$2,060,649.97	
Obligated	\$4,941,040.60	
Unobligated Balance	\$12,998,309.43	

Summary of Activities

- The Golden LEAF Board awarded 46 grants in this program. 14 projects are complete.
- The primary outcome for these projects is the number of households and businesses that will benefit from the project.
- Approximately half of the projects in this program include insurance proceeds, FEMA Public Assistance, or other local or private funds.
- More information, including the application is available online:
<https://www.goldenleaf.org/grant-seekers/disaster-recovery-programs/hurricane-florence-disaster-recovery-grant-program/>

Recent Activities for Current Reporting Period (July - September 2019)

Golden LEAF continues to accept applications for this program. There are 46 active applications as well as a pipeline of applications not yet submitted. At their August meeting, the Golden LEAF Board awarded 14 grants. The next meetings of the Golden LEAF Board are October 3, 2019 and December 5, 2019.

3. Small Business Loans

S.L. 2016-124, subsection 4.1 (6)

Funds appropriated to Golden LEAF to award grants to non-profit entities to make loans to small businesses affected by Hurricane Matthew. Loan funds may only be used for eligible purposes under the Small Business Administration (SBA) disaster loan assistance program. Intent of these funds is to assist businesses that were denied by SBA or do not have access to other available capital.

Responsible Department and Agency

Golden LEAF Foundation

Funding Allocation Update

	Total	S.L. 2016-124
Appropriated	\$5,000,000.00	
Expended	\$4,338,610.95	
Obligated	\$661,389.05	
Unobligated Balance	\$0.00	

Summary of Activities

- a. The Golden LEAF Board awarded three grants to nonprofit entities to make loans for small business recovery on April 6, 2017, encumbering all of the \$5m appropriated.
 - a. Rural Center: \$2.25M
 - b. Carolina Small Business Development Fund: \$2M
 - c. Community Development Initiative: \$750,000
- b. 30 loans totaling \$4,449,304.35 were supported by this program. As loan capital is repaid, funds are used to support additional loans.

Recent Activities for Current Reporting Period (July – September 2019)

Unused funds from the Carolina Small Business Development Fund and the Community Development Initiative were awarded to the Rural Economic Development Center to continue to address needs of businesses recovering from Hurricane Matthew.

4. Small Business Recovery Loans

S.L. 2018-136, subsection 6.1 (22); S.L. 2018-138, subsection 1.3 (4)

Funds appropriated to Golden LEAF to award grants to non-profit entities to make loans to small businesses affected by Hurricane Florence. Loan funds may only be used for eligible purposes under the Small Business Administration (SBA) disaster loan assistance program. Intent of these funds is to assist businesses that were denied by SBA or do not have access to other available capital.

Lumber River Council of Governments

1. Construct Low-Income Multifamily Housing Units in Town of Fair Bluff

S.L. 2017-119, 1.1 (b)

The purpose of this program is to construct low-income housing complexes in the Town of Fair Bluff.

Responsible Department and Agency

Lumber River Council of Governments

Funding Allocation Update

Appropriated	\$5,000,000
Expended	\$285,020.41
Obligated	\$4,714,979.59
Unobligated Balance	\$0.00

Summary of Activities

- a. Civil plan design has been approved by the Town of Fair Bluff.
- b. Site permit applications are in process. Erosion control permit has been approved. Stormwater permit has been approved. Driveway application has been submitted.
- c. Wetland testing has revealed potential wetlands on the property and alternative designs are being considered to resolve the concerns.
- d. Architectural plan design is in process. The Town of Fair Bluff has been able to secure funding to upsize the water lines to the site to provide adequate water pressure to the site for fire suppression.

Recent Activities for Current Reporting Period (July – September 2019)

- a. Alternatives have been explored in relation to the wetlands issues on the property and new property annexation is in progress to resolve the issue.
- b. Architectural plan design is in process.

North Carolina Community College System

1. Stabilization Reserve to Offset Impact of Enrollment Declines at Community Colleges

S.L. 2017-119, Subsection 1.4

The NC Community College System received \$2.7 million to distribute to community colleges suffering enrollment declines related to Hurricane Matthew. These funds will allow the community colleges to continue to offer the same level of services to students, when they return to community colleges. The NC Community College System's 2018-19 enrollment growth budget request shall include any permanent declines in enrollment resulting from Hurricane Matthew.

