Provides that the General Assembly authorizes capital projects related to the construction of the North Carolina Aquarium Pier at Nags Head by the Aquariums Division of the Department of Environment and Natural Resources (DENR) to be funded with receipts or other non-General Fund sources at a maximum aggregate cost of \$25 million. Requires funds transferred to DENR by Section 21.14 of SL 2006-66 for a stormwater pilot project to clean up state maintained ocean outfalls and associated outlets that are not used for that purpose to be transferred to the North Carolina Aquariums Fund. Provides that if the American Recovery and Reinvestment Act of 2009 provides funding for these projects, then those funds are to be used for the capital improvement projects before the transferred funds.
