(1) $500,000 shall be transferred to the Department of Natural and Cultural Resources to be allocated to the State Library for the NC Kids Digital Library project to address learning loss resulting from the COVID-19 pandemic by providing children with increased access to digital learning resources in public libraries, including e-books, audiobooks, and videos.

(2) $500,000 to be allocated to the Governor Morehead School for the Blind, Eastern North Carolina School for the Deaf, and North Carolina School for the Deaf for school nutrition, cleaning and sanitizing, learning resources, including providing new instructional materials in braille for students with visual impairments, compensatory services, and Extended School Year Services related to the impacts of COVID-19.

(3) $1,000,000 to be transferred to the Board of Governors of The University of North Carolina for the North Carolina New Teacher Support Program to provide mentoring and coaching support to beginning teachers who are employed in public schools most impacted by COVID-19 at no cost to the local school administrative units.

(4) $1,000,000 to contract with a third-party entity to collect, analyze, and report data related to the overall impacts of COVID-19 on public school units, students, and families of the State, including the State's responsiveness to the COVID-19 pandemic, the transition to remote learning and return to in-person instruction, the systems in place for flexibility in education delivery, assessment of student performance, addressing issues of learning loss, teacher effectiveness and supports, and implementation of best practices and improvements for any significant future challenges. The Department shall submit a preliminary report by March 15, 2022, and a final report by December 15, 2022, to the Joint Legislative Education Oversight Committee on the findings of the third-party entity from the contract required by this subdivision.

(5) $1,200,000 to be transferred to the Wildlife Resources Commission to be allocated to the Outdoor Heritage Special Fund (Budget Code: 24351; Fund Code: 2291) for the Outdoor Heritage Advisory Council's NC Schools Go Outside grant program to provide local opportunities for young people to reengage with learning experiences in safe outdoor settings.

(6) Up to $10,000,000 to be allocated as needed to each public school unit in the State, except for schools operated by the State Board of Education, to ensure that each public school unit receives a total amount from the Elementary and Secondary School Emergency Relief II (ESSER II) Fund of at least one hundred eighty dollars ($180.00) per pupil in federal grant funds according to the following:

a. If a public school unit did not receive funds pursuant to subsection (c) of Section 313 of P.L. 116-260, the public school unit shall receive an amount equal to one hundred eighty dollars ($180.00) per pupil.

b. If a public school unit received funds pursuant to subsection (c) of Section 313 of P.L. 116-260, the per pupil amount allocated under this subdivision shall be reduced so that (i) the total amount in federal grant funds from the ESSER II Fund is equal to one hundred eighty dollars.
($180.00) per pupil or (ii) the public school unit receives no additional
funding because the total amount from the ESSER II Fund would
exceed one hundred eighty dollars ($180.00) per pupil.

The federal grant funds allocated under this subdivision shall be used for the
purpose of responding to the impacts of COVID-19, including mitigating
learning loss and reopening schools.

(7) $10,000,000 to be allocated in a manner consistent with the formula for the

prioritized to public school units based on need as demonstrated by the
expenditure of existing federal funding received for COVID-19 related
impacts.

(9) $1,000,000, in response to COVID-19, to contract with a third-party entity to
conduct a statewide assessment of the cybersecurity capabilities of public
schools and threats posed to public schools. In selecting a third-party entity to
conduct the assessment, the Department shall not consider any entity currently
under contract with the Department to provide services related to
cybersecurity. No later than June 20, 2021, the Department shall
confidentially report the results of the assessment conducted by the third-party
entity to the chairs of the Senate Appropriations/Base Budget Committee, the
chairs of the House Appropriations Committee, the chairs of the Senate
Appropriations Committee on General Government and Information

The funds shall be used for training programs to be delivered to educators working with (i) children in the North Carolina Prekindergarten (NC Pre-K) program, in consultation with the Department of Health and Human Services, and (ii) children in kindergarten through fifth grade. Up to fifty percent (50%) of the funds shall be used for the delivery of training programs to educators in a combination of grade levels from NC Pre-K programs through fifth grade during the 2021-2022 school year. The remaining funds shall be used to provide the training programs to educators through those grade levels during the 2022-2023 school year.

$15,000,000 for the Extended Learning and Integrated Student Supports Competitive Grant Program (Program). Of these funds, the Department of Public Instruction may use up to two hundred thousand dollars ($200,000) to administer the Program. The programs funded shall raise standards for student academic outcomes by focusing on the following:

1. Use of an evidence-based model with a proven track record of success.
2. Inclusion of rigorous, quantitative performance measures to confirm effectiveness of the program.
3. Deployment of multiple tiered supports in schools to address student barriers to achievement, such as strategies to improve chronic absenteeism, antisocial behaviors, academic growth, and enhancement of parent and family engagement.
5. Prioritization in programs to integrate clear academic content, in particular, science, technology, engineering, and mathematics (STEM) learning opportunities or reading development and proficiency instruction.
6. Minimization of student class size when providing instruction or instructional supports and interventions.

