GENERAL ASSEMBLY OF NORTH CAROLINA SESSION 2023

## S

## SENATE BILL DRS45311-CC-9A

| Short Title: | Definitions for Advanced Recycling.                       | (Public) |
|--------------|---|----------|
| Sponsors:    | Senators Sawrey, Craven, and Overcash (Primary Sponsors). |          |
| Referred to: |   |          |

| 1        |   | A BILL TO BE ENTITLED  |  |  |  |
|----------|---|--|--|--|--|
| 2        | AN ACT TO EX  | XEMPT ADVANCED RECYCLING FACILITIES FROM SOLID WASTE   |  |  |  |
| 3        | PERMITTING REQUIREMENTS.  |  |  |  |  |
| 4        | The General Asso  | embly of North Carolina enacts:  |  |  |  |
| 5        | SECT  | <b>FION 1.(a)</b> G.S. 130A-290 reads as rewritten:  |  |  |  |
| 6        | "§ 130A-290. De   | efinitions.  |  |  |  |
| 7        | "(a) Unless a different meaning is required by the context, the following definitions shall |  |  |  |  |
| 8        | apply throughout  | this Article:  |  |  |  |
| 9        |   |  |  |  |  |
| 10       | (24)  | "Recovered material" means a material that has known recycling potential,  |  |  |  |
| 11       |   | can be feasibly recycled, and has been diverted or removed from the solid  |  |  |  |
| 12       |   | waste stream for sale, use, or reuse. In order to qualify as a recovered material,   |  |  |  |
| 13       |   | a material must meet the requirements of G.S. 130A-309.05(c). Recovered  |  |  |  |
| 14       |   | material includes post-use polymers and recovered feedstocks that are  |  |  |  |
| 15       |   | processed at an advanced recycling facility or held at such facility prior to  |  |  |  |
| 16       |   | processing.  |  |  |  |
| 17       |   |  |  |  |  |
| 18       | (35)  | "Solid waste" means any hazardous or nonhazardous garbage, refuse or sludge  |  |  |  |
| 19       |   | from a waste treatment plant, water supply treatment plant or air pollution  |  |  |  |
| 20       |   | control facility, domestic sewage and sludges generated by the treatment   |  |  |  |
| 21       |   | thereof in sanitary sewage collection, treatment and disposal systems, and   |  |  |  |
| 22       |   | other material that is either discarded or is being accumulated, stored or treated   |  |  |  |
| 23<br>24 |   | prior to being discarded, or has served its original intended use and is<br>generally discarded, including solid, liquid, semisolid or contained gaseous |  |  |  |
| 24<br>25 |   | material resulting from industrial, institutional, commercial and agricultural   |  |  |  |
| 23<br>26 |   | operations, and from community activities. Notwithstanding   |  |  |  |
| 20       |   | sub-subdivision b.3. of this subdivision, the term includes coal   |  |  |  |
| 28       |   | combustion residuals. The term does not include:   |  |  |  |
| 29       |   |  |  |  |  |
| 30       |   | f. Recovered material.material, including post-use polymers and  |  |  |  |
| 31       |   | recovered feedstocks converted at an advanced recycling facility or  |  |  |  |
| 32       |   | held at such facility prior to conversion through an advanced recycling  |  |  |  |
| 33       |   | process.   |  |  |  |
| 34       |   | <u> </u>   |  |  |  |
| 35       | (38)  | "Solid waste management" means purposeful, systematic control of the   |  |  |  |
| 36       | (   | generation, storage, collection, transport, separation, treatment, processing,   |  |  |  |
|          |   |  |  |  |  |

|                      | General Assemb | ly Of North Carolina  | Session 2023                              |
|----------------------|----------------|---|---|
| 1                    |                | recycling, recovery and disposal of solid                                       | waste. Solid waste management does        |
| 2                    |                | not include advanced recycling.   |   |
| 3                    | (39)           | "Solid waste management facility" mean  | s land, personnel and equipment used      |
| 4                    |                | in the management of solid waste. Solid   | l waste management facility does not      |
| 5                    |                | include an advanced recycling facility.   |   |
| 6                    | •••            |   |   |
| 7                    | <u>(46)</u>    | "Advanced recycling" means a manufac  | • •                                       |
| 8                    |                | post-use polymers and other recovered   |   |
| 9                    |                | feedstocks, chemicals, and other recyc  |   |
| 10                   |                | include pyrolysis, gasification, dep  |   |
| 11<br>12             |                | reforming, solvolysis, chemolysis, and o  |   |
| 12                   |                | recycling does not include incineration   | ion of plastics of waste-to-energy        |
| 13<br>14             | <u>(47)</u>    | processes.<br>"Advanced recycling facility" means a                             | manufacturing facility that receives      |
| 15                   | <u>(+/)</u>    | stores, and converts post-use polymer   |   |
| 16                   |                | receives using advanced recycling.  | s and other recovered recustoeks h        |
| 17                   | <u>(48)</u>    | "Depolymerization" means a manufa   | cturing process in which post-use         |
| 18                   | <u>,,</u>      | polymers are broken into smaller mole   |   |
| 19                   |                | plastic or chemical feedstocks, waxes,  |   |
| 20                   |                | intermediate, or final products.  | -   |
| 21                   | <u>(49)</u>    | "Gasification" means a manufacturing  | g process through which post-use          |
| 22                   |                | polymers or other recovered feedstocks  | are heated in an oxygen-controlled        |
| 23                   |                | atmosphere and converted into synthes   | • •                                       |
| 24                   |                | valuable raw, intermediate, or final pro-                                       |   |
| 25                   |                | chemicals, waxes, lubricants, coatings, a                                       |   |
| 26                   | <u>(50)</u>    | "Post-use polymer" means a plastic to w   |   |
| 27                   |                |   | commercial, agricultural, or domestic     |
| 28<br>29             |                | · · · ·   | consumer or postconsumer recovered        |
| 29<br>30             |                | <u>materials.</u><br>h It has been sorted from solid was                        | ste and other regulated waste but may     |
| 31                   |                |   | vaste such as organic material and        |
| 32                   |                |   | rities such as paper labels and metal     |
| 33                   |                | rings.  |   |
| 34                   |                |   | or hazardous waste on-site or during      |
| 35                   |                | processing at the advanced recyc  |   |
| 36                   |                | d. Its use or intended use is as a  | feedstock for the manufacturing of        |
| 37                   |                | feedstocks, raw materials, or othe  | er intermediate or final products using   |
| 38                   |                | advanced recycling.   |   |
| 39                   |                |   | cycling facility or held at such facility |
| 40                   |                | prior to processing.  |   |
| 41                   | <u>(51)</u>    | "Pyrolysis" means a manufacturing proc  |   |
| 42                   |                | or other recovered feedstocks are heated  |   |
| 43                   |                | and thermally decomposed and are then o   |   |
| 44                   |                | valuable raw, intermediate, or final pro-                                       | • •                                       |
