personnel, and teacher assistants assigned to the school building, and parents of children enrolled in the school shall constitute a school improvement team to develop a school improvement plan to improve student performance. Representatives of the assistant principals, instructional personnel, instructional support personnel, and teacher assistants shall be elected by their respective groups by secret ballot. Unless the local board of education has adopted an election policy, parents shall be elected by parents of children enrolled in the school in an election conducted by the parent and teacher organization of the school or, if none exists, by the largest organization of parents formed for this purpose. Parents serving on school improvement teams shall reflect the racial and socioeconomic composition of the students enrolled in that school and shall not be members of the building level staff. Parental involvement is a critical component of school success and positive student achievement; therefore, it is the intent of the General Assembly that parents, along with teachers, have a substantial role in developing school improvement plans. To this end, school improvement team meetings shall be held at a convenient time to assure substantial parent participation.

All school improvement plans shall be, to the greatest extent possible, data driven. School improvement teams shall use the Education Value Added Assessment System (EVAAS) or a compatible and comparable system approved by the State Board of Education, to analyze student data to identify root causes for problems, to determine actions to address them, and to appropriately place students in courses such as Algebra I. - <del>(b)</del> The strategies for improving student performance:
  - Shall include a plan for the use of staff development funds that may be made available to the school by the local board of education to implement the school improvement plan. The plan may provide that a portion of these funds is used for mentor training and for release time and substitute teachers while mentors and teachers mentored are meeting;
  - Repealed by Session Laws 2012-142, s. 7A.1(c), effective July 2, 2012. (1a)
  - <del>(2)</del> Shall include a plan to address school safety and discipline concerns;
  - (3)May include a decision to use State funds in accordance with G.S. 115C-105.25;
  - <del>(4)</del> Shall include a plan that specifies the effective instructional practices and methods to be used to improve the academic performance of students identified as at risk of academic failure or at risk of dropping out of school;
  - <del>(5)</del> May include requests for waivers of State laws, rules, or policies for that school. A request for a waiver shall meet the requirements of G.S. 115C-105.26;
  - Shall include a plan to provide a duty-free lunch period for every teacher on <del>(6)</del> a daily basis or as otherwise approved by the school improvement team; and
  - <del>(7)</del> Shall include a plan to provide duty free instructional planning time for every teacher under G.S. 115C-301.1, with the goal of providing an average of at least five hours of planning time per week.
- Support among affected staff members is essential to successful implementation of a school improvement plan to address improved student performance at that school. The principal of the school shall present the proposed school improvement plan to all of the principals, assistant principals, instructional personnel, instructional support personnel, and teacher assistants assigned to the school building for their review and vote. The vote shall be by secret ballot. The principal shall submit the school improvement plan to the local board of education only if the proposed school improvement plan has the approval of a majority of the staff who voted on the plan.

1 2 The local board shall not make any substantive changes in any school improvement plan that it 3 accepts. If the local board rejects a school improvement plan, the local board shall state with 4 specificity its reasons for rejecting the plan; the school improvement team may then prepare 5 another plan, present it to the principals, assistant principals, instructional personnel, 6 instructional support personnel, and teacher assistants assigned to the school building for a 7 vote, and submit it to the local board to accept or reject. If no school improvement plan is 8 accepted for a school within 60 days after its initial submission to the local board, the school or 9 the local board may ask to use the process to resolve disagreements recommended in the 10 guidelines developed by the State Board under G.S. 115C-105.20(b)(5). If this request is made, both the school and local board shall participate in the process to resolve disagreements. If 11 12 there is no request to use that process, then the local board may develop a school improvement 13 plan for the school. school improvement plan to the maximum extent possible when developing such a plan. A school improvement plan shall remain in effect for no more than two years; however, the school improvement team may amend the plan as often as is necessary or appropriate. If, at any time, any part of a school improvement plan becomes unlawful or the local board finds that a school improvement plan is impeding student performance at a school, the local board may vacate the relevant portion of the plan and may direct the school to revise that portion. The procedures set out in this subsection shall apply to amendments and revisions to school improvement plans.

At the end of the fiscal year, the principal shall make available to all affected personnel a report of all disbursements from the building level staff development funds, and the superintendent shall make available to all affected personnel a report of all disbursements at the system level of staff development funds.

