SECTION 2.(b) Requirements. – Programs should focus on serving (i) at-risk students not performing at grade level as demonstrated by statewide assessments or not on-track to meet year-end expectations, as demonstrated by existing indicators, including teacher identification, (ii) students at risk of dropout, and (iii) students at risk of school displacement due to suspension or expulsion as a result of antisocial behaviors. A nonprofit corporation may act as its own fiscal agent for the purposes of receipt of these funds. The purpose of the program is to fund high-quality, independently validated extended learning and integrated student support service programs for at-risk students whose learning has been negatively affected by COVID-19 impacts. The programs funded should raise standards for student academic outcomes by focusing on the following:

(1) Use of an evidence-based model with a proven track record of success.

(2) Inclusion of rigorous, quantitative performance measures to confirm effectiveness of the program.

(3) Deployment of multiple tiered supports in schools to address student barriers to achievement, such as strategies to improve chronic absenteeism, antisocial
behaviors, academic growth, and enhancement of parent and family engagement.

(4) Alignment with State performance measures, student academic goals, and the North Carolina Standard Course of Study.

(5) Prioritization in programs to integrate clear academic content, in particular, science, technology, engineering, and mathematics (STEM) learning opportunities or reading development and proficiency instruction.

(6) Minimization of student class size when providing instruction or instructional supports and interventions.

The Department of Public Instruction shall provide a report on the program to the Joint Legislative Education Oversight Committee by February 15, 2023. The report shall include the results of the program and recommendations regarding effective program models, standards, and performance measures based on student performance; leveraging of community based resources to expand student access to learning activities; academic and behavioral support services; and potential opportunities for the State to invest in proven models for future grants programs.
