H 1170. MEDICAL TREATMENT PROTOCOL. *TO DEVELOP A CHIROPRACTIC TREATMENT PROTOCOL FOR THE TREATMENT OF INJURIES RESULTING FROM AUTOMOBILE ACCIDENTS*. Directs the Dep't of Insurance to develop a chiropractic treatment protocol for use by insurers for the treatment of persons injured in automobile accidents, encouraging insurers to accept comprehensive treatment plans based on specified factors and to approve those plans in advance of treatment. Requires Dep't to report to the General Assembly before April 1, 2002, and prohibits the Dep't from adopting rules establishing the protocol until it is approved by the General Assembly.
