The General Assembly of North Carolina enacts:

**SECTION 1.** Commission established. – There is established the Joint Legislative Study Commission on Online Higher Education. The purpose of the Commission is to study the feasibility of implementing an analogue tuition rate and an online education scheme among the constituent institutions of the University System and the State's community colleges that is similar to the Western Governors University. Western Governors University is a nonprofit online university founded by the governors of 19 states that offers competency-based degree programs.

**SECTION 2.** Membership. – The Commission shall consist of 13 members as follows:

**SECTION 3.** Duties of commission. – The Commission shall study the current online education classes, courses of study, and certificate and degree programs offered by constituent institutions of The University of North Carolina and by the State's community colleges; the tuition and fees charged for those classes, courses of study, and programs; the data regarding the accessibility, affordability, and quality of those online offerings; and the student demand for online education. The Commission shall assess the feasibility of establishing an online university, similar to the Western Governors University, that would be a separately accredited institution but that would use and build on the base of online education offerings currently provided through the State's University System and community college system. The Commission shall evaluate the role that an online university may fill with regard to the accessibility, affordability, and quality of education for students. In its study, the Commission shall consider all of the following:

- 1 (1) The type of programs and degrees that may be offered by an online  
2 university and whether degree programs should be competency-based or  
3 credit hour-based.
- 4 (2) The students who would be served by an online university.
- 5 (3) The governance of an online university.
- 6 (4) Funding of an online university.
- 7 (5) The role, if any, of private corporations in funding and designing an online  
8 university and the curriculum for the online university.
- 9 (6) The faculty required for an online university and the role of faculty at the  
10 online university.
- 11 (7) Academic program governance.
- 12 (8) Admissions and general admission requirements.
- 13 (9) The type of college readiness assessment that may be appropriate.
- 14 (10) Central library and textbook requirements of students.
- 15 (11) Student affordability of education at an online university, including tuition,  
16 fees, and textbook costs.
- 17 (12) Accreditation and recognition issues.
- 18 (13) Whether an online university, if established, should be limited to the  
19 resources available through North Carolina's public institutions of higher  
20 education or whether an online university should be expanded to include  
21 other states and their public institutions of higher education and, if so, at  
22 what rate and how this type of expansion should be implemented.
- 23 (14) Any other issues the Commission deems relevant to this study.

24 **SECTION 4.** Cochairs. – The Commission shall have two cochairs, one designated