Responsible Department and Agency

NC Community College System, with funds allocated to the community colleges by the State Board of Community Colleges.

Funding Allocation Update

Appropriated	\$2,700,000.00
Expended	\$2,699,829.73
Obligated	\$0.00
Unobligated Balance	\$170.27

Summary of Activities

- a. The State Board of Community Colleges allocated funds (August 2017, FC-12) to eleven community colleges who documented Matthew-related enrollment declines.
- b. To continue their ability to address student needs post-Hurricane Matthew, community colleges received an additional \$1.8 million nonrecurring in 2018-19.

Recent Activities for Current Reporting Period (July – September 2019)

No activities for second quarter 2019. Project was completed during FY2017-18.

2. Budget Stabilization Funds for the NC Community College System

S.L. 2018-136, Subsection 6.1(9)

The North Carolina Community College System received funding to offset an anticipated

receipts shortfall at affected community colleges due to enrollment declines caused by Hurricane Florence.

Responsible Department and Agency

NC Community College System, with funds allocated to the community colleges by the State Board of Community Colleges.

Funding Allocation Update

Appropriated	\$8,500,000
Expended	\$7,901,451
Obligated	\$598,549
Unobligated Balance	\$0.00

Summary of Activities

Through June 2019, NCCCS has expended \$7.9 million to offset lower receipt collections at community colleges due to Hurricane Florence.

Recent Activities for Current Reporting Period (July – September 2019)

The \$7.9 million was expended in April 2019, based on college receipts collections through March. No further expenses have been incurred in the third quarter.

3. Emergency Grants for Postsecondary Students

S.L. 2018-136, Subsection 6.1 (10) – Appropriation

S.L. 2018-136, Subsection 5.3 (f) – Eligibility

Emergency scholarship grants in an amount up to \$1,250 per student are available to eligible postsecondary students who have suffered financial hardship due to the damage and destruction from Hurricane Florence. Students must reside in a county covered under a federal disaster declaration. An emergency grant shall be used to mitigate the impact of Hurricane Florence on a student so that his or her postsecondary education in a North Carolina community college continues uninterrupted. These funds may be used to cover any expenses that support a student's continued enrollment, including costs related to transportation, textbooks, tuition, fees, and living expenses.

Responsible Department and Agency

NC Community College System, with funds allocated to community colleges by the State Board of Community Colleges and then distributed to students continuing their enrollment.

Funding Allocation Update

Appropriated	\$5,000,000.00
Expended	\$4,696,379.75
Obligated	\$303,620.25
Unobligated Balance	\$0

Summary of Activities

- a. Through September 2019, nearly \$4.7 million has been awarded to eligible students at 22 colleges.
- b. Students used the funds for food, housing, clothing, and supplies to continue their education. Many students who finished their education during this time have reported that they could not have graduated without the assistance of these scholarship grants.

Recent Activities for Current Reporting Period (July – September 2019)

In the third quarter, \$3,468.95 has been drawn down. This illustrates that students have continuing needs for financial assistance nearly a year after Hurricane Florence.

4. Capital Recovery Funds

S.L. 2018-136, 6.1 (8)

Community colleges received funds to repair local community college facilities damaged by Hurricane Florence. These funds were appropriated to the North Carolina Community College System Office, who distributes these funds to the colleges as reimbursement for actual expenses.

Responsible Department and Agency

NC Community College System, with funds distributed to the community colleges on a reimbursement basis.

Funding Allocation Update

Appropriated	\$5,000,000.00
Expended	\$584,882.66
Obligated	\$2,914,027.34
Reduction	(\$1,500,000.00)*
Unobligated Balance	\$1,090.00

*Amount reduced in S.L. 2019-224, Sec 1.3.

