For the calendar year 2016, the Department experienced a brief period of jail backlog expenditures during the month of October 2016. This period of expenditures was a direct result of a disturbance at Neuse Correctional Institution which occurred on October 23, 2016. Due to this disturbance, the processing of inmates in from county jails was delayed for a period short period of time until the agency could divert the arrivals to other diagnostic facilities within the system. This delay resulted in the following:

The Department continues to implement measures to maintain a reduction in jail backlog. This includes the processing of short term felons at designated diagnostic centers and additional transfer runs from each diagnostic center to assure that offenders who complete processing are transferred in a timely manner.

As previously reported, the Department has undergone six (6) consecutive years in which it was able to maintain no backlog. The Department will continue to consider and utilize all options available in an attempt to revert back to the previous level of reduction in jail backlog.
