General Assembly of North Carolina

SECTION 1.(c) The Executive Aircraft Division of the Department of Commerce
 is transferred to the Aviation Management Division of the Department of Transportation. This
 transfer shall have all of the elements of a Type I transfer, as defined in G.S. 143A-6.

4 5

PART II. SALE OF CERTAIN AIRCRAFT AND OTHER MATTERS

6

SECTION 2.(a) The aircraft proposed for elimination in Exhibit 15 of the Program Evaluation Division's report entitled "Selling 25 Underutilized Aircraft May Yield Up to \$8.1 Million and Save \$1.5 Million Annually" (Report 2010-04), and associated records, property, unexpended balances of appropriations, allocations or other funds, are transferred to the Aviation Management Division. Affected agencies may designate the particular aircraft that are transferred so long as the number of aircraft proposed for elimination by the report are in fact transferred. State agencies required by this section to transfer aircraft to the Division shall

14 reduce personnel accordingly. 15 As soon as practicable, the Aviation Management Division shall obtain appraisals 16 and sell any of the aircraft transferred pursuant to this section that can be sold. The net proceeds 17 from these sales shall be remitted on a quarterly basis to the State Treasurer for deposit into the 18 General Fund. Any aircraft transferred pursuant to this section that cannot be sold because of 19 restrictions contained in federal law or agreements with the federal government shall cease to 20 be used by State agencies, and the Division shall arrange for their disposal in the most 21 economically beneficial manner available to the State that satisfies any applicable restrictions.

22 **SECTION 2.(b)** The Aviation Management Division shall terminate leases for, or 23 appraise and sell, the five hangars selected for elimination in Exhibit 17 of the Program 24 Evaluation Division's report entitled "Selling 25 Underutilized Aircraft May Yield Up to \$8.1 25 Million and Save \$1.5 Million Annually" (Report 2010-04) as the sale of aircraft required by 26 subsection (a) of this section makes the elimination of those facilities feasible. For purposes of 27 this subsection, a lease is terminated if it is allowed to expire and not renewed. Nothing in this 28 subsection requires the termination of a contract existing on the effective date of this subsection 29 unless that contract provides a mechanism for termination that does not constitute a breach of 30 contract.

31 The aircraft operations of the North Carolina Area Health SECTION 2.(c) 32 Education Program (AHEC) of The University of North Carolina System is transferred to the 33 Aviation Management Division of the Department of Transportation. This transfer shall have 34 all of the elements of a Type I transfer, as defined in G.S. 143A-6. The Division shall give 35 notice to Medical Air, Inc., a nonprofit corporation, that AHEC has been transferred to the 36 Division pursuant to this section and that G.S. 143B-364.1(b), as enacted by Section 1(b) of 37 this act, requires that AHEC henceforth arrange for aviation passenger transport services 38 through the Division. The Division shall further request that since Medical Air, Inc., can no 39 longer lawfully provide these services to AHEC, Medical Air, Inc., be dissolved and the aircraft 40 it owns transferred to the Division.

41 **SECTION 2.(d)** The Aviation Management Division shall obtain a more 42 economically desirable means of housing the aircraft of the Division of Forest Resources of the 43 Department of Environment and Natural Resources that are currently housed at the Hickory 44 Regional Airport than the arrangement currently in existence.

45 **SECTION 2.(e)** The Division of Forest Resources in the Department of 46 Environment and Natural Resources shall implement the safety recommendations of aviation 47 consultant Conklin & de Decker that are summarized in Appendix D of the Program Evaluation 48 Division's report entitled "Selling 25 Underutilized Aircraft May Yield Up to \$8.1 Million and 49 Save \$1.5 Million Annually" (Report 2010-04). The Division of Forest Resources shall file 50 quarterly reports with the Aviation Management Division of the Department of Transportation