Summary of Activities

- a. Through September 2019, five colleges have requested reimbursements for 24 Hurricane Florence-related projects. Examples of these projects include repairs to instructional spaces and campus-wide safety protection (at Carteret Community College).
- b. There are five additional colleges that have not yet sought funds for any Hurricane Florence-related projects, but who are still identifying eligible projects.
- c. The overall appropriation was reduced by the 2019 Disaster Recovery Response bill. These funds were re-directed to help those colleges whose enrollment services were directly impacted by Hurricane Florence. (S.L. 2019-224)

Recent Activities for Current Reporting Period (July – September 2019)

In the third quarter, three colleges requested funds for six Hurricane Florence-related projects, totaling \$195,543.82. Four projects have been completed.

North Carolina Housing Finance Agency

1. Housing Rehabilitation Loan Pool Disaster Recovery

S.L. 2016-124, 4.1 (1)

Through the Disaster Recovery Act of 2016, the General Assembly authorized an allocation of \$20 million to the North Carolina Housing Finance Agency (the Agency) through the North Carolina Housing Trust Fund for eligible projects under Chapter 122 of the General Statutes. Notwithstanding G.S. 122E-6, these funds shall directly benefit persons and families affected by Hurricane Matthew, the western wildfires, or Tropical Storms Julia and Hermine whose incomes do not exceed one hundred percent (100%) of the area's median income, with adjustments for family size, according to the latest figures available from the US Department of Housing and Urban Development.

Responsible Department and Agency

North Carolina Housing Finance Agency

Funding Allocation Update

Appropriated	\$20 million (DRA16)
Expended	\$9,742,743
Obligated	\$10,257,257
Unobligated Balance	\$0

Summary of Activities

- a. 466 Single-family homes in the ESFRLP-DR Portal with funds encumbered
- b. 236 Single-family homes under construction
- c. 176 Single-family homes complete
- d. 48 Multi-family homes complete

Recent Activities for Current Reporting Period (July – September 2019)

- a. 14 homes added to the ESFRLP-DR Portal
- b. Approved 24 loans
- c. Completed 22 homes
- d. Disbursed \$1,634,481

2. Rental Production Program-Disaster Recovery

S.L. 2018-136, 6.1 (28)

Through the Disaster Recovery Act of 2018, the General Assembly authorized an allocation of \$10 million to the North Carolina Housing Finance Agency (the Agency). These funds have been allocated to the Rental Production Program-Disaster Recovery (RPP-DR) to promote new production of affordable rental homes in the federally declared disaster counties. RPP-DR is to be used as subordinate financing on qualified developments receiving federal Low-Income Housing Tax Credits under section 42 of the federal Internal Revenue Code.

Office of State Budget and Management

For information regarding housing recovery programs administered by OSBM, please see the Department of Public Safety section, page 6.

1. Town of Princeville and Fair Bluff Grants-in-Aid

S.L. 2018-5 Subsection 5.6 (b)(4)

The Office of State Budget and Management was allocated \$700,000 to provide grants-in-aid to the Town of Princeville and Fair Bluff for contractual services related to management and use of disaster recovery funds.

Responsible Department and Agency

NC Governor's Office/ Office of State Budget and Management

Funding Allocation Update

Appropriated	\$700,000
Expended	\$262,500
Obligated	\$437,500
Unobligated Balance	\$0

Summary of Activities

- a. Agreements have been executed with the Town of Fair Bluff and the Town of Princeville.
- b. The Town of Fair Bluff has hired two full-time employees and one contractual employee to assist with disaster recovery.
- c. The Town of Princeville has hired two full-time and two part-time employees to assist with disaster recovery.
- d. Both Towns have also contracted with their respective Council of Government for financial management assistance.

Recent Activities for Current Reporting Period (July – September 2019)

The Town of Fair Bluff has retained the services of a Land Use Planner through the Cape Fear Council of Governments. The planner has also begun work on updating the zoning ordinance and subdivision ordinance.

In addition, the Town of Fair Bluff has hired a Project Manager and a Police Officer on a full-time basis. The Project Manager assists the Town of Fair Bluff with Hurricane Matthew and Florence recovery initiatives that are critical to rebuild the town. The Police Officer focuses on

crime prevention in the 47 building sites that are undergoing repairs and improvements associated with hurricane recovery funds.

