H 1079. HAZ. DISCHARGE/RISK-BASED CORRECTIVE ACTION. *TO AUTHORIZE THE APPLICATION, AT THE REQUEST OF THE RESPONSIBLE PARTY, OF RISK-BASED CORRECTIVE ACTION FOR THE CLEANUP AND RESTORATION OF CERTAIN HAZARDOUS DISCHARGES ON THE CONDITION THAT THE PROPERTY'S USE IS RESTRICTED AND THE RESTRICTION IS RECORDED BY THE REGISTER OF DEEDS.* Requires the Environmental Management Comm'n to adopt rules to establish a risk-based approach for the assessment, prioritization, and cleanup of prohibited discharges. When Comm'n determines that risk to human health or environment from a discharge is not greater than the acceptable risk as determined by the Comm'n, no further action can be required of the responsible party. Dep't of Environment and Natural Resources must determine whether discharge requires restrictions on future use of property.