# "§ 115C-105.32. Parent involvement programs and conflict resolution programs as part of school improvement plans.curriculum implementation plans.

A school is encouraged to include a comprehensive parent involvement program as part of its school improvement plan under G.S. 115C 105.27. curriculum implementation plan. The State Board of Education shall develop a list of recommended strategies that it determines to be effective, which building level committees may use to establish parent involvement programs designed to meet the specific needs of their schools. The Board shall make the list available to local school administrative units and school buildings by the beginning of the 1994 95 school year.

A school is encouraged to review its need for a comprehensive conflict resolution program as part of the development of its school improvement plan under G.S. 115C-105.27. If a school determines that this program is needed, it may select from the list developed by the State Board of Education under G.S. 115C 81(a4) or may develop its own materials and curricula to be approved by the local board of education.curriculum implementation plan.

## "§ 115C-105.33. Safe and orderly schools.

A school improvement team or a parent organization at a school may ask the local board of education to provide assistance in promoting or restoring safety and an orderly learning environment at a school. The school improvement team or parent organization shall file a copy of this request with the State Board. If the local board fails to provide adequate assistance to the school, then the school improvement team or parent organization may ask the State Board to provide an assistance team to the school.

The State Board may provide an <u>assistance</u> <u>auditing</u> team, established under G.S. 115C-105.38, to a school in order to promote or restore safety and an orderly learning environment at that school if <del>one of the following applies:</del>

- (1) The the local board of education or superintendent requests that the State Board provide an assistance auditing team to a school and the State Board determines that the school needs assistance from the auditing team.
- (2) The State Board determines within 10 days after its receipt of the request for assistance from a school improvement team or parent organization of a school that the school needs assistance and that the local board has failed to provide adequate assistance to that school.

If an <u>assistance auditing</u> team is assigned to a school under this section, the team shall spend a sufficient amount of time at the school to assess the problems at the school, assist school personnel with resolving those problems, and work with school personnel and others to develop a long-term plan for restoring and maintaining safety and an orderly learning environment at the school. The <u>assistance auditing</u> team also shall make recommendations to the local board of education and the superintendent on actions the board and the superintendent should consider taking to resolve problems at the school. These recommendations shall be in writing and are public records. If an <u>assistance auditing</u> team is assigned to a school under this section, the powers given to the State Board and the <u>assistance auditing</u> team under G.S. 115C-105.38 and G.S. 115C-105.39 shall apply as if the school had been identified as low-performing under this Article.

"Part 3. School-Based Accountability.

#### "§ 115C-105.35. Annual performance goals.

(a) The School-Based Management and Accountability Program <u>developed by the local school administrative unit in its curriculum implementation plan</u> shall (i) focus on student performance in the basics of reading, mathematics, and communications skills in elementary and middle schools, (ii) focus on student performance in courses required for graduation and on other measures required by the State Board in the high schools, and (iii) hold schools accountable for the educational growth of their students. To those ends, the State Board shall design and implement an accountability system that sets annual performance standards for each school in the State in order to measure the growth in performance of the students in each individual school. During the 2004-2005 school year and at least every five years thereafter, the State Board shall evaluate the accountability system and, if necessary, modify the testing standards to assure the testing standards continue to reasonably reflect the level of performance necessary to be successful at the next grade level or for more advanced study in the content area.

As part of this evaluation, the Board shall, where available, review the historical trend data on student academic performance on State tests. To the extent that the historical trend data suggest that the current standards for student performance may not be appropriate, the State Board shall adjust the standards to assure that they continue to reflect the State's high expectations for student performance.appropriate in a local school administrative unit, the State Board of Education shall assign an auditing team to the unit.

- (b) For purposes of this Article, the State Board shall include a "closing the achievement gap" component in its measurement of educational growth in student performance for each school. The "closing the achievement gap" component shall measure and compare the performance of each subgroup in a school's population to ensure that all subgroups as identified by the State Board are meeting State standards.
- (c) The State Board shall consider incorporating into the School Based Management and Accountability Program a character and civic education component which may include a requirement for student councils.