Lastly, the Town of Princeville has hired an Administrative Assistant, Maintenance worker, Paralegal, and a Financial Consultant. The additional staff has enabled the Town to move projects forward that were lingering as a result of being short staffed. The Town also has used funds to provide supplies and equipment for its new staff. The Town intends to use the balance of the grant funds on a parks and recreation master plan, public works equipment, and gateway and wayfinding signage.

2. State Match for Federal Assistance Programs

S.L. 2016-124 Subsection 4.1 (4)

The legislature allocated \$66.2 million to the State Emergency Response and Disaster Relief Fund to provide the State match for federal disaster assistance programs.

Responsible Department and Agency

NC Governor's Office/ Office of State Budget and Management

Funding Allocation Update

Appropriated	\$66,228,370
Expended	\$55,096,370
Obligated	\$11,132,000
Unobligated Balance	\$0

Summary of Activities

- a. Funds are disbursed from the Reserve for Disaster Relief to Departments as requests are made.
- b. State Match is required for the USDA Emergency Conservation Program with the Department of Agriculture.
- c. State Match is required for FEMA Public Assistance, Individual Assistance, and Hazard Mitigation programs.

Recent Activities for Current Reporting Period (July – September 2019)

Not Applicable.

3. State Match for Federal Assistance Programs

S.L. 2017-119, Subsection 1.5

The Legislature allocated \$22.3 million to the State Emergency Response and Disaster Relief Fund to provide the State match for federal disaster assistance programs.

Responsible Department and Agency

NC Governor's Office/ Office of State Budget and Management

Funding Allocation Update

Appropriated	\$22,300,000
Expended	\$8,656,035
Obligated	\$13,643,965
Unobligated Balance	\$0

Summary of Activities

- a. These state match funds are reserved and obligated to primarily support FEMA Public Assistance and Hazard Mitigation Grant Program 25% state share match requirements and project awards managed by the Division of Emergency Management. FEMA Public Assistance projects are primarily state and local government public infrastructure and capital facility projects, which were damaged by Hurricane Matthew and related federal disasters. FEMA HMGP program match projects are primarily housing recovery projects that include owner occupied housing buyouts, elevations and related eligible housing recovery activities.
- b. Funds will be disbursed from the Reserve for Disaster Relief to Departments as requests are made.

Recent Activities for Current Reporting Period (July – September 2019)

Not Applicable.

4. State Match for Federal Assistance Programs

S.L. 2018-5 Subsection 5.6 (b)(1)

The legislature allocated \$14.5 million to the State Emergency Response and Disaster Relief Fund to provide the State match for federal disaster assistance programs.

- a. These state match funds are reserved and obligated to primarily support FEMA Public Assistance and Hazard Mitigation Grant Program 25% state share match requirements and project awards managed by the Division of Emergency Management. FEMA Public Assistance projects are primarily state and local government public infrastructure and capital facility projects, which were damaged by Hurricane Matthew and related federal disasters. FEMA HMGP program match projects are primarily housing recovery projects that include owner occupied housing buyouts, elevations and related eligible housing recovery activities.
- b. Funds will be disbursed from the Reserve for Disaster Relief to Departments as requests are made.

Recent Activities for Current Reporting Period (July – September 2019)

UNC Pembroke

1. Emergency Grants for Affected Postsecondary Students

S.L. 2018-136 6.1 (11)

In an October special legislative session, the 2018 General Assembly appropriated \$2,000,000 from the statewide Hurricane Florence Disaster Recovery Fund to the Board of Governors to establish the Hurricane Florence Emergency Grant Program for Postsecondary Students. Funding from this program will provide emergency scholarship grants in an amount up to one thousand two hundred fifty dollars (\$1,250) for each eligible UNC System student who has suffered financial hardship due to the damage and destruction from Hurricane Florence. These funds may be used to cover any expenses that support a student's continued enrollment, including costs related to transportation, textbooks, tuition, fees and living expenses.

Responsible Department and Agency

UNC-Pembroke, Financial Aid

Funding Allocation Update

Appropriated	\$250,000
Expended	\$ 97,000
Obligated	\$0.00
Unobligated Balance	\$153,000

Summary of Activities
