It is the intent of the General Assembly for an equitable portion of funds allocated in this section to be used for the benefit of historically underutilized small businesses. The following shall apply to the program and loans made under the program:

- (1) Golden LEAF shall require a lender to provide assistance to, or direct to an appropriate entity that provides assistance to, a qualifying business with applying for available federal assistance.
- (2) Golden LEAF shall require a lender to prioritize loans for establishments (i) with 100 or fewer full-time equivalent employees determined as of the State of Emergency (ii) that are independently owned by a qualifying business.
- (3) Golden LEAF shall work with the N.C. Small Business Center Network, the Office of Historically Underutilized Businesses within the Department of Administration, the N.C. Small Business and Technology Development Center, the Institute of Minority Economic Development, Inc., and other similar entities with the goal of ensuring all qualifying businesses are aware of the program.
- (4) The loan shall have an interest rate of up to four percent (4%) before the date of a triggering event and an interest rate of at least five and one-half percent (5.5%) on and after the date of a triggering event.
- (5) The term of the loan shall not exceed 66 months and shall be amortized over the term of the loan.
- (6) A qualifying business shall certify in writing that it will use a loan provided under the program for employee compensation, mortgage, rent, utilities, and other operating costs and expenses incurred on behalf of a business located in this State.
- (7) A loan provided under the program is limited to no more than fifty thousand dollars (\$50,000) per qualifying business.

- (9) Loans are made pursuant to an agreement with a qualifying business that includes at least the following:

- 1 e. A provision requiring recapture of loans funds if a business fails to
2 comply with the requirements of the program. The lender shall

22 the Plan and effectively communicating the Plan to all involved parties.
- 23 (2) Training for teachers and staff on effective use of the remote instruction
24 resources utilized by the public school unit and the process for student
25 submission of completed work. The Plan shall identify any learning
26 management system, online instructional resource, or offline instructional
27 resource that will be made available to all students in a grade-level across the
28 public school unit.

6 each grade level, including deadlines for submission of assignments and
7 methods to assess and grade learning during remote instruction.
- 8 (10) Ensuring that students with disabilities have equal access to the remote