### "§ 115C-105.36. Performance recognition.

- (a) The personnel in schools that achieve a level of expected growth greater than one hundred percent (100%) at a level to be determined by the State Board of Education are eligible for financial awards in amounts set by the State Board. Schools and personnel shall not be required to apply for these awards. For the purpose of this section, "personnel" includes the principal, assistant principal, instructional personnel, instructional support personnel, and teacher assistants (i) serving students in one or more of the grades kindergarten through 12 or (ii) assigned to a public school prekindergarten program that is located within a public elementary school and is designed to prepare students for kindergarten at that school.
- (b) The State Board shall establish a procedure to allocate the funds for these awards to the local school administrative units in which the eligible schools are located. Funds shall become available for expenditure July 1 of each fiscal year. Funds shall remain available until November 30 of the subsequent fiscal year for expenditure for awards to the personnel. Each local school administrative unit is encouraged to make these awards to each eligible person no later than the first regular teacher payroll following the local unit's receipt of the funds, and shall make these awards to each eligible person no later than the second regular teacher payroll following the local unit's receipt of the funds.

# "§ 115C-105.37. Identification of low-performing schools.

- (a) The State Board of Education shall design and implement a procedure to identify low-performing schools on an annual basis. Low-performing schools are those in which there is a failure to meet the minimum growth standards, standards based on the tests administered pursuant to G.S. 115C-174.11, as defined by the State Board, and a majority of students are performing below grade level.
- By July 10 of each year, each local school administrative unit shall do a preliminary analysis of test results to determine which of its schools the State Board may identify as low-performing under this section. The superintendent then shall proceed under G.S. 115C-105.39. In addition, within 30 days of the initial identification of a school as low-performing by the local school administrative unit or the State Board, whichever occurs first, the superintendent shall submit to the local board a preliminary plan for appropriately implementing the curriculum implementation plan or modifying it to addressing address the needs of that school, including how the superintendent and other central office administrators will work with the school and monitor the school's progress. Within 30 days of its receipt of this plan, the local board shall vote to approve, modify, or reject this plan. Before the board makes this vote, it shall make the plan available to the public, including the personnel assigned to that school and the parents and guardians of the students who are assigned to the school, and shall allow for written comments. The board shall submit the plan to the State Board within five days of the board's vote. The State Board shall review the plan expeditiously and, if appropriate, may offer recommendations to modify the plan. The local board shall consider any recommendations made by the State Board.
- (b) Each school that the State Board identifies as low-performing shall provide written notification to the parents of students attending that school. The written notification shall include a statement that the State Board of Education has found that the school has "failed to meet the minimum growth standards, as defined by the State Board, and a majority of students

in the school are performing below grade level." This notification also shall include information about the plan developed under subsection (a1) of this section and a description of any additional steps the school is taking to improve student performance.

# "§ 115C-105.37A. Continually low-performing schools; definition; assistance and intervention; reassignment of students.

- (a) Definition of Continually Low-Performing Schools. A continually low-performing school is a school that has received State-mandated assistance and has been designated by the State Board as low performing for at least two of three consecutive years. If the State Board identifies a school as continually low performing:performing,
  - (1) The school improvement team at that school shall review its school improvement plan to ensure consistency with the plan adopted pursuant to G.S. 115C-105.38(b)(3), and
  - (2) The the curriculum implementation plan for the local school administrative unit must be reviewed and approved reapproved by the State Board of Education.
- (b) Assistance to Schools That Are Low Performing for Two Years. If a school that has received State-mandated assistance is designated by the State Board as low performing for two consecutive years or for two of three consecutive years, the State Board shall provide a series of progressive assistance and intervention strategies to that school. These strategies shall be designed to improve student achievement and to maintain student achievement at appropriate levels and may include, to the extent that funds are available for this purpose, assistance such as reductions in class size, extension of teacher and assistant principal contracts, extension of the instructional year, and grant-based assistance.
- (c) Intervention in Schools That Are Low Performing for Three or More Years. The State Board of Education shall develop and implement a series of actions for providing assistance and intervention to schools that have previously received State-mandated assistance and have been designated by the State Board as low performing for three or more consecutive years or for at least three out of four years. These actions shall be the least intrusive actions that are consistent with the need to improve student achievement at each such school and shall be adapted to the unique characteristics of each such school and the effectiveness of other actions developed or implemented to improve student achievement at each such school.

#### "§ 115C-105.37B. Reform of continually low-performing schools.

(a) Notwithstanding any other provision of this Article, the State Board of Education is authorized to approve a local board of education's request to reform any school in its administrative unit which the State Board of Education has identified as one of the continually low-performing schools in North Carolina.

