"Clean Air Trust Fund.

"§ 113A-271. Purpose.

(c) The General Assembly finds that education, technical assistance, incentives, and regulations are all needed to prevent and reduce emissions of air pollutants and to protect the environment, public health, natural resources, and the economy.

(d) The General Assembly finds that cleaner fuels, alternative fuels, energy efficiency, transit, smart growth, public education, and awareness will prevent and reduce emissions of air pollutants.

1 (e) The General Assembly finds and declares that an incentive-based air quality
2 program is needed to assist local governments, State agencies, nonprofit conservation
3 organizations, and industry to help finance projects that prevent or reduce emissions of
