## GENERAL ASSEMBLY OF NORTH CAROLINA SESSION 2009

Η

## HOUSE BILL 1804\* Committee Substitute Favorable 6/10/10

|    | Short Title: Energy Policy Council Green Energy Study.   |  | (Public)               |  |
|----|--|--|------------------------|--|
|    | Sponsors:  |  |                        |  |
|    | Referred to:   |  |                        |  |
|    | May 19, 2010   |  |                        |  |
| 1  |  | A BILL TO BE ENTITLED  |                        |  |
| 2  | AN ACT TO I  | AN ACT TO DIRECT THE ENERGY POLICY COUNCIL TO IDENTIFY, STUDY, AND |                        |  |
| 3  | RECOMMEND POLICIES TO INCREASE ENERGY EFFICIENCY AND   |  |                        |  |
| 4  | CONSERVATION, PROMOTE RENEWABLE ENERGY RESOURCES, AND REDUCE                                   |  |                        |  |
| 5  | CARBON EMISSIONS, AS RECOMMENDED BY THE LEGISLATIVE COMMISSION                                 |  |                        |  |
| 6  | ON GLOBAL CLIMATE CHANGE.  |  |                        |  |
| 7  | The General Assembly of North Carolina enacts:   |  |                        |  |
| 8  | SECTION 1. The Energy Policy Council shall identify, study, and recommend                      |  |                        |  |
| 9  | policies to significantly increase energy efficiency and conservation, promote the development |  |                        |  |
| 10 | of renewable energy resources, and reduce carbon emissions. The Council shall specifically     |  |                        |  |
| 11 | consider:  |  | •                      |  |
| 12 | (1)  | Revision of the Utilities Commission's guiding language            | for electric utilities |  |
| 13 |  | in order to promote significant increases in electric ut           | ility investment in    |  |
| 14 |  | energy efficiency, conservation, and renewable energy res          | ources.                |  |
| 15 | (2)  | Incentives to encourage demand side management.                    |                        |  |
| 16 | (3)  | Incentives to encourage the use of more energy efficient a         | ppliances.             |  |
| 17 | (4)  | Allowing electric utilities to earn more from energy saved         | through efficiency     |  |
| 18 |  | and conservation programs than from energy generated.              |                        |  |
| 19 | (5)  | Policies to encourage the development of renewable ener            | gy resources in the    |  |
| 20 |  | State.   |                        |  |
| 21 | (6)  | Simplifying the net-metering sign-up process and incre             |                        |  |
| 22 |  | price for energy generated from renewable energy re                | sources under the      |  |
| 23 |  | net-metering program.  |                        |  |
| 24 | (7)  | Removing barriers to interconnection.                              |                        |  |
| 25 | (8)  | Requiring electric utilities to include potential future of        | carbon costs when      |  |
| 26 |  | developing their biennial integrated resource plans.               |                        |  |
| 27 | (9)  | Prohibiting the construction of new coal-fired power               | plants that do not     |  |
| 28 |  | capture and sequester carbon dioxide.                              |                        |  |
| 29 | (10)   | Changes to the State renewable energy portfolio standar            | -                      |  |
| 30 |  | use of combined heat and power and energy recycling tech           | -                      |  |
| 31 | (11)   | Removing barriers to implementation and permitting of er           | ergy recycling.        |  |
| 32 | (12)   | Authorizing the sale of thermal energy.                            |                        |  |
| 33 | (13)   | The potential benefits of a public benefit charge.                 | 1                      |  |
| 34 | (14)   | Evaluating the feasibility of establishing a third-party           |                        |  |
| 35 |  | energy efficiency programs in the State and to also stu            |                        |  |
| 36 |  | framework, structure, and governance upon which a                  | third-party energy     |  |
| 37 |  | efficiency administrator would operate.                            |                        |  |

efficiency administrator would operate.
