Directs Global Warming Initiatives (GWI), a non-profit incorporated in response to the U.S. Environmental Protection Agency's Climate Wise research program, to collect data on greenhouse emissions from four state agencies and establish a standard procedure for reporting greenhouse gas emissions. Authorizes GWI to undertake other activities and requires it to present an annual report, beginning June 30, 2008, to specified state agencies. Appropriates from the General Fund to GWI $300,000 for each year of the 2007-09 biennium to implement the requirements of the act. Effective July 1, 2007.
