A BILL TO BE ENTITLED

AN ACT TO REQUIRE THE USE OF NATIVE NORTH CAROLINA PLANTS AND SEEDS
ON STATE PROPERTY AND HIGHWAYS AND ON LOCAL PROJECTS THAT USE
STATE FUNDS FOR LANDSCAPING.

Whereas, native plants are an important part of North Carolina's natural heritage,
history, and identity; and

Whereas, North Carolina's native plants are indigenous plants that have adapted over
many years to our region and evolved to flourish in the unique geography, hydrology, and
microclimates of our State; and

Whereas, North Carolina contains over 3,900 native plant species, making North
Carolina one of the most diverse states for flora in the Southeast; and

Whereas, twenty-six of those species are extremely rare and considered federally
threatened or endangered; and

Whereas, native plants provide high-quality food and shelter for North Carolina's
native wildlife, including butterflies, bees, and other pollinators, both game and nongame
species; and

Whereas, native plants support over 350 resident and migratory bird species in North
Carolina, many of which are species of concern and face growing threats from climate change;
and

Whereas, North Carolina's native plants and their derivatives have provided foods,
medicines, and other products, from the origin of North Carolina's blueberry industry to
American ginseng exports; and

Whereas, gardens and landscapes composed of North Carolina's native plants require
little or no fertilizers, soil amendments, or pesticides and use less water; and

Whereas, planting, cultivation, and preservation of the State's native plants provide a
natural link to wild land areas present and past, while presenting beauty and benefit and instilling
a greater appreciation for North Carolina's natural heritage; Now, therefore,

The General Assembly of North Carolina enacts:

**DEPARTMENT OF ADMINISTRATION SHALL REQUIRE THE USE OF NORTH
CAROLINA PLANTS ON STATE PROPERTY**

SECTION 1. G.S. 143-341 is amended by adding a new subdivision to read:

"(12) In consultation with university system and community college horticulture
programs and the North Carolina Forestry Association, the Department of
Administration shall require the use of seeds and plants the U.S. Department
of Agriculture has classified as native to North Carolina on all land owned or

1 leased by the State or by any State agency. Exempt from this requirement are
2 (i) nonnative seeds and plants used in landscaping for locations where the
3 primary purpose is crop cultivation, crop and horticulture research, science,

20 of those objectives. For purposes of this subdivision, the term "acceptable"
21 means plants the Department of Transportation determines will maintain a
22 stable and aesthetic roadside, with a strong preference for using plants the U.S.
23 Department of Agriculture has classified as native to North Carolina. None of
