14 "(3) The State Board of Education shall develop objectives for instruction  
 15 in the prevention of sexually transmitted diseases, including ~~Acquired~~  
 16 ~~Immune Deficiency Syndrome (AIDS) virus infection,~~ HIV/AIDS, that  
 17 includes emphasis on the importance of parental involvement,  
 18 abstinence from sex until marriage, and avoiding intravenous drug use.  
 19 Any program developed under this subdivision shall present  
 20 techniques and strategies to deal with peer pressure and to offer  
 21 positive reinforcement and shall teach reasons, skills, and strategies for  
 22 remaining or becoming abstinent from sexual activity; for appropriate  
 23 grade levels and classes, shall teach that abstinence from sexual  
 24 activity until marriage is the only certain means of avoiding  
 25 out-of-wedlock pregnancy, most sexually transmitted diseases, and  
 26 other associated health and emotional problems, and that a mutually  
 27 faithful monogamous heterosexual relationship in the context of

19 f. Teaches the positive benefits of abstinence until marriage and

30 students enrolled at that unit any State-developed objectives for  
31 instruction, any approved textbooks, the list of reviewed materials, and  
32 any other State-developed or approved materials that pertain to or are
