Overview

The Department of Public Safety (DPS) is responsible for providing constitutionally mandated healthcare to the offender population, which includes medical, mental health and dental care. The Health Services section provides routine outpatient care in 55 facilities across the state and inpatient care at Central Prison Healthcare Complex and North Carolina Correctional Institute for Women. DPS also provides emergent and urgent care as necessary in all facilities. External providers are consulted when the clinical presentation requires services beyond the scope of the facility.

A contracted facility has signed a contract to provide medical care at a negotiated rate above the legislative rate of 70% of billed charges or twice the Medicaid rate. A non-contracted facility agrees to charge at the legislatively mandated rate.

Unless otherwise indicated, the data in this report is for the period of January 1, 2022, and March 31, 2022.

(1) The percentage of total inmates requiring hospitalization or hospital services who receive that treatment at each hospital.

Attachment A provides the facility/provider, the amount paid and the volume and percentage of claims. It includes all external, contracted, and non-contracted services for the quarter.

(4a) The volume of scheduled and emergent services listed by hospital and, of that volume, the number of those services that are provided by contracted and noncontracted providers.

During the quarter, there were 1468 episodes that required treatment at a community hospital. Of those episodes, 556 were at contract hospitals, while 912 were at non-contract hospitals. Attachment B provides the volume by hospital.

(4b) The volume of scheduled and emergent admissions listed by hospital and, of that volume, the percentage of those services that are provided by contracted and noncontracted providers.

Attachment C shows the scheduled and emergent admissions for the quarter. This includes 332 admissions from emergent services and 34 scheduled admissions. Contract hospitals provided 53.28% of the services, and non-contract hospitals provided 46.72% of the services.

(5) The volume of inpatient medical services provided to Medicaid-eligible inmates, the cost of treatment, the estimated savings of paying the nonfederal portion of Medicaid for the services, and the length of time between the date the claim was filed and the date the claim was paid.

During the quarter, 120 cases were identified as eligible for Medicaid. Based upon the State Auditor's May 2012 Financial Related Audit Report, the average savings of each case would be \$18,181.81. Using the methods applied in the audit, the estimated savings for the quarter would be approximately \$1,909,090.05. Information regarding the length of time between the date the claim was filed and the date the claim was paid is not available to DPS. Once the application is completed, it is processed at the county level and then sent to DHHS for payment.

(5a) The status of the implementation of the claims processing system and efforts to address the backlog of unpaid claims.

The third-party claims management vendor began processing claims for DPS on August 1, 2021. There currently is no backlog of claims, and the vendor pays all qualified bills within 30 days of submission.

(6) The hospital utilization, including the amount paid to individual hospitals, the number of inmates served, the number of claims, and whether the hospital was a contracted or noncontracted facility.

Attachment A includes these data points.

(7) The total cost and volume for emergency room visits originating from Central Prison and NCCIW Hospitals to UNC Hospitals, UNC Rex Healthcare, and WakeMed Hospital.

Table 1 shows the cost and volume for emergency room visits UNC Hospitals, UNC Rex Healthcare, and WakeMed Hospital.

Statistics from NCCIW reveal that 468 specialty encounters occurred during the same timeframe. No outpatient surgical procedures were performed during this quarter at CPHC. In addition, 90 MRI studies were performed in the mobile MRI unit at CPHC.

(10) The reimbursement rate for contracted providers. The Department shall randomly audit high-volume contracted providers to ensure adherence to billing at the contracted rate.

Table 3 includes the reimbursement rate for contracted providers as of March 31, 2022. During the quarter, DPS audited 128 claims of contracted providers that were over \$100,000. The audit found 76% of claims were paid according to the provider's contracted rate. The denied claims included Medicaid-eligible offenders or billing errors.
