Greetings:

The Juvenile Crime Prevention Councils across the state are the foundation for North Carolina's comprehensive strategy for the prevention and continued reduction of juvenile crime. Throughout the state in all one hundred (100) counties, Juvenile Crime Prevention Councils serve approximately 25,000 youth each year in local programs through state, county and non-profit partnerships using varying approaches according to specific needs and resources in local communities.

With the leadership and assistance of the Department's Juvenile Crime Prevention Council Program Specialists, local Juvenile Crime Prevention Councils comprised of statutorily designated key community leaders and youth-serving professionals gather and synthesize state and county data on undisciplined and delinquent youth. Using their knowledge of community resources, needs and local services, each Juvenile Crime Prevention Council engages in a structured, prescriptive annual planning process which allows them to make informed decisions on what types of prevention and intervention services are needed within their own counties.

This state and local partnership, which is viewed as a model by juvenile justice professionals in other states, enables us to elicit local expertise and input in developing solutions to statewide challenges. Our community partners continue to be an integral part of the Department's efforts to maintain public safety and prevent juvenile delinquency and are absolutely necessary to us in providing an integrated, comprehensive juvenile justice system.

We are pleased to share with you this year's Juvenile Crime Prevention Council Report and Certification, giving you information on each county's efforts to combat juvenile crime, help ensure public safety, and assist youth in becoming good citizens despite their individual, family, and community challenges. We hope this report will provide policy makers the information needed for promoting the most effective and efficient services to the children and families in North Carolina.

Sincerely,

Linda W. Hayes
Secretary

Introduction

This Juvenile Crime Prevention Council Grant report responds to a Special Provision of Session Law 2011 - 145: JCPC Grant Reporting and Certification: Section 17.4.(a) ratified in the 2011 session of the North Carolina General Assembly. The report focuses on data from FY 2010-2011 and FY 2011-2012. Of particular interest in this report are sections on the FY 2011-2012 JCPC allocation to county JCPCs and the membership of the local councils. The types of programs funded and a short description of the programs and services funded are also provided. The report also identifies JCPC programs that were previously funded but for which funding has been eliminated by the Department. Also included is a section on the number of at-risk, diverted, and adjudicated juveniles served statewide and by county. The Department also articulates its actions in partnership with county JCPCs and Boards of Commissioners to prioritize funding for dispositions of intermediate and community-level sanctions for court adjudicated juveniles. In addition, the total cost for each funded program, including the cost per juvenile and the essential elements of the program are described. In sum, this report responds to Special Provision Section 17.4 (a) (1) through (8). The text of the Special Provision is included next.

Juvenile Crime Prevention Council (JCPC) Grant Reporting and Certification

SECTION 17.4.(a) On or before October 1 of each year, the Department of Juvenile Justice and Delinquency Prevention shall submit to the Joint Legislative Commission on Governmental Operations and the Appropriations Committees of the Senate and House of Representatives a list of the recipients of the grants awarded, or preapproved for award, from funds appropriated to the Department for local Juvenile Crime Prevention Council (JCPC) grants, including the following:

- (1) The amount of the grant awarded.
- (2) The membership of the local committee or council administering the award funds on the local level.
- (3) The type of program funded.
- (4) A short description of the local services, programs, or projects that will receive funds.
- (5) Identification of any programs that received grant funds at one time but for which funding has been eliminated by the Department.
- (6) The number of at-risk, diverted, and adjudicated juveniles served by each county.
- (7) The Department's actions to ensure that county JCPCs prioritize funding for dispositions of intermediate and community-level sanctions for court-adjudicated juveniles under minimum standards adopted by the Department.
- (8) The total cost for each funded program, including the cost per juvenile and the essential elements of the program.

An electronic copy of the list and other information regarding the projects shall also be sent to the Fiscal Research Division of the General Assembly.

Note: Due to budget dynamics and local decision-making (with the official deadline for county allocations being December 31st in accordance with Department Policy JCPC 2.3), Person County's allocation has not been received, approved, and processed in time to be included in the JCPC Report and Certification.

In addition, the Department was required to adjust the JCPC allocation of a number of counties to meet the requirements of Session Law 2011-145 Section **17.4.(b)** which stated, "Of the funds appropriated by this act for the 2011-2012 fiscal year to the Department of Juvenile Justice and Delinquency Prevention for Juvenile Crime Prevention Council grants, the sum of one hundred twenty-one thousand six hundred dollars (\$121,600) shall be transferred to Project Challenge North Carolina, Inc., to be used for the continued support of Project Challenge programs throughout the State." Due to these adjustments, a number of counties' allocations may change before December 31, 2011.