If the State Board of Education approves a local board of education's request to reform a school, the State Board of Education may authorize the local board of education to adopt one of the following models models, which shall be included in the annual update to its curriculum implementation plan, in accordance with State Board of Education requirements:

- (1) Transformation model, which would address the following four specific areas critical to transforming a continually low-performing school:
  - a. Developing and increasing teacher and school leader effectiveness.
  - b. Comprehensive instructional reform strategies.
  - c. Increasing learning time and creating community-oriented schools.
  - d. Providing operational flexibility and sustained support.
- (2) Restart model, in which the State Board of Education would authorize the local board of education to operate the school with the same exemptions from statutes and rules as a charter school authorized under Part 6A of Article 16 of this Chapter, or under the management of an educational management organization that has been selected through a rigorous review

process. A school operated under this subdivision remains under the control of the local board of education, and employees assigned to the school are employees of the local school administrative unit with the protections provided by G.S. 115C-325.

- (3) Turnaround model, which would involve, among other actions, replacing the principal, if the principal has been in that position for at least three years, and rehiring no more than fifty percent (50%) of the school's staff, adopting a new governance structure at the school consistent with this Article, and implementing an instructional program aligned with the Standard Course of Study.

(4) School closure model, in which a local school administrative unit would close the school consistent with G.S. 115C-72 and enroll the students who attended the school in other, higher-achieving schools in the local school administrative unit consistent with Article 25 of this Chapter.

(b) The State Board of Education shall adopt rules to develop requirements for the models for school reform established in subsection (a) of this section.

(c) The State Board shall establish a procedure to implement this section. This procedure shall include annual reporting requirements from local boards that are authorized to use one of the models under this section and shall include a procedure for removing or continuing the authorization.

(d) Nothing in this section shall be construed to limit the authority of a local board of education as otherwise provided in this Chapter.

## "§ 115C-105.38. Assistance Auditing teams; review by State Board.

(a) The State Board of Education may assign an assistance auditing team to any school identified as low-performing under this Article or Article, to any other school that requests an assistance team and that the State Board determines would benefit from an assistance team, or to any other school or local school administrative unit that the State Board deems necessary. The State Board shall give priority to low-performing schools in which the educational performance of the students is declining. The Department of Public Instruction shall, with the approval of the State Board, provide staff as needed and requested by an assistance team.

 (b) When assigned to an identified low-performing school, an assistance team shall:

 (1) Review and investigate all facets of school operations and assist in developing recommendations for improving student performance at that school.

(2) Evaluate at least semiannually the personnel assigned to the school and make findings and recommendations concerning their performance.

 (3) Collaborate with school staff, central offices, and local boards of education in the design, implementation, and monitoring of a plan that, if fully implemented, can reasonably be expected to alleviate problems and improve student performance at that school.

(4) Make recommendations as the school develops and implements this plan.

 (5) Review the school's progress.

(6) Report, as appropriate, to the local board of education, the community, and the State Board on the school's progress. If an assistance team determines that an accepted school improvement plan developed under G.S. 115C 105.27 the curriculum implementation plan is impeding student performance at a school, the team may recommend to the local board that it vacate the relevant portions of that plan and direct the school-local school administrative unit to revise those portions.

- (b1) Report to the State Board of Education if a school and its local board of education are not responsive to the team's recommendations. A copy of that report shall be made available to the local board, and the local board shall have an opportunity to respond. Notwithstanding G.S. 115C-36 and other provisions of this Chapter, if the State Board confirms that the school and local board have failed to take appropriate steps to improve student performance at that school, school or to remedy what the State Board deems to be serious deficiencies in the curriculum implementation plan or its implementation, the State Board shall assume all powers and duties previously conferred upon that local board and that school and shall have general control and supervision of all matters pertaining to that school until student performance at the school meets or exceeds the standards set for the school. The State Board may, as it considers appropriate, delegate any powers and duties to that local board or school before the school meets or exceeds those standards.
- (c) If a school fails to improve student performance or to remedy the deficiencies in the curriculum implementation plan or is implementation after assistance is provided under this section, the assistance auditing team may recommend that the assistance continues or that the State Board take further action under G.S. 115C-105.39.
- (d) The State Board shall annually review the progress made in identified low-performing schools.

