23 protocols, significantly reduce the chance of preventing death or serious  
24 physical harm.

25 (3) Public safety answering point. – Defined in G.S. 143B-1400.

26 (4) Wireless service provider. – A commercial mobile radio service provider, as

32 the requesting law enforcement agency or public safety answering point. The highest ranking  
33 person on duty for the law enforcement agency or public safety answering point may request data  
34 under this section only in an emergency situation that involves an imminent risk of death or

1 serious physical harm and may only request the amount of data reasonably necessary to prevent  
2 the imminent death or serious physical harm.

3 (c) A wireless service provider may establish procedures for voluntary disclosure of call  
4 location data.

5 (d) A civil action may not be brought in any court against any wireless service provider  
6 or any other person for providing call location data if the provider acted in good-faith reliance  
7 upon the representations of the law enforcement agency or public safety answering point and as  
8 required by this section.

9 (e) All wireless service providers registered to do business in the State shall submit  
10 emergency contact information to the State Bureau of Investigation in order to facilitate requests

13 (f) The State Bureau of Investigation shall maintain a database containing emergency