Crisis response is a critical component of FCT, with interventions experientially based to allow families to learn and practice new behaviors in the midst of the crisis. There are four phases of treatment designed to assist the family in making changes that will be sustained long after FCT has ended, including an expectation of the family to give back to the community. FCT works well with many specialty populations where the family system has been impacted and is in need of support or change, including youth involved in gangs and gang related activities.

This is an ideal location because so many of the area's kids can utilize public transportation. We host karate classes once per day, five days a week, from 6:30pm-8:15pm. Ligo Dojo provides instruction in health-, self-esteem, and discipline-instilling karate training. Court-referred kids are ordered to attend 20 classes in 10 weeks, but we have already seen several in Durham who have voluntarily attended more than 50 classes and are still continuing.

This year we trained 8 community leaders in the Nurturing Parenting curriculum and have been trying to provide it to targeted families in peril of losing their children to foster care. We utilize the Incredible Years Curriculum as an adjunct to Nurturing Parenting and began a program of parental skill building. Clients are identified by community stakeholders, screened by an evidence-based tool on parenting attitudes and experiences, and "prescribed" a course of skill building sessions based on the best curriculum to meet that family's needs. After the course is completed, the families complete another screening tool assessing changes in attitudes and beliefs. We also work with our county System of Care collaborative for connections to other community supports including family therapy, Intensive In-Home, and Targeted Case Management for families with perceived serious issues needing more than informal parent skill building classes.

Component Type:	Teen Court	agill@ci.henderson.nc.us (252) 431-6093
Component Name:	Vance County Teen Court	

Teen Court is an alternative to juvenile court for first time offenders with misdemeanor offenses. A jury of their peers try the referred juveniles who admit guilt and agree to be accountable for their offenses. The jury may assign the juvenile to a rehabilitative measure or sanction, such as community service, counseling, restitution etc. The juveniles pay back the community by serving on the Teen Court jury. Through the use of student volunteers who take on the legal system roles (clerks, bailiffs, attorneys and jurors), the volunteers and offenders learn about the legal system. District and Superior Court Judges and attorneys along with other adults volunteer their services to Teen Court.

17.4(7) Department Actions to Ensure that County JCPCs Prioritize Funding for Dispositions of Intermediate and Community-Level Sanctions for Adjudicated Juveniles Under Minimum Standards Adopted by the Department

This section describes the Annual Planning Process structured by the Department to be used by county JCPCs to ensure that they are meeting statutory requirements for prioritizing funding for adjudicated youth as well as responding to the prevention/intervention needs of youth at-risk for juvenile delinquency in the community. Each county is required by the Department to certify that the steps taken in the structured planning process result in prioritization of funding for adjudicated youth. Further, the Department, through its area and state offices, provides ongoing training, technical assistance, and program monitoring to ensure that county JCPCs and County Boards of Commissioners adhere to these statutory responsibilities.

Local Juvenile Crime Prevention Councils are legislated to complete many critical tasks during the annual planning cycle. Under General Statute mandates, JCPCs must complete the following tasks annually: (1) assess the risks for delinquency in the community (analyze the offender profile unique to the county and address community risk factors that contribute to delinquency), (2) assess local resources available to serve target youth populations in the community, (3) identify service gaps and services needed to fill gaps in the service continuum, (4) lay out a matrix of service needs that are advertised through a Request for Proposal (RFP) process to solicit service providers to address service needs, and finally (5) complete a county governmental approved plan for addressing delinquency that identifies and distributes the county JCPC allocation to grant service provider entities.

A local Juvenile Crime Prevention Council structures itself to deliberately address the legislated mandates in the execution of its duties. Its decision-making process in awarding the county allocation to non-profits or government-sponsored entities to address the needs of court-involved and at-risk youth requires multiple tiers to decision-making. This decision-making ensures that the allocation is efficiently and soundly invested across the service continuum to best match services to the needs of youth in the community. There are many factors that influence this decision-making process; however, the methodology of utilizing JCPC by-laws, conflict of interest disclosure, and subcommittee board structure allows for the deliberations and final award of funding to programs to be thorough and sound. Technical assistance, training, and general oversight under the guidance of the Department and its area consultants are consistently used to ensure compliance with legislative mandates.

In presenting the funding plan for the county, the JCPC examines its own operation under legislatively mandated activity and ensures that the grant-funded service providers meet eligibility requirements from a programmatic, administrative, and fiscal perspective. The following examines the multi-tasking and community activity that produces a JCPC's final funding plan:

- A JCPC subcommittee screens grants for eligibility and match against service needs addressed in the RFP.
- The JCPC extends an invitation to eligible service providers to forums to present service programming and budgetary needs to the JCPC (full council or subcommittee).