#### "§ 115C-105.38A. Teacher competency assurance.

- (a) General Knowledge Test.
  - Each assistance team assigned to a low performing school during the 1997-98 school year shall review the team's evaluations of certified staff members to determine which staff members have been designated by the team as Category 3 teachers. The assistance team shall then determine whether lack of general knowledge contributed to the Category 3 designation. If the assistance team determines that a certified staff member's lack of general knowledge contributed to that staff member being designated as a Category 3 teacher, the assistance team shall submit the staff member's name to the State Board. Upon receipt of the notification, the State Board shall require that the certified staff members identified by the assistance teams demonstrate their general knowledge by acquiring a passing score on a test designated by the State Board. The State Board shall administer the general knowledge test required under this subdivision at the end of the 1997-98 school year.
  - (2) During the 1998-99 school year and thereafter, either the principal assigned to a low performing school or the assistance team assigned to a low-performing school may recommend to the State Board that a certified staff member take a general knowledge test. A principal or an assistance team may make this recommendation if the principal or the assistance team determines that the certified staff member's performance is impaired by the staff member's lack of general knowledge. After receipt of the notification, but prior to the end of the fiscal year, the State Board shall require that all certified staff members identified under this subdivision demonstrate their general knowledge by acquiring a passing score on a test designated by the State Board.
- (b) Repealed by Session Laws 1998-5, s. 1.
- (c) Remediation. Certified staff members who do not acquire a passing score on the test required under subsection (a) of this section shall engage in a remediation plan based upon the deficiencies identified by the test, or an assistance team, or a principal. The remediation plan for deficiencies of individual certified staff members shall consist of up to a semester of university or community college training or coursework or other similar activity to correct the

# "§ 115C-105.39. Dismissal or removal of personnel; appointment of interim superintendent.

(a) Within 30 days of the initial identification of a school as low-performing, whether by the local school administrative unit under G.S. 115C-105.37(a1) or by the State Board under G.S. 115C-105.37(a), the superintendent shall take one of the following actions concerning the school's principal: (i) recommend to the local board that the principal be retained in the same position, (ii) recommend to the local board that the principal be retained in the same position and a plan of remediation should be developed, (iii) recommend to the local board that the principal be transferred, or (iv) proceed under G.S. 115C-325 to dismiss or demote the principal. The principal may be retained in the same position without a plan for remediation only if the principal was in that position for no more than two years before the school is identified as low-performing. The principal shall not be transferred to another principal position unless (i) it is in a school classification in which the principal previously demonstrated at least 2 years of success, (ii) there is a plan to evaluate and provide remediation to the principal for at least one year following the transfer to assure the principal does not impede student performance at the school to which the principal is being transferred; and (iii) the parents of the students at the school to which the principal is being transferred are notified. The principal shall not be transferred to another low-performing school in the local school administrative unit. If the superintendent intends to recommend demotion or dismissal, the superintendent shall notify the local board. Within 15 days of (i) receiving notification that the superintendent intends to proceed under G.S. 115C-325, or (ii) its decision concerning the superintendent's recommendation, but no later than September 30, the local board shall submit to the State Board a written notice of the action taken and the basis for that action. If the State Board does not assign an assistance team to that school or if the State Board assigns an assistance team to that school and the superintendent proceeds under G.S. 115C-325 to dismiss or demote the principal, then the State Board shall take no further action. If the State Board assigns an assistance team to the school and the superintendent is not proceeding under G.S. 115C-325 to dismiss or demote the principal, then the State Board shall vote to accept, reject, or modify the local board's recommendations. The State Board shall notify the local board of its action within five days. If the State Board rejects or modifies the local board's recommendations and does not

recommend dismissal of the principal, the State Board's notification shall include recommended action concerning the principal's assignment or terms of employment. Upon receipt of the State Board's notification, the local board shall implement the State Board's recommended action concerning the principal's assignment or terms of employment unless the local board asks the State Board to reconsider that recommendation. The State Board shall provide an opportunity for the local board to be heard before the State Board acts on the local board's request for a reconsideration. The State Board shall vote to affirm or modify its original recommended action and shall notify the local board of its action within five days. Upon receipt of the State Board's notification, the local board shall implement the State Board's final recommended action concerning the principal's assignment or terms of employment. If the State Board rejects or modifies the local board's action and recommends dismissal of the principal, the State Board shall proceed under G.S. 115C-325(q)(1).

