SENATE BILL DRS45147-NBa-135

Short Title:	Transport	ation Resiliency Fund Mods./Disaster.	(Public)	
Sponsors:	Senator C	orbin (Primary Sponsor).		
Referred to:				
		A BILL TO BE ENTITLED		
AN ACT TO MODIFY THE TRANSPORTATION INFRASTRUCTURE RESILIENCY				
FUND GRANT PROGRAM.				
The General Assembly of North Carolina enacts:				
SECTION 1. Section 5.9(h) of S.L. 2021-180 reads as rewritten:				
		Transportation Infrastructure Resiliency Fund Grant Progra	ım – The	
Division of Emergency Management shall administer a grant program using funds appropriated				
to the Transportation Infrastructure Resiliency Fund, as established in subsection (g) of this				
section, that allows State agencies, units of local government, metropolitan planning				
organizations, rural planning organizations, councils of governments, and nonprofit corporations				
to apply for funds to ensure transportation resilience against natural disasters. Of the funds				
available in the Fund, no individual grant shall account for more than ten percent (10%) of the				
available funds, or twenty percent (20%) of the total available funds for awards of regional				
significance. For the purposes of this section, the term "regional significance" means a				
transportation project that serves regional transportation needs, including access to and from (i)				
the area outside the region, (ii) major activity centers in the region, and (iii) major planned				
developments, and would normally be included in the modeling of the metropolitan area's				
transportation network. The Division of Emergency Management shall consult with the				
Department of Transportation prior to awarding grants to State agencies, units of local				
government, a	and nonpro	fit corporations. Funds may be used for any of, and activities	consistent	
with, the follo	wing:			
(1)) Projec	ets that update and prepare transportation infrastructure for	or storms,	
mudslides, rock slides, and flooding events taking projections of future risk				
	into c	onsideration. To account for future risk, applicants for fun	ding may	
	incorp	porate the following considerations into the design of the projection	ect:	
	<u>a.</u>	Forward-looking data or modeling that incorporates future	<u>e weather</u>	
		event occurrence and severity.		
	<u>b.</u>	Additional elevation of the project above base-flood elevat		
		regulatory flood protection elevation required by State lav		
		floodplain management regulations or design standards, inc	luding the	
		North Carolina State Building Code.		
	<u>c.</u>	Whether the location of the project is in or adjacent to a floo		
(2)		assessments for critical transportation routes, building on ex		
	future	reports such as the I-95 and I-40 Flood Resilience Feasibility	Study.	

Creating community-informed flood risk and vulnerability assessments that

identify resilience gaps and project opportunities for transportation routes in

1	North Carolina to help maintain vital transportation functions following
2	flooding events.
3	(4) Funds may be utilized as part of a nonfederal match when incorporating flood
4	resilience into federally funded transportation infrastructure projects."
5	SECTION 2.(a) There is appropriated from the State Emergency Response and
6	Disaster Relief Reserve to the Transportation Infrastructure Resiliency Fund, as established in
7	Section 5.9(g) of S.L. 2021-180, the nonrecurring sum of fifty million dollars (\$50,000,000) to
8	be administered by the Department of Public Safety, Division of Emergency Management, for
9	purposes consistent with Section 5.9(h) of S.L. 2021-180, as amended by Section 1 of this act.
10	SECTION 2.(b) The reporting requirements set forth in Section 5.9(t) of S.L.
11	2021-180, and the limitations set forth in Section 5.9(u) of S.L. 2021-180, apply to funds
12	appropriated in this act.
13	SECTION 3. This act becomes effective July 1, 2023.
