PART VIII. DIGITAL CHILDREN'S READING INITIATIVE

SECTION 8. The Department of Public Instruction shall develop a Digital Children's Reading Initiative (Initiative) for the purpose of increasing the percentage of school children throughout the State who are reading proficiently by the end of third grade. The Initiative shall be aligned with the Science of Reading and shall reflect the standards taught in each grade level from kindergarten to third grade. The Initiative shall be designed to assist parents, guardians, and family members in cultivating confident, proficient, lifelong readers by providing free tools and resources that can be easily incorporated into everyday life.

The Initiative may utilize existing third-party resources that align with the Science of Reading by providing selected links to thoroughly vetted, high-quality resources that reflect the standard course of study for each grade level. Links shall be specifically categorized by skill deficiency and grade level so that parents, guardians, and family members can be quickly connected to effective resources targeted to each student's needs. The Department of Public Instruction shall frequently monitor all resources linked to the Initiative to ensure that all links are up-to-date and that resources remain consistent with the purpose set out in this section. All resources included in the Initiative shall be available to the public without required login credentials and shall be accessible directly through a prominently displayed area on the homepage of the Department's website. The Initiative shall make home activities, printables, and games available on the following literacy skills, as appropriate for each grade level:

1. Phonemic awareness.
2. Phonics.
3. Vocabulary.
4. Fluency.
5. Comprehension.

No later than January 15, 2022, the Department of Public Instruction shall disseminate the fully developed Digital Children's Reading Initiative to all local school administrative units. Each local school administrative unit shall make Initiative resources accessible directly through a prominently displayed area on the homepage of the unit's website no later than July 1, 2022. Local school administrative units may compile and add additional high-quality resources that meet the requirements of this section to those provided to them by the Department of Public Instruction. Printable activities shall be provided in hard copy by the local school administrative unit to students who do not have digital access at home and may be provided to all students as a supplement to digital resources.

PART IX. PHASE OUT CERTAIN ALTERNATIVE ASSESSMENTS

SECTION 9.(a) G.S. 115C-83.3(2) reads as rewritten:
"(2) "Alternative assessment" means a valid and reliable standardized assessment of reading comprehension, approved by the State Board of Education, that is not the same test as the State-approved standardized test of reading comprehension administered to third grade students. The State Board of Education shall (i) provide several valid and reliable alternative assessments to local school administrative units upon request, (ii) approve valid and reliable alternative assessments submitted by local school administrative units, and (iii) request and establish achievement level ranges for each approved alternative assessment. The State Board of Education shall annually review all alternative assessments to ensure ongoing relevance, validity, and reliability."

SECTION 9.(b) Based on data collected pursuant to G.S. 115C-83.10 and any other data useful for this purpose, the State Board of Education shall analyze the passage rates for alternative assessments in order to determine the comparative utility of each alternative assessment. No later than October 15, 2021, the State Board shall submit a report to the Joint Legislative Education Oversight Committee on the results of its analysis, along with the one alternative assessment it recommends using.

SECTION 9.(c) Subsection (a) of this section applies beginning with the 2022-2023 school year.

PART X. ENHANCE DATA COLLECTION

The template shall include clear designations for each data component reported. A numerical value shall be provided for all data values pertaining to school-wide measures, including those data values reporting fewer than 10 students. Where a measure is disaggregated in a manner that may allow the identity of a student to be disclosed, data values reporting 10 or fewer students may be suppressed to protect student privacy. Data values that are suppressed for this purpose shall be denoted in a different manner than data values left incomplete or unreported. Data values shall be compiled for each data component for each school year, beginning with the 2013-2014 school year, and shall be provided to the Joint Legislative Education Oversight Committee in the uniform template created pursuant to this subsection no later than April 15, 2022.

SECTION 10.(b) G.S. 115C-83.6(a2) reads as rewritten:

"(a2) The Department of Public Instruction shall provide for EVAAS analysis all formative and diagnostic assessment data collected pursuant to this section for kindergarten through third grade. The Department shall use a uniform template for all data collected, and the template shall be used each time data is provided. The template shall include clear designations for each data component reported."

SECTION 10.(c) This section applies beginning with the 2021-2022 school year and shall include the reporting of required data from the 2020-2021 school year.