- (b) The State Board shall proceed under G.S. 115C-325(q)(2) for the dismissal of teachers, assistant principals, directors, and supervisors assigned to a school identified as low-performing in accordance with G.S. 115C-325(q)(2).
- (c) The State Board may appoint an interim superintendent in a local school administrative unit:
  - (1) Upon the identification of more than half the schools in that unit as low-performing under G.S. 115C-105.37; or
  - (2) Upon the recommendation from an assistance team assigned to a school located in that unit that has been identified as low-performing under G.S. 115C-105.37. This recommendation shall be based upon a finding that the superintendent has failed to cooperate with the assistance team or has otherwise hindered that school's ability to improve.

The State Board may assign any of the powers and duties of the local superintendent and the local finance officer to the interim superintendent that the Board considers are necessary or appropriate to improve student performance in the local school administrative unit. The interim superintendent shall perform all of these assigned powers and duties. The State Board of Education may terminate the contract of any local superintendent entered into on or after July 1, 1996, when it appoints an interim superintendent. The Administrative Procedure Act shall apply to that decision. Neither party to that contract is entitled to damages.

- (d) In the event the State Board has appointed an interim superintendent and the State Board determines that the local board of education has failed to cooperate with the interim superintendent or has otherwise hindered the ability to improve student performance in that local school administrative unit or in a school in that unit, the State Board may suspend any of the powers and duties of the local board of education that the State Board considers are necessary or appropriate to improve student performance in the local school administrative unit. The State Board shall perform all of these assigned powers and duties for a period of time to be specified by the State Board.
- (e) If the State Board suspends any of the powers and duties of the local board of education under subsection (d) of this section and subsequently determines it is necessary to change the governance of the local school administrative unit in order to improve student performance, the State Board may recommend this change to the General Assembly, which shall consider, at its next session, the future governance of the identified local school administrative unit.
- (f) The State Board may also proceed under this section to dismiss or remove personnel if it finds that there are serious deficiencies in a curriculum implementation plan or its implementation.

performance standards for courses in grades 9-12. The performance standards shall align, whenever possible, with the student academic performance standards developed for the National Assessment of Educational Progress (NAEP). The plan also shall include clear and understandable methods of reporting individual student academic performance to parents.

# "§ 115C-105.41. Students who have been placed at risk of academic failure; personal education plans; transition teams and transition plans.

In order to implement Part 1A of Article 8 of this Chapter, local school <del>(a)</del> administrative units shall identify students who are at risk for academic failure and who are not successfully progressing toward grade promotion and graduation, beginning in kindergarten. Identification shall occur as early as can reasonably be done and can be based on grades, observations, diagnostic and formative assessments, State assessments, and other factors, including reading on grade level, that impact student performance that teachers and administrators consider appropriate, without having to await the results of end-of-grade or end of course tests. No later than the end of the first quarter, or after a teacher has had up to nine weeks of instructional time with a student, a personal education plan for academic improvement with focused intervention and performance benchmarks shall be developed or updated for any student at risk of academic failure who is not performing at least at grade level, as identified by the State end-of-grade test and other factors noted above. Focused instructional supports and services, reading interventions, and accelerated activities should include evidence based practices that meet the needs of students and may include coaching, mentoring, tutoring, summer school, Saturday school, and extended days. Local school administrative units shall provide these activities free of charge to students. Local school administrative units shall also provide transportation free of charge to all students for whom transportation is necessary for participation in these activities.

Local school administrative units shall give notice of the personal education plan and a copy of the personal education plan to the student's parent or guardian. Parents should be included in the implementation and ongoing review of personal education plans. If a student's school report card provides all the information required in a personal education plan, then no further personal education plan is mandated for the student.

Local school administrative units shall certify that they have complied with this section annually to the State Board of Education. The State Board of Education shall periodically review data on the progress of identified students and report to the Joint Legislative Education Oversight Committee.

No cause of action for monetary damages shall arise from the failure to provide or implement a personal education plan under this section.

(b) Local boards of education shall adopt and implement plans for the creation of transition teams and transition plans for students at risk, as defined by the State Board of Education, to assist them in making a successful transition between the elementary school and middle school years and between the middle school and high school years."
