A BILL TO BE ENTITLED

1 AN ACT TO IMPLEMENT A PLAN FOR MOVING FACULTY AND  
2 PROFESSIONAL STAFF SALARIES IN THE NORTH CAROLINA  
3 COMMUNITY COLLEGE SYSTEM TO THE NATIONAL AVERAGE.  
4

5       Whereas, for a new economy to emerge and be sustained in North Carolina,  
6 the State must have competent and skilled workers who are educated and supported by  
7 high quality, well-credentialed, and responsive community college faculty and  
8 professional staff; and

9       Whereas, there is a direct link between the success of adults in learning to  
10 think critically, solve problems, and be productive employees, and the quality of  
11 instruction, counseling, and placement support they receive at an institution of the North  
12 Carolina Community College System; and

13       Whereas, over the past two fiscal years, the North Carolina Community  
14 College System has enrolled record numbers of displaced workers, transitional workers,  
15 and persons entering postsecondary school for the first time in many years, all of whom  
16 require intensive instructional and support services; and

17       Whereas, according to the Southern Regional Educational Board (SREB), the  
18 average salary of the faculty of the North Carolina Community College System is  
19 approximately 77% of the national average salary of full-time instructional faculty of  
20 public two-year colleges; and

21       Whereas, full-time faculty rank sixteenth of the sixteen SREB states in  
22 average salary; and

23       Whereas, the average salary of professional staff in the North Carolina  
24 Community College System is approximately 77% of the national average salary of  
25 full-time professional staff; and

1           Whereas, it is imperative that the State move community college faculty and  
2 professional staff salaries to the national average; and

3           Whereas, this may be accomplished by implementation of a five-year plan  
4 that includes annual incremental increases in community college faculty and  
5 professional staff salaries; and

6           Whereas, in the event that fiscal conditions do not permit the full  
7 implementation of the planned annual increment in a fiscal year, the remainder of that  
8 increment may be included in a subsequent year appropriation; and

9           Whereas, the estimated annual incremental costs are \$33,289,371 for the  
10 2004-2005 fiscal year, \$21,092,066 for the 2005-2006 fiscal year, \$21,574,503 for the  
11 2006-2007 fiscal year, \$22,095,532 for the 2007-2008 fiscal year, and \$12,427,531 for  
12 the 2008-2009 fiscal year; Now, therefore,
