MEMORANDUM

TO: Secretary Eddie Buffaloe
FROM: Director Robert L. Schurmeier
SUBJECT: Report on 2022 Domestic Homicides, as required by 143B-901.
DATE: March 23, 2022

General Statute 143B-901 requires the Department to submit a report to the legislature each year, illustrating the number of domestic violence related homicides which were reported during the previous calendar year.

Upon your approval of this report, please file with the Chairs of the Joint Legislative Appropriations Subcommittee on Justice and Public Safety. If you have any questions, contact me at any time.

**Report on Domestic Violence Related Homicides for Calendar Year 2021
Reporting Requirements and Implementation**

North Carolina Department of Public Safety

At the request of the Department of Public Safety, the North Carolina State Bureau of Investigation collects this information from other law enforcement agencies, throughout the state. This information is simply collected and forwarded to the SBI voluntarily by those agencies. The SBI has not validated each claim individually.

Reporting Requirements

North Carolina General Statute 143B-901 directs all state and local law enforcement agencies to report specific information regarding domestic violence related homicides, to the NC Department of Public Safety. Pursuant to this statute, the NC State Bureau of Investigation has developed the Domestic Violence Related Homicide Report form, in consultation with the NC Council for Women/Domestic Violence Commission, the NC Sheriffs Association, and the NC Association of Chiefs of Police. Each law enforcement agency in North Carolina must complete a report for each domestic violence related homicide, committed within that agency's jurisdiction. The report is to be completed upon the filing of charges, or when charges would have been filed against the offender if other circumstances, (like the death of the offender) had not intervened. Reporting of domestic violence related homicides is an ongoing requirement for all state and local law enforcement agencies. The State Bureau of Investigation collects this information and reports it to the General Assembly, through the Secretary of the Department of Public Safety.

§ 143B-901. Reporting system and database on certain domestic-violence-related homicides; reports by law enforcement agencies required; annual report to the General Assembly.

The Department of Public Safety, in consultation with the North Carolina Council for Women/Domestic Violence Commission, the North Carolina Sheriffs' Association, and the North Carolina Association of Chiefs of Police, shall develop a reporting system and database that reflects the number of homicides in the State where the offender and the victim had a personal relationship, as defined by G.S. 50B-1(b). The information in the database shall also include the type of personal relationship that existed between the offender and the victim, whether the victim had obtained an order pursuant to G.S. 50B-3, and whether there was a pending charge for which the offender was on pretrial release pursuant to G.S. 15A-534.1. All State and local law enforcement agencies shall report information to the Department of Public Safety upon making a determination that a homicide meets the reporting system's criteria. The report shall be made in the format adopted by the Department of Public Safety. The Department of Public Safety shall report to the Joint Legislative Oversight Committee on Justice and Public Safety, no later than April 1 of each year, with the data collected for the previous calendar year. (2007-14, s. 2; 2014-100, ss. 17.1(g), (rr).)

Report on Domestic Violence Related Homicides for Calendar Year 2021

Statistics

There were 148 victims of domestic violence related homicide during calendar year 2021. This represents a 10.4% increase from the 134 individual victims reported for calendar year 2020. The 2021 incidents catalogued 142 offenders, which is 11 more offenders than was reported in 2020.

Additional information reported is as follows:

- ◆ 101 victims were female
- ◆ 47 victims were male

- ◆ 120 offenders were male
- ◆ 22 offenders were female

- ◆ Only four of the 148 victims in 2021 had previously taken out protective orders when the homicide occurred.

- ◆ Two of the offenders reported were participating in a pre-trial release program, for a crime of aggravated assault, when the homicide occurred.

Information in this report represents data submitted to the SBI by state and local law enforcement agencies as of March 11, 2022. Offender count may differ from the victim count because single victims may have more than one offender and one offender might have multiple victims.