Grants shall be used to award funds for new or existing eligible programs for at-risk students operated by (i) nonprofit corporations and (ii) nonprofit corporations working in collaboration with local school administrative units. Grant participants are eligible to receive grants in an amount of up to five hundred thousand dollars ($500,000) each year. Programs should focus on serving (i) at-risk students not performing at grade level as demonstrated by statewide assessments or not on track to meet year-end expectations, as demonstrated by existing indicators, including teacher identification, (ii) students at risk of dropout, and (iii) students at risk of school displacement due to suspension or expulsion as a result of antisocial behaviors. Priority consideration shall be given to applications demonstrating models that focus
services and programs in schools that are identified as low-performing, pursuant to G.S. 115C-105.37. A grant participant shall provide certification to the Department of Public Instruction that the grants received under the program shall be matched on the basis of three dollars ($3.00) in grant funds for every one dollar ($1.00) in nongrant funds. Matching funds shall not include State funds. The Department shall also give priority consideration to an applicant that is a nonprofit corporation working in partnership with a local school administrative unit resulting in a match utilizing federal funds under Part A of Title I of the Elementary and Secondary Education Act of 1965, as amended, or Title IV of the Higher Education Act of 1965, as amended, and other federal or local funds. Matching funds may include in-kind contributions for up to fifty percent (50%) of the required match. A nonprofit corporation may act as its own fiscal agent for the purposes of this Program. Grant recipients shall report to the Department of Public Instruction for the year in which grant funds were expended on the progress of the Program, including alignment with State academic standards, data collection for reporting student progress, the source and amount of matching funds, and other measures. Grant recipients shall also submit a final report on key performance data, including statewide test results, attendance rates, graduation rates and promotion rates, and financial sustainability of the program. The Department shall provide a report on the Program to the Joint Legislative Education Oversight Committee by February 15 of each year following the year in which grant funds are awarded. The report shall include the results of the Program and recommendations regarding effective program models, standards, and performance measures based on student performance; leveraging of community-based resources to expand student access to learning activities; academic and behavioral support services; and potential opportunities for the State to invest in proven models for future grants programs. Funds shall be available for grants through the deadline established by applicable federal law and guidance for use of funds from the ESSER II Fund.

(13) $40,000,000 to be held in reserve by the Department to be allocated to public school units to support in-person instruction programs to address learning loss and provide enrichment activities in the summer. The allocation of grants shall be prioritized to public school units based on need, as demonstrated by the expenditure of existing federal funding received for COVID-19 related impacts.

(14) $26,046,144 to be held in reserve by the Department to be allocated to public school units to support COVID-19 related needs, including in-person instruction programs to address learning loss and provide enrichment activities in the summer. The allocation of grants shall be prioritized to public school units based on need, as demonstrated by the expenditure of existing federal funding received for COVID-19 related impacts.

(15) Up to $8,012,955 to be used by the Department for administrative costs.

(16) $1,000,000, in response to COVID-19, to contract with a third-party entity to conduct a statewide assessment of the cybersecurity capabilities of public schools and threats posed to public schools. In selecting a third-party entity to conduct the assessment, the Department shall not consider any entity currently under contract with the Department to provide services related to cybersecurity. The assessment required under this subdivision is confidential and not a public record as defined in G.S. 132-1. No later than June 20, 2021, the Department shall report the results of the assessment conducted by the
third-party entity to the chairs of the Senate Appropriations/Base Budget Committee, the chairs of the House Appropriations Committee, the chairs of the Senate Appropriations Committee on General Government and Information Technology, and the chairs of the House Appropriations Committee on Information Technology. The report submitted by the Department is confidential and not a public record as defined in G.S. 132-1. (17) $9,000,000, in response to COVID-19, to contract with a third-party entity to implement a statewide cybersecurity program to improve the cybersecurity infrastructure of the public schools. The third-party entity shall be a business entity with broad experience in cybersecurity services, including a history of successful contracts in this State and at least one other state, and shall not have its principal office located in the People’s Republic of China or the Russian Federation. Nothing in this subdivision is intended to contravene any existing treaty, law, agreement, or regulation of the United States. The funds shall not be allocated to a public school unit, and the program shall include at least the following components:

a. Funding for all costs related to the following for implementation of the program, as needed: hardware, software, licenses, support, maintenance, training, and labor.

b. Preparation for and understanding of evolving technology and evolving security threats in the State.

c. Adequate review and oversight of the program.

d. Integration among the various elements of the program.

e. Development of systems improving accountability and responsibility related to a security threat or breach.

(18) If, on August 15, 2022, there are any remaining ESSER II funds from the allocations in subdivisions (1) through (11) and (13) and (14) of this section, those funds shall be reallocated to the reserve described under subsection (c1) of Section 5 of this act to be used for expenditure on or after that date to meet additional emergency needs of the elementary and secondary schools of the State, as determined by the State Board of Education."

The recommendation should also include any funds that are not anticipated to be needed for the ten percent (10%) set aside for housing stability services and administrative costs.

SECTION 5.(h) In the event that the actual total amount of federal funds received from the Emergency Rental Assistance program differs from the amount listed in Section 5(b) of S.L. 2021-1, the Office shall distribute the increased or reduced amounts proportionally in accordance with the maximum county allotments.

SECTION 2.22. Section 4.2A of S.L. 2020-4, as enacted by Section 1.1(e) of S.L.
2020-80 and amended by Section 1.4A of S.L. 2020-97, reads as rewritten:
"SECTION 4.2A.(a) Findings. – The General Assembly finds that the COVID-19
emergency has resulted in serious and substantial impacts on the food supply chain. In particular,
small livestock producers in the State have found that bottlenecks and lack of capacity among
the small and independent meat processors and producers of further processed meat products
who serve small livestock producers due to COVID-19 related slowdowns and capacity
reductions have had a substantial negative impact on their ability to have their animals
slaughtered and processed. Seafood processors lack capacity to meet increased and altered
consumer demand for seafood products due to COVID-19 related changes in the market for
seafood and seafood products. The General Assembly further finds that financial assistance to
these processors for physical expansion and facility improvements, for workforce development,
and for the creation of additional processing capacity is necessary to reduce disruptions in the
supply chain for fresh meat and seafood and to help small producers get their product to market.
"