- The JCPC collaborates with the county government to secure match support (10%, 20%, or 30% cash and/or in-kind match from local/county revenue sources to secure funding). Some counties provide cash match to the total allocation and authority is given to the local JCPC to allocate this cash match along with the grant award.
- A JCPC subcommittee deliberates on grant award amounts to individual service providers. Committee deliberations include review and examination of the following:
 - type of program and match against priority dispositional option service needs
 - grant-funded program revenue sources and blending of revenues
 - monitoring reports/court counselor program utilization surveys for continuation grant programs to ensure that programs are fiscally and programmatically sound (monitoring entails another subcommittee task)
 - capacity of program services and target populations served
 - analysis of community programs/services availability other than JCPC funded programs that serve the needs of adjudicated and at-risk youth
- Community recommendations to full JCPC for approval of grant award amounts to grant-funded JCPC programs
- Presentation of JCPC final annual planning document including the JCPC's grant funding recommendations to the County Board of Commissioners for review and final approval.

In summary, the Department implements a highly structured planning process each year to ensure that each county JCPC meets statutory requirements and Department minimum standards while conducting a detailed risk and needs assessment, community resources assessment, and gaps in services identification. These tools are then used as the foundation of its decision-making process in awarding grants to service providers that give priority to meeting the specific needs of court-adjudicated youth as well as pre-adjudicated, at-risk youth in the community. The Department works in partnership with each local JCPC to provide program oversight through program monitoring, technical assistance, and training that further ensures that statutory requirements and Department minimum standards are adhered to and implemented effectively. Ultimately, these processes and strategies create communities that have decreased juvenile delinquency and increased public safety.

17.4(8) JCPC Program Cost Analysis

This section details the total FY 2010-2011 JCPC cost per program, including the budget from all revenue sources: state, local, and federal (including local cash and in-kind contributions), the total DJJDP allocation to county JCPCs for the fiscal year, the number of youth participants, the average cost per youth (all revenue sources) and the average DJJDP cost per youth. It also includes a summary of the essential elements of all JCPC program services and structures. The FY 2010-2011 JCPC Program Cost Analysis is depicted in the chart below. Note: The total budget column in the cost analysis below includes the total DJJDP allocation for FY 2010-2011 as well as all other revenue sources (e.g., local cash, local in-kind, non-JCPC grants, and other state/federal funding). JCPC Administrative/Certification funding is not included in the cost analysis below. The DJJDP allocation for the JCPC Administrative/Certifications was \$576,374.

JCPC PROGRAM COST ANALYSIS FY 2010-2011

(Source: JCPC Client Tracking System)

As evidenced in the chart above, JCPCs are using the DJJDP allocation to leverage other sources of revenue for programs and services to meet the needs of at-risk and adjudicated youth in their counties. In fact, they are leveraging over \$18.5 million in funding from other revenue sources (local, state, and federal), which represents over 46% of their total funding. This represents another significant indicator of the collaboration among county agencies and organizations represented on the JCPC as well as the effectiveness of the state-local partnership in this ongoing effort to improve public safety and reduce juvenile delinquency in our state. Also indicated in the chart above is the relative average cost per youth (all funding sources) as well as the average DJJDP cost per youth. These data reveal an average cost per youth (all funding sources) of \$1,590 and an average DJJDP cost per youth of \$846.

In order to get a more precise view of the types of program services and structures represented in the six major program types represented in the chart above, a description of the essential elements of JCPC program component types is provided next.

Essential Elements of JCPC Program Service and Structures Types

COMPONENTS PROVIDING RESIDENTIAL SERVICES:

These components offer immediate and short-term involvement with youth to focus resolving negative and/or offending behaviors.
- Restitution/Community Service: Provides supervised worksites in which juveniles are held accountable for their actions that have affected the community and/or victim(s). After recruitment, screening and training, the mentor spends time with the juvenile on a regular basis and engages in activities such as sports, movies, and helping with homework.
- Interpersonal Skill Building: Assists juveniles in developing the social skills required for an individual to interact in a positive way with others. The basic skill model begins with an individual's goals, progresses to how these goals should be translated into appropriate and effective social behaviors, and concludes with the impact of the behavior on the social environment. Typical training techniques are instruction, modeling of behavior, practice and rehearsal, feedback, and reinforcement. May also include training in a set of techniques, such as conflict resolution or decision making, that focus on how to effectively deal with specific types of problems or issues that an individual may confront in interacting with others.
